**NEW DC MOTOR** announced by the Direct Current Motor and Generator Department is inspected by F. J. Kissell, department sales manager, and P. S. Stough, manager of engineering in the department.

## New DC Motor in Production Here For Use in Severe Atmospheres

A new totally-enclosed, unit-cooled, DC motor for use in severe atmospheres has been announced by the Direct Current Motor and Generator Department.

Designed and built here, the new motor is the smallest standard model of its type. It was developed for application in machine-tool, paper, cement, chemical, rubber, and steel-mill industries, and materials-handling operations. Available in ratings from 15 to 200 hp, it features 50 per cent greater heat transfer in a 37 per cent smaller unit than previous designs.

Compact cooling units, mounted completely within the over-all length and width of the motors, permit operation at extremely low speeds for long periods of time because ventilation is independent of motor speed, DC Motor and Generator engineers said.

A double system of blowers assures rapid cooling. One blower assembly forces cooling air from the room through the external passages of the cooler, while the other forces internal motor air through the closed internal passages of the air cooler.

The blower motors, standard GE totally enclosed type, are for 3-phase, 60-cycle power supply. The blower controller consists of a simple magnetic switch which can, at a slight additional cost, be interlocked with the main controller so that both are started simultaneously.

A thermostatic relay protects the main motor in case of blower-motor failure. Relay contacts can

## Supervisors Club to Hold Annual Meeting Monday

The Supervisors Club has scheduled its annual meeting for Monday, Jan. 11, at the Chamber of Commerce. The meeting will begin at 6:30 p.m. when dinner is served.

Principal speaker will be Sgt. M. Slater, of the Toledo, Ohio, police department. He will discuss "Crime Prevention." The installation and introduction of new officers and administrators will be conducted also. Jerry Duryee, Bldg. 4-6, outgoing president, and Arthur W. Bireley, Taylor St., newly elected president, are in charge of the meeting. They are administrators for Group 1 for the past year.

The following schedule of meetings for the 1953-54 year was announced this week by the new president:

- February—No meeting.
- March 2—Hockey game, Group 5 in charge.
- April 21—Fish fry, Group 2.
- May 12—Company sponsored.
- June 9—Picnic, Group 4.
- July and August—No meeting.
- September 15—Smoker, Group 6.
- October—Civic Theater, Group 3.
- November—No meeting.
- December 1—Company sponsored.
- January 10, 1955—Annual meeting, Group 1.

Newly elected officers in addition to Mr. Bireley are: Lloyd S. Stubbins, vice president, Taylor St.; George A. Finkbeiner, secretary, Bldg. 26-3, and Willie P. Lautzenheiser, treasurer, Bldg. 31-2.

## F-86F Sabre Jet Sets New Record For Cross-Country

The Air Force's North American F-86F Sabre Jet in which Col. Willard W. Millikan established a new cross country speed record on January 2 of four hours, eight minutes, and five seconds from California to New York also set a new record of 24 minutes from New York to Washington on January 5. Both flights were powered by an improved General Electric J47-27 turbojet engine, it was revealed today.

The speed run from New York to Washington was sponsored by the General Electric Company while the cross country run was sponsored by North American Aviation. Both runs clipped five minutes off previous records.

C. W. LaPierre, GE Vice President

Alan C. Lord

## Alan C. Lord New Winter St. ER Manager

The establishment of an employee relations section in the Small Integral Motor Department and appointment of Alan C. Lord as manager of the section has been announced by Thorn L. Mayes, general manager.

Joining the company in 1945, Mr. Lord became a member of the advanced manufacturing program. He received training at the Lynn and Philadelphia plants and later went on special assignment in the Philadelphia Switchgear personnel division. In April last year, he transferred to the Winter St. plant where he was supervisor of the employee relations unit until his present appointment.

A graduate of the Virginia Military Institute, Mr. Lord received his BA degree in English and history in 1939. He did post-graduate work at Rensselaer Polytechnic Institute in metallurgy and studied industrial relations and accounting at the University of Pennsylvania in 1947 and 1948. He served in the U. S. Army from 1941 until 1945. During that period, he was in Germany and was a major.

Mr. and Mrs. Lord and their daughter reside at 2236 Wawona Trail.

## GE Requests Government Reconsider Contract Awarded to British Firm

Charging that the United States will be deprived of more than \$1,159,000 in taxes, and that American workmen will lose wages for one million manhours of work, the General Electric Company has requested that a government contract recently awarded a British firm for two huge electric power generators be reconsidered and awarded to GE, lowest domestic bidder.

In a letter to the U. S. Army Corps of Engineers, James M. Crawford, GE Vice President and general manager of the company's Motor and Generator Division, declared that while the bid of the English Electric Company on two generators for the McNary Dam Project appeared to be lowest, it will actually cost the United States Government and the American people more than the lowest bid by a U. S. manufacturer. He also cited engineering and technical reasons why award of the contract to the British concern is not in the best interests of the United States.

Although English Electric's bid of \$3,651,476 was \$641,225 lower than GE, and the British Company would pay an import duty of

\$422,000, Mr. Crawford said federal, state, and local taxes of \$1,159,000 resulting from manufacture of the units by GE would more than offset a net gain of \$1,063,225 which would seem to result from acceptance of the low foreign bid.

Mr. Crawford also estimated \$2 million in wages will be lost to American workers by award of the contract to English Electric. He said manufacture of the machines would require 500 men working eight hours a day for one year. Wage rates in the United Kingdom are less than one-third those in the United States, he explained, and the wage differential is an important reason why American manufacturers cannot equal the prices of foreign manufacturers.

Mr. Crawford said the McNary

generators are the largest rotating electrical machine ever built. Thrust bearings which support the generator and hydraulic turbine have a load of 4 million pounds, he added, pointing out that General Electric has demonstrated its ability to build and install such equipment successfully by placing the first generator at McNary Dam in operation ahead of schedule. A second GE produced generator is now operating also.

The largest generator built so far by English Electric is less than one-third the physical size of the McNary generators, he said, and so far as is known, the largest thrust bearing furnished by that company supports a load which is less than 1 million pounds.

Mr. Crawford raised the ques-

## 'Mail Call' Starts at Home

How far is "Away-from-home"? To your sons and friends in the armed forces it may be half way around the world or the long, long weeks to the next three-day pass. But letters from home keep our servicemen within "talking distance"—and snapshots with your letters almost put you within arms' length.

The United States Department of Defense has asked the friends and relatives of servicemen to make letter writing their own important part of the national program. Cheerful letters, descriptive in word and picture of the people and activities which the men always enjoyed at home, are the kinds that make separation bearable, that keep them ready for an easy return to home, school, or job.

The boredom of occupational and "outpost" service can be terribly destructive to individual as well as service morale. From the Pacific and the Arctic outposts to the North African and West German installations, American soldiers, sailors and marines are wondering "How goes it at home?" At scores of encampments the "Mail Call" is the most heart warming, morale building, diversion of military days.

Just as your letters should be personal notes of familiar doings by family, children, neighbors and friends, make your snapshots of the close-up variety that show how "Sis" looks in her new hair-do and how Bud looks polishing up the hot-rod. Be sure to include a good shot of you and Dad, and don't neglect one of the whole family together.

Good letters are a snap when you use snapshots as the take-off points for longer, interesting descriptions of your family and his, his home, home town, and country. If you know a man in service, it's right to write.

"Actually, we're not planning to do anything with all this stuff, but we haven't had a week-end guest stay more than a couple of hours so far"

## Pensioners Parade

From Alexandria, Egypt, Charles H. Koomjohn dropped a note to keep us posted on his travels in Turkey and Egypt. He spent three and one-half months in Turkey before going to Alexandria Nov. 14 last year. In Istanbul, he visited relatives and saw the town of Everek where he was born. Staying with his nephew and niece during the holiday season, Charles had a green Christmas, surrounded by palm trees, oranges, lemons, and tropical evergreens. He was an engineer at Taylor St. prior to his retirement Aug. 1 last year.

Mr. and Mrs. Walter Knoche

Enjoying a life of leisure in warm Miami, Florida, Walter "Bieny" Knoche and his wife are in their own home now. He writes that he keeps busy landscaping his yard and making new friends. He says he likes the climate there very much. His present address is: R. R. 2, Box 711A, Miami, Florida. Mr. Knoche retired Aug. 1, 1953, from the Winter St. plant.

A Decatur plant 1946 retired employee, Milo C. Wait, has joined the many other Fort Wayne pensioners who are traveling to Florida these days. Milo and his wife are in St. Petersburg and are living at the Berclare Apartments. He is enjoying the warmer climate also and sends his regards to everyone.

## 2-2 TALES Belle Buchan

First I want to apologize to those of you who are nice enough to read my column, especially my friends in Florida, who say that they never miss it when it is in. We are again on a six day schedule, and that doesn't leave much time for newspaper work, but I will try to do better. . . . I just want to send this message of cheer to Dorothy Mills, who is in St. Joseph Hospital. We miss you and need you, Dorothy, so hurry back. . . . We say good-by to Wally McKay and Walt Dreyer, both of whom are to be connected with the new Holland plant. . . . Elmer DeBolt and Sally Lepper are both back on the job, after a bout with the flu. . . . Our sympathies go out to Robert Dent in the death of his mother, also High Tigges in the death of his father-in-law. . . . Right now our office is bulging at the seams because we have outgrown it. We are in the process of enlarging, so we are pretty crowded. We are looking forward to our nice new home, which we are going to move into soon. . . . In the meantime we want to welcome our new members of the family. They are: Virginia Badger, Lois Baumgartner, Georgia Turnbow, Martha Small, and Glen Seabold, who is taking over our suggestions.

## What's All This About Alcoholism?

There is no such person as a happy drinking alcoholic, nor is there any happiness for anyone whose life is closely associated with such a person.

Of all the miseries to plague man or woman, alcoholism is responsible for more difficulties, disruptions and disasters than any other medical-social problem. Practically everyone has some knowledge of the shocking effects of alcoholism, but all too few people understand what it's all about. Since this dreaded affliction may strike any drinker at any time, everyone—non-drinkers as well as drinkers—should have some intelligent understanding of this problem—the nation's fourth major health problem. To prevent anything, one must understand something about that which he would prevent.

### Can Be Treated

Alcoholism can be successfully treated. What is more important to realize is that it can be prevented if detected early and prompt treatment measures applied. One never knows when he or she might be in a position to guide and help someone in need of assistance with a serious drinking problem.

According to medical opinion, alcoholism is a progressive affliction characterized by compulsive drinking. It is a condition which develops over an indefinite period of time and progresses from bad to worse. Compulsion, in the medical sense, refers to a form of mental disorder in which an individual is "driven" to do things against his will or judgment. His behavior is beyond control of his will power. Thus, a person who drinks too much and cannot stop, in spite of severe damage to self and others, is said to be suffering from a drinking compulsion—alcoholism.

It is essential to remember that compulsive behavior is not willed by the victim nor stopped by will power either. The will of an alcoholic is a damaged one, incapable of normal, healthy use. So, the victim must have outside help if he is to stop drinking permanently—and this must be done if there is to be any hope for recovery.

### 4 Million Alcoholics

Of some 65 million users of alcoholic beverages in this country, it is reliably estimated that more than four million are alcoholics—people whose lives are being interfered with or disrupted by excessive, uncontrolled use of alcohol. Thus, it is reasonable to assume that at least one in every 16 drinkers is involved in this grave problem. The importance of detecting as soon as possible those drinkers who reveal signs of loss of control over alcohol cannot be overestimated. The alcoholic journey is a painful one. To avoid its painful end will spare untold miseries for all involved.

It has been said that "alcohol alone will not make the alcoholic." This seems reasonable, for we note that the majority of drinkers do not become alcoholics. There is no conclusive answer as to why an individual becomes an alcoholic. However, it is quite obvious that the use of alcohol, together with certain personality defects, are essential for the appearance of alcoholism.

That the alcoholic does not stop drinking in spite of the painful experiences associated with his disordered drinking record should be ample evidence that underlying physical and/or mental disturbances are driving him to drink. No emotionally healthy person does anything which will cause him and others to suffer, provided, of course, that he is mentally capable of realizing that suffering will result from a particular action. Yet, this is exactly what the alcoholic does. He knows from sad experience what will happen whenever he takes that first drink. One drink will be too much and any number not enough. Still, the compulsion to drink cannot be resisted.

Almost every alcoholic once felt that alcoholism was something which happened to the other fellow only. Certainly, no one sensibly assumes such exception to other illnesses of body and mind. When you hear a drinker firmly declare: "Oh, that could never happen to me!" the odds are pretty heavy against that person, for generally speaking, it indicates a drinking problem is already at hand.

### Symptom of Disease

It is commonly accepted that alcoholism is the symptom of some underlying disorder or disease—mental and/or physical—as are fever readings or high blood pressure measurements. For many years, alcoholics have been regarded as moral "no-goods," lacking in will power and addicted to drink because of a weakness of character. They have been preached to, scorned, punished and ridiculed, as though any of these measures have ever been effective in treating any sick person.

Too many persons are inclined to believe that alcoholics are such only when drinking. However, it is quite apparent that the alcoholic is sadly out of step with the world about him—even when not drinking. He's most confused when sober, and hopelessly confused when drinking.

The U. S. Public Health Service defines a public health problem as a "disease which is so widespread in a population, so serious in its effect, so costly in its treatment, that the individual unaided cannot deal with it himself." This is why this agency ranks alcoholism as the nation's fourth major public health program. This is why, as such, alcoholism merits the attention and concern of everyone.

The telltale signs of a drinker's loss of control over alcohol soon make themselves evident. When detected the danger signal is flashing and it's time to do something about it quickly.

## Don Porter, Bldg. 26, Earns Diamond Derby Gold Watch

In recognition of unusual ingenuity and perseverance as a member of the Service Engineering Section here, Don E. Porter, Bldg. 26-2, was awarded a Diamond Derby gold watch this week in the 75th Anniversary contest sponsored by the Apparatus Sales Division.

Mr. Porter's award is in connection with the original conception and later development of the Ballast Service Plan. The Plan provides a coordinated team of sales and service representatives at sales office, distributor, and dealer levels for the purpose of increasing the number of satisfied ballast customers and the company share of the ballast replacement market.

Later, Mr. Porter was a part of the group which developed the Plan and shares credit for it with P. M. Starkle, C. D. Pease, D. W. Day, J. H. McCullough, and H. Cross, all members of the Specialty Transformer and Ballast Department at that time.

Recognition for aiding in the successful completion of the Plan is also given G. C. Harvey, manager of Ballast engineering; A. E. Rowe, manager of Ballast sales; D. V. Wilson, New York office, and L. A. Goehring, Atlanta office. The two latter men are district Ballast specialists.

A member of the Service Engineering Section of the Apparatus Sales Division at the time of his work on the Plan, Mr. Porter has been appointed engineering administrative specialist in the Ballast Department since that time. He is a graduate of Purdue University, receiving his BSEE degree. He came to the company in 1947.

Mr. Porter is a registered professional engineer, a member of FWAGEE, and the GE Squares Club. The Porters have three children and live at 4717 Reed St.

**DIAMOND DERBY WINNERS**—Don E. Porter, second from left, was presented a gold watch this week in conjunction with the 75th Anniversary contest of the Apparatus Sales Division. R. P. Cheesman (left), manager of service engineering here, made the award. G. C. Harvey (right) manager of Ballast engineering, and E. C. Schorr, manager of Ballast marketing, were present when the award was made.

Lester A. Hubartt

Carl A. Brenner

## Two Recent Appointments Announced In Specialty Motor Section 402

Two appointments in Specialty Component Motor Section 402 were announced this week by Chester B. Smith, superintendent.

Lester A. Hubartt has been named cost reduction and manufacturing loss specialist. Carl A. Brenner has been appointed foreman of test and inspection.

In 1923, Mr. Hubartt became a General Electric employee and entered test and inspection as a tester. He became a leading operator in Section 401 in 1940. He was a foreman of test and inspection in Section 402 from 1951 until his present appointment.

Mr. Hubartt is a member of the Foremen's Association and the Supervisors Club. The Hubartts have five daughters and six grandchildren. Mr. and Mrs. Hubartt reside at 1214 Taylor St.

After joining the company in 1940, Mr. Brenner went to Bldg. 17-4 as an inspector. He became a leading operator in Bldg. 6-4 in 1951 and last year went to Bldg. 4-6 where he did quality analysis until his present assignment.

Mr. and Mrs. Brenner live at 4001 Warsaw St.

## Squares Wives Plan 'Charm and Chatter'

"Charm and Chatter" will be the theme of the Tuesday, Jan. 12, meeting of the GE Squares Wives organization. The initial meeting of 1954 will get under way at 8 p.m. in the Squares' club rooms.

Featured speaker will be Miss Carol Mulqueeny who will discuss fashions. Mrs. Robert Hodell is serving as chairman of the event. Assisting her is Mrs. Robert Drake, co-chairman, and Mrs. Richard Dochterman, Mrs. C. J. Herman, Mrs. Robert Lary, Mrs. W. A. Pringle, Mrs. I. E. Ross, Mrs. L. C. Swager, and Mrs. D. E. Porter.

## Elex to Sponsor One-Day Trip to Windy City Feb. 27

Elex Club will sponsor a one-day trip to Chicago Saturday, Feb. 27, Voyce Brumbaugh, president, announced this week. Other coming events for the club are a Continental Tea and the opening of a Parliamentary Procedure course.

The one-day trip to the Windy City will cost \$7 for members and \$8 for non-members. The price includes round-trip train fare and transportation from the Union Depot to the uptown area. Reservations should be made with Women's Activities Office at Broadway or Taylor St. Deadline for payments and reservations is Feb. 19.

A private train has been scheduled for the trip. Those taking the one-day jaunt will be free to shop, see a play, and do as they wish. Persons wishing to see a stage play must make their own reservations. Two plays will give matinee performances that day. They are, "The Seven-Year Itch" and "Wish You Were Here." In making reservations for a play, enclose a money order or cashier's draft for the seats, which are \$3.80 each for each of the two shown, the president stated.

The train will leave Fort Wayne at 7 a.m. Feb. 27 and arrive in Chicago at 9:30 a.m. It will leave Chicago at 10:30 p.m. and return to Fort Wayne at 1:30 a.m.

Elex members who took the 1953 European Trip will entertain non-members who took the trip and guests at a Continental Tea Sunday, Jan. 17, at the YWCA from 2 to 5 p.m. Color pictures of the trip will be shown by Mr. William Strong. Reservations are due Tuesday, Jan. 14 and should be made in the Women's Activities office at Broadway or Taylor St.

The committee in charge of the tea includes: Roqua Wibel, Ida Mugford, Dorothy Jensen, Lucinda Pettit, Virginia Molden, Dorothy Baumgartner, Betty Spitler, Donna Bauermeister, Elizabeth Reed, Helen Engle, and Mary Jane Horrell.

A 10-class course in Parliamentary Procedure will open Monday, Jan. 18. Sponsored by Elex, the course will be limited to 30 members. Price of the series is two dollars per person. Reservations should be made with Ernestine Malone, Women's Activities office, Bldg. 18-1, Ext. 555. Classes will be conducted Monday evenings from 7:30 until 8:30 p.m. Barbara Hyman will instruct the series. The first meeting, Jan. 18 will convene in the Women's Activities office, Bldg. 18-1.

Oliver D. Passwater

## O. D. Passwater Dies After Long Illness

Oliver Delton Passwater, 73, a retired Decatur plant employee, died Friday, Jan. 1, at the Adams County Memorial Hospital. He had been in ill health for two years.

Services were conducted Sunday, Jan. 3, at the Black Funeral Home by the Rev. Samuel Emerick. Burial was in Willshire Cemetery.

Mr. Passwater, who lived at 219 N. Ninth St., Decatur, retired from the Decatur plant, Oct. 1, 1946. Survivors include his wife, Clara; one daughter, Mrs. Ira Huber, of Willshire, Ohio; two sons, Forest, of Van Nuys, and Robert, of Fort Wayne; four grandchildren, and one brother, A. F. Passwater, of Willshire.

## Local Extension Centers Open Second Semester Courses

Both credit and non-credit courses at Purdue University Extension and Indiana University Extension for the second semester have been announced.

Persons interested in enrolling in any of the classes offered may do so at the centers. Those who wish to enter courses at Purdue should do so Jan. 26 and 27 at the office located on the corner of

Jefferson and Barr Sts. The first classes at Purdue get under way Jan. 28.

Beginning this week, enrollment was opened for I. U. Extension classes. The center is located at 1120 S. Barr St. The second semester will begin Feb. 1.

Printed bulletins listing courses and descriptions plus fees are available at the two centers.

Adult education classes at the Purdue Center are open to every-

one and persons may enroll at the first class meeting of any of these sessions. The first of these gets under way Jan. 11 and is listed as Know Your Income Tax. Other short courses, which continue approximately four weeks, include flower gardening, growing house plants, contract bridge instruction, interior decorating, beginning dressmaking, square dance instruction, fishing school, conversational Spanish, tailoring, beginning knitting, advanced knitting, stock and bond investments, and photography.

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

William Chapman, Noel Young, Agnes Wolf, Norman Wolf, Mable Binkley, Charles O. Gibson, Rufus C. Niblick, Raymond Barwiler, Faye Stockberger, Phyllis Faulkner, Jerome Duryee, Martha Scott, Beatrice Davis, Frances Brake, True Sheets, C. Giller, Robert Treace, Sr., Mildred Pfaller, Margaret Parisot, Margaret Miller, Leonard Jenne, Francis Grim, Clifford Denny, Marie Anderson, Alice Claymiller, Margaret Gerardot, and Danny Cartan.

### Dismissed From Hospital

James Snodgrass, Harold Orr, Lillian Schinnerer, Robert Phillips, Mamie Richardson, Margaret Kenyon, Loyal Liddy, Irene Conrad, Carol Eastes, J. C. Fitts, Louella Lahmeyer, Raymond Barweiler, and Paul Kissinger.

### Returned to Work

George Weikart, Henry Webster, Violet Minnick, Vesta Risser, Anthony Holocher, Catherine Thompson, Geraldine Black, Joseph Sorg, Edwin Howard, Agnes Wolf, Frank Thomas, Paul Armstrong, Paul Grogg, Doris Lantz, Faye Christlieb, Martha Scott, Raymond Meyer, Velma Seibt, Dohr Kreig, Herbert Sessler, Michael Remecki, Grace Nealey, Tena Dondera, Martha Gaunt, Harold Orr, Reuben Roller, Glenn Gudakunst, Margie Ogden, Wavalee Miller, Treva Poinsette, Hallie Hosler, and Bernice Lund.

## Sabre Jet

(Continued from page 1)

dent and General Manager of the Company's Aircraft Gas Turbine Division, said the improved J47-27 engine provides over 10 per cent more thrust, or driving force, and lower specific fuel consumption than the GE power plants which saw service at the beginning of the Korean War. The improved engine was used in late model Sabre Jets toward the end of the Korean fighting and has a special ignition system which makes possible high altitude starts.

The J47-27 engine is an "all weather" engine which makes possible the successful completion of missions under severe icing conditions. "Icing up" has been a serious problem in jet operation. Supercooled water droplets, striking the air inlet at the nose of the engine form into ice crystals and within seconds can block passage of air into the engine. General Electric engineers overcame this problem by giving the engines "hot noses." Hot air from the engine compressor is bled into hollow parts of the nose, with temperatures high enough to melt any ice crystals forming.

The J47-27 engine has been produced at the General Electric Company's plants in Evendale, Ohio, and at Lynn, Mass.

Similar models of this engine are powering Boeing's B-47 bomber and the Navy's carrier based FJ2 fighter.

## Waring TV Show For Ladies Only Sunday Evening

Fred Waring devotes his half-hour television show to the ladies this Sunday evening. The program, which appears over the CBS-TV network from 8 to 8:30 p.m. CST, will feature arrangements by the orchestra and Glee Club honoring all the famous ladies of song from "Sweet Adeline" to "Mamie." Among the other songs paying tribute to famous femmes will be "Matilda," "Anitra's Dance," "Sweetheart of Sigma Chi," "Cecilia," "Laura," "Diane," "Romona," "Sweet Genevieve," "Juanita" and "Sweet Sue." Closing the program will be the ever-popular Waring choral arrangement of the ageless and beautiful, "Ave Maria."

The Fred Waring Show, sponsored by General Electric, is produced by Cy Pitts and directed by Byron Kelly. Scenic designs are by Sam Leve, agency is Batten, Barton, Durstine and Osborne, Inc.

## New Motor

(Continued from page 1)

be arranged to cut off the main motor or sound an alarm. Located at the commutator-end air duct, the operating mechanism is accessible from the outside.

The new motors are available in the same speed and horsepower ratings as standard, constant or adjustable-speed, general purpose motors.

## GE Requests

(Continued from page 1)

tion of whether, in the event of war, foreign manufacturers would either be able to produce or deliver new equipment, or provide spare parts or service to keep equipment in operation.

The award of the contract to the English Electric Company is not in the best interests of the United States, Mr. Crawford concluded, because the ultimate cost to the American people will be greater, American wage-earners will be penalized, and national security

# GE to Grant 200 Six-Week Fellowships To High School Math, Science Teachers

Two hundred high school science and mathematics teachers from 24 states will spend six weeks of expense-free study next summer under fellowships granted by the General Electric Company, it was announced this week.

Four programs will be operated at Union College, Schenectady, for 50 science teachers; Rensselaer Polytechnic Institute, Troy, N. Y., for 50 mathematics teachers; Case Institute

cations are made to the colleges.

General Electric underwrites all expenses associated with each six-week program and places some of its facilities and personnel at the disposal of the colleges.

GE engineers, scientists, and executives are called upon to talk in their special fields and the company arranges trips to its laboratories and plants to show the teachers how subjects in their fields are applied in industry.

General Electric sponsors this program not only as good investment for itself but as an opportunity for high school science and mathematics teachers to see how the courses they are teaching will be useful to their high school students later on in life.

The program is good for the nation, too, because it helps encourage young people via the teachers to take the training needed to help maintain an adequate supply of well trained manpower. Convinced teachers, according to the company, are better able to convince their students of the necessity for science and mathematics as background not only for engineering and many other professions, but also for the best jobs open to high school graduates.

Applications are being accepted by Purdue from these states: Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, West Virginia, and Wisconsin. Case is accepting applications from the same states plus Western Pennsylvania.

States from which applications are being accepted for Rensselaer Polytechnic Institute are: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and District of Columbia. Union College is accepting applications from the same states plus North Carolina.

## Electronic Air Filter Boon to Housewives

LOUISVILLE, Ky.—Spring or Fall housecleaning may become necessary only once in every two or three years as a result of a new electronic air filter announced here today.

The device, manufactured by the American Air Filter Company, provides the nearest approach to dust-free air yet attainable in the average home. Believed to be the first commercial dry-type filter small enough for residential use, it is designed to be incorporated in warm-air heating systems and all weather air conditioners to remove dust, grime, soot, smoke, lint, and pollen from the air before it is circulated through the house.

Based on an industrial principle called "electrostatic precipitation," the unit uses a General Electric power pack to do its "housecleaning." This builds up an electric charge on the filter and an opposite charge on the particles in the air. The two are thus attracted to each other and the dust is captured much the same way bits of iron and steel are drawn to a magnet.

Many of the airborne particles filtered from the air are only 1/100,000 of an inch in diameter—so small it would take 1600 of them, packed closely together, to make a spot barely visible to the naked eye.

## TRANSFORMER TATTLES

BLDG. 26-4

Dutch Norwalt

Ruth says to the unknown admirer, "Many thanks for the nice Christmas gift." . . . Congratulations are in order for Dorothy Reynolds who has a new grandson. . . . We wish every happiness to Lillian Jackson Yackee on her recent marriage. . . . Girls, we have seen everything. Take a look in the Winding Section. Something new has been added. . . . Beverly Stauffer is back at work after her recent illness. . . . Irene Kintz has a new daughter-in-law. Robert is in the Navy stationed in New York. They were married New Year's Eve. . . . More good things for Irene. Her son, Gerald, was discharged from the Army. He was stationed in Korea. . . . It is reported that Maurice Casey got his wish for Christmas. His wife got no television set. . . . Fay Russell is having trouble with his new Chevie. A little closer examination showed no carburetor. Buy an automobile, Fay. . . . From what we hear, John Sinclair must have had the back of his television open again. . . . Tom Freeman finally threw in the torch. He is riding the west end elevator at 3:30 now.

## BLOOD LIST

The following people donated blood during the week ending December 31:

Max Brickley, Mrs. Thelma Koudler, and Joseph T. Hill.

may be endangered by lack of assurance that the equipment, essential to national defense, will be delivered or if delivered, kept in continuous operating condition.

The letter is addressed to the District Engineer, U. S. Army Corps of Engineers, Walla Walla, Washington. Copies have been sent to Secretary of the Army Robert T. Stevens, Office of the Chief of Engineers, U. S. Army Corps of Engineers, Washington, D. C.; and the Division Engineer, U. S. Army Corps of Engineers, Portland, Oregon.

CELEBRATES 35 YEARS HERE—Ross Strodel (second from right) receives a congratulatory letter from P. Frank Peternell on his 35th anniversary as a General Electric employee. Mr. Strodel joined the company as a machine operator in Bldg. 4-3. He is now a foreman in Section 417 at Taylor St. Shown with him are Howard McVay, B. B. Gausepohl, and Fred Pyle.

# from the panel's point of view...

TODAY'S QUESTION IS: DO YOU THINK SENATOR McCARTHY SHOULD BE CONTROLLED IN HIS INVESTIGATION OF COMMUNISM?

(Our panel today consists of four employees who have received Wise Owl awards by saving their eyes through the use of safety glasses on the job.)

Edward Klomp, Bldg. 17-4: "Well, I don't think he should be stopped but there should be some action taken after the investigations. And these investigations should not be made a political football. The safety of our country should come first."

James Parker, Bldg. 17-2: "I believe Senator McCarthy should be controlled to some extent in his investigations of Communism. However, I think he is controlled sufficiently by public opinion and the law. Communism has entered our country and government because

we have been too lenient.

Orville Johnson, Bldg. 12-1: "No. I believe he is carrying them a little too far, but in America the public should know just how things stand so they can help control the men and party in power. Public ignorance is the first step in Communism."

John Bell, Bldg. 20-2: "Yes, I do think Senator McCarthy should be controlled to a certain extent because this job is too ticklish for one man's opinion and could cause serious trouble to our country."

## GE Club Slates Square Dancing Tomorrow Night

From 8:30 until 11:30 p.m. tomorrow evening, the GE Club will be the scene of a square dance sponsored by the Club. Fifth in the series of 12 such dances slated for the 1953-54 calendar, tomorrow's informal event will feature the music of Johnny Lukens and his Rhythm Rascals. There will be round as well as square dancing.

The dance is open to GE employees and their friends free of charge. Tomorrow afternoon starting at 1:30 p.m., another kiddies' movie program will take place in the Club. The weekly movie programs for children are free of charge also.

## Men's City Bowling Tourney Starts Sat. At GE Club Alleys

The GE Club alleys will be the scene of the annual Men's City Bowling Tournament starting tomorrow and continuing for the following five week-ends.

The team event of the tourney will be conducted on Club alleys, while the doubles and singles will take place at Berry Lanes.

Due to the tournament, there will be no open bowling or mixed doubles events at the Club during the period of the city event. The next mixed doubles match scheduled at the Club will be conducted February 20, Joe Kramer, bowling chairman, stated.

Kramer also reported that plans are being formulated for the second annual Men's Handicap Doubles Tournament sponsored by the GE Club. This will take place after the conclusion of the coming city tourney.

Wife: "Why do you always flirt with the waitresses?"

Husband: "I'm playing for big steaks."

## STORMY WEATHER BLDG. 17-4

by Bill Hurtt & Larry Reed

The king is dead; long live the queen. In case you are at a loss for that statement, it means that at long last Clarence Nussel took the fatal step and married Hilda. From all reports they were married on January 1. It goes without saying, some feel that is a rough way to start the New Year. But who the bravest of the two was, we can't say. All preparations were made beforehand. An ambulance stood by, four fellows were ready to carry him out and two to catch him when he keeled over. Apparently all went well because from last reports they had taken off for Florida. Seriously though, we wish them both all the good luck and happiness in the world in their venture. . . . Don Baker tried to imitate Karl Soest and break down the office door with his nose, but he found out too that there simply isn't any give to it at all. . . . The story is that Bill Geist got 20 hits out of 20 shots the other day while hunting, but most of the boys doubt the veracity of that story so he'll have to back it up. . . . It is with regret that we said good-bye to Dorothy Raucci and Joan Evers. We congratulate Joan on her coming marriage and we'll miss that cheery disposition of Dorothy's. To the girls who took their places, Bernice Mertz and Lenora Hanes, we extend a warm welcome. . . . Everybody seems to be getting in the act. Mel Guilleme now is planning to be married in the very near future. Look out, all you single boys, it seems to be catching. . . . Carol Elder has left us to assume his new duties in Bldg. 4-6. While we have all been provoked at you, Carol, one time or another, it didn't last very long. The Test Department won't seem the same without you. Our sincerest wishes for success and good luck in your new job come from us all and don't forget that you can still drop down to see us once in a while. . . . Welcome back to Howard Brooks returning from his third week's vacation. . . . Even though it's been a long time since they were awarded, Larry Reed still wears his Navy "E" button and wears it with pride, too. . . . In spite of the high priced vitamins Herb Buck has been taking, old man cold caught up with him and that accounts for him staying away from everyone. . . . Quotation for the week: "Gentleness succeeds better than violence."

Dateline: Munsun-ni, Korea, comes a letter from Kenneth McCormick, former Section 113, Taylor St. employee. Kenneth, who was promoted to Pfc. recently, is a clerk-typist in the Adjutant General's Section at the United Nations Command Repatriation Group headquarters.

Sending his thanks and appreciation to Elex for the boxes the club has sent him and for the GE NEWS, Ken writes that he would like to hear from any of his former friends and co-workers here since he will be in the Service for a while yet. His present address is:

Pfc. Kenneth D. McCormick  
US 5339102  
HQ UNCREAG APO 72  
c/o P.M. San Francisco, Calif.

A former Bldg. 26-4 employee, Richard Hull, dropped a few lines from Korea last month also. He says he has five months duty in Korea before returning to the States. Then he wants to return to the company. Dick says he appreciates receiving the GE NEWS which helps him keep up on the news here.

South of the Mason-Dixon line, W. W. Edwards is stationed in Alabama at Camp Rucker. He was recently transferred from Ft. Belvoir, Virginia, where he attended an engineer foremen's school. Pvt. Edwards worked in Section 417, Taylor St. before entering the Armed Forces. His present address is:

Pvt.-2 W. W. Edwards  
RA 16436674  
Co. A 682nd. Engr. BN. (C)  
47th. Inf. Div.  
Camp Rucker, Alabama.

Genevieve G. Baker, former Bldg. 26-3 employee, recently changed her name to Mousseau. She was married to S/Sgt. Robert Mousseau Nov. 21, 1953, in Fort Wayne. Her present address is:

A/2C Genevieve G. Mousseau AA8-507-583  
2045 AACs Sqdn.  
Andrews Air Force Base  
Washington 25, D. C.

The following employees have entered the Armed Forces: Arthur M. Rudek, Gene L. Pope, and Henry Henderson.

## SHAFT SHAVINGS BLDG. 19-3

Lawrence Bresler is among them now. He was all in Monday morning. He just got television. . . . Bert Pequignot and Fred Reinking who are on pension came visiting recently. We were very glad to see them. Bert says he is still resting. They both are looking swell. . . . Kenneth Nulf has joined the Polar Bears, but not intentionally. While fishing, he broke through the ice. BR! BR! . . . Nick Nitcher is back from vacation. He spent most of the time ice fishing and caught some nice ones. . . . We are

glad to see John Campbell back at work after a bout with the flu. . . . Paul and Mary Lou Gruber spent New Year's with Mary's folks at Pontiac, Mich. . . . Elmer Minnick is making the boys envy him by sending them cards from Florida, the land of sunshine, where he is enjoying a mid-winter vacation. Lucky guy! . . . Jerry Stanger is starting the year out all right, with a brand new DeSoto. Another lucky guy! . . . The Shrine Circus is coming to town, soon, so that makes Frank Kartholl happy. It is also a worry to Eloise. She has to keep such a close watch on him, while it is here.

HAPPY DAYS!—Mamie B. Allen is presented with an orchid by W. L. O'Brien on her last day at General Electric. Mrs. Allen has been a GE employee for more than 30 years. During this time she has been a veteran member of the GE Club entertainment committee and a former officer of the Elex Club. At retirement she was employed as a tester in Bldg. 4-5.

## Raymond J. Sollohub Given Mechanization Specialist Post

The appointment of Raymond J. Sollohub as mechanization specialist in the General Purpose Component Motor Department has been announced by Paul E. Merkey, manufacturing engineer.

In 1936, Mr. Sollohub joined the company and entered the Apprentice School at Schenectady. After graduation from the machinist-toolmaker course in 1940, he became a boring mill operator. Later he went on inspection.

Entering the U. S. Army in 1942, Mr. Sollohub spent two years in the European Theater of action and was discharged in 1946. He returned to GE then to become a foreman on the Hermes guided missile project. Two years later he went on planning at Schenectady.

After going to Oak Ridge in 1951, Mr. Sollohub became aircraft nuclear propulsion project supervisor of methods engineering. Later he went to Cincinnati in the same position and had this job until his present assignment.

A graduate of Union College, Schenectady, Mr. Sollohub received his AB degree in industrial administration in 1944. He is a member of the American Society of Tool Engineers.

Mr. and Mrs. Sollohub and their four children reside at 2004 Kensington Blvd.

Raymond J. Sollohub

## SLEUTHING in 4-6

by Al Happel

Congratulations to the Warren Berkheisers who announce the arrival of a baby daughter, Nancy Jean, born January 3, at 11 p.m. Baby Nancy has two sisters and one brother. Even though she had two strikes against her when she entered the world (she was supposed to be a boy and she arrived in 1954 instead of 1953) even having to wait for a name (they had only picked out a boy's name) we conclude that Daddy Berkeiser is a very proud man. The baby looks like him and he already has a picture of her to prove it. Now what do you think of that—that lucky, lucky baby! Eh, Warren? . . . TODAY we bid farewell to Steve Devich, TE in Max Barrows' group, and Jaime Ibanez, TE in Bob Loveland's group. Good luck, boys. We'll miss you! . . . CALAMITY BILL—What's this we hear about Bill Mancke making like a ski-boy in the parking lot last Tuesday morning in the fresh-fallen snow. Bill's thermos bottle broke, but he had presence of mind to remove the remains from his lunch pail in order to save the rest of his lunch from being coffee-soaked. . . . FORRIE CARLSON thought he could get ready for work this morning without turning on the light. He managed, but as the result of no light he arrived at work with two brown shoes, which is all right, but they were of a different style. Was he trying to start a new fad, or too much TV? . . . WE WISH a speedy recovery to Jerry Duryee. . . . WELCOME to Carroll Elder who is working for C. J. Herman. He formerly worked in Bldg. 17-4. . . . WE WISH a happy birthday to Ozzie Lacerte tomorrow, Jan. 9. . . . NEW TV CLUB MEMBERS this week are Mary Smack and Clark Stevens. We also hear that Jack Jennings is supposed to have had one for a month according to

Shirley Doster. . . . WELCOME to LaMar Mosley, new TE in Bob Loveland's group. He comes to us on his third test. He has a BS degree in Industrial Engineering from the Lamar State College, Beaumont, Texas. His home town is Orange, Texas; just a Texas cowboy, eh? . . . ALSO WELCOME to Harry C. Deitz, Jr. (pronounced Dites if you are of German descent. Harry pronounces it Deets). He is a graduate of Carnegie Institute of Tech, and has a BSME degree. His home town is McKeesport, Pa. You can find him in Art Wilson's group. His hobby is music while Lamar's is golf and sports of all kinds. P. S. You single gals, they both are unattached (as of this date, that is). . . . MYSTERY QUIZ—What was Don Meyer doing Christmas Eve en route to Cincinnati, when he suddenly discovered "There is no Santa Claus"? . . . FLASH! Or do we mean Clash. H. P. Love appeared at work Tuesday with one blue sock and one green sock. . . . Joe Truba continues to fight a running battle with the mathematics of the cafeteria cashier. And what irks him most, he usually is right. . . . Shorty (Halo to you) Becker's story of the week: A draftee prospect, having his eyes tested, asked the Doc, "What chart?" "What wall?" The lad, classified 4-F, was pointed in the direction of the door. That night the doctor, taking his seat in a movie, noticed the near-blind youth in the next seat. Several minutes of frantic thought waves passed between them. Then the lad piped: "Do you know when this bus leaves, Mister?" . . . Hail to thee, Doc Potter and Johnny Johnson, returned after a week's vacation. . . . Tom Dowling is now assigned to the Fort Wayne office.

## THISA & THATA BLDG. 4-3 and 4

by Helen Engle

What is this new song that John (Spotsy) Stamper is writing to Dear John? . . . Bud Struver, Helen and Pappy's son, has been sent to St. Louis to school. They would move him from California in the winter. . . . Congratulations to Bob Meyer on his first anniversary with Section 401. . . . "If you really want to celebrate New Year's," says Ginny Burkett, "you should spend it in Petroleum like I did." . . . Glen Castle went ice fishing in Michigan and said he got his limit. Seeing is believing. . . . The biggest Boy Scout in Section 401 is Bill Charleston. If you want to know how to start a fire without matches, just ask him. . . . No one else can tell time but Herb Black, since he got his new watch. . . . Louis Davis is going on the retirement list after almost 37 years of GE employment. He is planning a short trip to Florida in the near future. . . . John Figley said his callers came a bit too early. He hadn't had time to get dressed, but he really did think that Paul Hendricks was bringing him a small portion of venison. . . . Don Mason says he can improve on that little poem "Mary Had a Little Lamb," by changing it to "Donald Had a Little Billy-goat." . . . Francis Harter says if they make automobiles much longer he is going to have quite a problem with his police force. They won't know which end of the car to arrest as the front end will be leaving town as the rear end enters town. . . . Congratulations to Frank Voirol who became grandpa again. It was a boy this time and almost a Christmas present, December 26. . . . Dale Bentz is the proud papa of a new baby boy. . . . Jay Meichiel is also a grandpa or should we say grandma as it was a little girl. . . . Jerry Pierce has a red nose; he went ice fishing. It was not the sun but the wind and cold that gave him the red nose, no fish either. . . . Peg Phillips woke up and turned the alarm off before it rang, fixed the fire, and put the coffee pot on and then went back to get dressed for work. She glanced at the clock again and found out that it was only a little after two instead of five, so she had a few more hours of sleep. . . . Katie Gilbert says she found a new way to make sour milk pancakes. She uses baking powder instead of soda. They were so tough that they couldn't eat them (it was a double batch, too) so the poor dogs got them. Then her nice hubby made another batch using the right ingredients. He even washed all the dishes for her. Do you suppose she made them wrong in the first place, so he would take over? . . . Congratulations to Frieda Knoche, who was married to Art Poehler on New Year's Eve. Here is wishing you much happiness. . . . That boy the Bill Bernings were expecting arrived January 2. They named HER Linda Jean and she weighed in at 7 lbs., 9 ozs. Mother, daughter, and father are doing fine. . . . Did you ever see anyone so forgetful as Joyce Schroeder? She even forgets to get the rolls. . . . We are sorry to hear that Maureen Brake had to undergo an operation. She is now recuperating at the St. Joseph Hospital. . . . Pat Gardner's sister, Mrs. Bill Harris, is visiting Pat for a time. She is from Mexico. . . . We are glad to have Bea Davis back. She had been ill. . . . Reggie Engeman probably won't be riding a bike for a while, not until some of the bruises are healed anyway. . . . Unis Steinbarger and her husband celebrate their eleventh wedding anniversary

this month. . . . Wonder where Buclah Emmer stopped after work New Year's Eve? She had such a terrific toothache up here, but it was better by the time she reached home. . . . Mary Alice Williams spent New Year's in Vincennes, Ind. . . . Edith Juillat became a mother-in-law for the second time last Saturday when her son, Monte, was married to Barbara Blotkamp of Avilla. It was a beautiful wedding and Edith held up real well. . . . Birthday greetings to Alam Doctor, Fern Painter, and Augusta Gallmeier. . . . Birthday greetings to Lois Facks on Jan. 1; Melvin Singer, Jan. 1; Lavon Nesbitt, Jan. 6; Ruby Cunningham, Jan. 9; Thelma Blue, Jan. 4; Arnold Lauer, Jan. 21, and Ruth Moodie, on Jan. 26.

## COUNT OFF SECTION 417 TAYLOR ST.

by Marguerite Stahl

Paul Winters has all of the symptoms of a TV set. Now all he needs is to have it delivered into his home. . . . Hugh Johnson thinks the Armchair Theater program should come on earlier in the evening, so it wouldn't give the working man TV eyes. . . . Louie Kintz has a pair of temperamental ears. When they get red, you want to watch out. . . . We are happy that Doris Walker's brother-in-law, Johnny Cox, who is an employee at Broadway GE, was able to go home from the hospital Sunday and we wish him a speedy recovery. . . . Congratulations to Iva Powell on the beautiful new diamond ring and wrist watch she received. We hear that it won't be too long until wedding bells will be ringing. . . . Linda Wahrer had a wonderful time in Florida and says someday that is to be her home. . . . Section 17 extend hearty congratulations to Mr. and Mrs. Charles Dunbar on their new baby daughter, Marlene Ann. . . . We welcome Joyce Jump and Melinda Bradtmiller in Lead Section, also our in and out-er, Cozy Walper. . . . Congratulations to Josephine Lutz on the birth of a new granddaughter. . . . Our Florida vacationers, Clyde Helms and Harry Todd, are back with us.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

Harry Parker

We have often heard of people exchanging Christmas gifts that did not strike their fancy for something more to their liking, but to exchange a Christmas tree is something different. This is just what Darrell Daniels did. After arriving home with said tree and placing it in the holder, he was very much displeased with the tree, so he loaded it up and took it back. Then he selected one more to his liking. . . . Clarence Rothgeb is another one who had Christmas tree troubles. It seems that he has for years selected the trees, all of which displeased his wife, so this year he decided to let her pick out the tree. Arriving at the point of selection, she did pick out a nice tree, but after it was erected, she did not like it. Clarence said, "Well, you picked it out." She countered with, "Well, you only took me to one place." Evidently she wanted him to drive her around to all of the places selling trees. Our advice to you, Clarence, is to purchase an artificial tree. Then there will be no more arguments. . . . Brice Martin had the misfortune of having his milkhouse burn. Instead of erecting a new one, he decided to see if he could mooch a deep-freeze from some one. After much searching he located one. It seems that it was owned by an elderly lady who had no use for the freezer, so she gave it to him. Then came the problem of having it moved to his place. Now, understand he did not want this operation to cost anything but his attempts to find a free mover were in vain, so he had to pony up the cash to get it moved. Evidently Brice thinks that everything should be on the free list during the holidays. . . . Charlie Winans is forever complaining about having to do so much free work in connection with his job as an officer of the GE Club. We are inclined to believe that he does not do too badly as we observed him coming out of the Club building carrying a 20-pound ham.

HONORED AT RETIREMENT—Jacob E. Walters and his wife (seated) were honored recently when Mr. Walters retired as a Section 113 employee at Taylor St. Shown with them are (l-r) Carl Christlieb, Herman Doehrman, George England, and Lawrence Garton.

# SIX MORE SERVE GE FOR 30 YEARS

LEO R. MAPLE (center) recently became a 30-year GE employee. Congratulating him are (l-r) Julius Warnement, Art Slane, Edward Gerken, Mr. Maple, Henry Snider, and Carl Brokaw. Mr. Maple is an employee at the Fairfield Ave. Plant.

GEORGE WEEKS talks over his 30 GE years with William Rodocker, Henry Gallmeyer and Curney Smith. Mr. Weeks, who reached his 30th year here on Nov. 27, is employed in Bldg. 20-1.

DORRIS PROXMIRE (right) gets best wishes on his 30 GE years from Bill Charleston. Mr. Proxmire, a screw machine operator in Bldg. 4-2, celebrated his anniversary in November.

PAUL KENNERK (left) receives a letter of congratulations from Charles Reed on his 30th anniversary with GE. Mr. Kennerk is a cylindrical grinder in Bldg. 4-2.

JOHN L. AUGUST (seated right) receives best wishes from a group of his co-workers on his 30th GE anniversary. (L-r) are R. M. Hartigan, Farrell Hill, K. D. Strong, C. A. Schafianski and Al Mason (seated left). Mr. August is a welder in Bldg. 27.

DR. H. W. GARTON (third from right) celebrates his 30th anniversary Dec. 10, with (l-r) Irene Szink, Lyle Rupert, W. E. Beer, L. C. Swager and Bertha Schrader. Dr. Garton has been plant physician since he joined GE in 1923.

**BELATED CONGRATULATIONS!**—Helen Moring (center) is shown with Helen Orr (left) and Blanche Mulligan at her retirement party early last summer. Through some inexplicable error, Miss Moring's picture did not appear in the GE NEWS near her retirement date. She was a finisher at Taylor St., Section 417, before retiring.

## TOOL BITS

### BLDG. 19-4 and 5

by Don Clark

You might know it. Our first story of the new year relates an episode in which Jim Bichheit was the principal character. The night before Christmas Eve was terribly cold and it was quite late as Jim, accompanied by two bowling partners, headed his car toward home. I suppose Mrs. Buchheit had been using the car that day for Jim hadn't proceeded very far when the engine began to cough and sputter. Realizing he was out of gas, Jim pulled over to the curb behind another car and the three of them started out to find a gas station. After walking many blocks they found a station, purchased a gallon of gas and returned. One of the trio was just pouring the last of the gas into the tank when Jim made an important discovery. He had poured the gas into the wrong car. This car looked like Jim's but his car was the next in line. This meant another cold trip to the gas station for our generous-hearted friend. I wonder if that fellow kept tab on his gas mileage. . . . We express our sympathy to Erwin Wiebke in the death of his mother and to Orval Minnich in the death of his mother-in-law. . . . Willie Bohn is a fortunate fellow and should be congratulated. Not only did his wife present him with a new baby boy but timed its arrival just one hour before New Year's thus assisting Willie on his 1953 income tax. George Pugh usually keeps sacks in the cracks around his car doors but a new crack has him licked. The wind blew the door shut on Joe Hiday's head and that takes a new glass, not sacks. . . . Harley Graham is leaving to study at Purdue Center and work in a surveyor's crew on the Nickel Plate elevation. . . . The fish are biting at Chapman Lake, they tell me. . . . Carl Schlenker has a buzzer rigged up so when his daughter wants to get rid of an objectionable boy friend all she needs to do is press a button and Carl goes into action. That is, if he wakes up when the buzzer sounds in his room. He doesn't throw the boys out. He just gives gentle hints by rolling pool balls down the stairs. They usually

take the hint. . . . Gus Ormsby and Bob Pickett have rewarded Leland Richardson's wife for the extra servings of pie they have enjoyed, by sending her a box of candy. . . . When Mrs. Ross Cohagen saw parakeet tail feathers laying beside the basement door she figured their dog had been after their bird. Upon hunting the parakeet, however, she found him perched before the mirror, surveying the damage and came to the conclusion that she had clipped him when she slammed the basement door. . . . **FAREWELL:** It was just four years ago that your editor was assigned the work of preparing this column. During this time we have appreciated the cooperation of our fellow employees, reporters, management, and the editorial staff of this publication. Now comes the time for a change so allow me to introduce Howard Demsey, your new editor. I am sure that he will appreciate your cooperation in making our column one of ever-increasing interest. Hmmm—I wonder what he knows to write about me.

## DECATURITES

by George Laurent

I. Michel came to work the day before Christmas with one of his dress shoes on and one work shoe, probably to get a head start on dressing for Christmas Eve. Mike's face turned a deep shade of pink though when he bent to tie his shoe lace. . . . Milt Chronister was so happy on his birthday. He received that new Plymouth which he had been wanting. Yes, it was a very bright red plastic car. Milt did not get to keep it long after his small granddaughter saw it. Better luck next time, Milt. Maybe you will get a real car sometime. Remember we said maybe. . . . Happy birthday to all the people who celebrated in December: Lawrence Franklin, Leona Patrick, Norma Poorman, Emma Goldner, Anne Werst, Milt Chronister, Luther Brokaw, Lloyd Kreischner, and Jim Staley.

**Optimist:** A man who gets married at the age of 89 and starts house hunting for a nice place close to a school.

## SPECIALTY MOTORS

### Shipping—Receiving—Order Service

by Mabel Fisher

A seven-pound, four-ounce boy arrived at the Lutheran Hospital, Saturday, January 2. He was a little late for the New Year celebration but nevertheless worth celebrating. The father is Jim Henry and the mother, Pat Henry. . . . Helen Eggeman is sporting a new smock. What goes? . . . The Receiving, Shipping, Order Service and Regional Parts Sections of the Specialty Motors Department wish to express their sympathy to T. R. Dent and R. W. Dent in the death of wife and mother. . . . Norma Hanshaw is back from a visit with relatives in Pennsylvania. She says Howard Johnson's and the Turn Pike are busier than ever. . . . Gertrude Koldeway had an accident while horseback riding Saturday, breaking her collar bone. Guess we know where she can be found for the next six weeks. . . . Pauline Badman's small daughter did things up a little different. She had an operation for appendicitis on Christmas Eve. She is doing nicely now. . . . One evening not too long ago, Eloise Hoehn asked Marie Dunn, Ilene Fitch, and Ruth Sorg to ride uptown with her after work. She never said a word about the fact her car didn't always run, so the girls were seen pushing the car in front of the Pennsylvania Freight Office. How about that, Eloise? . . . Happy birthday to Ruby Flaugh, Henry Bruggeman, Herman Ebel, Jay Chappel, Howard Miller, Walter Bergman, Cleatus Ternet, Ivan Ford, Romney Wass, and Arthur Happel. Thus endeth the first week in the new year.

## 6-4 AIRLINERS

by Moe Satterthwaite

Perry O'Neill must have had a rough time over New Year's. He came in to work Monday morning with one of his fingers bandaged. Maybe one of the twins couldn't wait for dinner. . . . Roy Brower is back with us again after his recent illness. . . . Martha Jesse received a belated Christmas present, a new TV set. That explains the yawns every now and then. . . . This week we've seen a lot of familiar faces coming back to work. Welcome back to Ida May Humberger, Millie Horman, and Jane Bennett. . . . Marcie came in with a new hairdo, looks real nice, too. . . . Dode Clinger has gone into the parakeet business. She says the only thing wrong is when she only had one she could teach it to do anything and now that she has gotten another one she can't make either one of them do anything. . . . Sorry to hear that Ruth Cartwright's little girl is ill. . . . Stella Peters celebrated her birthday over the holidays. . . . Louie Becker is now on days in charge of Group 2x35. How's it feel, Louie, getting up in the middle of the night. . . . Les Franke has left Repair and Return to take charge of the floor on the second shift. If Les runs into any trouble he can always contact a couple people on the second trick. . . . Don't you believe it, that it is beginning to get summer just because you see a few people running around with nice tans. In fact, Harold Dalman was sunburned, but it peeled off. He received it while fishing off the coast of Florida. . . . Lillian Shaffer and Mary Lou Gephart also have just returned from vacationing in Florida. . . . Bob Pence is having

a hard time getting around this week. Bob, being the ambitious type, took advantage of the three-day holiday and started working around the house. He was doing very well, too, until he fell off the seven-foot step ladder. . . . We've heard the tune "How Much Is The Doggie In The Window" once too often. Result: She now has the cutest little cocker spaniel we have seen in a long time. . . . Incidentally, Frank Seronia has a cute little doggie, but we don't know what breed it is. . . . It was good to hear from Ellen Bauer during the holiday season. We hope that before long she will be around to say hello in person. . . . Congratulations to Louie Becker on his birthday the last day of the year, Dec. 31. Also, congratulations to Alva Biggs and Ed Farrell on their length of service with GE, 30 and 35 years, respectively. . . . I almost forgot. As you know Donna Hahn moved into a new apartment recently, but did you know that the first night she slept there she fell out of bed. Boy! What a racket that must have made. Ha! Ha!

## 17-3 NEWSIES

by Wilhelmina Beeth

What has happened to that New Year's resolution? . . . When Lettie Medrano turned on her machine last Thursday morning, it gave a Happy New Year whistle. From the way she ran down the aisle, we don't think she appreciated it. . . . All the "ahs" and "ohs" in the main winding section were over the pretty diamond that Esther Reiter received. We wish you lots of happiness. . . . After the sample of the cookies baked by Lillian Hergenrother's husband, we think it would be nice to have him around to do our baking. . . . Mary Land has joined the new car class. It's a Chevy. . . . Kate Weigle was really surprised for Christmas. Santa brought her a TV set. . . . We are still wondering if Helen Huhn had the mousetrap to catch a mouse, or to trap Santa Claus. . . . Happy birthday to our twins, Dale Ferguson and Dave Cox. There is a slight difference of 40 years in ages though. It's a happy birthday also to Ruth Nahrwald. . . . You can scratch Don Taylor off the eligible list. He gave his girl friend a diamond. . . . Being an aunt for the first time has Ellen Dittlinger just bubbling over. She has a nephew, born the last day of the old year. . . . We bid farewell to Stella Jackson, who will

## APPRENTICE BROADCAST

by James Schwartz

Several of our apprentices got off to a real good start in the New Year. Jimmie Stroble became one-half of a Mr. and Mrs. combination on New Year's Day. Gene Bair and family moved into their brand new home on January 1 and Mr. and Mrs. Jim Henry became the proud parents of a baby boy on January 2. . . . Dick Goshorn, Gene Seider and Tom Best spent the New Years week-end at the home of Tim Beitel in Tiffin, Ohio. The boys report a very eventful week-end and a good time was had by all. . . . Ned Speheger wishes to announce that he became engaged during the Christmas season and he would appreciate it if the girls would stop chasing him around. . . . One of our apprentice boys ventured up to Albion and ate a meal at Jerry Frye's restaurant. He wishes to report that the meal was (ugh!) delicious. . . . Jim Burkhardt is starting a new trend in men's billfolds. He has been seen carrying his sister's little red coin purse. . . . Anyone interested in purchasing a home is urged to contact Harold Wilkerson at the school. Harold is being transferred to the DeKalb plant and must sell his home as soon as possible. The house is a two-bedroom bungalow and is located in the 5300 block, Bowser Avenue. . . . Richard Wagner wishes to express his "Thanks" to the fellows in the Grinder Section for the fine gift he received at Christmas.

be busy making tiny garments. . . . Glad to see Marcie Harper and Lois Lee ringing in their clock cards again. . . . Arlene Winebrenner spent the New Year's holiday in Chicago. . . . Received a card from Gertie Beekner. Being a lady of leisure, she is having herself a good time in Florida. . . . Our welcome mat is out for our newcomers. Hope you like us. . . . Dick Gleim visited us last week. We are glad to see him again. . . . We thought we were seeing things, but it was Ron Offord's twin brother, Don, visiting us. Don formerly worked at Taylor St. Plant and is now on the payroll of Uncle Sam. . . . We extend our sincere sympathy to Kaye Dolan on the loss of her husband; also to Helen Pickett and Wilson McPherson on the loss of their mothers.

"Needless to say, I don't think much of the idea you fellows sold me on at our last directors' meeting!"

# COLISEUM STAGE FOR GOLDEN GLOVES

## Amateur Classic Starts Jan. 25; Tickets to be Available Next Week

The Allen County War Memorial Coliseum will be the stage for the annual Golden Gloves tournament which starts Monday, January 25, Charlie Wilt, manager, announced today. The local amateur classic will be co-sponsored by the GE Club and Radio Station WKJG.

The second round of fights will be held Monday, February 8 also at the Coliseum.

Tickets will be available next week at the GE Club, the Main Auto Marine Division at 214 West Berry, and at all Zollner stations. Ringside; \$1.50 first balcony, and \$1.00. There will also be general Reserved seat tickets at \$1.50 admission tickets at 60 cents, avail-

able at the door.

Frank Newport again is serving as trainer for the events. A series of boxing shows has been held at the Club this fall and winter in preparation for the event.

Any amateur boxers over 16 years of age may take part in the event. Entry blanks may be obtained at either the GE Club or from Frank Newport.

## Squares, Apprentice Tie Marks End Of Interdivision First Half Play

by Don Cochran

An inspired Squares team ended the Apprentice winning string of six straight with a decisive 45 to 30 victory Tuesday, Jan. 5. The Apprentice defeat means a play-off between these two teams to determine the winner of the first half. The Squares have been stopped only by the Test Engineers in the first game of the season.

The Squares gained a 9-point advantage before the Apprentice could connect from the field. With this initial margin, the Squares led all the way with quarter scores of 19-9, 24-15 and 35-25.

In the final quarter of the game the Apprentice lost Harold Friedrich and Howard Bash via the foul route. Leading scorer for the winners was Gil Carl while Bob Rescorla turned in a fine defensive game.

Bash topped the offense for the losers.

In the other scheduled game Tuesday evening, the MTP team forfeited to the Hermetics.

## Winnie Scheurich, Joe Kramer Take Top Prize in GE Club Mixed Doubles

by Les Shroyer

Winnie Scheurich's 557 series carried herself and her partner Joe Kramer into first place and to a prize of \$20. Winnie had games of 215, 169, and 173. They had a 1288 total including a 222 pin handicap.

Francis Haggenjos and his son George, Jr., knocked off second place and \$15 mainly on Junior's 582 series, with games of 192, 196, and 194. They had a 1268 total including a 261 pin handicap.

Third place went to Jessie Habig and Joe Kramer, thanks to Jessie's rousing 571 series on games of 191, 171, and 209. They had a score of 1265 and picked up the third place \$12.

14th—Francis Oberhalter and Walt Rietdorf	1263	\$10.00
5th—Jessie Habig and Herb Habig	1242	8.00
6th—Jean Dangler and Del Bucher	1240	7.00
7th—Mr. and Mrs. Tony Koorsen	1234	6.00
8th—Ann Lee and Carl Hattendorf	1230	5.00
9th—Bea Lantz and Del Bucher	1228	5.00
10th—Justine and Ray Brown	1226	5.00
11th—Louise and Harold Fanning	1219	2.50
12th—Ida Yahne and Oscar Witte	1219	2.50

By the way, Joe Kramer had a series of 509 and 514, which isn't bad at all.

Other high scores were: M.

Koorsen, 179; Ann Lee, 191; Ida Yahne, 182; Francis Oberholtzer, 173, 169, 159—501; Liz Shearer, 156, 224, 158—538; M. Stemmler, 170; M. Rollins, 183; M. Boner, 179; E. Meeks, 188; M. Meeks, 184; Herb Habig, 224, 200, 153—577; Carl Hattendorf, 201; J. Davis, 205; Carl Koester, 200; C. Towns, 200; Walt Rietdorf, 203, and George Haggenjos, Sr., 201.

There was a good turnout, with 39 teams taking part. The GE Club donated the first prize of \$20.

Due to the Men's City Tournament, the next Mixed Doubles will be postponed. The date will be announced in the GE NEWS as soon as it is set.

Me? I bowled lousy.

The perfect example of arrested motion is a woman entering her thirties.—Shannon Fife.

## Owls Win Ninth Straight; Defeat Zollner 37 to 23

by Howard Colby

The GE Owls won their ninth straight game of the season last Wednesday morning at the GE Club in what was one of the lowest scoring games so far this season. They totaled 37 points to Zollner's 23.

In the first period, GE scored 5 points on field goals by Markey and White, while Ron Blodgett cashed in on a free throw. Zollner scored only one free throw in this period to make

it 5 to 1 in favor of GE.

In the second period GE scored 10 points on two baskets each by Dickey and Fisher, with Anspaugh adding one. Zollner also hit for 10 points on four baskets and two free throws, to make the half-time score: GE, 15; Zollner, 11.

The GE Owls pulled into a safer margin in the third stanza, as White and Blodgett each hit two field goals and Gladieux and Etter each added one while holding Zollner to just four points, to make it 27 to 15 at three quarters.

In the final period Fisher led GE by hitting three field goals, while Somers and Dickey connected on one each as Zollner scored 8 points to give the Owls a 37 to 23 victory.

Fisher was high-point man with 10 points for GE for his best scoring game this season.

Next week's play finds the League opening the second half in the league schedule. At 9 a.m. Indiana Rod meets Zollner; at 10 a.m. Eckrich tangles with Aircraft Gear; and at 11 a.m. Salisbury plays GE.

### STANDINGS

Schultz, 206; and George Laurent, 233.

### GE Fraternal

B. P. O. Elks led the Fraternal League with 33½ wins and 17½ losses. West End Restaurant has won 31½ and lost 19½. Peterson Elevator is in third place with a 28½ won and 22½ lost record. R. Ladd put together games of 224, 199, and 210, for a 633 series. J. Berry kegled a 621 series on games of 223, 188, and 210. Double Century scores were kegled by A. Zelt, 224; R. Macklin, 206; G. Baumgartner, 201; A. Brewick, 212; P. Wilkinson, 204; S. Jackson, 212; G. Laurent, 205; E. Bulte-meier, 214; C. Oetting, 214; L. Ullman, 201; R. Bolinger, 200; J. Murphy, 203; R. Johnston, 203; and K. Bauserman, 200.

Girls are needed to bowl on the Friday Noon League either as regulars or substitutes. Call Marj Rollins on A-40741 or Bea Lantz at H-75832.

Ladies' Tuesday Afternoon

The first half ended with Team No. 1 in the top spot with 28 wins and 20 losses. Team No. 6 won 26 and lost 22 for second place. In third place is Team No. 2 with a record of 25½ wins and 22½ losses. Mary Leiter scored the high single game, a 188 score; Billie Tucker, 176; Dortha Ramsey, 173; and Bessie Fincher, 172.

### Transformer

In the Transformer League it is Volts out in front having won 29 games and losing 13. In second spot with 24 wins and 18 losses is M's. D's, Watts, and Autos each have records of 19 wins and 23 losses. The high single game for the league was kegled by Bower, a 230 score. Furbie rolled a 210, and Osburn, 200. If you are interested in bowling Tuesday nights, contact H. Meeker, 26-20.

### GE Orphans

Hotel Keenan has won 35 games and lost 10 to lead the league. Team No. 2 is in second place with 27 wins and 18 losses. In third place is Bernie's Motor Sales with a 21 and 24 record. Hotel Keenan rolled a 2109 team series. Milly Rietdorf kegled a 541 series on games of 191, 159, and 191. Mary Bischoff scored a 178. She also converted the 4-5-7 split. Ike Foor converted the 5-7 split.

### Ladies' Monday Night

Keglerettes won the first half in the Ladies' Monday Night with a record of 35 wins and 13 losses. Holey Rollers finished second with 32 wins and 16 losses. Teams No. 6 and 7 tied for third place, each having won 31 and lost 17. Winnie Scheurich kegled the high single count, a 195; Ann Lee rolled 184; Bertha Marr, 183; Kay Bade, 176; Jean Cirks, 173; and Jean Butler, 170.

### Small Motor

Repair and Return won the first half with a record of 32 wins and 16 losses. Finishing in second place was Tommy's Lunch with 29½ wins and 18½ losses. Test finished third, having won 25½ games while losing 22½. R. Tholen scored a 225; L. Welker, 202;

R. Brimeyer, 211; J. Kramer, 205; C. Kelso, 204; W. Whonsetler, 200; E. Downie, 203; S. Macy, 222; and R. Seidel, 210. Carl Brandt kegled a 613 series on games of 188, 197, and 228.

### Monday Office

Motor Generator started out the second half in high style, winning all three games. Frank Schlink kegled a 614 series on games of 199, 225, and 190. Carl Hattendorf put together games of 188, 181, and 234, for a 603 series. C. Fisher scored a 213 and 211; Don Stoneman, 213 and 204; E. Aumann, 207; I. Cirks, 205; G. Frances, 204; Gil Baker, 203; Joe Donahoe, 203; and L. Baker, 200. Reproduction won the first half, having won 32 games and dropping only 16. Gil Baker kegled a 233; R. Blackburn, 223; D. Grote, 209 and 200; Frank Schlink, 206; and Glenn France, 209.

### Ladies' Monday Night

Twisters and Gutterbells made a clean sweep and won all three games. Margaret Beugnot kegled a 211; Ester Muzzillo, 172; and Jean Dangler, 189. Winnie Scheurich was still tired from the mixed doubles tournament Saturday night and just gave up in the last game.

### Mixed Doubles

The next mixed doubles will be held at the GE Club Alley Saturday evening, February 20. Squads will roll at 6 p.m. and 8:30 p.m.

### Decatur

Flanges are leading the Factory League, having won 29 games and losing 18. Stators moved into second place with a record of 27 wins and 21 losses. Office has won 26 games and lost 22 which puts them in third place. Double century scores were kegled by P. Wilkinson, 233; S. Jackson, 214; G.

## SCIENCE QUESTION BOX

by SCIENTISTS OF THE G.E. RESEARCH LABORATORY

Q. When will the planet Mars be visible again?

A. It will come into view in the evening sky during the late spring and summer of 1954. In early July it will be closer to the Earth than it has been since 1941, less than 40,000,000 miles away. It will then be a brilliant red object in the constellation of Sagittarius, the Archer, which is visible in the south on summer evenings.

Q. How can dust form into threads that hang from the ceiling of a room.

A. These are cobwebs, consisting of threads spun by spiders. A liquid excreted from certain glands passes through the spider's Spinnerettes. Upon exposure to air, this liquid hardens into threads something like silk. They are so fine that they may not be noticed at first, but as dust collects upon them they become more conspicuous.

Q. Do snakes swallow their young when danger threatens?

A. This is a common belief, but there is no good evidence that it really occurs. According to zoologists, the mouths of snakes and other reptiles contain no pouches where the young might be held. Thus, the infants would be likely to slip down to the stomach where they would be smothered and digested. Perhaps such stories originated when someone found and killed a female snake with living young about to be born.

Q. Why are hurricanes given girl's names?

A. According to the U. S. Weather Bureau, the practice of giving individual names to hurricanes began during World War II because of military convenience. In the Pacific, storms were given girl's names, taken from an alphabetical list, while those in the Atlantic were designated

by names taken from the phonetic alphabet then in use, with "able" for A, "baker" for B, "Charlie" for C, etc. In 1952, a new phonetic alphabet was introduced, but did not win full agreement. Hence it was decided in 1953, to follow the Pacific system and use a list of girls' names arbitrarily selected, starting with Alice, Barbara and Carol, for the first three, down to Una, Vicky and Wallis, if that many were needed. This practice is followed by the Air Force, Navy, and Weather Bureau, in their joint Hurricane Warning Service.

Q. Why does the engineer of a long train often back up his locomotive a little before he starts forward?

A. To start a car from a standstill may require a pull of as much as thirty pounds for every ton of the car's weight, or even more in very cold weather. However, when the car is once in motion, only about three pounds per ton may be needed to keep it moving on a straight and level track. If there were no slack between the cars, the locomotive would have to start them all at once, and with a long heavily loaded train even a powerful locomotive might not be able to exert sufficient pull. By backing a little, some slack is introduced between cars. Then only one car is started at a time, car after car.

Q. Sometimes water is placed in tires on farm tractors to increase the weight. Does this make them more likely to be punctured when passing over a sharp object?

A. Not if some air is left above the water. Experiments made at the Michigan State University, Section of Agricultural Engineering, showed that at speeds of 10 m.p.h. and pressures of 12-20 pounds, which are normally used for farm work, a tire 75 per cent filled with water resisted penetration of a vertical pin as well as an air-filled tire. One filled completely with water was punctured at these pressures. Not

until the pressure was raised to 32 pounds did the 75 per cent water-filled tire fail to perform as well as one filled only with air.

Q. Why do yellow lights keep insects away?

A. It has been found that nocturnal flying insects are color-blind. They can only see blue light and the longer wave ultraviolet rays, which are invisible to most humans. The special yellow "anti-bug" lamps produce practically no blue or ultraviolet rays, consequently the insects do not see them, and are not attracted. If one wanted to attract insects, as to a trap, a blue or ultraviolet source should be used.

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

All of us on days are going to miss Bouncy Becker, who started working nights this week. He is being replaced by John McNearlin, who in turn has given up his gravy job to Charlie Castle. Quite a switch I'd say, but then we need a change now and then to break the monotony. Speaking of switches, I hear by the grapevine that Harold Smith, the "Whip" of Bldg. 20, is being transferred across the street. That'll surely give Bldg. 20 a lot of additional office space. . . . John McNearlin says his wife is a wonderful woman, but that she surely is headstrong. John says he wanted to give her a TV set for Christmas, but despite his pleading and coaxing, she insisted on a new dress instead. "But, John," I said, "you got off a lot cheaper by buying a dress." "You ought to be glad she didn't want a TV set." "Yeah," said John, "but darn it all, I wanted one." . . . Clarence Stoner paid us a visit the other day and I swear that fellow's getting younger looking all of the time. . . . Frank Mathews had a big wooden 4x4 that he wanted cut in two last week. He took it back to Charlie Mowery, who runs the steel cutting saws for our little group. "Can you cut this in two for me, Charlie?" asked Frank. "Yep, reckon I can," said Charlie. "Are you sure there are no nails in it?" Frank looked it over very carefully and found no nails, so Charlie cut it in two. Wonder what would have happened if there had been a nail in it? . . . They tell me that when Fire Chief Ernie Hanauer presented Charlie Castle with his 10-year medal, he kissed Charlie on the cheek. Now, they ought to give Ernie a medal.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Monday evening marked a gala event, a dinner in honor of Mr. Forest (Dutch) Wilson's retirement. Today completes some 36 loyal years of service with the company. Many friends and co-workers were on hand to fill their "tummies" and to extend their best wishes to "Dutch." He was presented with an outboard motor, which we learned later, pleased the Mrs. as well as our guest of honor. Mrs. Wilson related when "Dutch" went fishing he liked to have her go along and help row the boat. This she never really minded do-

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Our deepest sympathy to Russ Hine, whose dad died on December 27. . . . Belated birthday greetings to Slim Walters and Hazel Scott. . . . Although Fritz Rudasky enjoys the TV programs he has his criticism. He explains that while he was watching Fred Allen's talent program he didn't care much for the quartet, but enjoyed the four fellows who sang! . . . Bob Baals joined the TV viewers club. It's a new GE. . . . Does Steve Bobay's daughter have music lessons every night? I'll bet it is because Mrs. Riggles has TV. . . . Congratulations to Mr. and Mrs. Harry Jones upon the arrival of a girl on December 25, weighing in at 7 lbs., 6 ozs. . . . Why does Eubert Logan keep singing "I'll Come to Your Wedding?" It must be that the weather is like spring and Eubert is rushing the season. . . . "Porky" Schoenefeld was hurrying through his Christmas cards and failed to give them a thorough going over until he discovered his wife was having the last laugh. It seems as though someone had sent an animated card and had substituted "Porky's" picture in one place. The mystery is, who sent the card? . . . Ray Kierspe had better be careful who he gathers in for Santa Claus because Santa knows who everyone is. Santa also relays that he had to make a thorough search through his book to find out if he was good or bad for the year. . . .

Frigid Frank

This picture looks as though one was preparing for a North Pole expedition, but the fact is that it was only a dress for a football game. . . . Congratulations to the 1953 Safety Committee on the fine record of no lost time accident for the past year. Let's all help the 1954 committee continue this record for the coming year. . . . WANTED: People interested in making 1954 a No L.T.A. Year.

ing, but now and then the skipper gets off his course and gets the boat stuck in mud and reeds. Mrs. Wilson, being the entire crew, has then to remove her footwear and get out and push. Need we say how delighted she is to know that now they will have some mechanical power aboard, just in case. In saying so long today, we tried to find the proper words and phrases that would do justice to a fellow as fine as "Dutch," but somehow a true definition of "Dutch" even stumped Webster. So here's to one of the grandest persons we have ever known:

### DUTCH

In 1918, our history says "Over There," the job was done. For a curly-headed lad called "Dutch" His job had just begun.

A quiet, rather bashful sort When his job was yet so new. Still he shouldered each new task That came as the company grew.

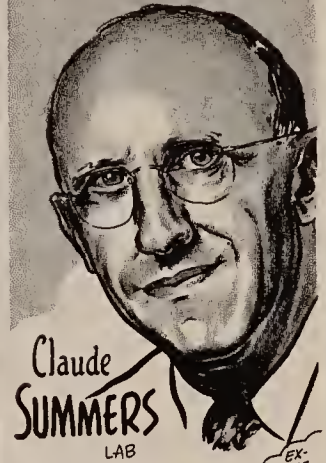

Friends he won, right from the start. And here we're glad to state. He chose the girl who typed for him To be "Mrs. Dutch," his mate.

For 36 years, a shipping clerk And this phrase was often said. If only I had on paper What "Dutch" has in his head!

With memories dear of work and fun A loyal record of a job well done. May the best be yours in all you do We're glad we shared the years with you.

We say so long, on this final day To one who we'll miss so much. May health and happiness follow you Our friend, we know as "Dutch."

CAR—1950 Studebaker, 4-door Champ, excellent tires, radio, heater, and overdrive. Very clean, economical car for only \$685. Will accept trade. H-74471.

FURNACE GRATES—Homart, 22-inch, \$5. Stainless steel, furnace pipe and fitting, 9 inch, \$5. 4027 S. Clinton St.

CAMERA—35 MM miniature camera, compact folding, super Balda and case. Schneider Xenon F2 lens, 1/500 second Compur shutter, coupled rangefinder, perfect, reasonable price. Saturday or Sunday, 3230 Hoagland Ave.

HOME—Four-room, modern suburban home. Space heater, washer, dishwasher included. Acre ground, good location. E-72184.

DOG—Collie dog, ten months old, friendly with children, good cattle dog. A-98109.

SUITS—Lady's suits and several dresses, size 13; two coats, size 13 and 18; several sweaters, size 34; several pair shoes, size 7 1/2 AA; two men's all wool suits, size 36R. K-4554 or K-3104.

1951 DODGE—Coronet club coupe; clean, good condition; original owner; 24,000 miles. Will sacrifice. K-5632.

## WINTER STREET JOTTINGS

by Alma Elliott

We liked Dan Doolittle's explanation of his recent, rather ragged, new haircut, "I got too close to a farmer shearing sheep." . . . Tom Roberts has our nomination for the neatest foreman. He sometimes changes shirts twice a day. This may be due to the fact that he steps too close to vats and has grease splashed on him. . . . We are very sorry to report that a fire destroyed the Abnis Grover home. The Grovers were at work when a motorist noticed the building burning. The house, just recently completed, was a total loss and was only partly covered by insurance. . . . The girls on the winding and assembly line claim the small fire in their section was caused by their working too fast and thus causing electrical interference. However electricians claim it was a defective fuse.

Chet McKee is always glad to get to work where it is safe and only regrets he can't bring his car into the building. His new Pontiac lost an argument with a semi-trailer. . . . Walter Scherschel and Bill Miller, unsuccessful rabbit hunters, are de-hating which would be faster, to take marksmanship training, or develop latent bloodhound traits. . . . Congratulations to Benny Betts on the birth of his thirteenth grandchild. He says it is old stuff to him now, but there is still a proud twinkle in his eyes. . . . Know any secrets? Don't tell them to Ann Amstutz. She has a reputation for "spilling the beans." The second floor stairway has been decorated several times with the bean soup meant for Ann's lunch.

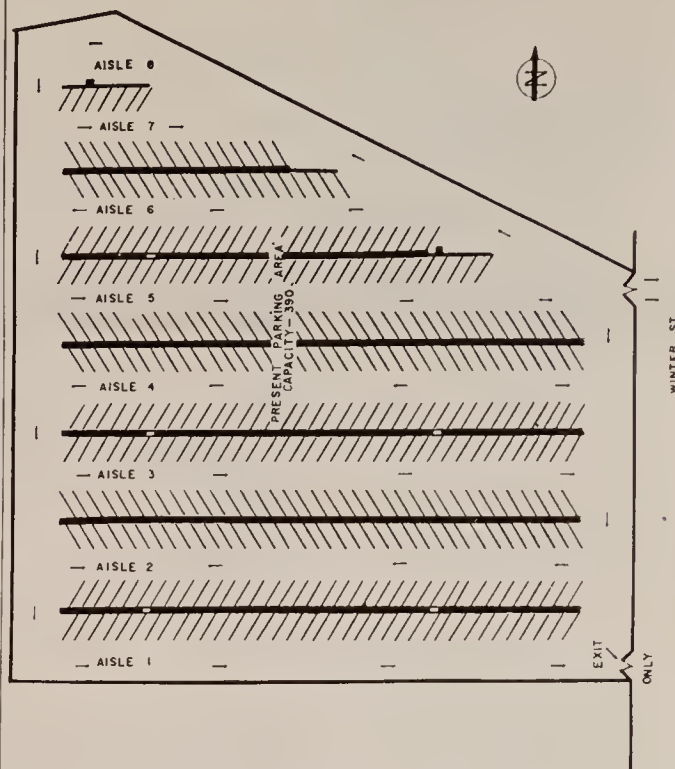

Welcome To: Mary Whitelock, a transfer from Taylor St. to our Accounting Section; Wilma Olinske, a recent addition to Sales Accounting; and Dick Keyes, a new Technical Engineer. . . . Jan and Bud Conroy are eating their way to fame. They became so interested in their meal that they forgot to get off the train at Adrian, Michigan, and after dessert found themselves in Detroit. The railroad was kind enough to take them back on the next train, which left the following morning. . . . Dorothy Dobler plans to tie a cookie around her finger to help her remember that when she organizes a cookie feast to bring her contribution. The fellows in the Drafting and Engineering Sections wish to express their thanks for the delicious tidbits whipped up by the girls. . . . Did you notice the picture in the Engineering Section of two cute little boys? They are the sons of Loren Andrews.

One of the saddest watchers of the Rose Bowl game was Bob Seiber. He just lost a bout with a wisdom tooth and had to watch the game with a towel wrapped around his jaws. . . . Wally Thompson thinks it is sometimes as bad to be too early as too late. He had the gas and electricity turned off at his house and delivered his son to Cleveland, planning to pick him up on the way east, when he was informed that he would not be transferred for at least two weeks. . . . Tom McCrea and Dave Jones ended the year in fine style. They visited the Red Cross donated blood. It's the first donation for Tom and the fourth for Dave. . . . We are surprised that Agnes Hohman and Frank Mason have not organized card games at lunch. Both are avid bridge hounds. . . . Bob Kerr insists that he is waving a club, not because he is turning into a cave man, but because he was influenced by his first visit to the Coliseum and his first hockey game.

The corniest holiday greeting heard in the Small Integral Motor Department was: "S I M wishing you a Happy New Year," uttered by Eileen Salmon. . . . Lucille Atkins says that a black eye is just one of the expected hazards when you have a young and active son. Her son banged her in the eye with a flashlight as part of her Christmas present. . . . Billy Sommers should distribute before and after pictures of his house. Since his home was remodeled friends who never bothered with addresses find they can't recognize the place. . . . Need jitterbug lessons? Two enthusiastic "cats" are Ed Misselhorn and Mayme Carney. Mayme was the recent winner of a dance contest. . . . Anyone have a pair of stilts for sale? Ted Lewandowski was presented with a pair of trousers 38 inches long as a Christmas present and likes his cuffs narrow.

Fritz Woerner claims he likes to eat by candlelight; it's glamorous. It is only part of the reason, we think. With thirty-one people in the house, Fritz, it would be nicer to replace fuses and let your guests see what is on their plates. . . . Nick Treiner claims the most unusual reason for his late return from the holidays. He was visiting Santa's workshop at the North Pole to make reservations for a new job after he retires in February from GE. . . . Rudolph Brown is learning to yodel since he received a new Stetson from the Toolroom gang as a Christmas

present. . . . We received a very nice letter from Pauline Denney who is off for illness and would like to pass it on to you: "Pauline Denney wishes to extend her sincere thanks to all for the wonderful gift, fruit, and cards which I received during my illness. Again, for my family and for myself, thanks from the depth of our hearts." Hope to see you back soon, Pauline.

HELP! Our parking lot is beginning to resemble an obstacle course. For your own safety and convenience, please park your car in the proper locations, as indicated on the chart above. People are now parking every which way, along the fences, in the aisles, and blocking the gate. Cars are parallel to, horizontal with, and adjacent to, the concrete islands. So far no double deck parking has been reported but let's try to correct this condition before it does happen. The small slanted lines in the diagram indicate the way cars should be parked, at a 60 degree angle to the islands, leaving the aisles and the gateway clear. Such parking is especially important in icy weather when an improperly parked car, amid the ice and snow, is an invitation for a new paint job or a dented fender.

## PICK-UPS from 26-3

Maxine Jordan

and

Helen Wagner

The Finishing Section welcomes Patsy Dennis. . . . We are very glad Winnie Coats has moved into her newly remodeled home, for she has worked very hard as a carpenter on it. . . . We have wondered how Betty Warren got her exercise and we have found out. She has a very large dog who takes her for a walk each evening—or does she take the dog? . . . We are wondering who is going to win at the home of Audrey Oberly, the canary or the parakeet. First her father wanted a canary and for Christmas he wanted a parakeet. Audrey is having quite a time with both of them. . . . We want to wish a speedy recovery to Chloa Weitzman and her daughter, who were injured in an auto accident last Saturday. . . . Willie Sanders brought in his birthday cake last Monday. The cake was very good and in fine condition, considering he dropped it on the way to work. . . . We think Vera Hoover should buy some stronger furniture so her guests will not fall on the floor when they are watching TV. . . . We are glad to have Ruth Sterling back with us again. . . . Will someone please tell Louise Lengerich to check her time so she won't be coming in an hour late. . . . Some one should tell Charlie Whittner that just setting the alarm clock does not make it ring. It has to be wound, Charlie.

. . . Happy birthday to Emma Meyer and Ruth Goral. . . . We wish Mrs. Ralph Foreman a speedy recovery. . . . Did you notice the buttons popping off the front of Charlie Adams' shirt? The reason: He is the proud grandfather of twin boys. . . . Santa forgot to give two of our co-workers the right gifts for Christmas, a muffler for Gene Bryant and an alarm clock for Carl Brincefield. Perhaps Carl is planning on those chickens he "got" to wake him. . . . We believe Charlie Conklin is in his second childhood. We saw him playing with a balloon. . . . Frenchy Chilcote and Herman Curry have graduated from fishing. They are now talking TV. . . . Charlie Adams lost his dog, so he thought. After searching hours over fields and woods with no success, he wearily trudged home where he heard a faint whine coming from his car. The dog was locked in the trunk. Who knows how? . . . Jim McGill behaved so well over the holidays that he not only surprised his co-workers but himself. . . . Eddie Alter had trouble parking his car. Ed, here is the answer. You are supposed to put money in those parking meters, not knock them over. This may surprise you, but Vera Reeves is very good at impersonations, namely owls and chickens. . . . SAFETY SAM SAYS: Weather report—Tomorrow, snow followed by little boys on sleds. Please drive careful.

Never complain about your troubles; they are responsible for more than half of your income.—Robert Updegraff.

SINK—Two-compartment kitchen sink with fittings. K-1588.

BICYCLES—Two boy's bicycles, 24-in., \$15; 26-in., \$25. H-81353.

#### FOR RENT

HOME—Nearly new, conveniently built, two-bedroom home. Automatic heat, good location in southwest, available Jan. 4. H-28522.

APARTMENT—Three-room, unfurnished apartment. Heat and water furnished. Close to Broadway plant, \$45. H-0471.

REASONABLE RENT—Three large rooms and bath. Must know how to fire an automatic stove for this four-apartment house. H-1633.

#### TRANSPORTATION

RIDERS WANTED—From Decatur to Broadway or Taylor St., second trick. Decatur 33086 or Ext. 412-316.

RIDE WANTED—From 1201 Vance

Ave. to Broadway plant, just mornings, 7:00. A-97193.

RIDERS WANTED—Columbia City to Broadway, 8 to 4:36 p.m. Dale Grigsley, Ext. 2133 or Columbia City 260J.

#### WANTED

ICE SKATES—Man's figure or rocker shoe skates, size 12 1/2. H-50243.

MICROMETERS—Machinist micrometers 1-inch and 2-inch sizes. H-17585.

RADIO—Radio-phonograph, 45 r.p.m., 22 rifle. H-8428.

BIRD CAGES—H-8839.

TO RENT—Four room, unfurnished or furnished house. Man, wife, 9-year-old, and baby. Near GE. Good reference. Harold C. Butz, A-69843 or 1127 W. Berry St.

TELEVISION—Used 17-inch TV console. Between 4 and 8 p.m. H-57673.

ROLLER SKATES—Lady's shoe roller skates, size 8 1/2 to 9. A-65214.

# INDIANA INCOME TAX DUE THIS MONTH

Withholding tax statements (Form W-2) will be distributed to all Fort Wayne employees next week. In addition to total wages earned by the employee during the 1953 calendar year, the statements will show the amount of money withheld for Federal Income Tax and the amount deducted for social security.

Figures from these statements should be used in filing Indiana Gross Income Tax forms. Employees who receive more than one form W-2 statement must add the amounts together in order to arrive at the total earnings and tax withheld for 1953.

Returns for Indiana Gross Income Tax must be filed before Monday, Feb. 1 to avoid penalties. This year in addition to returning the income tax form and amount of tax, the addressed IBM card sent persons along with their tax forms must be returned.

Persons who have earned over \$1,000 in or from the State of Indiana during the past calendar year must file a copy of the 1953 Gross Income Tax and World War II Bonus Tax form along with accompanying tax remittance.

Those who have filed Gross Income Tax forms before will receive forms through the mail. Employees who are filing tax forms for the first time should secure them at the License Bureau, 121 E. Main St. The Bureau is open from 9 a.m. until 4 p.m. Mondays through Fridays and from 9 a.m. until noon on Saturdays.

An individual's Gross Income Tax is one per cent of his total year's income, less exemption. The Bonus Tax is ¼ per cent of his year's income, less exemption.

The upper portion of the form, Schedule "A", is for computation of the Gross Income Tax. A typical form, which has been filled in, is shown at the right.

The second step is to compute tax liability in Schedule "B" for the World War II Bonus Tax, which is in addition to the Gross Income Tax.

You may proceed as follows in computing the Bonus Tax:

Line 18: All taxable income received from Jan. 1 to Dec. 31, 1953, less exemption, should be entered here. (The illustration, at right, shows \$2,000.)

Line 19: Enter here, the amount of your bonus tax, which is ¼ of one per cent of the amount shown in Column 2, line 18. (In the example above, it would be \$5.) Then place this figure in Column 4.

Line 20, 21, 22 and 23: These lines are to be filled in only by those who have made quarterly returns during the year 1953.

Line 25: Add your total Gross Income Tax, which you have shown on either line 12 or 17 of column 4, to your Total Bonus Tax. (In the example above, it would be \$25.)

Line 26: If you are late in reporting your income, this line is for computation of interest at one

Signature of Taxpayer.....				Date Filed.....	
Agent.....				Agent's Address.....	

per cent per month.

Line 27: The penalty for failure to file your return before the deadline is 10 per cent of the combined total Gross Income Tax and Bonus Tax, and the minimum penalty is \$2.

Line 28: You place the total of the above on this line, which is your Gross Income Tax and Bonus Tax, with possible interest and/or penalty.

You are then ready to fill in the general information data at the

bottom and on the back of your official form.

When this is completed, make out one tax remittance to cover the combined amount of Gross Income Tax and make it payable to the "Indiana Gross Income Tax Division." Make all payments by check, money order, or draft. Do not remit cash or stamps. Sign your return and remittance, seal in an envelope, and mail to the Indiana Gross Income Tax Division, 141 South Meridian St., Indianapolis, along with the IBM card you received.

## OVER OUR WAY BLDG. 19-1 Clara Volz

Bill Hoelle hit seven straight strikes with a 242 score in bowling. That man's good. . . . Congratulations to Bob Norton and wife on the arrival of a baby boy the day after Christmas. Wonder if he will have auburn hair like his Pop has? . . . Leonard Staskelunas gave Mary Ann Goodman a beautiful birthstone ring for Christmas. I'll bet come the month of June you'll be wearing the other

kind, Mary. . . . The office girls in Bldg. 19-1 Assembly and Art Bienz brought in a ham to be baked, potatoes, cranberry salad, etc., for a pre-New Year's get-together. Some of the others sharing in the good eats were Harry Smith, Bill Billue, George Zies, Don Kee, Pop Seals, Bill Hanke, Chalmer Steele, Fred Lahrman, and Bill Kaiser. Alka-Seltzers were served later in the afternoon. . . . Today is the last time that Leonard Staskelunas will get to work the crossword puzzle in our office. In other words he is leaving these parts. Good luck in your new endeavor, Lennie.

## Apprentice Alumni Set Feb. 16 For Spring Banquet

Members of the Apprentice Alumni Association have set the date of Feb. 16 for their 1954 annual Spring Banquet, it was announced this week by Walter Buesking, president.

The annual meeting will be conducted at the Southwest Conservation Club and will include a program and steak dinner. This is the first meeting of the club's calendar year. The remainder of the club year will be announced later, the president stated.

The names of four newly appointed chairmen were announced this week also. They are: Mark Junk, Bldg. 19-5, general membership; Carl Brandt, Bldg. 8-2, entertainment chairman; Wayne Bergman, Winter St., publicity, and Charles Bracht, Bldg. 19-4, sick and welfare.

Outgoing and new officers will meet this evening to complete arrangements for the club program calendar. The session will begin at 8:30 p.m. at the home of Lyle Claphan, 1743 Rosemont Ave.

## GE Donates Film To C of C Safety Council Library

A print of the General Electric produced film "Going Places" was donated to the film library of the Chamber of Commerce Safety Council recently.

In color and sound, the film is 17 minutes long and deals with traffic congestion. Accepting the print, Ivan A. Martin, manager of the Safety Council, stated: "In our opinion, it is one of the most dramatic films ever produced as an approach to the ever-growing problem of traffic congestion. . . . I wish to express our sincere thanks and appreciation to you for placing the film in our library."

The film promotes the idea of the use of mass transit facilities as the best solution to traffic congestion which harasses the country's cities. It approaches the urban-transit problem purely from the most efficient ways to move large numbers of people.

Scenes were filmed of actual operations all over the United States. It features the idea of safety and comfort for people as they ride to their destinations on urban-transit vehicles and takes the audience behind the scenes to see how a transit company moves great numbers of people safely, efficiently, and economically.

## New Officers at GeCode Helm

**GECODE CLUB PREXY**—Newly elected president of Decatur's GeCode Club, Dorothy Schnepf, third from right, meets with committee chairmen, who are (l-r): Geanie August, Dora M. Fairchild, Velma Goeltz, Miss Schnepf, Lucille Lore, and Phyllis Gerke.

Dorothy Schnepf was installed as president of the Decatur GeCode Club Sunday, Jan. 10, at the Decatur Moose Home. John Welch, plant manager, installed the president and other officers, who are: Norma Bower, vice president; Mary Miller, treasurer; Virginia Raudenbush, secretary; Mary Maloney, Glennis Barkley, and Velma Goeltz, directors.

In addition to the installation and dinner, a business meeting was conducted at which the club program for the 1954 year was announced. It was reported that all meetings for the coming year will meet on the first Wednesday of every month and will be at the Moose Home. The 1954 program is: Feb. 7, The Mister; March 4, The Great West; April 1, Spring Fever; May 9, Mothers' Day; June 3, Our Birthdays; July 1, picnic; Sept. 2, "Skole Daze"; Oct. 7, Harvest Season; Nov. 4, Smorgasbord; Dec. 2, Peace on Earth.

Mr. Welch was principal speaker at the meeting. His topic was "Cooperation." Plans to include several trips in the club's 1954 agenda will be completed later, the new president announced. A candlelight service was conducted by Emma Goldner and this concluded Sunday's meeting.

## New GE Appliance Dealer Appointed

Frank's department store at 731 S. Calhoun St. has been appointed a General Electric dealer in this area. The new dealer will handle all major appliances, not including television receivers. The new 1954 appliance line is now on display on the third floor.

## Eldon J. Vosburgh, George B. Howell Take New Posts as Hermetic Superintendents

Two appointments in the Hermetic Motor Department were announced this week by Willard H. Connor, manager of manufacturing.

Eldon J. Vosburgh has been appointed superintendent of the Holland plant planning study. George B. Howell has been appointed superintendent of Fort Wayne Hermetic Motor manufacturing.

In 1929 Mr. Vosburgh joined the company and did planning and worked on wage rate assignments. He became supervisor of planning and wage rate for Fractional Horsepower Motor Sections 13 and 15. In 1947 he was named staff assistant to the FHP manager of manufacturing.

The following year, Mr. Vosburgh was named assistant supervisor of general planning at Taylor St. and the next year became assistant superintendent of FHP Section 114. In June, 1951 he was appointed assistant superintendent of Hermetic Motor manufacture and became superintendent of the section in November the same year. This was his position at the time of his appointment.

A graduate of Tri-State College,

Eldon J. Vosburgh

George B. Howell

Mr. Vosburgh received his BSEE degree in 1929. He is a member of the Supervisors Club, GE Squares, and Foremen's Association.

The Vosburghs and their daughter reside at 4721 Beaver Ave.

Mr. Howell came to GE in 1946 and went into the advanced manufacturing training program at Schenectady. During the two years on the course, he was sent to the

Pittsfield, West Lynn, and River Works plants.

Upon completion of the course in 1948, Mr. Howell entered the River Works plant where he was on the manager of manufacturing's staff on special assignments concerning installation of facilities.

One year later, Mr. Howell went on special assignment on planning and wage rate. He was named

### Queries Cover Range of Topics In This Issue

### MISSSES 'OUT OUR WAY' CARTOON

#### QUESTION:

Why was the cartoon "Out Our Way" omitted from the GE NEWS? As this was read by a large per cent of the employees.

#### ANSWER:

The Fort Wayne GE NEWS and other papers at the many General Electric plants received this service jointly from a national cartoon service. The majority of the plant papers did not use the "Out Our Way" cartoon, since it was frequently duplicated in their community papers. Therefore, by majority vote the contract with the service was recently terminated. The cost of such a well-known cartoonist's work was then prohibitive to one or two papers.

We know very well how popular the cartoon is in Fort Wayne, and at the moment are investigating to see if there is any way at all that we can reinstate the service locally at a reasonable cost.

### Unfair System

There has been a good deal of discussion lately about excise taxes, and whether the present system ought to be changed. As it is now, a long list of articles and services are taxed, while other things go untaxed. Furthermore, the rates of the excise tax vary considerably. The whole set-up is confusing; it is such a hodge-podge that the people as a whole have no clear idea of what excise taxes they do pay.

Obviously, if one product is under a heavy excise tax, it is harder for that product to compete with products that have no tax. As competition becomes hotter for a share of the consumer dollar, the employees in the heavily-taxed industry may find their job opportunities and prospects threatened. It seems to many that it would be fairer to level out the discriminations, through a general, flat-rate tax which would mean reduction of numerous rates presently top-heavy.

\* \* \*

### Plenty to Do

The human race lived for hundreds of years without making any important changes in the tools it used or in transportation, housing, communications. And ever since man really got going in science and invention, in the last couple of centuries, people have said, "Well, by now there can't be much left to invent."

Have we finally crossed the last frontier of progress? Scientists don't think so. Here are just a few of the things that need to be developed, according to BETTER LIVING magazine: better insecticides that would curb enormous food losses; sun energy for heating and power; ways of getting more food and minerals from the oceans; better fireproof materials; paper and glass substitutes; new drugs to cut pain and illness; better preservatives for rubber, cement and other materials. The list could go on and on; no one can foresee an end to progress.

## What's All This About Alcoholism?

II

### Danger Signs on the Alcoholic Route

It is the quality of one's drinking, not so much the quantity, which is important in identifying alcoholics and potential alcoholics. The quality of one's drinking indicates how far he has traveled along the alcoholic route. The farther one goes, the harder it is to halt the steady downward plunge.

All alcoholics arrive at the same unhappy destination by routes of varied lengths, some getting there quickly while others may take 10 to 15 years to acquire the alcoholic label.

#### Women Severely Affected

It has been said that the woman who becomes an alcoholic is more emotionally disturbed than a man who becomes such. Basically, a woman's emotional structure is more complex than a man's; hence, it is readily understandable why she suffers so severely as a victim. Alcohol acts as fuel for the fire of emotional upsets.

From the case histories of recovered alcoholics much has been learned to aid us in detecting potential victims of alcoholism. There are certain alcoholic trademarks which crop up in a drinker's behavior which can be used as guides in determining the degree of loss of control over alcohol. The following drinking habits are to be considered as patterns of progressive alcoholism. They are the red lights on the alcoholic journey.

Somewhere along the line of so-called moderate, social drinking, drunkenness may occur from time to time. As the occasions of intoxication become more frequent, the greater the danger of alcohol controlling the individual instead of the individual controlling alcohol. These instances of loss of control are significant symptoms of real trouble ahead for the drinker. Drunkenness can never be considered as social drinking.

It is well to bear in mind that the motives behind excessive drinking vary from person to person and cover every imaginable excuse in the book. Sad people will drink to become happy; poor people will drink to forget that they are poor; insignificant people will indulge to become popular, and so on. The objectives in drinking are countless, and, yet, it is important to consider them when confronted with a drinking problem.

#### False Feeling of Mastery

When a person is drinking for some other reason than the drink itself, there is danger of that person using alcohol to provide a false feeling of mastery. This, in turn, promotes a growing need and dependency on alcohol. Eventually, alcohol might become an absolute necessity and be the most important factor in that person's life. Whatever the drinking objective, drunkenness provides only temporary, counterfeit satisfaction, and the net result is greater confusion and crisis.

Sneaking drinks, gulping drinks, big-shot exhibitions by otherwise quiet, insecure people; getting drunk every time one takes a drink, and black-outs—when one does not remember where he has been or what he has said or done—are all indications of growing drinking troubles.

The need for a drink in the morning is, indeed, one of the glaring

signs of need and dependence on alcohol. This usually is followed by a growing urge for drinks throughout the day, resulting in serious interference with one's routine duties, work and responsibilities.

As the compulsion to drink increases, drinkers may start off on benders lasting anywhere from a few days to weeks. For such people alcohol in any form or quantity is poison. They totter on the brink of a maddening exile where the bottle is their only hope for relief, but never release. These people are in desperate need of help, in spite of their customary denials. Invariably, they will resist attempts to aid them, resent any criticisms of their drinking record, lie about it, and try to dismiss the seriousness of the situation confronting them.

#### Blame the Other Person

By this time, solitary drinking has undoubtedly become a practice. The victim withdraws from his family and friends through feeling of guilt and remorse. He may even hate himself for drinking, yet, blame for his condition invariably will be placed everywhere other than on himself. Conflicts rage within—day and night—so, he drinks to forget, but never forgets to drink.

When it is discovered that a drinker is hiding and protecting his supply of liquor, it can be assumed that he is ensnared in the alcoholic trap.

Most problem drinkers try to change their drinking habits at one time or another, particularly when some outside pressure finds its mark. They may go on the wagon, or try some form of controlled drinking such as using a limited quantity of beer or light wine. However, whatever the plan, it is

ordinarily one of the drinker's own design and of bogus intention. It represents a final, desperate measure to find a way to continue drinking without risking any of the disasters of the past. This is alcoholic folly. The alcoholic can never become a moderate, controlled drinker.

As the victim's condition grows worse, he will show a marked disregard for moral and ethical codes recognized by society. He will conveniently forget that his rights end where his neighbor's begin. His promises will come a dime a dozen in abundance, but without quality. The whole structure of his personality falls apart.

#### His Moods Change

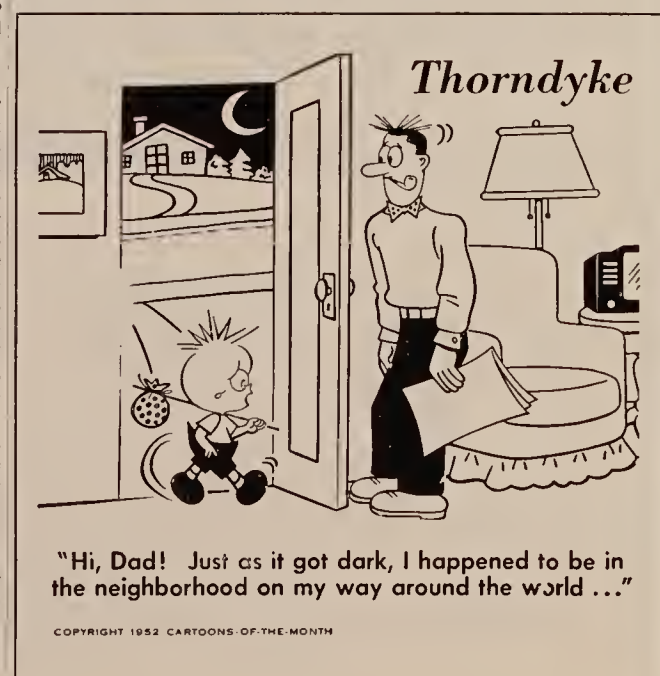

Even when not drinking, the victim's moods swing violently from one extreme to the other. He is unpredictable, unreliable and irresponsible in his relations with others. He finally becomes exiled to a terrifying loneliness that demands relief through more and more drinking.

Resentments crowd the lives of all alcoholics. When they can't get what they want when they want it, it is usually a quick retreat to the bottle. But, the trouble is not so much the contents of the bottle as it is fundamentally within themselves. The bottle is their future weapon against the inner conflicts of mind.

The alcoholic is a dreamer and a perfectionist. He has lofty ambitions and feels that he is entitled to realize them—but, with little or no effort on his part. Failure is something he cannot endure, and he switches from never-ending sober worry to a drinking outlook of "to hell with it."

The alcoholic reaches his low ebb when his condition becomes so bad that drinking itself offers no relief to his miserable existence. Though bankrupt in every conceivable respect, he or she is not beyond salvage, even if one may wonder if there is anything left to salvage.

Somewhere along this devastating plunge to human oblivion there are points of rescue if those close to the drinker will exercise intelligent guidance and understanding. It is always better to prevent than treat.

COPYRIGHT 1952 CARTOONS OF THE MONTH

# Local Engineers Schedule Dinner Meeting Jan. 21

The Fort Wayne Engineers' Club and the Fort Wayne Section of the American Institute of Electrical Engineers will conduct a joint meeting Thursday, Jan. 21 at the Chamber of Commerce.

Guest speaker for the dinner meeting will be David R. Hull, executive vice president and general manager, Equipment Divisions, Raytheon Manufacturing Company. He will discuss "Engineer-Management Relations."

Dinner will be served at 6:30 p.m. Members should make reservations with contact men.

Mr. Hull has a BS degree from the U. S. Naval Academy and a Master of Science degree from Harvard University. He has been awarded fellowships in the Institute of Radio Engineers and the Acoustical Society of America. In addition, he holds memberships in several professional societies including the AIEE and Society of Naval Engineers.

While in the U. S. Navy during World War II. Mr. Hull was assigned responsibility for the design, procurement, installation, and maintenance of all Navy electronic equipment. For this work, he received a Navy Commendation ribbon and citation.

# Mothers-in-Law Rock Boat On 'I Married Joan'

If one mother-in-law on the rampage is sufficient provocation to rock the average ship of matrimony, a multiplication of mothers-in-law wreaks still further damage in the television series, "I married Joan," starring comedy headliner Joan Davis, on the program of WKJG-TV, at 7 p.m., CST.

The telecast, titled "Mothers-in-Law," begins innocently enough with both Joan and her husband, Judge Bradley Stevens (played by Jim Backus), suggesting that they visit their respective mothers.

Then, in the midst of a spirited discussion over which one they should go to see, both mothers-in-law arrive to visit them, precipitating a typical Joan Davis comedy situation.

Veteran actresses Mabel Paige and Norma Varden portray the roles of the mothers-in-law.

# Cameron to Address DMM Group Jan. 18

The Decimal Minute Men will conduct their first meeting of the new year Monday, Jan. 18. The dinner meeting will begin at 6:30 p.m. at the Chamber of Commerce.

D. G. Cameron, manager of manufacturing time standards at Schenectady, will be the principal speaker.

Chairman of the meeting is G. E. Hicks, Bldg. 4-6.

Charles F. Harrod

William R. Boling

Albert F. Wilcox

# Three New Appointments Announced In Specialty Transformer Department

Three appointments in the Specialty Transformer Department have been announced by Herman R. Korte, manufacturing engineer. Charles F. Harrod has been named project survey and plant layout specialist. Albert F. Wilcox has been appointed methods and equipment specialist. William R. Boling has been named machine tool specialist.

Entering the test engineer program, Mr. Harrod came to GE in 1941. He began the course at Schenectady and completed training here. Afterward he went into development planning at the Supercharger plant in the rotor planning section. Mr. Harrod transferred to plant engineering in Bldg. 20 in 1945.

## OSU Graduate

A graduate of Ohio State University, Mr. Harrod received his BME degree in 1941. He is a member of the NSPE, ASME, ASTE, GE Squares Club, and is a registered professional engineer in the state of New York.

The Harrods have one daughter and live at 3940 Tacoma Ave.

## Joined GE in 1950

In June, 1950, Mr. Wilcox became a GE employee and was a power room operator in the power station here. In December the same year, he entered planning and wage rate as a trainee in that

section of the Specialty Transformer and Ballast Department. This was his position prior to his present appointment.

A member of the U. S. Army Air Force, Mr. Wilcox served in the Armed Forces from 1943 until 1946. He graduated from Indiana Technical College in 1949 with a BSME degree. He is a member of the Society of Automotive Engineers.

Mr. and Mrs. Wilcox reside at 3020 N. Anthony Blvd.

After joining the company in 1941, Mr. Boling went on testing in Bldg. 26-2. He entered STAB wage rate the next year and went into planning in 1945. He was a planner in Specialty Transformer prior to his present appointment.

The Bolings and their four children live at R. R. 14, Getz Rd.

# SHAFT SHAVINGS BLDG. 19-3

Some of the boys aren't starting out so well this year. Joe Burton got a ticket for parking in the wrong place. He is going to learn the hard way. . . . Floyd Hardy will have to get up a few minutes earlier, so he will have time to turn his polo shirt right side out before putting it on. . . . When passing out the drinks, soft or otherwise, just skip Herb Wendt. He had a rough time New Year's Eve and doesn't care for any. . . . Herb Boltz found out he can make a quick change, if circumstances demand it. The other morning before coming to work, his wife asked him to take out the garbage. As he leaned over he heard a rip. Since he had to catch a bus, he moved fast.

# Second Shift Elexers Plan Theater Party

Second shift Elex members will start out the year with a Theater Party Thursday, Jan. 21, Florence Hargen, first vice president, reported this week.

Luncheon will be held at the YWCA. It will begin at 11:30 a.m. to give those attending time to see the movie before going to work. From the luncheon, members will go to the Embassy Theater to see "Walking My Baby Back Home", starring Janet Leigh and Donald O'Connor. Each girl attending will receive a box of popcorn at the show, the officers in charge of the meeting reported.

Since this is the first meeting of the new year, officers hope for 100 per cent attendance of the membership, it was reported.

Tickets are \$1.25 per member and may be secured from contact girls. The deadline for securing reservations and tickets is Monday, Jan. 18. The meeting is for members only.

# Partizan to Meet At Jefferson Center

Tuesday, Jan. 19 is the date of the first meeting of the year for Partizan Chapter of the Elex Club. The monthly meeting will begin at 1 p.m. It will be conducted at the Jefferson Community Center, 515 W. Jefferson St.

A program of entertainment has been planned and refreshments will be served. Margaret Tomson is chairman and is being assisted by Oneta Tobias, Irene Ofenloch, and Peggy Flood.

# COUNT OFF SECTION 417 TAYLOR ST. by Marguerite Stahl

Paul Winters had his ears cleaned out in the dispensary, so he could hear his neighbor's TV better. Maybe it would be better to buy one of your own, Paul. Don't you think so, Edna? . . . We're wondering if Alitza Rhinehold is teaching her little girl that all baldheaded men have ringworm. It seems her brother lost some of his hair and she thought Eisenhower lost his the same way after seeing his picture in the paper. . . . We are happy to have Russell Galloway back with us after being ill several weeks. . . . Louise Sinn would like to know why some of her friend's won't let her deliver eggs to their apartments? . . . Our sincere sympathy to Iva Powell on the death of her little three-months old granddaughter, who suffocated in her sleep. . . . Linda Wahrer and Alma Vorndran attended the hockey game at Troy, Ohio, Sunday. . . . Mary Shreve is back from Florida with a beautiful tan. Vadas Putt says she is going to get her sun lamp out so she can compete. Mary likes Florida but she still thinks Indiana is tops. The spiders are a little too large to suit her in Florida. She does like deep sea fishing and was lucky enough to land a 28-pounder. . . . Eno Richter had better get around a little earlier if he wants to square dance.

# Fred Waring to Honor Late Composers

Fred Waring and his half-a-hundred Pennsylvanians, will pay musical tribute to some of Fred's late friends in the field of musical composition this Sunday evening on his General Electric TV program over the CBS-Television network from 8 to 8:30 p.m. CST. Fred, who maintained a personal friendship with these composers while they lived, plans to relate some of his favorite, little-known anecdotes about the personal lives of these men who have contributed so much to the advancement of their art.

Among these composers will be George Gershwin, whose famous "Rhapsody in Blue," will be delivered by the piano-duo, Virginia Morely and Livingston Gearheart. Other great names to be honored on the program include Jerome Kern, Dick Whitting, Peter De Rose, Gus Kahn, and Fred Ahlert, all of whose works will be given full Fred Waring styling by both orchestra and glee club.

VIRGINIA MORLEY, lovely feminine half of the duo-piano team of Morley and Gearheart, which appears on the Fred Waring Show of January 17. The pair will present a rendition of Gershwin's "Rhapsody in Blue," as one of several musical tributes to famous late composers. The program, sponsored by General Electric, will appear over the WKJG-TV network from 8 to 8:30 p.m. CST.

## STORMY WEATHER

BLDG. 17-4

by Bill Hurr and Larry Reed

Dig that crazy mixed-up girl! Alice Hahn not only came in with different earrings in each ear, but has taken to signing her maiden name. No use to hide, Alice, we know you. . . . A welcome visit was paid us by John "Red" Braden the other day, and we must say that he looked very sharp and certainly was the most. They tried to make him a present of a beautiful fox tail, but he wouldn't have any part of it. . . . While doing a good Samaritan act downtown, Howard Brooks, to his dismay, found a ticket on his windshield for over-time parking. His biggest complaint was that he only overstayed his limit by six minutes. They have to pay for the meters some way, Howard. . . . Buck Lydy chased all his children in one room the other night and told them no television until they had studied their music lessons. Could that have been just an excuse so that he could watch his television programs without interruption? . . . It seems so strange that poor Ray Pflueger, who works so hard all day, can't come home and enjoy his television. Of course, the fact that he doesn't have one has a little to do with it. However, if a certain member of his family would quit using that lame excuse that she can't iron and watch too, perhaps he could have all the modern conveniences. . . . According to Don Baker, unless that new baby stops waking up every three hours and wanting fed, he is threatening to send it back. . . . We all have our favorite dishes and generally get them, but Walter Lorenz suffered for the sake of his. It seems that he especially likes shrimp and plum pudding so when he went shopping, his stomach ran away with his head and he proceeded to buy both! On his return home his wife gave him a very thorough chewing out and refused to cook them for him. However, she relented, and he had a grand feast on his birthday, Wednesday. . . . Our two love birds (names unnecessary) remembered us by sending a card from the sunny South. . . . Two new contestants have been added to our fight card, Cy Seymour and Carl Alter, who have been producing some very lively battles. . . . The ultimate in becoming high hat was reached by our Karl Soest. After receiving a jet black homburg from his wife for Christmas, he now states that when he walks down the street wearing it, he doesn't care to associate with any of his old cronies. . . . Quotation for the week: "There are only two ways to grow, up or just older."

## Appointments

(Continued from page 1)

purchasing agent at River Works in 1950 and the following year transferred to Fitchburg where he was superintendent of the welding department. In 1952, he became manager of manufacturing in the same department. In May last year he became manufacturing plan specialist in Hermetic Motor Department and had this position until his present assignment.

In 1942, Mr. Howell graduated from Cornell University with a mechanical engineering degree. From 1942 until 1946, he served in the U. S. Army and was stationed in the European Theater during that period.

Mrs. Howell and their three children moved this month to New Haven from Fitchburg.

**MARKS UP 35TH YEAR**—John Ebert (second from left) marked up his 35th year as a General Electric employee Jan. 7. On hand to congratulate him on the occasion were (l-r) Karl Smith, Art Wolfe, and Scott Click. Mr. Ebert joined GE as a machine hand. He is now a boring mill operator in Bldg. 19-5.

## DECATURITES

by George Laurent

Glennis Barkley is the proud owner of a two-tone green 1954 Plymouth. . . . Dora May Fairchild says she hasn't seen her name in the GE NEWS lately. Here it is, Dora May. . . . Happy birthday to Norma Bower, who celebrated January 12; Waymon Patrick who celebrated in January, and Hez Cochran, who will celebrate January 17. . . . We all want to express our best wishes to Rosie Noonan who left us Wednesday. She will be married Saturday and make her new home in Fort Wayne. Rosie was honored with a kitchen shower given by the office girls at the home of Mary Maloney last Monday. She received many lovely gifts to assist her in her new role as Mrs. Wolfcale. Rosie has been with us since December 1950 and her most recent assignment was that of telephone operator. We all hate to see Rosie leave, but want to wish the new bride and groom our congratulations and best wishes for many, many years of wedded bliss. . . . Welcome to Nyla Wilkinson who was recently transferred from the plant to replace Rosie Noonan as telephone operator. We hope you like your new job, Nyla. . . . We offer condolences to Clarence E. Meyer upon the death of his father, who passed away recently at the age of 87. . . . We're glad to see Grant Fry back after several week's absence because of surgery and illness. . . . Congratulations to Mr. and Mrs. Willie Merriman upon the arrival of a new son at their home. . . . If you saw Jay Julius Baker apparently flying around on clouds the last few days, it was because of the arrival of "Mike," who was born to Jay and Marge last Sunday. The Bakers now have two girls and two boys. Congratulations! . . . I have always regarded my friend, Oran Schultz, as a connoisseur when it comes to matters of taste. Now my confidence is shaken. Another friend tells me that Oran doesn't know the difference between a good drink and just plain "coke and water." . . . Coon hunting must be a very fascinating sport, but like all other sports it sometimes has its moments when the huntsman relaxes

into absent-mindedness. After hunting for hours and finally treeing a coon on a recent night, Herman Lengerich remembered that he had left his gun parked against a tree about a half mile away. Good ole hunting partner, Cecil Franklin's dog, kept the coon treed until Herman returned with his gun. The report doesn't mention whether or not Herman brought bullets with him. . . . Mr. and Mrs. Oran Schultz and Mr. and Mrs. Clem Snell spent last Saturday visiting Mr. and Mrs. Frank Munday at Van Wert. Mr. Munday, a former GE employee, sends regards to all his old friends at GE.

## TOOL BITS

BLDG. 19-4 and 5

by Howard Demsey

After four years of excellent reporting in this column by Don Clark, your new editor will have a tough time keeping the standards as high as you have begun to expect. We'll do our best to keep it as interesting as possible. Good luck on your new assignment, Don. . . . Herb Thiele thought he was getting a swell-head when his hat began to fit tighter every day. Then he began to check and found that Clarence Wiebke had been adding a strip of paper under the band daily. . . . Congratulations to Al Nebur for becoming grandpa twice on Christmas Eve to twin boys. . . . Bob Mosshammer was four hours late the morning after the Bargain Barn fire. We heard that he was out poking around in the ashes looking for bargains. . . . Louis Hartman is another new grandpa. . . . When Allen Brown tried to leave a used car lot after having his car appraised, he found he was out of gas. "No use giving the used car dealers any breaks or gasoline," says Allen. . . . Clyde Spangler didn't want the cost unit to miss him next pay day, so he went so far as to carry his time cards to the clock to ring them out instead of his clock card. . . . When Dick Reisinger saw two ladies looking for a seat at the cafeteria he gave up his seat for them and forgot his coat in the process. Forgotten manners are harder to get back than a forgotten coat, right, Dick? . . . Jim McFeely seems to be having a one-man

clean-up campaign. He was seen cleaning out a dust collector (looking for a lost die segment) and rearranging one of the spare part cabinets. . . . Congratulations to Bob and Mrs. Calkins on the arrival of a brand new baby girl just a few hours before the expiration of 1953, thus giving Papa Calkins a very timely income tax deduction. . . . North Side High booster, Sharon Matthews, counted it a personal victory over South Side booster, Arnold Berning, when the Redskins fulfilled her fondest hopes in spilling the unbeaten South Siders. . . . Dick Burns went ice fishing over the week-end, and by the way Dick sounds and looks, his highest catch was a severe head cold to remind him of his week-end wait for the blue gill. . . . Did you notice how much younger Max Baron looked last Monday? Max took his two children roller skating Sunday afternoon and says it really peps you up. . . . Add to prospective TV owners, John Stetler, who has talked his wife into buying a set but hasn't quite closed the deal yet. Keep your fingers crossed, John. . . . Chet Reynolds felt sure he would get a shotgun for Christmas after drapping a few strong hints. His face got mighty long when he unwrapped a certain package containing a toy shotgun and targets. About that time his son, Jack, walked into the room with a long box and that was it, the real shotgun. Chet was plenty gay after that. . . . Boh Truelove had a nice trip to Florida. He bought bathing suits for his family, only to find sunny Florida was cold once in a while. . . . Wilson Garman and his son were seen riding the escalator in the new Sears store while his wife was shopping. Next he'll be saying it was his son's idea. . . . Henry Frey and Gene Denig are still waiting for word of a fish fry from Woody Hursh who claims he really got the fish up in Michigan. Was it a real fish story? . . . Farmer Mart Walsh lost a bout with a corn-picker stored in the barn and bent his shin. It's a good thing it wasn't running, Mart. . . . The TV bug has bitten Jack Schemhorn also, resulting in the usual symptoms—red, baggy, Fred Allen-type eyes. . . . The I. D. O. bench gang welcomes Lewis Holt-house. . . . Dan Dillan left us January 4 for a job on the engineering staff at Boeing in California. . . . Paul Moore is leaving us to resume study at Indiana Tech. . . . Kenny Bergman developed a new dance step trying to keep a mouse from running up his pants leg. It involves having both feet off the floor most of the time.

## 2-2 TALES

Belle Buchan

It must be nearing spring, for Vern Castle, along with several others are scanning new car folders. . . . Happy birthday to Donna Guiff. She is still young enough to tell her age, too. . . . It wasn't that Jess Hahn's feet hurt him that he didn't want to walk down the office aisle. It was because a big-headed nail became angry at him and took a nip out of his trousers. . . . Joyce Ahern is flashing a new diamond on the proper finger and counting the days until she can add the mate to it. . . . Clint Newman can hardly wait until February to see if the girl on his calendar is as glamorous as the one for January. . . . Don't forget to send some cards of cheer to Dorothy Mills, who is still in the hospital. . . . Birthday greetings to Barbara Houser this week.

To admit ignorance is to exhibit wisdom.—Ashley Montague.

## G-E people in the NEWS

**Bob GUINGRICH**

BLDG. 20-2

—IS SECOND VICE PRESIDENT OF THE MIDWEST COUNCIL OF INDUSTRIAL MANAGEMENT CLUBS

**Walt ROSSELOT**

BLDG. 20-1

—ACTIVE IN AFFAIRS OF THE BLOOMINGDALE SCHOOL OLD TIMERS GROUP

**M.D. BARROWS**

BLDG. 4-6

—IS CURRENTLY HOLDING THE VICE PRESIDENT'S OFFICE OF THE FORT WAYNE ENGINEERS CLUB

# from the panel's point of view...

This week's panel consists of four employees who are gallon blood donors. Each of these individuals has donated more than eight pints of blood at the American Red Cross Regional Blood Center.

## WHAT IS YOUR OPINION OF PRESIDENT EISENHOWER'S STATE OF THE UNION ADDRESS?

William Straub, Bldg. 17-2: "I think he had a wonderful speech and some very good suggestions and ideas. The question is, can he put over his suggestions. If he can, I say he is a big man and just the one we need to head our government."

Walter Buesking, Winter St.: "It is my opinion that his speech was good. However, it dealt mostly in generalities and it remains to be seen if he is able to carry out the promises he made to the American people both during his campaign for the Presidency and in his speech."

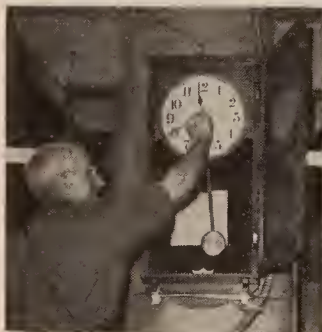

Agnes Ryan, Taylor St.: "I agree with his opinion of some issues mentioned in his speech. I think U. S. citizenship of convicted Communists plotting against our government should be revoked and I think U. S. financial aid to foreign countries could be reduced in some places. I believe that an 18-year-old capable of fighting to protect our country is also capable of choosing our leaders."

Richard Anderson, Bldg. 4-2: "I believe that the President's speech was very good, but I do not think it possible to accomplish all these things because of the rapid change in national and foreign conditions."

## ECHOES from 19-2

Fred McIntyre

The long arm of the company's retirement plan and the inexorable march of time have reached into the DC Armature Dept. to take Bill Hoke from our midst. Kindly, never given to long speeches, Mr. Hoke was inordinately meticulous in the operation he performed for so many years. Indeed, if it was our practice, a nameplate reading "Armature by Hoke" would be the same as "Sterling" on silver. Bill Hoke's going will leave a void that may endure for a long time. May we wish him a long and tranquil time in retirement. . . . We wish Flossie Shoopman a speedy recovery. She has been confined to her home by illness. . . . To Florence Hyndman, "belated birthday greetings." . . . Since Bill Hoke has retired Roy Lawrence will be now known as the "Dean" of Bldg. 19-2. . . . To Anthony Lupe we offer our sincere hope for his wife's recovery. Tony has been faithfully attending his wife during her illness. . . . Why did Catherine Eckenbarger fall down the stairs on New Year's Day? Did she want to start the year with a bang?

... Shown winding the clock is William Hoke, an employee of 43 years, who is soon to retire. This clock was purchased December 11, 1925 by the combined contributions of 25 employees of this division, then located in Bldg. 8. About the only attention needed to keep the clock running in this 25 years has been an occasional squirt of kerosene or oil. Bill has been the Chief Winder and Oiler in all of this period and unless someone else is willing to take over his duties, the clock will have to be retired along with Bill. So far no one has volunteered.

## PICK-UPS from 26-3

Maxine Jordan  
and  
Helen Wagner

Anyone who would like to know how to get off a roof that is covered with snow and ice, see Frenchy Chilcote. . . . Eugene Boothby has a new tax deduction, too late for 1953, a baby girl. . . . We would like to know if Arnold Wolfe had a good time at the square dance in Chicago? . . . Anyone having extra door keys please give them to Lonnie Rockstroh. She can use them. . . . If your dog is bothered by "cockle berries" bring him to Mildred Lazier. . . . We finally discovered what that strange odor is in our section. Put your shoes on, Wanda. . . . Strange as it may seem, Art Pequignot is drawing a full 40 hour pay check. Could it be that "Simon" has something to do with that? . . . We thought after the holidays our set-up men in Small Lot Section might not be so absent-minded. After the set-up he

made on Louise Lengerich's machine, we are wondering what he is celebrating now. . . . We are sorry that Rose Onstott and Frank Pequignot are ill. Hurry back, Rose and Frank. . . . Frank Clifton has a new hobby. Every time a new model car comes out, Frank goes to see it. Then he drools for a week or so. . . . We are sorry to hear that Ellen Gers is ill. We miss her very much. In fact an unknown admirer missed her so much that he bought her a box of candy. Who is he, Ellen? . . . We would like to welcome Bernice Hughes to our department. . . . Patty is waiting for that phone call from her husband, who is in California. Be patient, Patty, he will make it yet. . . . George Finkbeiner, why don't you explain "things" to Jim McGill so he won't have to ask all those embarrassing questions? . . . SAFETY SAM SAYS: The safety record for our department is the result of your own good judgment and the good judgment of those working with you.

Walking a baby is a great deal more fun if she is over 21.

## 17-3 NEWSIES

by Wilhelmina Beeth

Congratulations on the pink-bootied addition at the Carl and Vera Gennaitte home. The mama is a former co-worker. . . . We light another candle on the cake and wish a happy birthday to Ada Christie, Margaret Monnot, Dolly Cox, Bertha Witham, Marie Claycomb, Mildred Pfaller, and Frances Eckrote. . . . The other morning Hilda Rinehart woke up and the sun was shining brightly. She looked at the clock and it was 2:30. Her first thought was that she had slept all day. It had stopped at 2:30 a.m. and she made it in to work by 9:30. They have real nice clocks at the Employees Store. Better get one, Hilda. . . . Glad to see Jo Matter back in the groove and ringing in her clock card again. . . . Jess Hahn got too close to a hook and felt a draft. He was given several suggestions on what to do about it. One of the girls wanted to loan him a smock. Someone else suggested wearing his overcoat the rest of the day.

Jess thought it was easier to go home and change his trousers. . . .

Colleen

Here is a picture of Colleen Kaye, little granddaughter of Bertha Witham. No wonder Bertha likes baby sitting. . . . Lorena Buuck has been trying to kid us. She said she lived at Poe, but cards sent to Poe will be returned. Are you afraid to say it's Decatur? . . . We bid farewell to Donna DePew and Wilmette Clark. They are spreading the welcome mat for Mr. Stork. . . . Erma Kohlmeier will probably get a tire fixed the next time it is flat. She went out to the parking lot and had a flat. She put on the spare and the next morning it was flat. . . . We extend our sincere sympathy to Louise Hayes on the loss of her grandfather. Also to Lucille Bates on the loss of her brother-in-law.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

SHIPPING: The sparkle in the front of the office is only the diamond ring on Vera Poe's finger. Congratulations to you, Vera. We are all wondering when the wedding is going to be. . . . We will just say, "So long" to Cholene Anderson, who left us to be a full-time housewife. . . . Norma Durnell's boy friend came home on a surprise furlough over the weekend. . . . Francis Miller and husband spent Saturday in Benton Harbor, Michigan. Fran's husband refereed a ball game there. . . . Herb Anderson, the lucky person, is sporting a new 1954 Chevrolet around these days.

35-YEAR LETTER—Edward Farrell (right) reads a letter of congratulations he received on his 35th General Electric anniversary to (l-r) C. B. Smith, Louis Becker, and Walter Dreyer. Mr. Farrell, who celebrated his anniversary Jan. 4, is a drill press operator in Bldg. 6-4.

# Clock Cards to Paychecks

## HOW WE GET OUR WEEKLY BREAD-AND-BUTTER TICKETS

Transforming a clock card into a check is quite a feat, but one that is accomplished every week in the three payroll units here. More than a simple process, the system of producing pay checks is considered by most of us only in the final stage, when we receive our check and at the time of year when taxes are due.

However, there is a great deal of work involved from the time an employee rings out his clock card at the end of a week until he receives his check for that week.

The amount of money due employees is figured from clock card records. This total is reported on the cards and they are sent to one of three payroll units where the machinery is set in process to pay Fort Wayne plant employees.

There is a payroll unit servicing Direct Current Motor and Generator employees, one for Specialty Transformer employees, and another one for employees of the Hermetic Motor, Specialty Component Motor, and General Purpose Component Motor departments, and Winter St.'s Small Integral Motor Department. The latter section, which services the largest number of employees, is the one shown in action and described on this page.

Like other factors in modern day living, our weekly checks have succumbed to the machine age. Today, intricate International Business Machines take payroll records through various stages and issue checks at the rate of 75 per minute with almost unbelievable but true

accuracy.

One of these machines, the key punch, starts the process after clock cards are received. The information on the cards is transferred to IBM cards by the machine, which is operated by an employee.

From that point, the first IBM card for an individual moves through other machines along with similar cards containing other information. These machines take records from each of the cards, combine what is needed, and produce a final card which lists in its punchings all the information found on every check stub. The final card and a master name card are placed in a tabulator along with blank checks. This machine transfers the information to the check.

After this step, only the signing of the check, which is done by a machine, follows. Finally, the checks are taken to the various sections for distribution.

The mechanical wizards do not perform all the work, however. Some of it remains in the hands of payroll employees. About half a

dozen of these persons in Bldg. 8-2 figure deductions for each employee in the departments they service.

All deductions and changes on our checks, except withholding tax and social security, are figured first by these workers. The results are sent to the IBM key punch machines to be placed on cards kept permanently in payroll files. In addition, the same group records changes of address and transfers.

It is especially important to each employee that he report any change of address at once to his particular payroll unit. If checks are sent to an incorrect address, they are not forwarded, but are returned to payroll. In addition, the same address plates are used to send all other pieces of mail going to all employees. Delay and confusion is avoided by reporting such changes.

After checks are cashed, the canceled checks are returned to payroll where they are sorted by the IBM machines and kept on file for several years. The successful performance of this job depends upon each employee, for by folding a check

CLOCK CARDS are checked in by Joe Allen after they are received in the Bldg. 8-2 payroll section. From the information on these plus that on hand in the section, weekly checks are issued.

BLANK checks are placed in the tabulator by Jim Ervin, Bldg. 8-2. The IBM machine prints the correct figures on each check from information received on punched cards, which are also fed into the mechanism.

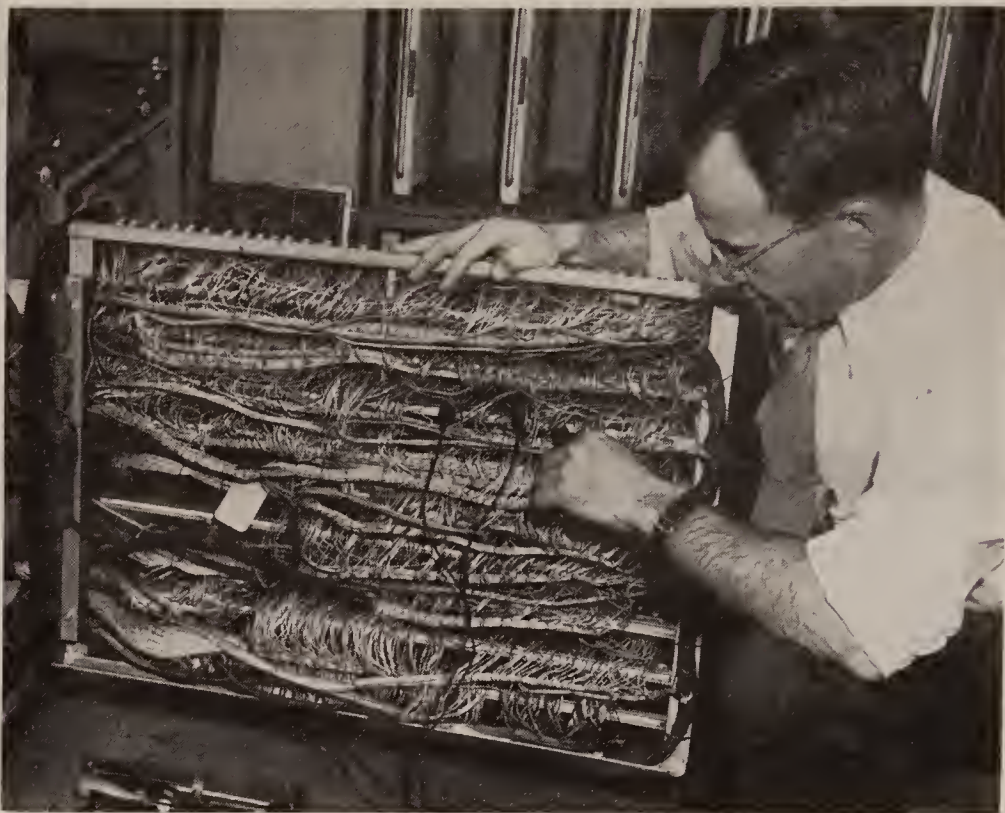

DEDUCTIONS other than withholding tax and social security, are figured and recorded by payroll employees who also list changes of address and transfers.

**SORTING** IBM punched cards which are used to produce checks in Ruth Graft, Bldg. 8-2, who operates a machine which sorts 450 cards a minute.

**CHECKING** a calculating machine is IBM serviceman, Don Marsh. The intricate pattern of wiring shown on the inside panel of the machine makes it possible to do a variety of work.

**FINAL** step in the process is inserting the printed checks into a machine which signs them. Stacks of printed checks wait to be sent to various sections for distribution. Maxine Mandra operates the signer and inserts the checks.

in the middle, an individual can slow up and jam a machine. Checks can be folded if it is necessary, but they should be folded along the two lines indicated on every check. If this is done, checks can be run through the intricate machine without being torn or jamming the machine.

Canceled checks are only a part of the vast store of records kept by the Bldg. 8-2 payroll, including lists dating back to the Jenney Electric Company. The importance of keeping such information is

proved often in many ways. Just recently, an employee in another plant retired and with the record of payroll files here, it was proved that he had worked in Fort Wayne for ten years before transferring to the other plant. This meant greater retirement benefits to him.

From the past when employees were paid in gold pieces carried into the plant under armed guard, to the present mechanical system, payroll units have expanded and improved their methods to continue bringing us our weekly pay.

## OVER OUR WAY

**BLDG. 19-1**

**Clara Volz**

I heard from a reliable party that Bob Kite held up traffic at the corner of Clinton and Berry Streets last Saturday afternoon. You know these cars will go just so far. Then they have to be gassed up. Honest. . . . Emil Fagg's blood pressure went sky high Sunday night. It couldn't have been that cute little dancer on Bing Crosby's TV show, now could it? . . . It has been rumored that Oscar Martin passed out coffee and doughnuts during the Bargain Barn fire. You see, Oscar owns a

mighty fine hardware store in that vicinity and a little advertising never hurt any business yet. Thus the free eats. . . . Welcome to Bob Schilling and Ralph Church, our new Test learners. Bob hails from Montana. That's where the men are men, and the women are glad of it. (Clara! what you said.) . . . Too bad about what happened to Frank Newport's brand new store teeth he bought at the Bargain Barn. He had some trouble with them though and sent them back to be repaired. Then along comes that nasty old fire. Now Frank spends his evenings looking in the rubble for his choppers. . . . Helen Staley is the only one in our office who hasn't as yet broken down and bought a TV set. She

just happened to get a hold of a "bow tie" from a friend who didn't need his. This might be a good lead-in for a TV salesman. Are you listening, Dick Bodkins, of Bldg. 22.

## WIRE RAVELINGS

**TAYLOR ST.**

**by Art Rasor**

Virgil Howell must have had a successful 1953 because he paid very little attention to the new calendar presented him. The top page was marked December, so he quickly removed it and was ready for 1954. Someone tipped him off

that he was a year behind and had better keep awake. . . . Congratulations to Cleo Crowe, who is on his 26th year with the GE Company. . . . There are some grem-lins working in Herb Thompson's area and he surely would like to find out who they are. It was a rather peculiar taste, but Herb kept on eating his sandwich, thinking the lettuce tasted a bit like paper. That was exactly the case, as what he tasted really was paper. . . . "Tiny" Wright had a desire to be 19 again, so he tried playing a little basketball. He threw a little weight around at the wrong time and ended his career by bruising his heel. He says he is ready to forget about becoming young again. . . . The drivers in

Waynedale had better be careful when approaching the mail box marked Steve Bobay. The last guy who knocked it down had to buy a new one. . . . Bob Baals spent an almost fruitless day hunting on the last day of the season. However, he came home with one rabbit and a tired look. . . . Gloria Boling will be off for a few weeks for an operation and we hope to see her back soon. . . . If anyone has any spare corn left, get in touch with Don Firks as he just found out that the best hogs are cornfed. . . . Congratulations to Pat Thrasher on her engagement to Dick Parnin. . . . Be sure to notice the SWSWEP sign at the safety station and Save Your Sight With Eye Protection.

## Test Engineers Edge Firemen; Airliners Stop Transformer

by Don Cochran

The Test Engineers, led by Ken Frankenstein's 26-point barrage, defeated the Firemen 58 to 49 in the first inter-division basketball game Thursday, January 7. After a close first half which ended 29-28, the Test Engineers outscored the Firemen 2 to 1 in the third quarter and went on to win easily.

Reidorf kept the Firemen in the game with his impressive total of 21 points for the evening. The game was somewhat slowed by personal fouls as the firemen lost Baals and Bergman and the TE's lost Yealy.

The Test Engineers victory places them third in the first half league standings. They have lost only two games this season, one of which was protested.

In the second game of the evening, the Airliners, defending league champions, won their first game of the season as they shaded Transformer 45-43. The game was close throughout with the half time score tied at 19-19. The Airliners were trailing by one point at the end of the third period, but put together their best offense of the evening to gain a 2-point victory.

Trabel and Worfold totaled 13 and 12 points respectively for the winners while Baily collected 12 points for the losers. Ealing of the Airliners had the dubious distinction of totaling 8 fouls for the evening as he earned three technical fouls immediately following his fifth personal foul retiring him from the game.

At the end of the scheduled first half of competition, the Squares and Apprentice are tied for first place, with records of six wins and loss. The first half play-off game

is scheduled this week.

Second half competition is scheduled to start the week of January 19. The second half play will be divided into two groups with the top four teams and the lower four teams comprising the sections. A winner from each section will be determined. These two winners will then form a playoff for the second half championship. The ultimate inter-division league championship will be determined by a three game playoff between the winners of the first and second half competition.

The league standings at the end of the scheduled first half are shown below:

	Won	Lost
Apprentice .....	6	1
Squares .....	6	1
Test Engineers.....	5	2
Hermetics .....	4	3
MTP .....	2	4
Firtmen .....	2	4
Transformer .....	1	6
Airliners .....	1	6

### Bowlers Needed

Two bowlers are needed for the Friday Night Women's League. Bowling time is 6 p.m. Please call Virginia Mollet, Ext. 466, or Betty Puff, Ext. 726.

## Entry Blank

### GOLDEN GLOVES BOXING TOURNAMENT

Sponsored by

#### GE CLUB—WKJG and WKJG-TV

Jan. 25 and Feb. 8

Please enter me in the Golden Gloves boxing tournament.

I certify that I am an amateur and am 16 years of age or over.

In consideration of your acceptance of this entry, I hereby for myself, heirs and assigns, expressly waive any rights or claims to damages which accrue to me against the GE Club and Radio Station WKJG, its agents and representatives and others in any way connected with the promotion of the contest, as a result of said contest. It is understood that I participate solely at my own risk.

Signature .....

Age .....

Address .....

Weight .....

(Minors must obtain parents' or guardian's written consent.)

I hereby agree to and accept each and all of the above conditions and waivers on behalf of my son (or ward) whose signature appears above.

Signed.....

(Parent or Legal Guardian)

Mail or bring entry blank to Frank Newport or Charlie Wilt at the GE Club, or Hilliard Gates at WKJG.

# Two Rings of Action Slated For Golden Gloves Jan. 25

The 25th anniversary of the Golden Gloves annual amateur classic in Fort Wayne will be observed this year when the matches get under way at the War Memorial Coliseum Monday, Jan. 25.

Under the co-sponsorship of the GE Club and radio station WKJG and WKJG-TV, the event will feature two rings at the opening night clashes. All entrants in the tourney will

W. Berry St.; and at all Zollner ticket stations.

Reserved seat tickets are \$1.50 for ringside and first balcony, and \$1.00 for other reserved seats. General admission tickets are 60 cents and will be available at the door.

A series of five boxing shows was conducted at the Club the past fall and winter in preparation for the event and shows were also conducted away from home in this series. All these shows featured inter-city cards.

### TALES from TAYLOR SECTION 113 TAYLOR ST.

Harry Parker

Phil "Tiny" Schoppman, in looking over the for sale ads in the news, ran into one advertising an upright piano for sale, the price being five dollars. Desiring to obtain this ponderous piece of furniture, he called, and was told that he might have it. Over the past week-end he engaged Stepan Kalynczenko, one of his co-workers, to help him move said piano to his residence. Obtaining a cattle trailer, they proceeded to the point of embarkation, backing the trailer up to the porch. They were now ready to put it on board. One thing to remember at this time is the fact that Phil is about four times the size of Steve; so far so good. Pushing the instrument to the edge of the porch, Phil said to Steve, "Now you lift it up and I will give it a shove." We do not know what the outcome of this arrangement

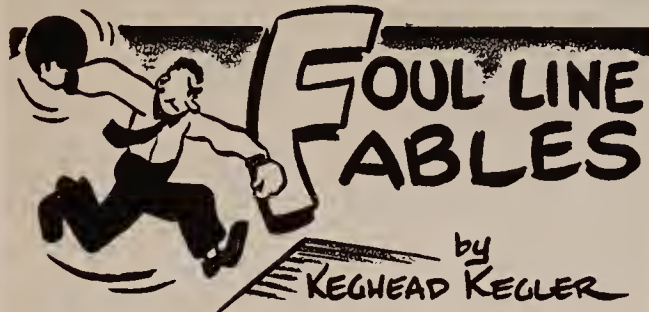

was, but we do know that he got it safely aboard, as they were observed going east on Home Ave. with the piano tucked snugly into the hog trailer. . . . Bill Eastes, energetic operator of a small grocery in Waynedale, is always running out of small change which causes him a lot of inconvenience. He told us that over the past week-end, he had thirteen dollars in pennies on hand. In no time they were all gone and again he was faced with the problem of rounding up more small change. He now has a plan in mind which we think will solve the small change problem. Now directly across the street from his place of business is an empty storeroom in which he plans opening a bank, putting his father, Ray Eastes, in as president and cashier, while his uncle, Lindsley Eastes, will be installed as secretary and teller. We really think that Bill now has something on the ball. . . . Well at long last, Chet Price's long black overcoat which was turning green with age and looked as if moss were growing upon it, has been retired to the family garage where the moths can lunch upon it for the next few years. Evidently his daughter got tired of seeing him wear that mossy-looking garment because she presented him with a very good-looking, heavy, maroon-colored jacket on Christmas Day.

"The idle man does not know what it is to enjoy rest. Hard work, moreover, not only tends to give us rest for the body, but, what is even more important, peace to the mind."—Sir John Lubbock.

**FIRST HALF CHAMPS**—First half champions in the Main Auto Owl League, the GE Club team, pose for a team picture after racking up their tenth straight victory this year. Row 1 (l-r) are Ronald Fisher, Gene Etter, Tom Gladieux, Carl Wilson, and Harold Somers; row 2 (l-r) are Bob Markkey, Warren Dickey, Ron Blodgett, Frank Bailey, and John Amsbach.

Ladies' Tuesday Afternoon

In the Transformer League Volts are out in front with a record of 30 wins and 15 losses. In second place M has won 26 and lost 19. Autos have won 22 and lost 23. Gordon rolled a 206 and Furbie split the maples for a 202.

Team No. 2 won 3 games to get off to a good start in the second half. Teams No. 3 and 6 have won 2 and lost 1 each. Team No. 2 rolled the high series count, a 2109, which included the high single count, a 782 score. M. Nute kegled a 196; L. Roberts, 175; and B. Tucker, 171. The high three-game series was rolled by M. Nute, a 534.

**Ladies' Friday Night**

The end of the first half finds Team No. 5 in the top spot with 30 wins and 15 losses. Team No. 3 won 26 and lost 19 for second place. Team No. 2 won 3 games and moved into third place with 24 wins and 21 losses. Liz Shearer kegled a 534 series on games of 196, 157, and 181. Virginia Mollett rolled 194, 167, and 161 for a 522 series. Betty Thompson and Kathy Crouse each had a 509 series. Betty had games of 173, 174, and 162; while Kathy rolled 160, 191, and 198. Charlotte Stanford started with a 157, and fired a 190 and 159 for a 506 series. Ann Lee had the high single game count, a 199. Winnie Scheurich kegled 184 and Rose Blauvelt rolled 173.

**Small Motor**

Two Legs, Test, and G Men each won three games to start off the second half in the Small Motor League. Tommy's Lunch, Drafting, and Models won 2 and lost 1. E. LeFavour kegled a 599 series which included counts of 206 and 205. Walt Lamboley scored a 209; R. Guingrich, 202; A. Flager, 202; C. Brandt, 203; E. Downie, 203; and George Haggenjos, Jr., 202.

**Ladies' Monday Night**

Twisters, Gutterballs, and Scatterpins are tied for first place each with 5 wins and 1 loss. In fourth place are the Holeymen with 4 wins and 2 losses. Dot Fuhs kegled a 510 series on games of 185, 174, and 151. The high single game was rolled by Mary Reuss, a 212. Other double century scores were rolled by Ardyth Hawley, 175; M. Rauner, 172; Joyce Baumgartner, 177; Jean Dangler, 170; Frances Miller, 183; Donna Schoaling, 174; Winnie Scheurich, 170; Jerry Stalp, 180; Maxine Root, 178; and Ester Muzzillo, 174.

**GE Orphans**

The Orphans bowled twice last week to make up the games lost Christmas week. One series was the end of the first half and the other was the beginning of the second. Marge Bischoff finished the first half with a 543 series with games of 151, 182, and 210. Then Marge started the second half off with a bang by rolling a 560. Her games were 174, 192, and 194. Other high games were Milly Rietdorff, 187; Margie Rollins, 182;

and Bea Lantz, 178. Hotel Keenan won the first half with 38 games won and only 10 losses. Team No. 2 won 27 while losing 21; Ken's Market won 22 and lost 26. In the second half, Hotel Keenan has won 3 and lost none. Team No. 6 and Team No. 2 have also won all three of their games.

**Decatur**

Flanges lead the Men's Factory League with 31 wins and 20 losses. Stators and Office are tied for second place each having won 27 and lost 24. G. Schultz scored 227; G. Lister, 219; M. Brown, 205; and R. Schuster, 217.

**GE Fraternal**

With 36½ wins and 17½ losses B. P. O. Elks is leading the league. West End Restaurant has won 34½ and lost 19½. Al Bruck scored a 640 on games of 224, 204, and 212. N. Steury rolled 192, 203, and 218 for a 613 series.

**GE Women's League**

Last Frames have won 26 and lost 19. GE Office has won 24 and lost 21. Hi Spots are third with a record of 24 wins and 21 losses. Myers kegled counts of 180 and 167; Miller, 171 and 166; and Rail- ing, 180.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

We extend our deepest sympathy to Lulu Vore in the recent death of her nephew. . . . Verena Morgan can now have visitors at the Lutheran Hospital. She is in Room 228. . . . Bill Davis is wanting a remedy for snoring. He says his wife is going to throw him out unless he quits, so he is ready for any suggestion. . . . Dick (Lover Boy) Graham surely has trouble with his ears turning red lately. . . . Clarence Gardt promised some of his girls he'd bring a mouse trap in and set it to catch their little friend. So far, he hasn't set it. Maybe, it's because he would have to carry out the mouse. . . . Nellie Wiggins was all smiles over her new Chevy last week so they went to Maryland to visit her in-laws this last week-end. . . . Betty Shockley needs someone to look after her all of the time, so she won't lose anything. Betty lost her billfold Sunday. We hope you find it, Betty. . . . Marg Ulrich has joined the second trick and Arveda Neat has come on days. Also we wish to welcome back Eulla Murray, Martha Powell, Willy Hills-mier, and Leona Meyers. . . . Nellie Williams celebrated her 25 years with the company Monday. Congratulations, Nellie. . . . Peg Ballinger got a real surprise Saturday night. His daughter had a surprise party on Peg and his wife in honor of their 25th wed-

# GE Owls Win Ten Straight; Take First Half Championship In Main Auto Cage League

by Howard Colby

The GE Owls won the first half championship in the Main Auto Industrial Owl League with a perfect record of ten wins and no losses. Last Thursday morning they defeated a fighting Aircraft Gear team by the score of 48 to 26.

In the first quarter GE scored five baskets and two foul shots as Etter hit for two; White and Blodgett, one each; Markey, a basket and a foul shot; with Wilson adding a charity toss for a total of 12 points. Aircraft Gear scored 9 points.

The second period was rather slow as the Club boys scored 9 points on two baskets by Dickey; one each by Anspach and Fisher; while Gladieux tallied on a free throw. Aircraft Gear was held to 6 points to end the first half with GE in the lead 21 to 15.

Both teams were cold in the third stanza with GE scoring 7 points and Aircraft Gear 5 points to make it 28 to 20.

In the final quarter the GE boys really got going to salt the game away. Dickey hit three fielders; Gisher, three; Markey, two; Etter and Gladieux, hit one each for a 20 point quarter. Aircraft Gear connected for only 6 points for a 48 to 26 final score.

Next week GE meets Eckrich at 9 a.m.; Indiana Rod meets Aircraft Gear at 10 a.m.; and Zollner plays Salisbury at 11 a.m.

GE CLUB		AIRCRAFT-GEAR	
	G F T		G F T
Markey	3 1 7	McKee	3 0 6
White	1 2 4	Barnes	2 0 4
Blodgett	2 0 4	Rouch	2 1 5
Wilson	0 1 1	Piatt	0 4 4
Etter	3 0 6	Lamle	0 1 1
Anspach	2 1 5	Osborne	0 0 0
Dickey	5 0 10	Wolfe	2 2 6
Fisher	4 0 8		
Gladieux	1 1 3		
Somers	0 0 0		
21 6 48		9 8 26	

**TIP-OFF TO VICTORY**—Ron Blodgett (right) starts the GE Owl industrial team off to the first half championship in last week's game with Aircraft Gear. GE defeated Aircraft Gear 48 to 26 to cinch the Main Auto League first half championship.

ding anniversary. . . . Bill Allen really believes in starting his children out young. Bill has a boy three years old and a girl five years old. The other Saturday, they were helping Bill with his radio work. No kidding, the kids were really good. . . . The other day when we had all of the snow and ice on the street, people had a

hard time going up the hills. Carl Sorenson came to a place that had about 10 cars trying to get up the hill. What does Carl do but go around them. Carl had a four-wheel drive on his jeep. Ice and snow doesn't bother him a bit. . . . Kate O'Connor says she has been a good girl so she can't make the GE NEWS this week.

## APPRENTICE BROADCAST

by James Schwartz

The combination of George Haggenjos, Jack Becker, Jerry Gibson, "Pinky" Pinkerton, and Don Beitz are in the limelight this week. These boys make up the Apprentice School bowling team who on January 6, while bowling in the Inter-division League came through with a 2999 series featured by 1068 single. These scores indicate a 200 average per man per game and that's really bowling in any man's league. . . . That tremendous outburst we heard the other noon came from our own little Dick Wagner. Seems he got euchered by his own partner in the daily card game. . . . We find it hard to determine whether Myron Auer or Bill Hawk is the most adept when it comes to using cut-off tools. . . . We have all decided Bill Cox is without a doubt the luckiest, no further comment. . . . Bob Barnes has signed up for a series of driving lessons. It seems he was backing out of his driveway the other morning and ran into the side of his own house. . . . Bob Daiforn had a little auto trouble also. He saved up and bought dual mufflers for his car and 45 minutes after he installed them he wrecked the whole car. . . . We wish to extend the welcome mat to Walter Hinchman. Walt is a new apprentice enrolled in the machinist-toolmaker course.

## 6-4 AIRLINERS

by Moe Satterthwaite

We've all heard about people who daydream. Ivy Mills is one person who can do just that. The other afternoon Ivy sat down at Alice Flaugh's bench and put on Alice's boots and started waiting on the 3:25 whistle. You should have seen Alice's face while she watched the procedure. Better still, you should have seen Ivy's face. Even her ears turned red. . . . Barb Ternet has joined the group of "The Latest Hairdo." I won't say it's too short, but if she hadn't stopped her conversation with the barber, he would have cut it all off. It looks very nice, Barb, especially with a purple sweater. . . . Did you ever notice that no matter how Wava Miller starts out a statement, she always winds it up by saying, "Did you know it?" . . . Ida Yahne is now working for Louie Becker. She says the surroundings are so nice. . . . If you saw Carl Brenner and Les Hubbard taking quite a few copies of the GE NEWS home last Friday, their pictures explained the reason why. Congratulations, fellows. It's amazing what a photographer can do now-a-days. . . . Holle Mee was running around with a big bandaged thumb this week. When the bandage was removed, all he had was a scratch. What some people won't do to attract attention! . . . Congratulations to Walter Storke and Moe Moffiet on winning the first half of their bowling league games. They had some help from "Little Pondo." He was on the other team. . . . Warren Locker is now on days running the heat run. . . . Margaret Hilgeman is back with us once again. Nice to have you back, Margaret. . . . Little Moe Satterthwaite is now a member of the Armed Forces. He has joined the Marines and leaves Jan. 22 for his boot training at San Pedro, Calif. . . . Jake Tester is now home from the hospital after his recent operation. I know he would appreciate it if some of you guys would drop in and say hello. . . . Marie Bruggencate is back to work after her trip to the sunny south, Florida, that is. . . . Theresa Whitby is a very generous person. She goes to buy a coke and then walks off and leaves it in the coke machine for the next person. . . . Marvel of the week: Dee S. proving that she could keep from talking for five minutes. Dee said that they were the longest five minutes that she had ever known. Now she says, "There's nothing windy about me."

## MOTOR GENERATOR STATIC

After a short absence of our column, I am sorry to start with sad news. Our loss will be someone's gain. Our foreman, Elmer Debolt leaves us to accept a new job. We all wish you the best of luck with your new job. We know it will be well done. . . . We want to welcome our new boss, who is Claire Otis. We hope you like us. . . . Edith Clevenger's husband is the most congenial thief we ever saw. He will steal your apple; then if there is a worm in it he will return it to you. . . . The most talked about subject lately is television. If you have a set, you have to answer these questions. "Was it good last night?" "Did you have snow last night?" "What kind did you get?" Most of the time you are asked, "What time did you get to bed?" . . . Have you ever eaten any Whoopie Cookies? Well, they are different but nobody can make them like Lee Batz. . . . The girls presented Elmer Debolt with a gift Friday. We just want to say, "So long, Elmer."

**SAYS GOOD-BYS**—Herman Bright (left) says his good-bys to Herman Bobay and Paul Bohn, as he leaves GE on retirement after more than 30 years. Mr. Bright joined the company in 1923. He was employed in Bldg. 6-1 prior to retirement.

## TOP FLOOR TOPICS BLDG. 26-5 by Jack Lea

Welcome back to Don Beghtol, who has been serving in the Marines. . . . Maybe we'll start getting more news now that Bea Marsh has returned after a very long illness. . . . Loretta Miller made a two-week trip to Florida to see her daughter. Wish she had brought some of that Florida weather back. . . . Walt Mertz won't be with us for awhile. Walt developed that "bowling ball back" or something, and has to have an operation. . . . Ever hear of a dog liking macaroni and cheese? Norma Smith claims her new pet

goes for that type of food. . . . We haven't heard too many wild ice fishing stories yet, except Don Zumbun claims his limit on his last trip. . . . Cleota Stallbaum now has a grandson to be proud of. . . . Welcome to Noel Jackson on the Luminous Tube Line. . . . Bathing Beauty: One who keeps her powder dry. Arson: A sure fire proposition. Hamburger: The last round-up. . . . "A moment with God, and though I have all faith, so I could remove mountains, and have not charity, I am nothing." . . . Stand aside you peasants, and make way for the capitalists! Tom Kirl's new Chevy. Smitty's new Mercury, and Lea's new Pontiac convertible are additions to our lot.

## THISA & THATA BLDG. 4-3 and 4

by Helen Engle

A new white apron was presented to Odell Scott to be used on his new job. This was a couple of weeks ago, but so far it hasn't been seen on the new job. We boys in 1x20 wonder if he is breaking it in in the kitchen at home? . . . Paul Hendricks won't do very good in politics if he doesn't talk any louder than he did when he gave Louie Davis his gift. He was so nervous his hands and knees shook like he was standing next to a punch-press. When Louie left on pension last week he received a woodshaper and motor from his friends and co-workers. . . . The boys also want to know why Heiny Kammer won't eat any gravy? . . . Ernest Mills was a very happy man when his son came home from Korea. We are glad too, Mr. Mills. . . . Carl Schultz took our advice and got that new alarm clock for Christmas. He was on time every day last week. . . . Harley Heckley sure is proud of that new gym at Ossian. Now they are having the county tourney and the sectionals at Ossian. . . . Emery Tucker had a nice trip to Florida. He looked all over for Frieda Knoche and her husband but couldn't find them. . . . We hope Henry Grepke's son is soon out of Parkview Hospital, which he entered Sunday night for observation. . . . Grace Shanefelt finally got that grandchild she was waiting for almost a week. It is another boy. . . . Fred Couture, who is on the retired list, and his wife, celebrated 37 years of wedded bliss. They got themselves a new GE television set. . . . Bernie Lake's daughter, Joyce, is getting married to Dale Smith on March 27. Bernie says the way things are shaping up the whole family, but one boy and herself, is being in the wedding party so she thinks she might as well go to the show. . . . We express our sympathy to

Cerna Cook in the death of her father. He lived in Muncie. . . . Birthday greetings to Betty Froebe on Jan. 10. . . . The Don Wilson baby finally arrived, a girl, Barbara Joan. He says he is losing sleep over the baby. She wakes him up every few hours and he can't get right back to sleep. Other than that, everyone is all right. . . . Grace Ober had a couple of unforgettable experiences over the past week-end. On Saturday morning she went by bus over to Bloomington to her sister's. By noon Grace thought of leaving a fire under a pot of ox-tail. Frantically she called a taxi. Soon the driver raced her across town. Arriving at her home she found the fire out. Back the taxi took her to the sister's plus \$1.20. Then on Monday she had her husband bring her sweeper to the gate. Grace said it failed to run. Before getting it on GE property it was repaired by plugging in a plug which had become disconnected. It never got farther than the gate. . . . Earl Sexton was the winner of the Tall Tales loving cup this year and Wallace Grocock for his assistance in the backing and telling of the stories was awarded the runner-up. Bob Rogers got the consolation award but there is a dispute between him and Jim Fike as to who should have won. Earl gave a very good acceptance speech and is very proud of winning. . . . Bill McClure was so stunned at the results of the hall game between North and South that he had a hard time realizing that the game was over when the last gun sounded. . . . We are glad to see Margaret Parasot and Modeen Smith back to work. They both were on the sick list. . . . So long to Unis Steinbarger who left us for Bldg. 4-4. . . . Irene Kregar attended her parents' 52nd wedding anniversary party. . . . The little boy in

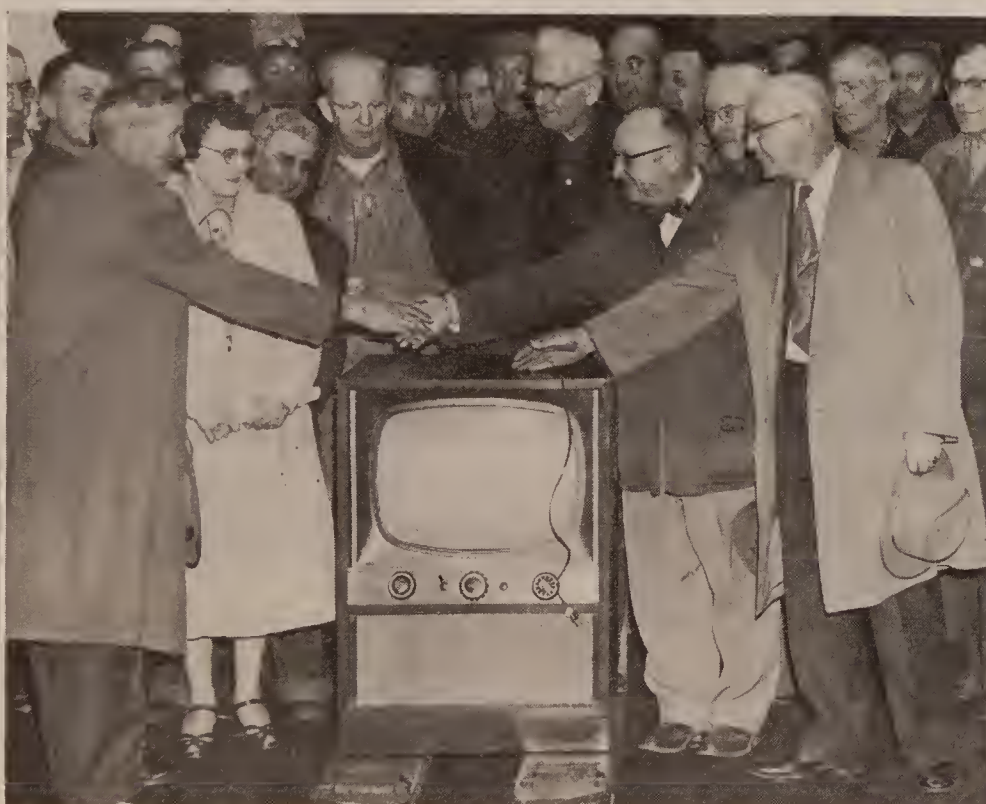

Clarence Weimer

the picture is none other than Clarence Weimer and the picture was taken in 1897. Doesn't he look cute in the dress? . . . When Frank Gamee attended the North-South game Saturday night, he wore two shirts, green and red. When South got behind he took off the green shirt, displaying his red one.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service  
by Mabel Fisher

Helen Risser is back with us again after three days absence. . . . Gertrude Koldeway is slowly improving. . . . Why is it Tony Koorsen always wants everything that is on the inside? . . . Bill Heminger is just about the happiest man in town. . . . His son called him from Seattle on his way home from Japan. We are glad for you, Bill. . . . Happy birthday to Arthur Koenman.

**GE DRIVER RETIRES**—Mel Beucler (left) is presented with a television set from his co-workers at his retirement celebration. Mr. Beucler had been a GE employee since 1918. Left to right in the foreground are Mr. and Mrs. Beucler, Henry Hahn, Leo Boitet, Earl Laughlin, Oscar Beatty, and Willard Grush.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 19-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

**CLOSING DATE**  
Monday Noon, January 18, 1954

In cooperation with the Social Planning Council, the GE NEWS will not publish ads for care of children in private homes unless the advertiser first presents a license for such business.

#### LOST AND FOUND

**EARRING**—One dangling white earring. Ext. 2306.

#### FOR SALE

**MOTOR**— $\frac{1}{2}$  hp. GE motor, \$7. K-2071.  
**CARPET**—9x16 ft., rose colored tone on tone, Wilton carpet and pad. Original cost \$185, 6 $\frac{1}{2}$  yrs. old; excellent condition. \$75. K-5023.

**BUNGALOW**—Two bedroom bungalow, 18x12 living room, bath, kitchen, 8x12 utility room, aluminum storm windows, concrete side drive. Southeast. K-342.

**ANTENNA**—New in November, cost \$130, sell for \$100; reason for selling, sold home. Tires, 760x16, low pressure, with lifeguard safety tubes, new and used, reasonable. 1922 Roy St., after 4:30 p.m.

**PROJECTOR**—And screen, 8 mm., \$20 for both. H-46131.

**TABLE**—Walnut table and pad, like new, size 32x44, extends to 54. A-89332.

**TUBS**—Cement laundry tubs. Lady's white ice skates, size 7. Playpen and pad, reasonable. E-35301.

**BICYCLE**—Boy's 24-inch, mechanically good, fair appearance, \$8. A-2746.  
**REGULATOR**—Heat regulator for a coal furnace; two garage doors, 4x8, with complete hardware. A-59691.

**FRENCH DOORS**—Each door 6 ft. 8 in. x 30 in. H-3884.

**CAR**—1941 Plymouth club coupe, reasonable. H-90562.

**COAT**—Girl's winter coat, size 12, good condition, dry cleaned. Winter skirts. A-59816.

**RUGS**—Two, gray tone on tone, all wool Wilton rugs; also throw rugs to match, 9x12 and 7 x 12. Good as new, only two years old. 3031 Warsaw St.

**TIRES**—Five tires, 670x15, Firestone Champions with 2,000 miles on them. Make me an offer. H-65628.

**TOOLS**—Toolmaker's toolchest and tools. Clarke reciprocating sander. A-66931.

**CAR**—1949 Buick, two-door, \$795. 1953 Triumph Thunderbird motorcycle, \$525. H-52845.

**GAS RANGE**—Chambers gas range, reasonable. E-35442.

**CABINET**—Kitchen utility cabinet; white dressing table and skirt. Twin white metal tubs; wood storage cabinet. Two used 670x15 snow tires. K-3962.

**FRYERS**—DeLong White Rock fryers, 50 cents per lb., will cut up; extra nice. H-35693.

**TIRES**—Like new, 4 Sears premium tires and lifeguard tubes, 670x15. Guarantee still on tires. One new recap. H-35911.

**TIRE**—One Goodyear supercushion tire, 760x15. H-66633.

**RANGE**—Monarch electric, wood, or coal range, excellent condition. Ideal for lake cottage. E-36343.

**REFRIGERATOR**—Coldspot refrigerator, 6 ft., overhauled last summer, looks and performs like new. E-4994.

**HOUSETRAILER**—14 ft., aluminum Chris-Craft Land Cruiser Kit house trailer, \$549. K-5691.

**CAR**—Ford V-8, black, heater, good tires, good mechanically, new battery, new brakes; good buy at \$525. A-9872.

**CAR**—Plymouth 1953 Cranbrook, two-door, Hy-drive, radio, heater, turn signals, only 3,300 miles, like new, \$1,675. H-16871.

**COAT**—Mouton, lamb fur coat, size 14, good condition, reasonable. E-71363.

**MOVIE CAMERA**—8 mm Revere, 9 turret with 13 mm f 2.5 and 1 $\frac{1}{2}$  in. f 3.5 focusing mount, Wollensak lenses. Call mornings. A-67841.

**BED**—Antique solid walnut bed with springs. Good for a bed or for the old walnut wood only. Make an offer. H-74611.

**TIRES**—Snow tread tires with tubes, 600x16, tread not worn, \$5 each. H-4853.

**COAT**—Muskat coat, 16; ping-pong table; Thor washer; combination box boat trailer; pin-ball machine; 16 ft. boat; 10 hp. outboard motor. H-8751.

**COAT**—Fur coat, natural squirrel loche, excellent condition, size 16, \$75. E-55131.

**PLAY PEN**—Good condition, \$5. H-28755.

**ICE SKATES**—Men's hockey skates, size 10, excellent condition. H-53013.

**CAR**—1941 Ford Deluxe sedan, radio, heater, two spotlights, good body and tires, motor. Test drive it. \$150. E-69122.

**TAPE RECORDER**—Wilton-Gay tape recorder outfit. GE rotary iron and stand. Birch high chair. Reasonable. A-78535.

**LIVING ROOM SUITE**—Nylon corded living room suite, rug, pad, and end table. E-40481.

**COLLIE PUPS**—Blooded stock. A-77643.

**FORMALS**—Like new, worn only once, strapless with matching jackets and stole, size 10, was 334.95, 310. Northern back muskrat fur coat. A-1 condition. 775. A-88022.

**SUITE**—Two-piece, wine living room suite, good condition. K-2006.

**SHOE SKATES**—Two pair, white, girl's shoe skates, size 1 $\frac{1}{2}$  and 2, \$3. K-4157.

**GOAT**—White goat, giving milk now. A-46528.

**HOCKEY SKATES**—Ice hockey skates, size 6, good condition, \$4. H-90805.

**TIRE**—New 710x15 tire and tube, \$15. H-90180.

#### FOR RENT

**APARTMENT**—New, three-room, unfurnished apartment. New stove, new refrigerator, utilities furnished. Private, \$17 week. H-40483.

**ROOM**—Warm room, hot water, gas heat, phone. May fix light lunch, no smoking or drinking, near both GE plants. 2117 Reidsmiller. A-57583.

**ROOM**—Desirable, all modern, lower room, with closet, for gentleman. Use of phone, gas heat, plenty of hot water. H-35124.

**MOVIES**—16 mm. sound films, projector, and screens. E-32705.

#### TRANSPORTATION

**RIDE WANTED**—From South Whitley, Ind., to Taylor St. plant and return. First shift, 6:48 a.m. Clarabell Whitman, Ext. 2356.

**RIDE WANTED**—From East Butler, second shift, 3:25 to 11:38. H-39363.

**RIDE WANTED**—From Huntington to Broadway starting Feb. 1, 8 to 4:30 p.m. Mitzi Juillard, Ext. 2243.

**RIDE WANTED**—From 5008 South Blvd., 24 west and Reckeweg roads to Taylor St., 6:48 to 3:18. Marilyn Davis, Ext. 2626.

**RIDE WANTED**—To and from Defiance, Ohio to Winter St. plant, 8 to 6 p.m. Mrs. Laurence Ford, Hermetic Motor Section, Winter St., or Defiance 2-1725.

#### MISCELLANEOUS

**TAX FORMS**—Prepared, state and federal returns, days or evenings. H-48984.

#### WANTED

**SHOTGUN**—Double shotgun, 12 ga. 3 in. or 10 ga. H-8428.

**STORM WINDOWS**—Two storm windows, one each 72x38 in. and 24x56 in. H-3884.

**GIRL**—Refined girl or lady to share three-room apartment. Close to bus line. H-90562.

**LOT**—Improved lot, southwest preferred, must be reasonable. H-60262.

**LADDER**—Small, straight ladder. H-60671.

**DESK**—Would like to buy a good, used desk, office or home size. Also twin tuhs. K-4275.

**GIRL**—Employed girl to share apartment at 1441 Wall St. H-24231 after 4 p.m.

**HOUSE**—Small house, furnished or partly furnished, must have basement. H-68335.

#### THANK YOU

I wish to express my thanks and appreciation to my former co-workers and friends in Bldgs. 17-1, 4-5, and 4-2 for the gifts and luncheon they gave me on my recent retirement.

Mamie Allen

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

A little late, we welcome Marjory Reed, Dorothy Guiff, John Craighead, and Jessie Harter to the 51 frame assembly. . . . Dorothy Hart is wearing a diamond, but has not planned her wedding as yet. . . . Wayne Chapman really has a swell wife. She bought him a TV set for Christmas. What a gift, Chappy. . . . Dorothy Guiff motored to Chicago Saturday to take her mother, who just came from the hospital, to her son's home for a visit. . . . What happened to Dot Hart last week? We saw her scrambling up off the floor. It was a laughable sight, but Dot was angry. You see, the bolt came out of the chair and pushed up so one leg was much shorter and the chair tipped. Dot was not hurt, and her co-workers surely got a good laugh. . . . We see Helen Holmes' smiling face again around Taylor St. Glad to see you, Helen. . . . Dorothy Hart's son, Dale, from California visited her last week.

## WINTER STREET JOTTINGS

by Alma Elliott

Glen Macy has decided his dog is worth his daily bone after all. When the dog started harking recently Glen had his son put the dog in the basement so as not to disturb neighbors. Glen went out on his back porch to bring in a case of pop and discovered why the dog had been barking. Thieves had made away with two cases of drinks. . . . Mr. and Mrs. Abnis Grover would like to thank everyone for the kindness shown to them after the recent loss of their home. . . . Edna Ford must like to drive. She commutes daily from Defiance, Ohio, a distance of some 45 miles. . . . We would like to express our sympathy to Everett Geiger on the recent death of his mother.

The welcome mat is out to: Richard Moskal, a TE from Erie; James Pierce, who has returned to Winter St. after a tour with the Army; Dartmouth Beady; D. J. Kuestler, an engineering addition, and Roger Crickmore and Oland Autenrieth, our new drill press operators. . . . We would like to present Marilyn Crouse with our "Award for Holding One's Temper" medal. She started to summon someone to the phone for a long distance call, when her chair rolled suddenly leaving Marilyn resting on her dignity. As the operator kept repeating "Hello, Hello" and Marilyn sat red-faced on the floor, Gene Janney maddeningly requested, "Do that again, Harvey Petty missed it." Her only answer was "1, 2, 3, . . ."

The first new Indiana license plate to appear on the parking lot belongs to Art Hickman and rests on the back of his new blue Nash. . . . Someone should tell Dexter Marshall that he is too old to play with weapons. He can frequently be seen pulling one around the third floor, for no apparent reason. It is always empty. . . . John Schwartz reports a nice restful vacation. His brother from Wisconsin was down and instead of going on a trip, John took the entire week to prove that he was a better pinochle player than his brother.

One can now make his way through the new roomy Drafting Unit without danger to life and limb. Walter Brake likes all the improvements, including the changing of typewriters from right to left side of the desks. He says it is a welcome relief to be able to see the girls' faces again. . . . Have you ever tuned in the Bing Crosby Show on Sunday nights? We are amazed at the remarkable likeness in the voices of Bing and son, Gary. Especially good is their "Down By the River Side."

Dave Jones says there is no justice in the toolroom. After the Apprentice Alumni basketball team lost a game, fellow workers offered to line up a kindergarten for them to play. This is the team's first loss (even if it was by 15 points) after a winning streak of 11 straight games. . . . We are sorry to report that Gale Harris has been off, due to an injury. Hope to see you back soon, Gale. . . . Joe Raupfer's theme song is, "I've Been Working on the Railroad." He can take his son's train around the track in record time, but has enjoyed little success as a maintenance man.

Two recent guests in the toolroom were Carl Speckman and Art Thullen, retired GE'ers. . . . Herb Adamske can be counted on to give an affirmative answer to the question, "Gut a Match." Some friend who tired of constantly loaning matches to Herb gifted him with a huge stack of 2,400 books of matches. Herb is thinking of asking the same party for cigarettes the next time they meet. . . . Ben Lake has failed to bring back an alligator for Johnny Quaintance. He said he wanted to, but he couldn't without opening either a car window or a door and he didn't want to take chances.

Wheeler Porsch is enthralling listeners with tales of the wonders of Florida. Wonder if he has a part time job with the Chamber of Commerce there? . . . Margaret Motherwell can't enter the Pillsbury bake-off, but her recipe for cole slaw should take a prize of some sort. She has discovered by substituting soap powder for sugar that she gets an unusual flavor.

"For the last time, Tilson,  
keep your feet off my lap!"

## SMOKEHOUSE

### SAYINGS

BLDG. 22

by George Winans

"Dear Smokehouse editor," writes J. B. W., of Taylor St., "a few weeks ago you gave an account of most of the dangers or drawbacks a person would experience once he became a TV fan. But you neglected to mention the greatest danger of all. I'm speaking of that piano-thumping Casanova that comes on every Tuesday night. He has my wife mooning and swooning like a bobby-soxer and besides that she is beginning to find fault with me, my hair, my clothes, etc." Well, J. B., I'm sorry that I failed to mention Liberace, but you see, I did not consider him a danger. My wife is also a great fan of his, but I'm not afraid of a little competition. I, myself, have often been referred to as the Valentino of the ivories. Here is a picture of me seated at

Fort Wayne's Liberace

the piano. Now, I ask you ladies, "What has Liberace got that I ain't?" (Send your answers in 200 words or less to this column.) But J. B., there is one danger that I forgot to mention and that is the wrestling matches. My little woman has become quite a fan and she picks up a lot of holds off those grunt and groaners. It's getting so I'm afraid to take hold of her hand anymore for fear she'll throw me over her shoulder. . . . Pappy Wright's favorite Christmas gift is a little rubber dolly that doesn't cry when you squeeze her. . . . Welcome to Ernie Pfeiffer, our new second trick dispatcher, and farewell to Jim Brake, whom he is replacing. . . . Ferroll (Cupid) Hill has a new Ford. See there, Henry, you were wrong. He does spend some money once in a while. . . . Joe Ostrowski busted some pistons in his old 1935 Graham. Joe says he knew that car wouldn't hold up when he bought it.

## SLEUTHING in 4-6

by Al Happel

Welcome to the Floor Sitters' Club: Bob Langdon joined the Floor Sitters Club, by taking a spill on the floor. How did you do it, Bob? . . . Congratulations to the first grandfather in the Drafting Section and he is no other than Herb Osborne. . . . Welcome to David Blake, a TE working for C. J. Herman. . . . We wish a speedy recovery to Jack Wilson's wife. . . . We wish a happy birthday to the following people: Tom Doell, today; Wilbur Boltz, Saturday; Bob Humbert, Sunday; and Van Rowan, on Tuesday. . . . We'd like you to meet James C. Borgstrom, new TE in Max Barrow's group. Jim comes to us on his first test, having graduated from University of Minnesota in December 1953, with a BSME and SBA. His home town is St. Paul. He is married and his hobbies are sports and music. . . . The TV Club has one new member, Arlene Yates.

# Questions—Information Clinic—Answers

(Continued from page 1)

## WANTS POLIO INSURANCE ADDED TO MBA

### QUESTION:

Since steps are constantly being taken to broaden the insurance coverage, would it be possible to include polio insurance, especially on the family plan?

### ANSWER:

It would be possible to include polio insurance in our MBA dependent coverage. A group insurance plan can be expanded to include a variety of miscellaneous benefits as long as the members are willing to pay the higher cost due to the increased benefits.

Many MBA members would not want to pay for polio coverage, since such insurance can be purchased on the outside as a single item of coverage. It has not been proposed to include polio as a special item in the MBA plan. It should be noted that under the present MBA dependent plan and the insured plan for employees, a polio patient is paid up to the maximum allowance for hospital room and extra charges. Neither plan would pay for doctor expenses as no surgery would be involved.

Employees desiring the extra protection needed in many polio confinements should investigate commercial polio policies at a reasonable cost.

## VACATION RUMOR DENIED

### QUESTION:

I heard that all employees with 25 years of service would get four weeks vacation and that you planned to announce this in the GE NEWS next week. Is this true?

### ANSWER:

There are no plans for such a move. We don't know where or how this rumor started, but it is definitely not true. The only announcement planned for the GE NEWS is this denial of the rumor. All employees with 15 or more years of service are entitled to three weeks of paid vacation each year, and there has been no change in the policy.

## THE MYSTERIOUS FLASHER

### QUESTION:

Why was the "flasher" arrangement discontinued as used in the General Electric sign on Bldg. 6? Just curious, I liked it!

### ANSWER:

I wish we had a little more information about what "flasher" arrangement you're referring to. In checking into your question, one person seemed to recall that many, many years ago a flasher light was used over a Christmas holiday.

We also learned that on the old General Electric sign on Bldg. 4, there was a light on the back side, an accessory to enable the operator to know when the sign was turned on. About two years ago, a new sign was put up, which never had a flasher light of any kind.

If neither of these are the "flasher arrangement" you refer to, perhaps you could send us a little more information and we could give you more details.

## WANTS INFORMATION ON TEST COURSE

### QUESTION:

I would like more information about the possibilities of an engineering assistant at GE with a degree in civil engineering being allowed in the GE Test program.

### ANSWER:

The first qualification for a student on the test course is that he have a B. S. degree, preferably in engineering, from an accredited college in the United States. If he meets this qualification, he then becomes eligible for an interview.

The program is handled through Schenectady, which usually sends field men to various colleges to interview prospective test men before graduation. However, if the person mentioned above does meet the qualification in education, he should contact D. C. Reek, in the Test Office, Bldg. 16-3, for further information.

## QUESTIONS DOOR TO DOOR SALESMAN

### QUESTION:

I would like more information about a man going door to door selling GE lightning arresters for \$9.75. The Employee Store doesn't know anything about them. I would like to know how they work and how much they sell for.

### ANSWER:

The General Electric Company does make lightning arresters which are used to prevent the high voltage generated from lightning flashes from entering the house wiring. They keep this voltage down so that it cannot damage your television set, for example.

As far as the brochure you sent us, the apparatus will do what it claims; however, the matter is being further investigated, because neither the local distributors nor the apparatus sales office knows anything about the organization which is selling them door to door. This will be investigated and we will report to you personally on the

results.

The price of \$9.75 which includes installation does not seem too far out of line, since the list price for the apparatus is \$5.60. The catalog number of the apparatus pictured in the brochure is 9 LA15A4.

## THINKS EMPLOYEE STORE LAMPS ARE SECONDS

### QUESTION:

I would like more information about light bulbs bought at the works store. Are they seconds? They seem inferior to the ones you buy elsewhere.

### ANSWER:

General Electric merchandise sold to employees through the Employee Store is never inferior merchandise, unless it is designated as Class E. If it is so designated, it is then sold at an additional discount. As for light bulbs, they all come from the same stock, packed in the same way, direct from the main warehouse in Cincinnati. They are exactly the same as lamps shipped to the distributor for sale in other locations.

## COFFEE MAKER ENTERS LIMITED MARKET

### QUESTION:

Will there be any GE coffee makers on the market in 1954?

### ANSWER:

A recent issue of the GE publication "Monogram" stated that GE will soon re-enter the electric coffee maker business with a brand new model.

It is described as "a uniquely styled, fully automatic percolator designed to make from two to nine cups of perfect coffee every time."

Because of present marketing trends and the usual limited supply in any new product, the Small Appliance Division has decided to introduce its new percolator in its Pacific district (West Coast), and

**DESIGN ENGINEER RETIRES**—Joe Formanek (center) is congratulated on his retirement by Oscar Dunn (left), general manager, and P. S. Stough. Mr. Formanek came to this country from Czechoslovakia at the age of 15. He graduated from the University of Nebraska. He joined General Electric 39 years ago at the Erie Plant. He came to Fort Wayne in 1936 and was a design engineer in the DC Motor and Generator Department before retiring.

as marketing conditions and manufacturing facilities permit, distribution will be gradually broadened to cover the entire country. There are some indications that consumer acceptance of the product and manufacturing facilities will increase to the degree that national distribution may be possible later this year.

## SECOND SHIFTER FEELS NEGLECTED

### QUESTION:

Just a line to secure an answer to a question that has been asked several times by various employees of the second shift. The question? Are the employees of the first shift the only ones that read the General Electric News? In other words, I've yet to see an article pertaining to the 3:18 to the 11:48 p.m. shift. Why? Isn't there anyone capable of writing for that shift or is it due to lack of space? I am not referring to Div. .... only, but all divisions in general.

Let's get on the ball. After all, we too would like to read about our co-workers on the second trick.

### ANSWER:

We certainly hope that second shift employees are getting their full amount of coverage in the GE NEWS. Most of the general news stories apply equally to all employees, regardless of shift. Other stories such as activities of the Elex Club and other second shift groups are reported in separate stories.

In the sports line, the Owl activities are handled very capably by several sports columnists. Their bowling, golf, basketball,

softball games, etc., are all reported as they occur.

As for section columns, in many cases the editors may be first shift people, but they often have reporters on the second shift who keep them posted on the news from the night group. At the moment we also have six columns which are written for the second shift only.

If in your particular section, you feel that you are being neglected, why don't you contact your foreman and see if some arrangement can't be worked out for you or someone else with the time and talent to either provide news to one of your section's regular columns; or, if this doesn't appeal to your group, you perhaps can arrange through your foreman for a regular column in the GE NEWS.

## AFTERGLOW NOT HARMFUL TO TV TUBE

### QUESTION:

I would like more information about TV picture tubes. Is it true that the small afterglow will cause a permanent brown spot on the tube face after some length of use?

### ANSWER:

According to the information we have from local television experts, the afterglow cannot damage the picture tube. It is caused by remaining static electricity. The electron gun in the set does not shoot ions out far enough to reach the tube when the set is turned off.

Scientist: "From our studies we learn that other planets are unable to support life."

Taxpayer: "It's not so easy here, either."

## GENERAL ELECTRIC INFORMATION CLINIC

L. C. SWAGER, Manager  
Employee and Plant Community Relations  
Bldg. 18-2

I would like more information about .....

It is not necessary to sign your name. If your question is of general interest, it will be answered in the NEWS. If not, we will send you a personal answer, providing you have signed your name and address.

FRIDAY, JANUARY 22, 1954

## HOUSE OF MAGIC SHOW TO APPEAR ON GE CLUB STAGE FEB. 22 THRU 24

### GE Credit Union Annual Meeting Slated Jan. 29

Friday, Jan. 29, the annual membership meeting of the Fort Wayne General Electric Employee Credit Union will take place at the GE Club, Lee Cupp, secretary-treasurer, announced. The meeting will begin at 8 p.m. Business on the agenda includes the annual reports of the board of directors, credit committee, and supervisory committee and election of members to these committees.

Dividends will be recommended by the directors and will be voted upon by the membership present at the meeting. In addition, attendance prizes will be awarded.

All members of the Credit Union are urged to attend the meeting to acquaint themselves with the operating procedure of the organization, Mr. Cupp stated. The Credit Union now has a membership of more than 8,600.

The slate for election has been reported by the nominating committee. Members nominated for the board of directors are: William Suelzer, Bldg. 26-2; Wilfred Holloway, Bldg. 26-1; Carl Nix, Bldg. 27, and Willard Smith, Bldg. 4-4.

Those nominated to serve on the credit committee for the coming year are: Ford Burnau, Bldg. 27; Jack Pollock, Taylor St., and Barbara Hyman, Bldg. 18-1.

Nominated for election to the supervisory committee are William Spahr, Bldg. 8-2, and Richard Pinkham, Taylor St.

The election slate will be presented to the membership by the nominating committee, which is composed of Carl Brandt, Bldg. 8-2; Charles Winans, Taylor St., and Charlie Wilt, GE Club.

Members of the three committees who will retain their offices for 1954 are: Board of Directors—David Slater, Bldg. 17-2; Edward Krommiller, Bldg. 17-1; Edgar Gallmeier, Fairfield plant; Glenn Stapleton, Bldg. 4-6, and Lee Cupp, Credit Union.

Credit committee members who will serve this year are Roy Berdelman, Bldg. 4-1, and Naoma Hippensteel, Credit Union office. Terrace Colvin, Taylor St., will remain a member of the supervisory committee this year.

General Electric's famous "House of Magic" show will be brought to the stage of the GE Club Feb. 22, 23, and 24. Sponsored by Fort Wayne General Electric, the show will be open free of charge to employees, their families, and the general public.

Including demonstrations of motionless motion, the lamp that lights without wires, and the train that obeys a human voice, the "House of Magic" show presents interesting and

entertaining marvels of science developed in GE laboratories. Each of the many demonstrations has been carefully tailored to give a simple, easily understandable explanation of a scientific fact.

The show does not deal in sleight-of-hand; rather, it takes samplings of research which seem to be magic and strips them of their mystery. It has appeared in every major exposition and world fair for more than 25 years.

Constant attention is given to see that the show presents the latest and most outstanding research developments. Some hundreds of scientists in GE laboratories are engaged constantly in trying to uncover the secrets of Nature. They work with new materials, study little-known properties and laws of matter, and observe unique effects. The show is designed to demonstrate the most significant of these findings and to illustrate their present and potential uses.

Free tickets for the show may be obtained at a later date. They will be available through members of the GE Club entertainment committee in the Winter St., Taylor St., and Broadway plants and from General Electric dealers in this area. Four performances will be given on each of the three days that the show is here.

Since its inception, the "House of Magic" show has appeared throughout the United States and Canada and in all major countries in Central and South America.

WILLIAM H. LeCOMTE, "House of Magic" lecturer, conjures up a cone of plastic foam from a few ounces of chemicals.

FRANK R. O'KEEFE, "House of Magic" lecturer shows the audience how stroboscopic light can make the whirling dots appear to stand still.

### GE Foremen Disclose Slate For Annual Election Feb. 3

William L. Paulson, Bldg. 19-5, and Carl J. Metker, Bldg. 6-4, are candidates for president of the Foremen's Association, J. Wilmer LaVine, chairman of the nominating committee, announced this week.

The annual election of officers will be conducted Wednesday, Feb. 3, at the organization's regular monthly meeting. Other officers announced on the slate are:

#### Vice President

Lawrence Chesterman, Bldg. 4-5  
William Rodocker, Bldg. 20-1

#### Secretary

Freeman Rohlfing, Bldg. 26-1  
Emmet Zollinger, Bldg. 19-2

#### Treasurer

Neil Allen, Bldg. 4-1  
Robert Barnes, Bldg. 12-2

#### Director

Carl Hattendorf, Bldg. 17-4.  
Al Rieman, Bldg. 26-3

The Feb. 3 meeting will be conducted at the Southwest Conserva-

tion Club. A steak dinner will be served at 6 p.m.

C. Lane Breidenstein, manager of Fort Wayne's Better Business Bureau, will be guest speaker at the meeting. He will discuss, "What's On the Inside of Breidenstein's Little Black Book."

Refreshments will be served and a program of entertainment has been planned. C. W. Hale, Bldg. 19-1, and William L. Paulson, Bldg. 19-5, are in charge of the entertainment.

Tickets for the meeting are \$1.00 per person. Reservations are due by Friday, Jan. 29.

## NOTICE

### TO MEMBERS OF THE GE EMPLOYEES SAVINGS AND STOCK BONUS PLAN:

Employees who hold custody receipts for bonds purchased during 1948 are urged to deliver these receipts, together with transmittal form, TD-374, to their payroll units as soon as possible. It is important that these receipts and the transmittal form be delivered promptly to avoid delay in delivery of checks for the accumulated income and the 1948 bonds.

Any employee who cannot locate his custody receipts should contact his pay roll section as soon as possible.

### Company Launches All-Out Drive Against Electric Shock Hazards

Impressed by year-end records that show a rise in electric shock accidents in General Electric plants, the company this week informed top-level management in 17 divisions and more than 70 operating departments that Harold E. Vann, safety engineer, has been assigned the ferreting-out of potential electrical hazards in an all-out drive to protect employees who handle dangerous voltages in their work.

Mr. Vann, a test engineer himself when he joined the company in 1949, will begin his on-the-spot study of electric shock danger areas on Feb. 1 as a member of safety services section—health and safety services depart-

ment. Commenting on the rise in electric shock accidents during 1953, vice president Lemuel R. Boulware declared recently, "Despite all precautions, hazards are still present in most all utilization of electricity. We have been unusually success-

## The Question No Communist Can Answer

by MARIO A. PEI

(Dr. Mario A. Pei, who came to this country from Italy in 1908, is professor of Romance Philology at Columbia University in New York. He is the author of several distinguished books and numerous magazine articles.)

Among the more disquieting signs of the present age is the race, on the part of human beings born free, to become slaves. In France one-fourth of the population votes the communist ticket. In Italy it is the same. The nations of Western Europe, of the Near East, of Southeastern Asia, have to be bribed with Marshall Plan and ECA aid to remain free.

Ah, but is it freedom? ask the communist propagandists. Real freedom is economic security, racial equality, "human rights." The UN, with its Human Rights Commission, aids and abets this propaganda. Misguided idealists in Britain and America follow this line, and raise doubts as to whether ours or the Soviets' is the true concept of freedom.

There is a simple way of finding out. Ask the people behind the Iron Curtain—the men and women who risk their lives to get out to where freedom is. Ask the Poles who steal their nation's army planes, the Czechs who forge military tanks, the Hungarians who break across fields of barbed wire. Ask the North Korean and Chinese prisoners who don't want to go home to communism, and whom the communists insist on bringing back home at all costs. They will tell you where freedom is, and who has it.

But more than that, they will give you a definition and test of freedom so simple that it needs no scholars or philosophers to grasp it.

Freedom is where you can get out if you want to. Freedom is where if you don't like it, you are at liberty to go away. That is your key test—the right to quit.

In America, Britain and the nations of the West generally, we take this right for granted. Anyone who doesn't like the existing set-up is free to get out. This goes for the individual and the group. It goes for the worker who doesn't like his job. It goes for the person who doesn't care for his surroundings. It goes for the person who is a victim of racial or religious discrimination in some sections, but finds that he can move away to other sections, where there is no discrimination. It goes even for the communist sympathizer who wants to go off to the communist paradise.

Behind the Iron Curtain this basic freedom is wanting. If you don't like the ways things are run in Poland, Czechoslovakia, Hungary or Russia, you nevertheless have to stay there. If you try to go, you take your life in your hands. If you want to break away from your job, your home, your nation, you have to get permission—or else.

That is the basic difference between our way of life and theirs—the right to quit, the right to emigrate, the right to get out. If anyone cares to think about it, he will quickly perceive that here is the basic human right, the basic freedom, outweighing by far all the mealy-mouthed "human rights" that are prated of in UN councils.

The freedom to get out is what distinguishes a free man from a slave. What was the slavery of ancient times or the slavery of the American plantations but the denial of the right to go one's way if one didn't like it? Many of the ancient and recent slaves had good food, good treatment, lifelong security. But they couldn't go away.

This should be pondered well by the communist voters of Western Europe, of Latin America, of Southern Asia. It should be pondered well by the doubting Thomases in our own midst, whenever their doubts assail them.

There are worse evils than economic inequality, social prejudice, racial or religious discrimination. Surely, these are bad enough, but if the worst comes to the worst, any free individual can remedy these evils for himself by the simple expedient of moving away from them. The biggest social evil of all is slavery, and slavery is the denial of the right to move away. The abolition of slavery, of serfdom, of the forcible attachment of the individual to the soil, or the job, or the master, was the greatest achievement of modern enlightenment.

Communism, by its principles and practices, brings back human slavery. Between it and truly free men there can be no compromise.

## What's All This About Alcoholism?

III

### HELPING THOSE IN NEED OF HELP

Whenever it is noted that a drinker is gradually losing control over alcohol, it is best to suspect the threat of alcoholism. One should never wait until the drinker is entrapped before trying to impress him with the need to do something corrective about it. When the compulsion to drink sets in,

few, if any, drinkers will be able to appreciate their danger. Compulsion destroys understanding. Shielding or trying to cover up a potential alcoholic is a costly, futile practice.

A problem drinker should be approached by someone willing and able to provide the intelligent guidance necessary. Usually, someone outside of the immediate family circle will have more influence. The average family strains its relationship with the drinker by resorting to pleas, threats and promises—all to little avail. Pitting his love for the family against his love for the bottle will prove disheartening and disappointing, yet it is done time and time again. The drinker views these emotional appeals as interference or nagging, and ordinarily responds with more drinking instead of less.

#### Approach with Kindness

A member of Alcoholics Anonymous, an understanding, down-to-earth clergyman, an interested physician, a friendly employer, or a close friend may be able to spark the drinker's concern as to his serious condition and need for assistance. Any approach to a problem drinker must be made with kindness, sincerity and understanding, but never without firmness. Pampering the victim has no place in any program of help. The alcoholic, or one so threatened, undoubtedly has thrived on the generosity of others for all too long, and he has no inclination to change his selfish design for living—as long as he can get away with it.

No one should expect a miracle at the outset of any treatment program. It would be foolish to think or expect that the rebuilding of the alcoholic's character (and this must be done), which has been developing badly for years, can be accomplished in a week, six weeks, or even six months. Recovery for the alcoholic is a slow undertaking and there are no short cuts.

The drinker must be convinced that he cannot recover alone. He must be shown that he has a serious drinking problem, or that he is in danger of soon having one, and must, therefore, do something about it. A person who blindly and arrogantly insists that he can handle the situation himself, that he can "take it or leave it alone," in spite of the ugly drinking history to the contrary, is admittedly in a very bad way. Such a person's recovery will greatly depend on some measure of effective pressure being directed at him to expose him to essential treatment.

The alcoholic is an extremely selfish person. If the main purpose is to expose him to treatment, then we can be permitted to play upon his selfishness to gain the desired objective. If the victim were to be faced with an "either-or-else" choice carrying with it some kind of undesirable penalty or less were he not to try a suggested treatment, he might agree. However,

his willingness might be entirely without any sincerity. To avoid the penalty might well be his sole objective. However, there are countless cases on record where such empty or phony intentions to recover have blossomed into sincere, determined efforts to change the disordered way of living in alcoholic confusion, once introduced to a sound treatment program.

The alcoholic is a die-hard at heart, especially where alcohol is the issue. The effective treatment of alcoholism is, of course, the treatment of that which causes it. With the alcoholic, it means the treatment of his super-ego. He must discover humility, and for him it means a complete surrender of self. The victim's will, as we have said, is a damaged one, and as long as he insists on using it, damage can only result. Without complete surrender and open-mindedness at the outset, there can be little effective help rendered him.

The victim's physical condition should be restored to par as soon as possible. Following a prolonged drinking siege, the drinker should be given medical attention. It might be advisable to hospitalize him for a few days to speed physical recovery.

It is very important to convince the patient, calmly and clearly, that recovery can be realized and that it is worthwhile. The history of thousands of other alcoholics who have recovered from equally serious or worse drinking addiction is the proof that it can be done and is worth doing.

#### A Helping Formula

Here's a helping formula:

1. Never shield anyone with a drinking problem. Do something constructive about it promptly. Seek advice from someone who understands the problem, such as a

## WIRE RAVELINGS

TAYLOR ST.

by Art Rasor

Roy Fields is in the Parkview Hospital, and will be off work for a few weeks. Why not visit our fellow-workers who are ill, or send them a card? They will be glad to hear from you. . . . Don Firks is getting in shape for fishing this summer by practicing rowing while on a chair. We surely hope the chair holds out. . . . Bob Baals would like to have someone make him an ice-fishing box because he doesn't seem to have the time. . . . Harley DeWitt got halfway to work one morning when, thinking his feet were getting pretty cold, he discovered he had his house slippers on. He returned home to change them and arrived at work on time with the proper shoes and still plenty of breath. . . . Warren Langmeyer has changed from the Super Toni to the Regular Toni as it adds luster to his hair. . . . Virgil Nash returned home to find that a drip in the sink can lead to a large flood when the drain is closed. It made things a little messy, however. Another person has learned his lesson. . . . In order to look out for tomorrow, be careful what you do today.

"So you taught your wife how to play poker?"

"Sure, and it was a swell idea. Last Saturday night I won back nearly a third of my salary."

member of A. A.

2. Consult understanding physician whenever possible.

3. Convince victims that they are suffering from an illness requiring help.

4. Encourage patient to read some reliable material on alcoholism. (Book, "Alcoholics Anonymous," is highly informing, interesting and helpful.)

5. Help patient to find new hobbies, interests and non-drinking companions.

6. Convince alcoholic that he will never be able to use alcohol moderately. Once an alcoholic, always an alcoholic.

7. The alcoholic feels that he is alone against the world. Prove to him with understanding and kindness that he is wrong. His loneliness is his most vulnerable defense.

COPYRIGHT 1953 CARTOONS OF THE MONTH

"Kindly inform the staff to come and get their stockings, Miss Wilson, and that I don't have to be reminded of the Christmas bonus!"

**SPEECH WINNER** in the Effective Presentation course contest was Hubert E. Myers, Bldg. 21, center. He is being congratulated by Robert L. Mace, Taylor St., left, third place winner in the contest, and Don E. Dannecker, Bldg. 16-3, right, second place winner. The title of Mr. Myers' speech was "Undiscovered Manpower."

## Hubert E. Myers Takes Top Honors In Effective Presentation Contest

Hubert E. Myers, Bldg. 21, is the first place winner of the Effective Presentation public speaking contest conducted among the 1953 Fall class entrants. The contest took place last week at a dinner which concluded the class. Mr. Myers' topic was "Undiscovered Manpower."

First place in the written essay division of the course went to Max A. Kimble, Bldg. 26-3. His topic was "What Does Our Motto Mean?" Second place in the public speaking contest was awarded Don E. Dannecker, Bldg. 16-3, who discussed "Turbulent Television." Robert L. Mace, Taylor St., won third place with his speech, "Be a Hero."

Other entrants in the final phase of the speech contest were Burton L. Epstein, Bldg. 18-4, MTP trainee, and Andre S. Docos, Winter St. Each of the 67 entrants in the course submitted entries in the essay contest.

## Squares Slate Snowball Snap

"Snowball Snap" is the Club square dance slated for Saturday, Jan. 23. The Lunz Barn will be the scene of the informal event, general chairman Harold L. Thomas, Taylor St., reported.

Dancing will be from 9 p.m. until midnight and John Wright will serve as caller. He will also give instructions for beginners. Refreshments will be available.

Tickets are \$1.40 per couple and may be secured at the door the evening of the event.

Assisting the general chairman with arrangements for the January dance are: Frank Woods, Bldg. 31-2, ticket chairman; Neil Cooper, Bldg. 4-5, Test Engineer representative, and Betty Woods, Squares Wives representative.

## T. Wayne Jones, F. George Ingalls Receive Recent Specialty Transformer Appointments

Two appointments in the Specialty Transformer Department have been announced by Harold F. Briggeman, manager of production. T. Wayne Jones has been appointed supervisor of order service and shipping in the department and F. George Ingalls has been named order service specialist.

Coming to GE in 1941, Mr. Jones entered the Direct Current Motor and Generator Department as a stock clerk. He became head dispatcher in Bldg. 27 later. In 1945 he transferred to the job of processing terminations of government contracts. The following year he entered the Specialty Transformer and Ballast Department as supervisor of order service and had this position in Specialty Transformer at the time of his present appointment.

Mr. Jones is a member of the Supervisors Club and Fort Wayne Transportation Club. He completed a course on production engineering at Purdue University Extension. The Jones' and their two children reside at 2214 Muscoday Pass.

In February, 1951, Mr. Ingalls came to General Electric and entered the order service and warehousing training program at Schenectady. Upon completion of the course the same year, he went on the staff of the manager of order service and warehousing. In

T. Wayne Jones

F. George Ingalls

this location, he had responsibility for inventory control prior to his present appointment.

A 1937 graduate of Bucknell

University, Mr. Ingalls received his BA degree in English. The Ingalls and their two children live at 1005 Illsley Dr.

### Elex Board Meets

First shift board members of Elex Club will conduct their monthly board meeting Tuesday, Jan. 26, Voyce Brumbaugh, president, reported today.

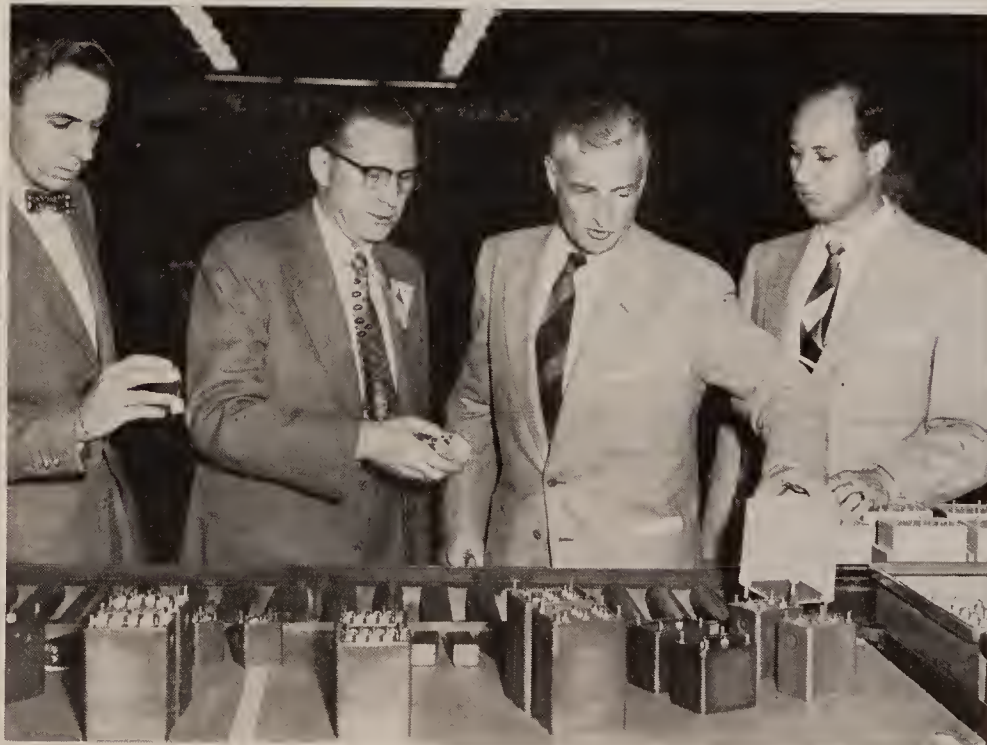

Beginning at 7:30 p.m., the meeting will take place in the Bldg. 16-2 cafeteria. Members of the board include officers, chairmen of committees, and contact girls.

### THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Velora Druey is still in the hospital from an operation and we all wish her a speedy recovery. . . . Charlie Prine, our foreman, tops the list for birthdays, this which is the twentieth happy birthday from all of us. Also, those who have birthdays are Bob Rinehart, Mary Knight, Violet Renkenberger, Nettie Sellers, Bonnie Heldie, and Ruth

Gunn. Congratulations, girls. . . . Don't forget, girls, the Elex is going to the Windy City, February 27, and it is only \$7 for members and \$8 for non-members. All who wish to go for a good time, see Irma Beard for your tickets. . . . Vida Craft and husband had food poisoning last week and was in the hospital for a couple of days. Glad to see you back to work, Vida. . . . We all wondered why Edna Peterson quit work so suddenly, only to learn the stork visited her recently. Congratulations, Edna. Also on our list is Marg Radu with a new baby daughter, Kathy Traubher expects the stork in the near future, too. She left us last Friday night. She will be busy making little things for a while. The best of luck, Kathy. . . . Our sympathy goes out to Alma Raymer in the death of her aunt. . . . Jessie Harter is coming out with a shiny new Ford soon. . . . Dorothy Guiff has a shiner, but she didn't get it with her new Pontiac. She got in a scrap with the Arbor press while putting on oil covers, so now Dorothy Guiff and Dorothy Hart have something in common. They have experienced a black eye each in the same way and the use of a three-legged chair which doesn't work so well. . . . Violet Renkenberger visited her daughter, Shirley, in Muncie last week. . . . Frances Oberholtzer is wearing a very pretty diamond. When is the happy day, Frances? . . . We have some new operators and also some have returned to our lines. We wish to welcome all of them. They are Waneta and Chuck Munson, Pearl Michael, Sylvia Walker, Violet Smith, and Ethel O'Leary. . . . Welcome, Marjory Reed of 51 Frame Assembly. Her little boy was ill last week. We hope he is much better by now. . . . Mildred Reidourf bowled hard last week. She was so tired she was trying to get someone to carry her ball from the little restaurant to the guardhouse. Better eat more spinach, Mildred.

**JANUARY VISITOR** to the Specialty Transformer Department was E. L. Roseberry, second from left, representative of the Hazeltine Electronics Corp., which is a customer of the department. Examining units similar to those purchased by his company, Mr. Roseberry tours Bldg. 26-5 with (l-r): R. H. Miller, proposition engineer; W. H. Crouse, superintendent of Section 94, and A. M. Krakower, manager of electronics and high voltage transformer sales.

Thought is the property of those only who can entertain it.—Emerson.

## 145 Specialty Employees Named To Safety Aides Committees

A total of 145 employees of the Specialty Component Motor Department has been named to safety aides committees in the department for the 1954 year.

The new appointees are members of 11 committees set up in the organization as part of its safety program. As the name of the committees states, the members will be safety aides to their co-workers and foremen.

Regular monthly meetings will be conducted by each committee for purposes of safety education. The program is designed to keep members informed as developments aimed at constantly improving employees' safety both on the job and off the job, Herschel L. Smith, who is in charge of the department's safety program, reported.

Section safety chairmen are: R. T. Blee, Section 401; C. J. Metker, 402; E. F. Fretz, 415; A. R. Spoerhase, 417; P. K. Hapner, 419; Ed Klomp, 423; T. R. Dent, 426, 487, 477; C. P. Rehling, 403, 404, 405; E. F. Gervin, 455; R. W. Hare, Jonesboro, and R. E. Kallmeyer, miscellaneous, 458, 424, 440, 446, 447, 469, and 478.

In addition to these committees, the department's safety organization includes an advisory committee composed of the general man-

ager and his staff, and special technical representatives.

The entire organization is set up to provide a two-way flow of information in matters pertaining to safety and health, Mr. Smith stated.

### PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

Jay Speice put a few new wrinkles in his car. . . . Harry Freeman is "rolling his own" since we got our tax slips. . . . If you have any lunch left over, give it to Vera Hoover. . . . We all wish Frank Pequinot a speedy recovery. He is off work due to an eye ailment. . . . Welcome back to days, Al Carper, even though you do walk around half asleep most of the time. . . . Two days in a row

## Shock Hazards

(Continued from page 1)

ful in keeping our folks alerted to these hazards in the production testing, engineering laboratories, development areas, and the power generation and distribution facilities. It is extremely important that we go all out in helping our fellow employees to be constantly vigilant."

Mr. Vann described this "all-out drive by local plant management" as a "four-way program for freedom from electric shock." All electrical test equipment in GE plants is being thoroughly checked to make sure that design, installation, use, and maintenance meet maximum safety standards. All testing procedures are being analyzed and dangerous or unsafe work habits corrected wherever they are spotted.

All supervisors will see to it that every employee knows and follows safe operating practices when handling high voltage electricity. All employees working in areas where electric shock hazards are present are being given intensive training in artificial resuscitation.

"But the constant vigilance of each individual employee holds the key to freedom from electric shock—as it does in all work. Any electric charge can be dangerous if safe work practices are not followed," Mr. Vann concluded.

Mary Cordell washed up for lunch at 10:30. She wondered why the washroom wasn't crowded. . . . Three times Charlie Bailey's TV has gone haywire, each time after an Eisenhower speech. He can't understand it. . . . Ed Lauer's famous last words, "Each day gets worse." . . . What! Has old age finally caught up with Blanche Kanning? She was seen carrying a cup, seemingly filled with coffee to her eating place, but when she started to drink, no coffee. We are wondering what her excuse is. . . . Ellen Gerbers has joined the sleepy-looking people. The reason is TV. . . . We are glad Ellen and Rose are back at work again. . . . A former employee of Bldg. 26-3, Perry Irelan, Rose Onstott's son, is on his way to Japan where he will be stationed for 15 months. Good luck, Perry. . . . Ruth Freeland wrecked so many winding machines last Wednesday that one of the machines decided to get even. Ruth, you just don't know how funny you looked sitting on the floor. . . . We wish Velma Rose a lot of good luck on her trip to Washington. . . . The Winding Section has decided it would be much cheaper to pay Ray Lovelless' board than to board him. He was seen eating three "Dagwood Pork Tenderloin" sandwiches for lunch. Vera Hoover has a more pleasant look on her face since her "favorite" set-up man is back on the line. . . . Harold, what happened to that brand new super spud bar? We heard it broke the very first time you used it. . . . It was nice to hear from our friend, Lawrence Schuster, who is living in Florida. George Finkbeiner has a new task. He referees the "heated conversations" between Jim McGill and Eddie Alter. . . . Safety Sam says: "Accidents are caused. They don't just happen."

Lawyer to Steno: "Why are you always looking into the mirror?"  
Steno: "Because your wife told me to watch myself when I was around you."

## SERVICE FACILITIES FOR GE APPLIANCES

The following is a list of service facilities for GE appliances, where employees and the general public may have repairs made to GE merchandise.

All small appliances that are still in warranty and require repairs should be taken to the dealer from whom they were purchased. The sales slip should be presented to establish the date of purchase.

Small appliances out of warranty should be taken to the repair services listed below:

### GE EMPLOYEES—SERVICE FACILITIES

#### Small Appliances:

(Irons, grills, toasters, mixers, blankets, clocks, fans, heating pads), Employee Store.

#### Major Appliances:

Grand Leader, 905 S. Calhoun  
Schaper's, 1622 Sherman  
Schueler's, 2126 Fairfield  
Frank's, 730 S. Calhoun  
Goodyear, 1220 S. Harrison

#### Television:

Sharkey's, 2808 Lower Huntington Rd.  
Schaper's, 1622 Sherman St.  
Schueler's, 2126 Fairfield  
A & Y, 4315 S. Anthony  
Frank's, 730 S. Calhoun St.  
Klaehn's, 1732 Bluffton Rd. (Quimby Village)  
Schnelker's, 427 Broadway, New Haven  
Davis, 1006 Hugh St.  
Trend, 3415 Warsaw St.

#### Heating and Air Conditioning:

Summit City Heating, 2122 S. Calhoun St.  
Hildebrand Heating, 3209 Thompson St.  
Biddle & Thomas, 2510 Pioneer St.

### GENERAL PUBLIC—SERVICE FACILITIES

#### Small Appliances:

Patten Electric, 1323 S. Calhoun St.

#### Major Appliances:

(See list above)

#### Television:

(See list above)

#### Clocks:

Corley's Clock Service, 722 S. Harrison St.

#### Heating and Air Conditioning:

(See list above)

HAVE THEIR OWN PARTY—While "Mabel" and "Charlie," their best friends, are holding a big party at their home, "Judge Stevens" (Jim Backus) and "Joan" (Joan Davis) try to bring hilarity to their own twosome party, on the "1 Married Joan" comedy Wednesday, January 27, at 7 p.m., CST, on the NBC-TV network. The couples have quarreled over Joan's cutting up of "Mabel's" dress by mistake.

## Joan Davis Does Some Real Cutting Up on TV Program

Comedy star Joan Davis, an incorrigible cut-up at all times on her "I Married Joan" television show, really does some literal cutting up on the telecast of Wednesday, January 27, at 7 p.m., CST, over the NBC-TV network.

In the program, titled "Mabel's Dress," Joan's friend Mabel (Geraldine Carr) is the innocent instigator of all the trouble. Mabel's husband gets Joan's spouse, Judge Bradley Stevens (Jim Backus), to hide a new dress in the Stevens home until he can smuggle home the purchase to surprise Mabel.

Joan, as might be suspected, finds the new dress in the closet and proceeds to alter it while Mabel watches. What is at first mild interest turns quickly to chagrin and then to a fine burst of fury, when Mabel learns that it is her own dress that Joan is mutilating.

The two couples have a real brannigan and it doesn't look like

peace will ever return. But Joan, in her inimitable fashion, manages to bring back some semblance of tranquility to their dress-torn relationship.

## Frank's Dept. Store Named GE TV Dealer

Frank's department store has been named as a General Electric television dealer. The store is located at 730 S. Calhoun. They also have service facilities for television receivers. The store also handles GE major appliances.

# from the panel's point of view...

THE QUESTION: SHOULD WE SHARE KNOWLEDGE OF HOW TO USE ATOMIC WEAPONS WITH OUR ALLIES?

Five members of the Apprentice School team in the Interdepartment Basketball League comprise today's panel. This team is currently occupying first place in the league.

## James C. Bartholomew Named Labor Relations Specialist

James C. Bartholomew has been appointed labor relations specialist in the Direct Current Motor and Generator employee relations section, Richard M. Hartigan, manager, announced this week.

Joining the company in April, 1951, Mr. Bartholomew went into the Employee and Community Relations Training Program at Schenectady where he was on special assignment in the community relations section of the Large Apparatus Department.

Later, on this program, he had assignments in the Schenectady Works Factory Training Program. He worked in the central wage rate section, screw machine products section, and Guided Missiles Department. In the latter location, he was located in employee services and planning.

In July, 1952, Mr. Bartholomew was appointed a foreman of final assembly in Guided Missiles. He transferred to Fort Wayne's Direct Current Motor and Generator Department in July last year and was in the employee relations section until his present appointment.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

At last we have definite proof that Clarence Stove is growing old. It came out in this manner. Clarence has always been an ardent Oldsmobile fan. He desired to change cars and had an excellent chance to make a good deal on one of the new Olds with the new high speed Rocket engine. He turned it down because of its excessive speed, declaring that it frightened him. He selected a used Pontiac with a low speed motor. It would not surprise us much to see him driving an old Model T Ford a year from now. . . . Bill "Faultless" Turner is one man among us

A graduate of Stanford University, Mr. Bartholomew received his BA degree in Sociology in 1950 and his Masters degree in 1951 in Industrial Sociology. He is a member of the Supervisors Club.

Mr. and Mrs. Bartholomew have one daughter. They reside at 526 Home Ave.

without a single fault. It seems that he will not take the blame for something that has been done wrong. For instance if he should happen to pile into the rear end of another man's car and knowing full well that he was to blame he would declare absolute innocence. . . . It seems that arriving at the plant before starting time has a bad effect on Herschel Foreman.

## TOOL BITS BLDG. 19-4 and 5

by Howard Demsey

In order to clear up any misunderstanding as to the correct spelling of Jim Buchheit's name, we'll mention it again this week and try to get it right. Jim was involved in the weighing-in ceremony for Jerry Graybill with Ren Getty providing the finishing touches. . . . Charlie Ueber and Barney Weber are retired but not forgotten. . . . Jim Uebelhoefer was seen ogling a '54 Buick. Steady, Jim. . . . We hear that Bob Benz enjoys his job teaching a class of apprentices so well that the time seems to fly by much faster than usual. . . . We express our sincere sympathy to Paul Strombeck on the death of his mother. . . . Wonder why Bob Mosshammer was seen at night carrying coal in by the bushel basket. What's wrong with the oil? He's not satisfied trying to burn coal alone; he tries to burn ashes, too. He fixed the fire for the night and put ashes on the coal to keep the fire down. He did such a good job that by morning the fire was not only down but out. . . . Julian Franke likes his jeweler's eyeglass so well that he tried to buy it twice. As Gus Rodenberg is due for pension in February he has sold some of his tools. Somehow Jule's

eyeglass turned up in Gus's toolbox and Jule liked it so well he bought it before he found out it was his own. . . . Bill Owen and Bard Zwayer are also teaching apprentice classes. . . . Ken Brown has become the hard luck man of the machine design section. Last September he was sideswiped on the Decatur Road. After walking for six weeks he finally got the Studebaker out of the repair shop. Sunday afternoon while sitting in their living room, Ken and his family watched some motorist come sliding down the street, trying to avoid hitting a youngster on a sled. Ken's car happened to be parked in the way and is back in the shop again. We're looking for Ken's picture in the papers with his reason for "going Transit." . . . A hearty welcome to Adam Kanopka of the Erie Works. He will study some of our machines and systems during a 10-day visit for possible applications for the Schenectady Works. . . . The Planning Unit welcomes Kieth Jamison. . . . Dick Burns went out fox-hunting last

Les Fanning, Bldg. 19-5: "In view of past experiences with France, England, Japan, and Germany, how do we know who our allies are? For my part, I say an emphatic 'No' to the question. We have given money, machines, and materials to our so-called allies and in return we have received nothing but verbal promises that they will return everything with interest. Why should we share with them our very top-secret atomic weapon information when we cannot receive their cooperation on other items?"

Harold Friedrich, Bldg. 17-2: "From what I've heard from certain fellows, our own equipment and ammunition have brought as heavy a damage against us as enemy supplies have. You give our allies something and instead of appreciating it they want more, more, and still more. You give them a grenade one day and the next day they may hand it back, with the pin pulled! From pictures in the news reels it looks like that A Bomb sure would make a mess of Chicago, New York, or golly, how about Fort Wayne? I'm dead against it. If we do, we may just be dead, period!"

Warren Sloan, Bldg. 12-2: "Yes, I believe that we should share at least some of our information with our nearest allies, but it might be wise not to reveal all that we know about a few of our best weapons. Our sharing of the knowledge would tend to make us more united with all who are concerned."

Ned Spehger, Bldg. 12-2: "Yes, I think it would be all right. However, atomic warfare secrets cannot be regarded lightly; and some limitations should be placed on just how much knowledge we should share. To share this knowledge would be a sign of peaceful international relations. Perhaps then a pool of resources could bring the atom into the peace picture."

Richard Buffenbarger, Bldg. 12-2: "Yes, I think if we were to share our knowledge with our allies then they would be in a better position to resist communism. If in any way the United States can keep communism from spreading to the weaker countries, then we in turn will profit by it in the future."

Saturday and from what we can learn he was out-foxed. . . . Carey Baker had a birthday last week and claims to be 10 years short of Jack Benny's alleged age. Must be from living in those north (Clinton) woods. . . . Bud Dunlap claims the bump on his head was from slipping while pushing his car, but the rest of the fellows think that's not the whole story. . . . Roy Paulson's section welcomes back Harold (Mr. Coesse) Wherry. . . . Al Clark has left the jig bore for bench work in George Spittler's section. . . . Another new face in that section is John Blair, an apprentice. . . . Also welcome to Merle Aughinbaugh from Ed Schafenacker's section. Merle is just back in civvies after service in Korea with the army. . . . Walt Esterline proved his fishing ability by bringing Ralph Steward in two big (?) bluegills. . . . Congratulations to Richard Schultz who was married Saturday.

A bachelor is a rolling stone that has gathered no boss.

GE TRUCK FLEET—1912—Fort Wayne GE in 1912 was proud of its fine fleet of battery trucks. The one-ton and three and a half ton electric trucks were used to haul freight to and from the depot at the speedy rate of six miles an hour. Today's truck fleet consists of 13 tractors, 20 semi-trailers, 2 dump trucks, and 6 one and a half ton straight trucks.

## 17-3 NEWSIES

by Wilhelmina Beeth

We bid farewell to Mae Jones. She is going to be a lady of leisure. We hope that you will have time to do all the things you couldn't do, when you were punching in the time clock. . . . Congratulations to Samuel and Ardena Kiscadon, also to Phillip and Neva Chamness. Both have blue-booted additions at their home. . . . There is a gleam in the eyes of Mary Leffel. It is the reflection of that pretty diamond she is wearing. . . . Note to the Marines: Here comes Max Beard. He left us this week to go on the pay roll of Uncle Sam. . . . Our "We Wish You Happiness" mat is out for our brides, Ruth Byrd and Maggie Williams. . . . Ireta Gillie spent the week-end in South Bend, helping her granddaughter celebrate her birthday. . . . Phyllis Lupton had a notice the post office had a letter for her marked "insufficient postage, two cents due." When she went to get it, it was from Lorena Buuck. . . . We light another candle on the cake and wish a happy birthday to Verna Bullerman, Gwendolyn Liggett, Laura Antrup, Willie Warren, and Walter Kryder. . . . We have always heard how Jess Hahn tinkers with his electric train, but Joe Orbin is one up on him. He sleeps with his train. . . . Ida Sinn was shopping and stopped to ask where something could be found. She didn't get an answer because it was one of the store's models. . . . Elma Keiser doesn't get enough liquid in her coke cup, so she stops at the drinking fountain and fills 'er up. . . . Eunice Zehr had been carrying her lunch all week and griping because she had had nothing but cheese sandwiches. Friday, she decided to eat at the cafeteria. Guess what she bought, a cheese sandwich. . . . We are glad to report that Bob Davidson's little boy is on the improved list. . . . We wish a speedy recovery to Naomi Robinson and hope that by the time this goes to press, she is home from the hospital. . . . Maxine Hathaway has joined the new car class. It's a Chevy. . . . Orville Kaufman didn't try to change the color of his hair. He thought he would repair his furnace and all he got was a lot of soot for his trouble. . . . We extend our sympathy to John and Helen Mueller on the loss of their little boy.

## FG MOTORS

by Mary Wright

With winter in the air and a little slippery under foot, it is a little hard to stand up. Any way, Zelma Wood found it so. She didn't mind the fall nearly as much as she did the runs in her hose. They were soon stopped with red nail polish. She looked as if she should see a doctor for a bad case of smallpox. I am sure she has enough money to buy another pair of hose, for she has been selling Lifesavers as her new pastime. . . . Bob George must have a lot on his mind or a short memory. He had to contact one of his co-workers Friday night because he couldn't remember whether he was to work Saturday or not. . . . Irene Hockinberry looks very nice with her new Italian haircut. . . . A strange disease has overtaken Edith Clevenger. She says she doesn't hear well and it is because her glasses don't fit anymore. I am sure the cure for that would be a new pair of arch supports. . . . Ada Romanoski really felt badly, but we told her in advance that she would be punished. She wanted our pumpkin pie.

**CELEBRATES 35 GE YEARS**—Harold C. Brudi (right) receives best wishes on his 35th General Electric anniversary from (l-r) Lisle D. Hodel and Clifton Duncan. Mr. Brudi has been an accountant since first joining the company in 1919. At present he is supervisor of accounting in the General Purpose Component Motor Department.

## SLEUTHING in 4-6

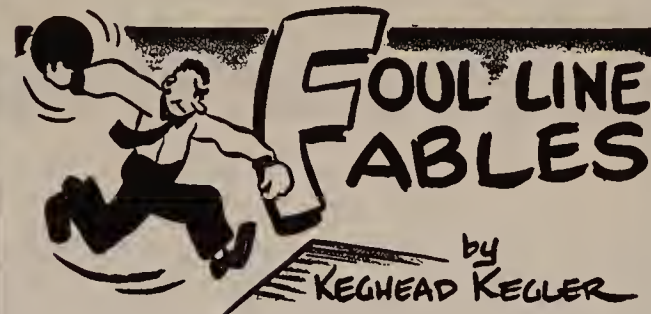

by Al Happel

**THE NEW FEMININE FACE** in Mr. Stanbery's group is Ina Archer. She will replace Ruth Richey who will be leaving us shortly to become a full-time housewife. . . . **IN ART WILSON'S GROUP** we have Richard Lelio. Dick is married and has had previous service in the A. and O. S. Department at Schenectady. We extend a hearty welcome to all our new people. . . . **A MESSAGE TO "SLUG"**! If you still read this column, how about giving me a ring? How about a date to see TV at our house some time soon? . . . **HAPPY BIRTHDAY** to Lois Reed on Jan. 23, and to Dick Dochterman on Jan. 23. . . . **ATTENTION ALL ENGINEERS:** When you need your typewritten reports assembled, call on Jeanne Cirks. She's got a paper thumb. . . . **WELCOME** to David Purdy. We works for Mr. Wightman. . . . We sure think Mr. Jones looks nice with his Florida tan. He also has some fish stories to tell. . . . **WE WISH** a speedy recovery to Pat Boling's wife. . . . **CHRIS FLANIGAN** bought a television set before Christmas (without an antenna). I guess he received enough money for Christmas that he has now purchased an antenna. . . . **SECOND CHILDHOOD** is not so funny, huh Bob. We wish a speedy recovery to Bob Mee. He has come down with chicken pox. We sure miss you, and hope to see you back soon. . . . **BOWLING FANS** in Bldg. 4-6: We heard that two young men are having a bowling duel. Their names are Gil Baker and Charles Kelso. Who should we bet on, huh boys? . . . **CONGRATULATIONS** to the Doran Hershberger's who can now say, "A boy for you and a girl for me." Baby Linda Jean arrived January 13. She weighs 6 lbs. 11 ozs. Her big brother had quite a struggle trying to figure it all out, what with being hied off to Goshen to his aunt's home during the excitement. We hope by this time the family is all together and back to normal. . . . **DEE GILTZ** was surprised with a beautiful birthday cake, compliments of Mr. and Mrs. Harry Connor. Dee celebrated her birthday on January 15. . . . **BY THE WAY**, Mrs. Connor, we are all happy to hear that you are recuperating from your recent illness and hope that in no time at all, you'll be as good as new. . . .

**HAPPY BIRTHDAY** to Bill Pringle, January 23; Harry Gebfert, January 24; and Walt Whonsetler (our poet) on January 28. . . . **WE HAVE** quite a few new faces in Specialty Motor Engineering. Dave Thomas is new TE in Bob Loveland's group. Dave is single and is a graduate of Northwestern University with a degree in Mechanical Engineering. His home town is Great Falls, Montana. He served previous tests at Evendale and Control Dev. Test at Erie. His hobbies are photography, music, and model building. . . . Then we have Jack Dawson, new TE in Mr. Stanbery's group. Jack is single and has his BSME from California State Poly. This is his third test assignment having spent the previous two at Evendale. He likes gymnastics and plays the guitar. . . . Max Barrows also has a new TE in the person of Richard Tanner. Dick is married and has a BSEE from Clarkson College. His home town is Broadalbin, N. Y. He is now on his third test having served at Schenectady on both previous tests.

**RETIREMENT DAY**—William Hoke (center) shows J. E. Laisure and K. D. Strong his gift from his co-workers, a U. S. Defense Bond, on his last day with the General Electric Company. Mr. Hoke retired this month after more than 30 years of service in Bldg. 19-2.

In the Ladies' Tuesday Afternoon League, Teams No. 2 and 3 are tied for first place, each having won 5 games and losing only 1. Team No. 6 and Team No. 1 are tied for third place, each with 3 wins and 3 losses. Mary Reynolds kegled games of 177 and 170; Edna Koester rolled a 179; and Billie Tucker, 171.

## Ladies' Monday Night

Winnie Schuerich rolled a 523 count on games of 182, 195, and 146. D. Brubaker scored a big 205 count; M. Franke, 171; B. Rinker, 174; B. Moore, 171; M. Pasternak, 188; D. Fuhs, 171; and M. Root, 179. Scatterpins are leading the league with a record of 8 wins and 1 loss. Gutterbells have won 7 and lost 2 for second place. In a tie for third place are Twisters and Holey-rollers, each having won 6 and lost 3.

## Ladies' Friday Night

Team No. 2 and Team No. 8 started the second half in full swing, winning all 3 games. Team No. 3 and No. 1 have won 2 and lost 1, so they are tied for third spot. Liz Shearer rolled a 566 score on games of 181, 187, and 198. Virginia Mollet and Ilo Matter rolled identical series of 503. Virginia had games of 177, 158, and 168; while Ilo rolled 177, 144, and 182. Lyn Blauvelt scored a 192; Ruth Blauvelt, 172; Tommie Williams, 187; Bertie Mechling, 176; Betty Puff, 177; Colleen Rogers, 172; Mary Parasot, 180. Ann Lee rolled 187, 156, and 159 for a 502 series.

## GE Orphans

In the GE Orphans League, Hotel Keenan and Team No. 2 are still tied for top spot, each team having won 6 games and losing none. Team No. 6 has won 3 and lost 3 for third place, while Bernie's Motor Sales has won 2 and lost 4.

This puts them in fourth place. Donna Murphy kegled a big 192 score; Vera Sessler rolled a 187; and Bea Lantz scored with a 181. Hotel Keenan scored a 2210 series.

## Mixed Doubles

There are some openings in the next mixed doubles which will be held February 20 with Squads rolling at 6 and 8:30 p.m. The bowling and entry fee is \$2 per person. Sign up at the Club or phone 742. This week's Keghead column is exclusively for the lady bowlers due to the men's teams competing in the City Tournament.

## Decatur

In the Men's Factory League Rotors and Flanges started off the second half by winning 2 games and losing 1 game each. M. Hoffman scored a 215; H. Shoaf, 205; and P. Briede, 200.

## GE Fraternal League

Monroeville Lumber Co., GE Club, West End Restaurant, and Peterson Elevator, each have won 2 games and dropped 1 game in the first night's activity of the second half. G. Baumgartner scored a 631 on games of 236, 225, and 170. R. Lord put games of 206, 223, and 171 together for a 600 series. Double century scores were rolled by Wolpert, 200; Zelt, 200; Ladd, 224 and 204; Oetting, 203; Bulte-meier, 222; Briede, 212; House, 205; Macklin, 200; Werling, 230; Bruuck, 202; and McIntach, 200.

## GE Women's League

Last Frames have won 29 and lost 19 to lead the league. Hi Spots have a record of 26 wins and 22 losses for second place. Plasterer rolled games of 160 and 178; Stults, 160; Miller, 170; Myers, 166; and A. Reynolds, 164.

THE BIG WIND  
SECTION 417 TAYLOR ST.

by Rachel Mounsey

We wish to extend our deepest sympathy to Howard McVay in the death of his father. . . . We are very happy to hear that Verena Morgan has left the hospital and hope to see her on the well list soon. . . . Della Zulch surely was confused the other night. She was looking for her clock card, running from one rack to the other, and all of the time she had it in her hand. . . . Alma Welches lost her car when she came out of church Sunday morning, or at least she thought she had. She found out that her husband had put her new plates on and Alma didn't recognize it. . . . Wally Snyder watched the football game on Dayton channel Sunday, and was complaining about the snow. Gee, Wally, Fort Wayne had the same thing, only no snow.

FOR WAYNE FIGHTERS—A group of Fort Wayne amateurs who are now working out in the GE Club in preparation for the Golden Gloves tournament, January 25, are (l-r) Jim Reeder, John Freeman, Al Campbell, and Oscar Ayers. The four boys are all former Golden Gloves champions.

## Expect 75 Area Entrants In Golden Gloves Monday

Area fight fans will see 65 to 70 Golden Glovers in action on the first night of the annual tournament Monday in the War Memorial Coliseum, according to Frank Newport, coach. The tourney is co-sponsored by the GE Club and WKJG radio and TV.

Newport said that about 25 Fort Wayne boys have signed up for the tournament and other centers in Auburn, Garrett, Defiance, Van Wert and Rome City are also reporting good turnouts for the clashes.

With two rings working, fans will get a chance to see all the boys in action the first night. Tournament fights will be held in one ring and inter-city matches are slated for the second ring.

Other good news for fans was the announcement that Bobby Burns, former national Golden Gloves champion, will referee the bouts along with Bob Smith and Max Crosley, veteran GE referees.

Arrangements have been made for both local and out-of-town

judges in order to insure good decisions.

Boxers have been training heavily the past week in the GE Club gym. They will weigh in beginning at 3 p.m. Monday in the GE Club before reporting to the Coliseum.

Bouts are scheduled to get under way promptly at 8:15 p.m. Tickets are available at the GE Club, the Main Auto Marine Division, and all Zollner stations. Reserved seat tickets are \$1.50 and \$1. General admission tickets will be available at the door for 60 cents.

This year's program will be the 25th anniversary of Golden Gloves tournaments in Fort Wayne. The GE Club has co-sponsored the tourney since its beginning here. The national tourney originated 27 years ago in Chicago.

## Apprentice Cagers Top Squares For First Half Interdivision Title

by Don Cochran

In a game that was hard fought, figuratively, and in the last three minutes, literally, the Apprentice defeated the Squares 48 to 36, Thursday, Jan. 14. The playoff victory gave the winners the first half championship. The regularly scheduled first round had ended in a tie between these two teams.

The Apprentice jumped to an early lead on several good long shots by Harold Friedrich. They never relinquished the lead, holding quarter margins of 15-8, 25-18 and 39-21. Sparked mainly by Dick Buffenbarger, the winners enjoyed a 14-point third quarter while the Squares' offense slipped badly—totaling only 3 points.

The game was somewhat slowed by the 43 personal fouls called. In the final quarter, the Squares lost Milt DeJean and the Apprentice lost Les Fanning by the five personal foul rule.

Gil Carl of the Squares captured scoring honors for the evening with a total of 15 points but was followed closely by Harold Friedrich and Howard Bash, who netted 14 and 13 points respectively for the Apprentice. The Apprentice enjoyed a good evening at the free throw line, scoring 22 of their 48 points on charity tosses. This total represented an impressive percentage of over 70 per cent.

In the first game of the evening the Firemen gained a 59 to 48 victory over the MTP squad. The total scoring was exceptionally good considering the lack of reserve players available to each team. This game was played to make up the postponed meeting of these teams during the regular schedule.

Markoetter with 23 points, and Baals with 19, led the offensive for the Firemen. Kapke topped the scoring for the MTP with 17 points.

The second round of the inter-division competition, which is already under way, will be divided

into two divisions. The top four teams at the end of the first round comprise the one section while the other division is made up of the four remaining teams. This places the Apprentice, Squares, Test Engineers, and Hermetics in one group, and the MTP, Firemen, Transformer and Airliners in the other.

Each team will play the other three teams in its section twice during the second half. The second half winner will be determined by a three-game playoff between the winners of the respective sections. If the winner of the second half differs with the first half winner, a three-game playoff will determine the league championship.

In second half play January 19, in the "B" Division, consisting of the bottom four place teams, the MTP squad defeated the Airliners 51 to 39. Bob Montgomery led the offense for MTP with 13 points, while Warford and Brunner collected 12 each for the Airliners.

In the first of the "A" Division games, the Squares edged the Test Engineers 50 to 43. The game was close throughout, with the Squares' reserve strength providing the margin in the final quarter. Gil Carl led the scoring for the Squares with 17 points. Bob Shilling, the Test Engineers latest offensive addition, netted 11 points.

In the second "A" Division game, the Apprentice rolled over the Hermetics with an easy 59 to 27

victory. The Apprentice, first half winners, worked well both offensively and defensively. Howard Bash topped the scoring for the Apprentice with 15 points while Ponsot netted 8 markers for the Hermetics.

The schedule for the second half is shown below:

January											
26—Transformer vs. Airliners											
M.T.P.s vs. Firemen											
Squares vs. Hermetics											
28—Apprentice vs. T.E.s											
M.T.P.s vs. Firemen

## GE Owls Open Second Half With Victory Over Salisbury

by Howard Colby

Last Thursday morning, the GE Owls defeated Salisbury to start the second half of play in the Main Auto Industrial Owl League with a victory and its 11th straight win in League play.

The first period found the two teams matching each other point for point. White led the Club team with two baskets; Wilson added two free throws; and Gladieux and Blodgett hit a basket each for a total of 10 points as Salisbury scored 9.

In the second period GE began to pull slowly away as Gladieux hit for three baskets; Fisher, one; Dickey, a basket and a free throw; White, a free throw; and Blodgett, two free throws and a basket. Salisbury was held to 4 points, to give the GE Owls a half-time lead of 26 to 17.

Both teams scored 11 points in the third quarter to stay on an even keel. Bob Markey and Gene Etter each connected on two baskets in this stanza. Ron Blodgett sunk a basket, as Carl Wilson dumped a charity toss to run the score up to 37-28 in favor of GE.

In the final eight minutes of play, Dickey paced the Club team with 5 points. Gladieux hit four, with Wilson, Anspach, and White each chipping in a fielder for a total of 14 points. Salisbury scored 16 to wind up the affair 51 to 44 with the GE Owls on the winning side of the ledger.

Next week Salisbury and Indiana Rod open the session when they play at 9 a.m.; Zollner meets Eckrich at 10 a.m., and GE tackles Aircraft Gear in the capper at 11 a.m.

## TRANSFORMER TATTLES

Bldg. 26-4

by Dutch Norwalt

Link Braden celebrated his 30 years with the company. Dutch Norwalt and Al Topp were out shaking hands with everybody. We sure would like to know why. . . . Ted Lauterberg was recently appointed foreman in the Small Type M. Section. Along comes an attractive girl for a job. She was quickly grabbed by R. Goller, who explained the job to the new employee. How come, Dick? Ted also appreciates beauty. . . . It has been requested that Al Topp find some way to attract the attention of supervision without making so much noise. . . . Bob Euz broke down and bought a TV, but now he can't get in his own house for children. . . . Paul Peterson should take a tip from Jerry Moore. To get the most for his dime Jerry was observed weighing two containers of milk at the dispensary machine. You're doing all right, Jerry. . . . Donations are again in order to get Max Kimble a new pair of roller skates. Slow down a little, Max. Your brakes are smoking. . . . We want to welcome Lena Ferguson back to work after her illness. . . . The girls had a pot luck dinner for Ruth Klopfenstein, who had a birthday. . . . Glad to see Lois Baker back to work in the Sealing Section and also Mary Etta Parker, who is back to work. . . . Sorry to lose Gladys Moore. Sorry, to most of us. She is going on second trick. . . . Did any one see the floor show the other day? It seems that Christine Burns started the act with her tap dance with a chorus of girls singing the accompaniment. . . . Our sympathy goes to Helen and Johnny Muller on the recent loss of their baby. . . . It might be Jack Rhoades has something to do with the fact that Gladys Moore can't stay awake this week. He is home for 16 days' leave.

## COUNT OFF SECTION 417 TAYLOR ST.

by Marguerite Stahl

TV shopping must really be getting Paul Winters down. He was seen with his shoes and socks off last week cooling his feet or resting his blisters. Better have that set delivered, Paul. . . . Mike Evans and his wife, Luenna, are vacationing in Florida. . . . Ed Feidler welcomes Bill Miller in his department. Testers wish him a lot of luck. . . . What kind of animals does Alberta Watt keep in her apartment, that she won't let her friends visit her? . . . Beverly Numbers and Vadas Putt should be working in kindergarten since they are on their baby food diet. . . . The kindergarten group had a surprise baby shower for Catherine Chilcoat's new daughter. . . . Betty Bertsch is really lucky when it comes to winning baby prizes. . . . Bertha Burnau is very happy that her daughter and son-in-law, Mr. and Mrs. John Piatt, are home from the service. Mrs. Piatt worked at the Trees of Mystery in the Redwood Forest while Mr. Piatt was stationed at the Air Base. . . . The girls in Section 17x54 are still waiting on Ed Feidler to bring in some of his potato pancakes. . . . We wish Bernard Shroyer a lot of success in his new work in 51 frame. . . . Our sympathy to Florence Weimer on the death of her infant grandchild. . . . Paul and Hilda LeCoque entertained Mr. and Mrs. Leonard Spice with a fish supper, Friday night. . . . Mar-

**CUTS GOOD-BY CAKE**—Mande J. Wikel serves Marie Stalter a piece of her farewell cake on her last day at GE prior to retirement. Mrs. Waikel first came to the company in 1927. She was employed in Bldg. 26-5 before she retired.

guerite Stahl entertained several friends at a surprise birthday dinner for her husband, Sunday night. . . . Section 17 extend their sympathy to Howard McVay on the death of his father. . . . We are happy to have Joseph Adams back with us after being ill last week. . . . We hope Wilbur Gray likes his new work in the Wire Mill.

## SPECIALTY MOTORS

Shipping—Receiving—Order  
Service

by Mabel Fisher

The gentleman seen buzzing around in that shiny, green Ford car is none other than the proud owner, Mr. Charles Van Behren, of Bldg. 6. . . . Hoot Humbrecht has learned two very important facts: that sawdust does not make good fertilizer, and that fertilizer does not make good snuff. Hoot had a five-pound sack of fertilizer, but one of his buddies filled a sack with sawdust and switched sacks so that Hoot carried home the sawdust. Then someone informed Hoot's wife about the mistake and Hoot had a rough time explaining to her how sawdust would make their shrubs and flowers grow. That same day Hoot received a box labeled "Snuff", which was really a sample of his long lost fertilizer. It's just little incidents like this that make a fellow want to end it all. . . . Two foreigners were looking for the Parkview Hospital the other evening. Upon entering, each wondered why there were no beautiful female nurses in attendance. They were informed that they had entered the Veterans' Hospital instead of Parkview. Who were the foreigners? C. D. Uncapher and Fred W. Wheeler. . . . We extend deepest sympathy to Ralph Heminger and family in the recent death of his grandson. . . . The next time Viola Haiber can't be found you might try looking in the cafeteria office as she is probably locked up there with her coat. She sometimes puts her coat in the office. The other day the manager had locked the office and Viola spent a good half hour trying to get her coat back. . . . Happy birthday, Ed David, Ralph Milligan, Carl Oberwite, and Richard Campbell.

## APPRENTICE BROADCAST

by James Schwartz

Congratulations to Mr. and Mrs. Ed Sharp on the arrival of a new baby girl. Sharon Marlene joined the Sharp family last Saturday morning. Ed reports the maternity routine is pretty strenuous on him, too. He went home Saturday to catch a few winks before visiting hours Saturday evening. The alarm went off but poor Ed didn't hear it. He finally woke up; but it was Sunday already. . . . Dewey Fields was caught with a cold-rolled tool bit in his lathe. Just won't work, will it, Dewey? . . . Cliff Creason wishes to announce he has gotten his winter hair-cut. This is the first time we've really seen him. . . . Norm Koons has definitely proven that taps can be run through your finger, and without the assistance of a tap drill either. . . . Jim Burkhart is now supporting the Fort Wayne Police Dept. It seems he picked up one of those little red tickets for running a red light. . . . Mr. and Mrs. Don Konow are getting up in the world. They are now comfortably settled in their new home. . . . The apprentice school basketball team emerged victorious in the first half play-off game with the GE Squares. The game was hard fought throughout with players on both teams leaving the game via the foul route. Harold Friedrich was top scorer for the Apprentice School with Gil Carl leading the losers. . . . Bob Barnes was seen giving ice skating lessons to his family the other day. Bob says he found muscles he never knew he had when he got up the next morning. . . . We thought we saw Bob Doelling doing ballet steps in the parking lot last week. It seems he slipped on the ice and fell flat on his back. . . . Harry Ecenbarger received an autographed picture of his favorite radio star this week.

Wilmer C. Kruekeberg

## W. C. Kruekeberg Assumes New Post At Taylor Street

Wilmer C. Kruekeberg has been appointed supervisor of production service in General Purpose Component Motor Section 114, Fred H. Campbell, superintendent of the section, announced this week.

Joining the company in 1942, Mr. Kruekeberg became a stock accumulator in Section 113. Later he was a leader of raw materials. In 1945, he was named a production supervisor in Section 316. He went on special assignment later in the Fractional Horsepower Motor production manager's office and then became supervisor of order service at Taylor St.

In 1952, Mr. Kruekeberg was named to the staff of the production manager in General Purpose Component Motor Department. This was his position prior to his present appointment.

Since coming to GE, Mr. Kruekeberg has taken the Better Business Management course and a production training course. He is a member of the Supervisors Club.

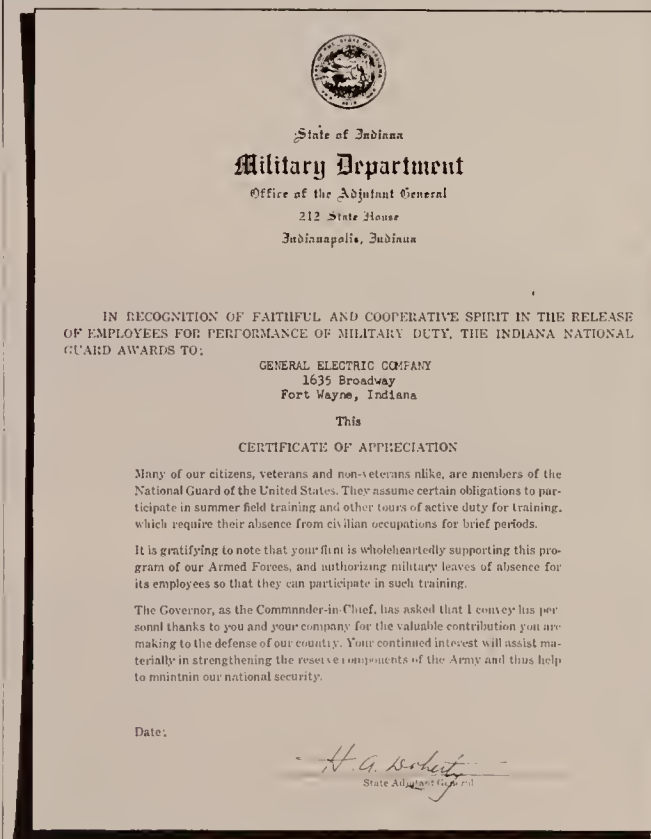

The Kruekebergs and their two children reside at 3011 Plaza Dr.

## H. L. Smith Appointed To State Safety Council

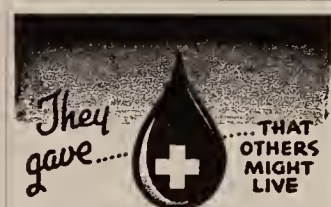

Herschel L. Smith, Bldg. 8-2, was reappointed to a State Advisory Council on Individual Safety Codes recently by Gov. George N. Craig.

One of 24 members of the council, Mr. Smith was first appointed to it by ex-Gov. Ralph Gates and worked on the committee when the first industrial safety codes for the state were set up.

Mr. Smith has been active in the city C of C Safety Council.

**HELPING KEEP OUR GUARD UP**—The General Electric Company here recently received the above certificate from the Military Department of the State of Indiana in recognition of cooperation in releasing employees for performance of military duty.

The following people donated blood during the week ending January 8: Victor E. Wiegand, Mrs. Alice Brockmeyer, Roy Gawthrop, Richard Gebert, Robert G. Gillum, Miss Josephine Hansen, Ross Harter, William H. Kayser, Eugene P. Kelsey, Frank B. Kilcoin, Gilbert M. Knaus, Robert E. Murphy, Miss Edith Oederkirk, Miss Shirley Ann Richard, Mrs. Betty L. Schoenherr, Donald L. Stearns, Mrs. Mildred Walkenstine, and Mrs. Lorhene Wilson.

Mrs. Alice Brockmeyer became a gallon blood donor.

No one is useless who lightens the burden of another.—Charles Dickens.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 19-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

**CLOSING DATE**  
Monday Noon, January 25, 1954

In cooperation with the Social Planning Council, the GE NEWS will not publish ads for care of children in private homes unless the advertiser first presents a license for such business.

#### LOST AND FOUND

FOUND—2 keys on chain with green coin holder.

FOUND—One brass key.

FOUND—Yellow gold link bracelet.

FOUND—Gold ear drop, found in Bldg. 26-2.

FOUND—Gold ear ring, 3 gold ring drops.

FOUND—Amber bead ear ring.

#### FOR SALE

1952 PONTIAC CHIEFTAIN DELUXE—Fully equipped. One owner. Excellent condition. Only \$1,695, H-01337.

HOUSE—Six-room house, newly decorated, reasonable, 4820 S. Monroe St., E-60504.

ANTENNA—Finco television antenna with Alliance Tenna Rotor and 30 ft. telescoping mast. Used short time, reasonable, A-68042.

LIVING ROOM SUITE—Three-piece; sofa, chair, tilting chair; moss green. Reasonable, 3003 Webster.

SEWING MACHINE—Not a rebuilt; portable electric Westinghouse, has all attachments; built-in motor; light, carrying case, dark walnut, excellent condition, A-39323.

RANGE—GE electric, 1950 model, Washer, both excellent condition, H-37833.

COAT—Dark blue gabardine storm coat, tweed coat, green corduroy jumper, peacock blue corduroy, purple and red taffeta, blue plaid gingham, blue broadcloth dresses, size 7, H-60951.

COMIC BOOKS—200 for \$4, A-59332.

ICE SKATES—Two pair, shoe, ice skates; size 6, \$6, H-19221.

FILE CABINET—Single drawer file cabinet; open storage racks, metal; used six ft. ladder; GE tank sweeper; 600 watt electric burner, K-9362.

FINCHES—Two Java finches with cage, H-75502.

CAR—1948 Ford Club coupe, radio, heater, good condition; \$495, H-65671.

HANDBOOK—Machinery handbook, 14th edition, never used, 1302 W. Washington, Apt. 2.

RODS—Traverse rods made to extend draperies beyond window frame, standard, like new, adjustable size, 32 to 52 inches. Underwood typewriter, in good condition, E-69171.

FUR COAT—Gray Norwegian fox fur coat, size 12, \$20. Brown opossum fur coat, size 12, \$25. Red crepe dress, size 14, \$5, H-20144.

DINING ROOM SUITE—16-piece walnut dining room suite. Will accept offer or trade for smaller set, R. L. Hamby, Jr., Abbot Center Road, 1 mi. west of U. S. 24, R. 6, Fort Wayne.

ICE SKATES—Pair ladies' Planert ice skates, size 8, Excellent condition, \$6, New Haven, 5293.

CAR—1952 Plymouth sedan, light green, 19,000 miles; perfect condition, 519 Colrick St., H-96673.

TWO BORMALS—Like new, worn only once, strapless with matching jackets and headpieces, size 110, Were \$35, now \$10 each, Northern back muskrat fur coat, \$75, A-98022.

ORGAN—Beckwith organ, excellent condition. Cut down to 42 inches, 117 Green St., New Haven, Tel. 5643, no toll.

RADIO—1948 Pontiac car radio, in excellent condition. Fits any '48' Pontiac model. Make an offer, H-59581.

TABLE—Breakfast table, 32 x 4 inch, oak top, 10 inch extra board, U-chrome legs; chairs if desired, A-55714.

CAR—1951 Chev. Tudor Deluxe; exceptionally good; clean throughout; low mileage; one owner; will sacrifice, K-1801 or A-19224.

CAR—1949 DeSoto Custom 4-door sedan; low mileage; excellent condition throughout; one owner; reasonable, 3914 Indian Hills Drive, H-4598.

HOME—Four-room, semi-modern home in Maple, insulated new roof, large lot; State Road 3, across from ball park and swimming pool. Inquire 513 West Fourth St., Fort Wayne.

CAR—1950 Studebaker, very good condition, new rubber, automatic transmission. Excellent car for woman driver, H-15140.

WASHER—Monitor apartment washer with wringer; excellent condition; twin tubs; new, A-79362.

FOR RENT  
APARTMENT—Two-room, furnished apartment, private bath and entrance, Near GE, College St. entrance, 1139 Jones St., 1987.

APARTMENT—Bachelor apartment, furnished, utilities paid, \$15 a week, E-1987.

APARTMENT—Three large rooms and bath. Range, refrigerator, heat furnished; share utilities. One block from Broadway plant, E-36275.

APARTMENTS—Two and three-room apartments, furnished or unfurnished. Close to GE, Inquire at Tropic Bar, 1619 Fairfield Ave.

APARTMENT—Upper, three-room, furnished apartment. Utilities included. Near GE, \$65 per month, 1335 Huestis, K-5056.

FOR RENT  
RIDERS WANTED—Columbia City to Broadway, 8 to 4:30 p.m. Dale Grigsby, Ext. 2133 or Columbia City, 260J.

RIDE WANTED—From Woodburn to Taylor St. plant, third shift, H. Fuhrman, Section 417, Taylor St.

RIDE WANTED—From Tillman and Deater Roads to Broadway GE, second trick, H-28355.

WANTED  
MANUAL—Factory service manual for 1948 Pontiac, K-1730.

BICYCLE—Boy's 26-inch bicycle with front wheel brake, good condition, A-99160.

HOME—Three or four bedroom older home, reasonably priced. Wanted to buy directly from owner, H-83115.

APARTMENT—Attractive, modern, two-bedroom apartment to rent, or four room unfurnished house by January 21. Reasonable rent. One child, E-32761.

BASSINETTE—Or small baby bed in good condition, H-44901.

CRIB—And mattress, Write or see D. Edam, 1126 Swinney Ave.

MISCELLANEOUS  
BABIES CARED FOR—In pleasant home, licensed. Infants up to two years. Close to Pontiac hus, H-0778.

THANK YOU  
To my foreman, Harry Chism, my co-workers, and other GE employees, I say "Thank you, for the enjoyable time I have spent with you and this company,"—Mae E. Jones.

We express our appreciation for the kindness and sympathy during the death of our son, Russel—John and Helen Mueller.

I would like to thank Div. 13 and the Volunteer Firemen's Association for the beautiful flowers and the expressions of sympathy on the death of my mother, Mrs. Caroline Stephan.—Don Stephan.

## 6-4 AIRLINERS

by Moe Satterthwaite

Who was that cute little fellow that Thelma Purdue was walking with down Broadway. . . Hazel Leonard is a gal that really has a rough time on Mondays. A week ago Monday when she came in to work she looked and looked for her card. Then she asked Jackie Keller if she might know where it was and Jackie said, "Did you drop it in the box?" Hazel replied, "Now Jackie, you know I wouldn't do that." Knowing Hazel like she does, Jackie walked over to the time card box, opened it, and there it was. This Monday, Hazel got up bright and early to get ready for work. She smelled the coffee in the kitchen and just as she turned around she fell over the coffee table. She turned off the coffee and went back to bed. . . Nelda Brenizer has been all smiles this week. She entered her dog in the Dog Show. It received 194 points and the winner received 198. She was so thrilled she bought another dog to train for next year's show. (Forgive me, Nelda, for calling your dog an "it." I forgot to ask what sex "it" was.) . . . Dorothy Ramsey has a parakeet that is afraid of the dark. If you should happen to be going by Dorothy's house at a late hour and a light is burning, think nothing of it as she leaves the light on all night for the bird. . . Frank Brindle has left our floor to work in Bldg. 4-3 and turned his old job over to Les Franke. Now Les will find himself arguing with himself. When he has a problem in Manufacturing he can say, "Go ahead, Inspection will pass it," and then when he receives the same problem in Inspection he can say, "Who let Manufacturing make something like this." He could even be a Dr. Jekyll and Mr. Hyde. . . The Harold Elys have a new boss around the house. His name is James William Ely and he is of the heavyweight class, 9 lb. 3 oz., arriving January 18. Best you keep him from watching those wrestlers on television, Harold, or he may start trying some of those holes on you. Congratulations, Mr. and Mrs. Ely. . . Mr. C. B. Smith is the latest to join the Armchair Theater. Mr. Smith says TV may be all right, but he has seen more snow on his screen than he has ever seen in a snowstorm. . . All together now, "Happy Birthday," Jake Tester, Lubadell Dowden, Bob Peace, Theresa Whitby, Christine Darling, R. Gunzinhouser, Thelma Purdue, R. Snyder, Dorothy Duff, Holby Mee, Elsa Fride, and Martha Beugnot.

## WINTER STREET JOTTINGS

by Alma Elliott

Marge Hubert has decided not to take any more advice concerning home remedies for colds after her experience with messy mustard plasters. Maybe her self-styled "doctor" should have more strongly emphasized the necessity of using dry instead of prepared mustard. . . Marketing is welcoming Bob Oliver, Bob Fallender, and Dixon Hemphill, newcomers from Lynn, and bidding farewell to Beverly Winans, who is returning to school at Indiana University. Best of luck to you, Bev.

The girls on the Specialty Line were wondering if they should pass out candy after a recent "big event." Anita Slusher brought a jar of guppies to brighten up the line and was surprised to find an addition to the group on her return from lunch. The "baby" was placed in a glass all by himself so as not to be eaten by greedy ancestors. . . St. Peter's Church was the background for a beautiful ceremony Saturday morning uniting Joan Vorn-dran, a popular Winter Streeter, and Robert Shoaff. All their friends wish to extend their best wishes for happiness. Joan received several presents from co-workers, including a toaster and a clock-radio.

How optimistic can you get? A thief took a liking to Johnny Rockhill's license plates and appropriated them for his own. Passing police objected to seeing the car without a license and fined Johnny. Even this could not discourage him. He said: "I have to buy new plates soon anyway." . . Congratulations to Virginia Roemer on her eleventh wedding anniversary. She treated fellow workers with candy.

After reading a sign advising: "Pay Your Taxes With a Smile," Dick Tholen tried it and says it doesn't work. They want money in addition. . . Lawrence Magsamen is the proud owner of a new bowling ball which, says his daughter, is guaranteed to give him scores of 700. Maybe Larry will be the next member of the News Sentinel 700 Club. . . The girls on the Hermetic Motor Line must "want to be alone." They now occupy one huge room all by themselves and have enough room left over to roller-skate during their lunch hour.

Ray Dumford recently played the main role in a "comedy of errors." He agreed to take son, David, and six friends to participate in the seventh and eighth grade basketball game against New Haven. After arriving back home he found that he was missing a passenger and drove back to the gym, blaming himself for leaving a boy in the cold and snow. After searching and failing to find the boy he called the child's home and found that after accepting a ride back with someone else, the boy was sleeping peacefully in his own warm bed.

Usually people smile when they receive their pay checks, but did you notice the grim faces last week? Maybe the tax forms which accompanied the checks explain why. . . Engineering personnel declare that they are going to wear smoked glasses on Saturdays if Bev Miracle doesn't quit wearing the Japanese pajama top he has been flashing. Bev denies it is a p.j. top. He says it is just one of the new informal shirts for men.

Pat Roehling is the latest member of the Liberace Fan Club. She hasn't noticed what instrument he plays, but his curly hair is "just adorable."

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

That was a nice article that Ora Martin wrote on the editorial page of the evening newspaper a while back. Thus with your jig-saw work, political endeavors, and minicement sales, you have been one smart fellow. . . Cal Marhenke took his wife and three youngsters to the Clyde Theater one Sunday. They all had to put on these special glasses, which you pay for. Then they decided it was time for pop corn. That cost some more money. Finally with the pop corn gone, there came a need for a soft drink to wet the whistle, which I'm sure wasn't on the house. Why don't you just buy a TV set for the family, Cal. You'll be money ahead. (It says here.) . . Jim Grogg left the office the other p.m. with a thought as to his appearance, and of course those two good time Charlies (Waltemath and Fisher) wouldn't for the world put Jim straight. He arrived home with his hat on backwards and all askew. It probably gave the little woman a jolt for a second when she first saw him. . . Clyde Enslin came to work with two different shoes on, and it wasn't because he dressed in the dark either. He has a thing-a-ma-jig (there's a medical word for it, but I can't pronounce it, let alone write it) on

his one foot, so he had to wear an old cut-out shoe. Oh shucks, why didn't you just work in your stocking feet, Clyde. . . So long to Dick Bodkins who is leaving us. Good luck in your new job. . . Little Boy: "Pop, can I have a nicker for an ice cream cone?" Pop: "No. Drink your beer and shut up."

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Dutch Wilson, now on retirement, will celebrate his birthday Sunday, January 24. Happy birthday to you, Dutch, and may you have many more. . . Mr. and Mrs. Cylus Shepperd are the proud parents of a daughter, Linda Kay, born Friday, January 15. The mother will be remembered as Dorothy, a former employee. . . TELEGRAPH: Happy birthday greetings to Joan Roesener and Delores Miles who will celebrate their birthdays this week. . . Welcome to Beverly Davis, the new girl in Telegraph. . . It was good to see Cholene Anderson, who paid us a visit last Friday. . . MAILING: Birthday greeting to Richard Bohde, who celebrated last Wednesday.

Fort Wayne has 28 public schools and 22 parochial schools.

"To show you how anxious I am to economize, I found this old checkbook and I've decided to make it do!"

## SHAFT SHAVINGS BLDG. 19-3 by Blanche Cowell

Congratulations to Mr. and Mrs. Frank Elder on the birth of a daughter, Jill Ann. She was born Sunday, January 10, at Parkview Hospital. . . . Herman Zuber doesn't seem to think much of soup for lunch. Sherry Varner asked to fix some for his lunch the other noon, but it didn't seem to have enough suds on it. . . . Elmer Wagner's desk will no longer bear the resemblance of what is left of a bargain counter, as Joe Kramer will transfer some of the work to his desk. Joe has just been appointed foreman of sheet metal and welding. We welcome him most heartily. . . . It's not always the gun that makes a good hunter. That was proven when Herb Wendt with a brand new gun and Kenneth Nulf with his old gun went hunting. Well, you can guess the rest. Kenny brought home the rabbits. . . . Toni Wichman received some important looking papers through the mail the other day. He was quite puzzled about them. So he took the matter to Mr. Reuss, who in turn called the sender, Dwight Myers, who cleared the matter up very quickly by telling Toni they were just some old papers that he could use for scrap. . . . Paul Gruber found out last Saturday night that the car has more control than the driver. It seems as though it wated to drive over the curb and run into some bushes. When it ran over the curb, it forgot to bring the front wheels along with it. . . . Ed Lepper came to work Monday morning with his hair standing straight up as though he was scared. The boys wondered if Jim

Kocher frightened him. . . . Everyone knows Curly McCormick is quite a fisherman. He went ice fishing over the week-end, but didn't have any luck. Ralph Root thought he could help him get over his disappointment by giving him a book to read, the title, "To Hell With Fishing," by Ed Zern. It has many cartoons to cheer him up.

## THISA & THATA BLDG. 4-3 and 4 by Helen Engle

Maurice Geary isn't one to be left out of Foreign Relations. He has been collecting papers from countries in Europe in their native languages and is trying to learn to read them. . . . Donald Bohrer spent the coffee money last week and kept the boys from having their coffee a couple of days. His life was pretty miserable until he brought some in. Lee Cupp wouldn't even lend him any money. . . . The reason for the big smile on Gladys Strong's face was that Ossian won the Wells County Basketball Tourney. . . . We all enjoyed the turtles Edna Houser gave us on the celebration of her birthday. . . . Clarence Fryock really enjoyed the movie at a local theatre the other night. She was sound asleep. . . . Maureen Brake is home from the hospital and is recovering from her operation. . . . Helen Boedecker is quite a bowler. She bowled 500 last week. . . . Edith Juillerat certainly is having the weddings in her family. Mitsi Juillerat will marry David Mitchell next Sunday at the Grace Lutheran Church in Columbia City. You've still got your baby, Edith! . . . Bernice Johnson and Malinda Behrman are both sporting new

short hair-dos. . . . John Figley says he has learned the "toad" language. He calls to his pet toad and it comes hopping right over to him. . . . Doald Wright and Clyde Sprowl are two new fellows in 1x20. . . . Wonder what the other fellow looked like? Howard Hubbard says he bumped his head, but we wonder! . . . Freeman White is on his vacation this week. . . . Harley Heckley says the Fort Wayne teams had better watch out, as Ossian is on the war path! . . . Section 401 Office is one big happy family since the factory office has moved into the main office. . . . Donna Crow is wearing a beautiful diamond ring. The lucky man is Jim Beck. . . . We're all glad to know that Bertha and John Piper are taking this winter weather in stride. . . . We know why Glen Schwartz was sick (oh, how we missed him) on Monday and couldn't make it to work. His team didn't win the Wells County Tourney. . . . Bill Weddfield has another new granddaughter. His thirteenth grandchild. Congratulations, Bill. . . . Congratulations are in order for the Buss Romary family. They have a new boy, their third! . . . Birthday greetings to Vickie Hyre, who celebrated on the eighteenth. . . . Fern Hollowell is in need for a bird doctor. Her parakeet is ill. It seems that Skippy has a cold and she is so worried. . . . Ardola Metker had her ego deflated the other day when she found out the man didn't remember her from 20 years ago. What I'm wondering, Ardola, is how could he forget you? . . . Rodger Williams sure is a lover of animals. At the cat show he got scratched, and at the dog show a police dog took after him. He might love them, but do they love him?

## SMOKEHOUSE SAYINGS BLDG. 22 by George Winans

Good-by and good luck to Dick Rodkins, who leaves us to go to work in Hermetic across the street. We hope you come back, Dick. . . . Welcome to two newcomers, Robert Oden and Jason Black. . . . Our sympathy goes to Al Klienrichart and his wife upon the death of her father. Our sympathy also goes to Art Thompson's father, who was seriously burned in an explosion. We wish him a speedy recovery. . . . Get well wishes go to Dan Ferguson's little girl, who is in the Wolf Lake Hospital. . . . We wonder if all of this activity in the Golden Gloves hasn't left Frank Newport a bit punchy? We hear that he couldn't even find his way home from Muncie. . . . Ferroll (Cupid) Hill is still getting the bugs out of his new car. It seems no matter how hard the manufacturer tries, he cannot turn out a car that is just right for Hill. There's always just a few minor changes that our hero has to make. Take the windshield washer for instance. The stream of water was not strong enough. So after a few minor adjustments, Hill opened the door, reached in, pressed the hutton, and splat, he got in right between the eyes. . . . Most all of us at some time or other have been irked by the horn-happy driver behind us in traffic. Mildred Messer and her husband are no exception. The other evening Mildred and Bert were driving their daughter, Sherry, to a downtown theater when one of these screwdrivers got behind

them. Each time they stopped, this guy not only played "Nola" on the horns, but he kept ramming in to them. Now Bert and Mildred have one of those new underslung Studebakers and the fellow behind them had a big Cadillac with a bumper that just about lined up with their rear window. At last they reached the theater and as they pulled over to the curb to let Sherry out of the car, the other fellow went on by. At the next light they found themselves behind the Cadillac. "Ah-ha," says Mildred, "ram him a good one, Bert!" "No, no," says Bert, "two wrongs don't make a right." "Well, at least blast the horn at him," says Mildred, but Bert being a peace-loving man, refused. "O. K., I will then," says our Millie and she proceeded to give the driver ahead a long and loud serenade. Well, it seems the other fellow turned out to be one of those guys who can dish it out, but can't take it for he climbed out of his car (all six feet of him) and came back to their car with the intention of wrapping the horn around Bert's neck. Well, Bert is just a little fellow, but when he gets mad he gets mad all over and he gave the big fellow a piece of his mind and the big fellow beat it back to his car. "My hero," said Mildred, "you surely scared him off." "Yea," says Bert, "and you helped too, when you got out of the car and rolled up your sleeves."

An Idaho potato married a Long Island potato. Pretty soon they had a little sweet potato, and when the little sweet potato grew up it said: "I want to marry Lowell Thomas." And said Mama: "You can't marry Lowell Thomas. He's a commmentator."

## IDEA AWARDS TOP \$60000

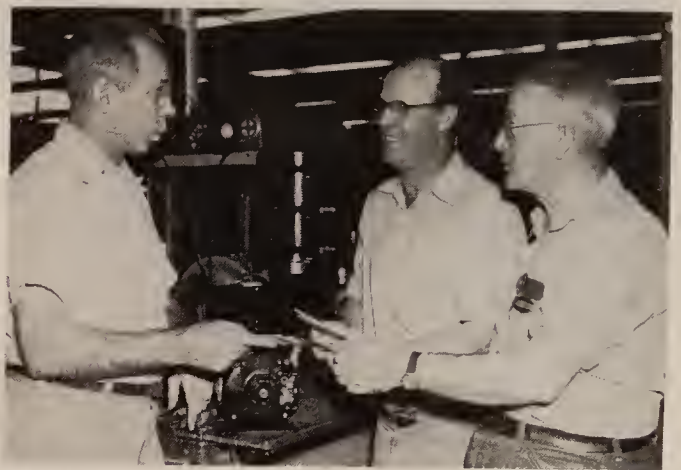

### 209 Suggesters On December List Share Idea Loot

A grand total of \$6,006.20 was paid to 209 Fort Wayne suggesters during the month of December, according to reports from department suggestion secretaries.

Topping the list were Yvonne Cecie, Bldg. 26-4, with \$1,700 and Russell James, Bldg. 26-4, with \$925. Both of these unusual awards were publicized previously.

Two Specialty Component Motor Department employes, Emmitt J. Owens, and Paulus Adams came through with flying colors. Mr. Owens earned \$295 for suggesting another spindle for use in the multiple spindle drill press which could be used in performing the burring operation in lead holes during motor casting. His idea eliminated burring as an extra

(Continued on Page 4)

**IDEA MAN ADAMS**—Paulus Adams (center) shows his idea which was worth \$290 to Cecil Tarney (left) and Leonard Jenne. Mr. Adams, Bldg. 4-5, eliminated a re-test operation by his suggestion.

**IDEA MAN OWENS**—Emmitt Owens (second from left) talks over his \$295 suggestion with (l-r) P. F. Peternell, Carl Sorenson, and Art Spoerhase. Mr. Owens is a drill press operator in Section 417 at Taylor St.

## Junior Achievement Week Features Open House, Fair

In conjunction with the observance of Junior Achievement Week, Jan. 31 through Feb. 6, an open house and trade fair will be conducted at the Gaskins Building, 122 W. Washington Blvd., main floor.

Open to the public, the trade fair will feature exhibits of products manufactured by JA companies and introduce the public to the student members of the organization and its aims and purposes.

Hours for the open house are Sunday, 2:30 to 7:30 p.m., and Monday through Saturday from 4:30 until 8:30 p.m.

On behalf of the board of directors, Ab Martin, president of the JA board, has issued an invitation to employees to visit the exhibits to learn of the work being done by Junior Achievement in the community and of the accomplishments of the high school members.

Organized by local businessmen in Fort Wayne last year, the local JA center is one of many found in almost every state of the Union. JA answers the riddle facing high school graduates, "How do I get experience to get a job when I need a job to get experience?" It accomplishes this by giving practical pre-business experience to high school students between the ages of 15 and 21. The students organize companies within the JA center and offer a product or service for sale. They learn every fundamental phase of business. Each

## Educational Scholarships, Loans Available for 1954-55

Employees and children of employees may apply now for educational assistance for the 1954-1955 academic year. Some 70 scholarships of \$500 each are available and 30 loans of \$250 each.

To be eligible for financial assistance for themselves, employees must have completed at least one year of continuous service with the General Electric Company. Where children of employees desire assistance, a parent must have completed at least five years of continuous service with the company.

The scholarships and loans are granted for use in any accredited U. S. college or university, as long as the course of study followed leads to a recognized degree. Recipients are selected on the basis of character, scholastic standing, financial need, and general merit. Loans are repayable at low rates of interest after the student leaves school.

This is the 30th year that the company has offered such aid to those working for college degrees. In that time, more than \$325,000 have been awarded in educational assistance. Last year four sons and daughters of employees received assistance in this area. They were Donald L. Rife, studying medicine at Yale University; Florence A. Ford, studying nursing at Fisk University; Jerry D. Pontius, majoring in chemical research at DePauw University; and Shirley A.

(Continued on Page 4)

**JA OPEN HOUSE** plans are discussed by Ab Martin, Bldg. 18-3, president of the Junior Achievement board of directors; L. C. Swager, Bldg. 18-2, vice-president of the board, and William Kennedy, executive director of the center. The open house and trade fair are scheduled for next week.

## Educational Help Is Available

This year, as in the past 30 years, the company is again offering financial aid in the form of educational assistance at the college level to qualified employees and their children.

Come June 1, about 100 young men and women from all over this country of ours will be notified that they are recipients of a GE scholarship or a loan. These GE employees or their children will enter a college or university of their choice. They will pursue a course of study which they have chosen. General Electric in awarding this educational assistance makes no stipulation as to where or what a student should study, except that the course lead to a degree at an accredited college. Scholastic standing, character, financial need and general merit are the deciding factors. In the customary American fashion, competition is keen. If one of your children is entering college, have him or her file an application blank. Should you need financial assistance to complete your own education, you may apply for this assistance.

Be assured that your own application or that of one of your children will be given every consideration by the selection committee.

## The Voluntary Way

Europeans visiting the U. S. often are puzzled by our voluntary health and welfare organizations. They are used to the provision of health and welfare service by governmental action. Voluntary organizations, such as the National Foundation for Infantile Paralysis supported by the March of Dimes, are unique in the community of nations and strange to most foreigners.

Perhaps we should consider why this is so. As our forefathers shook off the shackles of feudalism and set out for the new world to build a nation, they realized there were problems that could be solved only through voluntary group action. As understanding of their new-found dignity and rights increased, they realized that free men had responsibility to help the less fortunate and to lessen human suffering.

We began to take pride in caring for our own within the pattern of our own society. This was reinforced by common hardship suffered in our pioneering days. But it has been only in the last 25 years that we have made vast strides through voluntary health organizations to combat disease, to educate the public and to provide voluntary care for those unable to pay the costs of available treatment.

One reason for the growth of such organizations as the National Foundation is that our Government evolved slowly and there grew up a tradition of voluntary action to solve such problems, instead of relying on governmental paternalism. There have been increased government activities in the field of health, too, but it has not replaced the voluntary organization in filling many needs of the people.

Americans believe there is room for both governmental and voluntary programs in the field of public health. No democratic government, however, can successfully force its citizens to band together to take care of their fellow men.

Such attempts would result in bureaucracy, impersonality, inefficiency and failure. The voluntary organization voluntarily formed can operate efficiently and inspiringly. Through this medium men develop initiative, dignity and a certain nobility. Such organizations provide an arena of action, a place where the individual's voice can be heard and an incentive to demonstrate his good will in the most effective way.

The March of Dimes is one such organization. Through its 3,100 county chapters it is a "grass roots" organization, dedicated to wiping out polio and providing the best possible care for all needy polio patients. In the meantime we all can take pride in supporting such a voluntary organization of "free men" dedicated to serving each other.

During the 1954 March of Dimes, remember that its spirit of voluntary cooperation is one of the great and unique strengths of our nation.

## What's All This About Alcoholism? IV

### THE WAYS TO RECOVERY

Recovery or rehabilitation, rather than cure, is always referred to in the treatment of alcoholism, for there is no cure—at least to date. A cure would mean that the compulsion or drive underlying alcoholism would be removed. It also would mean that the victim could safely resume drinking without any damage to self or others.

All evidence, thus far, rules out the possibility of an alcoholic ever becoming a controlled drinker. Once an alcoholic, always an alcoholic, just as the diabetic always remains a diabetic. Both can and do recover, but it is a conditional recovery. Neither can ever forget what must be done to maintain recovery.

Treatment of alcoholism consists of stopping the drinking, getting the patient in good physical condition, and then guiding him out of his wilderness of despair in which he has wandered so long. He has to be helped to see himself as he is, not as he thinks he is. Sobering up the drinker is only a minor part of the over-all task of treatment.

#### Put In Doctor's Hands

In all cases of acute alcoholism, it is best to place the victim in the hands of an understanding physician. After a complete physical and laboratory check-up, the doctor will be able to determine if there are any serious organic ailments present which might be contributing to the drinking urge. Or he may decide that the excessive drinking is due to unusual emotional strain and stress. All of these factors must be considered in determining treatment recommendations.

There are many treatments available for alcoholism. However, no one of the methods is the answer to all cases. Among these therapies are: Alcoholics Anonymous, psychiatry, clinical care, institutional confinement, religious conversion, aversion treatment, or some other control treatment. The seriousness of one's condition, his financial state and the general background of the alcoholic all play an important role in selecting treatment procedure.

Psychiatric treatment helps the patient to understand his real problems, to understand himself in relation to these problems, and then to help himself. The psychiatrist becomes a medical explorer, father confessor, friend and advisor. He helps the patient to remove the snags and blocks of the mind which have prevented him from being a happy, useful person. This treatment reduces the patient's urge to prefer alcoholic unreality to sober reality.

#### State Clinics

The clinic approach is fast becoming a standard practice in states where alcoholism is rightly viewed as a community health problem. These state-supported clinics are staffed with understanding personnel, skilled in handling every phase of the alcoholic's personality problems and the factors having any influence on them. Clinics are helping many victims heretofore neglected. Jails and workhouses have failed miserably as remedies. Punishment merely aggravates the condition of

any ill person.

Of all the known treatments of alcoholism, that of Alcoholics Anonymous stands out as the most effective, most dramatic and most available for the greatest numbers. It is a source of unusual inspiration and guidance for those needing and wanting help with their drinking difficulties. The history of A. A. is packed with exciting chapters of recovery for thousands of alcoholics—rich and poor, men and women—once exiled beyond all hope of help.

There is no cost to this treatment—only the sincere desire to do something about one's uncontrolled drinking and disordered living. The door is open to any man or woman who has come to the conclusion that alcohol has interfered with one's life, or threatens to.

#### Benefits of A. A.

The program of A. A. is based on the experience of alcoholics, together with what has been learned from medicine, psychiatry and the principles common to all creeds. A. A. is not a group of reformers, crusaders, or "holier-than-thou" characters at war with alcohol, its distillers, dispensers or drinkers. It exists solely for the purpose of helping those who want help. Anyone may call A. A. for assistance, but it is essential to remember that the person needing the help must be sincere in wanting it. The sincerity of the victim's family or friends won't count if the alcoholic isn't sincere.

There is no disgrace in seeking help when one finally admits that he or she is an alcoholic. To admit it is to be courageous, and it marks the beginning of the end to the disgrace which has undoubtedly been attached to one's drinking career. In trying to recover what one has lost through years of uncontrolled drinking, it usually happens that one gains more than he or she ever had. That is what happens to thousands of men and women in A. A.

The road back to sobriety and sanity, usefulness and happiness is not always a smooth one. Where there is life, there will be troubles. The alcoholic must always be alert to his personality weaknesses, lest he return to his disordered way of thinking and acting—the formula for a return to drinking.

The alcoholic must be convinced that alcohol for him means an impossible, unhappy way of life. He can never forget that moderate drinking for him is an impossibility. Sober reality must be preferred to alcoholic unreality at all times. Complete honesty with self and others is essential to maintain correct thinking as against the old incorrect thinking in drinking days.

#### Self-Controlled by Judgment

To assure sobriety, one must learn to handle success as well as

## Your Job

Wherever you're working—in office or shop,  
And however far you may be from the top—  
And though you may think you're just treading the mill,  
Don't ever belittle the job that you fill;  
For, however little your joy may appear,  
You're just as important as some little gear  
That meshes with others in some big machine.  
That helps keep it going—though never is seen.  
They could do without you—we'll have to admit—  
But business keeps on, when the big fellows quit!  
And always remember, my lad, if you can,  
The job's more important—oh yes—than the man!  
So if it's your hope to stay on the shelf,  
Think more of your job than you do of yourself.  
Your job is important—don't think it is not—  
So try hard to give it the best that you've got!  
And don't ever think you're of little account—  
Remember, you're part of the total amount.  
If they didn't need you, you wouldn't be there—  
So always, my lad, keep your chin in the air.  
A digger of ditches, mechanic or clerk—  
Think well of your company, yourself, and your work.

—Selected.

## SHAFT SHAVINGS BLDG. 19-3

by Blanche Cowell

Anyone not receiving the score of the All Star basketball game, ask Roy Prince. . . . We have a new Clark Gable of the West End. He is none other than Herb Wendt with his new mustache and all. . . . Any kind of advice is given freely by Hubert Risser. Don't be afraid to ask for it. . . . We wish a happy birthday to Herman K. Zuber, whose birthday was Jan. 21. Do you and Jack Benny have anything in common, Zube? . . . We welcome Darwin Klenka to Sheet Metal. We hope he will like it here. . . . Everyone knows Otto Pfeuger isn't a farmer yet. He was looking over the sale items in Maynard Spade's farm sale. Wonder what he had in mind? . . . Frank Kartholl got a new-fangled do-funny to hold his phone on his shoulder while he talks. The boys surely gave him a ribbing about it. You know, Frank really needs something like that to free his hands so he can talk. . . . We were very sorry to hear of Ed Lepper's wife's accident. She was struck by a car and injured very badly. She is in the Parkview Hospital. We wish her a very speedy recovery. . . . Congratulations to Elmer Warner. He has a new granddaughter, 7 lb. 3 oz., born Jan. 26.

failure and control self by judgment, rather than emotion. Self-criticism should always be preferred to criticism of others. The wise person will try to understand rather than always insist on being understood. Since worry is a most plaguing factor in the alcoholic's makeup, he should worry adequately about troubles at the right time rather than inadequately all the time. The alcoholic must never expect a medal or halo for having stopped drinking, even though some may feel that his stopping was a miracle. He should learn to concentrate on what he is doing rather than on what he is going to do next. Impatience is fatal.

Last, but not least, it should never be forgotten that but for the Grace of God, a recovered alcoholic is only one drink away from a drunk, disaster and despair.

The alcoholic can be helped and is worth helping!

# Company Spends 30% More On Employee Benefits Than Plants, Equipment in 1952

NEW YORK, N. Y.—The \$160 million which the General Electric Company spent in 1952 for employee benefits was 30 per cent more than it put into plants and equipment in the same year and amounted to a cash outlay of \$734 per employee, a GE executive said here recently.

Addressing the New York Personnel Management Association, E. S. Willis of Schenectady, GE Manager of Employee Benefits Planning, urged industry to help employees re-establish a feeling of individual responsibility for their own security. The problem must be tackled with the same ingenuity that has made all of industry's products available at less cost to the American worker than any nation in the world, Willis said.

Citing the steps which individuals already have taken to provide for their own security, he lauded them for increasing investments in life insurance and for other investments and savings.

### Problem of Security

He said President Eisenhower touched on the problem of security in his message last week on Social Security, when he said that private and group savings, insurance and pension plans fostered by healthy, fully functioning economy are primary means of protection against the economic hazards of old age and death but, in addition, a basic nation-wide protection against these hazards can be provided through a government social insurance system.

Willis said it is perhaps necessary for government to provide a basic minimum level of income but at no time should this basic minimum ever be permitted to become more than that.

Warning that no one program will be equally sound and good for all companies, he urged plans which will meet the real needs of employees by helping them in the emergencies of life; plans which will pay a return to the owners of the business on the money invested by improving productivity, and morale, reducing turnover and increasing loyalty.

### Key to Encouragement

"In my opinion," he said, "the selection of the exact benefits and the amount of such benefits is perhaps the key to the encouragement of individual security by employees. I cannot but believe that any plans which pay costs one hundred per cent or, presumably do that, do more to destroy the individual's feeling of responsibility than anything else except much of the literature that is put out. Costs will continue to mount until we can finally educate employees into the feeling and understanding that they have a certain amount of responsibility for themselves."

Mr. Willis said, "Every effort should be made to insure that government plans, whether by Social Security or unemployment, provide only a minimum layer, that plans provided by companies should be designed to help the employee break the back of the costs and the

## THISA & THATA BLDG. 4-3 and 4 by Helen Engle

We are certainly glad to see Bea Davis with a new apron on! She was really in bad shape last week. She has two aprons and both were in the wash. . . . Guess we'll have to get Helen Boedecker and Freda Farley to disclose their hiding places. They had a field hidden two days and they couldn't even find it themselves. . . . Buelah Emler surely is getting lazy. She calls the grocery which is two doors away and has her food delivered. Good idea, Buelah! . . . Irene Kregger was absent last Monday morning because she had to get her little boy started in school for the first time. . . . Everyone has seen Irene Halley's picture at the Clyde but Irene. It is in a photo exhibit. . . . Julia Hohnhaus entertained her little grandchildren from Bloomington over the week-end. . . . Why is it that the bachelors all want to be mascots for the next Elex trip. We hear that Maurice Geary is interested. . . . Jerry Pierce went ice fishing and only caught one fish. He couldn't have been at Crooked Lake because they were really biting up there. . . . Holly Lynne has made her appearance at the Hank Wiegmann home. Good luck to the new baby and congratulations to the parents. . . . Donald Wright is so new in 1x20 that Lloyd Jacobs didn't even miss him. The way he gets around, his ankle just couldn't have been broken. . . . John Figley says he has named his pet toad after his best friend, Sam Taylor. . . . Since Ed Kirschner has moved out to the farm he says the dogs are after him. We don't think it is a dog, but it must be a wolf. . . . That cute picture on the calendar hanging behind Harry Meyers is a picture of him when he wore blond curls. He is also proud of his sister whose picture was in the paper recently when she became a Major in the Army Nurse Corps. down at Houston, Texas. . . . Congratulations to Elihu Lee who celebrated his 25th anniversary with the GE. . . . Babe Donahue has a new GE television. She says she got it so her granddaughter would come and see her once in a while. . . . Whitey Schmenk has a GE television too. . . . Louie Barrows says he might stay at home a little more now that he too has a GE TV set. . . . We wonder why Ed Robbins was an hour late last Friday. He says he was shaving and cut his lip and the bleeding wouldn't stop, but what would that have to do with the backache he had at noon.

employee should understand that he has a responsibility to provide part of the costs himself. Administration should be as simple as possible in order to speed up operation to make the plan effective and to keep the cost at the lowest level possible."

# Air of Mystery Surrounds Elex Party Feb. 8; Reservations Due Thursday

"Come to the party to get the facts, Ma'am," is the advice Elex Club officers are giving on their announcements of the club's Monday, Feb. 8, party. Named the "B & B" party, the meeting will take place at the GE Club, Voyce Brumbaugh, president, reported this week. Dinner will be served beginning at 4:45 p.m.

Attendance prizes will be awarded also. Other details of the party have not been announced by the officers, who are in charge of arrangements.

Tickets are \$1.25 per member and may be secured from contact girls. Reservations are due by Thursday, Feb. 4.

Reservations for the Elex one-day trip to Chicago should be made by Feb. 12 and all payments should be completed by Feb. 19. The trip will be on Saturday, Feb. 27 and will cost \$7 for members and \$8 for non-members. This includes round-trip train fare and transportation from the Chicago station to the city's center.

The train will leave Fort Wayne at 7 a.m. Feb. 27 and arrive in Chicago at 9:30 a.m. It will leave Chicago at 10:30 p.m. and return to Fort Wayne at 1:30 a.m.

Miss Brumbaugh also reported that a shipment of Easter toys has been received by Elex and is now on sale through contact girls, at the Elex counter in the Bldg. 8-1 Employee Store, and in the office of Veora Habig, Taylor St. The club also has steak and paring knives for sale.

OFFICIAL ELEX INTERPRETER—Principio Rosucci, of Section 113 at Taylor St., was called upon last week by the Elex Club to translate reports from Italian newspapers on the club's trip there last summer. Mr. Rosucci, who was born in Italy, quickly read the girls glowing reports on their adventures in Rome last summer. Margaret Schneider, Bldg. 31-2, who was one of the women mentioned in one of the articles, is shown with Mr. Rosucci.

## Reservation Deadline Today For Foremen's Feb. 3 Meeting

Today is the deadline for making reservations for the Foremen's Association Feb. 3 meeting, Leonard G. Reuss, president, reported.

Tickets for the dinner meeting are \$1.00 per person and may be secured from contact men. The meeting will take place at the Southwest Conservation Club beginning at 6 p.m. A steak dinner will be served.

## Apprentice Alumni Announces 1954 Events Calendar

The Apprentice Alumni Association calendar of events for the current year was announced this week by Walter Buesking, Winter St., president.

Starting out the club year, members will have their annual spring banquet Tuesday, Feb. 16, at the Southwest Conservation Club. Igor Buketoff, conductor of the Fort Wayne Philharmonic, will be the guest speaker and will present a humorous talk. A steak dinner will be served.

Mar. 11, the group will attend the Zollner Piston-Rochester Royals professional basketball game at the War Memorial Coliseum.

Apr. 2, a fish fry will be staged at the Southwest Conservation Club. Lowell Mason will present a travel talk and show pictures illustrating it.

Apr. 27, a Civic Theater party has been slated. The play, "Lo and Behold" will be attended by mem-

## 8,600 Members Invited to CU Annual Meeting

All members of the Fort Wayne General Electric Employee Credit Union are invited to attend the annual meeting this evening in the GE Club. The meeting will begin at 8 p.m.

Business before the group will include recommending of dividends by the directors and voting on them by the membership present. Annual reports of the board of directors, credit committee, and supervisory committee will be presented also.

Election of officers to the three committees will be conducted. Attendance prizes will be awarded, Lee Cupp, secretary-treasurer, reported.

More than 8,600 employees are members of the Credit Union at present. By attending the meeting, each of the members will have an opportunity to acquaint themselves with the operating procedures of the organization.

Beginning next week, members may take in or send in their pass books to the Credit Union office at 1021 Swinney Ave. to have dividends recorded in their books. In announcing this, Mr. Cupp asks that everyone sending in their pass books make certain to include their return address by building and floor to insure a quicker return of their books.

The annual election of officers will be conducted. C. Lane Breidenstein, manager of the city's Better Business Bureau, will be principal speaker. A program of entertainment has been planned and refreshments will be served.

Candidates for office in the election are:

### President

William L. Paulson, Bldg. 19-5  
Carl J. Metker, Bldg. 6-4

### Vice President

Lawrence Chesterman, Bldg. 4-5  
William Rodocker, Bldg. 20-1

### Secretary

Freeman Rohlfing, Bldg. 26-1  
Emmet Zollinger, Bldg. 19-2

### Treasurer

Neil Allen, Bldg. 4-1  
Robert Barnes, Bldg. 12-2

### Director

Carl Hattendorf, Bldg. 17-4  
Al Rieman, Bldg. 26-3

bers.

May 12, a tour of International Harvester's engineering department will be taken.

In June a special event has been planned. Details will be announced later.

BING CROSBY—WANE

7 p.m. Sunday

GATESWAY TO SPORTS—WKJG

6:15 p.m. Monday through Friday, featuring Hilliard Gates.

February 14th is more than a date on the calendar to Beverly Wills and Tom Peters, who supply a new, live love interest on "I Married Joan," starring Joan Davis, over NBC-TV. Beverly, really Joan Davis' daughter, and personally young Tom Peters, are a St. Valentine's Day natural.

## Waring Show Features Songs of Love

Fred Waring and his Pennsylvanians will present a musical program about "Love and the Heart" on their General Electric TV program this Sunday, Jan. 31. (WKJG-TV, 8 to 8:30 p.m. CST.)

Among the songs to be heard on the program will be "Just One Way to Say I Love You," with Joe Marine and the glee club; a rendition by all the Pennsylvanians of "Hooray for Love"; and in their third successive guest appearance on the Fred Waring Show, the exciting new "Teen Trio" will sing the again-popular old favorite, "Heart of My Heart." Soprano Bernadine Read sings the beautiful "All of a Sudden My Heart Sings"; Tom Waring's "So Beats My Heart" will be sung by tenor Bob Sands and soprano Frances Wyatt and Gordon Goodman and glee club join in the lovely "So In Love." The orchestra and glee club will also join hands in an "I Love You" medley.

As an added feature on this week's program, Fred Waring will introduce as his special guest, Miss Wynne Miller, a beautiful young songstress who makes her TV debut with this appearance. Although the 24-year old singer has sung with the San Francisco Symphony Orchestra, she is still a relative newcomer to the entertainment stage. Her voice range and natural poise, however, give her the qualities of a seasoned veteran performer.

## Garroway to Advertise GE Picture Tubes Beginning March 2 on His Morning Show

General Electric on March 2 will begin advertising its "aluminized" TV picture tubes on "Today," the NBC Dave Garroway morning show, it was announced today.

A. L. Champigny, advertising manager for the GE Tube Department, said the program is carried by 50 stations in the Eastern and Central time zones, and covers a majority of the most concentrated TV market areas in the country.

He said the GE contract calls for one-minute live and filmed commercials five days in every ten on Garroway's week-day shows. The commercials will stress a popularized approach to features of the "aluminized" picture tubes.

These feature a reflective metal coating on the inside of the picture screen, to increase light output and improve picture contrast. GE makes the tubes for both initial equipment and replacement use, in screen sizes from 10 to 27 inches.

The Tube Department contract for the Garroway show calls for one nine-week telecast series beginning March 2, and another nine-

week series beginning in September. Champigny said provisions will be made for service dealers in the telecast areas to run a local sales message immediately following the network commercials.

He added that the local commercials are part of a broad plan to give local service dealers every opportunity to capitalize on the network show. In the "aluminized" tube promotion kit for dealers will be such items as window streamers, counter displays, and mailing pieces, he said.

The Garroway program is initiated in New York. It is carried on Eastern time zone stations from 7 to 9 a.m., Mondays through Fridays, and continues for another hour to fill the same program time on Central time zone stations.

Maxon, Inc., advertising agency for the Tube Department, arranged the Garroway series, Champigny said.

GE has been producing the "aluminized" picture tubes since 1946, and has stressed their advantages strongly during the past year in both consumer and trade publication advertising.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

The favorite topic of conversation around here seems to be about this Liberace. I wouldn't get too hepped up about him girls, because I hear that his piano playing comes before anything else in his life. (I'd play second fiddle anytime to a Baldwin.) . . . Our friend, Frank Newport, has been gracing the television screen here of late on the sports program with his commentaries on boxing. Bet there's just no living with Frankie boy for the Assembly fellows now. . . . Lost: one pair of snazzy red frame glasses by Ora Martin. . . . Cal Marhenke says that from now on when he comes into our office he will keep his mouth shut. Now Cal, don't be that way. How am I supposed to keep a column going if you people don't give with the news. . . . Jim Blake was complaining about his chickens not laying of late. Why don't you invite them in to watch television? The eggs some of these people on certain TV programs lay might get them in the mood again. . . . Art Braun has been reading up on the latest calorie books. H'm.

## FG MOTORS

by Mary Wright

On the sick list this week are Thelma Lacy and Jimmy Moore. We hope they are back with us soon. . . . The stork presented the Victor Rereron's with a baby girl the day after New Year's. The father is back on the beam. . . . Our floor is almost vacant this week with all the moving taking place. We hope everybody is back soon. . . . Bob George must do a lot of sleeping while he is at it. He says he needs a wrecker to get him out of bed in the morning. . . . Claire Otis, our new boss, was seen coming to work wearing a red cap. Everybody is wondering if his hobby is horseback riding or if the cold weather called for such apparel. . . . Jay Burris says he has been so busy changing machines that he hasn't had time to shave. It is just as well, Jay. You look good, anyway.

## Specialty Trans. Leases Bldg. For Manufacturing

Manufacturing space for the Specialty Transformer Department has been secured with the signing of a long-term lease on a building at the northwest corner of Hanna and Wallace streets. The announcement was issued this week by Carl H. Rinne, general manager.

Securing this space is the first step in a long-range program planned by the department to completely modernize its factory area and to provide capacity for future production forecasts.

The newly-secured building will be known as the General Electric Company, Hanna Street plant. It will be the first of the department's self-contained manufacturing areas and will house most of the facilities for M&D transformers.

Plans are to have the first unit in operation some time this summer, Mr. Rinne stated. He added that immediate steps are being taken to make necessary alterations on the building, which is an L-shaped structure.

## Junior Achievement

(Continued from page 1)

of the 22 companies in the local center is sponsored by a city business concern. Five of the total companies are sponsored by Fort Wayne General Electric departments. Employees from these departments donate their time to advising students of the companies.

The JA center operates during the school year and is looking forward to expanding in size in coming years.

The students, who are called achievers, have done the planning for displays of their company products at the open house and trade fair. They will be on hand also at their exhibits to personally show the public what they accomplish by working together in JA.

For more information on GE sponsored companies in the center, see pages 6 and 7.

## Educational

(Continued from page 1)

Dickison, majoring in education at Ball State Teachers' College.

Applications for financial assistance may be procured from the office of R. D. Hodell, Bldg. 16-3, or from employee relations managers. Decatur employees may obtain blanks from John Welch, plant manager. Additional information may also be obtained from these people.

Complete applications must be filed with your department employee relations manager by April 1. Announcement of successful candidates will be made about June 1.

Employee relations managers are: Specialty Transformer Department, Stephen A. Capps, Bldg. 26-2; Small Integral Motor Department, Alan C. Lord, Winter St.; Hermetic Motor Department, Joseph P. Orbin, Bldg. 2-2; Specialty Component Motor Department, Walter H. Sunier, Bldg. 4-6; DC Motor and Generator Department, R. M. Hartigan, Bldg. 31-1; General Purpose Component Motor Department, Charles E. Slater, Taylor St.

## 209 Suggesters

(Continued from page 1)

operation. Mr. Owens is employed in Section 417 at Taylor St.

Mr. Adams, Bldg. 4-5, eliminated a re-test operation on motors by a suggestion which led to some engineering changes.

An award of \$150 was paid to W. D. Gaston, of Section 417, Taylor St. Mr. Gaston suggested that slot wedge material for stators be thinner and thus make considerable savings in material.

Harry E. Lehman developed a new design for a lifting eye which allows the use of a cheaper packing box. He received \$150 for his idea. Mr. Lehman is employed in the Specialty Transformer Department.

A suggestion check for \$110 was presented Charles Griffith, Bldg. 4-3. He suggested that the balancer identification stamp be attached to the hammer. His idea reduced time required in stamping parts after balancing, since it was no longer necessary to hold both the stamp and the hammer.

There were two \$90 awards, both in the Specialty Component Motor Department. Richard Young, Bldg. 4-5, received \$90 for suggesting that the outside diameter of brushes in motors be machined to allow more clearance in the holder. His idea keeps the brush from binding and reduces trouble in running in the brushes.

The other \$90 award went to Warren Locker, Bldg. 6-4. He saved test time and improved the motors by suggesting a new type of testing fixture, which requires less adjusting and shifting to get a better brush "run-in" on motor tests.

C. W. Sterling, of the Wire Mill, earned \$75 for suggesting that glass wire be salvaged instead of scrapped. Merritt D. Myers, also of the Wire Mill, is \$65 richer because of a suggestion to add a bar to the oven and thereby reduce scrap.

Marion E. Oman received an additional award of \$60 for a previous suggestion to move a lathe in order to reduce handling time.

There were three \$50 awards during December. Elmer C. Witte suggested that a burring fixture similar to one already used for burring drilled holes in coves and flanges be made, thus producing a better quality of work and some saving of time. Mr. Witte is employed in the DC Motor and Generator Department.

Myron C. Auer, of Section 113 at Taylor St., received his \$50 check for an improved method of making winding steels.

A third \$50 award went to Richard L. Bucher, Bldg. 4-3. He suggested that the cutting edge be ground on a radius, thus providing a larger cutting surface area and increasing the life of certain carbide lathe tools.

The following people received awards ranging from \$25 to \$50: William Fowler, Bldg. 26-4, \$40; Roy Berdelman, Bldg. 4-1, \$40; Betty Bold, Taylor St., \$40; Willard H. Smith, DC Motor and Generator, \$35; Morris A. Peters, Bldg. 4-3, \$35; Elwood Johnson and Lyle Tarlton, Bldg. 26-1, \$30; Carl Zick, Bldg. 6-1, \$25; Ora V. Martin, DC M&G, \$25; Dwight Little, Decatur, \$25, and Elmer W. Sherbondy, Section 111, \$25.

There were 183 awards of under \$25 in amount.

# from the panel's point of view...

This week's panel consists of four employees who are active in Civic Theater and Light Opera productions in Fort Wayne.

## Today's Question: SHOULD MOVIES BE CENSORED, AND IF SO, BY WHOM?

Vivian Peden Bldg. 18-2: "Since all first-rate and almost all second-rate movies receive seals of approval from and are given classifications by the Motion Picture Association of America and the Legion of Decency, I think movie censoring should continue in the form that now exists. The controversy between Ohio and New York and the courts was over two movies which had neither seal."

Emanuel G. Stock, Taylor St.: "I believe movies should be censored by the Breen Office, and any they pass, which may be a bit risqué, should be marked, 'not recommended for anyone under 21 years of age', or some similar warning. Courts or states should not be empowered to ban a movie unless it is detrimental to our national security."

Jeanne Dangler, Taylor St.: "I believe this refers to the moral side of censorship and not religious differences. The movie industry should write a code of morals that would pre-censor script and filming before production. The Breen Office should then review the film. In some cases, however, it would be necessary for the states to make the final censorship."

Thomas H. Krigbaum, Taylor St.: "I believe the responsibility for publicly acceptable censoring lies primarily with the movie industry itself. However, if the industry's censorship does not come up to the public's demand for morality, or if the industry cannot keep the individual movie producer in line, then the public's voice should authorize our representative governments to see that moral protection is given to the movie-going family."

## DECATURITES

by George Laurent

One of our alert operators jotted down some of Agnes Nesswald's last remarks before retiring, twisted the words into a poem and presented it to the GE NEWS unsigned:

When we were planning this party, you know,  
I said to Leonard, "In the Office you go  
And bring back all the information  
When Agnes was hired and the operations  
That she worked at all these many  
years  
For she was not always a repair girl,  
so it appears."

When he came out again he looked so sad;  
Said, "The news I've got is awful bad.  
I couldn't find any record and said to  
Julie, "By heck,  
There's nothing here so a person can  
check.  
Not even a code number; so you can see  
I'll catch it from Erna, oh woe is me."  
Said I to him, "From all indication  
It will have to be hearsay and fabrication."

We found out she started working  
in 22  
And was included in some lay-offs too.  
Stood many years at a winding machine  
She claims that this kept her figure  
lean;  
Came the time she was fingerprinted  
With others when necessity demanded it;  
When the photographer said, "Now grin"  
She later wore that picture on a pin.  
Displayed it when she reached the gate,  
Or else came back at a later date.

Now when she wants her muscles to  
harden,  
She intends to work in her rose garden.  
When she gets tired from mowing the  
lawn,  
She need not rise next morning at dawn.  
There will, of course, come a time we  
know,  
When she will be shoveling snow.

Agnes, retiring means you now have  
the time  
To read a book, or write a rhyme,  
Your days need not be dull and void  
Just because you no longer are employed.  
Since you are a Quarter Century member  
We will see you again next September,  
And what had been promised you long  
ago  
Came from Jay Moser, oh ho ho!

Now Friday came the day to part,  
And we could all hear her remark,  
"I will give all my things away,  
That have accumulated from day to day."

"I happen to have for Leonard Meyers,  
A pin point and a duck bill pliers.  
To Edna Callow, I give my shears—  
They will be good yet for many years—  
Since Alma Fruchte is no millionaire,  
I shall will her my easy chair.  
To Lorena Keller, I'll give half my  
lunch,  
Because she is such a 'honeybunch'  
I have next for Harriet Pollock,  
This meter box and my mallet.  
I have for Helen Britzenhofe  
A pencil and some other stuff.  
To Emma Goldner I have this string  
For tying leads it is just the thing.  
And then I have for Anna Werst,  
A bottle of glytinal to quench her thirst.  
For Henry Krueckberg, an armature;  
He will appreciate that, I'm sure.  
Eloise Noll gets my soldering flux,  
To use in first-aid wrapping and such.  
Oh yes, Nyla Wilkinson gets these  
screws

In exchange, send me the GE NEWS.  
Ethel Schlickman shall have my strippers  
And also these high voltage stickers.  
My shellac can goes to Edwina Stucky.  
She ought to consider herself lucky.  
To Betty Reichert, this copper wire  
In case her car gets stuck in mire.  
I must not forget Ina Noack.  
She gets my switch gauge and the lock.  
And to Fruchte's Margaret,  
She can come and share my bed.  
Then to leave to Joe Ivetch  
These repair switches is my wish.  
For Olive Lose I have a scraper,  
Pair of gloves and some paper.  
To Fern Huber who used to write  
checks,  
I give her all these tiny eyelets.  
Then I will give to Effie McGill,  
This screw driver and a fairly good  
drill.  
These wrenches are for Wolpert's Joe.  
I don't want to miss her, you know.  
I shall then give to Alice Lake  
All these tubes and a roll of tape.  
Tena Chronister gets a brush, you see;  
I will take my apron with me.  
I do wish that Eric McConnell  
Would get the wedges and the trowel.  
Tye August inherits this calendar, you  
get.  
For her last name is in there, you must  
admit.  
To Frank Braun, that sly old fox,  
My tattered, worn out, torn up old box.  
The following goes to Mina Stevens.  
The waste basket and some safety pins.  
For Luella Werst, the switch gauge and  
such;  
I hope this will please her very much.  
Hilda Staley can have this insulation;  
She will need it for consolation.  
My soldering iron Charlotte Gephart can  
use.  
Many, many times when things come  
loose.  
To Erna Weiland, that old heel,  
I will leave her my forming steel.  
I treated with candy both old and new  
That was my way of saying "Adieu."

The mystery of the week: What  
became of the birthday card which  
was supposed to have been sent to  
Hez Cochran and which he never  
received? Was it mailed or did it  
just disappear into space? Who  
can tell us? . . . Gladys McBride  
had a birthday and no one found  
it out to wish her a happy birthday  
in the NEWS. Well here it is,  
Gladys, belated birthday greetings  
and your name in the paper, also.  
. . . We have heard of "Blue Monday"  
but to Dwight Little it is,  
"Blue Friday." He accidentally  
spilled blue Dykem ink, so here-  
after he will be known as the "human  
ballpoint pen." . . . At a recent  
hockey game, more thrills were  
enjoyed enroute than at the game.  
By the way, the pilot was George  
Myers; co-pilot, Charles Cloud. At  
the same hockey game one person  
remarked it was a good Piston  
game. He listened to the game with  
Bob Kinney. . . . Our sympathies  
are extended to Ernest Lake and  
son, James Lake, upon the recent  
death of their six-year-old son and  
brother. . . . We also extend sym-  
pathies to Delmos Feasel upon the  
death of his mother. . . . Waldo  
Eckrote is back to work after an  
extended illness. Welcome back,

Waldo, and we wish you the best  
of health. . . . We're also glad to  
see Louis Welbert back on the job  
after a short illness.

The two most common kinds of  
lies in the world today are the  
little white ones and the big Red  
one.—Harry Forbes.

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Our deepest sympathy to Ralph  
Clinger upon the death of his  
father-in-law. . . . Hazel Scott has  
a new solution to tuning in tele-  
vision, and that is to pull the  
plug each night. That way, when  
you plug the set in the next time,  
your station is already tuned in.  
. . . . Esther Shannon has an eye  
for hat fashions. She accidentally  
spied Art Gardt cutting felt and  
discovered he had a milliner's tal-  
ent. . . . Slim Walters is so proud  
of his new truck that whenever he  
has to leave it idle he debates  
whether to lock his ignition or  
trust that someone will not run  
off with the truck. . . . If Al Swift's  
"Chevy" won't start there is usu-

ally some other reason. His latest  
experience was finding two flat  
tires about a half hour before driv-  
ing to work. . . . Why is it that  
Howard Smith needs safety  
glasses? Could it be too much of  
Marie Wilson on television? . . .  
Charlie Siders has the bug for  
television and is thinking of buy-  
ing a set. He decided not to wait  
on "Dad" to buy one as he could  
always invite him over for an even-  
ing's entertainment. . . . This is  
a picture of Eric  
Weber taken  
after he was out  
visiting the sick.  
He got as far  
as his friend's  
house and hit  
the davenport  
from exhaus-  
tion. Notice the  
pretzel-like  
shape!  
. . . . Gloria Boling is  
recuperating at her home, R. R. 2,  
Roanoke, Ind. She is pleased with  
her assortment of cards even if  
some are for birthdays, wedding  
anniversaries, etc. . . . Mr. Kierspe  
got a ticket for parking at a coach  
stop while he went in for his new  
glasses. Guess it was time he need-  
ed new ones!

Human Pretzel

## SPECIALTY MOTORS

Shipping—Receiving—Order  
Service

by Mabel Fisher

Welcome, Beverly Sampson, our  
new M. S. typist. Hope you like us.  
. . . . We extend deepest sympathy  
to Ruth Schroeder in the death of  
her father. . . . Has Paul Thomas  
taken up wood carving as a hobby?  
. . . . Ed David was seen hammering  
his chair like mad last week. Now  
he has a broken arm (on the  
chair, that is). He has repaired it  
with adhesive tape, but we are  
worried about it. We think his  
chair should be sent away for a  
rest before it has a complete  
breakdown. In case you are won-  
dering how Ed is feeling, he is  
fine as silk. . . . Happy birthday to  
Fred Humbrecht.

If we could learn how to balance  
rest against effort, calmness  
against strain, quiet against tur-  
moil, we would assure ourselves of  
joy in living and psychological  
health for life.—Josephine Rath-  
bone.

DISPLAYS RETIREMENT GIFT—Clyde Weaver (left) with an assist from K. D. Strong, shows a radio, one of his retirement gifts to a group of assembled co-workers on his last day at General Electric. Mr. Weaver first came to the company in 1925. He was a set-up man in Bldg. 27 before retiring.

ENTERING THE JA center, 109 W. Lewis St., are Beverly Holder and Nancy Poling, North Side students and members of the JA Lanco Company.

## THE JA AIM—TO LEARN BY DOING

# Free Enterprise at Work

This is the symbol of a system—a system that offers today's high school students a bridge to the gap between school days and that first job. It is the symbol of Junior Achievement, an organization which is becoming known in the U. S. A. as a system of democracy at work, building foundations for tomorrow's adult citizens.

Junior Achievement is a non-profit organization set up to achieve learning-by-doing among high school students. Once established in a community by businessmen, the JA center gives those who enroll pre-business experience in ownership, management, selling, and liquidating a corporate

business enterprise. Small companies are set up within a center by the students and operated by them. Each of the companies are advised by at least three businessmen, who have experience with finance, marketing, and manufacturing, and donate their time to helping the students learn fundamental business procedures.

In Fort Wayne, JA is looking forward to the successful completion of its first year at the end of May. A total of 325 students from local high schools are members of the 22 companies. Many of the students are sons and daughters of GE employees. Five of the companies are sponsored by Fort Wayne General Electric and have 19 GE employees acting as advisors. Six other GE employees serve as members of the Board of Directors and the center committee.

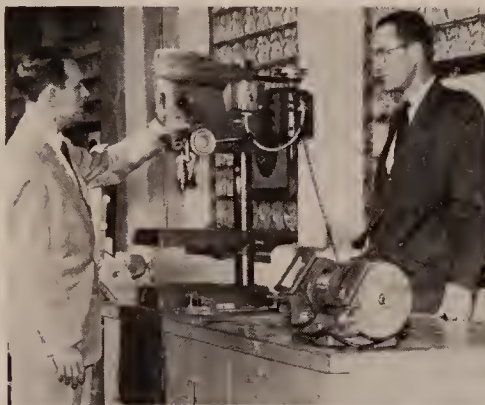

These two groups organized the center last May and secured facilities and equipment.

Students applied for membership and once a part of JA became known as achievers. They spend two hours one night each week at the center, working together. They elect officers, decide upon a product, order materials from money received through the sale of stock, manufacture a product and go out and sell it. At the end of a school year, each company is liquidated and dividends, if any, are distributed to stockholders.

Results of the first five months of operation have proved the center's worth. Achievers have shown their enjoyment of JA in their enthusiastic and earnest attitudes. Advisors, too, have found their associations with the students rewarding and a lot of fun.

FACILITIES for the center were secured by the board of directors, of which Don Brayer, left, Bldg. 8-2, is a member. He discusses the center's layout with George Howell, Bldg. 2-2, member of the center committee which assisted in readying the building for use.

EQUIPMENT at the center includes several machines on which students turn out their products. Marty Zernick, left, Bldg. 26-3, member of the center committee, explains the installation of machinery in the JA shop area to Carl H. Rinne, Bldg. 26-2, board member.

ACHIEVERS AT WORK buffing thermal pins for the Master Metal Manufacturing Company are Ken Dawson, Concordia, and Boh Mills, South Side.

BUSINESS MEETINGS are conducted by students at their weekly company sessions. Discussing Jasco Company's status are William Crouse, Bldg. 26-4, advisor, standing, and (seated around table): Robert Rowe, Bldg. 26-2, advisor; Charles Gnau, Bldg. 26-2, advisor; Leonard Lloyd, North Side; Pat Heingartner, Central; and Bill Franke, Joan Hindson, Debby Hacker, and Ann Nickerson, all North Side students.

FINANCE matters concern Phyllis Crabill, North Side, treasurer of the Youth Kit Company, as she asks the advice of Arnold Hensick, Bldg. 18-4 in balancing the books.

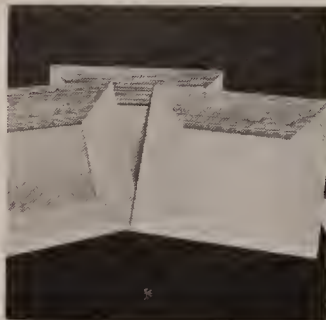

# PRODUCTS OF THE FIVE COMPANIES SPONSORED BY FORT WAYNE GENERAL ELECTRIC DEPARTMENTS

**YOUTH KIT**, sponsored by Hermetic Motor Department. The charter of the company is shown also.

**JASCO COMPANY**, sponsored by Specialty Transformer Department, produces pin cushions and thread holders.

**NOVELTEENS**, sponsored by General Purpose Component Motor Department, manufactures picture frames.

**MASTER METAL MANUFACTURING COMPANY**, sponsored by Specialty Component Motor Department.

**LANCO COMPANY**, sponsored by Small Integral Motor Department, markets sets of place mats and napkins.

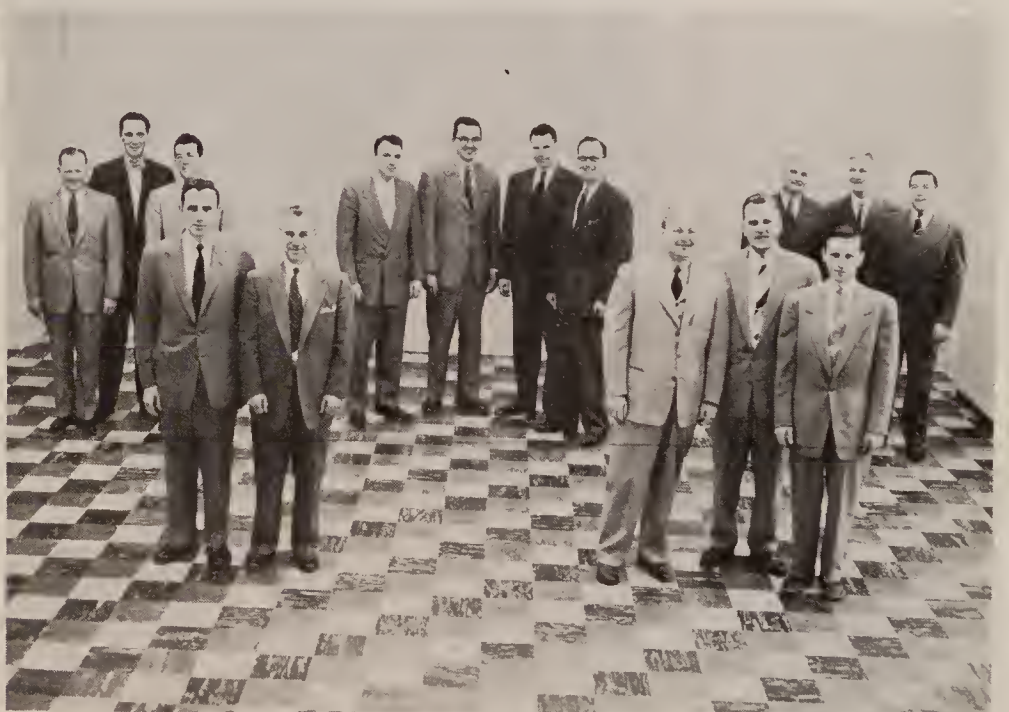

**EXHIBIT PLANNING** for the JA trade fair next week is outlined by members of the Lanco Company with the aid of their advisors. Standing (l-r): John Reardon, Winter St., advisor; Nancy Poling, North Side; Jerry Kaufman, North Side; and Alan Lord, Winter St., advisor. Seated (l-r): Retha Lake, Carol Curdes, Beverly Holder, Constance Mangan, and Mary Ann Harrison, all North Side students.

**MANUFACTURING** advice on assembly of Novelteens' product is offered by Charles Gable, Taylor St., advisor, to (l-r): Guy Strong, North Side; Vivian Salmon, Central, and John Grosh, Central Catholic.

**MARKETING** their product takes Phyllis Williams and Betty Woods, North Side members of the Youth Kit Company, on a door-to-door selling jaunt. They deliver their super sales talk to Mrs. Harry Jump, of 905 Lake Ave.

**ADVISORS** for the five JA companies sponsored by GE departments are, back row (l-r): General Purpose Component Motor Department—Robert Mace, Charles Gable, and Dick Abraham; Specialty Component Motor Department—Joe Jamieson, Larry Wightman, Vincent Gregg, and Malcolm Hamilton; Specialty Transformer Department—William Crouse, William Denham, and Charles Gnau. Front row (l-r): Small Integral Motor Department—John Reardon and William Lee, Jr.; Hermetic Motor Department—Arnold C. Hensick, Joe Orbin, and Robert Winner. Absent from picture were Robert Rowe of Specialty Transformer; Alan Lord, Small Integral Motor; David Hanson, and Chester Kowalski, Hermetic Motor advisors. These men donate their time one evening a week to assisting JA students.

# Golden Gloves Finals Feb. 8 at Coliseum

**BEFORE THE GONG SOUNDS**—The dressing room was a crowded spot just prior to the first night of Golden Gloves matches at the Coliseum. Shown here are some of the behind-the-scenes work necessary to the staging of the annual tourney. Left to right are Bob Walters, Garrett coach; Rival McBride, Garrett welterweight who scored two victories; Bud Saxer, Garrett coach, Cecil Onion and Bob Guingrich, two members of the GE Club boxing committee.

## Owls Roll On To Win No. 12

by Howard Colby

The GE Owls racked up win No. 12 last Thursday morning, when they set the Eckrich quintet back on their heels with a rocking 51 to 28 victory.

The two teams played on pretty even terms the first quarter with GE scoring 10 points to the Eckrich hoopsters' 7.

Ron Blodgett hit a field goal and 2 foul shots; White hit 2 fielders; and Bob Markey dumped a two-pointer in to account for the first quarter scoring.

The second period slowed way down in tempo with Gladieux, Wilson, and Dickey scoring a field goal each and with White sinking a charity toss for a total of 7 points. Eckrich was held to 4 points to give the Owls a 17 to 11 halftime lead.

Ron Blodgett led the Club's attack in the third quarter as he hit 3 baskets, while teammates Markey, Etter, and White each poured one through the hoops. Eckrich scored 9 points for a third quarter score of 29 to 20, GE on top.

The Club boys waxed warm in the final period as they scored 22 points. Harold Somers split the nets with 7 points; Gladieux, 6 points; and Warren Dickey spearheaded the attack with 8 points. Carl Wilson added a charity toss.

The best Eckrich could muster up was 2 field goals and 4 foul shots to put the final figures on the scoreboard, GE, 51; Eckrich, 28.

Next week's play puts Zollner and Aircraft Gear in the opener at 9 a.m.; GE meets the always-tough

**RIGHT CROSS**—"Wee Willie Crawford" ducks a right cross thrown by Fort Wayne's John Freeman, defending heavyweight champion. In an inter-city bout Monday night, Freeman scored a decision over the Indianapolis veteran. Both boys are heavyweights.

Indiana Rod team at 10 a.m.; and Salisbury plays Eckrich at 11 a.m.

### SECOND HALF STANDINGS

The century-old word "clorophyll" is one of the most recently publicized "new words," according to the American Peoples Encyclopedia. The new terms include "poodle cut," "whistlestop," "countrypolitan," and "teleprompted."

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

Two more new car owners in our gang, Frank Putt with a new Chevy, and Wilford McBride with a Packard. So far Frank Putt has been unable to convince Jess Bixler that his new car is better than the old Mercury he used to have. You just can't talk anything but Ford products to Jess. Everyone to his own tastes, said the old woman when she kissed the cow. . . . Dick Hartigan has a car so long that he can't make the turn into the parking lot driveway and he runs over the curb. . . . Frank Mathews locked himself out of his car the other day and Al Mason drove his car to work in zero weather with

The next round of scraps for area amateur boxers will be Monday, February 8, when the next night of Golden Gloves clashes are scheduled. They will be held in the Coliseum as were last Monday night's fights, beginning at 8 p.m.

Tickets are available now at the GE Club, the Main Auto Marine Division, and all Zollner ticket offices.

A crowd of more than 1,400 fans saw nearly every weight class represented in Monday night's battles. On the card were 17 tournament bouts plus three inter-city matches and three of junior matches.

Monday night results were:

Bill Goodpasture, Fort Wayne, scored third round TKO over Jack McGinnis Van Wert, O., (welterweights).

Kesler Peters, Auburn, decided McKinley Davis, Fort Wayne, (lightweights).

Norman Stevenson, Butler, decided Randall Porter, Fort Wayne (lightweights).

Bob Spittler, Van Wert, O., decided Robert Call, Fort Wayne (welterweights).

Rival McBride, Garrett, decided Nelson Smith, Defiance, O. (welterweights).

Don Hartman, Van Wert, O., knocked out Floyd Bellinger, Hicksville, O., in 2nd round (welterweights).

Don Tharp, Auburn, decided David Miller, Defiance, O., (lightweights).

Don Hullinger, Lima, O., decided Bob Paschal, Fort Wayne

(welterweights).

John McBride, Garrett, decided Red McClure, Fort Wayne (lightweights).

Harry Waldon, Van Wert, O., scored second round TKO over Fred Phink, Fort Wayne (lightweights).

Robert McClellan, Auburn, scored first round TKO over William Meyers, Fort Wayne (middleweights).

Carl Rolfe, Defiance, O., decided Fred Dinkin, Fort Wayne (middleweights).

Billy Borof, Van Wert, O., decided Max Wappes, Garrett (featherweights).

George Briggs, Defiance, O., scored first round TKO over Jerry Schooley, Auburn (bantamweights).

Roy Army, Van Wert scored a first round TKO over Don Tharp, Auburn (lightweights).

Charlie Kulwicki, Defiance scored 2nd round TKO over Don Hartman, Van Wert. (welterweights).

Rival McBride, Garrett decided Bob Spittler, Van Wert (welterweights).

Don Hullinger, Lima won over Loran Hussey, Defiance (welterweights).

**KIDS MIX IT UP**—A trio of junior matches on Monday night's Golden Gloves card produced action like this. The youngsters battled throwing punches like pros.

the windows rolled down. . . . Joe Ostrowski tore his old Graham down last week and he found a wrench in the crankcase that he lost a year ago when he had overhauled the engine. Joe says that explains that grinding noise that she made once in a while. . . . Second trick is glad to have Arnold Schieferstien back with them again as it was too quiet when he was on first trick. . . . Ever since TV

came to Fort Wayne, Charlie Castle has been giving us hundreds of reasons why he wouldn't buy any. We won't have to listen to those reasons anymore. His little woman bought one the other Friday and was watching it when Charlie came home from work.

A Bowery bum is just someone who tried too hard to be a man of distinction.

# Interdivision Second Half in Full Swing

by Don Cochran

LEADING THE LEAGUE in Interdepartment basketball is the Apprentice team, which won the first half championship. Kneeling are Tom McCrea and Carl Buffenbarger. Standing (l-r): Harold Friedrich, Rock Thomas, Don Batchelder, David Jones (manager), Les Fanning, Ned Spehger, and Warren Sloan.

During the first week of second half competition, most teams started strong, indicating the second round should be as interesting and close as the first.

In the only "B" Division game of the evening, Thursday, Jan. 21, the Firemen rolled over Transformer 49 to 36. Leading all the way with quarter scores of 11-3, 23-11, and 37-28, the Firemen showed indications of being the leading contender in the "B" section. The offensive load for the Firemen was carried mainly by Bergman and Wherle with 17 and 16 points respectively. Huddleston lead the scoring for Transformer with 10 points.

In the second game of the evening, the Test Engineers experienced considerable difficulty in stopping the Hermetics by 46 to 42. The half-time score was knotted at 22-22. Ponsot had a good evening for the losers in scoring half of their total points or 21 markers on nine field goals and three gratis shots. Shilling, stand-out center for the Test Engineers, netted 17 points for the winners.

In the final game of the evening, the Squares edged the Apprentice, winners of the first round. The final score at the end of another rugged meeting of these two teams was 51 to 49. As in the two previous meetings of these teams the action was fast and the competition keen.

These two teams had met twice previously with each team winning one by a fairly decisive margin. The Apprentice win earlier was an important one since it was a play-off for the first half championship. Thursday night's win gave the Squares a two out of three margin over the Apprentice so far this season.

The lead changed hands several times during the game, with the

Apprentice holding a 28 to 26 margin at half-time. However, the Squares were effective in the third quarter, when the Apprentice offense slowed, and the third period ended 39-33 in favor of the Squares. The winners were able to hold off a sharp rally in the final minute after losing Dick Miller with a badly sprained ankle. Gil Carl topped the offense for the Squares with 15 points while Harold Friedrich lead the Apprentice with 13 points.

In the first game of the evening, January 26, the Transformer crew topped the Airliners 51 to 47 in a "B" Division contest. The Transformer squad led at all quarters, managing to hold off an Airliner rally in the final period. Huddleston and Bailey led the winners with 14 points each while Worford paced the losers with 21 points.

In the second "B" Division game, the MTP five finished strong to win an overtime tilt from the Firemen 39 to 36. After trailing throughout the first three quarters, the winners managed to knot the score at 34-34 at the end of regulation play. Bergmann topped the offense for the Firemen with 21 points. Berghoff tallied 11 markers for the MTP's.

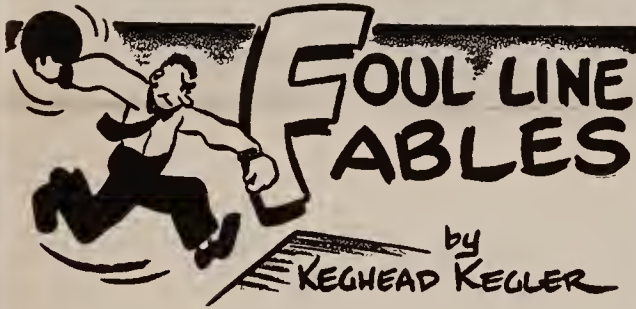

In the only "A" Division game of the evening, the Squares rolled over the Hermetic squad 59 to 37. The first period of the game was slow as the Hermetics attempted to "freeze" the ball. Their strategy failed to slow the Squares' offense as they piled up a 26 to 11 half-time margin. Carl and Krasienko paced the Squares with 19 and 13 points respectively while Davis netted 14 points for the Hermetics.

This year's league is managed by Jack Sweet. Joe Raising serves as assistant league manager. Management and coordination of league activities involves considerable time and effort on the part of those charged with the responsibility of operating the league. Both Sweet and Raising should be commended for the organization of one of the most well balanced, highly competitive leagues in recent years.

One criticism that might be leveled at this year's competition is the lack of high-calibre sportsmanship displayed by one or two of the members of some of the teams. Every league participant is charged with a definite responsibility for individual sportsmanship. Competitive spirit does not have to be sacrificed to maintain this quality.

It would be well to recall the assets constituting CHAMPIONS:

Courage  
Honesty  
Attitude  
Manliness  
Patience  
Interest  
Obedience  
Nerve  
Sacrifice

## Friday Night Ladies

In the Friday Night Ladies' League, Liz Shearer found the alleys to her liking and kegled games of 199, 196, and 204, for a 599 series. Charlotte Stanford rolled 588 on games of 207, 179, and 202. Tommie Williams put together games of 180, 145, and 189 for a 514 series. June Getty rolled a total of 501 on games of 177, 144, 180. Betty Thompson rolled a 191 score; D. Drewitt, 186; A. Dahman, 181; B. Bechling, 171; L. Jacobs, 176, and F. Haggenjos, 172. Teams No. 1 and 3 have won 5 and lost 1 to lead the league in second place. Teams No. 5 and 6 have each won 4 and lost 2.

## Apparatus League

Teams No. 1 and 7 started off the second half by winning all three games. Team No. 2 won 2 and lost 1 for third place spot. W. Boester kegled 201 and 207, but couldn't make it 600. O. Shinn rolled a 209; P. Boedeher, 217; T. Welker, 203; V. Rump, 200; C. Townsend, 212; D. Stanky, 206; H. Langer, 211; E. Reese, 212; H. Carmer, 210; M. Norman, J. Kummer, and C. Musser each rolled 200 counts. Central Dairy won the first half.

## Ladies Monday Night

It is a tie for the top spot between Scatterpins and Twisters, each having won 9 and lost 3. In third place is Holeyrollers with 8 wins and 4 losses. Holeyrollers rolled the high single game, a 781 score. Ann Lee scored a 515 series

on games of 167, 180, and 168. Alberta Roth rolled 189, 171, and 149 for a 509. Jackie Trier scored a 187. Ilo Matter had 170 and 184; Beth Moore, 171. Isabelle Blackburn converted the 4-7-10 split. Peggy Houston converted the 17.

## Ladies Tuesday Afternoon

Team No. 3 has lost only 1 game, while winning 8 to lead the league. Team No. 2 is just one-half game behind with 7½ wins and 1½ losses. Team No. 1 is in third place with 6 wins and 3 losses. Norma Arnold rolled a 178, and Mary Hirschman, 173.

## GE Orphans

Hotel Keenan has won 8 and lost 1. Team No. 2 has won 7 and lost 2. Team No. 6 and Bernie's Motor Sales have won 4 while losing 5. Ken's Market has won 3 and lost 6, while Team No. 5 has won 1 and lost 8.

## Office

M and G Sales lead with 7 wins and 2 losses. Transformer, Motor Generator, and Reproduction have each won 6 and lost 3. D. Waldrop scored a 211; C. Shipman, 208; and

D. Stoneman, 210.

## Small Motor

Two Legs Clothing is out in front with 6 wins and 0 defeats. Tommy's Lunch, Test, and G. Men have won 5 and lost 1 which puts them in a tie for second place. Lloyd Pinkerton scored a 609 on games of 194, 214, and 201. Henry Vance rolled 216, 208, and 176, for a 600 count. R. Brimeyer scored a 258; R. Webber, 200; W. Whonsetler, 242; J. Trentadue, 202; L. Welker, 214; G. Haggenjos, Jr., 223; G. Haggenjos, Sr., 200; E. Bowser, 212; H. Conrad, 203, and F. Wheeler, 214. Test rolled the high series count, 2734, which included a 1029 single count. W. Putt converted the 4-5-7 and 4-5 split; R. Lindemuth, the 4-5; and L. Welker, the 4-10.

## Men's Factory League

The Flanges, who won the first half of the league, seem intent on winning the second half also. They are presently in the lead with 4 wins and 2 losses, followed by the Rotors and the Stators with 3 wins and 3 losses. The office team brings up the rear with 2 wins and 4 losses. Double century scores were rolled by: S. Jackson, 227; P. Bridee, 239; J. Laurent, 200 (His first 200); C. McIntosh, 204, and G. Laurent, 203.

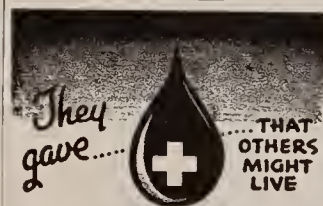

## GE Fraternal League

Monroville Lumber Co. and the West End Restaurant are leading the second half of the league with 4 wins and 2 losses. Four teams are next in line with 3 wins and 3 losses each. They are GE Club, Peterson Elevator, Riverview Gardens, and Elks. K of C team and the Teeple Truck 5Lines bring up the rear with 2 wins and 4 losses. 600 series were rolled by C. McIntosh, 622; A. Buuck, 612; G. Baumgartner, 610; and N. Steury, 607. 200 scores were rolled by: R. Mutchler, 216; H. Strickler, 223;

L. Ulman, 212; W. Petrie, 208; R. Ladd, 215; G. Strickler, 211-209; D. House, 202; E. Faulkner, 207; and G. Laurent, 210-203.

## GE Women's League

The Last Frames and the GE Office started out the first session of the second half in first place with 2 victories and 1 loss. The Hi-Spots and the Spares are tied with 1 win and 2 losses. High scores were rolled by G. Reynolds, 197; E. Plasterer, 180; Helen Wellman, 163; M. Miller, 182, and R. Foreman, 163.

The following people donated blood during the week ending January 15:

Kenneth F. Bergman, James H. Capps, James A. Hughes, Ernest J. Yost, Don R. Batchelder, Charles W. Brown, Perry E. Esterline, Otto B. Fultz, Robert L. Gallaher, Edward G. Hamilton, Karl E. Heinzelman, Robert T. Hess, Richard J. Keyser, Herman R. Korte, Joe E. Kramer, John L. Lare, John L. Leffers, F. H. Lemper, Hugh L. Neely, George M. Soule, and Louis Voirol.

## TOOL BITS BLDG. 19-4 and 5

by Howard Demsey

Tonight is the night for the city-wide March of Dimes polio drive, so don't forget to turn on your porch lights so a neighborhood solicitor will stop for your gift. You'll feel good knowing that you will help someone fight this crippling . . . We extend our deepest sympathies to Mrs. John Littlejohn on the recent death of John. He had many years of service in the checkroom before his retirement several years ago. . . . Frank Armstrong went home to get his red flannels the other night after complaining of the cold, but they turned out to be blue. It wasn't that cold was it, Frank? . . . Anyone having any asphalt tile to put down could profit by seeing Dick Lee. . . . We've heard of talking dogs but Dick Gecowetts has a hunting dog that can unsnap his chain from his collar and snap it on another chain whenever he feels like he needs a little exercise. . . . Harold Cutler is going on days in the Mill Unit and Lawrence Hamrick is working in the Bridgeport Unit on second shift. Welcome to both. . . . Joe Mettler was going to show Marion More how good his TV set was last week. Marion had to leave without ever seeing a picture. Joe found out later someone had pulled the plug from the wall. Looks like sabotage, Joe. . . . Woody Hursh had a bad day last Friday. First his water pipes froze, then he discovered the pump motor on his soft water system was burning up. When he got to work he found one of his jobs in a bad way. The final blow came when his Leo Lions were defeated by Huntestown by "one lousy point." . . . Bob "Florida" Truelove was very jubilant over Huntestown's County championship. He claims he gave Archie Gwaltney plenty of warning that Elmhurst didn't have a chance against those rampaging wildcats. . . . Sad Sam Beilsmith's sprint from the parking lot each morning is something to behold. Even though he looks like he's trying out for a track team, Sam always takes pride in his record of promptness. . . . Pete Bauman wandered off the elevator on the third floor last week. Pete thought there were too many strange faces to be good old Bldg. 19-4. . . . Harold Wherry's son, Phillip, has been selected as one of the five best basketball players in Whitley County. Another famous member of the Wherry family is his daughter, Betty, a good baton twirler. . . . No, those weren't new street lights in front of the Clyde you may have seen one night recently. They were Ross Cohagen's car lights running his battery down while he was watching the movie. . . . Anyone wishing to sample a real delicacy see Dick Peohler for some smoked Wabash River carp. . . . Color television won't do Ned Tarney any good. He can't tell a brown sock from a blue one. At least he wore one of each the other day. . . . Another fellow having color troubles is Archie Gwaltney—\$15.75 worth. The color was red and happened to be on a traffic light and Archie didn't see it. . . . Lewis Stocker was a little late (three hours) for bowling the other evening but still in time to pay for his bowling and prize money even though he didn't roll a ball. Lewis says he got rolled instead of the hall for a change. . . . Gus Ausderman's TV was working so good he got a repair man out to show him. After a few minor adjustments he now knows what a bad picture looks like. . . . TV took a back seat in the Ed Stahl home over the week-end. That new '50 Ford took all of their time. . . . The Die

Plant welcomes Harold Harlan to their unit. As we reported a couple of weeks ago John Stetler had just about talked his wife into buying a TV set. Last week-end his labors in that field came to an end as Mrs. Stetler gave in and the set was delivered Saturday evening. Better watch your weight, John, those food commercials make you mighty hungry. . . . Robert Pickett just can't seem to keep the coffee he brings in for lunch. One day he hid his thermos bottle and then even checked the weight of it before lunch to be sure no one had filched any. How do sandwiches taste with water, Bob? . . . Hayden Rice has a new fishing record to report. He caught the same bluegill three times in one day. How did he recognize it? How do you band a bluegill, Hayden? . . . The other evening Max Baron left his wife off at Sears and he went over to see Gus Wiedleman for a while. Gus was such a perfect host that Max lost all sense of time and Mrs. Baron had to wait an hour for Max. . . . The Lathe Section welcomes Cliff Creason, an apprentice, and Perry Butts from the second shift lathes. . . . Good luck to Walter Vought on his new job in expansion planning. Watch your old coins down there, boys, Walter collects them. . . . Advance congratulations from the section to Louis Peduto who is getting married tomorrow the 30th.

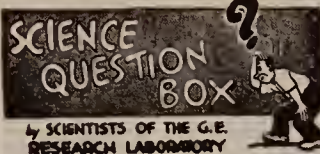

## STORMY WEATHER BLDG. 17-4

by Bill Hurtt & Larry Reed

While we know it was pretty cold last week, the fact wasn't proved until Carol Norman showed up in a beautiful bed-quilt. . . . Otto Fackler absolutely refuses to buy television. He says it costs too much. His daughter states that she will buy one if he doesn't; so, he has made the grand gesture and will let her store it in his front room. . . . "There's nothing that can compare with turkey," says Charlie Kensill. He eats it summer and winter. As a matter of fact, he is so afraid that he will run out of the bird that he even carries a frozen one in his trunk. He hasn't told us yet how that will be accomplished during the summer. . . . The burning question of the day: During the cold spell when cars were stalling, was Rollie Miller pushing Cy Seymour or was Cy pulling Rollie? Personally we think that Larry Reed in his Hudson, and Bob Laur in his Pontiac, had to help them both. . . . "It isn't worth it," says Don Thomas. His boy has a paper route which made his Dad very happy, but that feeling of elation was soon replaced with disgust when Don had to pay for a large window that his boy hurled a paper through on the route. . . . It's never to late, so we apologize now to Earl Stauffer for his recent physical and mental upgrading from 17-4 to 4-6 and congratulate him on the promotion. . . . At last our blushing bridegroom, Clarence Nussel, has returned to the flock. If there is any doubt in your mind about how

quickly Hilda has put him in the harness, just look over this picture carefully. They say one picture is worth a thousand words so accordingly this one should resemble a dictionary. On his return, the gang gifted him with a lovely 400 day anniversary clock and steam iron and with these gifts go our sincere wishes for success

Q. If cream is thicker than milk, why does it float to the top?

A. Although cream is thicker than skim milk, it is less dense, and if you have two liquids that do not dissolve in each other, the one that has the lower density will go to the top. The "specific gravity," which is the weight of a given volume compared with the weight of the same volume of water, is a good way to express the difference in density. For skim milk, the specific gravity is 1.036, while for cream with 20 per cent butter fat it is 1.010. With 40 per cent cream it is .993, so this is lighter than water, of which the specific gravity is one. People often refer to such thick cream as "heavy" cream, although actually it is lightest, in terms of weight for the same volume.

Q. Will we be able to see any eclipses during the coming year?

A. Yes, the year 1954 will be a good one for eclipses, particularly in North America. Following a total eclipse of the Moon, on the evening of January 18, there will be one of the Sun on June 30. The eclipse will be seen as total along a path nearly a hundred miles wide, starting in northeastern Nebraska and extending northeasterly across Minnesota, Wisconsin, Michigan, the Canadian provinces of Ontario and Quebec, to the coast of Labrador, and then across the Atlantic Ocean to Europe and Asia. The Sun will be partially eclipsed as seen from the central and eastern parts of the United States, Canada and Europe. Two weeks later, on July 15, there will be a partial eclipse of the Moon, of which the ending will be visible in the eastern parts of the U. S. and Canada. There will also be two other eclipses of the Sun during the year, neither of them total, and visible mainly in the southern hemisphere.

and happiness. . . . We are happy to report that Charlie Kensill's wife came through her operation fine and is doing nicely. . . . Although he says he would rather go fishing, we suspect that Don Thomas takes more than one look at their new television set. It's here to stay, so don't be ashamed, Don. . . . Congratulations and best wishes also go to Mel Guillaume on taking his wedding vows. Along with a steam iron, he was presented with a nursing bottle and a penny bank for the future Master Guillaume. . . . Not to be outdone by the ladies, Houston Williams is now proudly displaying his new shoes with red heels, no less. . . . It's a pleasure to report that Casey Jones came through with his operation very well and is now hobbling around home. He sends all the gang thanks for their well wishes and hopes to see them soon. . . . Quotation for the week: "It is not enough to do good; one must do it in the right way."

Ralph S. VanAuken

## Rites Held Wednesday For Ralph S. VanAuken

Services for Ralph S. VanAuken, 60, were conducted Wednesday, Jan. 27 at the D. O. McComb & Sons Funeral Home by J. F. Sells, reader. Mr. VanAuken died Sunday, Jan. 24 at his home, 124 E. Suttentfield St. Burial was in Covington Memorial Park.

A Quarter Century Club member, Mr. VanAuken came to GE in 1918 and was a wire worker. He was a foreman in the plant service section at Taylor St. prior to his death. He was a member of the Foremen's Association also.

In addition to his wife, Alta G., survivors are: two daughters, Mrs. Ralph Olinger and Mrs. C. M. Leeper; one son, Richard S.; a sister, Mrs. Madge Castor; three grandchildren, and one great-grandchild.

## Claude Jefferies, 65, Former Employee Dies

A former GE employee, Claude B. Jefferies, 65, died Tuesday, Jan. 26 at his home, 624½ Clinton St. Services were conducted yesterday at the C. M. Sloan & Sons Funeral Home by the Rev. Robert T. Beck. Burial was in Lindenwood Cemetery.

Mr. Jefferies came to the company in June, 1930 as a welder in Bldg. 4-2. He was an iron and steel worker in Bldg. 20-1 prior to March, 1942 when he took a leave of absence for illness. He had been unable to work since that time.

Surviving are three daughters, Mrs. Richard Failor, Mrs. Denis Goonen, and Mrs. Edwin Stemen; a son, John; two brothers, William C. and Earl; three sisters, Mrs. Mable Retzler, Mrs. Hiram Premer, and Mrs. M. A. Coleman, and five grandchildren.

## Retired Employee Dies In South Bend at 76

A retired Bldg. 20-1 machinist, William P. Lang, 76, died Saturday, Jan. 23 at his daughter's home in South Bend, where he had been living.

Services were conducted Tuesday, Jan. 26 at the Klaehn Funeral Home by the Rev. F. Heidbrink.

Burial was in Greenlawn Memorial Park.

A native of Fort Wayne, Mr. Lang joined the company in 1917 and operated the hand machine then. He was a machinist prior to his retirement July 12, 1940.

In addition to his daughter, Mrs. Eugene B. Gray, survivors are a sister, Mrs. Ella Melching; three step-children, Mrs. Esther Roland, Mrs. Clarence Justus, and Mrs. Mary Johns; one grandchild; three nephews, and two nieces.

## Thomas C. Dougherty Dies at Home Monday

A Taylor St. employee, Thomas C. Dougherty, 46, died Monday, Jan. 25 at his home, 1441 Swinney Ave. after a five-month illness. Services were conducted Wednesday at the Simpson Methodist Church by the Rev. Robert Yunker. Burial was in Greenlawn Memorial Park.

Coming to the company in 1925, Mr. Dougherty went to work in Bldg. 19-3. Later he was a truck driver and stator winder. He was a set-up man on P & W automatic lathes in Section 417, Taylor St. when he took a leave of absence for illness in August, 1953.

Survivors include his wife, Viola; two sons, Thomas W. and Terrence; one daughter, Miss Patricia; a brother, Lisle G., and a sister, Mrs. Hazel Somers, of South Bend.

## John Littlejohn Dies; Toolmaker 49 Years

John G. Littlejohn, 77, a retired employee who had more than 49 years of service with GE, died Sunday, Jan. 24. He resided at 1234 W. Foster Parkway.

Dr. John W. Meister officiated at services in the Klaehn Funeral Home Wednesday, Jan. 27. Burial was in Lindenwood Cemetery.

In 1896, Mr. Littlejohn became a General Electric employee and was a toolmaker. He was an inspector in Bldg. 26-5 prior to retiring Aug. 31, 1945. Mr. Littlejohn was a Quarter Century Club member.

Surviving are his wife, Ireta; one brother, David; three sisters, Mrs. Florence Harber, Mrs. Agnes Bright, and Mrs. Margaret Willson, and a nephew, John S.

## 17-3 NEWSIES

by Wilhelmina Beeth

Congratulations to our Huntestown fans on their team being the new County Champs. . . . Did you recognize any of your co-workers on TV? . . . Congratulations on the pink-booted addition at the Bernon and Mildred Ternet home. . . . Glad to see some of our former co-workers from Bldg. 8-1. They were loaned to our floor while some changes were being made over there. . . . We light another candle on the cake and wish a happy birthday to Louise Melvin, Marlene Blair, Betty Hoffman, and Eileen Schuler. . . . We are starting to burst at the seams again, but we welcome all our newcomers. Hope you like us. . . . It will be Hup, two, three, four, for Frank Woods and Dave Bashop. They are leaving us to go on Uncle Sam's payroll.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 19-2, or the Plant receptionist, who will place the Ad-let and otherwise advise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ada will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads. Only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

## CLOSING DATE

Monday Noon, February 1, 1954

In cooperation with the Social Planning Council, the GE NEWS will not publish ads for care of children in private homes unless the advertiser first presents a license for such business.

## LOST AND FOUND

PAPER HANCER—Six rooms to paper, evenings. H-37324.

CAR—Will trade lot for car. Pay cash difference. H-60623.

CLARINET—Used clarinet, reasonable. A-69323.

TEA CART—In good condition. A-1896.

## THANK YOU

I wish to express my sincere thanks and appreciation to my former co-workers and friends for the gift and luncheon they gave me on my recent retirement.—Forrest (Dutch) Wilson.

I wish to express my sincere thanks for the very useful gifts given to me upon my retiring by my fellow workers and friends in General Service Bldg.—Emil R. Seidel.

May I in this way thank all the workers in Section 114 and H-Bay for the lovely radio and electric shaver presented me upon my retirement Friday, Jan. 15. Thanks to all again.—Fred Harris.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Pat Davis surely was an unlucky person Friday night. She was out at the Roller Dome skating and some person walked off with her good coat. Cathy Trautman and husband spent the week-end in Indianapolis. . . . Sarah Harris sure was in a hurry to go out to lunch one morning. She got herself all fixed up and could not understand why everyone else was still working. She finally took a second look at the clock and discovered she still had one more hour to work. Ed Blotkamp looked sleepy this morning. The reason must be the new television set.

## WINTER STREET JOTTINGS

by Alma Elliott

Most novel idea of the week: Shampoo your floors. Rudolph Brown recommends this to anyone who wants oceans of suds. A newly purchased quart of shampoo, when broken on the kitchen floor, will leave the work area gleaming and nicely scented, but without a noticeable wave. . . . Inventors' Corner: Marna Wilson should patent her invention of an awning for calculating machines. Marna's home-made invention eliminates glare on the glass and reduces eye strain on the operator. Those interested in securing an awning of their own may do so for a small fee. . . . Gladys Staley, also a budding inventor, has discovered that scotch tape is very good for stopping runs. Anyone may use her suggestion free of charge.

Elmer Heemsoth claims that all those lovely colored pink and yellow clamp bolts make the work easier even though they are no more effective, mechanically speaking, than plain bolts. . . . Bob Branning thought he had found a solution to his locker problem. He is always forgetting his key so he bought a combination lock. That took care of the key problem, but now he can't remember the combination to the lock.

Anita Slusher, an avid ice fisher, is a patient woman. She recently spent six hours on the ice and caught only a cold. Wouldn't it be cheaper to buy a fish, Anita? . . . George Kniss has joined the herd of car radio listeners. Since there is TV in the house, George must retire to the car to catch his favorite programs.

Hobby Notes: Walt Hutchins, our towering MTP fellow, builds model planes in keeping with his size. Walt is now building a plane, powered by a 1/8 hp motor, which has a wing span of seven feet. . . . Jim Barrick's hobby could develop into a business. Jim repairs shoes in his spare moments. . . . Eleanor Viland collects cat pictures. . . . Mickey Crawford and Margaret Morgan collect antiques. . . . Bob Davidson is active in the YMCA and also writes poetry. At the present Bob is devoting spare time to the YMCA membership drive. Anyone interested in joining may contact Bob on Ext. 259.

Welcome To: Art Pehrson, a new TE'er from Broadway. . . . Harietta Haase, a newcomer to Purchasing. . . . Bob Montgomery and Russ Taylor, two new MTP transfers. Bob is from Broadway and Russ from Syracuse. . . . New Car Owners Club: Welcomes Betty Thompson and her two-tone green Ford and Oscar Mensch with a new DeSoto.

Edna Ford carries the largest thermos bottle in the building. After her ride from Defiance she has a wake-up cup of coffee, later a pick-up cup, and at intervals during the day, she just drinks coffee. . . . We are amused at the way Paul A. Berghorn has been signing his name in anticipation of the arrival of his grandson from California. Notes to the engineering unit are signed "GrandPA Berghorn."

Don Anderson is the only person we know who has a sunburned nose in January. Some sources tell that he has been to Florida on week-ends, making flying trips, but we are wondering if there isn't a sun lamp somewhere in the picture. . . . Speaking of pictures, we would welcome some snaps which would be of general interest to readers. We can use glossy prints, black and white only, on almost any topic—children, pets, group outings, or any other subject which you would like to share with others.

## 2-2 TALES

by Belle Buchan

Joe Orbin has either an awful imagination or a big sense of humor. He was seen bending over a disconnected drinking fountain, then nonchalantly wiping his mouth with his handkerchief. . . . We had the pleasure of showing off our newly remodeled office to Harold

Boles, who happened to be in town this week. . . . I am a little late in saying welcome to Joan Davis, a new employee in the office, but I know that she will forgive me. . . . And now we say goodbye to Fred Fenner, who for twenty-nine years has been "Johnny on the spot" around here. We sure are going to miss him and we wish him the best of luck in his new job in the Tiffin plant.

## TRANSFORMER TATTLES

BLDG. 26-4

by Dutch Norwalt

It has been reported that Maurice Casey drives to Decatur and watches his brother-in-law's TV, free eats and free show. Not bad Casey, not bad at all. . . . Hank Muller is now in his second childhood. He just thought himself a new B.B. gun. . . . Fay Russell finally had to go to a barber and get a haircut. He no longer could do it himself with his new Sunbeam razor. . . . Jerry Moore felt very badly this week as none of the boys complimented him on his new shirt and matching pants. . . . Leo Vuchon has been unusually sharp and witty this week. Could it be the effect of the gas he took, having his teeth pulled, or is he looking forward to moving out to the Bass Foundry? . . . Ed Englert seems to have reformed. He hasn't stirred up any trouble all week. How come, Ed? . . . Happy birthday to Phyllis Borkenstein, who celebrated this week. . . . Seems that Thelma Kistler needs two alarm clocks. The other morning she turned off her alarm and turned over for a little cat nap and her bed fell down. Watch that cat napping, Thelma. . . . Ask Gene Christman why she comes in to work at 9 o'clock some mornings? . . . Dorothea Gaff in the Stacking Group has been transferred back to fifth floor. Good luck, Dorothea. . . . Wayne Weimer is having TV trouble again. It is reported that when Mrs. Weimer operates the set a much better reception is enjoyed.

THE BIG WIND  
SECTION 417 TAYLOR ST.

by Rachel Mounsey

Fred Pyle really is on his toes when it comes to getting ready for work. He came in the other night with his pajamas on under his suit. . . . Jerry McKnown is feeling mighty big now that he is driving a Buick. . . . Cletus Harper is still looking for a housekeeper for himself, so everyone try and help him find one. . . . Norm Wolf surely has excuses when he isn't at work. This one tops them all. He called the other night saying he was at the drugstore getting a fifth of Hada-col for his wife, who was supposed to have had an attack of appendicitis. Gee, Norm, Helen had her appendix removed years ago. . . . Milly Berrand is quite happy now that her son is home from Japan. . . . Geneva Harter is enjoying her new home and TV both at the same time. . . . Belated birthday greetings to Lena Stump. . . . We wish a very speedy recovery to Alger Baulky, who is in the Lutheran Hospital. . . . Welcome back to Angie Fogel after her illness. . . . Vera Jordon has joined our day force. We hope she likes it really well. . . . Pat Sweeney still must have been in a daze when he came to work Monday morning. He was wearing the top of his pajamas instead of a shirt. . . . Mary Satterthwaite really had a tough time last week. On Sunday night she fell down a couple of steps. Mary wasn't hurt, but she couldn't sit down for a day or two. . . . Folks, did you ever find out what happens to cloth when it comes in contact with acid? Little Freddie Graig was seen wearing an apron in front and one in back of him. Freddie claims that was the draftiest day he had ever seen. . . . We all wish Lenore Brown a speedy recovery from her illness and hope to see her back with us soon.

## SLEUTHING in 4-6

by Al Happel

WE WISH a happy birthday to Alma Shenfeld today, January 29. . . . TODAY we bid two of our people farewell. Ruth Richey will become a full-time housewife. We intend to keep in touch with her husband, Bob Richey, located in Marketing. (Ruth refers to him as the goodlooking Bob Richey) which our own Boh Richey resents very highly. Good luck to you, Ruth. Needless to say we shall miss you very much. . . . EPIDEMIC. The other week we reported a "sad sock" story about H. P. Love. Now we have another victim. We cannot blame this on T-Vitis as the latest victim hasn't that "trouble" as yet. . . . No other than our big boss man, Ted Ross, appeared at work and even attended a Staff Meeting with two different argyles. They were mates in one respect however. The basic maroon color matched his tie, but the various squares did not match. One a definite yellow and the other white. He says he had another pair at home just like them too, as says H. P. Love. Then we hear that Bob Johnson appeared at work with two mismatched socks, but he claims a good alibi. . . . HAPPY BIRTHDAY to Jack Seigel on Feb. 4. . . . WELCOME BACK to Leon Diegel after a week illness. . . . WE HAVE the deepest sympathy for Phyl Faulkner and Walley Clayton, because of their big disappointment. The big disappointment was the Allen County Tournament. All the basketball fans in 4-6 hope you two disappointed fans will get over it all. The old proverb saying is, "The best team wins." You do agree with that statement don't you, Phyl and Walley? . . . Last Monday we said our goodbyes to Gene Martz, who left Fort Wayne to become Supervisor of Inspection and Test at our new Jonesboro plant. Gene, we wish you all good luck and hope you will like Jonesboro, Arkansas, as well as you did Fort Wayne.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

An item that escaped our attention and was by no means intentional was the visit to the plant shortly before the holidays by Elmer Armel, one of our pensioners. We are always glad to have our retired co-workers visit us. All of us are glad to see them, and to know they are looking good. Such is the case with Elmer. Our wish is that he would drop in on us more often. . . . Another one of our retired co-workers, from whom we have heard little during the past several years, is Allen Emrick, who left us four or five years ago due to ill health. This reporter received a Christmas greeting card from him and will say that I was very glad to hear from Allen and to know that he is still on top. We often think of you, Allen, and the days you used to sweat it out feeding the assembly line. Now let us hear from you more often and if at all possible pay us a visit. We would be more than glad to have you. . . . Darrel Daniels is now a suburbanite, having moved into his recently completed new home. Having quite a bit of land, he has established a dog kennel at the far end of his acres, coon hounds, Keeshonden, and samoyeds being his specialties. There is one problem that has him licked and that is the disposal of garbage. Lindsey Eastes suggested to him that he dispose of the kennels and start raising hogs. Then the problem of garbage

disposal would be eliminated as the hogs would keep it cleaned up. If he had a surplus of porkers, Howard Harold would gladly take them off of his hands at the same time paying him top price for them. . . . When it comes to fishing through the ice Darcie Campbell has all of the so-called ice fisherman outsmarted. He sets his pole, then returns to the cottage where it is nice and warm. Then he plants himself by a window and proceeds to watch his poles, using high-powered binoculars. When the poles begin bobbing up and down, he races out to them, takes off the fish, and returns to the warmth of his cottage. Not bad, we claim.

## COUNT OFF SECTION 417 TAYLOR ST.

by Marguerite Stahl

The girls in Switch Assembly really rate. Sarah Moore drove to Indianapolis Sunday to bring them some apple turnovers for their breakfast Monday. . . . The tables have turned on Paul Winters. Instead of TV occupying his time, he is assisting the girls with their boots. How about it, Gladys? . . . Talk about being kind to animals. Cozy Walper took her dog for a walk at two o'clock in the morning. Pretty cold at that hour, isn't it, Cozy? . . . Otto Geiger picked up an empty milk jug instead of his lunch pail one day last week. He was quite surprised when he arrived at work and noticed his mistake. . . . Beverly Numbers has been checking off the days until she will be heading south. . . . We welcome Grace Hunt on days from second Shift in Lead Section and hope Mabel Altamuse likes second shift. . . . We are happy to have Goldie Weikel back with us after being absent for four months. . . . We welcome Walter Doenges on days in Test Section from second shift. . . . Our sincere sympathy to the family of Tom Dougherty. . . . Dale Brown was up and had his hair washed and shaved ready to go to work. His wife asked him why he was up so early. When he looked at the clock, it was 2 a.m. . . . Howard Householder was serenaded by his co-workers with the "Happy Birthday" song last week. . . . Congratulations to Hillard Moore on his new grandson. . . . Vadas Putt and Beverly Numbers reported for work in kindergarten with all of their tools Monday.

RETIREMENT PARTY—Agnes Nesswald, seated center, Decatur plant employee, is shown at a recent party given her prior to her retirement. Seated at left is her foreman, L. Meyer, and at right, her general foreman, F. Braun. Standing is H. Kruekeberg, foreman.

## PICK-UPS from 26-3

by Maxine Jordan and Helen Wagner

Emma Meyer has trouble standing on slippery days. When asked if she was hurt, her reply was that everything was still in running order. . . . Audrey Oberly is the proud owner of a new Ford-O-Matic, white sidewall tires, and the works. Nice going, Audrey. . . . Ask Margaret Pelkey how much electricity she has in her body. From what we hear it must be something. . . . We are wondering what Mildred Leazier had on her mind the day she couldn't even recognize her own coils in the oven. . . . Ernie Clark would like to be a tattoo artist. . . . Advice to Ed Lauer: Listen to the sport programs on the radio and you won't lose as much money. . . . The reason Ed Becker is talking so much lately is to keep Al Carper awake. . . . The sample shop welcomes Donna Murphy, Iris Maxton, and Levi Mercer. . . . Gladys McConnell is vacationing in Florida. . . . Dorothy Campton's nerves are settled now that her son-in-law is home from the Army. . . .

There is nothing wrong with Tilly. She just talks into the wrong end of the phone. . . . Frank Clifton says he had sump pump trouble last Wednesday, but it was a wonderful morning to sleep. We are sorry to learn of the death of Nancy McCrea's grandfather. . . . Believe it or not—The days of chivalry are still here. Ray Lovelless took off his shirt and gave it to Ruth Freeland to keep her warm. . . . Anyone who wants their laundry done see Louise Lengerich. She will do it any time. . . . We learned why Erma Werling came in all dressed up. She had her picture taken for the Quarter Century Club. Congratulations, Erma. . . . Ellen Marchenko has been looking in her purse for her lunch. . . . Our new weather predictor is Virgil Bullerman and the new handy man is Jim Pritchard. . . . Safety Sam says: "Go down the stairs on your way home slow enough to count each step and save countless dollars lost due to injury."

## Kindling Available

Orders for kindling are being taken at the Employee Store, Bldg. 8-1 now, Ray Fischbach, manager, announced today.

## RACONTEUR SECTION 114 TAYLOR ST.

by Mary Whitelock

The Lavine household is really in a frenzy. Bill is getting rid of all his kerosene-operated appliances and is putting in lights. Could be getting ready for TV. Huh, Bill? . . . Our deepest sympathy to Whity Van Auken's family at this sad time. Everyone here will certainly miss Whity. . . . Welcome to Frank Conley from Boston College. Frank is a new trainee. We aren't sure as to his eligibility state as far as women are concerned. . . . Good-bye to Doug Campbell who left us for Broadway. We wish him loads of luck. . . . We also want to welcome Glen McNamara from Section 113. We wonder if he is any relation to Susan McNamara in "Private Secretary," a television program. . . . Lou Ann Beauchamp needs to consult a physician, getting up at 5 a.m. to go ice skating. How can she take it, especially with those late hours she was keeping with a GI? That's not all. What's this we hear about Lou Ann phoning movie star, John Wayne? . . . Mike Brayer is mourning the loss of his car. His son got a driver's license. . . . Paul Smith is back from a trip to New Mexico, which he enjoyed very much. He reports the weather is very ideal there. . . . Congratulations to Jules Duke and his wife on the birth of a son. There'll be another rabbit hunter in the family. . . . Now that Marilyn Monroe is married, Vern Daseler can tear up her picture and shut his drawer easier. . . . Bob Duras comes in every morning at 6 to sharpen his wit. . . . Margaret Covan has returned after being a companion to the flu bug for two weeks. . . . Happy birthday to Sandra Brown who celebrated on January 23. We are a bit late, but we mean well. . . . Walt Niemeyer has laryngitis, and all the boys out there seem pretty happy. They say it's so peaceful and quiet.

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Marjorie Reed is really getting good. She forgot her birthday which was Jan. 19 until some of her family gave her a gift. Many happy returns from the 51 frame. . . . Ruth LaPradd was all tired out at work last week after attending the Elex luncheon and theater. She said the girls walked her so fast that at supper time she could hardly make it to the cafeteria. With Ruth Gun's assistance she finally made it back to the 51 frame line. . . . Bob Reinhart must have had the hot foot the other night, as he was working in his stocking feet. Or was it a new pair of shoes? Why don't you just turn the hose on them, Bob? . . . Saturday, Jan. 23, was the big day for Marilyn Deboldt and Jack Craft, who were married. Congratulations to both of you and the best of luck from all of us. . . . We are glad to see Helen Bergman back to work. . . . Jack Adams, our new stockman of the 51 frame Assembly, showed us some lovely pictures of two of his daughters and his lady friend, who with himself are doing great work in the roller dance line. His little daughter, 11, has won awards on several occasions. His older daughter, who is 19 and now married, lives at Key West, Florida. She has done some very good skating, too. The best of luck to you and yours, Jack. . . . We welcome Mabel Altimus to our second trick Lead Section. Hope you like us, Mabel.

40 YEARS WITH GE—A ruby pin for 40 years of service to General Electric was recently presented Frieda Kaiser (seated center). Miss Kaiser joined the company in 1913 in Bldg. 26-4. At present she is a finisher in Bldg. 26-5. Standing (l-r) are Elmer Wagner, E. H. Henry, E. J. Thomas, J. P. Coughlin, Lynn Garman, S. R. Capps, R. J. Kayser, and W. H. Crouse. Seated with Miss Kaiser are Norbert Sordelet and Carl H. Rinne.

## New Drive Opens For Blood Donors

In conjunction with the Fort Wayne-AlLEN County Red Cross Regional Blood Center's need for blood donors, a campaign to secure additional donors among GE employees will be conducted in the three Fort Wayne plants beginning Feb. 10.

A goal of at least 2,000 donors has been set in the plant campaign. Wednesday, Feb. 10, and Friday, Feb. 12, supervisors and foremen will distribute new blood donor cards with pay checks. Employees interested in enrolling should fill out the cards they receive and return them to their foremen or supervisors. Present donors are asked to fill out the new cards also to bring information on their location and previous donations up to date.

In August, 1951, the quota for GE employees was 40 pints of blood per week with more than 2,000 employees signed up for the program. At present there are 800 employee donors remaining, although the need for blood continues to rise.

Blood at the Center is available to all GE employees and members of the community when an emergency arises. The amount needed at present is for use in the community only. It is used in hospitals in cases of illness or accidents.

Completed cards should be sent by the foremen and supervisors to K. W. Michael, Bldg. 18-2 by Feb. 19.

Those who sign up are contacted to donate blood at a time that is convenient for them by department representatives. A list of answers to some of the most frequently asked questions on the Blood program appears on page 5.

## GeCode Club Aids Cancer Research With Guest Night

Tomorrow, members of the Decatur GeCode Club will conduct their annual guest night party at the Elks Home. Fathers, brothers, or sweethearts will be guests of the members. The party will begin at 5:30 p.m.

The club will buy dinner tickets for the Elks Cancer Party and attend a Smorgasbord dinner with other members of the community. Proceeds from this will be given to the Cancer Research Fund.

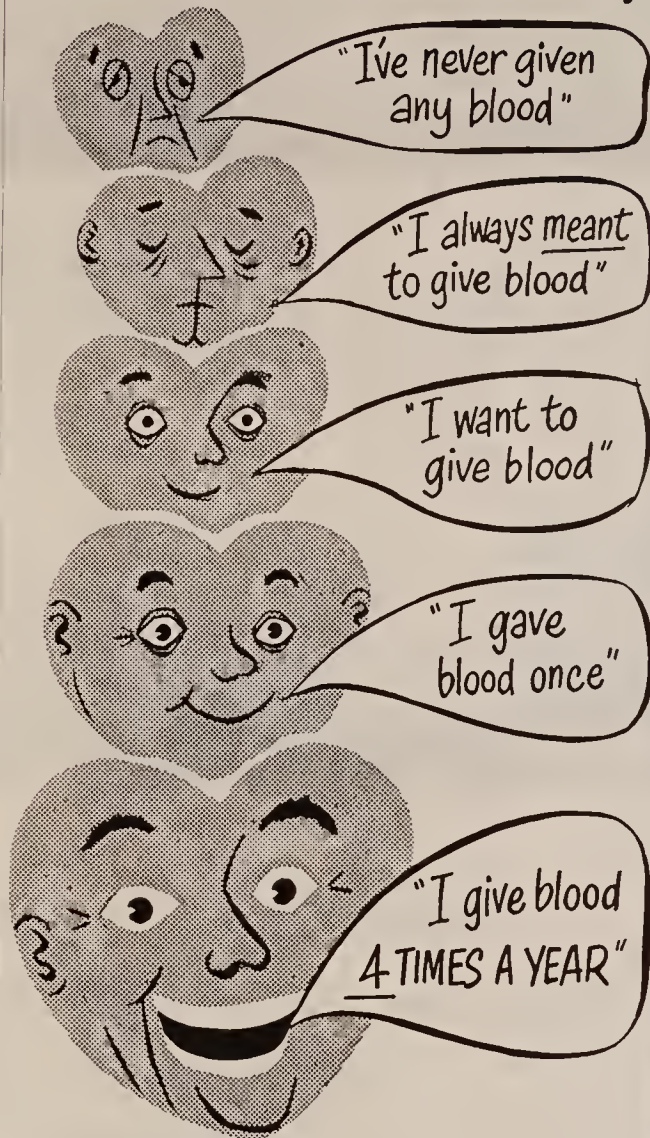

Other items on the evening's agenda include dinner music furnished by Carol and her accordion; games and prizes, and dancing to the music of the Roy Harvey Trio.

Tickets for the party are \$1.50 per person. There will be gifts for members' guests.

First shift chairman for the party is Harriet Pollock and Betty Smith is second shift chairman. Assisting the first shift chairman are: Margaret Fruechte, Viola Mel-

(Continued on page 4)

## HOW BIG IS YOUR HEART?

## Specialty Motor Safety Record Earns Award

The Specialty Component Motor Department has received an Award of Merit from the National Safety Council in recognition of a good industrial safety record. This is the second highest award attainable from the council.

The citation from Ned H. Dearborn, president of the NSC, reads as follows:

"The heartiest and very special congratulations of the directors and staff of the National Safety Council on your fine safety performance—truly a job well done."

The award was presented for operation of 1,482,010 man hours without a lost time accident from October 21, 1953 to December 21, 1953.

Three sections will be awarded local meritorious safety performance certificates for the operation of more than 1 million man hours without a lost time accident. They are Section 415—1,313,443 man hours; Section 417—1,251,518 man hours; Section 401—1,127,290 man hours.

The Specialty Component Motor Department contributed 7,706,437 man hours to Fort Wayne's 479,408,018 man hours accumulated since the last fatal accident, which was Feb. 25, 1929, or nearly 25 years.

Herschel L. Smith is in charge of safety for the department.

## Credit Union Elects, Declares Dividend At Annual Meeting

Officers of the Fort Wayne General Electric Employees Credit Union for the 1954 year were elected last week at the annual meeting. The membership also declared a dividend on the group's earnings.

Glen D. Stapleton, Bldg. 4-6, was re-elected president of the board of directors. Other officers and board members are: William Suelzer, Bldg. 26-2, vice president; Lee Cupp, Credit Union office, secretary-treasurer; Edward Kronmiller, Bldg. 17-1; David Slater, Bldg. 17-2; Willard Smith, Bldg. 4-4; Wilfred Holloway, Bldg. 26-1; Carl Nix, Bldg. 27, and Edgar Gallmeier, Fairfield plant.

Re-named chairman of the credit committee was Roy Berdelman, Bldg. 4-1. Naomi Hippensteel, Credit Union office, is secretary of the committee, and Ford Burnau, Bldg. 27; Jack Pollock, Taylor St., and Barbara Hymen, Bldg. 18-1, are members of the committee.

(Continued on page 4)

## Movies, Dance On Club Bill

A kiddies movie program and square dance are slated on the GE Club entertainment program tomorrow. The movies, beginning at 1:30 p.m., will feature the full-length film, "Comin' Round the Mountain," starring Bud Abbott and Lou Costello with Dorothy Shay and Kirby Grant. In addition, chapter four of the Sea Raiders serial will be shown along with other short subjects.

There will be one showing of the film program only and it is open free of charge to employees' children.

From 8:30 to 11:30 p.m. a square dance will take place in the club auditorium. Johnny Lukens and his band will provide music. The event is open free of charge to employees and their friends.

## TICKETS AVAILABLE AT GE CLUB WEDNESDAY

## Newspaper Man on GE Lab Tour Gave Name to 'House of Magic'

Tickets for the General Electric "House of Magic" show will be available beginning Wednesday, Feb. 10. The show, which explains complex developments of GE laboratories in spectacular demonstrations, is coming to the GE Club stage Feb. 22, 23, and 24.

Four performances will be given each of the three days. Tickets will be available free of charge from members of the GE Club entertainment committee and from General Electric dealers in this area.

The show is conducted by Frank O'Keefe and Bill LeComte, who travel around the country presenting their fascinating program to various types of groups and organizations.

Since the show was begun 25 years ago, audiences everywhere have shown great interest in it. Letters received from students recently rated high demonstrations which made music ride a beam of light, lit an electric lamp with a match, and moved an electric train that obeyed the commands of a man's voice.

The show entertains as it imparts considerable scientific information in an easily understandable way. For example, to explain jet propulsion, the show uses a miniature gas-fueled jet which pushes itself across the stage on a wheel mounting, flashing flames out of its tail.

To illustrate self-synchronizing motors, there is a rigged wheel of

chance that selects the right number at a nod from the magician in charge, plus a concealed flip of the synchronizing mechanism.

The "House of Magic" received its name from a newspaper correspondent, Floyd Gibbons, who was shown through the GE research laboratory years ago. Amazed at what he saw, he called it a "House of Magic." Company officials picked up the name for a Chicago World's Fair display. This was an immediate hit and soon became a standby of the company's public relations program. At present, four two-man units are performing throughout the country day in and day out. All four are booked solidly for about a year in advance.

## February Gave Us Notable Men

February produced, besides Washington and Lincoln, other famed Americans.

The inventor *Thomas Alva Edison* was born Feb. 11, 1847. He is noted especially for his invention of the incandescent electric lamp, the phonograph, and the motion picture camera. However, he took out more than 1,000 patents on his various inventions, which ranged from electric pens which developed into the mimeograph, to a special incandescent lamp globe which was the forerunner of the radio tube.

Another inventor, *Christopher Latham Sholes*, was born Feb. 14, 1819. He has been called "the father of the typewriter" because he was the first inventor to follow the idea of such a writing machine through to commercial success.

*Horace Greeley*, founder of the New York Tribune, was born Feb. 3, 1811. To him is credited the advice: "Young man, go West!"

*Charles A. Lindberg*, the first man to make a solo flight across the Atlantic, was born Feb. 4, 1902. In his plane, "Spirit of St. Louis," he hopped off from Mineola, L. I., on May 20, 1927, and landed in Paris the next day.

*Wendell Willkie*, author of "One World" and candidate for the presidency of the United States in 1940, was born Feb. 18, 1892.

*William Frederick Cody*, ("Buffalo Bill"), frontiersman, scout, and showman, was born Feb. 26, 1846.

## SICK LIST

The following employees were reported on sick list, dismissed from the hospital, and returned to work:

### Sick List

Mabel Clark, Flora Crawford, Raymond Dotzer, Sarah Ford, Victor Reverion, Edna Rohrbach, Modene Smith, Floyd Flisher, June Gaunt, Helen LaRue, Edna Parker, Dorothy Money, William Hedge, Elizabeth Brown, Wayne Chapman, Opal Snyder, Truth Enyeart, Harry Kessler, Lillian Hergenroether, Esther Pettit, Marjorie Ponsot, Hugh Reynolds, Lois Sink, Otto Witte, William Mauger, Delores Johnson, Ashley Evans, Lucille Bates, Joan Schrock, Emily Nierman, Loretta McCarroll, William Berning, Bertha Siebold, Imo Pitts, Catherine Meyer, Armiston Phillips, Marguerite Dasher, and Edward A. Harrison, Jr.

### Dismissed From Hospital

Howard Shipman, Jennie Vaught, Doris Olinger, Charles Hooley, Burwell Hoopingardner, Leonard Jenne, Harriet Palmer, and Naomi Robinson.

### Returned To Work

Delores Johnson, Don Brighton, Robert Mee, Fannie Earhart, Sylvanus Baker, Paul Beauchamp, Bertha Siebold, Charles Grim, Marjorie Ponsot, Robert Treace, Sr., Mary Lopez, Luther Childers, Joseph Adams, John Hippenhamer, Maude Mountz, Jay Cornell, Harold Baehler, Mable Binkley, Minnie Prumm, Jessie Ohneck, Charlotte Blauvelt, Pauline Settle, Leonard Deal, Delmar Mickelson, John Zink, Clara Edgar, Marciella Roffelson, Aurora Pena, Virgil Link, Marie Anderson, Mary McKinney, Danny Cartan, Lucy Alexander, Edna Harth, Lucille Bates, Viola Bearman, Max Bowers, Don Brighton, Willis Mettler, Patricia Lebold, Eva Hoover, Opal Baulkey, Ellen Dittlinger, Maurice Cook, Agnes Shane, Bernice Lund, Gladys Elliott, Betty Hoffman, Laurel Winans, Louise Bell, Betty Baker, True Sheets, E. Joan Lindeman, George Hill, William Berning, Joseph Dennis, Edna Kern, Howard Shipman, Jennie Vaught, and Doris Olinger.

## ECHOES from 19-2

by Fred McIntyre

To our co-worker, Ernest Linn, we extend our sincere wishes for a speedy recovery. Ernest was struck by an automobile recently, sustaining severe injuries. Ernest is now a patient in the Lutheran Hospital. Knowing him as we do, a call or card while he is confined and visitors later, will be deeply appreciated by him. . . . Walter Duhn and wife were involved in an accident, in which their car was almost a total wreck. Walter escaped with no apparent injury, but his wife was not so lucky. She suffered severe injuries and we wish a speedy recovery to her. . . . Anthony Lupe has returned to work after spending several weeks at home attending his wife, who has been ill. Her condition is improving. . . . Don Distel purchased a GE television set. When he was asked about a certain program, "Badge 714" to be exact, he remarked that the number he got on that program was 427. He must have been thinking of the highway route number he travels to his lake

Mr. and Mrs. H. D. "Bill" Heaston celebrated their 50th wedding anniversary Jan. 21. Mr. Heaston, who retired in 1946, lives at R. R. 3, Auburn. The couple has four children and eight grandchildren.

Three sons are employed here. They are: Fred Heaston, Bldg. 14; Justin Heaston, Section 113, Taylor St.; and Dewey Heaston, Bldg. 20-1. A grandson, Robert Heaston, is employed in Bldg. 26-2.

cottage at Crooked Lake. . . . We congratulate Rex Mericle, formerly of Bldg. 19-2 and now of the Works Photography Dept. He paid his former co-workers a visit recently and passed out cigars, the occasion being an addition to the Mericle household, a boy. . . . Homer Hibler wore his birthday present to work this week, a new red shirt, given to him by his wife. He won't tell his age anymore. . . . We extend our sympathy to Robert Lauer, who suffered the loss of his father recently.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

Clyde Enslin came to work with a pair of blue jeans tucked under his arm. As he proceeded to don them he noticed that the cuffs were a bright red plaid, and that's not all. There was a side zipper enclosed in it too. Clyde thought, "Nope, better not wear these. The boys will rib me too much." That night Clyde took his daughter's blue jeans home. . . . Cal Marhenke has a complaint to make. He has worked in test almost 25 years, and not once has he had his picture taken for the "art gallery" in our office. Well, Cal, if they don't take care of that little matter within the next 25 years, I'd say to heck with them. . . . A welcome is extended to Bob Dowell who is taking test training here. Bob hails from Texas. I imagine that you miss the wide open spaces down Texās way. Hope you will like your stay here. . . . Clayton Barricks informed his wife that he would like to have their television set put in the kitchen so he could watch TV, and yet not miss any good eating. The other night company came to Barricks, and of course they just had to watch TV just when soup was on. Not our Barricks though. He stayed right out in the kitchen and ate supper. TV must not have been so good or Barricks was powerful hungry. . . . Nothing makes Bill Hoelle happier than to win a bet. He bet Helen Staley a quarter that the Income Tax schedule was printed in the GE NEWS, and Helen disagreed with him. They looked it up and found that it had been. Bill had that "cat that licked the canary" look on him all the rest of the day.

## DECATURITES

by George Laurent

IT AIN'T NECESSARILY SO  
Now the following happened sometime ago  
And these two fellows you all well know.  
I could hear Lloyd Ahr whistle for quite a way  
And soon I could see him swing and sway.  
Heading for the cage, but he must have been late  
For no Fred was there one him to wait.  
Fred, turned this way and that, looked all around.  
But our Fred was nowhere to be found.  
By this time Lloyd was getting so weak  
Thought I, poor man, I'll have to find him a seat.  
He rallied, however, and called, "Fred, Fred, Where's Fred?"  
Well, I guess Fred went to bed and covered up his head.  
When Fred was told about it next day  
He said, "It wouldn't hurt Ahr to starve anyway."  
I had just left and gone up the aisle  
So I know I was gone but a little while.  
Said Lloyd, "No remarks, why worry about getting fat  
I'm naturally inclined to be like that."  
"The best sandwich yet and sure to please  
Is rye bread, sweet onion, and limburger cheese."

We are happy to hear that Mary Maloney's "George" is recuperating very well from his recent operation. Latest reports are that he is up and around meowing again. . . . Happy birthday to Doyle Gehres, Dick Breckenridge, and Dorothy Schnepf of the office. Dort treated with her delicious homemade cupcakes and surprised us later in the day with a piece of the birthday cake Mary Fennig had baked for her. Thanks a million, Dort, we all wish you had more than just one birthday a year. . . . Can you imagine anyone sitting perfectly erect and still landing on the floor? I have heard of people being thrown from horses but not from a chair. At least that is what Mary Fennig claims happened to her. . . . If you are looking for a snack to replace popcorn at a cider party this special recipe of Mina Stevens, leading operator of Dept. 7-50, is recommended. Most ingredients can be obtained at any food or hardware store and it's easily prepared in any oven, preferably outside. Samples by Mina packed in heavy cardboard containers were recently distributed and well received. Goop, a snack, combines pretzels, pumpkin seeds, three kinds of nuts and cereals, three different kinds of salt, and two sauces. Antidote—Any good strong drugstore product.

Fort Wayne has 110 churches of all denominations.

54 CREDIT UNION OFFICERS on the board of directors conducting their first meeting are seated (l-r): Edgar Gallmeier, Fairfield; Edward Kronmiller, Bldg. 17-1; Willard Smith, Bldg. 4-4; Carl Nix, Bldg. 27; Glen Stapleton, Bldg. 4-6, president; and William Suelzer, Bldg. 26-2, vice president. Standing (l-r): David Slater, Bldg. 17-2; Wilfred Holloway, Bldg. 26-1, and Lee Cupp, Credit Union office, secretary-treasurer.

EARN \$60 AWARD—Marion E. Oman (right) tells O. J. Meyer about his idea to move a lathe in order to reduce handling time. This suggestion brought Mr. Oman an additional award of \$60 last month. The suggested is a grinder in Section 113 at Taylor St.

# GE Squares to Fete Sweethearts Feb. 13 At Valentine Dance

GE Squares Club members will entertain their sweethearts at a Valentine Day dance Saturday, Feb. 13, at the Squares Hall. Bob Snowball and his orchestra will provide music for the informal event from 9:15 p.m. until 12:15 a.m.

Tickets will be available at the door the evening of the dance. Price per couple for members is \$1.75, tax included, and \$2.25 for non-members.

Robert W. Barker, Bldg. 26-3, is chairman of the dance committee. He is being assisted by David W. Day, Bldg. 26-2, special effects; Al F. Larmann, Jr., Bldg. 26-2, publicity; Mrs. Robert W. Barker, Squares Wives representative, and Robert Wagner, Taylor St., Test Engineers' representative.

## MTP Group Plans Feb. 19 Meeting

Members of the Manufacturing Training Program will hold a dinner meeting Friday, February 19 at Manochio's Restaurant at 7 p.m. Following dinner, Ab Martin, general manager of the Hermetic Motor Department, will speak to the group. His subject will be "Opportunity and Success."

Co-chairmen for the meeting are Johnny Meyer and Burt Epstein. Members planning to attend should make reservations with Ron Roth. At the present time there are approximately 35 trainees in the program in Fort Wayne.

## APPRENTICE BROADCAST

by James Schwartz

The welcome mat has been rolled out in full force this week as five new fellows join the ranks of apprentice toolmakers and draftsmen. The machinist-toolmaker apprentices include Dean Hardy and George Bice. Kenneth White, William Gill, and Donald Feber have enrolled as drafting trainees. . . . Congratulations are in order for Mel Guillaume. Mel has recently taken the fatal step of matrimony. . . . The apprentice school basketball team split even on the first two games of second half league play. Our boys downed the Hermetic quintet Tuesday night, 59-27, only to lose a heartbreaker to GE Squares, 51-49. . . . We have been asked to inquire why Myron Auer always has a comb in his possession. . . . Plans are under way for a little bus trip up to Chicago sometime this spring. We plan to charter a bus or two and spend the day in the Windy City,

## 1948 Bond Buyers Please Take Note

Employees who purchased bonds in 1948 under the Savings and Stock Bonus Plan are urged to deliver their receipts, together with transmittal Form, TD-374, to their payroll units this week. Arrangements to turn bonds and accumulated income checks over to participants can be made only after receipts and transmittal forms are received.

Employees who cannot locate custody receipts should contact payroll.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

We wish a speedy recovery to Jean Hockenberry's little boy who had his tonsils out last week. Emma Meyer and husband spent Sunday at their lake cottage. The newest addition to Helen Elbert's home is a television set. We extend our sympathy to Edna Turnbaugh who lost her father last week. . . . TELEGRAPH: We bid farewell to Joan Roesner, who is getting married Saturday evening. The best of luck, Joan and Bob. . . . Note to Tom: Happy birthday on February the first. Sorry we're late. . . . We're wondering how late these "Stags" last when one maintainer comes to work at 9 o'clock still half asleep.

## Decatur GE Club To Stage Dance At Moose Home

The Decatur GE Club will stage a Valentine Dance Saturday, Feb. 13 at the Moose Home. Harry Miller and his orchestra, of Huntington, will provide music from 9 p.m. until 12 midnight.

Members of the club, which includes all Decatur employees, will entertain their husbands, wives, and sweethearts at the event.

Oran Schultz, chairman of the party, reported that prizes will be presented during the evening also.

Assisting the chairman are: Harriet Pollock, Rosemary Miller, J. K. Eady, Herman Keller, J. Baker, Jay Moser, and Clem Snell.

## GE Squares Wives Plan Potluck Dinner For Husbands Tuesday

Husbands of GE Squares Wives members will be guests at the club's next meeting, Tuesday, Feb. 9 at the Squares' club rooms. Beginning at 6 p.m., a potluck dinner will open the guest night meeting.

A program of entertainment including bridge and canasta has been planned. Mrs. R. L. Hamilton is in charge of entertainment and Mrs. L. N. Nelson is chairman of the dinner.

Assisting the chairmen with arrangements for the meeting are Mrs. R. D. Jones, Mrs. R. F. Robinson, Mrs. George Schroeder, Mrs. H. L. Thomas, Mrs. C. J. Dougherty, Mrs. J. A. Stokke, and Mrs. E. T. Brink.

DEVICES NEW WAY—Zella M. Cluts, Bldg. 26-5, earned \$65 recently for devising a new fixture to save time in assembly of terminal boards. Shown congratulating her on her award are (standing l-r) Don Waldrop, Paul Black, W. R. Crouse, and Lloyd McNamera; (seated l-r) Norbert Sordet, Zella Cluts, Sam Macy, and Wayne Weimer.

## DEATHS

Leonard F. Harsch

### Rites Held Yesterday For Auto Crash Victim

Services for Leonard F. Harsch, 46, were conducted yesterday at the C. M. Sloan & Sons Funeral Home by the Rev. Elmer E. Voelkel.

Mr. Harsch was killed at an automobile crash on the Lima Rd. one and a half miles north of the city Monday, Feb. 1, at 9:45 p.m. He was a magician and was on his way home from a performance at a Kendallville school when the fatal accident occurred. His automobile crashed into the side of a stalled auto, which had rolled out of a private driveway onto the road. Burial was yesterday in Lindenwood Cemetery.

When he joined GE in 1925, Mr. Harsch did armature work. He became a production clerk in 1931 and was a clerk in planning, wage rate, and methods in Bldg. 26-2 prior to his death. He was a member of the Quarter Century Club.

In addition to his wife, Louise, survivors include two daughters, Becky Jo and Beth Ann; his parents, Mr. and Mrs. Edward Harsch; two sisters, Mrs. Raymond Hess and Mrs. Verlin King, and two brothers, Ralph and Donald Harsch.

### Former Employee Dies In Veterans Hospital

A former GE employee, Otto E. Kammeyer, 50, died Tuesday, Feb. 2 at the Veterans Administration Hospital. Services were conducted yesterday at the D. O. McComb & Sons Funeral Home. The Rev. Edmund Weber officiated. Burial was in Lindenwood Cemetery.

Mr. Kammeyer came to GE in 1918 and was a hand screw machine operator in 1944 when he left the company.

Surviving are two brothers, Walter W., of this city, and Herbert D., of Sebring, Fla.

### William H. Menze, 63 Dies at Home Tuesday

William Henry Menze, 63, of 2919 Smith, died Tuesday, Feb. 2, at his home. Services will be conducted today at the D. O. McComb & Sons Funeral Home by Dr. Paul

## GeCode

(Continued from page 1)

chi, Hilda Staley, Dorothy Shaffer, and Barbara Gaunt.

Second shift members assisting the chairman are: Bernadine Meyer, Barbara Geyer, and Bernice Weisz.

A chairman to be responsible for taking care of the GE Code Club store each month has been appointed. Lists of the chairmen have been distributed to members. The store will be open two days per week, Thursdays and Fridays, at present.

## Credit Union

(Continued from page 1)

The supervisory committee elected by the membership is composed of Terrace Colvin, Taylor St., chairman; Richard Pinkham, Taylor St., secretary, and William Spahr, Bldg. 8-2.

Members of the Credit Union may take or send in their pass books to the office at 1021 Swinney Ave., to have dividends recorded, Mr. Cupp announced. They are reminded to include their return address by building and floor to insure quicker return of their books.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

We wish to extend our deepest sympathy to Bertha Nuckles in the recent death of her father. . . . Charlotte Blauvelt and Clarence Kabisch have returned to work after extended illness. . . . We wish to welcome June Getty, Kathryn Garman, Donald Treuchet, and Pauline Settle, to our din. . . . Someone should tell Nadeen Reece that those milk cartons aren't made for hot liquids. She found out the hard way. . . . Eddy Howard finds speeding just doesn't pay. As a result he has to appear in court. Good luck, Eddy. . . . Ed Birely was fishing over the week-end and was catching them 15 inches long. Some of the boys think he was catching snakes, not fish. . . . Margaret Judge was crowned queen for doing all perfect work the other day. How does it feel to be a queen, Margaret? . . . Clarence Gardt celebrated his birthday at work, Sunday, but the girls brought in three cakes and had chicken. . . . Mary Casanova brought Dorothy Huffman in a nest of eggs and put them right beside her. Could this be because Dorothy is always laughing? . . . Alma Welch was prepared the other morning. She started to put on her work apron and she still had the one on that she was wearing at home. . . . We wish a speedy recovery to Hazel Graham, who is on the sick list. . . . We all wish Clarence a happy birthday and many more.

L. Dannenfeldt. Burial will be in Concordia Cemetery.

Joining the company in February, 1943, Mr. Menze worked at Taylor St. He was a miscellaneous laboratory man in Bldg. 28 until April 1 last year when he took a leave of absence for illness.

Surviving are: his wife, Ida; two sons, Hilbert and Lester; two daughters, Mrs. Ted Nelson and Mrs. Harold Pierce; two brothers, Fred and Henry; and two sisters, Mrs. Minnie Berning and Mrs. Gustav Wiehe.

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

We wish to welcome Eugene Miller to the first trick and hope he enjoys working with us. . . . Ralph (Highpockets) Garrett is vacationing with his better half in Florida, the land of sunshine and bathing beauties. We expect some dandy snapshots when Ralph gets back. . . . Clara Volz, the author of "Over Our Way," said in a recent article that even though Libera placed his piano first in his affections, she wouldn't mind playing second fiddle to a "Baldwin." The way I hear it, Clara is playing first fiddle to a handsome chap on the other side of the ramp, but as to whether he is a "bald one" or not, I couldn't say. . . . Al Mason took the safety man into the sand-blast last week to show him a faulty nozzle. When Al took hold of the nozzle, it began to roar and swish around like an angry serpent and Al and his companion took off like the race horses at Santa Anita. It was a toss-up as to who reached the front door first. . . . We have all heard of shows that had the audience rolling in the aisles, but when Al shows his home movies, he has everybody standing on their heads. He runs them upside down.

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Congratulations to Hazel Dilworth and husband, who celebrated their 25th wedding anniversary last week. They took in the hockey game. The girls surprised Hazel with a cake with her and her husband's names on it. She also got cards with quarters on them. . . . Did you girls hear Mrs. Rosie Overland and children on "One Moment Please." They received free tickets to the Gene Autry Show at the Coliseum. Mrs. Overland is Ruth LaPradd's daughter. . . . What's this we hear about Eva Garardt bumping into one of the foremen? You better see the eye doctor, Eva. . . . Lola Christopher is on the third shift. We miss you, Lola. . . . Some new faces have transferred from Charlie Prine's line to John's. They are Marilyn DeBolt, Lola Christopher, and Mary Marquardt. . . . How about the cats Eva Webber has? Is there a vet in the house? . . . We sincerely wish a speedy recovery to the mothers of Hilda Hirschy and Mabel Moser, who are both seriously ill. . . . We missed Edna Parker and Opal Snyder, who were both off ill this last week. . . . Bob Huhn has a dependent at last, little Billy Huhn. . . . Norm Wolf's wife is home from the hospital at last and Norm is very happy. . . . Coy Weber, who has a dog and cat, a parrot and parakeet, is looking for a monkey. How about a baboon, Coy?

The following employees have entered the Armed Forces: Lawrence W. Norquist, Frank R. Strang, Donald L. Connin, Howard R. Nonken, Dennis R. Howell, Donald C. McMahon, Ralph E. Rolape, Jr., and Gaylord P. Morris, Jr.

## GE ON RADIO AND TV

6:15 p.m. Monday through Friday, featuring Hilliard Gates.

## Robert J. Duras Assumes Post As Manufacturing Specialist in Sect. 114

The appointment of Robert J. Duras as manufacturing specialist in General Purpose Component Motor Section 114, has been announced by Fred H. Campbell, superintendent of the section.

Joining the company in June, 1941, Mr. Duras went on the test engineers' program at Schenectady. The following year, he became supervisor of test at the Kokomo plant. He moved here in 1943 and was assistant to the supervisor of fractional horsepower motor inspection. Later, he had positions as supervisor of cost reduction, assistant supervisor of general planning, and supervisor of sub-contracting. Prior to his present assignment, he was Form G specialist at the Decatur plant.

A graduate of Pennsylvania State College, Mr. Duras received his BSEE degree in 1941. He is a registered professional engineer in the State of Indiana and is a member of the AIEE, FWAGEE, and Fort Wayne Engineers Club. He lives at 108 W. Masterson Ave.

Robert J. Duras

## WINTER STREET JOTTINGS

by Alma Elliott

Latest news on fishing: Frank Lemish drove 142 miles to go fishing only to come back home empty-handed. . . . Wedding notes: Mary Leiter was married last week. Her department gave her a beautiful floor lamp. Dave Berghorn was married Saturday to Coral Behrens. Congratulations to both couples. We know you'll be very happy. . . . By the way, if anyone sees a 1951 Chevy it might very well belong to Mary. It seems her car was stolen from a Broadway parking lot.

Vivian Curran is breaking in Betty Thompson's new Ford and also her eggs. It seems Vivian got in behind the wheel of the car and stepped right into some eggs that were on the floor of the car. Moral of this story: Never put eggs on the floor of your car. . . . As the story goes, a parked car hit Neal Daley and it was so icy last week that a post slid into Al Disler's car.

What's this we hear about Carl Hofacker's sudden interest in ice skating? There couldn't be a girl involved, could there? . . . Welcome To: Eva Penn and Ada Romanowski on the Hermetic Motor Line; Jim Hunt in the Tool Room; Barbara Hurni, our new mail clerk; and Barbara Masters, a newcomer to Finance. . . . Carole Calkins is back from her siege of appendicitis. Glad to see you back, Carole.

Speaking of appendicitis, Alma Elliot is the latest victim. Hurry back, Alma. We all miss you. . . . Jan Conroy is out with the flu. Hurry and get well, Jan. . . . What's this we hear about Dixon Hemphill and George Morgan's home? Can't you just imagine how dark it would be if 50 light bulbs were unscrewed? Their furniture was also rearranged. Can't you almost picture them walking in the front door and falling over a davenport?

Congratulations to Edna Kuhlman on her recent birthday. Everyone in her department gathered around and sang "Happy Birthday." . . . We would like to express our sympathy to Mary Schwartz on the recent death of her father.

## from the panel's point of view...

Four GE engineers on the arrangements committee for Engineers' Week (Feb. 21-27) in Fort Wayne comprise today's panel.

## SHOULD THE PRESIDENT'S TREATY MAKING POWERS BE LIMITED AS THE BRICKER AMENDMENT PROPOSES?

James H. Capps, Taylor St.: "Evidently, a President and the required two-thirds majority of senators can enact treaties which contravene the Constitution. Also, evidently, a President can make secret agreements which may not be in the best interests of the country and may not be constitutional. This seems obviously improper. Therefore, we need a Constitutional Amendment eliminating these possibilities. The exact wording of which, it appears, will have to be a compromise."

Steven A. Zimmerman, Bldg. 28-2: "The Bricker Amendment appears to be a much needed safeguard to our way of life which is dedicated to 'government by the people'."

Richard W. Dochterman, Bldg. 4-6: "No! Not as the Bricker Amendment proposes. The amendment as proposed would upset the delicate system of checks and balances between the executive, legislative, and judicial branches of the Government that have worn so well with time. A need for an amendment requiring executive agreements to be pursuant to the Constitution is well recognized. However, it should not further restrict the freedom of the executive branch of the Government to act for the United States."

C. J. Herman, Bldg. 4-6: "No! This is not the time to risk any slow-down in our country's foreign relations machinery. The Presidential branch of government processes more than 100 agreements, many of treaty calibre, every day. Congress is not geared to handle these quick, daily decisions. The intent of the Bricker Amendment is good. Execution under existing Congressional procedures is impossible."

# Blood Donors Want to Know!

### Q. Who can give blood?

A. Any person age 21 through 59 who is in good health and weighs 110 pounds or more. Those 18 through 20 years of age may also give blood, provided they have parental consent on form provided by the American Red Cross.

### Q. How often may one give blood?

A. You will be contacted by the GE Blood Donor representative approximately once every four months. This will depend upon the number of active donors' cards we have on hand. Donations may be made as often as once every 8 weeks, but not more than five times in any 12 months.

### Q. Should a donor avoid certain foods before giving blood?

A. Yes. During a 4-hour period before his donation, a donor should avoid heavy, fatty foods. Included are: eggs, meat, cream, salad dressings, butter, fried foods, and the like. However, following donations the donor is entirely free to return to his normal, healthful diet.

### Q. How much blood is in the body?

A. In the average, healthy adult, 12 to 13 pints.

### Q. Does a donor experience any noticeable effect from giving blood?

A. A healthy person should feel none whatever. The entire procedure is painless. Giving blood does not lower resistance to illness.

### Q. What precautions are observed for the donor's safety?

A. For the safety of both himself and the recipient of his blood, each donor relates certain facts of his medical history. A nurse asks him about past illnesses. His blood pressure, temperature, pulse, weight, and hemoglobin level are determined. Occasionally these medical

checks reveal physical disorders to the prospective donor which may need his attention and thereby perform a real service for the individual.

### Q. What recognition does the donor receive?

A. He is entitled to wear a pin designed to flatter any lapel or blouse. A few days after his donation, a donor card is mailed to him. The card serves a triple purpose: to thank him for his donation, show the dates of his donations, and record his blood group and Rh factor (determined in the center laboratory following donation). This card is important to have in case of an emergency. Donors also may have a Blood Donor decal for use on their car window, or some other place as they see fit.

### Q. What is blood made of?

A. 55 per cent of the blood is a straw-colored liquid called plasma, which is itself 91 to 92 per cent water and 7 to 8 per cent protein. Plasma also contains small amounts of salt, sugar, and other substances.

45 per cent of the blood is made up of cells, of which there are three kinds:

\*Red cells, the oxygen-carrying vans of the blood system. Approximately 30 trillion of them bump around in the average person's bloodstream, bringing oxygen to the tissues and carrying away carbon dioxide.

\*White cells, the body's warriors. In number, they average 1 to every 600 red cells; they are of two kinds—those that attack and destroy invading bacteria, and those that clean up after the battle.

\*Platelets, which help in the coagulation of blood after injury. The average person has

a trillion and a half of them.

### Q. Does blood differ in individuals?

A. Yes.

Blood groups are inherited from one's parents or grandparents just as are the color of one's eyes or hair. A blood group is part of an individual and never changes throughout his lifetime. Because of one's red blood cells, four situations are possible.

\*Group A: These people have a carbohydrate-like compound in each of their red blood cells that is called the A substance. Such persons have another substance in their plasma called anti-B. About 40 per cent of Americans are in this group.

\*Group B: Like the Group A people, this group has a similar situation in respect to cells and plasma—only this time the cells contain the B substance and plasma has anti-A in it. Some 10-12 per cent of Americans have B blood.

\*Group AB: A few people have both A and B substance in their cells. In this case, there is neither anti-A nor anti-B in the plasma because the anti-A in plasma reacts with A substance in cells and anti-B reacts with B. Only 3-5 per cent of Americans have both A and B in their cells.

\*Group O: The largest number of people in this country (45 per cent) have neither A nor B in their cells but usually have small amounts of both anti-A and anti-B in their plasma.

### Q. Where does blood collected by the Red Cross go?

A. With the national defense blood program now in operation, Red Cross has four potential des-

tinations:

\*Community hospitals. The Red Cross Blood Program was originally established to supply these; each participating hospital within a regional center's jurisdiction receives blood on a regular schedule—weekly, bi-weekly, or daily according to the hospital's needs.

\*Overseas fighting fronts. Whole blood for these is delivered to certain designated points for trans-shipment by military authorities.

\*Commercial processing laboratories under contract to the Department of Defense. These laboratories make dried plasma and other blood derivatives from the blood they receive.

\*An emergency reserve at blood centers. Blood so held is available to meet a sudden need anywhere.

### Q. Does the Red Cross charge for blood collected through its centers?

A. Never.

### Q. Is there any substitute for blood?

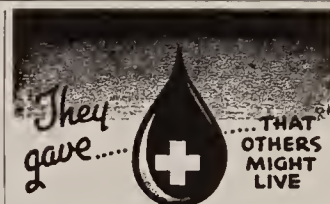

A. None has so far been discovered.

### Q. How much blood is required to supply the civilian need?

A. Approximately 3,700,000 pints a year could fill the nation-wide community need for blood.

### Q. Where is the Fort Wayne Regional Blood Center located?

A. The Regional Blood Center which collects and processes blood from 37 counties in Northern Indiana and Western Ohio is located in the Fort Wayne-Alan County Chapter House of the American National Red Cross at West Berry and Ewing. Free parking is provided next to the Blood Center on W. Berry and Ewing Streets.

The following people donated blood during the week ending Jan. 22.

Charles R. Atkinson, Myron Lowe, Jimmie Roggensee, Paul E. Anspach, Ralph E. Arney, Benjamin Conner, Max Decker, Miss Edith Dreifke, Merle A. Franke, Mrs. Pauline Kirchner, Donald J. Koestler, Robert W. Lagemann, Maurice Libbing, James F. Linn, Troy Long, Cletus E. Lothamer, Charles P. McAfee, Walter T. McDougall, James McFeely, Kenneth W. Michael, Robert E. Morris, Ivan R. Osterman, George A. Silk, and James H. Zuber.

## TALES from TAYLOR SECTION 113 TAYLOR ST. by Harry Parker

This week we make a direct departure from our usual orthodox manner, to pass on to our readers some food for thought and sound logic. These standards herewith presented, we believe to be the four pillars of a new age. First, absolute honesty. Honest apology is the high road to lasting peace. Secondly, absolute purity, a great cleansing force through the nations. Thirdly, absolute unselfishness. There is enough in the world for everyone's need, but not for everyone's greed. Lastly, absolute love. If everyone cared enough and everyone shared enough, everyone would have enough. In bringing this to a close, let us at all times remember that all American citizens are brothers of a common country, and should dwell together in bonds of fraternal feeling.

An old maid is someone who's spent too much time chinning and not enough time necking.—Pearl Bailey.

# Early Tax Filing May Save You Money

This article is based on material supplied by the American Institute of Accountants, national professional society of certified public accountants.

When it comes to making out tax returns most of us operate on the time-honored principle: "Never do today what can be put off until tomorrow." Then we look at the calendar one day and discover that "tomorrow" is March 15, the Day of Reckoning for the average taxpayer.

This not only runs up the electric light bill for that all-night figuring session on March 14, but, says the American Institute of Accountants, it also may enrich the Federal Treasury at the taxpayer's expense. The reason? Haste makes waste—waste of possible tax savings.

If you want to give yourself the best possible break on your federal income tax, file early, prepare your return carefully, and save your records—receipts, cancelled checks, etc.—to back up your deductions. And, if you find Uncle Sam owes you money, early filing means a quicker refund.

Here's a brief view of how the income tax affects some typical employees. Do you recognize yourself in any of these situations?

## The Long and the Short of It

Lazy Louis takes the easy way out. He signs his name to the simplified Form 1040A and lets the government figure out his tax for him. He saves three hours and loses \$30 that he could have cut from his tax by taking all his deductions. Thrifty Theresa lists all her deductions on Long Form 1040 and gets a refund check that comes in mighty handy after Christmas shopping. Clever Carl knows that the tax table (which allows about 10 per cent for charity, interest, taxes, medical expenses, etc.) gives him a lower tax than he would get by figuring his actual deductions, so he uses the Short Form 1040.

## Matrimonial Bliss

Newly wed Nat was so excited he forgot to claim his additional withholding tax exemption until three months after the marriage. He won't lose anything, though, because he'll get credit for all the withholdings when he files his return. Also he and his wife will each get a \$600 personal exemption. They are filing a joint return—the best procedure for most couples.

A joint return would be no help, however, to Healthy Harry and Ailing Alice. Both had income, Harry \$5,000 and Alice \$4,000. Alice had \$1,400 medical expenses and Harry had \$500 deductible expenses of other types. On a joint return they could claim only \$950 for medical expenses (\$1,400 less 5 per cent of their combined income). Instead they are filing separate returns and Alice will deduct \$1,200 for medical expenses (\$1,400 less 5 per cent of her income), for a saving of \$61.50 on their total tax bill. They worked it out both ways, before filing, to see which would be cheaper.

Split-second Sally presented her husband with twins just before the stroke of midnight on December 31. Her timing was excellent, because the New Year's Eve babies each provided a \$600 exemption for the couple on their 1953 tax. If the twins had been born just after midnight the exemption would not have applied until the 1954 tax.

## Exemption for Dependents

Lucky Larry is claiming a \$600 exemption for his daughter, although she has been working since November. He can do this because she earned less than \$600 in 1953 and Larry provided more than half her support for the year. For a dependency exemption to be allowed the dependent must also (1) not be claimed as an exemption in a joint return with her husband (or his wife), (2) be either a United States citizen or a resident of the U. S., Canada or Mexico, and (3) be closely related to the taxpayer, as defined in the tax instructions.

## Changing Houses in Mid-Year

Prosperous Pete sold his bungalow on North Tenth Street and bought what the agent called "a comfortable home for gracious living." He closed the deal on his new place before the sale of the bungalow was completed. Just one thing bothered him. Although he had made no improvements since buying it in 1940, he got twice as much for the bungalow as he had originally paid. He wondered whether he would have to pay tax on his "profit." Pete learned that no tax is due under the present law since he purchased and occupied a new residence within one year before (or after) the sale of his

former residence. If the new house had cost less than he received for the old one, he would have had to pay tax on the difference as a "capital gain."

Home-owner Horace doesn't miss a bet when it comes to taking tax deductions. Of course he knows that he can't deduct depreciation, repairs, improvements, or payments on the principal of his mortgage. He has plenty of deductions this year, nevertheless, with items for interest on the mortgage, local real estate tax, interest on a home-improvement loan, and \$50 damage from a windstorm (not covered by his insurance).

## Veteran from Korea

GI George came back from Korea in July and was hospitalized until November. The money he has earned since he came back to his civilian job has to be reported, of course, but he owes no tax on his pay as an enlisted man for any month during which he served in the combat zone or was in the hospital recovering from his wounds (the first \$200 of an officer's monthly pay is similarly exempt). George's taxable earnings in 1953 were less than \$600, but he is filing a return anyway to get a refund of the tax withheld from his wages.

## Change of Job

Newcomer Nelson worked for another company part of the year. As a result he has an extra credit against his income tax. Each employer was required to deduct 1½% of the first \$3,600 of each employee's wages (amounting to \$54 for the year) for social security tax. Because he had two employers, more than \$54 had been deducted from his pay. On his income tax return he will list "F. I. C. A. tax" (Federal Insurance Contributions Act) and claim credit for the excess over \$54 in the "income tax withheld" column.

## Annuities

Old-timer Oscar began receiving benefits in January 1953 from his endowment policy with an insurance company. This is considered an annuity, as the payments are based on his life expectancy. There is a special rule for annuities. Each year Oscar must list as taxable income 3 per cent of the total cost of the policy.

This 3 per cent is treated as interest on his investment. Payments received in excess of this 3 per cent are regarded as repayment of the cost of the annuity and are not taxed. After he has received tax-free an amount equal to the cost of the annuity, Oscar will have to report the whole amount received from then on as income.

## When the Employee is an Employer

Industrious Ida went back to work when her children reached school age. She pays a woman to get the children's meals and take care of them until Ida gets home from work.

Ida can't take any income tax deduction for this expense (although it has been proposed in Congress that the law be changed to permit it). However, this arrangement makes her an employer, so she has to collect and transmit social security tax on the wages she pays. (This would not be required if her maid worked on fewer than 24 different days or received less than \$50 cash wages in each calendar quarter). Ida is not flustered about it. She sends in the one-page self-mailing form (No. 942) as required four times a year.

## Help When You Need It

Most taxpayers can fill in their tax blanks with a minimum of help. A sensible first step is to read the tax instructions sent to you with your tax forms by the Internal Revenue Service. In most cases the answers to your questions can be found there.

The next step, if you are still uncertain, is to consult your nearest Internal Revenue office—but do it soon if you want to avoid the last-minute rush. Of course, you may have more complicated problems which will require the help of an accountant. The Internal Revenue Service and the national CPA organization have repeatedly warned taxpayers to be sure their advisers are fully qualified. By putting your trust in a self-proclaimed "tax expert" you might find yourself in trouble.

## Paying Your Tax

If you find that the government owes you money, write the word "REFUND" on the envelope in which you mail your return. This will help you to get your refund sooner. On the other hand, if you owe additional tax on your Form 1040, you must enclose payment with your return.

## 2-2 TALES

by Belle Buchan

Bob Dent has the handiest gadget. It is a telephone receiver that reaches practically all over our end of the office. . . . Elmer DeBolt is wondering how he is ever going to get two desks, a conference table, a file cabinet, a stenographer, and himself, all in an 8x8 office. Well, if the steno were Marilyn Monroe, we might make a suggestion, but I don't think Mrs. DeBolt would like it. . . . The Birthday Club was entertained by Pat Overmeyer with the following girls having birthdays: Sue Dague, Barbara Houser, Virginia Philo, and Donna Guiff. Happy birthday, girls. . . . Welcome to our fold, Lillie Pion, Virginia Badger, and Lois Baumgartner. . . . Richard Madden is under the weather with a bad back, and we hope it is better soon. . . . For all of you who did not know, Hugh Reynolds is in the Parkview Hospital, following an operation. Don't forget to send him a card of cheer. . . . That disconnected water fountain is still catching a lot of thirsty victims. . . . Now we say good-bye to Sue Dague, who is going to work for Mr. Vosburgh in Bldg. 18.

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

Don't be alarmed, girls, at the strange noises in the washroom. It was only Vera Hoover snoring. . . . Lena Forker surely did look cute lying in the middle of Broadway looking for her billfold. Why wasn't someone around with a camera? . . . Wayne, even though it is too warm in your home for your friends, remember your wife's African violets can't stand all that cold air. . . . A potluck was held for Charlie Whittern, who retires this week. He also received a gift. We all wish you a lot of good luck, Charlie. . . . What did Joe Reising do to get the nickname of "Ole Shockey"? . . . Congratulations to Almata Till who has a new granddaughter. . . . Everyone enjoyed the fruit that was sent from Florida from our friend, Lawrence Schuster. We are glad you still think of us, Lawrence. . . . It has been noticed that everyone is out of the buying mood this week. Could be those good old income tax returns took care of that. . . . All the girls have been wanting a ride in that new Ford so last Saturday Audrey Oberly was kind enough to take all the girls for a long ride. The girls were all satisfied, Audrey. . . . "The Disappearing Cake": Marjorie Fowler came to work with a beautiful piece of cake which someone had given to her. When she went to eat it, no cake. She looked everywhere and when she returned to her work bench, there was the cake. Who knows where it was? No one will tell. . . . Deloris Stapleton is getting ready for a wrestling match at work. She has her partner, none other than John Collins, but John feels that he isn't up to "par." . . . If anyone heard something that sounded like, "How now, brown cow," think nothing of it. Jim McGill was just trying out his voice again. . . . Safety Sam says: A good proportion of home accidents come from the "do-it-yourself" repair job. Most of us don't use the right tools for the right job. "Safety First," then the repair job.

# More Employees Join 30-Year Ranks

HERMAN L. SEXTON (center) talks over his memories of 30 years with General Electric with W. Saalfrank and Lloyd Wire. Mr. Sexton is employed in Bldg. 27.

MARTIN WALSH (right) receives best wishes from Bob Truelove (left) and Joe Mettler. Mr. Walsh is a mold and die maker in Bldg. 19-5.

GAYLE GRIFFITH (seated) reads a letter he received on his 30th anniversary to Ed Roepe and Clark Scheid. Mr. Griffith is an inspector in Bldg. 26-4.

LAWRENCE J. PEQUIGNOT (right) talks over his 30 General Electric years with (l-r) Ernest Linn and Herman Krock. Mr. Pequignot is a coil assembler in Bldg. 27.

LEWIS D. HICKERNELL (second from left) is congratulated on his 30th GE anniversary by W. L. O'Brien, Willis Dilman, and Bruce Rohn. Mr. Hickernell is an electrical tester in Bldg. 4-5.

FRED H. CAMPBELL (center) celebrates his 30th GE anniversary with (l-r) R. J. Duras, Ewald Stinsmuehlen, C. E. Slater, L. W. Kuttner, Paul Merkey, and L. D. Hodell. Mr. Campbell, who is now superintendent of Section 114 at Taylor St., joined the company as a clerk in Bldg. 19-4.

WILLIAM K. ROHE (left) receives best wishes on his 30th anniversary with General Electric from (l-r) Herb Thompson, Ray Kierspe, and F. A. Arnold. Mr. Rohe worked as an armature worker in Bldg. 17-4 when he joined the company. He is now supervisor of inspection in the Wire Mill.

# Interdepartment League All-Stars Named

INTERDEPARTMENT RUNNERS-UP—Runners-up in the Interdepartment basketball league's first half were the Squares team. Left to right, standing, are Gil Carl, Bob Rescorla, Keith Spiker, Don Edam, and Don Cochran. Kneeling (l-r) are Chet Krasienko, Milt DeJean, and Stan Antalis.

## COUNT OFF SECTION 417 TAYLOR ST. by Marguerite Stahl

We are happy that Leonard Diehl is able to be back with us after being off work several weeks due to surgery. . . . Louise Sinn says she doesn't know if Section 113 will be very well off with Bernadine Warner over there, for they will probably have to do a lot of visiting back and forth. Anyway, we wish her a lot of luck. . . . Beverly Numbers has been having pains in her jaws since she heard her driver has the mumps. We hope they are imaginary, Beverly. Maybe we should bring you a quart of pickles. . . . Eddie Bandt has been worrying about how much weight he's gained. It seems it has been hard for him to squeeze out of the back door of the car lately. Last Monday he had to climb over the front seat to get out and he decided it wasn't him. The other cars were parked too closely. He did make Beverly Foster climb across first to see how it was done. Eddie says he's going to carry a can opener and come out through the roof the next time, over his driver's unconscious body. . . . Seyfert's had better be on guard for Gladys Pantazen is really on the beam when it comes to making potato chips. She says her husband bought a 50-lb. bag of potatoes, but she doesn't believe she will make them all into chips.

"The respectable word for idleness is leisure, and leisure will not only improve a man's golf game but give him time for an enormous variety of explorations into fascinating subjects—which can also be important."—Dion Reilly.

## SCIENCE QUESTION BOX

by SCIENTISTS OF THE G.E.  
RESEARCH LABORATORY

Q. Would a bear sleep for the winter if it were taken to a warm climate, like Florida?

A. Animals such as the bear, that become quiescent because of cold weather, are said to hibernate. If such an animal were taken to Florida, probably it would get "sleepy" in the winter for the first few years, but thereafter would stay "awake" all year. Some animals become quiescent because of lack of moisture. This process is called "estivation," and it may occur in the summer if that season is dry. Often frogs, turtles and toads will aestivate in this way.

Q. Why does iron become red when it gets hot?

A. A piece of iron, or of any other material, even at room temperature, gives off some radiation in the form of infrared rays. These are like the rays of visible light but consist of much longer waves. If the iron is heated, radiation of shorter and shorter wavelength is emitted as the temperature goes up. At about 1100 degrees F. it begins to produce some of the longest visible light waves, which are red in color, so we say it is red hot. At higher temperatures still shorter waves come off. Around 2700 degrees F. these cover all wavelengths of the

visible spectrum, producing white light, so the iron is said to be white hot.

Q. Do frogs and other small animals ever fall with the rain?

A. It is conceivable that a tornado might carry frogs and similar small animals aloft, so that they would later fall to the ground, perhaps with the rain, but this is very unlikely. The normal process by which water on the Earth evaporates, later to fall as rain, could not carry them upwards. However, it may often happen that a heavy rain would flood the underground homes of frogs and toads, thus forcing them out into the open in large numbers. Then, when people saw them on the wet ground, they might mistakenly assume that they came down with the rain.

Q. Why does one cry when cutting onions?

A. In the onion there is a sulfur-containing compound belonging to the class which chemists call thioaldehydes, and when the onion is cut internal pressure causes tiny drops to be sprayed around. If some hit the eye, tears are made to flow. Scientists who have worked on this problem have found that if this material is distilled off from crushed onions a bottle in which it is contained can actually be held to the eye with little tear-producing effect. This shows that it is not the vapor which does it. However, a minute drop placed in the eye causes a copious flow of tears.

The GE Interdepartment All-Star basketball team was announced this week by Jack Sweet, league manager. The team, who will see action in the Fort Wayne Newspaper Tournament beginning tomorrow, is composed of the following men on the first string:

Gil Carl, guard, Squares  
Les Fanning, center, Apprentice  
Glen Shaver, forward, TE  
Bob Schilling, forward, TE  
Howard Bash, guard, Apprentice

The second five on the All-Star team includes:

Gene Yealy, TE; Don Edam, Squares; Dick Buffenbarger, Apprentice; Tom Ponsot, Hermetic, and Chet Krasienko, Squares.

The team will debut in the tourney tomorrow at 1:30 p.m. when they meet Goshorn's Market team, of Yoder, at the Zion Church gym in Fort Wayne. If GE comes out on top of that match, they will face the Harvester five at 8:30 p.m. tomorrow.

Height should be an advantage for the GE boys, everyone of the first five measures 6 ft. or more, with center Les Fanning, at 6'-5" the tallest man on the squad.

In Interdepartment play Tuesday, Feb. 2 and Thursday, Jan. 28, the TEs met the Apprentice team both nights and came up with two wins. Transformer turned in a similar win record over the MTP lads after the two clashes. The only other game played saw the Firemen down Airliners Tuesday night.

Providing trouble for the Apprentice team, the TEs scored a 47-45 win over them Thursday in a hard fought, close game. A total of 19 free throws were attempted by the TE men and the Apprentice had 21 attempts. The victors lost Krigbaum in the first minute of the second quarter on personal fouls and Friedrich went out on personals near the end of the game. High scorers were Shaver with 1 for the winners and Buffenbarger with 12 for the losers.

The opening match Thursday re-

sulted in a 42-32 win by Transformer over MTP's. Leading the scoring all the way, the lads on the winning team had Al Huddleston as high point man with 14 points and MTP men Hughes and Bonsteidt had 8 apiece for the losers.

Tuesday, Feb. 2 proved a lucky night for the Firemen five as they downed Airliners to the tune of 56-32. "Chick" Morkoetter turned in an overwhelming performance of 32 points for the winning team. Airliners' top man was Spice with 18. Airliners were ahead at the end of the first quarter 11-10 but from then on Morkoetter set the pace and the Firemen ran away with the game.

Returning to face each other for the second night in a row, Transformer was out to prove they could win again over MTP's and did so in a really close one. Final count was 45-41 in an overtime that showed MTP men ready to accept the challenge. Until the end of regulation play, MTP led the scoring, but the final horn brought a 37 tie score. The victors had four members contributing in the overtime, while MTP had two who scored a fielder apiece. High man for Transformer was Huddleston with 13 and Berghoff had 12 for MTP.

Winning their second straight from Apprentice Tuesday, the TE team dumped 52 points into the nets to 47 for the losers. Leading all the way, the winners had Shaver with a 17 count for high and Fanning had 15 for the Apprentice. Krigbaum, TE, and Friedrich and Bash, Apprentice, left the contest on personals, while Yealy went out in the second quarter with a sprained ankle.

SUGGESTS NEW LIFTING EYE—A check for \$150 came the way of Harry Lehman (left), who suggested a new design for a lifting eye which would allow the use of a cheaper packing box. Mr. Lehman, a leading operator in Bldg. 26-4, is shown with W. H. Crouse.

# Unbeatable Owls Trounce Aircraft Gear 58 to 23

by Howard Colby

The GE Owls ran their victory string to 13 in a row last Thursday morning at the Club gym, when they trounced the Aircraft Gear quintet, 58 to 23.

In a very slow first quarter, GE scored 7 points on two baskets by Ron Blodgett and a basket and a charity toss by Tom Gladieux. They held Aircraft Gear to just two foul shots for a 7 to 2 lead.

The second quarter picked up somewhat in tempo as Ron Fisher hit three fielders and a foul shot to lead GE in this period with Dickey and Somers each adding a field goal. Gene Etter made a free throw. Aircraft scored 8 points to give the Club team a half-time lead of 19 to 10.

The third quarter proved to be the straw that broke the camel's back as far as the boys from Aircraft Gear were concerned. They scored only 2 points on a single field goal as GE had a 20-point quarter.

Gene Etter hit 3 field goals. Bob Markey and Tom Gladieux dumped one each, along with White, as Dickey and Blodgett got two free throws and a basket each. This put GE ahead 39 to 12 going into the final eight minutes of play.

Jim (Lard) Barnes kept Air-

craft Gear on the scoreboard hitting for 10 points of which he scored 8 in the last quarter. His teammates scored 3 more points to give them a total of 23 points.

For GE in the final quarter, it was Tom Gladieux leading the way with four field goals; Markey, two, and Fisher, one. Harold Somers dumped one and White chipped in with a free throw and a field goal to run GE's total to 58.

The schedule for next week matches Indiana Rod and Eckrich at 9 a.m.; Aircraft Gear and Salisbury at 10 a.m.; and GE meets Zollner at 11 a.m.

GE	G. F. T.	Aircraft	G. F. T.
Markey	3 0 6	Barnes	5 0 10
Gladieux	6 1 13	McKee	3 2 8
Blodgett	3 2 8	Piatt	0 0 0
White	2 1 5	Roach	0 1 1
Etter	3 1 7	Myers	1 0 2
Somers	2 0 4	Lee	1 0 2
Dickey	2 2 6		
Fisher	4 1 9		
<b>Totals</b>	<b>25 8 58</b>	<b>Totals</b>	<b>10 3 23</b>

high 3-game for the league, a 2889. Cutting Tools scored a 1006 for a new high single count. Double century scores were made by Windy Boester, 224; Vic Rump, 223; Lee Schnepf, 210 and 212; Bob Stute, 207. Herb Langer and Bob Winkler each rolled 205. Cliff Dunten and Joe Kramer rolled 202 each. Harold Geise converted the 4-10 split.

## Ladies Friday Night

Team No. 1 has won 3 games and is now leading the league with 8 wins and 1 loss. Team No. 5 has won 6 and lost 3 as has Team No. 2. Teams No. 3 and 6 have won 5 and lost 4. R. Blauvelt kegled a 516 on games of 177, 160, and 179. E. Vandergift scored a 177; C. Stanford, 179; and F. Haggenjos, 178.

## Men's Factory League

Those young "upstarts", Rotors, served notice that they are going to be hard to beat the second half. The Rotors (all 22 years of age and younger) beat the Stators 2 and 1. C. McIntosh's 220 and G. Laurent's 203, outmatched S. Jackson's 200 and H. Shoaf's 206 and enabled the Office gang to win 2 from the Flanges. The Rotors and Flanges now head with 5-4, while the Stators and Office are right on their heels with 4 each.

## GE Fraternal

Oran Schultz blasted out a 653 series on games of 227, 213, and 213 as his West End Restaurant team beat Riverview Gardens and took over undisputed first place with 6 wins, 3 losses. Glen Baumgartner continued his heavy scoring with a 628 series on games of 190, 224, and 214. Following the West Enders are GE Club, Monroeville Lumber, and Peterson Elevator, with 5 wins, 4 losses. Riverview Gardens, Elks, and Teeple Truck Lines have 4 wins, 5 losses, while K of C brings up the rear with 3 and 6. 200 scores were kegled by: W. Petrie, 202-203; Bob Lord, 213; A. Appelman, 202-213; H. Strickler, 243; R. Johnston, 203; B. Custer, 202, Ev. Faulkner, 201; and G. Schultz, 215.

## Women's League

Last Frames lead the second half standing with 4 wins and 2 losses, followed by the Office, the Hi-Spots, with 3 and 3. The Spares are close by with 2 and 4. Mary Miller of the Office hit the charmed "500" with a 505 series on games of 172, 146, and 187. Other noteworthy scores were: Stults, 182; G. Reynolds, 172; Helen Wellman, 187; and Myers, 179.

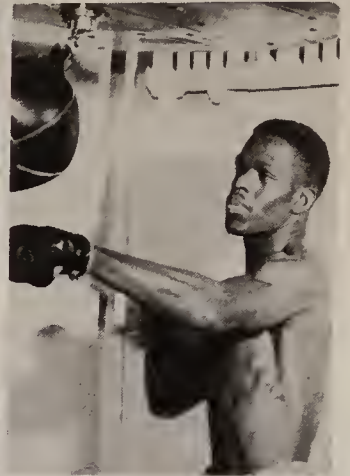

## DEMOCRACY

Democracy is the line that forms on the right. It is the dent in the high hat. It is the recurrent suspicion that more than half of the people are right more than half of the time. Democracy is a letter to the editor. It is the score at the beginning of the ninth.—E. B. White.

AL CAMPBELL

... Defending welterweight champ

DON HULLINGER

... Lima southpaw challenge

# 21 Bouts on Golden Gloves Card Monday

A card of 21 fights is set up for the Golden Gloves finals Monday night at the War Memorial Coliseum, Frank Newport, coach, reported today. There will be 18 tournament bouts and three junior matches.

Each junior winner will receive a statue and Golden Gloves champions will each receive complete outfits from shoes to robes. Runners-up also receive boxing outfits.

Tickets for Monday night's clashes, which get under way at 8 p.m., are available now at the GE Club, Main Auto Marine Division, Coliseum box office, and all Zollner ticket stations.

Referees again will be Bobby Burns, Max Crosley and Bob Smith.

According to Newport, the card is shaping up to be the best in recent years of Golden Gloves tournaments here.

The welterweight class looks particularly good, Newport said, with Al Campbell of Fort Wayne, last year's champion looking better than ever, and the tricky southpaw, Don Hullinger from Lima, Ohio, is out to take the crown.

The following boxers will be on Monday night's card:

## Flyweight

Gene Brown, Van Wert, Ohio  
James Wagonrod, Van Wert, O.  
Ray Husse, Defiance, O.  
Doug Proxmier, Fort Wayne

## Bantamweight

George Briggs, Defiance, O.  
James Reeder, Fort Wayne

## Featherweight

Bill Boroff, Van Wert, O.  
Ernest Schuman, Auburn  
Wallace Dodson, Defiance, O.  
Oscar Ayers, Monroeville

## Lightweight

Bob Army, Van Wert, O.  
Norman Stevenson, Butler  
Kesler Peter, Auburn  
John McBride, Garrett

## Welterweight

Charles Kulwicki, Defiance, O.  
Rival McBride, Garrett  
Don Hullinger, Lima, O.  
Al Campbell, Fort Wayne

## Middleweight

Robert McCellan, Auburn  
Harry Waldron, Van Wert, O.  
Karl Rohlf, Defiance, O.  
Archie Johnson, Fort Wayne

## Light Heavyweight

Eddy Snyder, Antwerp, O.  
Odell Billingsley, Fort Wayne

## Heavyweight

Frank Carranceje, Fort Wayne  
John Freeman, Fort Wayne

you  
don't

sneezes...

# GE CLUB MIXED DOUBLES

Saturday, February 20

Squads roll at 6 and 8:30 p.m.

In the Small Motor League, Two Legs Clothes are still out in front with 8 wins and 1 loss. In second place is Tommy's Lunch with 7 wins and 2 losses. Test and G-Men have won 6½ while losing 2½, which puts them in a tie for third place. Double Century scores were rolled by C. Brandt, 203; R. Guingrich, 200; S. Macy, 219 and 203; W. Whonsetler, 201; O. Doherty, 202; H. Hoffman, 208; and L. Welker, 245 and 222. Lowell just missed a 600 count by 4 pins. His middle game was a 129 total, a full ten frames.

## Transformer

Volts have won 4 games and lost 2 games to lead the league. Autos, Watts, M, and Ohms have each won 3, while losing 3. D has won 2 and lost 4. Bowers rolled a 220 score. Fur Liners for the week were Evans, 98, and Doc Gordon, 98.

## Ladies Tuesday Afternoon

Team No. 3 has won 10 and lost 2. Team No. 2 has won 9½ and lost 5½. Team No. 1 has won 7 and lost 5. Norma Arnold rolled a 505 on games of 175, 171, and 159. Lois Coleman converted the 5-7 split.

## Ladies Monday Night

Scatterpins have taken over the top spot with a record of 12 wins and 3 losses. Twisters have won 11 and lost 4. Holeymrollers and Twisters are tied for third, each having won 9 and losing 6. Voyce Brumbaugh kegled a 186; Yvonne

Rosendahl, 182; Bonnie Wolf, 172; and Winnie Schuerich, 174.

## Office

The results of last Monday night finds the league well tied up with Transformer, M and G Sales, Motor Generator, and GE Club with records of 8 wins and 4 losses. Pawlish Shoe Repair and Plant Engineering have won 7 and lost 5. Bob Zollner scored a 238; Wes Baker, 216; Frank Schlink, 214; Dudd Snyder, 209; and Bob Hess, 202.

## GE Orphans

Hotel Keenan and Team No. 2 have each won 10 games and lost only 2 to lead the league. Team No. 6 has won 6 and lost 6. Bernie's Motors and Ken's Market have each won 4, while losing 8. Marg Rollins rolled a 192; Mary Bischoff, 188; and Frieda green, 176. Bea Lantz converted the 4-7-10 split, and Ike Foor, the 8-10 split.

## Apparatus League

Team No. 2 has rolled into top spot in the league with a record of 4½ wins and 1½ losses. Just one-half game behind the leaders is Team No. 1 with 4 wins and 2 losses. Team No. 2 rolled a new

## TOOL BITS

### BLDG. 19-4 and 5

by Howard Demsey

Wayne Township Fire Chief, Kenny McCague, has been driving the old Buck ambulance formerly owned by the city of Fort Wayne around Waynedale lately. Rumor has it that Kenny has been arriving at so many fires in time to save the cisterns and foundations that the township bought him transportation which could go fast enough to stay ahead of the fire truck. The original report of this story contained some slanderous remarks about the fire chief's Nash Airflyte which your editor, a Nash owner, did not care to put into print. . . . Kenny Smith is the cleanest man on the floor. He got up at 3 a.m. one recent morning to take a bath before coming to work. What same guys won't do to get their name in the news! . . . Pearl Schoeff has become the proud owner of a new Packard. He must have disposed of his corner of the soybean market. . . . Ed Schafenacker's unit welcomes Don Konow to their group. . . . Lowell Welker was involved in a slight altercation with a fellow motorist on Rudisill after Lowell's front fender was slightly wrinkled. This was the only damage done as the affair ended without either party trying to change the other's appearance. . . . Louis Peduto has taken over the dubious distinction of being the hard luck kid in the machine design unit. Three days before Lou was to get married someone stole his car from the GE parking lot. . . . Dick Burns, Bob Brodrick, and Ed Siles are taking E. P. (Effective Presentation) class—or is the E. P. class taking the boys? . . . George Luker has become the owner of a GE television. . . . If you call Hank Wittber on the phone don't think you have the corner beer joint by mistake when you hear him answer "Sloppy Joes." He's just trying to collect from the Dinner Winner program again. . . . Earl Brandon will be more careful the next time he fills his lighter. The last time he spilled some fluid on his hand and when he lit the lighter he also fired up his hand. Luckily no damage was done. . . . Walter Pook says there is no use carrying his apron home on Friday when he can wear it, part of the way, anyway. . . . We now know who the big wheel is at Jake Denis's house. His wife had her picture on TV but we didn't see anything of Jake. . . . Jim Paxton was delighted when Chet Reynolds gave him a sample of a cheese, Kosher dill pickle combination sandwich a couple weeks ago. In fact it so inspired Jim that he concocted a Paxtonburger which contained the following items: Swiss cheese with chopped onions, dill pickle, carrots, celery, mustard and a few other items which happened to be around the kitchen. Chet and Jim say it was a real tasty concoction although there are some rumors that it had to be processed in an arbor press before they could get it into their mouths. . . . Art Thieme and Walter Greiner must have been busy little bees catching turtles enough for the thirty people they had at their turtle-fry last week. . . . Kenny Smith chased his 10-year-old Stetson down Calhoun Street at least a block before he retrieved it under a car. Kenny says he didn't think the old hat had that much speed in it anymore even if it had assistance from the wind. . . . Anyone needing a pup should see Mart Walsh. He's in the dog business now. Sorry, no cats this week. . . . Those brand new sneakers of Jim Buchheit's are not really size 15 and Jim tells

us any resemblance between those ghost chasers and snow shoes is purely coincidental. We think they are very nice shoes, Jim, and it's not your fault they made the outside so much bigger than the inside. . . . We manage to hear something of basketball every week. Bob "Sunshine" Truelove tells us Huntertown is so good the coach goes up in the stands to watch and pat himself on the back. . . . Archie Gwaltney is back with another story on how good Elmhurst is. He told Henry Frey that the Trojans only missed two shots against Garrett. . . . Woody Hursh is strutting again since his Lions roared over Woodburn 105 to 35. Elmer Sauerwein tells us that Woodburn was only using their eighth grade team, however. . . . We hear that Bud Dunlap has joined the hole-in-one club at the radial drill press. Don't forget to autograph your mark, Bud. . . . Francis Bendel's daughter was married last Saturday, but Francis consoles himself by remembering that he is gaining a son-in-law and a bathroom.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

Every day we think about Winnie Saurbaugh and wonder what he is doing. Hi, Winnie. . . . We hope Gertrude Koldewey recuperates swiftly from her new break. This time we can't blame poor Hominy. . . . Mabel Keppeler's father-in-law can't trust her even in church. She has a mania for sitting on men's hats, especially his hat. . . . We wish a speedy recovery to Urban Hawk who is back in the hospital. . . . Among those who are ill are Helen Risser and Marlene Niccum. . . . Dixie Lee Hogg is our new teletype operator. Welcome and we hope you like working with us. . . . We are happy to have (Gold Star) George Hill back with us, completely recovered from an appendectomy. . . . Claudine Gladbach is now known as "Butterball" Gladbach. You can always find a sack of them on her desk and she is very liberal with them. Ask the night crew. . . . Bob Kurtz got a new wrist watch, so

**LOOKS OVER \$110 CHECK**—Charles Griffith (right) shows his suggestion check for \$110 to Fred Ginzler. Mr. Griffith, a balancer in Bldg. 4-3, suggested that the balancer identification stamp be attached to the hammer and thus save time in stamping parts after balancing.

he worked out in the cold with his sleeve rolled up to his elbow so everyone would notice it. Now he has arthritis in his arm. One thing leads to another. Here's hoping he does not have to hock his new watch to pay his medical bill. . . . The ads on TV leave quite an impression on the youngsters. One of our gals took her little daughter along to the grocery store, and as they reached the check-out stand, where a great number of people were waiting, the little girl said, in a loud and clear, "Mother, why don't you get some Luckies? They are cleaner, fresher, smoother." Mother is a non-smoker. . . . Happy birthday to Marlene Niccum, Thomas Dent, Phyllis Poling, and William Yarman.

## WIRE RAVELINGS

### TAYLOR ST.

by Art Rasor

**STORY OF THE WEEK:** Bill Rohe has never had the heart to kill a rabbit, and he has been taking a lot of kidding about it. Last week he made another attempt to butcher one. Bill got a string and tied the little bunny's back feet together, then hung him on a post. Bill then hit the little wabbit behind the ears to stun him, with the intention of sticking a knife into him, but before he had a chance to put the knife to him the little wabbit came back to life and made a squealing noise. Bill

## TOP FLOOR TOPICS

BLDG. 26-5

by Jack Lea

Walt Mutz phoned in to say he expected to be back to work in four weeks. He's getting tired of breakfast in bed! Walt visited Howard Shipman, who is also coming alone fine. Howard was anxious to get home, so instead of waiting to be picked up at the hospital, he walked from Parkview to his home on Clinton St. The doctors were amazed that he made it. . . . Do you like the song Ebb Tide? You haven't heard anything until you hear Al Tyson make like a sea gull. . . . Bright conversation of the week: Lois Coleman, "Today I should of stood in bed." Val Sticler, "I can't sleep that way!" . . . Clorene Trout wore a red suit to work, and John Erb remarked, "Here comes Red Riding Hood looking for the wolf!" Clorene retorted, "Yeah, there's a lot of them around here!" . . . Notice: We will hold services sometime this week, at which time all Marilyn Monroe calendars will be put at half-mast. . . . Marge Gross, who recently came back to top floor, became engaged recently. . . . Roger Miller was sporting a patch over his eye, which was a result of "running into a clothesline" on the way to work. If he had said he ran into it while running home, it would make a good story. Who ever heard of anyone running to work? . . . June Mizell has a song that she entertains the stacking bench with. However, the gals believe she makes up her own words. . . . Darrell Proxmire had a red face Friday noon. Was it the weather outside or inside? . . . Welcome, Eloise Graham, Ruth Maylor, and Agnes Shane, to the stacking group. . . . Switch—Something that regulates everything at home except Junior. Marsh—Where a man will sit all day long to shoot a duck and then later on raise the devil if dinner is 10 minutes late. Presidential Timber—Usually bark.

quickly cut the string and put the rabbit back into the pen with these remarks: "Please forgive me, little bunny. I was only fooling. I had no intention of killing you again. Please forgive me, I didn't mean to hurt you!" . . . Birthday greetings to Harley DeWitt on the 6th and to Cletus Lothamer on the 7th. . . . First it's a hurt foot, then it's a spur in his heel, but now he's really got it. He has the mumps! What could be more appropriate than to have a couple of side pouches on "Tiny" Wright? . . . Harley DeWitt complained about being hungry and it wasn't even lunch time yet. We tried to explain to him that if he stopped this eating habit he could save a lot of money, but Harley said it would just lead to funeral expenses. . . . The next time Bob Baals brings in some candy he will be sure to hunt a better place to hide it. Someone mistook the container for a spittoon and without looking spoiled all of the candy in one try! . . . Walter Jordan and Don Sollows are members of the Allen County Fire Fighters' Association, which consists of all Allen County volunteer first departments. The organization has volunteers only and they are donating their time to help all county residents in case of a fire. Our hats are off to these fellows. . . . The new coat of tan that Truman Buckles is supporting is from a week's stay in Florida. It's a good thing he was there only one week, as two weeks would have burned him to a crisp.

**RETIREES AFTER 39 YEARS**—Jesse T. Moser (left) is honored on his last day at work before retiring from the General Electric Company. Mr. Moser was a packer in the DC Motor and Generator Department, Bldg. 6-1, and has worked for GE for more than 39 years. Congratulating him are (l-r) Tom Dent, H. J. Bobay, Henry Bruggeman, and P. E. Bohn.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 19-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 19-2.

CLOSING DATE  
Monday Noon, February 8, 1954

In cooperation with the Social Planning Council, the GE NEWS will not publish ads for care of children in private homes unless the advertiser first presents a license for such business.

#### LOST AND FOUND

LOST—St. James version New Testament of Bible, 3/4 inch thick, 4x7.

DRAPES—Two pair, blue satin. Like new; very cleaned; \$5 a pair. E-37645.  
LADDER—28 ft. extension (2-14 ft.). Used, solid, \$10. E-5927.  
BEDROOM SUITE—Mahogany, 4 poster bed, dresser, and chest of drawers. Bought new, used 1 year, very good condition. H-79491.  
ORGAN—Antique, walnut organ. Made by Taber Organ Co., Worcester, Mass., \$30. H-50174 or Ossian 195-F.  
SWEEPER—GE upright sweeper. Like new, \$10. A-36103.  
REFRIGERATOR—Electric refrigerator, GE, in excellent condition, \$30. A-89241.  
PUPS—Lat terriers, 9 weeks old. Skellies, 8 weeks old. Good condition, glass oven, 3 years old. LaVern Freeman, St. Joe, Ind. Across from Holsum Dairy.  
PARAKEETS—Beautiful young parakeets. Will make ideal pets. \$4. A-1093.  
CYM SUIT—Girl's gym suit, size 14, \$1. A-97883.  
JACKET—Beautiful silver fox jacket, size 14-16. K-1588.  
CAR—1939 Pontiac, two-door, \$60. Radio and heater. A-19958.  
COAT—Kelly green, cloth coat, 14-16. Like new, brown squirrel trim. White enameled bed, double coil spring, felt mattress. Coffee table, blue glass top. Oval lamp table. Mica, in vases, and cooking ware. Filter Queen sweeper. Table model ironer. H-82531.  
STRAW—40 cents a bale at the barn, Zanesville, 26Y.  
FUR COAT—Small size, good condition. A-96081.  
SKATES—Pair woman's white figure skates, size 6. Girl's tweed suit, size 10. Girl's green corduroy dress, size 10. A-89068.  
MOTORCYCLE—1951 Harley Davidson motorcycle, like new, 14,000 miles, \$700 or \$300 cash and take over payments. Richard Goble, R. R. 6, Columbia City, Ind.  
CAR—1948 Olds 98 sedan. H-35085.  
BOWLING BALL—And bag. Like new. H-5439.  
ACCORDION—La Tosca, 111 bass, good condition, \$85 with case. H-01646.  
CAR—1952 Plymouth Cranbrook. Radio, heater, and sun visor; 28,000 miles. Excellent condition. K-4308.  
ELECTRIC RANCE—Perfection electric range, 2 1/2 yrs. old, A-1 condition, deluxe model. Or will trade for good apartment size electric range. Dale Lautzenheiser, first house south of Smith Road on State Road 3. E-2806.  
CAR—1951 Ford Tudor Deluxe with Fordomatic, radio, and heater. One owner, 16,200 actual miles. Excellent condition. A-78843.  
BOOKLETS—110 pocket edition booklets. Good reading. All for \$5. E-71186.  
HOUSE—Six-room, three-bedroom house. One-half mile east of red light in Wayne, on Lower Huntington Road. Large lot, 24x30 garage. Reasonable. H-92316.  
MARIMBA—Five octave, excellent tone. Make an offer. A-70692.  
SCOUT SUIT—Five-piece Cub Scout suit, size 10. 3502 Robinwood Dr. H-70341.  
SUITS—Custom made men's suits, assorted suits, assorted fabrics and colors, size 40 chest, and 42 waist. Also overcoats, topcoats, and Florsheim shoes, size 7B. All in excellent condition, reasonably priced. K-1334 or H-64415.  
MATERNITY DRESS—Two-piece, maternity dress with extra jacket. Black skirt, black and white-checked jacket, blue jacket, size 16. Reasonable. A-87834.  
SEWING MACHINE—Singer treadle sewing machine, two drawers on each side, electric motor easily installed, walnut finish. Not very old, excellent condition. A good buy at \$20. A-39323.

## RACONTEUR

### SECTION 114 TAYLOR ST.

by Mary Whitelock

A. A. Ralston was seen in the cafeteria consuming his liquid diet, two bowls of soup. . . . We hear George Ridge enters his house by climbing in the bedroom window. By taking this exercise, George believes he will be able to obtain his ambition, that of becoming a six-foot giant. . . . Mr. and Mrs. Paul Clendenen spent the week-end in the south—Indianapolis. . . . Frank Conley, our little blue-eyed, curly-haired, "I'm from 'Bahston,'" trainee lives in a co-operating house; and we understand it's like living in a bag of tricks. . . . Marilyn Smith claims Bob Duras wears green ties with his blue suits. Maybe she is color blind instead of Bob. . . . Fred Vogt is planning on going to Germany this May. He is going to visit his parents, whom he hasn't seen in 28 years. . . . Walt Niemeyer is a bachelor for a while—beans, beans, beans. We also hear he has TVitis. . . . A very peculiar odor has crept into the Tool Room twice in the last two weeks. For particulars, see Dick Nix. . . . What's the matter with Elmhurst? That, my friend, is the \$64 question. Duke Doeppke has gone into mourning, and he says he is transferring his affections to Huntertown. . . . Buck Sessler is still giving euchre lessons. Dick, take notice. . . . Anyone interested in a good ice machine, see Bill Lavine. . . . Mel Warner is sure faithful to his cook, I mean, his wife. Rain or shine, he has that Hudson sailing home every noon. It's true love for home-cooked meals. . . . Happy birthday to Estel Grier and Otto Dobler. How does it feel to be 30, boys? . . . Congratulations to Harold George, now a 30-year man. . . . Welcome back to Geneva Pickering, who was in the hospital. . . . Oscar Fleming has started a new fad, a sock of a different kind on each foot. . . . Helen Platt fell off her mother's porch. Too many steps, Helen? . . . That red glow in the west at 6:48 a.m. is not the sun coming up backwards. It's just Charlie Hagen and his red cap. . . . Ivan Osterman lends his talent to the Scottish Rite Choir. This choir, which is among the top choirs of its kind presented a concert in South Bend. . . . Happy birthday to Ann Treadway. . . . June Spillner slipped while ice skating and sprained her wrist. . . . Our best wishes for a speedy recovery to Dorothy Money, who is just out of the hospital

CASH FOR IDEA—An additional award to a previous suggestion was paid Merritt D. Myers in December. He earned \$65 for suggesting that a bar be added to an oven and thereby reduce scrap. Shown with him are Arnold Landis (left) and Forrest A. Gill. Mr. Myers is a machinist in general service.

## 17-3 NEWSIES

by Wilhelmina Beeth

after an operation. Hurry back, Dorothy. . . . Among the broken New Year's resolutions lies one of Ralph Fishback's, whose famous last words were, "I shall diet this year." . . . Kathleen Jencks seems to be going ice skating a lot. Who do you go with, Kathleen, when Eddie is studying? . . . Anyone who has an extra pair of earmuffs please contact Cliff Bieber.

## SLEUTHING in 4-6

by Al Happel

WE WISH a happy birthday to the following: Ray Solga, Feb. 8; Moose Foltz, Feb. 10; and Bob Johnson, Feb. 11. . . . WE WELCOME Ed Kiningham as a permanent member of our Specialty Engineering Department. He spent one of his test assignments with us in late '52, so he will be remembered by most of us. He will join Claude Voss's group. . . . Also welcome to John Franklin Talbot, new TE in Claude Voss's group. John is married and has a BSEE degree from State College of Washington. His home town is Richland, Washington. This is his fifth test assignment, having been at Evendale, Johnson City, Bridgeport, and Morrison, with a 7-month sign-up at Johnson City. His hobbies are golf and chess. . . . WE ARE indeed happy to have Bob Mee back with us after several weeks absence due to illness—chicken-pox—to be egg-zact. . . . LAST THURSDAY Ruth Ritchey was honored at a special luncheon in the Company restaurant. She received a lovely and very appropriate gift from her girl friends. Everyone enjoyed the luncheon except Mary Smoak. When Smoakey sat down to eat she found she had two soup spoons and two knives, but no fork. We know you can't help it, forgetting to pick up a fork, since we heard that all you can think of now is that thrilling picture of Liberace you have. We suggest you hide the picture, so you can concentrate, Mary. . . . AND WHAT was on your alleged mind? In connection with Ray Jones becoming a "Grandpappy," we hear by the grapevine, that he was so excited the night he received the good news (about 10 p.m.) he thought he'd brew a pot of coffee to celebrate (or was it to calm down) and he forgot to put water in the pot. You guessed it, the coffee pot burned up. You'll get used to the idea of being a Grandfather in short order, Ray. . . . ALL FRIENDS of Arlene Delinger will be glad to know that she now has a baby boy, Bruce Robert, born Jan. 24. Both are doing very well. . . . SEVERAL

This summer Bill Martin probably won't want it to rain. He has always wanted a lot of rain so that he could do two jobs at one time, mow the lawn and watch the Daisies. Since the Daisies won't be playing this year, he will be spending his time fishing or training his bulldog new tricks. Therefore, no rain, please. . . . Barbara Dennis, Hilda Rinehart, Zephia McDaniel, Cecil Phillips, and Chester Hill came in an hour too soon last Wednesday. Could payday have anything to do with it? . . . We light another candle on the cake and wish a happy birthday to Fay Stockberger, Alberta Roth, Alice Steward, Bernice Topp, and Lena Jones. . . . Ida Sinn almost needed a fire extinguisher the other day when she was singeing leads. . . . We wish a speedy recovery to Lillian Hergenrother and Mabel Clark, who are on the sick list. . . . Hazel Sabo has been bitten by the TV bug. Pretty nice bug, don't you think? . . . We are taking our machine woes to Kenny Stenson. He replaces Louie Wyss, who has left us for Bldg. 17-2. . . . From the amount of milk that Vereda Reinig was buying, she must be in the dairy business. . . . They will have to mark which are the doors and what are the windows at the new Parkview Memorial Hospital. Maggie Kelley tried to walk through a window. . . . In case you hadn't heard, Walter Kryder informed Doris Ryan that the Leo Lions were really going to murder Huntertown. In fact they had all the funeral arrangements made. After Huntertown became the County Champs, Doris called the Kryder's long distance and wondered at just what time the funeral was to be held. . . . Vickie Clayton found out that when offering something to Verna Bullerman, she might accept it. . . . We wish him a speedy recovery to the mother of Fern Smith. . . . We extend our sympathy to Ivah Grandstaff on the loss of her brother-in-law.

DAYS AGO at breakfast Betty Quine's pet parakeet, Hap, having his usual bit of toast with her and flying around the room with more than his usual gusto, turned a normal two-foot landing on her shoulder into a power dive into a dish of very spreadable butter. The bird came up well oiled and almost defied methods of cleaning. . . . HAPPY BIRTHDAY to these people: R. S. Langdon, Feb. 5; W. R. Hoffmeyer, Feb. 8; and Vern Kempenin, Feb. 11.

"It's just that I wanted to personally experience what happens to my pay envelope"

COPYRIGHT 1953 CARTOONS OF THE MONTH

**MAKES IDEA LIST**—A suggestion for salvaging glass wire instead of scrapping it, brought \$75 recently to C. W. Sterling, a salvager in the Wire Mill at Taylor St. Congratulating Mr. Sterling are Harley DeWitt (left) and Harold McFarren.

## THISA & THATA BLDG. 4-3 and 4 by Helen Engle

Bob Black says he got the limit in bluegills at Houghton Lake Sunday. It was plenty cold and they used the car and banked it up with snow on one side for a wind break. He had icicles a half-inch long on his eyelashes. All that suffering for a few fish! . . . Edna Rohrbach is on our sick list, as is Flora Crawford, and Martha Scott. Martha is in the St. Joseph Hospital. Hurry and get well, girls! . . . Mary Nute, Olga Kuzeff, and Ginny Reckeweg went ice fishing and caught enough fish to have a fish fry, but they about froze to death catching them. . . . Here is a bit of a parody that a couple of the girls wrote and we think is cute:

When the Ed, Ed, Robin comes  
Bob, bob, bobbin' along, along,  
There'll be no more waiting,  
No hesitating, when he's around.  
He says wake up, wake up, you sleepy  
heads.  
Get up, get up, get rid of that lead.  
Cheer up, cheer up, you'll soon be dead.  
So, live, laugh, work and be happy.  
We've been feeling blue, oh, so very  
blue,  
But there's nothing we can do,  
But what he tells us to  
All day long.  
So wait and pray that there will come  
a day,  
When he'll be gone.  
When the Ed, Ed, Robin  
Won't be bob, bob, bobbin' along.

Stella Mailland was surely surprised when she got the jar out of her lunch sack to put it in the oven and found out she had a jar of horseradish instead of corn. . . . If you have an old TV set that you don't want any more just see John Figley as he is looking for a bargain in one. . . . Sam Taylor says he would rather have a toad named for him than its owner. . . . Ruby Debolt is getting all set for her daughter's dog, which is being shipped home from England. She bought a new basket and all the trimmings. Ralph Gilbert put a chicken on to fry and then fell asleep. When he awoke the next morning, it was well done, black to a turn! . . . Betty Minard was in a fine fix last week when she couldn't talk above a whisper. . . . Dan Tetlow is the new dispatcher in 1x20. . . . Ezra, the two-legged, feathered member of the Claymiller family made a two-point landing on Butch's nose the other night and was gazing in his eyes through his glasses. . . . Glad to see Emily Niernan back after an unwelcome visit of the flu bug. . . . Rube Pranger has converted his chicken house into a private the-

atre. He sold the chickens and bought a GE television set. . . . Otto Roehm is running a school on the identification of raw bar stock. Bob Rogers is his star pupil. . . . Delores Heaston's daughter, Diane, aged 9, did her first public baton twirling at the Harlan-Coesse ball game recently and did a beautiful job. . . . Wally Reichter wants a new car, so he just leaves the lights burn on the old one to wear it out quicker. . . . Birthday greetings to the following people: Florence Byers, Feb. 8; Berniece Johnson, Feb. 8; Robert Blocher, Feb. 9; Mollie Dickover, Feb. 16; Betty Zollars, Feb. 20; Florian Korte, Feb. 20; and Otto Roehm, Feb. 20.

## Pensioners Parade

A 1945 retired employee, Francis L. Martz, was in Fort Wayne recently visiting his son, Marion. Mr. Martz, whose home is in Carroll, Ohio, has been spending quite a bit of time traveling. Another son, Gene, works at GE and until recently was stationed in Fort Wayne. This spring, Mr. Martz plans to go to Hillman, Mich., where he will spend the summer. His address there will be R. R. 2.

**RINGS OUT FOR LAST TIME**—Mae Jones rings out her clock card for the last time, as Vern Castle and Harry Chism stand by to say good-by. Mrs. Jones had worked at GE since 1944. She was a lacer and tyer of windings before leaving for retirement.

## 6-4 AIRLINERS

by Moe Satterthwaite

We extend a cordial welcome to our newcomers in Bldg. 6-4, namely Andrew Degler, Ilda Woods, Elizabeth Odom, and Jeanne Bloom. We are also glad to see Noah Smith back with us. . . . Guess what! Merl Keesler joined the Boy Scouts. What next? . . . We wish to extend our sincere sympathy to Virginia Webster on the death of her mother and to Viola Dougherty on the loss of her husband. . . . Carolyn Girvin is going around with her head in the clouds since her fiancé was promoted to corporal. . . . Our congratulations to Carl Metker on his nomination for president of the Foremen's Association. Our best wishes for an overwhelming victory. . . . Happy birthday: Paul Done, Ruth Cartwright, Mildred Nahle, Yvonne Mills, F. Springer, Herbert Mailland, and Delores Soderquist. Many happy returns of the day. . . . Herb Tilbury really believes in putting everything he has got into fixing his car, even to the point of cracking some ribs. . . . We bid a sad farewell to "Pat" Patterson, who leaves us to go into business for himself. We'll surely miss him around here. Now there is nobody to sell chances on pen and pencil sets or to kiss the girls on holidays. We hear Howard Farrell is taking his place. Now that's not too bad.

If any new fads are started, you can be sure they will start on Bldg. 6-4. Jackie Keller has started a new one, pierced ears. One evening last week a girl friend of Jackie's called her and wanted to know if she would like to have her ears pierced and Jackie said, "Sure." After she hung up she told her husband, Ralph, what she was going to do. Ralph then went to the garage and brought in some tools, laying them out on the table. Jackie took one look and here's what she saw: pliers, hammer, center punch, wire cutters, and an electric drill. Ralph said, "Now, when she gets here, she'll have all the tools to work with." The operation was a success. . . . Linda Rupert had a little kitten who liked to ride in automobiles. She couldn't find the kitten anywhere and happened to think she had stopped in Waynedale, and maybe the kitten had departed then. She couldn't find it there, but later got a phone call saying that a lady had found her kitten. How-

**FILLS SUGGESTION LIGHTER**—William Caston (second from left) gets his lighter he received as a suggestion bonus filled for the first time. Mr. Caston, of Section 417 at Taylor St. suggested that slot wedge material for stators be made thinner and thus save in material. He received \$150 for the idea. Shown with him are (l-r) Art Spoerhase, J. W. Bendure, and P. F. Peternell.

ever, it was black and white and Linda's kitten was gray. Anyone wanting a black and white kitten, contact Linda Rupert. . . . Ham Hamilton was being congratulated on his picture in the GE NEWS. Merle Kaasler said, "When was that picture taken, when you were in high school?" . . . Bud Howard is going back into the stockroom. Bud, you did a good job dispatching and no doubt we'll see you around here again. . . . Old Father Time is chalking up another year. Viola Krominaker, Ivy Mills, Dolores Soderquist, Herb Mailland, Fred Springer, and Butch Konow are celebrating birthdays. . . . Esther Muzzello's going to get her name in the paper if she has to blow herself up to do it. Better be more careful when you light the

oven because instead of the Airliners column, it could be the obituary column. . . . Welcome to Ferdinand E. Burnsworth, the new dispatcher.

## TRANSFORMER TATTLES BLDG. 26-4 by Dutch Norwalt

Mary Mullins had an unusual experience. She was playing around with the lock on the inspection cage and locked herself in and had to yell for help. . . . Dick Pierce is still crying the blues over the Central-North Side Game. Pick a winner for a change, Dick. . . . Mary Mudrack is still having TV trouble. Try leaving it alone for a change, Mary. . . . It has been rumored that Edna DeLeury (the voice) has been offered a free one way ticket to sunny California. What's going on, Edna? What are we missing? Bring us up to date! . . . Jerry Dill is back in the euchre game after three weeks illness. . . . Joe Prairie is weeping all over the place since the Daisies lost their franchise. Donations will be accepted. . . . Anyone wanting wall outlets installed see John St. Clair. In his most recent installation John made an opening upstairs and then went below and drilled a neat hole through his wife's new pad and rug. He was only about 18 inches off. Try again sometime, John. . . . It has been requested that Feb. 2 be changed from Ground Hog Day to Al Topp Day. . . . Mildred Fast and Doc Gordon have a real set up. Millie watches TV from her upstairs apartment across from Rarick's TV store. Doc just drives up and parks and watches the fights. "Cheaper that way," he says.

**Marriage license**—a certificate that gives a woman the legal right to drive a man.—Joseph Gancher.

## Wire Mill Man Pockets \$840 Suggestion Award

Starting the new year with money in the bank is a fine idea, says Clifford Sterling, Wire Mill, Taylor St. employee, who did just that as a result of receiving a \$840 suggestion award last week.

In addition to depositing some of his award in a bank, Mr. Sterling plans to buy some presents for "Mama" with the remainder. He received the money for suggesting a method of eliminating the need for retreating certain types of wires.

This was the 17th suggestion submitted by Mr. Sterling in the 14 years that he has been working at GE. Eight of these ideas have paid off for him in cash awards. For the past 12½ years, he has been employed in the Wire Mill and is a respooling operator at present.

Highlights of last year's suggestions, which brought cash awards totaling \$41,995.85 to 2503 employees here, appear on pages 6 and 7 of this issue. Of the 6002 suggestions submitted, those which paid the two highest awards were earned by women employees. Although the percentage of suggestions submitted by women is less than that of men, adoptions and awards paid women equal those paid men.

## Apprentice Complete Spring Banquet Plans

Tuesday, Feb. 16 is the date of the Apprentice Alumni Association's annual Spring banquet. This year's event will take place at the Southwest Conservation Club beginning at 6:30 p.m. with the serving of a steak dinner.

Guest speaker for the banquet will be Igor Buketoff, conductor of the Fort Wayne Philharmonic Orchestra.

Officers are in charge of arrangements for the meeting which is the first of the club's new year. Plans for the March meeting include attending the Zollner Piston-Rochester Royal professional basketball game at the War Memorial Coliseum.

## New MBA Benefits, Dues Start Monday

The schedule of increased benefits and dues recently approved by the general committee of the MBA Dependent Plan will go into effect Monday, E. W. Witte, MBA general chairman, announced today.

The increased dues of 85 cents will be deducted from wages earned for the week beginning Feb. 15. Members should contact MBA section chairman for additional information.

**STERLING SUGGESTION**—Clifford Sterling, Wire Mill, Taylor St., left, receives a \$840 check from Lisle Hodell, general manager of the General Purpose Component Motor Department.

## Local Employees Outline Plans For Engineers' Week Feb. 22-27

Plans for Engineers' Week, which will be celebrated nationally from Feb. 22 to Feb. 27, are under way in Fort Wayne. Highlighting the week's activities will be a banquet which is slated for Monday, Feb. 22 at the Chamber of Commerce.

Rad P. Cheesman, Bldg. 8-1, is serving as chairman of the banquet, which is an annual event. Members of the nine engineering societies represented in this area are invited to the banquet. Dinner tickets are \$2.75 per person and may be secured through representatives of the various engineering societies.

Honoring engineers for their contributions to progress, Wolf and Dessauer will devote part of their window display to them during the week. Claude M. Summers, Bldg. 28-2, is chairman of the exhibit's sub-committee which is in charge of setting up the W&D display.

Illustrating how engineering is adding to better living in the community, the exhibits will feature the Cedarville Dam project currently under construction. Since this dam will supply water for Fort Wayne citizens, the display will show the engineering involved in supplying a drink of water to the public from the dam. A model

## Free Tickets Now Available For 'House of Magic' Show

Monday, Feb. 22 the General Electric "House of Magic" show opens for a three-day engagement at the GE Club. Four performances will be given each of the three days. Programs will start at 10 a.m., 1:30, 7, and 9 p.m.

Tickets are free of charge to employees and members of the community. They are available from members of the GE Club entertainment committee and from General Electric dealers in this area.

The show entertains as it presents considerable scientific information in an easily understandable way. It has been presented throughout the U.S.A. and in other countries during the past 25 years.

Members of the entertainment committee who have tickets are: Gordon L. Smith, Taylor St.; Gayle Griffith, Bldg. 26-4; Joe Wyss, Taylor St., Sect. 13; Glen Seabold, Bldg. 28-1; Buck Buchan, Bldg. 19-2; Art Brockmeyer, Bldg. 2-1; John August, Bldg. 22; Mamie Allen, Bldg. 4-5; Bob Glenn, Bldg. 26-2; Belle Buchan, Bldg. 2-2; Kenneth Redding, Taylor St., shipping; Earl Stauffer, Bldg. 17-4; Joe Gardt, Taylor St., Office; Hubert Myers, Bldg. 21; Susie Jones, Winter St., Charlie Wilt, GE Club, and Barbara Hyman, Bldg. 18-1.

More than 17,000,000 people have seen the show, which was presented for the first time at a Chicago World's Fair under its present name. Since it has been put on the road, the program has grown to a size that now requires four teams of men who keep busy schedules filling the demand for the "House of Magic." Bill LeCompte and Frank O'Keefe are the team that will appear here for the three-day series of shows.

For every hour of show there are

approximately two hours of preparation and clean-up work. Depending upon the length of the performance, 20 to 30 pieces of heavy equipment must be unloaded at each stop.

The shows are brought to the public in various locations by GE district sales offices and plants, utility companies, customers, and civic groups.

## Foremen's Association Elect W. L. Paulson As 1954 President

William L. Paulson, Bldg. 19-5, is the 1954 president of the Foremen's Association. Other officers who were elected last week include: William Rodecker, Bldg. 20-1, Vice president; Freeman Rohlfing, Bldg. 26-1, secretary; Neil Allen, Bldg. 4-1, treasurer, and Carl Hattendorf, Bldg. 17-4, director.

The new officers will be installed at the March 10 meeting of the group and will assume their duties at the April meeting. An organizational meeting will be conducted after the March meeting with officers and contact men and Committees will be appointed then.

A fish dinner will be served at the March meeting which will be at the Southwest Conservation Club.

## Company Unveils World's Largest Light Bulb on Edison's Birthday

General Electric unveiled the world's largest light bulb yesterday in a gigantic salute to Edison and Light's Diamond Jubilee. The 75,000-watt incandescent lamp bulb is half again as large as the previous largest bulb. It was developed as a feature of GE's observance this year of the 75th birthday of Edison's most famous invention.

Charles E. Wilson, former president of the company, gave the principal address in lighting ceremonies at Rockefeller Plaza in New York. The bulb will be displayed and lighted throughout the year at celebrations, conventions, shows and fairs, in all sections of the country.

The lamp was conceived, designed and assembled by GE lamp development scientists and engineers at Nela Park, headquarters of GE's Lamp Division. Its glass bulb, largest ever made, was hand blown by the Corning Glass Company, first producer of bulbs for Edison.

The lamp produces enough units of light to keep 2,874 60-watt household bulbs, all burning simultaneously. The lamp's filament alone weighs 2.7 pounds, is 12½ feet long and three-sixteenths of an inch in diameter.

## Thomas Alva Edison

"He led no armies into battle. . . . He conquered no countries. . . . He enslaved no people. . . . Yet he wields a power the magnitude of which no warrior ever dreamed. . . . He commands a devotion more sweeping in scope, more world-wide than any other man of the last century. . . . A devotion rooted deep in human gratitude and intinged by bias of race, color, religion or politics." So wrote one of the historians of Thomas Alva Edison, the man to whom the whole world pays grateful homage during this year of Light's Diamond Jubilee.

And could there be a better time than the week of his birthday, February 11th, to refresh our memories on the principles by which he lived . . . and attempt to pierce the fog of tomorrow that we may see the direction in which we are carrying our trusted heritage?

It has been 25 years since the world has turned back the pages of this great man's history, and it may be worthwhile to review briefly Thomas Edison's struggles to perfect the incandescent lamp. His work reveals both his remarkable human characteristics of intuition, patience, capacity for hard work and confidence in himself. This phase of his life began when he already had the successful inventions of a telephone receiver and phonograph to his credit.

Realizing this new undertaking would be greater in scope than he could handle alone, he interested 30 men in putting up \$300,000 to incorporate the Edison Electric Light Company. Thus private enterprise was the beginning of the electrical industry; just as it is the main support of it today.

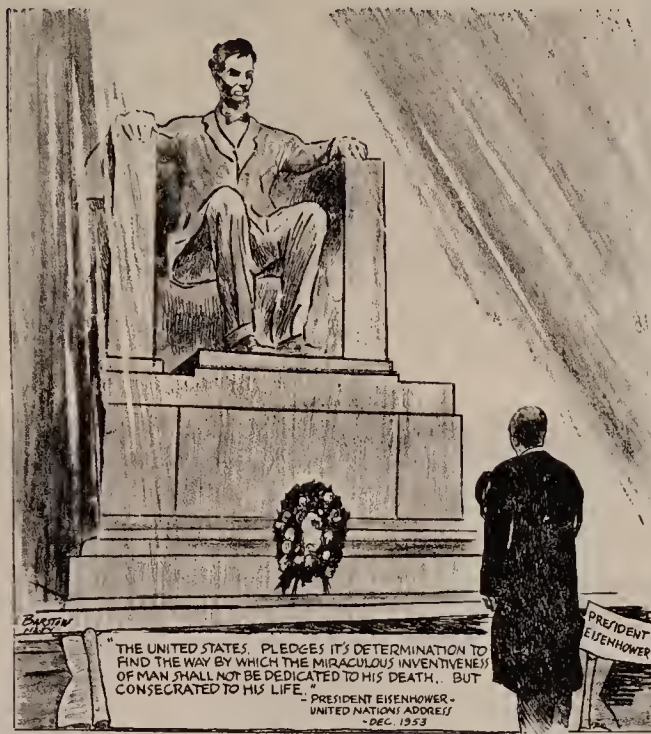

The next year was filled with many failures for Edison and his associates, although while working on the lamp they also devised the most efficient generator known up to that time and a very efficient electrical distribution system. On his lamp experiments Edison had every reason to be discouraged, but he buoyed himself with this philosophy, "We sometimes learn a lot from our failures if we have put into them the effort, the best thoughts and work we are capable of."

Finally in October, 1879, a cotton thread lamp—with the filament taken from his wife's sewing basket—was turned on. Fascinated, Edison and his associates watched it for 40 continuous hours. They were witnessing the birth of the "age of light." October 21, 1879. The true measure of that invention is everywhere about us . . . in our increased standards of living, the comforts and conveniences and the millions of jobs provided by the electrical industry.

But Light's Diamond Jubilee should have a forward looking significance. Actually we are only on the threshold of the electrical age. We hear commentators and others talking about the atomic age . . . the jet age . . . or the electronic age. These are but facets of this electrical age which is now 75 years young. Fortunately, Mr. Edison lived to witness a great growth in the use of electricity, but it is highly improbable that he realized what he had started. It was during Light's Golden Jubilee that Edison said: "I must confess that I never dreamed that from the incandescent lamp would come the stupendous electrical industry of today."

As Mr. Edison said shortly before death, "My message to you is—be courageous. I have lived a long time. I have seen history repeat itself again and again. I have seen depressions in business. Always America has come out stronger and more prosperous. Be as brave as your fathers before you. Have faith. Go forward."

## Towards Mankind's Emancipation

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Anna Bennett, Lawrence Brayton, Doris Cyrus, George Haggengos, Loretta McCarroll, Marciel Norden, Granavier Overmeir, Marjorie Ponsot, Otto Proehl, Hilda Rinehart, Harold Rice, Nora Ridley, Dewey Summers, George Thimlar, Eva Tucker, Forest Wickliffe, Clara Wisel, Bertha Seibold, Fred Gersie, Ralph Hayes, Martha Walker, Margaret Schneider, Donald Murphy, Ernest Linn, Joyce Gouker, Herbert Dornte, Marjorie DeBrosse, Floyd Chilcote, Robert Blosser, Helen Mossburg, Mary M. Goss, Edward Willey, Oscar Baumgartner, Mark Wright, Virginia Johnson, Betty Madden, Patricia Winners, and Peggy Buuck.

### Dismissed from Hospital

Dorothy Money, Truth Eneyeart, Alger Baulky, Frank Mann, William Hedge, Joyce Gouker, Karl Smith, Marjorie DeBrosse, Martha Walker, Hugh Reynolds, Dorothy Mills, Raymond Dotzer, William Mauger, Gertrude Koldeway, Nora Ridley, Martha Scott, and Clara Wisel.

### Returned to Work

Loretta McCarroll, Walter Amacher, Kathlene Gephart, Herbert Garlets, Paul Beauchamp, Charles Hooley, Elizabeth Johnson, Emily Nierman, Katherine Schlientz, Jerry Duryee, Esther Pettit, Margaret Miller, John Blansett, Louella Lahmeyer, Carl Scheiman, Clarence Kabisch, Florence Minnich, Elizabeth L. Brown, Alger Baulky, Thelma L. Johnson, J. C. Fitts, Helen LaRue, Edna Castle, and Hazel Lichtenstiger.

Wife: "Why accuse Junior of taking money from your pocket? It might have been me."

Husband: "Nope. There was some left."

## THISA & THATA

BLDG. 4-3 and 4

by Helen Engle

Bob Blocher's wife is in the money. She won on a recipe in the local paper. We think that accounts for that well-fed look of Bob's. . . . Everett Lindeman says the bite is off. All he could catch was some little perch. . . . We suggest that Peg Phillips take the steps a bit slower, maybe she won't slip and fall again. . . . Fern Hollowell says she is not afraid of a mouse, but we wonder why she screamed so when she saw one last week. . . . Gerna Cook forgot her glasses and she didn't look like herself without them. . . . Ardola Metker has a new niece, named Carolyn Sue. . . . Eva Tucker, wife of Emery, is at the St. Joseph Hospital for an operation and we all wish her a speedy recovery. . . . Ruby DeBolt is wearing size 9 boots these days—a 6 turned upside down, says Ruby Chrysler. . . . Willard Smith was on the paying end of the betting syndicate this week. He took North over Central by 7 points. . . . Warren Jackson was ready to bet \$50 Monday morning. . . . Perry Esterline was on the paying end of that North Side-Central game, too. . . . Ted Bain makes sure he doesn't get any food on his trousers when eating. He was wearing his napkin tucked in his belt as he left the cafeteria. . . . Verna Meyer is going to be the honor attendant at her sister Imogene's wedding, Feb. 14. . . . Howard Hubbard lost an overcoat. We wonder if the woman wrestler is wearing it? . . . We hear that Harley Keckley is going to give one of the major speeches when they dedicate the new Ossian gym. Paul Arnold is going to sing a solo while he stands guard for a fire. . . . Mel Borchering was quite excited about his new GE TV set he got last Saturday. . . . Evelyn Skelton had a lot to celebrate last week-end. She got her first grandchild on Friday. It was a boy. Mary Louise and Tom Pflueger are the proud parents of Craig Steven. Tom worked in Section 1 at one time. Then on Saturday, her son was married so she acquired a new daughter. She says maybe now she can relax. Alva Foulks should also be congratulated on the above

## Words by Walt

### RETIREMENT, OLD AGE AND HEREAFTER

A few weeks ago at a party, A friend, whom I've known for years, remarked that old age and retirement Were his two most disquieting fears.

He said, "It is rather depressing, In knowing there's nothing to do To alter or stop the arrival Of the day when they tell me I'm through."

While he spoke, there were five other fellows Who nodded and seemed to agree. For, you see, almost all of these fellows Who nodded were older than he.

They all knew old age and retirement Comes along rather close to the end, And they knew, when arriving, it's certain There isn't much time left to spend.

On the way home, I couldn't help thinking Of the passing remark Bill had made. I wondered if maybe unnoticed, That I was beginning to fade.

So I said to my wife, "Am I slipping?" "Have you started detecting some flaws?" "Why ask," she replied, "Such a question?" And my answer was, "Oh, just because."

"You, of course, have some gray on your temples, And bi-focals assisting your sight, And the bulk of your teeth had or missing. But, Daddy, your mind is all right."

"Gray hair and bi-focals are symbols Of age, but you don't have to fold, Just as long as you don't get befuddled In thinking, you'll never be old."

So I patted her hand and said, "Mother, You sure have an uncanny way. When something arises to trouble, You always know just what to say."

Next morning, along with my family, I went to the church we attend, And I heard from the pulpit a sermon Entitled, of all things, "Trail's End."

I'm sure that I never have listened To anything more apropos. For anyone starting to worry Of old age and having to go.

Outside, when the service was over, I met my friend Bill coming out, And I said, "After hearing that sermon, Just what are we worrying about?"

He agreed. Now we both have the answer, And I'm sure we have nothing to fear. In retirement, old age, or hereafter, If we live as we should, while we're here.

—W. L. Whonseller.

events. He is quite a proud grandpa! . . . Mary Nute had her coffee all made before she realized it was only 1:30. She didn't reset the alarm when she went to bed and that is the time her husband gets up to go to work. . . . Doris Biltz leaves us this week and we all hope it is a girl. She has waited 11 years for this event and with two boys already, we think a girl is in order. . . . Avery Spade says he caught 11 perch and they weighed 32 lbs. We wonder what size rock he weighted them down with? . . . Belated birthday greetings to Earl Sexton on Jan. 28. He had a big party and a big head the day after. . . . Gus Rutz is home after a hurry-up operation for appendicitis. He is watching television for recreation. . . . Russel Rose has a new 21-inch television set. . . . That was good home-made candy Edith Juillerat passed for her birthday. . . . Irene Williams and Clara Patterson are learning how to knit. Maybe they will take orders for hot dish holders or something. . . . Bernice Johnson and Florence Byers are having birthdays, too. . . . Edith Minnich couldn't find any dirt in the back yard for her African violets, so she bought some at the store. . . . If anyone needs a lawyer, contact Cecil Onion.

Did you know that Fort Wayne has 17 parks, 22 playgrounds, 6 golf courses, 9 bowling alleys, 6 libraries, 2 national banks, 3 state banks, and 1,761 retail outlets?

## Europe Tour Group Slate Valentine Picture Party

Persons who took the Elex 1953 European Tour have been invited to a Valentine luncheon and picture party, Sunday, Feb. 14 at the First Christian Church.

Luncheon will be served at 1:30 p.m. Pictures taken by Mr. and Mrs. Al Krueper and Mr. and Mrs. Ernie Reed will be shown.

Principio Rosucci, Section 113, Taylor St. employee, will entertain the group with selections on the accordion. A native of Italy, Rosucci is a former professional

### Second Shift Party

Second shift Elex Club members have slated a "White Elephant" party for Thursday, Feb. 18, at the YWCA. Those planning to attend the luncheon meetings are asked to take a gift and wrap it. Prizes will be awarded the winner of each game.

The luncheon will begin at 12 o'clock. Reservations are due by Monday, Feb. 15. Tickets are \$1.25 per person and may be secured from contact girls.

entertainer, having performed in several countries with the Prince Rosucci troupe.

Marcella Koehn, Winter St., is chairman of the party and Gertrude Weigler is co-chairman.

The First Christian Church is located at 4800 S. Calhoun St.

## Urge Blood Donors To Help Fill Community Need

Employees who wish to enroll in the blood donor program may do so by filling in the donor cards which they received this week with their pay checks.

When the cards are completed, they should be returned to the foreman or supervisor of the employee. The current campaign to secure additional donors among employees was begun to aid the Fort Wayne-Alen County Red Cross Regional Blood Center in its drive to secure more donors than are presently signed up with the center.

The blood center has a need for more blood to be available to persons in the area in cases of illness or accident. In the GE campaign, a goal of at least 2,000 donors has been set. This total is less than the number of GE employees who donated blood in 1951.

A deadline of Feb. 19 has been set for foremen and supervisors to return all cards to K. W. Michael, Bldg. 18-2.

Persons who are presently enrolled in the program are asked to fill out the new cards they receive so that records on their location and number of donations may be brought up to date.

## R. C. Straub, N. J. Tarney Named Foremen In Advanced Manufacturing Development

Two employees in the General Purpose Component Motor Department have been appointed foremen it was announced this week by Clarence A. Brenner, superintendent of manufacturing in the advanced manufacturing development section.

Robert C. Straub was named foreman of grinders and horizontal boring mills on second shift. Ned J. Tarney was appointed foreman of the machine tool assembly on second shift.

In 1941, Mr. Straub came to the company as a guide. The following year he entered the Apprentice School. He went into the U. S. Navy in 1943 and after his discharge in 1946 returned to the school.

After graduation from the machinist-toolmaker course in 1948, Mr. Straub moved to the general tool room where he had jobs as a radial drill press operator, engine lathe operator, jig boring mill operator, mold and die maker, and inspector. In 1951, he became an instructor on second shift and had this position until his present appointment.

Mr. and Mrs. Straub have three children and live at R.R. 4, Columbia City.

Upon coming to GE in 1941, Mr. Tarney entered the Apprentice School. He graduated from the machinist-toolmaker course in October, 1943 and became a bench machinist in Bldg. 26-5.

In July, 1944, Mr. Tarney entered the U. S. Army. He served in the European Theater for 20 months prior to his discharge in 1946. Returning to GE, he became a bench machinist and in September last year was named leading operator in the general tool section, Bldg. 19-4. This was his position at the time of his present assignment.

The Tarneys have two children and live at R.R. 2, Roanoke.

Robert C. Straub

Ned J. Tarney

### DMM Women Plan Square Dance Monday

Wives of the Decimal Minute Men will have a social meeting and square dance, Monday, Feb. 15, to entertain their husbands. Beginning at 8 p.m., the event will take place at Sears Roebuck Pavillion. There will be refreshments and prizes also.

Members of the committee in charge of arrangements are Mrs. Grover Rhodes, Mrs. Dwight Jackson, Mrs. Carl Swain, and Mrs. Henry Gollmer.

### CBS Grants GE Right to Mfg. Their Color TV

The General Electric Company has signed a patent license agreement with Columbia Broadcasting System, Inc., granting GE the right to manufacture and sell color television apparatus developed by CBS, it was announced jointly by the two companies.

Included in the CBS-developed equipment to be produced by General Electric are the single-tube "Chromocoder" color television camera and the "Chromacoder," introduced last October and now in use in regular CBS Television color broadcasts under the National Television System Committee color standards adopted by the FCC on December 17.

The agreement also gives GE the rights to produce the color cameras and related apparatus for industrial and closed circuit television use.

### Movies Tomorrow

"The Kid from Texas," starring Audie Murphy and Gale Storm will be the feature attraction at the GE Club kiddies' movie program tomorrow afternoon. There will be only one showing beginning at 1:30 p.m.

The feature movie is an exciting semi-documentary treatment of the short, stormy life of Billy the Kid who killed many rival gunfighters until he fell into a trap and was killed himself.

Also on tomorrow's bill is Chapter 5 of the Sea Raiders and a color cartoon.

The show is open free of charge to employee's children.

Prince Rosucci

### Squares Valentine Day Dance Tomorrow Night

Entertaining their valentines, members of the GE Squares Club will stage a valentine Day dance tomorrow evening at the Squares Hall. The informal dance is slated to get under way at 9:15 p.m. and continue until 12:15 a.m. Bob Snowball and his orchestra will provide music.

Tickets will be available at the door tomorrow. They are \$1.75 per couple for members and \$2.25 per couple for non-members.

Ronell L. Allen

### R. L. Allen Completes Apprentice Course

Ronell L. Allen has graduated from the Apprentice School's machinist-toolmaker course, it was announced this week.

In July, 1948, Mr. Allen came to GE and entered the school. He graduated from the Perrysville, Ind., high school in 1947. After entering the U. S. Army in 1951, he had special training as an intermediate radio operator. He was discharged in February last year and returned to the company.

Mr. and Mrs. Allen have one daughter and reside at 2017½ S. Harrison St.

**SAFETY SMILE**—Paul Greenlee, Bldg. 17-2, found that safety pays off with a smile recently. After working on an order, Paul fastened it in a vise and five minutes later, a piece snapped out of the arbor and struck the edge of his safety glasses, leaving three gashes in his glasses.

# GE ON RADIO AND TV

The Jane Froman Show will appear on WKJ-TV from 6:30 to 6:45 p.m. Monday evenings it was announced this week. The Jane Froman show is sponsored by the Lamp Department and is the fourth General Electric program to be made available to the Fort Wayne area.

## TELEVISION

"I MARRIED JOAN"—WKJG-TV.

7 p.m. Wednesday  
Starring Joan Davis

MEET MR. McNUTLEY—WKJG-TV

8 p.m. Friday  
Starring Ray Milland

FRED WARING SHOW—WKJG-TV

8 p.m. Sunday

JANE FROMAN SHOW—WKJG-TV

6:30 p.m. Monday

## RADIO

MEET MR. McNUTLEY—WANE

8 p.m. Thursday

Starring Ray Milland in the  
General Electric Comedy Hour.

BING CROSBY—WANE

7 p.m. Sunday

GATESWAY TO SPORTS—WKJG

6:15 p.m. Monday through Friday,  
featuring Hilliard Gates.

CLAIRE TREVOR has trouble convincing homicide detectives that she really has discovered a murder. Scene is from General Electric Theater presentation, "Foggy Night," to be telecast over CBS-TV Sunday, Feb. 14, 8 to 8:30 p.m.

## GE Theater to Feature Mystery

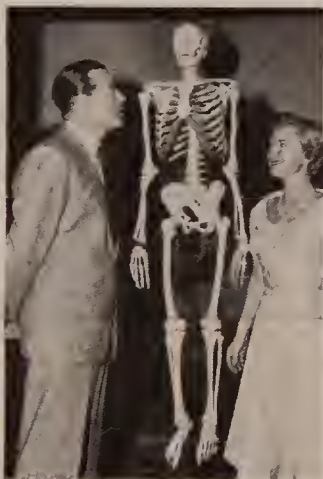

Claire Trevor stars in an intriguing mystery entitled, "Foggy Night," on the General Electric Theater this Sunday, Feb. 14, from 8 to 8:30 p.m. CST over the WKJG-TV.

Filmed in Hollywood for General Electric, this half-hour drama tells the gripping story of an attractive woman artist who, quite by accident, becomes involved in a crime which apparently never happened.

While driving carefully through a dense fog one night, Cora Leslie, portrayed by Claire Trevor, accidentally nudges a parked car, and, when she attempts to pin an explanatory note on the windshield of the damaged vehicle, she discovers that the front seat is occupied—by a female corpse.

When she returns to the scene with police, however, both the body and the car have disappeared, and the detectives called in on the case take a tongue-in-cheek attitude toward the whole story.

The General Electric Theater replaces the Fred Waring Show which will return to the air Feb. 28 after a two-week concert tour.

## STRANGE THINGS HAPPEN—

Ray Milland becomes acting Dean of Lynnhaven College during "rush" week on the General Electric Comedy Theatre's "Meet Mr. McNutley," over CBS television, Thursday, Feb. 18, at 8 p.m., CST. He is about to take a quiet stroll with his wife Peggy, played by Phyllis Avery, when he encounters "Cynthia," a missing biology exhibit.

## Carl H. Starke Appointed Buyer

Carl H. Starke has been appointed buyer in the Specialty Component Motor Department, Francis L. Gale, manager of production, announced this week.

In 1905, Mr. Starke joined General Electric as a messenger. Later he became an invoice clerk, chief clerk in the order and stores section, and section leader. He was an assistant to the supervisor and prior to his present appointment was a purchasing specialist in the department.

Mr. Starke is a member of the Supervisors Club and the Quarter Century Club. The Starkes reside at 1314 Rockhill St.

## Local Engineers

(Continued from page 1)

of the dam will be on display along with photographs of construction and a relief map showing the area of the site. Assisting Mr. Summers with arrangements for the exhibit are C. J. Herman, Bldg. 4-6, and Mr. Cheesman.

S. A. Zimmerman, Bldg. 28-2, is serving as secretary of the Engineers' Week committee and James H. Capps, Taylor St., is in charge of the speakers' bureau.

R. W. Dochterman, Bldg. 4-6, is designing a display poster for the week. This will be shown in high schools, banks, and at the Chamber of Commerce.

## W. E. McKay Appointed Supervisor Of Planning for Holland Plant Study

The appointment of Wallace E. McKay as supervisor of planning in the Hermetic Motor Department Holland plant planning study has been announced by Eldon J. Vosburgh, superintendent of the planning study.

In 1925, Mr. McKay joined GE and entered the Apprentice School. After graduation from the electrical testing course, he went into manufacturing standards where he did process engineering.

Later, Mr. McKay entered the planning department and had jobs on time study and planning. He became a leader of time and motion study and subsequently was named supervisor of planning and wage rate.

After moving to Taylor St. in 1949, Mr. McKay was in the central planning office. He was supervisor of planning in Hermetic Motor until his present assignment.

A native of Little Rock, Ark., Mr. McKay is a member of the Supervisors Club and the Apprentice Alumni Association. Mr. and Mrs. McKay have one daughter and reside at 1310 W. Jefferson St.

Wallace E. McKay

## Wayne Henderson Granted First U.S. Patent on Stabilizer Transformer

Wayne L. Henderson, Bldg. 26-2 development engineer, has been granted his first patent according to notification received from the United States Patent Office.

The patent consists of a stabilized transformer for the ballasting of mercury vapor lamps. It is normally used in reproduction equipment such as a blueprint machine. The device prevents variation in light as the supply voltage to the transformer changes.

Joining the company in 1948, Mr. Henderson entered the Philadelphia plant as a member of the rotating engineering group. His second assignment was with the Ballast Department here and since that time he has become a permanent member of the engineering section.

In 1948, Mr. Henderson graduated from Oklahoma A and M with an engineering degree. In addition to membership in the NSPE and AIEE, he is a registered professional engineer in the state of Indiana.

LAST DAY OF WORK—No more nose to the grindstone for Charles E. Whittier, as he retired this month from the General Electric Company. Mr. Whittier (second from left) is congratulated by Ted Keller (left), Carl Kreager and Charles Conklin. He was a painter in Bldg. 26-3 before retiring.

## from the panel's point of view...

Today's panel includes four safety committmen and women in the Specialty Component Motor Department, which recently earned the National Safety Council's Award of Merit.

## WHAT SUGGESTIONS WOULD YOU MAKE TO CUT THE TRAFFIC ACCIDENT RATE IN FORT WAYNE AND ALLEN COUNTY?

Kurt Harz, Bldg. 17-1: "With so many people driving automobiles today, I don't think it is possible to cut traffic accidents in Fort Wayne or any other city, but I do think there should be stricter fines for the two worst offenses—reckless and drunken driving. I suggest the police confiscate the cars and hold them in storage for a while, depending upon the severity of the charge. That will hurt the offender more than any fine or lecture that he usually receives."

Clara Peckhart, Bldg. 4-2: "If we parents would follow the Golden Rule in our driving habits, our children would grow up to follow our example and be careful and courteous safe drivers. This would cut our traffic accidents in Fort Wayne and Allen County to a minimum."

Irene Kreger, Bldg. 4-3: "Drivers should be properly educated in the operation of their machines. It is imperative that they know and adhere to the laws and courtesies of the streets and highways on which they are driving. Accidents have happened because of the 'slow-poke' driver as well as the speedster."

William R. Miller, Section 417, Taylor St.: "I would suggest that all drivers should be given a reaction time test. It would help drivers to find out how fast they are able to react in an emergency. This would help reduce accidents. This should be done every five years. Also, a safety inspection of automobiles should be made annually to show that a car is in safe condition to drive."

## SLEUTHING in 4-6

by Al Happel

Absent-minded secretary! After Elex last Monday, Yvonne Rosen-dahl was seen rushing madly back to the GE Club, carrying a pair of repaired shoes in each hand. When she went to pay for the repair job she discovered she didn't have her purse, and so the bee-line back to the Club. . . . She couldn't even remember when and where she had it last. The party was very good and the excitement of winning at Bingo may have had a lot to do with it. . . . Thank you Elex: We liked your Bonnet and Bingo party very much indeed. Audience participation such as this is a lot of fun and the "good neighbor" idea helped us to become acquainted with more of the girls and to meet new friends. . . . Today we wish a very happy birthday to quite a few of our Specialty Engineering people: Katie O'Gardt, today, Feb. 12, and Bruce Curley and Doran Herschberger, Saturday, Feb. 13. Our Sunday valentines are "Big John" Leffers, and Bob Susdorf. (What a valentine you gave your wives, eh?) Bob "Chicken-pox" Mee celebrates on the 16th and Johnny Taylor on the 18th. . . . Early Valentine: Have you noticed that very special happy gleam in Johnny Boeckel's eyes lately? Mr. and Mrs. Boeckel have a precious addition to their family. She has completely taken over their home on Hiawatha Road, judging from the pictures Johnny shows. Who wouldn't be proud of a little girl such as Nancy Eileen. . . . We welcome back Jerry Dur-ye who was sick for five weeks. You look good as new, Jerry.

## SHAFT SHAVINGS

BLDG. 19-3

by Blanche Cowell

We welcome Al Stute to the Core Section. He comes from Bldg. 27. . . . So long to Claude (Sam) Cline. He left us to work in Bldg. 26-1. We will miss the handsome lad. . . . What people will do these days to get a television set. There was an ad in the paper that a party would trade a TV set for a cow. Everett Harris has been want-

ing a television, so he decided to investigate the ad. No swap though; the fellow wouldn't give him enough for his cow on the trade. . . . We would like to say "Hi There!" to Ansel (Hank) Feighner and family. He is a former employee of Bldg. 17, now living in Colton, California. He receives the GE NEWS every week and enjoys reading it. . . . We want to express our sympathy to Bill Clevenger in the death of his mother. . . . Frank Elder is back on the day shift. The first thing he said was, "Where is Sharpie?" Sharpie, otherwise known as Herb Wendt, has left us to go to work in Bldg. 6-4. He is a very nice person and we miss him. . . . The boys in the Commutator Section would like to know how anyone living in the country can get along without a car. Well, our Roanaker, Ralph Ayers, seems to be doing all right. . . . There was a gorilla loose at the Coliseum during the Shrine Circus. Leroy Cook works out there during his spare time and he was late to work Monday morning. Now the question is, did they lock up the wrong one for the gorilla and he didn't get out in time to come to work? . . . They have moved Elmer Schoelein and his tool crib from the east end of Bldg. 19-3 to the west end. We miss you, Elmer.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

So is coming to work Monday mornings, General Sherman. (The first part of this statement you'll find in any history book.) . . . Congratulations to Bill Hoelle on 30 years of wedded bliss. Hope the next 30 will bring just as much happiness. . . . George Grote went to the circus. Gad! Don't you get enough of that around here without having to pay out good money to see more? . . . Carole Chalmers is leaving payroll office to go out to Colorado. Wasn't it Horace Greeley who said, "Go West, young man." Well, that applies to women also. I hope you find that tall, handsome, fellow you are said to be looking for. I don't think you'll have much

trouble, Carole. Good hunting. . . . One day George Buelow had to work a little overtime, so his wife called last Friday afternoon and asked George, "Are you coming home?" To which George replied, "Where else would I go?" We uns in the office got a chuckle out of the conversation when George told us. . . . Say, by the way, Valentine's Day is coming along now. So, you-fellows, don't forget that best little gal of yours and make her real happy with a card, box of candy, or you rich birds, a pound of coffee. . . . Dick Getty's wife presented him with a baby boy last Saturday. This makes three. All boys, too. Good start for a baseball team. . . . Bob Buck and his gang from Bldg. 19-B have moved over to Bldg. 31-1. Now things will start perk up. . . . How's everything with you and the Telephone Company, George Winans?

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

Congratulations to Jerry Mc-Known's son, who won first place in a music contest. He must have inherited some of his dad's wind for that tuba. . . . Belated birthday greetings to Glendola Barnett, Bernice Gasper, and Walter Fair. . . . Welcome back to Ruth Bonham after an illness. . . . We are glad to have Marguerite Stahl and Marjorie Crabill in our section. . . . Marjorie Judge took Stella Evans and Flo Sizemore uptown the other night, but almost went to New Haven. Marjorie wants to know how you liked the walk back, Stella. . . . Mary Green and Ethel Koontz have worked together for years. Now they find out they are from the same family tree. . . . Bob Heinzelman is really proud of his

Olds. He took half of the group out on Saturday to show off a real nice car. . . . Harold Moss-hammer is really having hard times at home, so he decided to take some one from second trick's lunch home with him. Gee, Harold, if we'd have known things were that tough we could have helped out a little. Now Harold has to open his lunch bucket before the guards at night. . . . Bob Johnson found out the hard way that they still grow hot peppers almost impossible to eat. Bob ate one offered by a friend and three sandwiches and all the water he could get. Bob claims that it was the hottest pepper in the world. . . . It seems the other day Fred Seips went to wait on his wife to pick her up. When he had waited about 40 minutes, it finally dawned on him that he had driven to work. . . . Dick Graham has TV now. That's the reason he looks so tired.

MAN OF THE DAY—Man of the day in Bldg. 20-1 January 15 was Emil Seidel, who retired from General Electric. On hand to offer him best wishes were Lawrence Woodward, Harry Hawthorne, Vern Marbaugh, Mr. Seidel, Mel Fulk, and Howard Morton. Mr. Seidel was a machinist in Bldg. 8-1.

## GE All-Stars Drop Game to Goshorn's In Local Tourney

The GE All-Stars dropped a close decision to Goshorn's Market, 33-31 in the opening round of play in the Fort Wayne Newspapers tourney. The score was tied 6-all at the end of the first quarter, and at the half the GE five held a 2-point margin. Goshorn's Market came to life in the third quarter and ended up with a 27-22 margin.

In the last quarter, the victors played control ball and staved off an All-Star rally to win 33-31. Both teams lost a man via the foul route in the last quarter.

GE		Goshorn's Market	
G. F. T.		G. F. T.

Totals	12 7 31	Totals	11 11 33

The Apprentice School handed the Squares Club their first defeat of the Interdepartment League second half play Tuesday night, downing them by a score of 35-34. Howard Bash dropped in the winning basket from the free throw circle with 45 seconds left in the game.

A close contest all the way, the game saw the lead change hands several times. Bash was high point man for the victors with 12 points. Gil Carl dropped in 15 points for the losers.

In the second game, the Test Engineers had little trouble defeating the Hermetic five by a score of 41-25. High point man for the TE's was Bill Barah with 12 points.

Tuesday's final game between Transformers and the Firemen ended with Transformer handing a 38-29 defeat to the Firemen. The winners had well-balanced scoring led by Hughes with 8 points. Morkoetter and Rietdorf led the scoring for the losers with 16 and 15 points, respectively.

League standings as of Feb. 9:

## Fencing Starts At Club Tonight

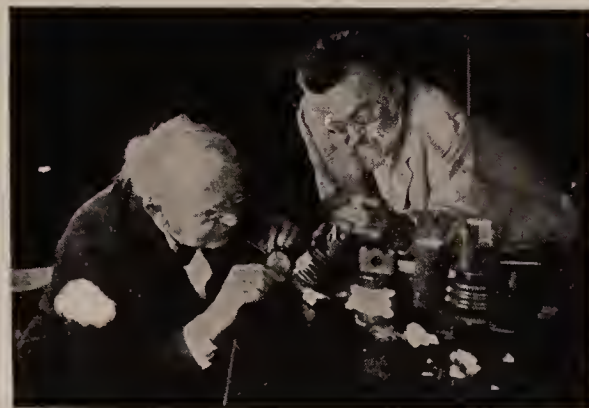

Any employee interested in learning the fundamentals of fencing or in joining a fencing team is invited to attend the initial session on the sport this evening at the GE Club gym. From 7 to 9 p.m. both beginning and advanced fencing will be taught.

Both men and women employees may attend the new series of

classes which will be conducted Friday evenings. There will be no charge for the series. Persons who plan to attend should take rubber soled or gym shoes.

If there is sufficient interest, a GE Club fencing team will be formed to compete with the Fort Wayne Fencing Club team and the Indiana Technical Fencing team.

Instructor for the series will be Joe Bahr, Bldg. 20-1. Joe has been fencing for three years. He is a member of the Fort Wayne Fencing Club and the National Amateur Fencing League and is a past member of the Indiana Technical team.

EDISON and STEINMETZ exchange ideas on a research problem. Schenectady, N. Y., 1922.

# "I start where the last man left off"

—Thomas A. Edison

Edison, to explain his incessant and tireless reading of scientific journals, technical papers, patents and books, said that he read to avoid useless repetition of old experiments. "I start where the last man left off."

What Edison knew, and perhaps said in an unquoted moment, is that thousands of men would be needed to "start where he left off."

"Just wait a little while," prophesied Edison, "and we'll make electric light so cheap that only the wealthy can afford to burn candles." Edison lived to see lamps that gave four times as much light and cost one-fifth as much to buy. And electric lighting has progressed far beyond that.

He recognized that an invention does not *end* a search. It *begins* a search.

The lamp was a beginning in forcing not only its own evolution but the evolution of meters, fuses, sockets, wiring, power distribution systems, transformers and generating stations.

He lived to see the company that was formed to carry on development of electric light and power evolve into one of the world's most important industrial research centers. Today General Electric laboratories employ several thousand men and women who are seeking new things on widely different fronts.

It is seventy-five years since Edison lit the first successful carbon lamp. He will be remembered for inventions that changed the world. But let him be remembered, too, for inspiring so many men to start where he left off.

*You can put your confidence in—*

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

We just went through a terrible ordeal at our house. The TV was on the blink and was in the repair shop for three days. Three nights of just sitting and waiting. We tried the radio but just couldn't get interested. The children quarreled among themselves, the baby cried, and Mama spent most of her time listening to her Liberace records on the phonograph. Finally, I got an idea. We could at last

find time to visit our relatives. Why, we had hardly seen anyone since we got TV! But that idea goofed, too. All our relatives had TV and we didn't get to talk with them. You can't see each other very well in the dark either. I doubt if some of them even knew we were there. On the fourth day we got our set from the repairman. Boy, we're livin' again! . . . John McNearlin is Bldg. 22's latest TV fan. It's getting him already. The other day while welding a base, he welded right across his straight edge, securely fastening it down. . . . Our sympathy to Pat McCutcheon on the death of his brother. . . . Next time Erv France drives to Ohio I bet he'll

slow down when he crosses the Indiana-Ohio line. He found they have a different speed limit there. . . . Art Thompson's wife phoned him the other day with the exciting news that one of his calves had just drowned in the water trough. Always the level-headed business man, Art just picked up the phone and sold the calf to a milk farm. . . . Joe Ostrowski is seriously thinking of entering his old Graham in the automobile show next month. "By golly," says Joe, "She'll win first prize, I betcha." Hmm, it might at that.

"Hustle is not work, but the enemy of work."—Arnold Bennett.

## Owls Swamp Indiana Rod; Take Over League Top Spot

The GE Owls moved into undisputed first place in the Main Auto Industrial Owl League last Thursday morning when they beat Indiana Rod, 51 to 30.

Bob Markey led the Owls in the first quarter, when he hit for 6 points; Carl Wilson followed with 5; while Etter and White each dumped a field goal for a total of 15 points. Indiana Rod scored 9 points to give the Club team a 6 point cushion going into the second period.

The Club team showed their well-balanced scoring and playing ability in the second stanza. Coach Benny Penkul inserted a revised lineup that held Indiana Rod to just two field goals. Blodgett, Gladieux, and Fisher each bagged a field goal as Amspaugh hit a charity toss and Dickey added a basket and a free throw, to move into a 25 to 13 halftime lead.

GE continued to pull away in the third quarter when Carl Wilson rang up two field goals and two free throws; Gene Etter, two field goals; Bob Markey hit one and a charity toss each by White and Gladieux were good for 14 points. This led to a third quarter total of 39 compared to Indiana Rod's 21 on an 8 point third quarter.

Time ran out for the boys from Indiana Rod, when they scored 9 points in the final period. Ron Blodgett paced GE with three field goals, aided by Dickey's two fielders. A basket donated by Fisher wound up the affair, 51 to 30.

In other games played, Aircraft Gear nosed Zollner, 42 to 41, and Eckrich took Salisbury, 42 to 32.

Next Thursday morning at the GE Club, Salisbury plays Zollner at 9 a.m. GE meets Eckrich at 10 a.m., and Indiana Rod goes against Aircraft Gear at 11 a.m.

SECOND HALF STANDINGS				W. L.

## Rifle Team Loses Recent Matches

The GE Rod and Gun Club Rifle team dropped two matches in recent meets. The first was to the Ossian Rifle Club by a score of 1145 to 1118; and the second was lost to the Fort Wayne Rifle and Revolver Club team, 1128 to 1119. This gives the GE team three wins and four losses for the season.

The league standings so far for the season are:

Ossian Rifle Club	W. L.
GE Rod and Gun Club	7 0
Decatur Rifle Club	3 4
Fort Wayne Rifle Club	2 5

The scores for the recent matches were:

GE		W. L.	
R. Stevens	281	L. May	281
H. Patterson	281	O. Emrick	276
Total	1118		

## Annual Doubles Bowling Tourney Gets Under Way at GE Club Feb. 27

The GE Club second annual Doubles Bowling Tournament will take place on Club alleys Feb. 27, March 13, and March 20. Squads will roll from 1 to 3 p.m. and at 5 and 7 p.m. on the three days.

All GE Club bowlers are eligible to enter the competition and may do so until March 20. To enter, they should secure blanks at the Club desk and pay a two dollar total fee. They should be authorized league bowlers.

Sanctioned by the American Bowling Congress, the meet is operated on a handicap basis. Handicap will be 70 per cent up to 420 with no maximum. Keglers will use composite GE Club league averages as of the week ending Feb. 20. Bowlers can compete as often as they desire as long as they change partners each time.

A guaranteed first prize handicap of \$35 has been announced together with a \$15 prize for highest total actual pins. The prize fee will be returned 100 per cent in prizes plus \$50 which has been donated by the GE Club. There will be one prize for each four entries.

Those joining the tourney will be asked to present their American Bowling Congress membership cards so that the numbers may be recorded by the tourney secretary.

The next match is at Ossian, Feb. 17, with the Decatur Rifle Club team.

## VOLLEYBALL NEWS

By Art Rasor

Taylor St. repeated their volleyball title for the third consecutive year with a 27 and 3 record, winning both halves of the schedule. A fighting Transformer team continued to be the closest contender, with a record of 21 wins and 9 losses.

Jack Fox took over the duties of captain from Ray Soughan late in the season, and held the team in second place. The Tool Room team, piloted by Paul Yentes, had a record of 20 wins and 10 losses, losing 9 of their games to the first and second place teams.

Winter St., captained by Harold Fremion, was fourth with 12 wins and 18 losses. Test Engineers, captained by Bob Susdorf, was fifth with 6 wins and 24 losses, and Small Motor, captained by Leon Lahrman, was sixth with 3 wins and 27 losses. Jerry Duryee and Paul Mitchell were referees for the games.

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

If someone parks so close to your car in the parking lot that you can't get in the door, ask Mac McCray for help. . . . Bob Jackson, what are you dreaming about when you sit on that spool looking at the arbors? Or are you sleeping? . . . Arnold Wolf's famous words, "Get those motors running." . . . Dave Gilbert is still in his childhood days, as he was caught playing with wooden blocks the other day. No, it wasn't a new man in the office last Monday. It was our Don Strain, with a crew cut. Eddie Alter looks as if he had one, also, but Eddie said fire was the cause of his short hair. . . . Congratulations are in store for Rose Onstatt. She has a new granddaughter. . . . Frank Clibon just gets the "bug" for a new Pontiac, while Alta Cotner buys one. . . . It isn't everyone who can get their car decorated with pink tickets like Louise Lengerich. Why all the honor, Louise? . . . Did you people hear any strange noises the other day? If you did, it was only Art Pequinnot and Nancy McCrea trying out their vocal cords. . . . We are happy to see Gladys Freeman and Luella Lahmeyer, who have been ill. . . . Carl Noland, who has been in the Army, is back with us again. . . . A speedy recovery to Frenchy Chilcote. . . . Allen, it is a good thing that you have winning ways, because you are the best customer for Kinney Concessions. . . . Moe, what is this about you walking in your sleep? . . . Safety Sam Says: Take care of yourself, no one else will.

## 6-4 AIRLINERS

by Moe Satterthwaite

Congratulations to Merle Keesler on his new appointment as Chief of Air Raid Wardens of his community. . . . A shower was held last Friday for Rita Sherwood, who is taking a leave of absence to await a blessed event. . . . Neva Scott went traveling last week-end to Buffalo, New York, to visit her daughter and family. . . . Mac McCoy is now in the business of training parakeets. . . . Walter Starke and Red Doakes were seen taking in the Golden Gloves finals. Millie Koehler was also there. Millie says she hasn't missed the fights for 23 years. She's 23 years old. . . . If you're wondering why "Little Pondo" was wearing a piece of tape on his lip it's because he likes to get really close to his work. . . . If you see George Lude-man counting his money it's because he has been collecting in the bowling tournaments. Talking about howling, if anyone wants to buy a new fingertip bowling ball contact Andy Anderson before he throws it in the river. . . . Frank Serovia attended a fish fry the other night in Markle and when the drawing was announced Frank won a new \$76 bicycle. However, it was too cold to ride it home. . . . Happy birthday to Martha Englellent, Charles Whitman, Selma Hans, Geraldine Krantz, Herman Buuck, Morris Pool, and Charles Hendrickson.

From Rhode Island, Lewis E. Davis, former Bldg. 12-1 winder, writes that he enjoys keeping up to date on changes, improvements, etc., in the plant through the GE NEWS. On board the U.S.S. Harlan F. Dickson, Lewis says he likes to keep up on events around here. His present address is:  
Lewis E. Davis, E.M.F.A., U.S.N.  
U.S.S. H. R. Dickson (DD708)  
c/o F.P.O.  
New York, N. Y.

The following employees have entered the Armed Forces: James H. Feber, Robert H. Wyss, Chester E. Topp, Max E. VanCamp, and Richard N. Poe.

THREE-TIME CHAMPS—The Taylor St. volleyball squad racked up their third straight league title, with a 27 to 3 record. The 1954 champions are (front row l-r) Mel Kestner, Bob Boals, and Ozzie Nahrwald; (back l-r) Art Rasor, manager, George Cowan, team captain, Dick Wehrle, Merle Morkoetter, and Don Arnold.

# FOUL LINE FABLES

by KEGHEAD KEGLER

In the GE Office League M and G Sales, Motor Generator, and Pawlisch Shoe Repair have each won 10 games and lost 5 putting them in a tie for the top spot. In fourth place just one game behind the leaders is Transformer with 9 wins and 6 losses. C. Townsend kegled a 245 score; H. Dalman, 221; R. Parlow, 213; W. Miller, 210; C. Shipman, 210; and D. Manecke, 209.

## Ladies' Monday Night

It is still Scatterpins leading the league with 14 wins and 4 losses. Twisters have won 13 and lost 5 for second place. Holyrollers are in third with 11 wins and 7 losses. Ilo Matter kegled a big 511 score on games of 166, 175, and 170. Jean Dangler scored 179 and 174; Margie Meeks, 180; Maxine Root, 178; Paula Gerding, 179; and Marg Pasternak, 171. Loretta Bailey converted the 2-7-10 split and Catherine Bailey, the 5-10 split.

## Ladies' Tuesday Afternoon

Team No. 3 has won 12 and lost 3. Team No. 1 has 10 wins and 5 losses, while Team No. 2 has a 9½ and 5½ record. Team No. 6 won 7 and lost 8; Team No. 4 has 3½ wins and 11½ losses. Team No. 5 has won 3 and lost 12. Janet Dillon scored a 182; Edna Bailey, 173; and Virginia Salmon subbing in the league rolled 188 and 178.

## Interdivision League

In the Interdivision Bowling League last Wednesday night the Apprentice team took 2 games from the Pindusters. G. Pinkerton of the Apprentice outfit had a 208 game. The Gutterdusters took 2 games from Tools. The Old Crown Beer and Ale team won all 3 games from the Transformer team. Two of the Old Crown boys had 200 games, A. Seidel, 208, and G. Koehl, 229. Brouwer's Tire and Battery won 2 games from the Kinney Koncession team. P. Perry and L. Shroyer of the Kandy Kids had games of 230 and 210. On the Brouwer outfit Luideman had a 211; Matthews, 221; and France, 215 and 222. France also was high man of the evening missing a 600 series by just one pin. Harvey Bros. won 2 games from the Airliners. Rogers, Hawk, and Haflich had games of 200, 215, and 200. Deadheads won 2 games from the Summit City Heating team. Vic Rump leads the league in individual averages with a 178 average. Old Crown leads the team standings with an 11 win and 1 loss record.

## Small Motor League

Two Legs Clothes have continued their winning ways by taking all three games. They have an 11 win, 1 loss record. Models moved into second place with 8 wins and 4 losses. Tommy's Lunch slid to third place by losing all 3 games. They now have 7 wins and 5 losses. Test and G-Men have won 6½ and lost 5½ to tie for the fourth spot. J. Saylor scored a 222; C. Brandt, 210; A. Lantz, 202; M. Junk, 202; and E. Bowser, 200.

## Apparatus League

Team No. 4 has won 3 games and has taken over top spot with 7 wins and 2 losses. Windy Boester's back got tired carrying the other 4 members of his team and they dropped 1 game to fall into second place with 6½ wins and 2½ losses. Team No. 6 and 10 are tied for third place, each having won 6 and lost 3. Windy Boester scored a 211; Carmer, 232; Langer, 200; Tyler, 206; and Townsend, 201.

## Ladies' Friday Night

Team No. 1 leads the league with 9 wins and 3 losses. Team No. 5 has an 8 and 4 record, with Teams No. 2 and 6 tied for third place each with records of 7 wins and 5 losses. Liz Shearer scored games of 146, 213, and 183 for a 542 series; Justine Brown, 206, 138, and 197, for 541; Tommie Williams rolled a 536 on games of 209, 187, and 140. Charlotte Stanford's 516 series resulted from games of 180, 135, and 201. Virginia Mollet scored a 178; Winnie Schuerich, 177; Margaret Parisot, 177; Virginia Bowman, 173; Coleen Rogers, 171; and Alice Dahman, 170.

## Mixed Doubles

You still have time to get into the mixed doubles tournament to be held February 20 in the Club alleys. Squads will roll at 6 p.m. and 8:30 p.m. Sign up at the Club desk or phone Ext. 742. Big first prize of \$20 will be donated by the GE Club.

**LAST DAY AT GE**—With more than 35 years of service with General Electric, Louis Davis (center) retired last month. Congratulating him are William Schultz, Fred Roembke, and Paul Henricks. Mr. Davis had been a punch press operator since 1917. He worked in Bldg. 4-4 before leaving the company for days of leisure.

## GE Orphans

Hotel Keenan has won 13 and lost 2. Team No. 2 has won 12 and lost 3. Team No. 6 has a 7 win, 5 loss record. Bernie's Motor Sales has won 5, while losing 10. Team No. 5 and Ken's Market show records of 4 wins and 11 losses. Bea Lantz rolled a 197 and Milly Rietdorff, 177.

## Men's Factory League

With G. Schultz rolling a 617 in games of 191, 222, and 204 the Stators knocked the Flanges out of first place in spite of good scores by S. Jackson, 212, and H. Shoaf, 204. The Stators and the Rotors are now tied 7-5, while the Flanges and the Office bring up the rear with a 5-7 record.

## GE Fraternal

Paul Briede's 601 in games of 212, 209, and 180 helped the GE Club salvage one game from Monroeville Lumber Co. The only other 600 series was rolled by L. Ullman, 611, in games of 203, 189, and 219 for the tail end K of C Club. The West End Restaurant by losing two to Teeple Truck Lines slipped

into a tie for first place with Monroeville Lumber at 7-5. Five clubs are next in line with 6 wins and 6 losses. They are: GE Club, Peter-son Elevator, Riverview Gardens, the Elks, Teeple Truck Lines. K of C's record is 4-8. 200 scores were rolled by: K. Bauserman, 212; F. Pillars, 200; R. Johnston, 203 and 210; E. Faulkner, 201; G. Schultz, 243; G. Laurent, 226; W. Petrie, 201; G. Baumgartner, 222; B. Werling, 224; E. Bultemeier, 215; E. Reinking, 200; H. Strickler, 203; C. Oetting, 224; W. Kukule, 212; J. Murphy, 216; N. Steury, 226 and 212; C. Debolt, 222; B. Custer, 204, and R. Macklin, 216.

## GE Women's League

The Spares vaulted from last place to a tie for first place by winning 3 from Last Frames. The Spares are now tied with the High Spots with a 5-4 record. GE Office and Last Frames are close behind with a record of 4-5. High Scores were rolled by: Teeple, 186; Wellman, 161; Myers, 169; G. Reynolds, 176; Miller, 163; and Stults, 162.

## SPECIALTY MOTORS

**Shipping—Receiving—Order Service**

by Mabel Fisher

Evelyn Kissinger went all the way to Huntington to see Huntington beat South Side. . . . Helen Brown comes to work now with TV eyes. Don't try to see it all at once, Helen. . . . Helen Risser has the nicest new red boots, Little Red Riding Boots. . . . Della Davis, in IBM, became the bride of Robert Abel on January 30. We all wish you lots of happiness, Della. . . . We were very pleased Al Kruse came in to see us Friday before his retirement. Nice working with you, Al, and may you enjoy every minute of your retirement.

## WIRE RAVELINGS

**TAYLOR ST.**

by Art Rasor

While walking out to the parking lot the other night, Al Swift remarked, "I hope I don't have another flat tire." But when he looked at his tires one of them was flatter than a pancake and all twisted up like a pretzel! Al has had enough flat tires the past month that he is now eligible for a nickname. Henceforth he will be known by the name of "Flat Tire Al." . . . Birthday greetings to Bill Irwin on the 16th. . . . When George Miller gets his shoe wet the next time he will have to keep an eye on it if he places it under a heat bulb. The last time he tried to dry his shoe he turned his head away too long and the shoe was as crisp as toast. . . . There is still a mystery about the anonymous cards that one will receive when he is off work sick. If "Porky" Schoenefeld, George Miller, and "Tiny" Wright get their heads together they may find out who is trying to keep things a secret. . . . Tom Hutsell finally was convinced to trade in his "41" Hudson. It is none other than a "52" Hudson, the step-down model. . . . Most people have their television sets, but Jess Easterday is going to wait for color television before he buys one. . . . We welcome Eleanor Klenke to the office production section.

**FLOWERS FOR THE LADY**—Elma C. Wise wears flowers from her friends at GE on her last day of employment here. Congratulating Mrs. Wise are (l-r) Irma Beard, Violet Renkenberger, C. H. Prine, Catherine Dull, Eva Webber, and Helen Frazier. Mrs. Wise was a welder at Taylor St.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 19-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, age, number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 19-1.

## CLOSING DATE

Monday Noon, February 15, 1954

## LOST AND FOUND

LOST—Lady's yellow gold wedding ring. Howard. E-6414.

FOUND—Lady's pair of black fabric gloves.

FOUND—Rhinstone drop earring.

FOUND—Silk floral head scarf.

FOUND—Gold tie holder.

FOUND—Single brass key.

FOUND—Blue bead rosary.

FOUND—Sack containing handkerchiefs, hand-aids, and lady's purse.

FOUND—Five keys in key case.

FOUND—Cigarette lighter. Found at College gate.

## FOR SALE

HOUSE—Six-room, square type house. Automatic gas heat. Two-car garage. H-75062.

BROODER—200 chick brooder, electric, and electric drinking fountain. H-20299.

BICYCLE—26-in. boy's bicycle, like new. Western Flyer, super deluxe. A-99739.

ICE SKATES—Girls', white, shoe, ice skates, sizes 5 and 8, \$2 and \$5, respectively. Good condition. A-97771.

STOKER—500-lb. Winkler stoker. H-45438.

HALL RUNNER—Brown, figured, hall runner, 11 ft. 10 in. long, 26½ in. wide. A-56963.

TRIPLEX—On Huestis Ave. Income of \$108 per mo., plus owner's apt. Will sell on contract or cash for \$12,500. H-46072.

DOG—Pomeranian, color orange, male, 1 yrs. old, good pet. Double wood bed, springs, and mattress. Kodak, good condition. A-67895.

AIRPLANE—Rocket brand, model airplane, gas engine. Violin, case, 2 bows, and case rain cover. H-28461.

WASHER—1948 conventional Maytag, square tub. Roanoke 3191.

TABLE—Walnut, dining table, 40 in. wide, extends to 72 in., good condition, reasonable. A-60672.

RUG—8x9, Lees Heavenly Carpet, rose-colored, large leaf pattern, rubberized pad. Cost \$12 per yd. Practically new, will sacrifice. K-5627.

REFRIGERATOR—GE refrigerator, 7 cu. ft., very quiet. \$75. Storkline carriage, \$20. Table top gas range, \$20. Excellent condition. H-0513.

PULLETS—Culled and laying. Heavy fryers, 30 cents lb. St. Joe Rd. A-75182.

PIANO—Mason and Hamlin upright. Excellent condition, bench included. 2708 Highland Ave.

TELEVISION SET—1953 GE console model 17-inch screen. UHF and VHF. Also NRI portable tube tester. H-60148.

BUSINESS BUILDING—In Monroeville with modern living quarters above, for sale or trade for house, small farm, lake property, or what have you. M. W. Marquardt, Box 45, Monroeville. Phone 3843.

HOUSE—Edge of town, east, 3-bedroom up. Kitchen, living room, 1 bedroom down. Big two-car garage. Fruit trees, grape arbor. A-78239.

CHEVROLET—Runs OK, also 1937 Terraplane, usable for repair parts. Will run. A-85512.

## APPRENTICE BROADCAST

by James Schwartz

We don't want to forget the episode of Dick Hess, the fragrant lathe operator. Dick was working away very hard, when suddenly his keen senses noticed a pungent odor emanating from his lathe. Dick, being a conscientious person, turned off the machine and immediately sought the aid of good old Scotty, the machine repairman. Dick explained the trouble to Scotty and they both set out to solve it. After a short trial run, the more experienced Scotty spotted the trouble. Seems that someone had smeared a little Lieberkrantz on the light bulb. . . . Glen Zook took over the duties of production clerk in Bldg. 12-2 office and celebrated his first day by coming in an hour late. . . . Congratulations to Frank Miller and Roy Gawthrop. These boys both received \$10 suggestion awards recently. Frank's suggestion concerned greater utilization of the internal grinder in Bldg. 12-2, and Roy's suggestion concerned a material savings. . . . Tim Beitel had to prove his prowess as a chef to the troops in the lathe section. Tim baked a cake over the week-end and presented it to the boys Monday morning. We are still waiting anxiously for the coroner's complete report. . . . Congratulations to Dick Buffenbarger, Howard Bash, and Les Fanning on being picked for the GE Club All-Star basketball team. . . . Jim Paxson is the proud owner of a brand new '54 Dodge. According to Jim, his car is the most. . . . A little surprise birthday party was given by Mrs. Conner in honor of "Big Ben" last Wednesday evening. Ben nearly starved to death waiting and wondering why his wife wouldn't give him any dinner. The guests, including the Zooks, Schwartz, and Bairs, finally arrived and Bent got to eat. Much euchre playing followed the dinner with the men's game ending in a tie and the girls' game ending with Marvene and Delores as winners.

## TRANSPORTATION

RIDE WANTED—From Roanoke to Broadway GE, 8 to 4:40. Phone Roanoke 2285.

## THANK YOU

Words cannot express our thanks for the kindnesses and floral offerings in the recent passing of our husband and daddy, Mrs. Van Auker and Family.

I wish to express our thanks and deep gratitude to all who have been so thoughtful during our loss. I also thank all those who helped to brighten the past few months for Tom during his illness. Viola Dougherty.

THE NIGHT WIND  
SECTION 417 TAYLOR ST.

by Hazel Davis

Our deepest sympathy we extend to Charles Drury. Everyone will miss Velora very much.

## IN MEMORY

In memory we write this little rhyme  
Of a lady that was mighty fine.  
She was so happy and so gay  
And greeted us friendly as she passed  
our way.

Yes, she greeted us with her friendly smile,  
And always thought it worth her while  
To bring a cake to a birthday friend  
Or a card to the sick, she'd send.

Velora Drury has gone up yonder,  
Where cares and woes are put asunder.  
Yes, her master called and she must go  
Where the rains don't fall and winds don't blow.

We never shall forget our dear friend,  
Who always a helping hand did lend.  
Pleasant memories with us linger still,  
Though she now dwells on "Heaven's Hill."

D. V. H.

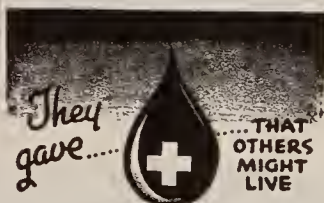

Our sympathy is also extended to Allen Telschow and Clarence Lothamer whose father and mother passed away. . . . We're waiting to see how Bob Huhn makes out on his income tax since his department, Billy, happens to be a parakeet. . . . We are sorry to hear of Wayne Chapman's accident and hope he recovers soon. We are missing you, Chappy. . . . Fred Pyle likes the name, "Delmar." Anyway he keeps calling Denver Coolman, "Delmar." . . . Things you hear and see in 17-530 group: Charlie Prine "singing." . . . Catherine Dull waiting in line at lunch-time to call her "hubby." . . . Vida Craft heating her soup for lunch. . . . Marilyn, "I wish I had married for money instead of love." . . . Betty waiting on 10:30 gong. . . . Irma selling for Elex "going, going, gone." . . . Violet with a sweet smile. . . . Helen always in a rush. . . . Mary Eperson welding her time away. . . . Mary, the Knight of the line. . . . Pauline Stocks and Helen Bergman silently working.

## 17-3 NEWSIES

by Wilhelmina Beeth

There's a Walter Winchell on Walter Kryder's line, but her predictions aren't always accurate. . . . Congratulations to Jo Matter and her husband on their 30th wedding anniversary. Also to Art and Dorothy Blume on their 20th anniversary. . . . It's a happy birthday to Madalyn Briggs, Tillie Nuttle, Doris Ryan, Lois Oetting and Ada Mae Barnes. . . . Doris

Merrimann jacked up the old license plates on the car and ran a new Studebaker under them. . . . We should go over to Velma Seibt's. She really hit the jackpot on free groceries. . . . We don't know whether Kate Weigele didn't want to cook or what. She picked up Luella Knoche's lunch instead of her thermos. The cafeteria enjoyed Luella's patronage that evening. . . . If you offer Bernice Topp some chewing gum, she will refuse it. She says it makes her nose itch. . . . Frances Eckrote is a proud new grandma. It's a boy. . . . Mary Seerist joined the rest of the kids by going to the circus last Friday night. . . . Audrey Young is very happy these days. Her son is home from the Army. If you notice a slight bulge over Broadway, we are just making room for all our newcomers. The welcome mat is out for you. . . . It must be the long working hours that are affecting Mary Jane Redding. She had something in lay-away at the Paris and she called Frank's to check on it. Also the other noon she put on her work gloves to go to lunch. . . . We wish a speedy recovery to Eva Tucker. We miss your smile when we go to the cafeteria. . . . Our former matron, Devona Lydy, is seriously ill. Let's send her a "cheer-up" card. Her address is R. R. 2, Ossian, Ind. . . . Received a card from Faye Kittredge, and she is improving.

The following people donated blood during the week ending January 29:

Donald Ray Kesler, Russel Moore, Richard C. Behymer, Howard A. Brust, Miss Dora F. Holycross, Donald B. Kee, Edwin Kimmel, Herbert Koch, Ernest Krause, Gustave H. Kruse, Albert E. Leider, Miss Sally A. Lepper, Robert E. Linden, Floyd D. Loraine, Robert L. Mace, Albert I. Martin, Donald W. Mohrman, Joseph P. Orbin, Gerald Schaefer, Richard S. Tobias, and Frank P. Woods.

"When a girl strokes a man's forehead, you can bet she's after his scalp."—Virginia Gibson.

COPYRIGHT 1953 CARTOONS OF THE MONTH

## TOOL BITS

BLDG. 19-4 and 5

by Howard Demsey

Here's an addition to last week's story on Jim Buchheit's new thick-soled shoes. Jim was complaining of getting a shock from the drinking fountain and was trying to have it repaired when someone found out that his new shoes were keeping him well insulated from the floor while he was accumulating static electricity. With your magnetic personality, Jim, you'd better ground yourself before you have any more shocking experiences. . . . Speaking of shocking experiences we haven't heard of any yet from Elwin Coolidge, who has been busy week-ends installing the electrical wiring in the new home of his daughter and son-in-law. . . . Our division has lost a valuable co-worker in the person of Gus Rodenberg, who, with a service record of 42 years, has retired. We wish him many years of happy usefulness to the community. Come back and check on us again once in a while, Gus. . . . Bob Pickett will have his February 17th birthday verified on the Joe Taylor show on WGL on February 13. His co-workers surely like the birthday cakes his wife makes for him. . . . Robert Blosser is in the Columbia City Hospital at this writing after an operation. Hurry and get well, Bob. We miss you and your fish stories. . . . Our fox hunter, Joe Hidey, bought two Arkansas hunting "daws" and had to pay \$33 transportation on them. They rewarded him with three foxes last week already, though. . . . Don LeMaster butchered three pigs and an old cow. Anyone wanting to buy a quarter of beef, see Don. . . . Harold Blauvelt had his car parked on the street the other night when someone backed into his rear fender and took away some of the new car look. They were considerate enough to leave him a calling card though. . . . There was a new rider on the elevator at the end of the second shift for a few nights recently. Dick Lee was resting his sprained ankle. Since it's healed up the elevator is too slow for him and he's back on the stairs. . . . Fireman Ed Kammeyer was right on hand when a fire conveniently broke out in a dust collector only a few feet from his bench. Ed kept the situation in hand and no damage was done. . . . Paul Brinkroeger bought a fancy key chain with attached windshield ice scraper and they threw in a '49 Plymouth on the deal. . . . We wish a speedy recovery and return to work for Allison Van Wormer, who has been off work several weeks following an operation. . . . Ralph Foust seems to have been tinkering around his outboard motor and dropped a nut into the crankcase. In trying to dig it out he got his finger stuck and tried for quite a while without results to get it loose. He was beginning to get used to the idea of carrying an outboard motor around with him the rest of his life, when he found an oil can and oiled himself loose. Well, you could always have become a door to door outboard motor salesman, Ralph. . . . Paul Dole has been off work since Christmas following a stroke. Hurry and get well, Paul. We miss you. . . . Also on the sick list is Frank Druhoh who has been off since Thursday of last week. . . . Correction on last week's article on Kenny McCague and the Buick ambulance. The ambulance was not bought by the township but was donated to them by the volunteer firemen. . . . Frank Glenn and Floyd Null were one-sixth of one group of "twelve men, tried and

**HAPPY DAYS AHEAD**—Happy days ahead was the forecast for William H. Babb (right) as he retired from the General Electric Company this month. Mr. Babb is shown receiving a gift from Harry Nickels. Mr. Babb had worked for GE since 1943. He was employed in Bldg. 20-2 before retiring.

true" last week. . . . Ed Schafenacker's unit welcomes Richard Reinking, an apprentice, to their group. . . . March 6 is the date and the Macedonian Hall is the place for the Ed Schafenacker co-worker party. . . . Les Hines thinks the early bird gets the worm. At least he got up at 3 a.m. the other morning to come to work, or was he looking for worms? . . . Kenny Sefton's wife is supplying the groceries this week. She said the right thing on Dinner Winner. . . . Bob Bryan is taking a week off to go to Florida to get married. . . . We thought after Bob Niles disposed of his convertible his hair would stay combed, but he's driving with the windows down now. . . . Sharon Matthews is all smiles this week. She received a phone call from California last Saturday night and now is looking for a wrist watch for Valentine's Day. . . . Bill Hunt and family were seen enjoying themselves at the Shrine Circus the other day. John Neukam and his wife also took the show in. John said the only thing that spoiled it for him was the gorilla that went around kissing bald-headed men on the top of the head, even though John did escape that ordeal. . . . Buying a new car surely upsets some people. For example, Jim Paxton bought a new '54 Dodge and has been so excited he's forgotten his tool box key for several days and Maury Sordellet has had to use his locksmith skill to get the lock open. One morning he even had to resort to using the old stand-by opener, a hacksaw. . . . Elmer Auman came to work today sporting a new, slightly tilted to the vertical, bow tie. It's the tie-it-yourself variety and Elmer says he can tie it in the dark. He has to get up so early to get it tied right, it isn't light yet. . . . Valentine Day is Saturday and Del Stickler's wife has dropped a hint as to what she would like to have, a bottle of black tulip perfume. Be sure you don't get some kind sold by the quart, Del.

. . . Lloyd Welbaum's grandson has Gramps all worn out keeping the hoy out of mischief. . . . Mart Walsh still has dogs to give away. He guarantees them not to be the clothes-chewing or flower-digging types. . . . Eddie Kammeyer had his picture in last Sunday's paper, but it was snapped 30 years ago. . . . Kurt Martin kept things in high gear last week-end. After the circus Friday, they went out for dinner Saturday and then to a dance. . . . The question they're asking now is, did Archie Gwaltney get the right answer when he asked Woody Hursh why Leo got beat 60-46.

A small town is one where there is no such thing as a rich policeman.—Sig Fox.

**GOOD LUCK WISHES**—Wishes for good luck filled Ed Huhn's home one evening recently as a group of his co-workers visited him to wish him the best in his retirement. Walter C. Holloway presents him with a gift on behalf of his friends. Mr. Huhn had been with the company since 1922 and was a mold and die maker at Taylor St. before leaving the company.

## RACONTEUR

SECTION 114 TAYLOR ST.

by Luana Oehlhasen

Poor Walt Niemeyer; his bowling average dropped behind that of Ed Hines. And, of course, Ed will give him no peace. We hope Walt isn't serious about jumping in the river with his bowling ball tied around his neck. . . . Belated birthday greetings go to Norman Biddle, who celebrated on January 27. . . . We hear Dorothy Klug has taken an interest in French. Planning on going to Paris, Dorothy? . . . Becky Lisle just asked us if we ever saw a "moth bawl." Sounds sad, doesn't it? . . . Ed Huhn, now retired, is looking hale and hearty despite his illness. Ed was pleasantly surprised when some of his associates in the Tool Department walked in on him with a handful of good will and a few gifts to help while away the time that sometimes hangs heavy. Ed was in good spirits and enjoyed the evening very much. We understand that visits of this sort are always most welcome. . . . Gene Bair is very seriously considering the idea of trading his horse and wagon for an automobile. The other morning the horse kicked over the traces and hit Gene in the head, or so the story goes. . . . "Plumber" Lavine has a patent on a new type ice cube maker. . . . The TV menace has claimed two more victims: Bill Lavine and Carl Fuller. . . . Kathleen Jencks lives for wintertime. She was very happy when the ground was covered. We must admit it was very beautiful on the morning of Feb. 4. . . . Somewhere in our makeup lies a hidden talent that we do not exercise unless the opportunity affords. Ray Rodenbeck displayed such an art when he made a beautiful altar and lectern for the Sunday School of the Suburban Bethlehem Lutheran Church on the California Road. We hear it is an excellent piece of work, and we are sure that the Rev. William Abram is quite appreciative of Ray's efforts and those of Frank Rodman, who did the carving and scroll work on the altar. Congratulations to both of you gentlemen. . . . Eldon Bell visited with his son, who is one of Uncle Sam's Army boys in Springfield, Ill., the week of Jan. 20. . . . Clarence Shanebeck was on a treasure hunt the other day, the object, his phone. His desk was so filled that the phone found a place in the waste-

paper basket, all by itself. . . . Dorelyn does a pretty neat job on those candies and cookies she brings to the office. . . . Mary Ensley has a five-year-old problem on her hands by the name of Mikie. Mikie was late home from school one evening because a policeman had a little chat with him about throwing snowballs. The only explanation Mikie gave his mother was he didn't even hit anybody. . . . Congratulations to Cliff Bieber, who has gone from a 107 average in bowling to a 253. You don't howl on the girls' team anymore, Cliff. . . . Happy birthday to Louise Lamboley, Bob Duras, and Paul Smith. . . . Margaret Cowan misses "Rusty, the Stray," a little cocker spaniel who was a boarder at her house for two weeks. . . . Wonder how the poker parties are turning out that the boys are having after hours. We refrain from mentioning any names due to the fact that their wives might be reading this.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Evelyn Mayfield thought spring had arrived, so Tuesday night she got busy and cleaned all of her summer shoes. Was she ever surprised when she got up the next morning to find the ground covered with snow. . . . Millie Kouder is the proud owner of a new Ford with the automatic shift. . . . Those celebrating birthdays in the next few days are Dorothy Long, Paul Merkert, Vera Poe and Wayne Jones. May you all have many more happy birthdays. . . . Charlotte Daun has her share of trouble; she forgot her glasses last Friday. Lucky thing Sarah Harris had an extra pair. Ahen Charlotte was all set for the day. . . . Those who attended the circus at the Coliseum were Virginia Archbold, Martha Newell and Millie Kouder. . . . TELEGRAPH: The beautiful girl with all the curl is Helene Nelson. She got a new permanent.

## DECATURITES

by George Laurent

Could it be a case of "Roll Out the Barrel?" Oh, no, those were just nail kegs that Annabelle Gehrig was seen carrying one evening recently. But say, gang, you would never know those kegs after she gets through with them. A coat of white paint and filled with blooming flowers would change the appearance of any keg. . . . Whatever the weather, Gertrude Balsiger plans to be prepared. You know, Gertie, we were wondering about the traveling bag. Thought that you might be going on a trip. . . . "Who shot the hole through my sombrero?" That could have been the theme song of Vilas Bollinger recently. But it was only the strong attachment between desk and hat. . . . Woody Beery had a birthday Feb. 4. He says that he is 67 years old. We couldn't believe it so we asked how he kept so well preserved. Woody said, "I kept myself well pickled during my youth." . . . Famous last words: Harvey Hileman, "Willshire will use the second team the last half." Motts Roop, "Who can tell the right from the left?" Joe Weber, "I love the bunny hop." George Myers, "It would never happen with a Buick." Phyl Gerke, "I don't care who wins as long as it is Monmouth." Curly Reynolds at a ball game, "I'm speechless." Tom Haubold after Yellow Jacket, Van Wert game, "On to State." Art Wedler, "Is the schedule ready?" Mick Odle's answer, "I'm working on it."

## Deadline Set For Elex Trip To Windy City

Friday, Feb. 19 is the final day that persons interested in taking the Elex one-day trip to Chicago may register. Those making reservations should also complete payment by that date.

The price of the trip will be \$8.75 per person, round trip, unless enough register to make up a special train. In that case, the price would be \$7. At least 300 reservations are needed for a special train and approximately 200 have signed up to take the trip so far.

The total cost includes round-trip train fare on the Pennsylvania Railroad and transportation from the Chicago stadium to the center of the city.

Leaving Fort Wayne Saturday morning, the group will return late Saturday night. Exact departure and arrival times will be announced next week. In Chicago, the group will be free the entire day to shop, attend plays, or go sight-seeing.

## Engineers Slate Ike's Consultant For Banquet Mon.

Kevin McCann, president of Defiance College and consultant to President Eisenhower, will be the principal speaker at the Engineers' Week annual banquet Monday, Feb. 22. The announcement was made this week by Rad P. Cheesman, Bldg. 8-1, chairman of the banquet.

"Report from Washington" is the title of Mr. McCann's speech. He is serving the President in Washington, D. C., while on leave from his position at Defiance College.

Ab Martin, Bldg. 18-3, is serving as master of ceremonies for the event, which will begin at 6 p.m. at the Chamber of Commerce. Members of the nine engineering societies represented in the area and their wives are invited to attend the banquet.

Reservations should be made with representatives of the various societies. Price of the dinner is \$2.75 per person.

Other activities slated for Engineers' Week, which opens Sunday and continues through Saturday, Feb. 27, include a display in the Wolf & Dessauer windows of engineering contributions to progress in the area. Exhibits of the Cedarville Dam project will be fea-

(Continued on page 5)

## Magic Ticket Tricks

**CONJURING MAGIC** of his own, Claude M. Summers, manager of the laboratory, pulls tickets for the "House of Magic" out of a flask for Jack K. Dunifon, president of the city council. The community is invited to attend the GE show, which will run Monday through Wednesday at the GE Club. Tickets are still available for 10 a.m., 1:30, and 9 p.m. performances.

## Supervisors to Attend Hockey Game March 2

Beginning their 1954 season, Supervisors Club members will attend the Tuesday, March 2 hockey game at the War Memorial Coliseum. The game will feature the Fort Wayne Komets vs. the Cincinnati Mohawks. Game time is 8:15 p.m. A block of seats has been reserved by the group.

## C of C Sales Meeting Held at Taylor St.

The first in a series of sales executives' meetings sponsored by the Chamber of Commerce sales council was conducted at the Taylor St. plant last week.

Part of the national sales executives organization, the local meetings are designed to bring about free interchange of business ideas.

At the first meeting, representatives of seven business firms attended. Robert C. Hanna, Taylor St., and Joseph P. Coughlin, Bldg. 26-2, were co-chairmen of the session.

The regular term of the series will extend until May.

Members are being contacted this week for reservations and tickets will be distributed by contact men next week. Thursday, Feb. 25 is the deadline for making reservations to attend the game.

Charles Gable and Paul Clendenen, both of Taylor St., and administrators of Group 5, are in charge of arrangements for the meeting.

The annual membership drive opened this month and will close at the end of February. Contact men will see prospective members and issue membership cards. The club year includes nine monthly events, with no meetings scheduled in July, August, and November.

The next meeting following the hockey game will be April 21 at the Southwest Conservation Club and will include a fish fry.

## 1953 Community Report Shows GE Is Good Neighbor in Good Neighborhood

"It's easy for GE to be a 'good neighbor' in a 'good neighborhood'," L. C. Swager, manager of employee and plant community relations, said this week, as he gave a round-up of General Electric activities in Fort Wayne for 1953.

Progress is considered an important product in the General Electric family, Mr. Swager pointed out, but none of this progress would be possible unless our plants were located in communities that are stable, friendly, and progressive. "Fort Wayne is such a city," he stated.

### Largest Motor Producer

General Electric in Fort Wayne has attained the reputation of being the world's leading producer of fractional horsepower motors and specialty transformers as well as an important supplier of large motor and generator sets. During 1953, an average of 10,891 area residents were engaged in producing these products, many of which found their way to the far corners of the world.

To these thousands of local people, GE paid \$49,073,723 in wages and salaries in 1953, thus providing the largest single source of income in the community.

### Employee Benefits

In addition to wages and salaries, GE employees received many benefits under the Insurance Plan: \$345,405 for life insurance, and \$675,954 for health insurance. Un-

der the pensioners' Hospitalization Plan \$14,439 were disbursed in the Fort Wayne area, making a total of \$1,035,798 for the year.

Inherent in our way of life, Mr. Swager said, is the support of local and state governmental functions through taxation. General Electric paid \$729,000 in local taxes for 1953. This can be regarded as a premium which insures the right to keep on doing business in the American way, he asserted.

### Local Business Great

The company also does a substantial volume of business with its community neighbors. In 1953, purchases of supplies from local business firms totaled \$14,624,070.

General Electric employees also served the community with their time and money. More than 80 per cent are members of the Community Services Fund, the voluntary contributions from which go to local charities. The company also contributed directly in money or materials to many projects of community betterment.

### GE MAN HONORED—K. W.

Michael, manager of community relations, was honored last week by the United Fund board of directors for his services during the 1953 campaign. Joseph W. Dye, 1954 chairman of the Fund, presented Mr. Michael with a bronze plaque recognizing his volunteer services in last year's drive. The United Fund netted more than \$932,000 in the drive, topping its goal of \$928,728. GE employees contributed \$91,833.97 of this amount through the Employees Community Services Fund.

## Safety Shoes, Blankets Now On Sale at Store

Safety shoes and salvage blankets are now on sale at the Employee Store, Ray Fischback, store manager, announced today.

A shipment of 2,000 blankets arrived this week and will be sold for \$3 each. They are in assorted colors and styles. All these blankets are General Electric products with the wiring in them, since they were designed as electric blankets.

Women's sale shoes are available at \$3 in the following sizes; but not in all styles: 7½B, 9C, 8½C, 8½B, 8C, 10C, 10½A, 4½C, 9A, 9½A, 6½D, 8B.

Men's shoes are \$4 in the following sizes: 7B, 7½B, 6A, 6½B, 5½C, 6½A, 6½B, 7A, 7½A, 8A, 8AA, 6½E, 8B, 7½C, and 7C.

## Kiddies Movies

Donald O'Connor and Jimmy Durante star in "The Milkman" which will appear on the screen at the GE Club tomorrow as the feature movie on the Kiddies' program.

The program will begin at 1:30 p.m. "The Milkman" is a comedy concerning the playboy son of a wealthy milk company owner who turns milkman for a rival firm and finds himself involved in a gangster's plot to steal a valuable necklace.

Chapter 6 of the serial "Sea Raiders" will be shown also as well as a color cartoon.

### Where are your eyes?

### Stick With It

It goes without saying that when a person is really ill, he ought to stay home and take care of himself. But it occasionally happens that an employee stays off the job for trifling reasons—or for no reason except that it seems a good idea to take a day off.

People, naturally enough, like to feel that they will be missed when they can't be with their friends and co-workers. But while the employee who could—but doesn't—check in on the job will be missed, that kind of absence won't make any hearts grow fonder.

In the old days, when one man was away from work, it was usually only his own work that didn't get done. Team-work operations today, however, call for the cooperation of a number of different skills to get the finished product on its way. Your job is important; stay with it unless the reason for absence is a compelling one.

### Freedom and Culture

Some of our European friends have fallen into the habit of judging America as long on dollars and material things, but short on the cultural and spiritual values.

Yet it doesn't seem logical that a people concerned only with physical things would be as quick to help less fortunate nations as Americans have been. Nor that this country would have more churches, schools and libraries than others.

Americans like to laugh, to sing, and to be friendly. According to people who have been inside Soviet Russia, the words "happy as an American," are commonly used where we might say "gay as a lark."

The capacity for sympathy and friendliness, the worship of God and the desire for learning is greater, not smaller, because of the benefits of our highly-productive economy. We have more time, energy and opportunity for religious, cultural and recreational interests. The foundation of all this is our freedom—which is surely a thing of the spirit.

### TOOL BITS

BLDG. 19-4 and 5

by Howard Demsey

We wish to express our sympathy to Clifford Creason in the death of his wife. Cliff is an apprentice in the lathe section. . . . Del Stickler killed two birds with one stone when he bought his wife an orchid for Valentine Day and for her birthday which fell on the same day. She was thrilled because it was the first orchid she had ever received. . . . John Stetler shared a large piece of smoked salmon with Chet Reynolds last week. Somehow some of the fish skin found its way to John Snyder's machine but as John detests fish it didn't stay there long. Del Stickler said he would be glad to keep it because it reminded him of his Canadian fishing trip. Why, Del?

Did you have to live on canned salmon up there? . . . Mr. and Mrs. John Stetler were mighty happy to have their son, Dean, and his wife visit them last week while Dean was home on a short leave from the Navy. . . . Herb Thiele looked very rested on Monday after driving a Buick to Linton, Ind., over the week-end to take his two grandchildren back home.

. . . We're glad to see Lindberg Bryant back with us after he got an overdose of exhaust fumes in a filling station last week. . . . Earl Brandon isn't going to let his wife get the best of him. She had a little accident with the car some time ago near the grocery where they trade. The other day Earl banged up the same fender at the same place. Now he's trying to arrange to have his groceries delivered. His car can't stand many more trips to the store. . . . Ralph Steward really was in the money.

He got a TV set and a haircut on the same day. . . . John Inches said he doesn't mind being insulted by humans but he did get a shock the other day when he walked into a neighbor's house and was greeted by the pet parakeet with, "Hello stupid." Now Johnny's wondering how he found out—how to talk, that is. . . . Charlie Wrisk believes in giving his all to Uncle Sam. He sent in both the money order and his receipt with his tax return. . . . Bob Mosshammer had the fellows believing he was watching a new TV program called "Second a Minute" until they found out he meant "Dollar a Second." . . . Two Earls, Long and Liechty, have become gallon blood donors. We need many more like them. . . . One morning last week several co-workers called for Carl Ahlersmeyer to pick him up for work, but seeing no lights in the house and getting no response from the horn one of the men went to the door. After a pause of several minutes a voice was heard telling them to go on and he would drive himself. After he arrived at work he blamed it all on the late movie on TV. At least the faulty alarm clock story is getting a rest. . . . Several people in the engineering section received lovely valentines from persons unknown, or are they? . . . We hope Rufus Niblick is getting along all right and can soon come back to work. He is being kept posted on his uncompleted jobs though. Harold Wherry completed one of Rufe's dies recently and mailed a sample punching to Rufe for his approval. . . . Milt Ray has just finished tiling and repainting his bathroom. He thought it would be relaxing to work on a job once without a promise date but he probably found out he still had to work for a deadline for the "boss" at home. . . . George Houser is still shopping for a new car. It seems he can't make up his mind which kind to

buy. Your editor might consider selling his, since it was banged into while parked in front of his house last Saturday night. . . . Don Hoffman's son was very unhappy when the TV set went on the blink while he was home from school with chickenpox. At last report the set is repaired and the last half of the chickenpox time can be spent with a little more entertainment. . . . Harry Hartman, formerly of our design section and now with the Latrobe Steel Co., was in to see Art Jenne this week. He says he and his wife are in the iron and steel business. His wife irons and he steals.

### SPOT LIGHTS

BLDG. 4-2

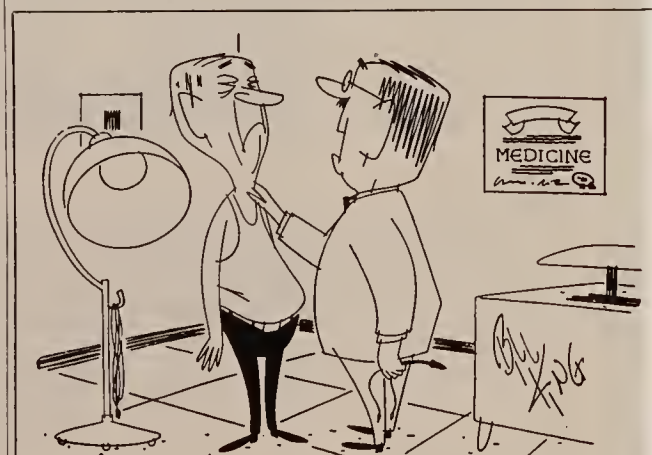

by Estella Pettibone

Hi, everyone! It certainly is wonderful to be able to be back with you after several weeks of illness. I want to thank each one of you who made my shut-in hours brighter with your visits, cards, letters, phone calls, and gifts. . . . Mary Tucker has been tobogganing at Pokagon State Park. . . . Alma Johnson spent the week-end at her sister's new home in Marion. It is the first time they have lived far enough apart for Alma to spend the night there, and her little niece was excited to have Aunt Alma overnight. . . . Birthday greetings to Hilda Walda and Lillian Sharp-ton. . . . Hilda received a beautiful gift from the birthday club and Lillian received apples, cards, and lovely handkerchiefs. Lillian treated her group with pie at lunch. . . . If anyone thinks Virg Allmandinger isn't missed when he isn't here, he is wrong. The other day he went to the dispensary and the tool gang sent a reception committee to greet him on his return. . . . It seems that when Paul Monroe came to work Monday morning all of his things were moved but his machine. He said he doesn't mind hunting his tools, but when he has to hunt his machine, that will be the day. . . . Paul Kennerk's wife returned from the doctor and stated to the family she would have to stay off her feet for awhile. His little boy, who he refers to as the little white head, said, "Mom, wait till after supper to start, will you?" . . . "How lucky can you get, Hilda Walda?" It all happened Monday night at the Elex party. Two hats were given as attendance prizes and Hilda was one of the lucky winners. Has anyone ever seen Hilda wearing a hat?

### TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

Anitz Ufheil is one TV enthusiast that has had nothing but trouble and double trouble ever since she acquired a set. One thing after another happens to that howling picture cabinet of hers to throw her into a series of storms. Last Saturday evening she was looking forward to a pleasant evening of TV enjoyment. Upon turning on the set not a sign of a picture showed up. She called a service man, who came ambling along a few hours later. He took one look at the set and exclaimed, "Well, if you would plug in your aerial, everything would be all right." So it was, but Anita was out a service call fee. . . . Joe Long, who lives out on Leesburg Road, has for several years been raising a lot of beef. He has been eating a goodly quantity of same, so much so that his wife informed him that he had to cease being a beefeater. As Joe is becoming much broader of beam and tipping the scales to an alarming figure, he decided to heed the warning and dispose of some of his cattle. He traded two heifers for two Shetland pony mares and plans on raising these beautiful little animals, so if any of you are interested in owning a baby Shetland get your reservations in now as Joe is taking orders. . . . Last Friday witnessed the end of the trail for Peter Schible, who on that day retired on pension. A dinner was given in his honor in the plant cafeteria, which was attended by a goodly number of his co-workers. They presented him with a beautiful table model radio. Pete was delighted with this gift and wishes in this manner to thank those who made the presentation possible. Pete, we wish to say that you are certainly welcome and that all of us will surely miss you as the days roll by. We all join in wishing you many happy years of retirement and let us hear from you now and then. . . . Attention please: Dick Johnson is now a dog broker dealing in all types of dogs. He will furnish you with any variety you may desire and all of them will be well trained. "Not a dumb pooch in the lot," is his motto. He now has on his hands several that are well trained for farm work. He tells us that these dogs will drive the cows into the barn at night, then will drive them out to pasture in the morning. In fact, they will do about everything but milk the cows.

COPYRIGHT 1954 CARTOONS OF THE MONTH

"Look at it this way - you're in excellent shape for a man of sixty-five. Forget the fact that you're only forty-three"

# from the panel's point of view...

This week's panel includes four employees who are active in the civil defense program of Fort Wayne and Allen County.

## WHAT IS YOUR OPINION OF RADIO AND TV GIVE-AWAY PROGRAMS THAT FEATURE CASE HISTORIES OF PERSONS IN NEED OF FINANCIAL AID?

Robert V. Davison, Bldg. 17-3: "Even though there is embarrassment to those seeking aid, I believe such programs have their good points. They should be continued providing that the aid is given in such a manner that would supply the necessities of life which the persons involved have been denied for reasons beyond their control."

Fred E. Seip, Taylor St.: "Give-away programs that feature case histories of needy persons may often bring a bright interval into an otherwise very drab existence. As long as families are not embarrassed by giving case histories which reflect unfavorably on innocent bystanders, I think these programs could serve as great morale builders."

David A. Bridges, Bldg. 6-1: "I myself think that such programs are all right, but it seems that they only help a few people. I think if we as neighbors were more concerned for those in need we would be much better off. 'He that hath pity upon the poor lendeth unto the Lord; and that which he hath given will He pay him again.'"

Charles J. Abbott, Bldg. 19-4: "I think those programs would be OK if there were some way they could be brought to the public without revealing the person's identity. This would prevent any reflection back on the children later on. Some people don't like to be reminded that at one time or another they had to accept financial help."

## DECATURITES

by George Laurent

It wasn't a blue Monday in the lead section recently. When Helen Britzenhofe reported for work there was a bright flash, for on her third finger, left hand, was a beautiful new diamond ring. Helen says that no date has been set yet for the happy event. We wish you a lot of happiness, Helen. . . . Leona Patrick had to spend some time at home in bed trying to get rid of a bad case of sniffles. Those pesky colds do keep us busy and feeling very miserable. . . . It was moving day for the Jack Gray family. They were moving into their new home and everything was going fine until the refrigerator and Jack's finger both tried to be in the same place at the same time. Last report: No damage to refrigerator but a very different story about the finger. . . . Did you ever hear of a "Spoon Cake?" Well, we didn't either until Helen Wellman discovered the concoction. She says that it was tasty but could be quite expensive, so she does not advise everyone to try it. . . . We wish a speedy recovery to Dewey Neidigh who is confined to his home with illness. . . . We wish to extend our sympathy to Rachel Rodenbeck on the death of her husband. Rachel has been helping in the cafeteria in Bldg. 1. . . . We also wish to express our deepest sympathy to Edna Callow and Noble Drum upon the death of their brother. . . . Happy birthday to Don Neireiter who celebrated last week. . . . We wish to extend our sympathy to Emma Goldner who ruptured a blood vessel in her little finger. How? Rooting and clapping for the "Home Team" at a basketball game recently. Now, Emma, watch your blood pressure. . . . Waldo Eckrote is reported to be getting along nicely following recent surgery. Hurry back, Waldo. . . . Walter Ryf wishes to be remembered to all of his friends. Walter is now at home following several weeks' confinement at the Adams County Memorial Hospital. . . . Cal Magley beamed all over last week when telling his friends about his first "200" bowling score, rolled in the Mixed Doubles league. On the other hand Paul Hancher just didn't talk about the series he rolled last Monday. . . . From all reports the GE Club Valentine dance last Saturday was fun. Good

music and lots of prizes made a long evening short. Award winners reveal strange facts, like Kenny Beard winning a hand lantern and his Valentine, Lucile, a pair of Chinese hook ends. Mystery and intrigue of the Far East—Kenny's friends are wondering who's Lucile? Without a doubt Mrs. Milton Hoffman was glad to win the Italian ash tray and hand painted vase. Milt's hobby is woodworking, chiefly "whatnots." Mary Fenning started getting ready for the dance early and managed to get there just 10 minutes before her number was called for a pink elephant set of glasses. Her Valentine, Louie, got a chrome serving tray. Harry King has been attending GE Club parties for lots of years and his perseverance finally paid off. He won a chrome bread tray for his Valentine, Grace, and kept the snack servers for himself. Evelyn Kingsley and Hazel Schultz played hostess to their Valentines, Tony Murphy and Oran, and presented each with a gift any man could use, a chrome serving tray and a tiered candy dish. The next prize budget will be easy to get. By honest means (we hope) GE Club President Francis Eady received a large ebony ash tray and for his Valentine, Melvena, a beautiful Italian vase. Ambrose Gase still thinks the Club should sponsor a square dance, but his wife is happy with the deluxe card table he won and the four chairs his Valentine received. Watch this column, the bulletin boards, and tool crib flyers for the next big GE Club event.

## BLOOD DONORS

The following employees donated blood during the week ending Feb. 5: Vincent V. Busian, Pedro I. Gutierrez, Emilio Hernandez, Miss Jane W. Meyer, Perry T. Schuerman, Lloyd S. Stubbins, Franklin O. Bly, William H. Irwin, Robert H. Johnson, Albert Klein, Jr., Victor Leakey, Mrs. Cletyce Lenz, Earl R. Liechty, Ab Martin, Oscar R. Meyer, Dale E. Mossburg, Loretta Mulligan, Martha A. Musselman, Everal G. Myers, Hubert E. Myers, and Paul B. Petty.

Mr. Earl R. Liechty and Mr. Paul B. Petty have donated one gallon of blood each.

## SMOKEHOUSE SAYINGS

BLDG. 22

by George Winans

I'm sorry but I "ain't agoin' to do it." I'm not going to say anything about TV this week. It just ain't news anymore. So if any of the gang gets a set, please don't mention it unless it's color or third dimension or unless Hill buys one. Henry Wells says if Hill buys anything it's news. . . . Ralph (High-pockets) Garrett got back all right from Florida and he remembered all of us with an orange. He also brought the boss, Al Mason, a big lemon. Now Al is wondering if Ralph really knew he was fond of lemons or is that just his way of calling the boss a sourpuss? . . .

Dee Hamilton of Bldg. 27 received quite a shock recently while ice fishing with some of his buddies. Dee left the hole where he was fishing for a minute to get something from the car. While he was gone one of his companions took a rubber lizard from his pocket and fastened it on Dee's line. When Dee returned and saw he had a bite, he pulled the lizard from the water. Before he could remove it from the hook his companion rushed up and grabbed it and crammed it in his mouth. "He's just crazy about lizards," explained one of the boys. Dee thinks he's just crazy. . . . Charlie Mowery has found a way to make his saw blades last longer. He puts them in backwards. They don't cut as well, but they do last longer. . . . We are happy to report that Dan Ferguson's little girl is home from the hospital.

GIFTS GALORE—An electric razor and a radio were among the gifts Fred Harris (right) received when he retired recently. Mr. Harris was a mold and die repairman in Section 114 at Taylor St. before retirement. Congratulating him are (l-r) Max Harris, Julius Lehman, Walter Holloway, and Clarence Seslar.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

Good luck, Ilene Fitch; we will miss you. We hope you like your new work. . . . Clint Sorensen has new glasses and we are afraid they won't last the week out because he cleans them so often. . . . Helen Eggeman is absent because of illness. Hurry back, Helen, the girls miss you. . . . Sue Stewart is spending this week in Florida amid soft breezes, speed car races, curio shops, and anything else that goes with Florida. . . . Welcome, Carol Symonds, who will work with Mr. Ebel. . . . Melvin Schrader was quite the fisherman over the weekend, but the amount he caught is still a secret. . . . We extend deepest sympathy to Ed Blotkamp in the death of his mother and to Paul Horstmeyer in the death of his father. . . . BIG SCOOP OF THE WEEK: Paul Richter gave his girl friend, who works in Bldg. 4-6, a beautiful sparkler for Valentine's Day.

## 2-2 TALES

by Belle Buchan

"Hot Rod Dent" he's known as now. Seems that Bob was seen speeding down Broadway in a souped-up hot rod the other night. Don't get excited, it was only a dream that Vern Castle had. You want to watch those cars, Vern. Some morning you will wake up to find yourself all flattened out. . . . Harry Chism did not have a toothache, just a large mouth full of taffy. . . . Welcome to our fold, Nancy Weinley, Robert Griffin, and John Omerod. Nancy is a new time clerk; Bob is with the planning section; and John is a new trainee. . . . You just never saw as many thirsty people since we have the water fountain connected. It makes our end of the office a welcome oasis. . . . It must be nearing spring. Last week the guys were all looking at new car folders, and now the gals are all looking at fashion magazines. . . . If the old job has been a little dull lately, go see the "House of Magic." It will be worth your time. You can get tickets in our section from either Glenn Seabold or me.

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Garland Herron, Herbert L. Wise, Hazel Gahman, William Evans, Wilma Heide, Jesse Barrett, Alger Baulky, Daniel Antrim, Alma Wilkinson, Nellie Wiggins, Fred Adams, Kenneth Bainbridge, Lillian Harris, Joseph Wyss, Lena Ferguson, Robert Glenn, Dortha Goff, Mervil Lowden, Robert Murphy, Paul C. Schladenhauffen, Nellie Wendt, Dorothy Duff, Betty Emrich, Lulu Files, Edna Hauser, Cecilia Joseph, Viola Meeks, Oscar Meyers, Emma Phillips, Theodore Ranier, Betty Reynolds, Gustave Rutz, and Gerald Scott.

### Dismissed From Hospital

Mamie Richardson, George Hagenjos, William Maugher, Harold Rice, Patricia Winners, Margaret Evans, Lillian Harris, and Mary Linkhart.

### Returned to Work

Irma Baugh, Robert Ramsey, Orpha McCreary, Robert Thain, Mary Goss, Mark Wright, Betty Madden, Edgar Jenkins, Orville Tracey, Clara Gidley, Ora Marie Fulmer, Nick Aldea, Clyde Boyce, Agnes Godfrey, Karl Smith, Kenneth Van Meter, Edward A. Harrison, Jr., Ernest Hanauer, Johnnie Jones, Wilma Burkholder, Caroline Williams, Barbara Toles, Virginia Croft, Doris Cyrus, Hilda Rinehart, Marcell Nouden, George Thimlar, Nora Ridley, Harold Rice, Grace Ormiston, Flora Crawford, Faye Patton, Ruth Troyer, Ray Trumbower, Maxine Calhoun, Haywood Starnas, Dewey Simmers, Lawrence Brayton, Terry Bowman, Victoria Clayton, Ionena Foster, and Charles Storms.

## SLEUTHING in 4-6

by Al Happel

**SUPERMAN:** Last Monday Al Happel left his home five minutes earlier than usual for his regular Monday bowling. The reason he left five minutes early was to take his wife to visit a friend. But at the corner of Jackson and West Main Street, Al got a flat tire and he had only 7 minutes to get to the GE Club before 6 p.m. Believe it or not, he abandoned his car and ran all the way to the Club and made it just on time. After bowling Gil Baker took him back to his abandoned car to fix the tire. Al proceeded on home until he hit Barr Street, when lo and behold another flat tire. As the result of all this, Al found himself purchasing two new tires early Tuesday morning. . . . **NO LEFT HAND TURNS, PLEASE:** Chuck Kelso, what's this we hear about your making left-hand turns out of the East Fairfield parking lot. . . . **HAPPY BIRTHDAYS** next week to: Marian Leiter and Shirley Doster on Feb. 24. . . . **THAT SUPER SPARKLE** in Lois Marie Schmidt's eyes is a reflection, having received a magnificent diamond ring which she proudly wears on the "wedding finger" of her left hand. The lucky man is Paul Richter, employed in the Shipping Department, Bldg. 6-3. We are very happy for both of you. . . . **ATTENTION ALL MEMBERS** of the Liberace Club: Candidates for officers are, President, Mary Smoak; Vice President, Arlene Yates, and Secretary, Shirley Doster.

**LAST DAY OF WORK**—No more early alarm clocks for Charles E. Whittier, as he retired this month from the General Electric Company. Mr. Whittier (second from left) is congratulated by Ted Keller (left), Carl Kreager and Charles Conklin. He was a painter in Bldg. 26-3 before retiring.

The identifications for the above photographs were in error in last week's issue.—Ed.

**LAST DAY AT GE**—With more than 35 years of service with General Electric, Louis Davis (center) retired last month. Congratulating him are Henry Kammer, William Schultz, Fred Roembke, and Paul Henricks. Mr. Davis had been a punch press operator since 1917. He worked in Bldg. 4-4 before leaving the company.

## GE ON RADIO AND TV

### TELEVISION

**"I MARRIED JOAN"**—WKJG-TV.

7 p.m. Wednesday

6:15 p.m. Monday through Friday, featuring Hilliard Gates.

## Pensioners Parade

Enjoying themselves in warmer climates than Fort Wayne, Mr. and Mrs. John R. Heine are spending the winter in St. Petersburg, Florida. They have a 27-foot trailer in which they are living while getting in some fishing, dancing, shuffleboard, and sight-seeing. The

January in Florida

couple is active in the retired GE pensioners club in St. Petersburg also. Current plans include their return to Hoosierland in April.

After Mr. Heine retired in April, 1952, from Section 114, Taylor St., he and his wife went to California and spent the 1952-53 winter there. Their present address is: Crosswinds Trailer Court, 4125 Park St. North, St. Petersburg, Fla.

## TOP FLOOR TOPICS

BLDG. 26-5

by Jack Lea

Tom Kirk had better not allow his son to watch too many TV commercials. Tom discovered his son casually tearing cigarettes down the middle, as they do on a certain cigarette program. . . . Bill Mills was inquiring around about the meaning of "homocycles." Someone told him they were circus performers who rode one-wheel bicycles. . . . This next item takes the cake, or should we say pudding? Norb Sordet mentioned he was going to pay Mertz a visit and take him some "boudang," better known as blood pudding. A couple of days later Norb mentioned he had made Mertz a visit but didn't say anything about the "boudang." Norb admitted he ate the pudding himself because he was afraid it might spoil! So Mertz, you know that Norb's good intentions didn't get past his stomach. . . . Our sympathies to Jordan Gunkel in the recent death of his father. . . . We wish the price of coffee would come down. Every time it goes up the girls on the Hermetic stacking bench take out one more flavor bud per cup. We can't complain too much, as Val Sittler brought in a home-made chocolate cake, very delicious. No seconds, though. . . . Grave digger: A guy who starts at the top and works his way down. Kiss: Nothing divided by two. Intuition: That which tells a woman she is right whether she is or not.

Did you know that Fort Wayne's current population is approximately 135,000 and the area of the city is 17.5 miles?

## APPRENTICE BROADCAST

by James Schwartz

Jack Robertson tells us of a novel experience. It seems Jack went to the dentist with a toothache and the dentist seemed to think an extraction was the only solution. So he pulled the tooth and guess what? You're right, he pulled the wrong tooth. . . . Lowell (Herman) Deem will be a bit more cautious with his sense of small from now on. Seems Herman sniffed a bottle to determine its contents. The bottle contained glue and it took Herman quite a while to clean it off his nose. . . . We all know that it sometimes pays to be seen and not heard. Glen Pettit can vouch for this statement from actual experience in algebra class. . . . Detective Myron Auer is still trying to locate the person or persons unknown that sent him a cute valentine. . . . The welcome mat is extended this week or Joseph Leitch. Joe has enrolled in the school as an apprentice machinist-toolmaker. . . . We would like to take this opportunity to express our heartfelt sympathy for Clifford Creason in the recent untimely death of his wife.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

We wish to extend our deepest sympathy to Mary Casanova on the death of her brother and to Bill Alt, who's brother passed away Saturday. . . . We also wish to extend sympathy to Joan Tutor, a former co-worker, who's father passed away. . . . Birthday greetings to Doris Moon and Dorothy Wieler. . . . Anyone wishing instructions on how to make good coffee with these new coffee makers just contact Maggie Moore. She does real well. . . . Dick Shoal doesn't believe in waiting at railroad crossings like other people. Only Dick got the front end of his car wrinkled up. . . . Tommy Williams was all smiles last Friday when she received word that she has a new niece. . . . We wish a speedy recovery to Fred Adams, who suffered a heart attack last week. . . . Someone must have fed Bob Bowers Wheaties because his bowling improved 40 pins over last year's average. . . . Virginia Reed has quit taking exercises now. She claims lifting the shafts on her job will do. She lost 15 lbs. in two days.

**CELEBRATES 35TH**—Oscar Schelper (third from left) recently celebrated his 35th GE anniversary. On hand for the occasion were (l-r) Ross Strodel, P. F. Peternell, B. B. Gausepohl, Clarence Gardt, Howard McVay, and Fred Pyle. Mr. Schelper is a foreman in Section 417 at Taylor St.

# Completion of World's Largest Steel Sphere Tops Company's Atomic Activities for 1953

Completion of the world's largest steel sphere, for housing a test atomic power plant, and development of a plan for utilizing heat from atomic energy to warm buildings for the first time in the United States, topped General Electric activities in the atomic field in 1953.

A recent summary made by GE atomic boss Francis K. McCune also listed among the company's major accomplishments continued increase in production of plutonium along with a further decrease in its cost to the U. S. taxpayer.

The company's vast atomic activities, operated for the Atomic Energy Commission, are the largest in industry, he said. They include the Hanford Atomic Products Operation, at Richland, Wash., which, on a site half the size of Rhode Island, produces plutonium for atomic bombs; the Knolls Atomic Power Laboratory here, currently developing atomic submarine engines; and the Aircraft Nuclear Propulsion Department, at Evendale, Ohio, which is developing atomic engines for aircraft.

McCune, as general manager of the Company's Atomic Products Division, is responsible for all of these operations.

The world's largest steel sphere, 225-feet in diameter and rising as high above the ground as an 18-story building, was completed in October at West Milton, N. Y., about 18 miles north of here, McCune pointed out. Made of 3850 tons of inch-thick steel plates, this great ball will house the prototype atomic power plant for the U. S. Navy's submarine "Sea Wolf." The prototype plant will be assembled inside an actual section of a submarine hull, which has been built alongside the sphere. A temporary hole will be cut in the ball to enable the hull section to be skidded inside, said McCune.

In the meantime, he added, the Sea Wolf itself is being constructed by the Electric Boat Division of the General Dynamics Corporation in their Groton, Conn. shipyard. The keel of this vessel was laid last September.

Two other important steps are now under way at Hanford toward utilization of atomic energy, he said. Heat from new reactor facilities, now being built, will be utilized in the reactor building it-

self and adjacent structures. This will be the first extensive use of atomic by-product heat in the country.

In addition, thermal atomic energy is being employed at Hanford in concentrating highly radioactive wastes from the reactors, he pointed out. These wastes are stored in underground tanks, and the solvent is boiled off in order to minimize storage space. Previously this was accomplished by steam heat, but now use is made of heat generated by the radioactive decay of the waste elements themselves, he added.

In seven years of General Electric operation of the Hanford Works, production of plutonium has been greatly increased and the unit cost has been lowered considerably. The past year saw further gains in these respects, said the GE atomic boss, although security regulations do not permit details to be given.

Among other Hanford developments, he cited the completion during 1953 of a new \$14-million laboratory area with facilities for work with radiation and radioactive materials in the fields of chemistry, metallurgy, physics, engineering and biophysics, employing about 600 people.

This brings to about \$30-million the total spent on research and development at Hanford in the seven years of GE operation. According to the AEC, this program has improved process yields, reduced costs and increased output with resultant savings of hundreds of millions of dollars.

Safety in handling plutonium is likely to be increased materially as a result of biological studies being conducted at Hanford, he said. Experiments on rats show that only one-fortieth as much plutonium is absorbed in the intestinal tract of the animal as was previously assumed in calculating the maximum permissible concentrations to which personnel could be safely exposed.

Moreover, he added, the Hanford biologists have found a possible means of eliminating plutonium from the body if it is taken accidentally. Some drugs cause a significant increase in the elimination of plutonium from the bodies

of the rats if administered soon after the plutonium is injected. They have no significant effect, however, if given 30 days after the plutonium injection.

## Engineers

(Continued from page 1)

tured in the display which will illustrate the engineering involved in supplying a drink of water to the public from the dam. Mr. C. M. Summers, Bldg. 28-2, is chairman of the exhibit and is being assisted by C. J. Herman, Bldg. 4-6, and Mr. Cheesman.

Posters calling attention to the week will be on display in high schools, hanks, and at the Chamber of Commerce. These have been designed by R. W. Dochterman, Bldg. 4-6.

Engineers will be recognized on national and local radio and television programs during the week for the part they contribute to constantly improving our living standards.

Do not resent growing old. Many are denied the privilege.

# Engineer Inventiveness Pays Everyone Benefits

Engineering—the key to more convenient, safer living—will be celebrated next week throughout the country. Since America's first engineer, George Washington, inventiveness in our land has been striving to meet the constant demand of the public for a better, more modern product.

The inventiveness of engineers in the three Fort Wayne plants of General Electric paid off last year as 34 patents were granted here. In addition to the ideas embodied in these patents, a great deal of progressive development that is not incorporated in them was achieved.

In Specialty Transformer an outstanding contribution has been made to the size-weight problem so critical in most military as well as industrial uses, in the development of a new permalloy compound and a method of casting it around electronic transformers.

Engineering brought us news last year of a new motor to go into production at Winter St. This is the Tri-Clad series, whose new features include its reduced weight, which is up to 40 per cent less than former induction motors.

The past year brought advances in the Form G fractional horsepower motor on assembly lines at Taylor St. Representing 10 years of work by engineers prior to being introduced in 1952, the Form G continues to improve through engineering.

Great interest was created in 1953 by the design and development of the first high voltage electrical system for truck refrigeration. This was the work of Specialty Motor engineering.

In these and the many other instances of engineering advancement during the past year in Fort Wayne, results are evident not only in an improved or new type of product, but in manufacturing methods and materials.

In addition to men working on these various aspects, there is an-

other group at work on advanced engineering designs. These are the men who work in the future, looking ahead to a period of 10 years or more from now to meet customer demands and keep ahead of the competitive market.

Yet another result of this inventiveness is the higher scale of living brought about by engineering that has offered better quality for less through mass production.

Believing that his job is never done, the engineer is always looking for the better way to do what he has already accomplished and is seeking improvements for the future.

## GECODE SCHEDULES 'GREAT WEST' PARTY

"The Great West" is the theme of the Decatur GE Code Club's Feb. 24 meetings of first and second shift members. The Moose "Ranch" will be the scene of the two parties which will begin at 12 o'clock noon and 5:30 p.m. for the two groups.

Reservations for the first shift members' party are due today. Price is \$1.50 per member. Emma Goldner is ranch foreman of the first shift party. She is being assisted by Tye August, Annabelle Gehrig, Alice Lake, Evelyn Plasterer, and Dorothy Crosby.

Second shift ranch foreman is Rosemary Miller. Doris Koenig, Phyllis Pettibone, and Doris Poling are assisting her with arrangements.

## 6-4 AIRLINERS by Moe Satterthwaite

Everyone was taken by surprise last Monday when Jane Tarman and Bill Crain started passing out candy bars and announcing that they were now Mr. and Mrs. Congratulations, you two. . . . Francis Lewis has a vacancy in her home. Her parakeet died with pneumonia. Funeral arrangements will be made later. . . . The group in 2x31 are glad to hear that Marguerite Dasher is getting along fine. Hurry up and get well, Marguerite. We all miss you. . . . Mildred Koehler held a stork shower for Barbara Speith. Millie is a wonderful hostess and everyone had a good time. Barbara was so pleased with the lovely gifts. . . . Moe Moffiet is now the proud owner of a new Pontiac. . . . That cute little girl on Harold Dalman's line is none other than Margaret Hingleman with bangs. . . . If you'd seen Sue Tester last Saturday no doubt you could have bought a pup cheap. It seems the pup forgot where the paper was and Sue was barefooted. . . . Congratulations to Henry Plaett on his wedding anniversary. . . . Doris Weinman is leaving us today to await a blessed event. . . . Happy birthday to Jane Laurent, C. B. Smith, and Roxie Murray.

**REACHES 40TH GE YEAR**—Harold E. Koehlinger (right) reached his 40th year with the General Electric Company Feb. 11. Mr. Koehlinger is shown reminiscing with L. D. Hodell, general manager. The new wearer of the ruby pin joined the company in 1914 as a messenger. He became an apprentice shortly thereafter and held various positions until 1945 when he was named superintendent of General Purpose Component Motor Section 113, his position at present.

LEE T. MOHR (center) enjoys his 30th anniversary at General Electric with H. P. Koogle (left) and Ed Roeppe. Mr. Mohr worked in Bldg. 26-2 when he joined GE. He is now a leading operator in Bldg. 26-4.

# Eleven Rate Best Wishes For 30 Years

RALPH D. BRADEN (second from right) gets 30-year greetings from (l-r) Dutch Norwalt, Bill Fowler, and Leo Vachon. Mr. Braden is employed in the Specialty Transformer Department, Bldg. 26-1.

DOYLE D. MILLER (second from left) talks with John Sowers, John Staley, and Harlan Voltz on his 30th anniversary. Mr. Miller is a leading operator in Bldg. 26-4.

JOHN D. FOX (left) rounds out 30 GE years with the best wishes of Harold C. Brudi, department accountant; Pat Holmes, chief billing clerk, and L. S. Stubbins, supervisor of accounting. Mr. Fox is customer billing clerk for General Purpose Component Motor Department at Taylor St.

CLARENCE DRAKE (center) gets best wishes on his 30th anniversary from Alvie Buffenbarger (left) and Russell Owens. Mr. Drake is a power house attendant at the Decatur Plant.

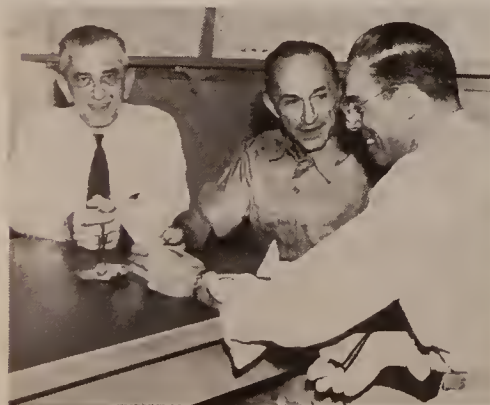

HERBERT C. BRAUN (right) is the center of attention on his anniversary. Shown with him are John Pumphrey and Dale Lauer. Mr. Braun is an inspector in Bldg. 4-3.

RUTH M. SROUFE (second from right) celebrates her 30th GE anniversary in the company of a group of her GE friends. Left to right are C. B. Smith, C. J. Metker, and W. W. Dreyer. Miss Sroufe is a general clerk in Bldg. 6-4.

PAUL WALKER (left) talks over his 30 GE years with Duane Shidler, Art Miller and Lloyd McClure. Mr. Walker was engaged as a welder in Bldg. 19-1. He is now a punch press operator in Bldg. 27.

ALVA BIGGS (center) wears a smile on his 30th anniversary as he celebrates with Walter Dreyer (left) and Louis Becker. Mr. Biggs is a setup man in Bldg. 4-3.

ARTHUR F. THIEME (center) gets best wishes from C. A. Brenner (left) and Elmer Auman on his 30th anniversary at GE. Mr. Thieme joined the company as an apprentice in Bldg. 26-5. He is now a foreman in Bldg. 19-5.

ROBERT C. NEEB (right) chalks up his 30th GE year with the help of Gordon L. Smith and P. Frank Peterzell. Mr. Neeb is planning specialist in Section 417 at Taylor St.

**STORMY WEATHER**  
**BLDG. 17-4**

by Bill Hurtt & Larry Reed

After Alice Pflueger finished her bowling the other evening, she went to her locker to change shoes. There to her surprise was one red shoe and one black one. When she was finally convinced they did belong to her she had to admit that there isn't any use to wait for color television since she is color blind. Now perhaps poor Ray will get his television set. . . . Safety is a wonderful thing, but didn't Ed Klomp overdo it just a bit by going to a safety meeting one week earlier than it was to be held? . . . As far as we know, our department has the youngest grandmother, since Bernice Mertz welcomed a grandson. . . . It's a shame to see two fine men get into trouble with each other, but Herb Buck has it in for Don Thomas. The other night he took after Don and chased him up and down stairs, in and out of buildings, but after failing to catch him, he swore he wouldn't give up. It must have been all those fish fries Don has been attending, because he finally confessed that it all happened in a dream. . . . We'll either have to take up a collection or donate some socks to Walter Lorenz, because he complains that his are all full of holes. . . . Clarence Nussel was a little disappointed when he showed his wife and daughter the picture taken of him on his first day back. He expected more of a reaction but it turned out that they were way ahead of him. The picture had already been mailed to his home, and Hilda and Patty had it suitably framed and mounted before he came home. . . . Larry Reed wears his Navy "E" pin in the strangest places. Now it turns up pinned to the inside of his sleeve. . . . According to Howard Brooks, his dog, Dugan, is slowly losing its mind because the parakeet they have is constantly called out, "Hey, Dugan!" The poor dog can't quite figure out who is giving him the greeting or should we say, "the bird." . . . If you need any fine or minute detail work done, we refer you to Sid (Eagle Eye) Borton. . . . We point with pride to our second trick tester, Ron Fisher,

**ANNIVERSARY DAY**—William C. Schultz (center) entertains a group of his friends on his 35th anniversary with General Electric. They are (l-r) Frank T. Gamec, Robert Olson, J. E. Mills, and W. R. Blomker. Mr. Schultz is a dispatcher in Bldg. 4-4. He joined GE in 1918 as a shipping clerk in Bldg. 8-1.

who not only is a high scoring member of the champion GE Owl basketball team, but he has further added to his laurels by becoming a bridegroom. To all his accomplishments we add our congratulations and best wishes. . . . After many months of absence John Hilsmier paid us a visit and it goes without saying we were all glad to see him once more. Don't stay away so long, John. . . . Houston Williams refuses to believe that the swaying headlights on the Wabash trains are something new. He maintains firmly that the cause of the swaying lights is the poor condition of the road bed. . . . It was a pleasure to see Casey Jones back on the floor again even if it was on crutches. He says he is coming alone fine and is just as anxious to get back in harness as we are to see him there. . . . Here is a chance for a suggestion award. Lenora Hanes complains that those thumbstalls make her fingers too sore. Can't someone come up with a new idea? . . . Quotation for the week: "Be not ashamed to say what you are not ashamed to think."

**DECATUR SUGGESTION WINNER**—Bernard Rabbit (left) is presented with awards for his recent suggestion relative to die cast plates, which resulted in a savings of material. Mr. Rabbit received \$180 for his idea. Shown with him are C. Kleinknight (center) and John Welch.

**17-3 NEWSIES**  
by Wilhelmina Beeth

Can spring be far away? The pussywillows are starting to parade in their new fur coats. . . . From all reports, everyone had a good time at the Elex party. Guess the girls like surprises. . . . From the way Betty Dulack was going through the wastepaper basket, we thought surely she was searching for some high-priced coffee. It was just an Indian head penny. . . . We're sorry, Lorene Schaefer, that the cafeteria wasn't open Saturday morning. Then you could have avoided the parafin all over your face. Some kind person offered her some hot coffee and she drank it from a milk container. It didn't work too well. . . . Bernon Ternet made good use of his flash bulb camera last Saturday by taking pictures of his sister's silver anniversary. . . . We light another candle on the cake and wish a happy birthday in Madaline Lake, Lois Ripley, and Joe Bell. . . . Kate Weigle is enjoying a two-week vacation. . . . Glad to see Cindy Ormiston ringing in her clock card again. . . . Also welcome Mary O'Shaughnessy, Mildred Lenington, and Clara Sowards back to our ranks again. . . . Beck Moore and Mary Leffel were just bubbling over because they have a new niece. . . . We wish a speedy recovery to Viola Meeks, who is on our sick list. . . . We extend our sincere sympathy to Betty Magers on the loss of her father.

**THISA & THATA**  
**BLDG. 4-3 and 4**  
by Helen Engle

Ed Robbins' definition of rotation of motors: When motor runs CW rotation it's running backwards. If it runs CCW it is running frontwards! What type of clock does Ed tell time by? . . . Pinky Lec of TV fame has nothing on Edmee Dowden. She was passing "Edamee Pops" for Valentine Day. . . . Those cherry tarts and Valentine cookies Marge Hahn gave the girls were really out of this world. . . . Helen White committed a social error at a banquet she attended recently by using salt and pepper in her cocktail. It was fruit juice and not tomato juice. . . . If you need a new Easter outfit see Marie Griffin. She'll trade you a new dress for a suit. Her

neighbor came over one day and left in a completely different outfit. . . . The girls in 1x55 had a Valentine party at Florence Byers' home. . . . Peggy Bahde received a television for her wedding anniversary. Nice gift. . . . Our sympathy to Bernice Johnson, whose nephew died. . . . Sorry to hear that Edith Minnich left us. Hope you like your new job, Edith. . . . Sam Taylor is father confessor to a lot of people around here. . . . We are sorry the fall that Peg Phillips had has hospitalized her and she is in the Parkview Hospital. . . . We hope Jim Pugh stays off the sick list. . . . Don Nelson must have visited John Figley's basement to get such a short haircut. He didn't even come in to work on Monday, thinking it would grow a little more. . . . Lester May is trying to keep up with Herb Bauer on the cigars. . . . The only thing is, Lester gets sick! . . . Bob Fritz couldn't make his usual stop on his way home. . . . Somehow he got some perfume on him and he was afraid his wife would think he stopped on the way home, so home he hurried. . . . Dorrie Proxmire got a new Pontiac. He says it is the best car on the road. I wouldn't trade him even up, and I have a Plymouth. . . . The First Infantry Division band located in Germany, of which Vern Burkett is a member, just completed a concert tour in Bavaria. . . . Francis Harter finally got his Ford. He has been waiting six weeks to get just what he wanted. . . . Maybe Katie Gilbert will invest in a small step stool now that she fell through a chair when she was trying to get something off the top shelf. . . . Here is a bit of poetry that we like and hope that you like it, too.

**I KNOW SOMETHING GOOD ABOUT YOU**

Wouldn't this old world be better,  
If the folks we meet would say,  
"I know something good about you!"  
And then treat us just that way.  
Wouldn't it be fine and dandy,  
If each hand-clasp warm and true,  
Carried with it this assurance:  
"I know something good about you!"  
Wouldn't things here be more pleasant  
If the good that's in us all  
Were the only thing about us  
That folks bothered to recall!  
If we'd praise the good we see,  
Wouldn't life be lots more happy  
For there's such a lot of goodness  
In the worst of you and me.  
Wouldn't it be nice to practice  
This fine way of thinking, too,  
"You know something good about me,  
I know something good about you!"

**OVER OUR WAY**  
**BLDG. 19-1**

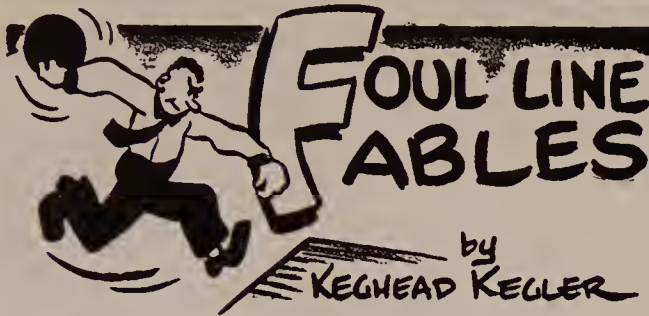

by Clara Volz

"The best exercise you can give your heart is when you bend down to lift a person up." . . . Correction: George Grote didn't go to the circus after all. It seems that George bought a new TV set, and now he says that he can't afford any outside entertainment. Now, George. . . . Attention everyone: Red Sutter now has an Atwater Kent TV set with chain drive. See his pals in the paint shop for the enlightening details. . . . Art Braun is sporting a new Pontiac. What! No Buick this year? . . . Don Nelson has finished his test training here and will go over to Taylor St. Good luck, Don. It's been nice knowing you. . . . Bob Schilling dialed an outside phone number, expecting to talk to a friend, but got the police department instead. He made a boo-boo. . . . Just call Charlie Fisher "Fluffy." He came in one morning with his hair standing out in all directions. It seems he had just washed it and couldn't do a thing with it. You could have worn one of mama's hair nets. . . . That proud look on Clayton Barrick's face could be because his two daughters sang in a trio on the "Stars of Tomorrow" radio program contest recently. I missed it, but heard from others that the girls did well. Hope they bring in the first prize when the finals are judged. . . . Al Phillips almost tangled with a squirrel. It seems the squirrel had a nest on Al's neighbor's house, and Al being an obliging soul, got out his 8-foot ladder and started to root the nest out when Mr. Squirrel himself made an appearance. He brushed past Al's face almost causing Al to lose his balance on the ladder. . . . I see that Arland Studebaker and Al Phillips had their picture taken in last Saturday's rotogravure section showing GE people departing from work. Those two weren't wasting any time. . . . Sue Wilkens had a bit of bad luck last week. Her husband was in an automobile accident, but fortunately wasn't hurt. The car was completely wrecked.

**GREETINGS FROM A FRIEND**—Burdella Welch is congratulated on her retirement by her parakeet, while some of her former co-workers, Lois Johnson and Marge Trammel await their turn to offer best wishes. Mrs. Welch was employed in Section 113 at Taylor St. before retiring.

The Old Crown Beer and Ale team continues to lead the Interdivision Bowling League with a 13 win and 2 loss record. In second place are the Airliners with a 10-5 record. Vic Rump leads the individual standings with a 178.14 average followed by Erv France with a 176.24 average. The Apprentice boys led the team high single game and 3 game series with a high single game of 1069 and a 3 game total of 2999. Franke has the high single game of 247 and France a 3 game score of 599.

Last Wednesday's result: Transformer won 2 games from the Deadheads. Airliners won 2 games from Brouwer's Tire and Battery. Hawk of the Airliners had a 206 game; Matthews and France of Brouwer's rolled scores of 203 and 212. Old Crown Beer and Ale won 2 games from the Tools. Walt Seidel had a 203 and a 200 game for the Old Crown team. Pinbusters won 2 games from Harvey Bros. Kinney Koncessions won all 3 games from Apprentice. Gutterdusters won 2 games from the Summit City Heating team. Leffevre of Gutterdusters had a 210 game.

#### Small Motor

Two Legs Clothes are continuing their winning streak and are leading the league with 12 wins and 3 losses. Test are in second place with a record of 9½ wins and 5½ losses. S and S defeated Tommy's Lunch all 3 games and moved into third place with 9 wins and 6 losses. G-Men have won 8½ and lost 6½ for fourth place. Double century scores were rolled by R. Tholen, 204; J. Saylor, 202; H. Doehrmann, 203; C. Brandt, 201; and E. Downie, 200.

#### Transformer

It is a tie between Autos and M's. each having won 8 while losing 4. Watts, Volts, and Ohms have won 6 and lost 6 to be tied for third place. Black kegled a 211 count and Osburn was the Furliner with a 98.

#### GE Orphans

It is still Hotel Keenan out in front with 16 wins and 2 losses. Team No. 2 is in second place with 12 wins and 6 losses. Team No. 6 has won 10 and lost 8. Bea Lantz toppled the pins to the tune of a 508 series on games of 155, 175, and 178. Ike Foor scored a 176 and Joe Klick, 172.

#### Ladies' Friday Night

Teams No. 1 and 5 are tied for first place, each having won 10 while losing 5. Team No. 2 has won 9 and lost 6. Team No. 6 and Team No. 3 have each won 8 and lost 7. Iris Hebble converted the 3-7-10 split. Delores Drewitt kegled a 194; C. Stanford, 179; V. Bowman, 177; Liz Shearer, 185; Ann Lee, 171; Virginia Mollet, 172; Katie Crouse, 174; and Winnie Scheurich, 190.

#### Apparatus

Team No. 2 went into first place by one-half game with a record of 8½ wins and 3½ losses. Team No. 4 is in second place with 8 wins

and 4 losses. Teams No. 6 and 7 are tied, each having won 7 while losing 5. G. Goshorn kegled a 212, while Vic Rump scored a 205. Tom Anderson and Joe Kramer converted the 5-10 split; Bill Stute, the 4-7-10; and Bob Diche, the 5-7-10.

#### Ladies' Tuesday Afternoon

Team No. 2 leads the league by one-half game, having won 12½ while losing 5½. Team No. 3 has won 12 and lost 6 for second place. In third place Team No. 6 and Team No. 1 are tied, each with 10 wins and 8 losses. Norma Arnold kegled a 183 and 174; Betty Clevenger, 181; Edna Koester, 176; and Ruth Baker, 175. The 5-7 split was converted by Betty Clevenger, Dortha Ramsey, and Edna Bailey.

#### Ladies' Monday Night

In the Ladies' Monday Night league Scatterpins lead the league with 15 wins and 6 losses. In the second place are Twisters, having won 14 while losing 7. Holeyrollers have won 13 and lost 8 and are in third place. Kay Baade kegled a 191; Marjorie Meeks, 179; Marg Pasternak, 177; Ann Lee, 173; Ardyth Hawley, 177; and Betty Hinton, 187. Ruth Koenenman converted the 5-8-10 split; Edith Oederkirk, the 4-7-9; and Joyce Brumbaugh, 3-7-10. M. Rauner picked up the 4-7-10, and Helen Mossburg, the 5-10 split.

#### Office

Paulisch Shoe Repair and Motor Generator are tied for first place, each having won 12 and lost 6. M and G Sales and Plant Engineering are tied for third place with 11 wins and 7 losses. Glenn France rolled a 225; Don (Plunger) Stoneman, 219; Dick Grote, 217; Bob (Sore Thumb) Blomker, 216; Harry Dalman, 212; Don Ewing, 210; and Erv Aumann, 202.

#### Mixed Doubles

Get your entry in for the mixed doubles. They will be held Saturday night, Feb. 20, with squads to roll at 6 and 8 p.m. The cost is only \$2 per person. First prize of \$20 will be contributed by the GE Club.

#### Men's Factory

This league developed into a real see-saw affair when the Flanges walloped the Rotors 3 games and the Office trimmed the Stators 2 and 1. The Flanges and the Stators now have 8 wins and 7 losses, while the Rotors and Office trail only by 7 wins and 8 losses. G. Laurent rolled a 614 in games of 206, 188, and 220. 200 scores were rolled by P. Wilkinson, 200; H. Shoaf, 204; C. McIntosh, 222; and R. Schuster, 200.

#### GE Fraternal

With three men rolling 600's, the Teeple Truck Lines beat the

GE Club 3 games and advanced to a tie for first place with 9 wins and 6 losses. West End Restaurant salvaged two from Monroeville and retained a tie for first place. Al Buuck's 666 gave Peterson's 2 over the K. of C. and a tie for second place at 8 and 7 with Monroeville and Riverview. Riverview tamed the Elks 2 and 1 despite a 612 by B. Custer of the Elks. 600 series were rolled by Al Buuck, 666; B. Custer, 612; E. Faulkner, 613; C. McIntosh, 600; and G. Laurent, 631. 200 scores were kegled by J. Murphy, 218 and 209; A. Zelt, 202; W. Petrie, 210 and 205; C. Crates, 204; R. Johnston, 210; G. Alton, 234; Korte, 208 and 223; H. Strickler, 211; G. Schultz, 233; and J. Beery, 219.

#### Women's League

Last Frames went from last to first place with 3 wins from the Hi-Spots, who were relegated to last place. The Office took 2 from the Spares and these two teams are now tied for second place. E. Plasterer's 173 and M. Miller's 190 were the high scores for the league.

## RACONTEUR

### SECTION 114 TAYLOR ST.

by Luana Oehlhausen

On January 15, Fred Harris retired from the General Electric Company. During his 12 years of service, Fred made many new friends who all wish him well in his declining years. We understand he has a position catering to the needs of the teachers and students of a Bluffton school. Fred can do that very nicely, and if he can dig up a few eucyre players he will be in his glory. . . . The Switch girls are still working away; however, we hear that a wisecrack can be heard now and then. . . . Our deepest sympathy to Charles Duany on the death of his wife. . . . Through the generosity of Ted Brochmeier and his wife, the members of the Grace Lutheran Church will have a new cocoa mat to wipe their feet on before entering the church. . . . Cleon Oyer has a new way to make hair grow. He uses Old Spice shaving lotion on his head. And he has one gray hair that sticks straight out to prove it. We hear he is planning on getting a crew cut. . . . Carl Hattendorf had a dream the other night about his Canadian vacation. The next morning he received a letter from the people they stayed with in Canada. How's that for mental telepathy? Incidentally, Carl's wife says she wants to go to Canada again this year. Be seeing you in Canada, Carl. . . . We wonder why Frank Conley is constantly looking in the phone book. Can't you remember her number, Frank? . . . The valentines rolled in Monday morning; everyone was so excited. Thanks a lot, Mary.

Be as brave as your fathers. Have faith, and go forward.—Thomas A. Edison.

# Owls Beat Zollner 58-31; Push Win Streak to 15

by Howard Colby

With Harold Somers piloting the Club team in the absence of regular Coach Benny Penkul, the team won their 15th game of the season last Thursday morning by downing Zollner, 58 to 31.

In the first quarter, which

## PICK-UPS from 26-3

by Maxine Jordan

and

Helen Wagner

Glenn Hobbs, in the future, would you please check to make sure all your people have gone home before you lock the sample room as we hate to see Harry Rollins break any more locks. . . . Well, the bug finally got Frank Clifton. When you see a red streak going by, that is Frank in his new Dodge station wagon. . . . Ernie Clark received a letter from Lawrence Schuster telling how nice the fishing is in Florida. . . . We are glad to hear that Nellie Wendt is getting along fine. She is at the Parkview Hospital. Also a speedy recovery to Mary Williamson and Frenchy Chilcote. . . . We welcome Deloris Parker to small lot winding section. . . . We want to know why Wanda Grimm doesn't eat her sundaes after she orders them. She just sits and looks at them. . . . Flash! This is the first Dollar Day that Art Pequignot has missed in 20 years. The reason is, "Old Cy" doesn't believe in Dollar Days so he said, "no." . . . Emma Meyer, how do you manage to get into those predicaments? This time, she found herself locked in the repair area. . . . Our advice to Edna Mapes is don't tune in a detective mystery, especially a robbery, when you are alone in your store at night. . . . Seems Mary Cordell's nephew had the goldfish fried, but his mother halted the eating in time. Could be he inherited some devilry from his Aunt Mary. . . . It is nice to have Max Kimble back with us again. . . . Will someone please show Nancy McCrea how to read her Credit Union book? She surely gets her figures mixed up. . . . The Virgil Buchanan's have an increase in their family, four bouncing Beagle puppies, which came a little early for Virgil's birthday, which is Feb. 13. . . . Believe it or not, Almetta Till has been getting colored television on her set. For details, see Almetta. . . . Several of the girls were out to see Loretta Blume. We hope she gets along fine and will be back soon. . . . Safety Sam Says: Safety is a way of life. It guides your actions in the plant, at home, on the street, at work, and at play. It includes your family, your friends, and your neighbors. To you, safe living means a better pay check and a happier family.

was a close one, Gene Etter paced the Club team with two baskets with Wilson and Blodgett each adding one. White sank a charity toss to bring the total to 9 points as Zollner scored 6 points.

Going into the second quarter it was Ron Blodgett, the Club's rangy center, who led the way as he scored 8 points on three field goals and two free throws. Fisher hit two fielders; Dickey and Anspaugh, one each; and Gladioux cashed in on three free throws for a total of 19 points. Zollner was held to 11 tallies to end the first half, 28 to 17.

It was Ron Blodgett again leading the way in the third stanza as he rang up 7 more points to give him a 17-point game. Carl Wilson was right behind with three baskets, and Markey and White tossed in a field goal apiece, to give the Club team a third quarter total of 45 to Zollner's 23. They hit for only 6 points in this period.

In the final eight minutes of play the Club's Warren Dickey served as pacemaker as he flipped in 7 points. Gladioux hit for 4 points and Fisher 2 as Zollner scored 8 points to make the score GE 58, Zollner 31, when time ran out.

Next Thursday morning at the Club Gym it is Eckrich and Aircraft Gear at 9 a.m.; Zollner and Indiana Rod meet at 10 a.m., and GE meets Salisbury at 11 a.m.

## THE NIGHT WIND

### SECTION 417 TAYLOR ST.

by Hazel Davis

A very hearty welcome to Alice Decker, Barbara Hale, and Janice Ely, also to Cecil Crawford, who are back on the die cast. . . . Thelma Dammier says she doesn't need a car. She had five chauffeurs in 24 hours last Monday. . . . The old sayings, "Like father, like son" must be true. Little Billy Huhn is talking already. Bob is also teaching him to wrestle. . . . It took a whole day for Norm Wolf to buy a car. No wonder, it took the salesman half the time to tell Norm the name and model. Anyway Norm reports a new "late 41 model Chevrolet Country Club Deluxe Special." He reported that the motor ran so quietly going home that he decided someone pushed him, as it wouldn't start at all the next day. . . . We want to wish Virginia and Ethel many more happy birthdays. . . . June Heines has been winning lately. You must live right, June.

## GE CLUB MIXED DOUBLES

Saturday, February 20

Squads roll at 6 and 8:30 p.m.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 10-1.

#### CLOSING DATE

Monday Noon, February 22, 1954

#### LOST AND FOUND

WASHER—Speed Queen washer, excellent condition. Equipped with automatic water pump. 3702 Reed St. H-76804.  
BED—Double bed, springs, mattress. Will trade for single bed and springs. Deluxe twin tubs, like new. New 7.10 x 15 Armstrong deluxe tire. H-44857.  
ORGAN—Antique organ, very good condition. Best offer takes. H-46662.  
CABINET—Youngstown wall corner cabinet, like new. Cost \$60. Will sell for \$30. Gas water heater, 20 gal., \$25. 3706 S. Calhoun St.  
DESK—And chair, mahogany; dining room suite. H-44871.  
RADIO—Admiral table radio and phonograph; reasonable. E-6322.  
RADIO—Admiral table radio and phonograph. Reasonable. E-6322.  
BED—Birdseye, maple bed; chiffonier, walnut, glass door; china cabinet. K-1867.  
TRICYCLE—Large, balloon-tired, tricycle and 16-inch sidewalk bicycle with balance wheels, no coaster brake. New Haven 3156 after 4 p.m.

## TRANSFORMER TATTLES

BLDG. 26-4

by Dutch Norwali

The boys in the packing section welcome Harry Lehman back to the first trick. . . . It is reported that Junior Gilliam is homesick for the old Kentucky hills. . . . Group 412 just recently discovered that for some time they have been highly honored by one of their fellow workmen, Baron Doc Gordon of the House of Gordon, Ireland. . . . Edna (Mert) DeLeury is working at foreman Goller's desk. Could it be that she wants to be transferred along with the newsboys to the Hanna Street Plant? . . . Maurice Casey finally broke down and bought his wife TV. . . . Murderers Row recently welcomed two new members: Al (Liberace) Topp and George Norwali. . . . Lena Ferguson and Grace Lobdell are on sick leave. Take it easy, ladies! . . . Doris Salge celebrated her birthday this week. Happy birthday, Doris. . . . We want to welcome Buss Grove back on our floor. . . . We are saying good luck, Mr. Peterson. We surely hate to see you go. Christine Burns has a few words to express our thoughts:

#### TO MR. PETERSON

We're losing a boss that we hate to see go.  
And it's really a loss, as all of us know.  
Here's quite a tribute that few of us earn,  
No one speaks ill of him, no words that burn.  
We'd like to keep him, but can't have our way.  
So we wish him much luck from now on, every day.  
But we have another who's coming "back home."  
We hope we can keep him and that he won't roam.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Marie Dunn and husband spent the week-end in Toledo, Ohio. . . . It was good to see Dutch Wilson again, who paid us a visit last Thursday afternoon. . . . Mr. and Mrs. John Thurber are the proud parents of a seven-pound baby boy, born on Valentine's Day, named John, Jr. The mother will be remembered as Carol. . . . We extend our sympathy to Ed Blotkamp, who lost his mother last Sunday. . . . TELEGRAPH: Congratulations to Hilda Krause and Henry Disbro. They were married Sunday, February 14. . . . It was nice seeing Carol Bolson again. . . . Joyce Joseph is back at work after a week's siege with the flu.

In the matrimonial race, a girl who becomes engaged is usually on her last lap.—Floyd R. Miller.

## WINTER STREET JOTTINGS

by Alma Elliott

Happy birthday to Joe Raupfer Feb. 12 and Gene Ralston Feb. 15. The Hermetic Line girls all gathered around Joe and sang "Happy Birthday." All day he was wondering how everyone knew it was his birthday. It couldn't have been because there was a sign on his back all day! . . . Also a happy birthday to Eula of the Specialty Section, who spent her birthday in the hospital. Hurry back, Eula. . . . Have you heard the latest on fox hunting? Harold Bohde went hunting with 79 other fellows. There were two foxes caught. Harold caught one and the 79 fellows caught the other one.

Where was Tom Rockhill at the hockey game the other night?

We felt a little sorry for his wife, who was sitting all by herself. . . . Speaking of wives: Whose wife was seen at Mary (Leiter) Pondo's wedding reception wearing tennis shoes? . . . We hear Anita Slusher has a new Ford. When are you taking the girls for a ride, Anita?

Have you heard the latest from the Payroll Section? Payroll will now handle postage stamps. Can't you just hear Hortense in the background muttering, "Over my dead body." . . . It seems certain people just can't get over the conveniences of our new cafeteria. What with Mr. Lane walking off with the mustard and Ray Hoffman with the salt, the cafeteria people just can't go wrong with these hungry people around to feed.

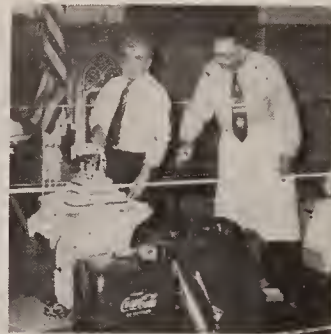

The TV Club of Winter St. is growing larger every pay day.

The newest members are Eleanor Bolenbaugh and Justine Brown. . . . There's a new sparkle on Colleen Williams' third finger, left hand. Congrats, Colleen.

Welcome to: Jim Laymon in Production; Lucy Carton in Order Service; Betty Gentile in Marketing, and Mary Bissonette in Production. . . . Did you all know that Al Disler is a coin collector? They say when he gets some money he really keeps it and we believe them. He's got a dollar that dates back to 1887.

A few of our famous employees: Phil DePrinzio is a real gone guy on the bass viol and we understand that his wife was a hallet dancer. Arlie Huffman was the city tennis champion two years ago. . . . Strictly for the girls: Scoop of the week—Is it true that Don Anderson is thinking about buying a Cadillac? When are you taking us all a ride, Don? Line forms at the right, girls. . . . We're all wondering when Bob Messmer gets his work done. Showing the girls through his new dark room up on the third floor must keep him busy.

Nick Treiner, a now retired member of the Tool Room gang, was recently treated with a party. The reason—Nick is a retiring employee with 42 years of service with the company. About 100 friends gathered at the Phi Delta Kappa hall to help Nick celebrate. "The Real Gone Beebop" orchestra with Bob Branning playing trumpet; Fred Woerner, violin; Earl Gebert, piano; and Dale Weaver, big bass; was on hand for music. Hi-Light of the evening was the boxing ring in the room. Nick stepped up against three worthy opponents, T. L. Mayes, O. L. Weitzman, and Billy Wiers. Among the boos and many cheers, Nick was unanimously named the winner by decision of the judges after all three men had been disqualified. Ed Ehrman as the referee had his hands full. Before leaving the ring, Nick was presented with a cake and many fine gifts. Magician Edgar Gallmeyer added to the entertainment with a display of magic. Once again the "Real Gone Bee-bop" orchestra tuned up for community singing and refreshments were served to close the gay affair. We think the entertaining committee deserves a fine hand of thanks for this party, Harold Bohde, Bob Kerr, Don Batchelder, and Tom Rockhill. Take it easy, Nick, and come back and see us some time.

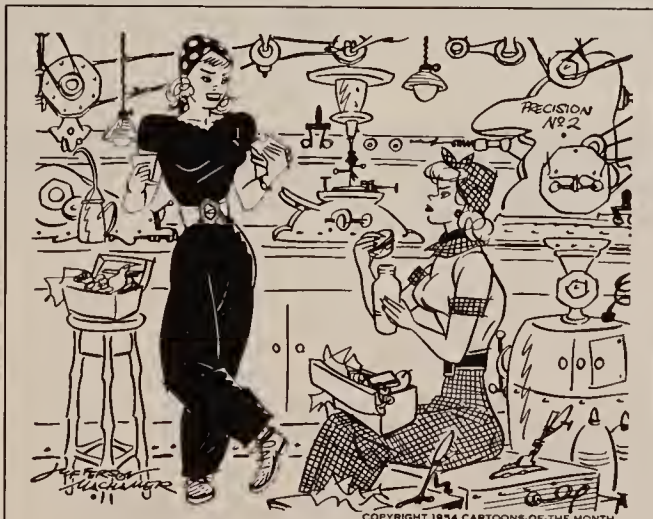

## WIRE RAVELINGS

TAYLOR ST.

by Art Rasor

Everyone seemed to get his share of valentines, with the die room boys getting two to one. There were many descriptive ones that seemed to be the opposite of each personality, but how they got the laughs! The only person who can't put his finger on the unknown sender is Joe Taylor, so Joe is going to wait until next year and send everybody valentines in order to return the compliment. . . . Paul (George Washington) Kempf will celebrate his birthday on February 22. . . . It was a grand send-off to Joan Crum and we

will be glad to hear from her soon. . . . Howard Smith has been having trouble seeing double, so he just purchased new glasses. I think the trouble is that his television has a double image and upon arriving at work he still sees a double image. Does anyone have a double antenna for sale, cheap? . . . If you really want to see what Al Swift calls a tire you should look at his sometime. They look like inner tubes as they are actually as smooth as a bald head, only not sunburned. We heard a rumor that Al is thinking about glueing rubber bands on them in order to get traction. . . . We welcome Richard Elward back to the spool repair section. He has just spent his time in the Service.

"I took twenty-seven thousandths of an inch off my waistline last week"

ONE OFFER WE REALLY SHOULDN'T MISS!

## The Crusade for Freedom

Words, in captive Central and Eastern Europe, can be instruments of terror. The words poured forth by the Kremlin's propagandists are aimed at an audience captive in body but not yet in mind; their purpose is to integrate that captive audience into the Soviet war machine.

So far, as the stories behind our daily headlines have shown, the Kremlin has largely failed. The 70 million people of Poland, Czechoslovakia, Hungary, Romania, Bulgaria and Albania have not yet been won over entirely to the Kremlin side, and because they haven't, they represent a strong deterrent to any new aggression the Communists may plan.

Much of the credit for the continued dedication of the captive peoples to democracy must go to Radio Free Europe and the National Committee for a Free Europe, and to the private American citizen who has supported them through the Crusade for Freedom.

Radio Free Europe is the source of hope, encouragement and truth that keeps alive the love of liberty and the spirit of resistance where it counts most—behind the Iron Curtain. The National Committee for a Free Europe is the source of democratic strength behind that truth network. It supplies training in the ways of democracy for exiles from communism who may some day be called upon for leadership under new freedom in their homelands. The Crusade for Freedom is the source of support from the American people, support manifested in an educational program for all Americans and in financial contributions to keep R. F. E. powerful.

As President Dwight D. Eisenhower put it:

"Every American who joins this Crusade for Freedom for the support of Radio Free Europe can be sure in his heart of these things:

- "1. He is supporting the cause of peace throughout the world.
- "2. He is helping arm the spirits of captive people with hope and courage.
- "3. He is helping to keep Central and Eastern Europeans strong hearted, nationally proud, determined to win their own way back to freedom.

"I urge every American to support this independent American enterprise dedicated to strengthening the will-to-freedom overseas."

## Local Junior Chamber of Commerce To Sponsor Community Ambassador

The Allen County Community Ambassador Project is being sponsored by the Fort Wayne Junior Chamber of Commerce and is one of more than fifty similar projects being undertaken throughout the United States. Our Community Ambassador will be an outstanding young man or woman from Allen County and will be selected on personal merit based upon qualifications from the application, references and personal interviews.

This Ambassador will represent the people of Allen County and our way of life while living with new friends in a community abroad. He or she will live as a member of a family in a community like Fort Wayne, but in a foreign country. In this way our Ambassador will learn about his adopted country through the understanding and affection he acquires from its people. He will share these experiences with us through newspaper reports while he is abroad and through talks to interested groups upon his return.

The Community Ambassador should be a young unmarried person between the ages of 18 and 28 inclusive. He or she must be a citizen of the United States and have resided in Allen County for at least one year and expect to remain in Allen County until June of 1955. This person should possess genuine interest in working for world-wide understanding. It is necessary that he or she be able to express opinions and describe experienced both orally and in writing. Good health, experience in and a liking for outdoor living are necessary requirements.

Upon selection, our Community Ambassador will be briefed on the many facets of community life in Fort Wayne, including its industry, government, labor, social and religious activities. Our ambassador will join with ambassadors from other communities and these groups will sail between June 15 and July 4, from a Canadian or New York port aboard ships operated by the Holland-American Line or the Council on Student Travel.

The expenses involved in sending our Ambassador to the foreign country (including transportation, food, lodging and other incidental expenses) will be sustained by the Fort Wayne Junior Chamber of Commerce. Our Ambassador will be supplied with camera and film to make a photographic record of his trip. Spending money for souvenirs and mementos will be limited to \$100. (This is done to keep the Ambassador in true character with those with whom he will live.) Language will be no problem because placement can be made with English-speaking families in the foreign country.

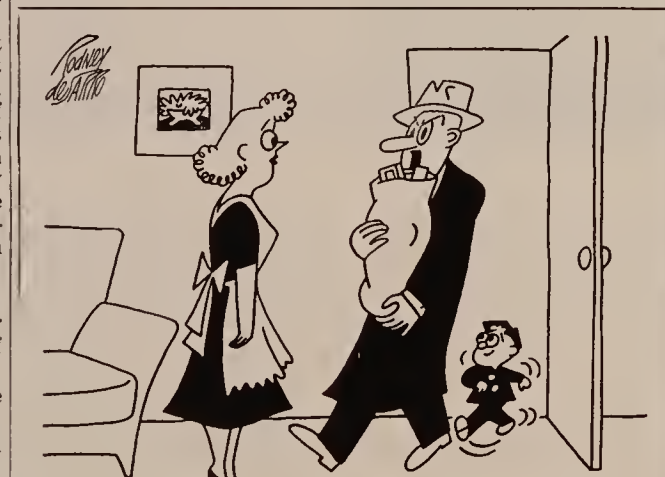

Groups of ten ambassadors will live in the same community for the first four weeks of the summer as members of separate families where there are young people of their own age. Again the trained group leader will be with the group as adviser and friend, helping the Ambassador to understand this new culture. In this unique way each Ambassador is confronted with the challenge of turning "foreigners" into friends. Making real friends abroad demands maturity, self-control and the ability to express oneself—basic requirements for adaptation to new and different customs and national attitudes.

Final date for submitting applications is March 13, 1954. These applications are to be sent to:

COMMUNITY AMBASSADOR PROJECT  
Fort Wayne Junior Chamber of Commerce  
Box 602  
Fort Wayne, Indiana

A series of interviews will follow for approximately four weeks. The interviews with the finalists will take place on Thursday evening, April 15, 1954, and selections of our Community Ambassador and an alternate will be announced within one week.

For additional information or application blanks, write to the above address or contact any member of the Fort Wayne Junior Chamber of Commerce.

"Root beer, lollipops, animal crackers, potato chips, bubble gum, marshmallows, salted peanuts - and the bottle of vinegar you sent us for!"

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Virgil Best, Verne Bullerman, Carolyn Cocks, Thomas Lauer, Rebecca Moore, Warren Hawley, Albert Wickliffe, Harry Connor, Dan Knepper, Howard Musselman, Charles Moran, R. McNiece, Alfonso Hellwig, Miguel G. Garza, Arthur Gallogly, Harry W. Edmunds, Richard B. Arnold, Chelcie V. Basham, Ray Smith, Robert E. Gotschall, Paul S. Devor, Henry Nagel, Joseph S. Wauro, Robert Parks, Chester Benz, Rosella Koons, Alma Kurtz, Byron Pfaffman, August Rodriguez, Muriel Etchason, Alma Raymer, and Betty Williams.

### Dismissed from Hospital

Herbert Wise, Carl Martin, Daniel Antrim, Mabel Shinn, Nellie Wendt, Daniel Knepper, Charles Moran, Mildred Fast, Harry Edmunds, Gerald Scott, Fred Gersie, Viola Meeks, Thomas Lauer, Mary Schlau, George Taylor, and Harry Conner.

### Returned to Work

Clara Wisel, Marjorie Ponsot, Ralph Hayes, Cecelia Joseph, Lulu Files, Raymond Trumbower, Dorothy Duff, Gerald Scott, Raymond Williams, Victor Reversion, Mary McKinney, Kieth Marquardt, Ernest Jones, Eber Gillespie, Robert Phillips, Mary Baker, Katherine Brandt, Cloyd Krieger, Paul Dole, Peggy Buuck, Will Helms, Oscar Baumgartner, Patricia Winners, Nellie Wiggins, Donna Lake, Mary Armstrong, Frank Phillips, Ethel Koontz, and Mabel Shinn.

## WIRE RAVELINGS

TAYLOR ST.

by Art Raser

Frank Meggason is having trouble getting rid of his freshly butchered cattle. Do you suppose the buyers think the meat is water-soaked? . . . Now you can call him "Sambo" as that is the part he portrayed in a minstrel show. It was all for a good cause, too, as Bob Shirey and other fathers presented the play to the Cub Scouts of the neighborhood troop. . . . Exclusive: It wasn't for the fun of it, but he was forced to wear it. I'm speaking of Virgil Dennis wearing his topcoat to work. Right away the fellows cleaned a place for him to hang it, but they were disappointed when he wore his jacket the next day. . . . Herb Thompson is getting plenty of exercise as he has to walk to and from work. This was caused by the collision of two cars, and as a result Herb's car was towed to sick bay. . . . Birthday greetings to Virgil Nash on the 26th of February. . . . The fellow in the die room is not the "Masked Marvel" but he looks like he tangled with the "Mighty Atlas." All kidding aside, Bob Baals had his nose broken in a basketball game at the GE Club last week, and therefore he must wear a guard. But for the two black eyes, I'm afraid we can't afford to cover them with beefsteak at the price we have to pay today. . . . See or call Skin McGary, A-68974, as he wants to hire someone to row a boat on week-ends and holidays. Oh yes, good pay, too!

# Plant-Wide Drive for New Members In Savings and Stock Bonus Plan To Get Under Way Week of March 8

A plant-wide drive to encourage participation in the GE employees Savings and Stock Bonus Plan will begin Monday, March 8. All employees who are not now members of the plan will be given an opportunity to enroll during the solicitation.

By enrolling in the Stock Bonus Plan, employees authorize the payroll section to deduct any amount they wish, from a minimum of 75 cents to a maximum of \$10, from their weekly checks for the purchase of United States Savings Bonds.

As enough money is deducted for the purchase of bonds, certificates are issued in the amount of the bonds they have purchased. A member may designate what size bond he wishes to get.

The actual bonds are held by the company for a five-year period and a bonus in General Electric common stock in the amount of 15 per cent of the bonds purchased each year is added to the employee's savings.

The plan makes it easier to save through regular deductions from each pay through U. S. Savings Bonds. It also offers the incentive of a bonus that should pay a higher rate of return on savings than is obtainable elsewhere at the same degree of safety.

Another important feature of the plan is that it gives employees the opportunity to become stockholders and share in the growth of the company.

Carl E. Swanson

## Rites Held Feb. 20 For Carl E. Swanson

Services for Carl E. Swanson, 67, were conducted Saturday, Feb. 20, at the Klahn Funeral Home. The Rev. Floyd Powell officiated. Mr. Swanson died Thursday, Feb. 18, at his home near Montpelier, Ohio. Burial was in the Lindenwood Cemetery.

A Quarter Century Club member and retired employee, Mr. Swanson joined General Electric in 1919 and went to work in Bldg. 26-5 as a machinist. A layout man, milling machine, and turret lathe operator, he was a toolmaker in Bldg. 4-2 when he retired March 28, 1947.

Survivors include his wife, Ollie, and a sister, Mrs. Charles L. Beeler.

## Foremen to Install Officers At Meeting Wed. March 10

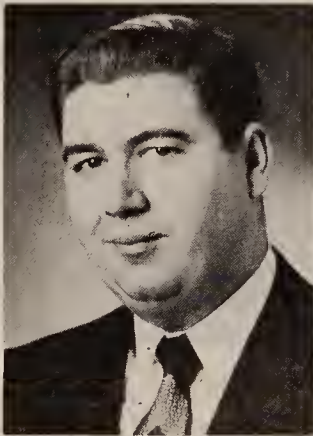

Foremen's Association members will have their March meeting at the Southwest Conservation Club, Wednesday, March 10. A fish supper will be served beginning at 6 p.m.

Highlighting the business meeting will be installation of new officers by outgoing president Leonard G. Reuss. "Pan-tominist Frank" will present a program entitled "Jolson Jest." Refreshments will be served and games have been planned.

Tickets are \$1.00 per member and may be secured from contact men. Friday, March 5, is the last day to make reservations.

Assisting Mr. Reuss with arrangements for the meeting are Clarence W. Hale, Bldg. 19-1, and William L. Paulson, Bldg. 19-5.

New officers are: Mr. Paulson, president; William Rodecker, Bldg. 20-1, vice president; Freeman Rohlfing, Bldg. 26-1, secretary; Neil Allen, Bldg. 4-1, treasurer, and Carl Hattendorf, Bldg. 17-4, director. Mr. Reuss will serve as a director for the coming club year also.

## Charles M. Townsend Appointed Supervisor Of Inventory Control

Charles M. Townsend, Jr., has been appointed supervisor of inventory control in the Direct Current Motor and Generator Department, George M. Murray, purchasing agent, announced this week.

A native of Lima, Ohio, Mr. Townsend came to General Electric in 1951. He has served on special assignments in the production and purchasing departments of the department until his present appointment.

Graduating from Bowling Green State University in 1950, Mr. Townsend received his B.S. degree in business administration. He went into the U. S. Navy in January, 1945, and served in the Pacific Theater prior to being discharged in November, 1946.

Mr. and Mrs. Townsend have three children and live at 4404 S. Park Dr.

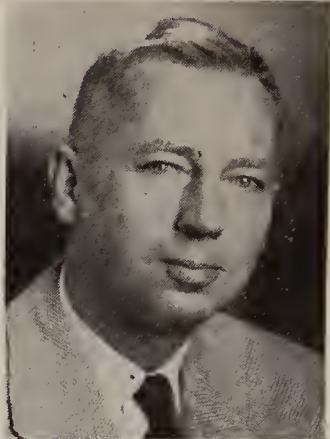

Three Polar bears were sitting on an iceberg. "Now," said the father bear, "I've got a tale to tell."

"I, too," said the mother bear, "have a tale to tell."

The little bear said: "My tale's told."

Merwin A. Sorgen

Harry R. Brown

## Two Men Named to New Posts In DC Motor and Generator

Two appointments in the Direct Current Motor and Generator Department have been announced by Paul E. Bohn, supervisor of production in the Fort Wayne manufacturing section.

Merwin A. Sorgen has been named supervisor of loading and requisition scheduling. Harry R. Brown has been appointed supervisor of factory production, Area C.

After joining the company in 1935, Mr. Sorgen entered the Apprentice School. He graduated from the machinist-toolmaker course in 1939 and entered Large M&G production as a clerk and dispatcher.

In 1941, Mr. Sorgen went into planning in the same department and was named a foreman in the light machining section in 1943. Three years later, he was placed in charge of the material list section, Bldg. 31-1. Later he went into inventory control as assistant to the production supervisor. In 1948 he was named foreman of transportation, receiving, and stock rooms. Last year he became manufacturing loss specialist.

Mr. Sorgen is a member of the Apprentice Alumni Association, Foremen's Association, and GE Squares. The Sorgens and their three children live at 3101 S. Anthony Blvd.

In 1943, Mr. Brown became a GE employee and went into the office of the production manager, Bldg. 18-4, where he worked as the coordinator of government orders section. After moving to Taylor St. in 1945, he was located in the section in charge of terminating government contracts.

The following year, Mr. Brown began work in expediting materials for branch plants. In 1947 he went into central inventory control and later transferred to Large M&G production as a requisition clerk. He held various positions in the section and was named section supervisor of inventory control in the manufacturing section. This was his position at the time of his present appointment.

Graduating from DePauw University in 1930, Mr. Brown received his A.B. degree in social studies and economics. He did graduate work in education at Indiana University for two semesters. He is a member of the Supervisors Club and the GE Squares Club. Mr. and Mrs. Brown and their two daughters reside at 1015 Shore Dr.

## Howard Duff Stars In GE Club Movie Sat.

"Calamity Jane and Sam Bass" is the movie appearing on the kiddies' program at the GE Club gym tomorrow afternoon. Beginning at 1:30 p.m. for one showing only, the movie stars Howard Duff and Yvonne DeCarlo. The stars of the plot wage a thrilling battle against the encircling forces of law and order in connection with the shooting of a horse poisoner.

## All Aboard for Chicago

All Aboard! That's the call at 7:53 tomorrow morning for the Elex Club group, who will board the Pennsylvania Limited for their one-day trip to Chicago. Final arrangements for the Elex-sponsored trip were announced this week by Joyce Brumbaugh, president.

Those taking the one-day trip will leave the Pennsylvania railroad station at 7:53 a.m. tomorrow. They will arrive in Chicago at 10:35 a.m. The group will depart from Chicago at 11:20 p.m. Saturday and arrive in Fort Wayne at 1:44 a.m. Sunday, Feb. 28.

More than 175 persons are making the excursion to the Windy City.

## Partizan Tells Plans to Form New Chapter

Plans to form a new chapter of Elex Club for former employees and members of Elex were revealed this week by Partizan Chapter. Since Partizan is constitutionally limited to 48 members, they have been unable to fulfill the many requests for membership. For this reason it has been decided to form a new chapter.

A committee consisting of four past presidents and the current president of Partizan met last week to begin preparations to open a new chapter to take care of those interested in belonging to such an organization.

All retired employees and former employees interested in joining the new group are invited to attend a breakfast Friday, March 12, in the Bldg. 16-2 dining room at 9 a.m. Reservations should be made by Friday, March 5, by calling E-7431, Ext. 555.

All persons attending the breakfast will become charter members of the new chapter. They will elect temporary officers and formulate plans for a constitution and name to establish them as the second chapter of Elex.

Charters will be presented Partizan and the new chapter at the April 12 meeting of Elex.

Members of the committee which began preparations for the new

**SAFETY FOR ALL TO SEE**—Cloyce Peden, safety specialist, Kenneth D. Strong, superintendent, and Richard M. Hartigan, manager of employee relations, inspect a new safety display case, which has been erected in the DC Motor and Generator Department. Located in Bldg. 19-1, the display was put up as a part of the safety education program in the department. The top section of the display will serve as a bulletin board and will show records

of accidents and near accidents with pictures and descriptions. It will also have safety records in the department and other safety rules. The bottom section will hold various types of protective equipment such as gloves, aprons, shoes, respirators and even fire equipment, so that employees may actually see the equipment and better understand why they should wear it for their own protection.

chapter are Martha Zehendner, Myrtle Bennett, Helen Thiele, Margaret Tomson, and Jane Yergens.

## GE ON RADIO AND TV

### TELEVISION

featuring Hilliard Gates.

## Fred Waring Show to Salute American Heritage Sunday

Fred Waring and his Pennsylvanians will devote their half-hour television program Sunday, Feb. 28, to a musical salute to our American heritage. Among the ever-popular Waring arrangements to be featured will be "Give Me Your Tired, Your Poor," a musical adaptation of the Emma Lazarus poem inscribed on the cornerstone of the Statue of Liberty, "God Bless America," "God of Our Fathers," and "No Man Is An Island," presented by the glee club and orchestra, and as a special fea-

ture on the program, Fred will present his arrangement of "America—Our Heritage" for the first time on television.

Also featured will be a solo rendition of the spiritual, "Ain't Gonna Study War No More," by the outstanding Negro baritone, Frank Davis, supported by the Glee Club.

The Fred Waring Show sponsored by General Electric is telecast over WKJG-TV network from 8 to 8:30 p.m. (CST).

## GE Rectifiers Help Preserve America's Mothball Fleet

In order to reduce the corrosion of more than 2,100 reserve vessels, Lighting and Rectifier Department engineers, working in cooperation with the Maritime Administration, U. S. Department of Commerce, have helped to devise a preservative process involving electrolysis. The ships, whose bottoms will be "electrocuted," are harbored at Wilmington, N. C., and are commonly referred to as America's mothball fleet.

Maritime Administration officials were faced with the necessity of taking steps to prevent the bottoms of fleet ships from corroding. As a remedy GE engineers recommended cathodic protection, using metallic rectifiers. Electrodes were submerged in the mud along the river or harbor, and connected to on-shore rectifiers (convenient for servicing and wiring).

According to the engineers, the rectifiers set-up a d-c voltage between the submerged portion of the ship and the water. The resulting circuit prevents corrosion at approximately one-fifth the cost of other maintenance means.

The protective rectifier units are standard General Electric cathodic-protection equipment, manufactured in the Lighting and Rectifier Department. As protection from the salt-water atmosphere, the selenium-rectifier stacks are hermetically sealed in oil-filled metal containers.

According to the Maritime Administration, utilization of cathodic protection will save the government nearly \$1,500 per year per ship.

## Elex Plans Style Show For March

Welcoming in the spring season, Elex Club members will present a style show of spring fashions at their March 8 meeting. Clothing from the Grand Leader Department store will be modeled by club members.

Helyn Hitchcock, on the staff of charm and modeling schools in Chicago and Fort Wayne and a fashion expert, will coordinate and direct the show. Dresses, suits, coats, hats, formals, and leisure-time clothing will be shown. Decorations will carry out the theme.

The GE Club auditorium will be the site of the dinner meeting, which will begin at 4:45 p.m. Reservations are \$1.25 per member and should be made with contact girls by Thursday, March 4.

Models for the show are Dorothy Shaffer, Kathryn Pfeister, Ruth Hite, Paula Gerding, Margaret Cox, Doris Barton, Dorothy Leeper, Patricia Overmeyer, and Mable Shaaf.

## GE War Vets Open Membership Drive

The 1954-55 membership drive of the General Electric War Veterans Association will open next week, Robert Turschman, Bldg. 2-2, president, announced this week.

Contact men will have membership cards, which are 50 cents per year. The drive will continue until April 16 when it will be closed for the year. Coming events of the organization include the banquet and election of officers which will take place in April. These will conclude the current club year.

**LEISURE DAYS AHEAD**—With more than 40 years of service with the company, Albert J. Kruse (center) retired this month. Mr. Kruse joined GE April 8, 1913, as a clerk in Bldg. 6. He has been head traffic and shipping clerk at Taylor St. since 1942. He received his ruby service pin last April. Herbert C. Grueb (left) and John J. Welch are shown with him.

# 10,000 SEE HOUSE OF MAGIC SHOW

COMPARING NOTES with "House of Magic" lecturer, William LeCompte, left, are Robert K. Drake and Marion Hallack, Bldg. 28-2, who present the "House of Wonders" show which is prepared in Fort Wayne's GE laboratories. An estimated 10,000 employees, their families and members of the community attended the three-day "House of Magic" show at the GE Club.

MAGIC TRAIN that obeys a human voice is demonstrated to Mr. and Mrs. Walter Jackson and their daughter Shirley Ann by William LeCompte, left, "House of Magic" lecturer at one of the shows presented this week.

## 2-2 TALES

by Belle Buchan

If Pres Slack was all puffed up last week it could have been because of the picture of his son that appeared in the newspaper. . . . Do you suppose that some nasty dog ran off with the lid from Clara Nelson's garbage can? There were six new ones on her desk the other morning. . . . Audrey Hickernell is in the St. Joseph Hospital following an operation. Don't forget to send her a card. . . . This week we said good-bye to Joyce Ahern, whose future address will be Denver, Colo. . . . To Joan Murphy we say good luck, Joan has taken up a new job of making baby clothes. . . . Have any of you seen any robins yet? We did in our back yard, also several black birds. It gives one spring fever, doesn't it.

Ed Lauer's health. He looks tired these days. Do you think a pair of roller skates would help him? . . . After one day working down in the small lot section Ralph Wilder is glad to get back on his old job. . . . Don't take Art Pequignot's lunch pail because that is his walking secretary and filing cabinet for his future prospects. . . . Could it be that Louise Lenerich might be color blind. She says she bought a white parakeet, but it turned out to be a blue one. . . . Nellie Wendt is home from the hospital and is doing fine. . . . Edna Mapes became grandmother for the eleventh time, but who would believe it. She says she gets five years younger with each grandchild and she looks it, too.

## SPECIALTY MOTORS

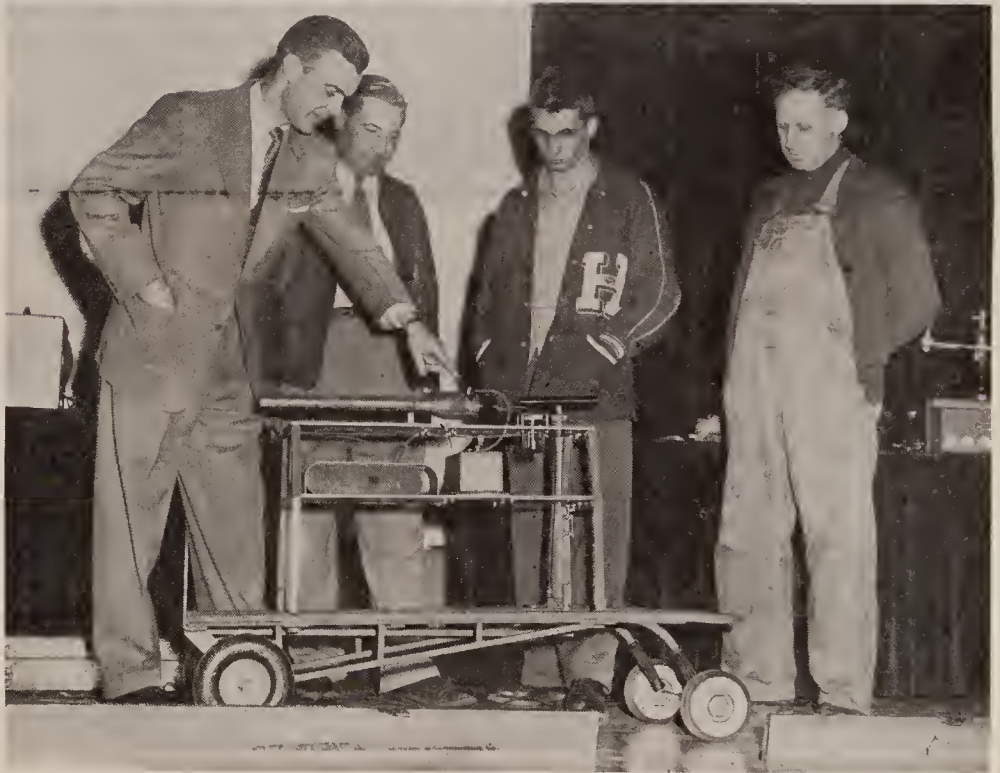

Shipping—Receiving—Order Service  
by Mabel Fisher

Xercie Sinish visited with us Monday. She is fine and reports her husband is on the road to recovery. . . . Ruth Ann Bentz is back after an illness. . . . George Hill received another Gold Star last week. . . . Theodore Paul has arrived at the home of his parents, Ted and Audrey Betley. He arrived Saturday at the Parkview Hospital. Audrey used to work with us. Best wishes Ted, Audrey and Little Ted. . . . Helen Brown got TV eyes watching her brother's TV. Saturday her own set arrived. We will all be over, Helen, to watch Liberace with you. . . . We are wondering if Art Walda, Addie Leuenberger, Sophie Jessie, Buck Buchan, and Elsie Brecheiser (pensioners) ever read this column. . . . Imagine Dorothy Reinking's amazement when she got to the office thinking she was 10 minutes late and there was no one around. She took another look at the clock —7:10.

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

We would like to welcome all the new faces, that are in the office. Some came from Bldg. 26-4 and the others from Bldg. 26-2. Changing floors has confused Bob Mann. He will have to read the signs on the doors before entering "those rooms." . . . Sam, you don't have to worry about your two-toned outfit. It looked all right. . . . We will agree on one thing: Bob Wiehe needs a new clock. . . . Ray Loveless will be a year older Feb. 27. "Happy Birthday," Ray. . . . So long and good luck to Pat Dennis, who is joining her husband in Los Angeles. . . . Charlie Whithern, who retired a few weeks ago, paid us a visit. . . . Frankie, why did you get up so fast? Was your chair hot or something? . . . We are beginning to worry about

JET PROPULSION is illustrated and explained by "House of Magic" lecturer Frank R. O'Keefe to Wellington Blalock, Bldg. 26-5; his son, Grover Blalock, a senior at Hicksville High School, and Ernest J. Yost, Bldg. 8-1.

## SPOT LIGHTS

BLDG. 4-2

by Estella Pettibone

Birthday greetings to Don Muckenfuss and Tom Zolman. . . . Special from Bldg. 6-2: Mike is having a difficult task choosing what clothes to wear since "Dollar Day." He added to his wardrobe two suits and two ties. We can visualize the O'Grady household each evening. The five younger O'Grady's, ranging in age from 6 to 18, Maralyn's boyfriend, Tippy (the dog), the parakeet, and Mrs. O'Grady with Daddy Mike, the

model, deciding what he should wear the next morning to keep up his "Beau Brummel" appearance. . . . Will someone tell Charlie Rinebolt how to tell a private lake from a public one? Recently he was fishing very successfully when a man appeared and in no uncertain terms informed him he was trespassing. . . . Whitie Bender and Paul Beaver seem to be losing all of their noon games to Dee Confer and Park Schemehorn. . . . Harry Seibold and Ferdinand Crick, two of our pensioners, recently visited the floor. We are all happy to know they are enjoying their new activities. . . . Congratulations to Alice and Mr. Jack. Alice returned

to work, the proud mother of a baby girl. . . . Alice Robinson has a new grandson. However it isn't a new experience for her as this is her ninth grandchild. . . . Ed Glusenkamp says it would not be a complete day if Pat O'Brien forgot to insult him. However, he does not mind being insulted by an "Irishman." . . . In the Waynedale Lutheran Church, Feb. 14, at 6:30 p.m., Imogene Meyer, attended by her sister, Verna, became the bride of Elmer Schumn of Willshire, Ohio. She was a beautiful bride in a gown of white lace over satin.

Failure is the line of least persistence.

## TOOL BITS

BLDG. 19-4 and 5

by Howard Demsey

Norm Jackemeyer is now a firm believer in the statement that you are six times safer on the job than you are at home. While putting up an awning recently he almost drilled a hole in his finger and then, while moving his ladder, a hammer that he had left on top fell down and hit him in the mouth. . . . We hear that Dale Eddington is getting along well and hopes to come back to work soon. We hope you can, Dale. Some of the boys went down to Bluffton to see Dale in Ralph Steward's car last week. The riders all agreed to help pay for the gas, in pennies. Ralph is still hunting for the last of the loot in his car. . . . Gerry and Mrs. Widner saw one of the outstanding basketball games in the country last Saturday night when they watched Indiana U. defeat Michigan State by two points. Mrs. Widner's brother plays for Michigan State which made the game more interesting for them. . . . Del Stickler just loves gravy so the other morning he saw a bowl of it in the refrigerator and also some baked beans. Del figured this would make a tasty breakfast so he mixed the two and sat down to eat. After the first bite he found out the gravy was mushroom soup but he ate it anyway. . . . Jim Paxton has been helping out in the mold section the last two weeks. . . . When Dallas Kees turned on his TV set the other day all he could get was a blank screen. He was ready to call the repairman when the mechanic of the family (his wife) solved the problem by plugging the cord into the outlet. . . . Gus Ausderan called the TV repairman out to look at his set again but this time he made sure there was trouble before he got there. . . . There is a wild look in the eyes of Bob Niles these days. But no wonder, he's thinking of buying a Cadillac. . . . Welcome to Paul Jones, our new tool crib man on the second shift. . . . Ed Bashop drove down to Ft. Leonard Wood, Missouri, over the week-end to see his son who is stationed there in the Army. . . . Earl Lenz is a gallon blood donor. . . . Clarence Meeks was afraid he had lost some insurance papers last week and had about given up finding them until he remembered he had slid across his car seat to get out on the right side. There they were between the seat and the door. Clarence was ready to buy some insurance against losing his insurance papers. . . . Eric Bluhm had to dig out his insurance papers over the week-end when someone decided they needed two fender skirts like he had on his car. . . . Louis Peduto's car was recovered and returned to him the day before he left on his honeymoon. He picked up a beautiful suntan while touring Florida and Cuba for two weeks. . . . Dick Arnold is recuperating from an operation and we all wish him a speedy recovery and return to work. . . . George Luker has bought a 1954 Chevy to make the daily drive from Spencerville to GE. . . . Dan Knepper met with an accident at home while looking for wood-worms to go fishing. He was leaning on a log when his son hit him in the hand with a hatchet. We hope you are all healed up and back at work soon, Dan. . . . Ike Rea of the planning expansion unit has mouths watering when he unveils the pecan pie his wife puts in his lunch. . . . Frank Lebrecht and Walter Greiner happened to be in a grocery at the same time the other day and when Frank was ready to go through the checkout counter he found all

kinds of articles in his cart that he didn't want. Frank thinks the initials of the guilty party are Walter Greiner. . . . Ed Kammeyer arrived at work the other day wearing his wife's glasses. He said he had to rush them home for his wife. You didn't have your seeing eye dog along that day, did you, Ed? . . . We hear that Jim Mattes and "better than 200 bowler" George Horner are buying a so-called choice beef from Mart Walsh. This recalls the time years ago when Mart traded a horse to Paul Weaver for 100 bushels of corn. Bright and early in the morning three days later Paul found old "Nell" dead. Reason for death was given as sorrow and grief at leaving the Walsh Ranch. . . . They also recall the time Frank Hoffman bought a quarter of beef from Walt Elliot and it was so tough Frank ended up giving most of it away. Frank even questioned the seller of the rubber beef to find out where he had gotten hold of a rhinoceros. . . . Joe Mettler is still a little unfamiliar with his TV set according to Don Alcott, who was a guest viewer. Don tells us Joe was trying to get Fort Wayne's channel 33 with his set tuned to channel 13. . . . Archie Gwaltney was proud of Elmhurst after they whipped Woody Hursh's Leo Lions last Saturday. Woody's only excuse was that Leo was using all their subs in order to build next year's team.

## SMOKEHOUSE SAYINGS

BLDG. 22

by George Winans

Charlie Castle left on the Trailblazer last Tuesday for New York. He said he was going to see the bright lights on Broadway and take in a few of the big night clubs. Above all Charlie said he wanted to watch those skyscrapers work. . . . Mildred Messer, our office steno, was telling us about a jar of delicious pickles she had purchased the other day. "Simply grand," she said, "Heinz 57 varieties." But she just didn't see how it was possible to put up pickles

**RADIO AT RETIREMENT**—Peter Schible displays a gift from his General Electric friends during a party honoring him at retirement. Burdell O. Smith helps him hold up his gift. Mr. Schible was a punch press operator in Bldg. 4-1 when he joined GE in 1926. He was employed at Taylor St. before retiring.

**RECEPTIONIST RETIRES**—Hilda Mueller, former GE receptionist at the Bldg. 18 gate, was thrilled by "the most pleasant gift I ever received," when she was presented with a television set from her many friends at General Electric. The gift was presented by A. R. Vegalues (second from left) and Lisle D. Hodell at her home this month. Miss Mueller's mother is shown at left. Miss Mueller is retiring after being an employee of the General Electric Company since 1919.

57 different ways. . . . Nearly everyone was carrying blankets home last week after that big sale at the employee's store. Millard Wells and I were talking about the blankets when he suddenly remembered the faulty electric blanket he has at home. "I have to bring it in," he said, "but everytime I mention it, my wife, Mary, says there's no hurry." I couldn't understand why she wouldn't be in a hurry to have it fixed. "Well, you see," says Millard, "it's one of those dual control blankets and it's just my side that is burned out." . . . Here is a grocery advertisement that the Fruit House ran in the Fort Wayne Morning Gazette, August 18, 1876. Tea, 25 cents lb.; Eggs, 10 cents doz.; smoking tobacco, 25 cents lb.; whiskey, \$1 gal.; Arbuckle's high grade coffee, 20 cents lb.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

Nice to have Ed Harrison back on the job after his recent operation. . . . Magdalene Perrey's small grandson told her off. She was taking care of him, and as you people know, all children will get into mischief. The more Damon would misbehave, the more Magdalene would reprimand. Finally Damon couldn't take it any more. He put his small hand firmly over Magdalene's mouth and said, "Grandma, you say too many words." . . . Yes, Howard Rohr, I agree with you. The telephone is a great convenience (when you can get through). . . . Jim Blake asked me what I was going to do with my overtime money. How else do you think I'm going to be able to pay for the eggs that you sell me every week. . . . Welcome to John Scharf and Ralph Hodgins, two of the new Test Engineers. Hope you like it here. Also we're throwing the welcome mat out to Eleanor Deler. She is replacing Carole Chalmers. . . . Roy Brown, a retired GE pensioner now living in Fort Lauderdale, Florida, sent yours truly and several others on Assembly floor some nice calendars. Thanks "Brownie." Is that your place of business that was advertised on the calendars? I noticed it said "Free Delivery." You can send me one anytime. . . . Rose and Bill Billue have one smart cat. Bill was looking for some scraps of wood and spied a mouse nearby. So Bill called kitty to do her duty. The cat held back, waiting for the right moment, with her mouth hanging open. All of a sudden the mouse jumped out of a box and landed right into kitty's open mouth. Kitty remarked, "Nice work if you can get it." . . . Spring can't be too far away. Don Kee has a supply of flower seeds that he brought into the shop. Don't get me wrong now, Don doesn't need the extra money. He's just helping his daughter sell them for her school project. . . . Sorry to hear that Paul Schladenhauffen has been on the sick list. Hurry back, Paul.

It often shows a fine command of language to say nothing.

## FG MOTORS

by Mary Wright

Congratulations to Rachel Jackson. Rachel has a new granddaughter, but she says that isn't news to her because she now has 22 grandchildren. Rachel, you will have quite a job if you spoil them all as they say grandmothers do. . . . We want to welcome Jean Flohr, Madeline Lake, Mary Kennie, and Edna Harth to our floor. Glad to have you with us. . . . It doesn't look like spring is just around the corner with so many people taking home wool blankets. . . . Lucille Miller is back after a week with the flu bug. . . . Verda Deal informed me that I should have bought a theater instead of a 24-inch television set. Maybe she doesn't know that I am going to charge admission to see it, or at least charge her.

## RACONTEUR

SECTION 114 TAYLOR ST.

by Luana Oehlhasen

Carl Miller informed some of the boys that his wife purchased a new pair of hose on "Dollar Day" for \$1. When she started to put them on, she noticed a sales tag which read 89 cents. . . . Valentine's Day was Everett Mullin's birthday and he appeared to be sadly neglected as far as valentines were concerned. Too bad he didn't tell us sooner. . . . The inevitable has finally happened. Buck and Kitch were skunked the other day during the noon euchre games. The "Top Two" have been giving lessons on how it should be done and, lo and behold, the pupils became the teachers. . . . Duke Doepeke, "Mr. Basketball of Sec. 114," won a game for the Sandpoint Merchants last week and didn't even play. For particulars, see Duke. . . . Herb Toms has decided to start a bus route between Fort Wayne and Lake Gage. He has a bus, and as soon as he gets a license, he will be in business. . . . Famous last words by Ed Hines, "Next time Walt Niemeyer's bowling average will not be ahead of mine." . . . On Monday, Feb. 15, Paul Fremion beat Walt Niemeyer, Fred Vogt, and Ed Hines. And get this, Paul hasn't bowled for five years. We hear he looked in the Journal-Gazette to see if he made the sports page. . . . We are all glad to have Rosie Koons back with us again. . . . Lou Anne Beauchamp dropped her lunch on the bus the other day, and a man very obligingly stepped on it. How were your pancakes, Lou Anne? . . . Welcome to Keith Kalb, a new employee in our cost section. . . . Welcome back to Dorothy Money, who has returned after being away from us for 3½ weeks. It sure is good to see her smiling face. . . . He's handsome, he's lovely, he's engaged. Guess who? Frank Conley. Congratulations, boy. . . . Paul Smith is a very happy man this week. His son, Neal Smith, a lieutenant in the Army, has returned after being stationed in England. Paul still has another son, Vernon, in Korea. . . . Mike Brayer is a proud papa. His daughter, a senior in high school, was voted the most co-operative in her class. Congratulations. . . . Our Mr. Reynolds is sporting a new brown suit, and he looks pretty cool in it. . . . That man who has the new look around the waistline is our own Ralph Fishback. He didn't break that New Year's resolution after all. . . . Earl Greenlee is already for March and St. Patrick's Day. He has a green shirt that is real gone. . . . Many a man's reputation would not know his character if they met on the street.

# SET YOUR CLOCK for a good breakfast!

Say "Good Morning" to yourself with a good breakfast. This is a recipe that offers insurance to the individual and others around him for a good day and a zest for living.

The most important meal of the day and the most neglected one in American homes is breakfast. This is the meal that more than half the citizens in the United States vote "most likely to skip" in national polls.

This isn't a very good tag to place on the meal that should supply about one-third of the daily food needs of every person. In the quick pace of American life, an enjoyable breakfast is a thing of the past and we have become a group of coffee and doughnut eaters. Breakfast has become the forgotten meal.

Alibis including "I'm not hungry," "I'm on a diet," "I don't have time to prepare a big morning meal" have taken the place of a well-balanced morning meal. Unfortunately, there isn't much food value in alibis. Nutritionists' charts show that it is difficult for a person to skip breakfast and still get all the food requirements he needs daily.

Everyone can contribute to his zest for living by having a well-balanced breakfast. Starting the day with the best foot forward, a complete breakfast should include fruit or fruit juice; cereal and milk and/or an egg, bacon or other meat; bread or toast; butter, and coffee or milk.

## Vary the Menu

Variety spices our lives and we can add to the spice of breakfast by varying the dishes within these basic foods. Just as a person looks forward to lunch or dinner, so habit can cause him to anticipate a good first meal of the day, and seek interesting and appealing foods to eat then.

By getting up in time to enjoy a good morning meal, a person better prepares his body for the day. Nutritionists maintain that skimping on breakfast may create a greater appetite at other times of the day and thus be responsible for the surplus weight of millions of Americans.

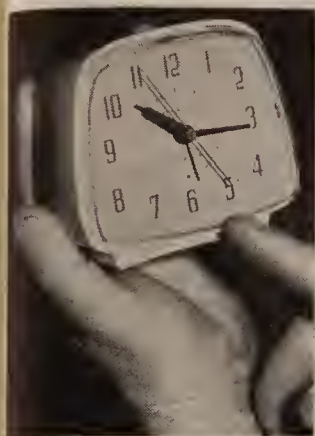

## Why Bother?

Why go to all the trouble to get up in time for such a big meal? If you feel that mid-morning slump and lack of interest in anything but resting for a little while, you have the answer. Statistics tell that the body has gone without food for from 10 to 15 hours and whether a person realizes it or not, his body is low on food stores that need to be replenished. Health authorities believe that the accident rate occurring between 10:30 and noon is partly brought about by insufficient breakfasts and the resulting slower reactions.

Breakfast can be a good companion to take with you when you leave home in the morning, so treat yourself to a good breakfast.

"GOOD MORNING, HAVE A GOOD BREAKFAST," advises Alta Franklin, Bldg. 26-4, and make the day a more pleasant one. Alta is beginning the day with a well-balanced breakfast.

IMITATING DAGWOOD by gulping down a small breakfast and running for the bus is not a good way to start out the day, says Ralph McKeefer, Section 417, Taylor St.

## WINTER STREET JOTTINGS

by Alma Elliott

The welcome mat is out this week for: Virginia Worden in Employee Relations; Jackie Cutler in Order Service, and Maureen Murtough, our new mail girl.

Congratulations are due for Witheral Ewart who was married last week, it's now Witheral Ramsey. Also congratulations to the J. Stafford's and their new addition to the family, James, Jr.

LOST: One can of pipe tobacco. If anyone finds it, please return to Ross Soday. What's the matter, Ross, having a hard time keeping up with the Jones boys?

Don't you think Henry Mutschleiner has been overworking a little? It's been reported that one day last week he was so absorbed in his work that he got up from his desk, walked across the room, came back, sat down at a desk and began working again. He snapped out of this spell only to find that he was sitting at Charlie Lammimon's desk and not his own. Strange things are happening.

Latest news report: Everyone down on the first floor can once more get back to work and stop searching through his desk for Carl Seyboldt's Eversharp that "some one must have borrowed." Guess where it was found? That's right, at home in Carl's coat pocket.

Have you noticed how dainty and lovely the marketing girls keep their hands looking? It seems they have paid attention to the advertisement that has slowly been traveling through the department. It was a picture of a gruesome claw (hand) and with words under it reading, "You, too, may have lovely hands, use Jergens Hand Lotion twice a day."

Carole Calkins and Gerry Coyne spent last week-end in Buffalo, N. Y. It really sounds as if they didn't want to come home, especially when they were leaving Buffalo and Gerry told the conductor they were going to Buffalo.

We are sorry to hear of the death of John Leininger's

mother. . . . The Flex Club girls are going to Chicago this Saturday. Have a lot of fun, girls, and don't forget to come back home.

## APPRENTICE BROADCAST

by James Schwartz

"Wee Willie" Scheimann has proved to be unexcelled as a euchre player. The other day he ordered up the right bower into his opponent's hand and then boldly stated he would play it alone. . . . Ned (Yardley) Speheger has really come up in the world. He was seen cruising with his girl in a 53 Cadillac Coupe de Ville. . . . Congratu-

lations are in order for Mr. and Mrs. Robert Rietdorf, who became the proud parents of a new baby girl named Gail Sue. . . . A hearty welcome to John Ellenwood and Ronald Young. These boys have enrolled in the school as machinist-toolmaker apprentices. . . . We also want to welcome Les Watkins. Les is enrolled in the manufacturing training program and is on his first assignment in the apprentice school. . . . We want to wish the best of luck to Walter Wolf on his forthcoming venture. Walter is leaving tomorrow to spend a three week vacation in Florida. . . . We have a very distinguished gentleman in the apprentice school. Francis Harter was appointed official scorekeeper for the Churubusco grade school tournament.

## SCIENCE QUESTION BOX

by SCIENTISTS OF THE G.E.  
RESEARCH LABORATORY

Q. How deep under water can a carp live?

A. The U. S. Fish and Wildlife Service tells us that there is no reason why a carp cannot go to any depth, provided there is enough oxygen in the water. Some carp may go to the deepest parts of the Great Lakes, which are more than 1200 feet. However, the carp is a warm-water fish. It prefers to live in shallow water bays where the water is warmer and the food more plentiful than in deeper sections. Also, the fish is a bottom feeder and most of such bottom food is produced where the water is shallow. Hence, carp are more likely to live in shallow than in deep water.

Q. What was the most severe earthquake ever recorded?

A. Among earthquakes recorded on seismographs, two different quakes are tied for first place from the viewpoint of severity. One occurred in January, 1906, in the Atlantic Ocean off the coast of Colombia; the other was in the China-Burma-India region in August, 1950. On the earthquake intensity scale, by which the mildest quake is represented by 1 and the most severe possible by 10, these were rated by seismologists at 8.6. A very destructive quake that spread ruin over 9000 square miles at Assam, India, in June, 1897, has been estimated to have been as much as 8.5. The shock that occurred at Lisbon, Portugal, in Nov., 1755, is considered the greatest in history, and its magnitude may have been as much as 6.8 to 9.0.

Q. Can nitrogen from the air be utilized by man, in fertilizers and other applications?

A. Yes, the air is an important source of nitrogen. In the roots of plants known as legumes (such as peas and beans) there are bacteria that have the power of taking nitrogen from the air for the use of the plant. Also, thunderstorms over the Earth are responsible for extracting an enormous amount, estimated at 1,500,000,000 tons annually. The lightning discharge causes nitrogen and oxygen in the air to combine and form nitrogen dioxide, which in turn combines with water in rain to form very dilute nitric acid. On the ground this may then combine with limestone to form calcium nitrate, which may serve as a fertilizer. In the last fifty years several processes to extract nitrogen from the air artificially have been developed and are now in wide use.

Q. Is it possible to calculate the distances between the stars?

A. Yes, knowing the distance of two stars, and the angle in the sky between them, it is possible to draw a triangle with the stars at two corners and the Earth at the third corner. We know the angle at this third

corner, and the lengths of the two sides adjacent to it. Then, by trigonometry, the length of the third side can be determined, and this is the distance between the stars. In the case of the well-known "pointers" in the Great Dipper, the distance between them is about 30 light years. Dubne, the pointer toward the pole star, is about 105 light years away, while Merak is closer to us at about 76 light years.

Q. Do some of the moons of Jupiter revolve around the planet backwards?

A. Yes. Jupiter has twelve known satellites, or "moons," and the four outermost revolve in a direction opposite to that of the others, and to that in which Jupiter and the other planets revolve around the Sun. The reason for this is not known. According to one theory, these are captured asteroids, or tiny planets a few miles in diameter. Thousands of such asteroids revolve about the Sun, mostly in paths between the orbits of Mars and Jupiter. If one should happen to get close enough to Jupiter, the gravitational attraction of the body might pull it out of its normal path so that it would become a satellite, revolving around the planet.

Q. What would cause an explosion of a cake frosting in a double boiler? It was being beaten with an egg beater when the explosion occurred.

A. It might have been due to the fact that, by pressing down on the upper part of the double boiler with the egg beater, you tightly sealed up the lower section, so that steam was unable to escape. Thus, the pressure would have an opportunity to build up enough to cause an explosion. If you are going to press down on the egg beater, it would be well to insert a match stick, or something similar, between the upper and lower sections; then the steam can escape as it forms.

Q. What is Stonehenge?

A. This is a famous prehistoric monument, on Salisbury Plain in England, consisting of four groups of stones, which were originally vertical, some as high as 22 feet. The outermost group, a circle, is 100 feet in diameter. The next group is also circular, the next is horseshoe-shaped and the innermost is oval. The axis of the horseshoe points toward the place where the Sun rose at the summer solstice, the beginning of summer, about 1800 B.C. Thus it is believed to have been used at that date in some religious festival celebrating the solstice, when the Sun is farthest north. Other evidence that it was built about 1800 B.C., comes from pieces of charcoal found under some of the stones. Measurements of minute amounts of radioactive carbon they contain yield a similar date, which is also the date given by archaeologists, based on other studies. This would have been at the end of the New Stone Age in that part of the world, prior to the Bronze Age.

## Two-Way Radio Enters Stock Car Automobile Racing Profession

Daytona Beach, Fla.—Two-way radio has entered the stock car automobile racing profession.

Mobile radio transmitting and receiving equipment supplied by the General Electric Company of Syracuse, N. Y., has been installed in two stock racing cars and their service truck by Ernest Woods, owner of the Woods Motor Company in Richmond, Ky.

Communication experiments with the radio-equipped racers will be conducted at the fifth annual Speed Week, sponsored by the National Association for Stock Car Auto Racing (NASCAR) here this week.

Woods believes the new radio installations will be "the greatest safety device ever brought to light in auto racing history, both to the drivers and to the public."

He said the radios should make it possible for him to alert his drivers of impending danger on the track ahead, which might affect the safety of both spectators and drivers, and also inform the drivers mechanical troubles apparent from the pit, but unknown to them. In addition, Woods' drivers can use their radio phones to alert each other of dangerous situations.

Woods, whose radio-equipped cars will compete in all major NASCAR Grand National Circuit races across the nation this year, pointed out that it is necessary for cars to stop during the 100-mile and longer races for fuel and tire changes, in addition to possible emergency repairs.

Drivers must have a means of communication with their service crews, both for servicing, and for lap and position information. Until now, this communication has consisted only of sign language and a blackboard held up by the service crews.

"It is obviously difficult for a driver to read a blackboard, or converse in sign language, as he passes the pit at more than 100

miles an hour," Woods said.

The new radios should greatly speed pit stops for service, because the service crews will know in advance exactly what the driver wants each time, and can be prepared to act immediately. In addition, the radios are expected to provide Woods' drivers with instant and reliable lap and position information, without removing his attention from the race track.

The GE radios are a new type, developed especially for use by industry on materials handling vehicles. They are smaller, lighter and more rugged than previously available units. They operate on either six or 12-volt ignition systems, without special generating equipment.

## Push-Button Defroster Announced by Company

A new temperature control and push-button defrost for domestic refrigerators has been announced by the General Electric Company's Appliance Control Department. Providing standard thermostatic action, the new device also initiates and automatically terminates forced defrost.

The 3ART2 control, designed to enable the housewife to defrost the refrigerator whenever it is required, automatically resets for recovery to normal operating temperature. The push-button actuator may be mounted integrally with the cold control, or at an independent location on the appliance.

GIFTS AND GOOD-BYES—Hovy Schrader (left) is shown receiving many gifts at his retirement party earlier this month. Mr. Schrader joined the company in 1919 on motor repair work in Bldg. 20-1. At retirement he was a punch press set-up man in Bldg. 26-1. Saying their farewells are (l-r) Eugene Cecic, Philip Ohmart, Tom Runyon, and Ned Trout.

# Gladieux, Dickey Pace Owls To 53-24 Win Over Eckrich

by HOWARD COLBY

The GE Owls stretched their winning streak to 16 games last Thursday morning when they defeated Eckrich, 53 to 24.

In a low scoring first quarter, in which GE scored three baskets and Eckrich hit from the field only once, action was somewhat slow but rugged and hard-fought to give the Club a 6 to 2 lead.

GE picked up ground in the second period as they scored 13 points on 5 baskets and 3 foul shots. Eckrich was held to 1 field goal and 2 free throws to give the Club team a 13-point bulge at the end of the first half with the score, 19 to 6.

Eckrich showed signs of coming back in the third quarter when they scored 13 points while Coach Benny Penkul's squad was held to a single field goal and 7 free throws for a third quarter score of 28 to 19.

Fire broke out in the fourth quarter when Gladieux and Dickey paced the GE Owls in a 25-point splurge. Dickey hit from the field 4 times; Gladieux, 4 times plus a free throw; Etter, 2 field goals; and Ron Blodgett, a field goal and 2 free throws. The best that Eckrich could garner was 5 points. This left the Club team with a 53 to 24 victory and their 16th straight win.

Next Thursday morning at the Club gym, GE meets Indiana Rod, who have lost only one game in the second half and that loss was to the Club team. They meet in the opener at 9 a.m.; Eckrich plays Salisbury at 10 a.m., and Aircraft Gear meets Zollner at 11 a.m.

## SECOND HALF STANDINGS

General Electric	W. L.
Indiana Rod and Wire	5 1
Aircraft Gear	3 3
Zollner	2 4
Eckrich	1 5
Salisbury	1 5

GE	G. F. T.	Eckrich	G. F. T.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

Anyone having an old used washing machine for sale contact Woody Winters. He is paying \$15 for them. . . . Congratulations to Myrtle Cramer on her 33rd wedding anniversary. We're wishing you many more happy ones, Myrt. . . . Rachel Milligan's nephew was up to visit her last week from Ft. Custer so she had him baby sit for her. . . . Birthday greetings to Martha Bennett and George Snyder. . . . Walter Fair, our helper, has retired now to enjoy life. We hope he has many years of enjoyment, but we'll miss his smiling face around here. . . . Welcome to Bernadette Lake and Henry Betley, who have joined our section. Ruby Stuckey is glad to be back among us again. . . . Congratulations to Stella Colman on her engagement. When is the big event, Stella? . . . Elsie Dunfee must have been day-dreaming when she locked herself out on the airing porch. She had to crawl in the house through a window. . . . We hope Louise Rinehart's brother-in-law gets along fine at the Veterans' Hospital. . . . There is a real feud going on in the group

# Squares Edge Firemen 48-41 In First of Three-Game Playoff

In the first game of the Interdepartment basketball playoffs to determine the winner of the second half of play, the Squares defeated the Firemen Thursday, Feb. 18, in the first of three games set up for the two finalists.

The Squares won by a score of 48-41. They secured the winning margin in the closing minutes of play. At the end of the first quarter the Firemen led 14-9.

Second quarter play resulted in Bob Baals, of the Firemen, receiving a broken nose in a struggle for possession of the ball. The Firemen continued to lead at half-time by a 21-18 margin. The Squares' Gil Carl paced the victors in the third quarter with 9 points and they ended that stanza one bucket ahead of the fire boys, 37-35.

Don Edam was high scorer for the winners with 16 points and Gil Carl followed closely with 15. Rietdorf and Morkoetter tallied 15 and 11 points respectively for the losers.

Squares	G. F. T.	Firemen	G. F. T.
Miller	3 1 7	Penkul	2 3 7
Krasienko	1 1 3	Lee	0 0 0
Carl	4 7 15	Morkoetter	4 3 11
DeJean	1 1 3	Timbrook	0 0 0
Edam	7 2 16	Werly	1 5 7
Spiker	0 2 2	Baals	0 1 1
Antalis	1 0 2	Rietdorf	6 3 15
Rescorla	0 0 0		
Totals	34 14 48	Totals	26 15 41

The second contest was conducted last evening at the GE Club.

## Small Motor

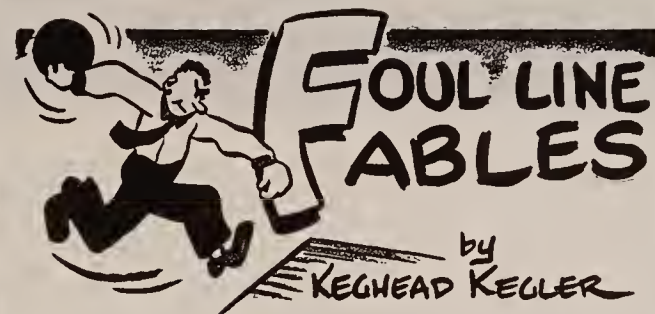

Two Legs Clothes are in the top spot with 14 wins and 4 losses. Test has won 11½ and lost 6½. S and S has won 11 and lost 7. G-Men have won 10½ and lost 7½. Carl Brandt rolled a 6-5 on games of 178, 193, and 234. Bob Guingrick collected a 2-4 and Herman Conrad, 202.

## Office

With a record of 14 wins and 7 losses Motor Generator is leading the Office League. In a tie for second place is Pawlisch Shoe Repair and Transformer, each having won 13 while losing 8. Charlie Townsend kegled a 233; Johnnie Johnson, 225; Carl Hattendorf, 215; Clarence Rump, 208; and Denton Manecke, 204.

## Ladies' Monday Night

Scatterpins are leading the league with a record of 16½ wins and 7½ losses. Twisters and Holeyrollers are tied for second place, each with 16 wins and 8 losses. Keglerettes are in fourth place with 12 wins and 12 losses. Dot Fuhs kegled a 525 series on games of 158, 175, and 192. Donna Schooling rolled a 198. Ann Lee had a 170; Maxine Root and Ilo Matter each converted the 6-7-10 split. Dot Fuhs and Kay Bade converted the 5-7 split. Holeyrollers rolled the high single game, a 818 score.

In the GE Owl League bowling Saturday morning at the GE Club, we find Team No. 8 leading the league with 12 wins and 3 losses. Team No. 3 has won 11 and lost 4. Teams No. 2 and 5 are tied for third place with records of 10 wins and 5 losses. Paul Billman scored a 651 series on games of 246, 216, and 189. Serge Shuster converted the 6-7-10 split. Larry O'Shaughnessy kegled a 215 count.

## GE Fraternal

West End Restaurant with 11½ and 6½ retained first spot by taking 2½ to one-half from the Elks. A. Zeltz with 635 was best for the food servers. Riverview Gardens blasted Teeple Truck Lines from the top co-holder position by winning 3 from the truckers. C. Oetting's 603 outweighed E. Fulkner's 603, and C. McIntosh's 603. Riverview now has second place at 11 and 7, while Teeple's have been pushed back to a tie for third at 9 and 9. GE Club came up with a great night and toppled the tough Peterson Elevator outfit 3 games.

The Club now is tied for third at 9 and 9, while Peterson is one spot back at 8 and 10. Last place K. of C. trimmed Monroeville 2 and 1. Monroeville now has 8 and 10, while K. of C. is close on their heels at 7 and 11. 200 scores were rolled by R. Ladd, 223 and 202; O. Schultz, 201; G. Strickler, 212; L. Ulman, 207; F. Wolpert, 202; J. Murphy, 203; C. Crates, 200; D. House, 210; J. Beery, 200; G. Laurent, 205; E. Bultemier, 202 and 205; E. Reinking, 204; and R. McClanahan, 223.

## Apparatus

Team No. 1 talked Team No. 2 out of 3 games and first place. Bob Branning with a constant stream of chatter and a dense fog created by a good 5-cent cigar, played the largest role in the defeat. Team No. 1 now is tied with Team No. 4 for first place, each having won 9 while losing 6 games. Team No. 2 has won 8½ and lost 6½. Rose Smith rolled a 247 count, good for top honors in the league to date. Horm Westrick scored a 230; Paul Boedeker, 223; Joe Kramer, 212; Bob Stute, 203; and Don Greenler, 200. Lyle Claphan converted the 5-8-10; H. Geise, the 5-7; and Harold Lehman, the 3-9-10. Lyle (Crossfire) Claphan rolled an Alley 11 and collected 5 pins but one pin flew to Alley 12 and scored a strike.

## Men's Factory League

The Office edged out 3 wins over the Flanges and took over undisputed possession of first place. The young Rotors again rose up and beat the Stators 2 and 1. The Office now have 10 wins and 8 losses. The Stators and Rotors are tied at 9 and 9, while the Flanges were relegated to the bottom with 8 and 10. Seph Jackson rolled a 211, while G. Laurent had a 201 for top scores.

## Boners Walk Off With Top Prize In Mixed Doubles

Shooting 135 pins over their averages the Boners (Mr. and Mrs. Bob Boner, that is) walked off with first place and \$20 in the Mixed Doubles Tourney last week-end. They had games of 415, 419, and 426, for a 1260 total which included a handicap of 312 pins.

With Eugene LeFavour's 576 on scores of 164, 210, and 202, he and his partner, Ann Lee, captured second place and \$15. They had a 1250 total including a 234 pin handicap.

Winnie Scheurich and Joe Kramer took third place and \$13 with a 1237 total which included a 219 pin handicap.

Other winners are as follows:

	Prize
Justine and Ray Brown	\$10.00
Ida Yahne and Walt Rietdorf	8.00
D. Ramsey and Erv France	6.00
D. Stellar and Robert Younghaus	4.00
T. Hickman and Percival Moore	4.00

Top total of the evening was a 614 by Erv France on games of 163, 203, and 248. Other high scores were Winnie Scheurich, 203; Justine Brown, 202; Ray Brown, 210; Ida Yahne, 210; D. Stellar, 178; Bob Younghaus, 201; T. Hickman, 181; Ann Lee, 177; Carl Hattendorf, 204; R. Burnett, 207; Del Bucher, 206; Jim Meeks, 201; Liz Scherer, 176; and Don Kaiser, 201.

## Fencing Classes In GE Club Gym Friday Evenings

A schedule of dates when fencing instruction will be given at the GE Club was announced this week. The weekly meetings are open free of charge to any employees interested in learning the fundamentals of the sport.

Classes, which will be from 7 to 9 p.m., are slated for Friday evenings throughout March and April.

Those planning to attend the series should wear gym or rubber soled shoes. Joe Bahr, Bldg. 20-1, will instruct the classes. If enough interest is shown, a GE Club fencing team will be formed to compete with other city teams as well as out-of-town teams.

17x700 between Bob McMillen and Dallas Patton. One tries to outdo the other for a real treat. You ought to see their fingers work. . . . Bill Miller, our inspector, was bowling them over in the Decatur bowling tournament. He had games of 235 and 209.

## DECATURITES

by George Laurent

**BASKET BAWL-BAWL-BAWL!** There's plenty of enthusiasm in the plant this week over the possible winner in this year's sectional basketball tournament. I can't blame our GE fans for following and doing a little boasting for their favorite. Here's just a few of the favorite reasons why GE people are all worked up: On the Decatur Yellow Jacket squad we have Roger Pollock, son of Harriet Pollock; Freddie McDougal, son of Mickey; Johnny Neireiter, Dan Neireiter's son; and Bill Hancher, son of Paul Hancher. The Decatur Commodores boast of Johnny York, Marie York's son, and Walt Mowery, brother of Bill and Helen Mowery. The Geneva Cardinals' main press agent is Walter Tester, whose son is a mainstay on this fine team. Monmouth's tough Eagles has Stew Schnepf, brother of Dort Schnepf, besides Harry and Jim Myers and Dick Harvey who have several close relatives at the plant. . . . While Indiana is having their hot time, let's look across the state line into Ohio and give recognition to the Willshire aggregation which boasts of Gary Kesler, son of Walter Kesler, and Jack Stetler, brother of Okaleah Stetler of Decatur Plant. The Ohio tourney also is in the midst of sectional eliminations. . . . Decaturites says, "Good luck to each and everyone of your favorites and may the best team win."

## THE NIGHT WIND SECTION 417 TAYLOR ST. by Hazel Davis

We're glad to hear that "Bing" Herron is recovering from his operation. We hope to see you back soon. . . . Coy and Joe Webber are sporting a new '54 Ford. . . . Bill Pappert finally made a full week. First time in five years, isn't it Bill? . . . Vera Fletcher had to go home to get more money to pay for her groceries this week. Well \$37.23 was quite an unexpected amount, wasn't it, Vera? . . . We wish a happy birthday to Wanda Score. The brownies were very good, Rita. . . . Jack Adams has a new Oldsmobile. Don't get excited

**READS ANNIVERSARY LETTER**—Oliver H. Bowman (second from left) reads a congratulatory letter on his 35th anniversary with General Electric to (l-r) Vic Hall, Kenneth Place, and Ralph Pettit. Mr. Bowman joined the company in 1919 as a lathe operator. He is a bench machinist in Bldg. 4-2 at the present time.

girls. Jack has a girl friend, or is it a wife? . . . The family of Thomas Dougherty is very grateful to all who helped to make their sorrow lighter. They wish to thank everyone who was so kind and so thoughtful.

## BLOOD DONORS

The following employees donated blood during the week ending Feb. 12:

James Edward Baker, Richard J. Hanson, Norman F. Jueschke, Charles E. Mereness, Miss Blanche Mulligan, Howard G. Reinking, Harry Burke Bolson, Wilson Garman, Ralph E. Clark, Mrs. Ruth Graft, George G. Hahn, Earl Lenz, Clovis E. Linkous, Mrs. Alberta Maher, John A. Marks, Albert V. Mason, Lowell Melser, Mrs. Grace Merchant, Miss Alma Merwin, Mrs. Margie Messer, Clarence F. Miller, Eugene H. Miller, Miss Gloria J. Miller, Clarence G. Nahrwald, Frank Newport, Miss Martha Newell, Charles Nord, Ersil J.

Norris, Eugene T. O'Keefe, Richard J. Poehler, and Elmer W. Sherbondy.

Mr. Ralph E. Clark and Mr. Earl Lenz are one-gallon blood donors.

## 6-4 AIRLINERS

by Moe Satterthwaite

Vi Elliott spent last week-end in Racine, Wis., where dollar bills stretch. She brought one back made of rubber. . . . Martha Engert is now driving a new Ford. . . . Andy Anderson must have been hot rodding his Olds 88 again last Sunday as he twisted off another drive shaft. . . . Little Pondo is a faithful hockey fan but last Tuesday night instead of the usual hockey game he took his mother

to the show. . . . Welcome to Ooley, who has come on days. We also have two new girls. Welcome to Ruby Cunningham and Edith Waite. . . . Merle Keesler has now one be prepared as Merle is going to invite us all out for a housewarming and refreshments. . . . This is to let Donna Hahn know that we know that she and Erv were caught flying too low over Mierceton about two weeks ago. . . . Paul Kingsley is the latest addition to the two gun playhouse. . . . Ruth Reed heard about the blanket sale last week and made a mad dash to purchase same. She got the blankets all right but she became excited on the way back and tripped and fell. Everyone around thought that she was trying the blankets out. . . . Doris Reek took a nice long trip to an Army base west of St. Louis.

## Squares Annual Bridge Tourney Starts March 5

The GE Squares Club will launch their annual bridge tournament Friday, March 5, at the Squares Hall. The tourney will continue on March 12 and 19 and is open to members and their guests. The event will begin at 8 p.m. Refreshments will be available.

Wendell Hughes, Bldg. 26-2, is serving as chairman of the contest and is being assisted by Art Pherson, Bldg. 16-3. Mrs. Hughes and Mrs. Pherson are assisting with refreshments and other arrangements for the event.

Prizes will be awarded at the conclusion of the tourney.

## More on Stork Derby

The Employee Benefits Services Department has accumulated some additional statistics on the recent "Stork Derby" during which time 190 infant share owners were added to the company's stock roll. In addition to the shares of stock valued at almost \$75,000 awarded to the GE babies born October 15, another \$20,000 was paid out to the proud parents for maternity benefits under company sponsored insurance plans.

Parents of 183 of the babies received payment of the maternity benefit under the GE Insurance program. The GE Insurance Plan for employees provides life insurance; weekly sickness and accident insurance; hospitalization, physicians attendance, and surgical benefits; and maternity benefits for women employees. The company sponsored plans for employees' dependents include, in general, hospitalization, surgical and maternity benefits.

Better than 98 per cent of GE employees are helping to provide themselves with health and life insurance protection under the GE Insurance Plan. This is a slightly higher figure than the percentage of employees and their dependents who received payment of the maternity benefit.

In only one case of the 190 did hospitalization of the mother extend beyond 10 days. The GE Insurance Plan for employees provides that in such cases involving complications, daily hospital service benefits are payable after the 10th day of confinement.

**PERFORMS LAST GE JOB**—"Business as usual" keyed Emilia C. Benton's last day at GE before retiring. Jim Goldsberg was one of her many co-workers on hand to wish her a pleasant retirement. She was employed in Bldg. 26-4.

# GE Club Bowlers!

on GE Club Alleys

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

**CLOSING DATE**  
Monday Noon, March 1, 1954

**LOST AND FOUND**

LOST—Parker 51 lucite pen.  
LOST—Silver rimmed glasses.

**FOR SALE**

ACCORDION—120 bass, mother-of-pearl, Delapae, \$350 or trade and cash. A-99056.

SKATES—Pair of girl's roller skates, good condition, size 7. New Haven 3343.

DRESS—Girl's, size 12, suitable for Easter. Two skirts, size 42 waist; 1 coat, size 10 or 12. All in very good condition. Reasonable. Clean home. A-96103.

GAS RANGE—Chambers gas range. Girl's Elgin bicycle. H-74135.

CEMETERY—Plot of 4 grave spaces. Greenlawn Memorial Park, choice location. Value, \$125 per space. Will take \$75 per space. H-57474.

SUITE—Two-piece, wool, living room suite. All wool, Wilton, 9x11 rug and pad. Six-way floor lamp. H-77620.

MOTOR—Mercury outboard motor, 5 hp., recently overhauled, excellent condition. Safety chain and extra gas container included. \$165. E-40834.

REFRIGERATOR—Westinghouse, 3 cu. ft., suitable for lake cottage. H-48825.

MARIMBA—6 octave, good condition, excellent tone. \$75. A-70692.

BED—Steel, double bed, coil springs, sturdy mattress, in very good condition. All for \$25. 6309 Buell Drive.

BICYCLE—Girl's Monarch bicycle, excellent condition. \$35. A-89954.

STOVE—Table top, bottle gas stove; cheap. E-65143.

BUILDING—12x12, metal roof. Bench lathe. New Haven, Ind., 1326 Rose Ave., New Haven 4085.

COAT—Boy's, size 6, navy blue sport coat. Size 8 boy's brown tweed sport coat. Green slacks, men's, size 38. Green sport coat, size 40. All like new. E-69123.

HOUSE—Six-room house, two lots, bath space, heat. Good shape for \$1500 cash and take over mortgage of \$2900. 6229 S. Webster St. for further information.

AIR COMPRESSOR—With motor. \$20. Drill press. \$10. E-60871.

BEDROOM SUITE—Two-piece bedroom suite. Includes springs and mattress. H-48340.

COLLIE PUPS—Border collie pups. A-67110.

TROMBONE—King trombone in traveling case. Excellent condition. K-3181.

FILLING STATION—And restaurant for lease. Inquire at 1329 Wall St.

WASHER—Kelvinator, Easy Spin, excellent condition, reasonable. H-64238.

COAT—Girl's red spring coat; size 6; good condition. \$4. H-67211.

LAND—2 1/2 acres, rich, black, well-drained garden land, within five miles downtown Fort Wayne. Reasonable. H-59086.

TROUSERS—Boy's trousers, 28 to 30 inch. Shirts, size 14. E-3189.

BATTERY—Custom-made, galvanized, chicken or rabbit battery. 42 compartments. Also 14-inch Companion jir saw. Leo 2360.

BATH TUB—6 ft. bath tub, good condition. \$15. A-58575.

SUITS—Three men's suits, one tuxedo, one overcoat, size 40, short. Horton washer. Double stone laundry tubs. H-9558.

PUPS—Registered boxer pups. 409 Edgewood Drive. E-71403.

HOUSETRAILER—1949 Tootwood, 17 ft. 2213 Brown St., Fort Wayne.

DOOR—Swinging oak door, 31 x 6 ft. x 5 1/2 mm. Console radio, good condition, walnut. E-79865.

AERIAL—All channel, TV aerial, complete with guide wires, rotor, directional compass finder. E-65404.

OVERCOAT—Winter overcoat, MacGregor quality by Huppenheimer, \$35. H-74311.

CAR—50 Buick Special, 4-door, Dynaflo, R and H, 26,000 mi., one owner. \$995. H-03631.

TABLE—Walnut table and pad, like new, size 36x42, extends to 52 inches. 400 comic books for \$3. A-89332.

PUPS—Boston Terrier puppies, north on 27, 14 miles then east. Watch for Boston signs. Hartmans.

SHOTGUN—16 ga. Mossberg, like new. \$10 off. Guitar, narrow neck, excellent tone, reasonable. 1831 Broadway. E-6354.

MOTOR—One-third hp. motor for \$10. 2707 1/2 Maumee Ave.

**COW AND CALF**—Guernsey cow and calf, Brown Swiss heifer calf in May, Holstein heifer calf in April, two Holstein heifers. 23 head of sheep, some with lambs. Albert Christman, Poe 3 longs on 23.

**TIRE CHAINS**—Hot water heater for car, quart fruit jars, rabbits. 432 W. Butler St.

**IRONER**—Thor portable ironer on standard. \$25. Four lamp shades. H-26069.

**SKATES**—White, shoe, roller skates. \$10; good condition. E-1703.

**FOR RENT**

**APARTMENT**—Three rooms and bath, unfurnished apartment. Stove, heat, and hot water furnished. Private entrance. A-68185.

**ROOMS**—Large, clean, sleeping room and living room combined, \$8 per week. Comfortable sleeping room, \$6 per week. Automatic heat, use of phone, on bus line. E-2036.

**APARTMENT**—Furnished apartment in private home. Four rooms and bath, new beds, utilities paid. Near Broadway GE. 616 Lavina St. A-66942.

**TRANSPORTATION**

**RIDERS WANTED**—From New Haven, Ind., to either GE plant, first trick, 6:48 a.m. to 3:18 p.m. Jim Monroe, New Haven 4450.

**RIDE WANTED**—From Ossian to Taylor St. plant, 6:48 to 3:18. Ossian 33.

**RIDE WANTED**—Second trick, 3:30 to 11:45 p.m., Broadway plant. 17 mi. west on Road 14. Ext. 2271. Carl Waterson.

**RIDE**—Exchange ride from Huntington to Broadway, 7 to 3:30 p.m. Ext. 301 or Huntington 2134 W.

**RIDE WANTED**—One-half mile south of LaOtto and three-tenths mile east on black top to Broadway plant, 8 to 4:30 p.m., starting March 22. Betty Strong, Ext. 2861.

**WANTED**

**NURSING**—Middle-aged widow lady would like practical nursing or child care. Call after 4 p.m. H-15541.

**STATION WAGON**—1951 or 1952, all metal station wagon, maybe Chevrolet, Ford, or Plymouth. Will buy or exchange 1951 Chevrolet Tudor. E-67416.

**HAULING**—Light hauling and cement work. H-19782.

**BICYCLE**—Girl's, 20-inch bicycle, good condition. Pingpong table in good condition. H-59034.

**PIANO**—Good, used piano. A-57583.

**COAT**—Girl's nice spring coat, size 6 or 6 1/2. Also camping bed roll. H-26185.

**WASHINGS**—To do in my home. A-60482.

**GIRL**—To share my apartment. Reasonable. E-32654.

**BICYCLE**—Girl's 20-inch bicycle, in good condition. H-64473.

**WHEELBARROW**—Used wheelbarrow. E-60189.

**BICYCLE**—Boy's bicycle. H-66934.

**THANK YOU**

I wish to thank my friends and co-workers who contributed to make my retirement party a happy one. My good wishes go to each and every one of you.—Emilie C. Benton.

## 17-3 NEWSIES

by Wilhelmina Beeth

Just because we have had some nice balmy days and you have a mild case of spring fever, or that your favorite baseball club is in spring training, isn't an excuse to store away the snow shovel. You may have some use for it yet. . . . Some of the girls in the lead section think they have located an ideal spot for an early spring garden. . . . Ruth Denton says that she doesn't intend to drive in front of the lady from New Haven that drives a Ford and speeds, because she's afraid that the little old Chevy she drives will get sucked up in the carburetor of the Ford and sit right in behind. . . . Congratulations on the pink-bootied addition at the Frederick and Esther Glusenkamp home. The mama was a former co-worker. . . . We light another candle on the cake and wish a happy birthday to Louise Hayes and Bertha Furge. . . . It looked like Ada Christie's work was coming down the conveyor decorated with electric blanket wiring. . . . Pres Slack is wearing shirts that will stretch. That way he can keep the buttons from popping off. We don't blame him after seeing his son's picture in the paper. . . . Margaret Foreman has been having a bad case of TV eyes. . . . Maggie Williams was busy last week getting ready for her niece's wedding. She had her wedding dinner at her home. . . . Mrs. Lewis decided not to go to the basketball game with Jack. Sometime later she walked into the bathroom and the odor of bubble bath filled the air. She put on her little bonnet and went right along to the game. . . . We wish a speedy recovery to Mary Schlau and Becky Moore, who are hospitalized. . . . Also to Beth Heersche, who is on our sick list.

## TALES from TAYLOR

SECTION 113 TAYLOR ST.

by Harry Parker

We notice that Don Arnold is putting on weight so much that he waddles slightly when walking down the aisle. We asked him if he had stepped up his consumption of groceries. This he denied, explaining that since he has ceased to be a sheep herder and that his pet ram no longer chases him around the grazing area, he does not get the strenuous exercise he used to get by hot footing it around the field and jumping over fences. He is now engaged in the business of raising chickens and from his experience he leads us to believe that he is also consuming a goodly lot of same. . . . Dave Bartle received a notice to report to the city traffic office and pay his fine for a minor traffic violation on East Berry St. Dave, having not been on this street for years, could not understand the situation. However, it turned out happily. The offending motorist's 1954 plates bore the same numerals as Dave's old 1951 plates. The records in the traffic office had not been changed. On the day he was to appear he took his wife along to straighten matters out, saying that she had a more honest face than he did and could talk them out of it. However, the error was discovered and Dave was released with a clean slate. . . . In looking over the month of February, we find the birth dates of many famous men, such as Thomas A. Edison, Abraham Lincoln, and George Washington. We have within our circle the birthdays of some well known characters, for instance, Arthur "Breezy" Brandenburger celebrated his on Feb. 7, while our chestnut brown blonde, Marilee Young, celebrated on Feb. 20. Lastly on Feb. 25 we celebrate the birthday of our famous weather prophet, Clarence (Stovendorp) Stove. This day is officially known as TB Day. . . . Brice Martin's young sons like very much to play Indian and cowpuncher, so Brice is busily engaged these days in trying to locate and make a deal on a six-hundred acre plot of ground. On this land he plans on putting several hundred head of western ponies. Then his boys can learn bareback riding and roping. After becoming accomplished horsemen they can play Indian and cowpuncher to their heart's content.

her little niece. Upon asking her, "Is this Janie?" Janie piped up with, "Oh, I thought that was a lady!" And so she proceeded to wish her Auntie Katie a very Happy Birthday. . . . **CRIME DOESN'T PAY:** Joe Baclawski found this to be very true last week when he swiped some tidbits from a fellow employee's supply. He cut himself on the tin can and had to be given first-aid at the Bldg. 4-6 dispensary. . . . **HURRY BACK:** Our chief reporter, Al Happel, underwent a tonsilectomy last Tuesday. We hope by this time your throat is almost back to normal. Also on the sick list is Val Rowan. As of this writing, Val hasn't had his illness diagnosed, but we hope it is nothing serious and that you will be back with us very soon. . . . **WHAT A REVOLTING EXPERIENCE!** So says the E. M. Stanberry's. Seems like they had to pay a baby sitter more than their own children ask for baby sitting. An occasion came up when they needed a baby sitter for their small daughter and the older children were occupied for that evening. The older daughter had been hired by a neighbor as a baby sitter, and the son had a game on, so nothing else to do but hire an outsider. No profit in that we say, eh Stan? . . . **HAPPY BIRTHDAY** to Sam Moore on March 1 (next Monday). Hope you get a big birthday kiss from that energetic son of yours. . . . **HELLO TO OUR OLD FRIENDS,** Margie Schwartz, Mabel Waggoner, Georgia Garrett, Ruth Richey, Doris Klug, and the rest of the faithful readers of this column. . . . **WELCOME TO TEST ENGINEER:** John McMillian, working for C. J. Herman. . . . **CLUBS, CLUBS, CLUBS!** Floor Sitters' Club, Liberate Club, and now the "Unmatched Shoe Club." Seems like Joe Baclawski joined the latest club by appearing at work with unmatched shoes. That's a good way, Joe, and prospective members, too, of wearing out all the old shoes, eh? . . . **SPEAKING OF** the Floor Sitters' Club, a friend of this reporter asked, "Say, what's the matter with all those people in Bldg. 4-6. Don't you have any chairs up there?"

## COUNT OFF

SECTION 417 TAYLOR ST.

by Marguerite Stahl

We wish a happy birthday to Sarah Moore. . . . Gladys Pantizan isn't as spry as you think. You should have seen her Sunday morning after Saturday night's bowling! . . . We are glad to have Clara Gidley back after her recent illness. Congratulations to her on her 30 years service with the company. . . . Linda Wahrer, Joan, and Thelma Fry from Huntington,

## Stock Bonus Plan Pays Off This Month

All employees not now enrolled in the GE Employees Savings and Stock Bonus Plan will be contacted next week, as a plant-wide solicitation for new Plan members gets under way.

The Plan provides for deductions from pay checks for the purchase of U. S. Savings Bonds. Bonds are held by the company for a five-year period and a bonus in General Electric common stock in the amount of 15 per cent of the bonds purchased each year is added to the employee's savings.

More than 42,000 employees who enrolled in the plan five years ago

(Continued on page 4)

## GE Club Sets April 3 and 4 For Spring Musical Revue

A Springtime Musical Revue featuring professional acts has been booked for Saturday and Sunday, April 3 and 4, by the GE Club entertainment committee, Chairman Gordon L. Smith reported this week.

For the first time in several years, the revue will feature

a group of dancers who will present three numbers during each show. The group to be presented on the GE Club stage are the Dorbin Dancers. Their beautiful, eye-catching costumes and numbers have been seen in theaters, hotels, and supper clubs throughout the country. They are rated as one

of the top groups of this type in entertainment listings.

Four other acts have been signed for the show. They include Whitey Roberts, master of ceremonies. "Billboard," a theatrical magazine, terms his act as highly successful, saying "Not only does he stop the show, but he also lives up to his billing, 'Laugh, Clown, Laugh' . . . which he does, easily."

Sanger, Ross, and Andre are a novelty comedy trio coming direct from New York City, where they have been working in musical shows and theaters for the past five years.

Nancine and Robert are a dance team who will combine their talents with the Dorbin Dancers in unusual numbers. The Marimba Starlets provide beauty along with rhythm and music to present an act which has been seen on the west coast and in the mid-west.

Seven performances will be presented on the two days of the revue. Saturday, April 3, shows will start at 3, 6:30, and 8:30 p.m. Sunday, April 4, shows will get under way at 1, 3, 5, and 7:30 p.m.

Tickets will be available free of charge to employees for themselves

(Continued on page 7)

## 1953 Sales Set Record; GE Net Earnings Up 9%

Sales of the General Electric Company in 1953 set an all-time record of \$3,128,127,000, an increase of 19 per cent over the 1952 total of \$2,623,888,000, Ralph J. Cordiner, president, announced today.

The company's 1953 net earnings of \$165,728,000 were

nine per cent higher than the total of \$151,720,000 for 1952. Earnings equalled \$5.75 per share of common stock, compared with \$5.26 the preceding year, and represented 5.3 cents per dollar of sales, as against 5.8 cents in 1952. Mr. Cordiner pointed out that effects of Federal taxation prevented "the benefits of General Electric's growth over the last few years from being fully realized in net earnings during 1953." The record high for earnings was \$6.01 per share in 1950 when Federal taxes amounted to only \$6.83 per share as compared to provision for \$10.69 per share for Federal taxes and renegotiation in 1953.

Sales were up in all major product areas Mr. Cordiner said. Greatest increases were in the appliance and electronics group, up 31 per cent; and in the defense products group, up 28 per cent over 1952. Sales of defense materials, however, declined to some extent during the fourth quarter of 1953. Despite this decline, total sales for the company during the final quarter were at an annual rate of more than \$3.1 billion.

Export sales of International General Electric Company, a division of General Electric, were also the highest in its history, representing a 17 per cent increase over 1952. Mr. Cordiner reported. New foreign orders received, however, were somewhat lower than the 1953 level of shipments. Sales of Canadian General Electric Company, Ltd., 98.2 per cent owned affiliate, increased 33 per cent over 1952.

Cash dividends, both declared and paid, during 1953 represented new highs for the company. Dividends paid during the year amounted to \$4 a share, including a special

(Continued on page 4)

### Transformer Hosts 45 Electric Sign Manufacturers Here

Forty-five General Electric distributors from 18 states and five foreign countries toured the Specialty Transformer Department yesterday.

The men were here on a one-day visit that climaxed the week-long National Electric Sign Association convention in Chicago. They were greeted by Samuel Littlejohn, GE commercial vice president, and Carl H. Rinne, general manager of Specialty Transformer. Joseph P. Coughlin, the department's manager of marketing, was official host.

The visitors, who specialize in selling electric sign equipment particularly through neon sign manufacturers, were invited to visit Fort Wayne to see how neon sign transformers are designed and produced.

At their luncheon meeting, the visitors and hosts discussed the future of the sign industry and heard G. B. Park, GE manager of advertising and sales promotion services, who was principal speaker.

Distributors from foreign countries came from Belgium, Colombia, Mexico, Venezuela, and Brazil.

Neon sign transformers have been built in Fort Wayne for more than 25 years. Particular attention was given yesterday to the new transformer introduced by GE at the convention. It is believed to be the smallest and lightest transformer ever provided to the industry in its particular ratings.

**IDEA PAYS CASH**—An improved method of assembling hermetic bushings brought an additional award of \$310 to Albert Oechsle (second from left). Presenting Mr. Oechsle with his award are William H. Crouse, R. D. Grove and Louis Sordelet. Mr. Oechsle is employed in Bldg. 26-5, Specialty Transformer Department.

### WINNING WAYS

## January Suggestions Pay \$2,095 to 170 Employees

Suggestions during January paid \$2,095 to 170 employees. Albert Oechsle, Bldg. 26-5, led the list with a \$310 additional award on a suggestion for an improved method of assembling hermetic bushings. The savings resulted from a reduction in the number of rejects. He had formerly received a \$25 award on this idea as a token payment until the actual savings could be determined.

Waveland Bernadin, of Section 114, at Taylor St., earned \$50. His idea was for a chute made to fit the hopper of the portable belt conveyor, which saved both personnel and time.

Other awards were:

J. W. Budders, Bldg. 4-4, \$45.

B. P. Kramer, Bldg. 4-4, \$45.

Anita Crick, Bldg. 6-2, \$40.

Harry C. Ribel, Bldg. 26-B, \$40.

Paul J. Pfeiffer, Bldg. 26-3, \$35.

Charles Beal, Bldg. 4-3, \$35.

H. C. Miller, Bldg. 4-4, \$35.

P. A. Hill, Bldg. 4-2, \$30.

A. R. Kissinger, Bldg. 6-2, \$25.

James E. Baker, Bldg. 26-5, \$25.

There were 157 persons who received awards of under \$25 in amount.

## Apprentice Group To View Pistons Game Thursday

Apprentice Alumni Association members will attend the Thursday, March 11, professional basketball game between the Zollner Pistons and Rochester Royals at the Allen County War Memorial Coliseum.

The game will begin at 8:15 p.m.

A block of reserved seats has been secured by the group for its members. Tickets may be obtained for \$1.00 per person from contact men, Mare Junk, ticket chairman, reported.

Members may take guests also, Walter Buesking, president, stated, and may purchase tickets for them from contact men, he added.

## Pay for Both Kinds of Work

In every successful business in this country you find two kinds of workers—employees and share owners. Employees work with their minds and muscles and share owners put their money to work in anticipation of a fair return.

The General Electric annual statement, just released, showed that both of these groups received a return for their work higher than in 1952; the employee took 36.7 cents of each sales dollar and the share owner was rewarded with 3.9 cents out of each sales dollar.

Employers must compete with each other for the work of men's minds and muscles, and likewise, must compete with each other for men's savings. That is why jobs requiring about the same skill, care, and effort pay about the same wages in a given area and that is why investments involving about the same risk must offer about the same expectation of profit.

Nineteen hundred and fifty-three was a year of which we can all be proud. Sales set an all-time record and "pay for both kinds of work" was higher than in 1952.

## The Blood You Give . . . Helps Someone Live

The blood you give helps someone live. It may be a badly burned child or a mother struggling through a difficult childbirth. It may be a workman close to death as a result of an industrial accident or the survivors of a railway or automobile crash. Your blood will give life itself to these people and help them return to their families and their jobs.

The techniques for donating blood have greatly improved

over the years, so that now it is a simple and painless thing to do. The next time you have the opportunity to donate a pint of blood, remember these easy steps whereby a few minutes of your time may mean life itself to someone needing blood desperately.

- (1) You will register, giving your name, address, age and other routine information.
- (2) Your temperature, weight and height will be noted; and a simple physical examination to determine blood pressure, hemoglobin content, and facts of your medical history will be given.
- (3) Before donating blood you will drink a glass of orange juice.
- (4) The actual donation, handled by a trained nurse, takes only a few minutes.
- (5) After the donation, you will be given a cup of coffee, or tea, or glass of milk with doughnuts and cookies. You will also receive a blood donor pin, a small token of the thanks you will get from someone's heart in helping to save his life.

You can give your blood safely every three months. Every time you do, it will go to the victim of an accident or disaster, or it will be processed into one of the new disease-fighting serums. So, give it now . . . and again and again.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

"He who sails without a chart may return without a ship." . . . I just heard recently that Dick McNiece has been sick with pneumonia. Here's hoping that you will soon be back among the gang, Dick. . . . Our sympathy to Ralph Rockhill on the death of his mother. . . . Art Braun and Clayton Barlick have started on the new low calorie diet which is being advertised in the morning paper. I wonder who will be the first to weaken and slip down the street for a nice, juicy, pork barbecue? . . . John Donovan lost some of his hair last Saturday in an "accident." Saved you going to the barber shop and money besides. . . . Andy Leeuw, what gives with the South American lingo? It seems that when Andy answers the phone, he starts the conversation with a very pronounced "Si." . . . Bob Dowell went over to the dispensary with a crick in his neck. Bob is the newcomer from Texas. Do you reckon he got it from gazing at the tall buildings in our fair city? . . . Who's the culprit that sewed Clyde Enslin's clothes together? . . . George Prince and Pop Seals were staging a little wrestling match in the aisle. All in fun of course. Probably got some good ideas from TV. . . . George Winans, I read your interesting item on the food prices down at the old Fruit House. 1876! H'm. Vas you dere, George?

## SMOKEHOUSE SAYINGS

BLDG. 22

by George Winans

Charlie Castle got back safely from New York. He had quite a time doing the big town and he met Rita Hayworth (lucky girl) and Dick Haymes. He also shook hands and exchanged autographs with Rocky Marciano. The trip to the big town did one thing for Charlie though. It made him realize that he is just a small town boy at heart. He says he prefers Ardmore Ave. to the Great White Way

and that the Lincoln Tower is much more beautiful than the Empire State Bldg. . . . These rising coffee prices are causing all of us much concern and Joe Ostrowski is no exception. It seems his wife is drinking more coffee now than she ever did. Joe, being the one who wears the pants in his family, put his foot down. "Look here," he said, "starting right now we are going to cut our coffee consumption in half." So they did; she drinks the coffee and Joe drinks sassafras tea. Good for the complexion, he says. . . . Mildred Messer, the office steno, usually eats with her girlfriend, Emma McCormick, down at Ma's Hash House every noon. Since Mildred gets there about 10 minutes ahead of Emma she orders for the two of them. The other Tuesday, Emma failed to show up. Mildred had to eat two stew dinners, urp. . . . Congratulations to Bob (Officer) Tieman, who now has the mark of a successful businessman, an ulcer. . . . Dick Bodkins was in to visit us last Wednesday. We are glad he is doing well. . . . Walter Gerdorn looks like Jack Webb in his new hat. "Now look here, Tieman, this job has to be gotten out. You know that don't you, don't you? I'm just giving you the facts, that's all, just the facts."

## Words by Walt

POLITICS

OR  
"NO MATTER WHO THROWS IT,  
IT'S STILL MUD"

The Democrats, it seems of late, Are feeling rather tough. Because they claim Republicans Are playing much too rough.

In some Lincoln Day addresses Abe, they claim, seemed 'most forgotten While they, the Democrats, were charged With everything that's rotten.

"Just how long," they asked each other, "Must these accusations last?" "It isn't right, it isn't fair, This digging up our past."

"This dis-intering skeletons Is something we dislike, And if it doesn't stop, by gosh! We'll take it up with Ike."

It didn't stop, and so they started Taking off their coats, And said to Ike, "By Golly, If you want to get our votes

In Congress, you had better call These bloodhounds off our trail, Or be prepared to see Your legislative program fail."

Now Ike, a brilliant soldier, Never was a politician. So he acted like a soldier In appraising his position.

He knew in winning victories There must be cooperation; And before the battle starts, There must be also preparation.

And it's likely he was certain When his plans were being made, That, to win, he'd have to have At least some Democratic aid.

Now you can't expect assistance From a guy you've called a bum; If you later need his help, It's very doubtful if he'll come.

It's more likely he will trip you, When you're running with the ball; And then exclaim, "A clumsy guy Like you is bound to fall."

So Ike told his hatchet men To be a little more discreet, And stop yelling crooks and traitors At each Democrat they meet.

But these fellows with their hatchets Love to hear opponents wail; And there's nothing suits them better Than to twist the Donkey's tail.

So I'm much afraid that Democrats Are due for some abuse, With such hatchet men as Jenner And McCarthy on the loose.

In our Fort Wayne evening paper On the editorial page, There appeared this type of thinking By its editorial sage.

"I'm simply not impressed By all these Democratic tears. This kind of stuff, Republicans Were fed for twenty years."

Now of course, no truer words By mortal man, were ever spoken; Politicians, much like bull-frogs, Make their presence felt by croakin'.

But one thing this editorial Seems to somehow have forgotten, When Republicans ape Democrats, It makes them just as rotten.

I believe if I were President, The thing I'd want the most In Congress would be statesmen, Filling each elective post.

But, it seems, instead of statesmen, Politicians get elected. So this throwing mud and epitaphs, Of course, must be expected.

—W. L. Whonseller.

COPYRIGHT 1954 CARTOONS-OF-THE-MONTH

**HONORED AT RETIREMENT**—Walter E. Fair (center) says his General Electric good-byes on his last day of work. Mrs. Fair and Terrace Colvin are shown with him. Mr. Fair was employed in Section 417 at Taylor St. before retirement.

## Berdell O. Smith Receives Position As Foreman-in-Training for Sect. 113

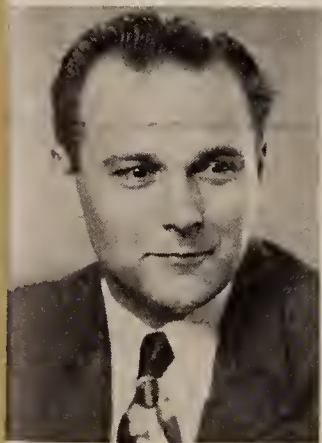

Berdell O. Smith has been appointed a foreman in training in the General Purpose Component Motor Section 113, Taylor St., it was announced this week by Harold E. Koehlinger, superintendent.

When he became a GE employee in 1946, Mr. Smith was a

lathe operator. He entered the Apprentice School in December that year. After graduation from the machinist-toolmaker course in June, 1950, he went to Bldg. 19-5 as a lathe operator and later was a tool planner in the same location.

In November, 1950, Mr. Smith went into the personnel section as a trainee. One year later, he moved to Taylor St. to work in central planning. After going to the Linton plant in 1952, he was a planner until December last year. He returned to Fort Wayne then and worked as a planner in Section 113 until his present appointment.

Joining the U. S. Naval Air Corps in 1943, Mr. Smith served in the Asiatic-Pacific theater of

Berdell O. Smith

**GE CODE'S "OUT WEST" PARTY**—Donning western hats and neckerchiefs, members of Decatur's GeCode Club had a western party recently. Enjoying festivities in true western style are (l-r): Dorothy Shaffer, Bldg. 18-2; Mary Maloney, Vera Geimer, and Jo Wolpert, all of the Decatur plant.

## APPRENTICE BROADCAST

by James Schwartz

Last Friday three of our apprentices on assignment at Taylor St. came in to the school to work. Ken Johnson, Wilbur Doepke, and Gene Bair informed us that they had run their section out of work. . . . Dave Blackburn has an eye on economy. He is buying a jeep to drive back and forth to school from Decatur. . . . Francis Harter tried to start the week right by waking himself with a milling machine coolant bath. . . . Ray Watkins is not so enthused over his YMCA judo lessons now. He is sporting a well bandaged head. . . . Frank Miller is walking to work nowadays. It seems he demolished his "Black Beauty." Frank says the city is going to seek further details in the case in about 25 days. . . . The first week of "Hoosier Hoopla" of 1954 brought mixed emotions to the school. "Wee Willie" Scheimann probably felt the lowest. He is an ex-cheer leader from Concordia High School. . . . In school athletic activity, the apprentice basketball five is still idle. The playoff was held up by "The House of Magic" show.

## AMBLE IMRELL

The above letters, unscrambled, will spell some General Electric employee's name. All letters for each of the first and last names must be used. Do not combine the letters of the two names.

If this is your name, you will receive a ticket entitling you to \$1 in merchandise at the cafeteria. Come to the GE NEWS office, Bldg. 18-1, to claim your reward.

Another scrambled name appears elsewhere in this issue.

action for one year prior to being discharged in 1946. He is a member of the Apprentice Alumni Association.

The Smiths and their three children reside at 5405 Tyrone Rd.

## French Milliner to Lecture Elex Second Shift Group

Elex second shift members will have a French millinery designer as their guest speaker at the Thursday, March 18, meeting at the YWCA.

Madame Edmonde Baldine, of Chicago, will present a demonstration and discussion of 12 different hat styles representing various centuries. She will also show current styles. "Fashion in Headgear" is the title of her presentation. Members will be models for the show. Madame Baldine's show has been termed "artistic, educational, and entertaining."

Two hats will be presented members as attendance prizes. The luncheon meeting will begin at 12 o'clock noon. Reservations are due by Monday, March 15, and should be made with contact girls. Tickets are \$1.25 per member.

The first shift members will have a spring style show Monday, March 8, in the GE Club. The dinner meeting will begin at 4:45 p.m. Nine members will model spring fashions from one of Fort Wayne's department stores. Helyn Hitchcock, on the staff of charm and modeling schools in Chicago and Fort Wayne, will direct the show.

## Squares Wives Plan Spring Style Show

Tuesday, March 9, is the date of the GE Squares Wives Spring style show. It will take place in the Squares Hall beginning at 8 p.m.

Mrs. Dorothy Nelson and Mrs. W. W. Burhop, owners of the Band Box dress shop, are in charge of the show and will furnish clothing for it.

Refreshments will be served and bridge and canasta games are slated after the program. Door and table prizes will be awarded.

Six members will model the fashions. They are: Mrs. Richard Kilian, Mrs. G. E. Jamieson, Mrs. Richard Abraham, Mrs. J. E. Balclawski, Mrs. J. P. Coughlin, and Mrs. I. L. Cirks.

## West Point is Site Of GE Club Movie

"Francis Goes to West Point," is the full-length feature film to be shown at the kiddies' movie program tomorrow at the GE Club. The program will get under way at 1:30 p.m. and will include chapter 8 of the "Sea Raiders" serial and a color cartoon.

The movie stars Donald O'Connor, Lori Nelson, and Alice Kelley, and is filmed at the site of the U. S. military academy, West Point.

## 40 et 8 Sell Tickets To Pistons Game

Members of the 40 et 8 Society, an affiliate of the American Legion, have tickets for sale for the Zollner Pistons vs. Rochester Royal professional basketball game, March 11, it was announced today.

The organization has secured a block of tickets and will use proceeds of sales for its project which pays expenses and fees for three or four girls to enter nurses' training each year.

Tickets may be secured from the following members in the plant: Lester Patton, Bldg. 27; Herman Conrad, Bldg. 26-2; Elmer Fretz, Bldg. 4-1; Charles Thompson, Bldg. 31-2; Howard Orr, Bldg. 28-2; Guy Miller, Bldg. 19-1; and Edward Ehrman, Taylor St.

Since beginning its project, the society has paid expenses for 24 girls in nurses training.

**COWPOKES AND CAMPFIRES**—GeCode's "Great West" party was entertained by several range songs by the Dude Ranch cowboys, who also presented a humorous skit. Dinner was served from a chuck wagon. Emma Goldner and Rosemary Miller were co-chairmen of the event.

## 1953 Sales

(Continued from page 1)

dividend of \$1 per share paid in December. Dividends declared amounted to \$4.25 per share, including the special \$1 dividend, regular dividends of 75 cents declared in each of the first three quarters, and \$1 declared in the fourth quarter payable in January of 1954. Dividends declared were 74 per cent of 1953 earnings, compared with average dividends of 55 per cent of earnings for the years 1947 through 1952.

Employees earned a record total of \$1,050,762,000 last year, an increase of 19 per cent over the \$886 million paid them in 1952. Mr. Cordiner said the average number of employees during 1953 was 222,070, as compared to 206,059 for the previous year, an increase of eight per cent.

Federal taxes on income and renegotiation in 1953 amounted to \$308,500,000 or \$10.69 per share. This was an increase of 17 per cent over the 1952 provisions of \$264 million, or \$9.15 per share. Extension of the excess profits tax at the full rate during the latter six months of 1953 increased taxes for the year by about \$36 million, or \$1.26 per share, Mr. Cordiner said.

Discussing the outlook for the company in 1954, Mr. Cordiner expressed the belief that the year will bring "a more favorable earnings climate than the last several years," even though sales for the company are expected to decrease somewhat from the 1953 peak. The company's defense business is expected to make up a lower percentage of the total business volume in 1954, he said.

"It should be pointed out," Mr. Cordiner added, "that defense business—which the company always stands ready to undertake for our government—is less attractive from an earnings standpoint than our regular commercial business. A shift from defense to commercial sales, therefore, will tend to result in greater earnings from each sales dollar.

"This trend, and changes in the Federal tax structure, should create for 1954 a more favorable earnings climate than for the last several years."

Working capital during 1953 decreased from \$399 million to \$370 million. Mr. Cordiner said this was due principally to additional funds required for investment in new plants and equipment, plus increased dividends.

Expenditures for new plant and equipment in 1953 totalled \$141,046,000, an increase of 15 per cent over 1952 expenditures of \$123,

## 17-3 NEWSIES

by Wilhelmina Beeth

Everyone from Podunk Junction to Puckerhuddle was out rooting for their teams as Hoosier Hoopla hit the state of Indiana. If your team didn't win, better luck next year. . . . Eunice Zehr, Mary Zirkle, Mabel Schaaf, Jenny Zimmerman, Elizabeth Wert, and June Baumgartner made the trip to Chicago with the Elex girls. . . . Dorothy Johnson and Hazel Cox have new TV sets. . . . But Eddie Benz is different. His wife saw Liberace on TV and wanted to get TV, but he still says, "No soap." . . . We bid farewell to Connie Sisk, who is spreading the welcome mat for Mr. Stork. . . . Virginia Pelz is a proud new grandma. It's a girl. . . . Verne Kohart spent last weekend in Akron, O. . . . Glad to see Helen Smith ringing in her clock card again. . . . We light another candle on the cake and wish a happy birthday to Ruth Limenstahl, Marice Morgan, and Maxine Hathaway. . . . Mary Secrist is really on the ball. She started walking out with a stator in her hand, thinking it was her purse. . . . It was lunch time and Helen Pliett saw her dog near the GE gate. She had two of the girls hold it while she called a taxi. She put the dog in the taxi and sent it home. Sometime later her husband called and asked why she had sent a stray dog home. Fido had been home all the time. Her husband had to make a trip to the GE with the other dog. . . . Paging Helen Houser. Her cousin, Sadie Johnson, had been on the floor seven weeks before she was located. . . . The other day during the snow one of the girls remarked it would be a good time to think about sowing grass seed.

082,000. General Electric's planned investment averaging \$160 million a year in 1954 and 1955, in addition to nearly \$800 million spent in the last eight years, will make a total of \$1 billion in capital expenditures for the first 10 post-war years.

Holdings of cash and marketable securities at the close of 1953 totalled \$435,128,000, an increase of \$84,123,000 over the corresponding total for the previous year.

Inventories after reserves at the end of 1953 were \$641,493,000 compared with \$622,988,000 at the end of 1952. This showed an increase of \$18,505,000, or three per cent. Ratio of inventories to sales decreased however, Mr. Cordiner pointed out. At the end of 1953, net inventories were 20.5 per cent of sales, compared to 23.7 per cent a year earlier.

A comparative statement of current earnings for the years ended December 31, 1953 and 1952 is shown below:

	Year Ended December 31	
	1953	1952
Sales of products and services to customers	\$3,128,127,301	\$2,623,887,509
Dividends, interest, and other sundry revenue	45,600,576	28,599,348
Total Revenue	\$3,173,727,877	\$2,652,446,857
Cost of sales, selling, and administrative expenses*	\$2,699,499,988	\$2,236,726,952
Provision for Federal taxes on income, and renegotiation	308,500,000	264,000,000
Total Costs and Expenses	\$3,007,999,988	\$2,500,726,952
Net Earnings	\$165,727,889	\$151,719,905
*Includes provision for depreciation	\$67,269,345	\$59,773,720

## Stock Bonus

(Continued from page 1)

will receive a financial windfall this month, when they receive their checks under the Plan.

In addition to sharing checks totaling \$233,000, the employees will be credited by the company for GE stock with a current market value of more than \$1 million.

United States Savings Bonds costing approximately \$3,500,000 which have been on deposit with the company since 1948 will be turned over to the employees at the same time.

This is the first return to the employees under the plan which General Electric established late in 1948 whereby employees who buy U. S. Savings Bonds and leave them on deposit with the company for five years receive a stock bonus equal to 15 per cent of the purchase price of the bonds.

At the present time, more than 102,000 persons are participating in the savings and stock bonus plan. Employees are buying approximately \$30 million worth of U. S. Savings Bonds annually. Since the plan was started the employees have purchased bonds costing more than \$126 million.

Under the plan, employees receive the bonds at the end of a five-year period together with a check for the accumulated income and any full shares of stock which have been credited to their accounts. Fractional shares remain to the employee's credit until the addition of fractional shares earned in subsequent years entitles him to a full share or the employee requests cash payment for the value of the fractional shares.

Based on the current value of General Electric stock, for every \$75 invested in savings bonds in 1948 under the GE plan, the employee's investment has increased in value by about \$38.

The plan can be geared to suit nearly every employee's budget with deductions ranging from a minimum of 75 cents to a maximum of \$10 a week. Participants

Paul A. Berghorn

## Berghorn Named To New SIM Post

Paul A. Berghorn has been appointed supervisor of the Engineering Administrative Services Unit in the Small Integral Motor Department at Winter St., J. Herbert Behm, manager of engineering, announced this week.

In 1925 Mr. Berghorn came to GE and entered the Apprentice School. He graduated from the school in 1928 and became a draftsman. Later he was a leader in a Fractional Horsepower Motor Department engineering drafting section.

Named requisition engineer in 1937, Mr. Berghorn became supervisor of requisition engineering and drafting two years later. In 1941 he added to his previous duties the responsibility of material

may increase or decrease or stop their deductions whenever they choose.

Since becoming an issuing agent for the United States Treasury Department in 1942, General Electric has issued more than 10 million United States Savings bonds.

Bernard O. Parent

## Heart Attack is Fatal To Bernard O. Parent

A Quarter Century Club member, Bernard O. Parent, 58, died Saturday, Feb. 27, at his home, 4617 Calumet Ave., following a heart attack.

Services were conducted Tuesday, March 2, at the Mungovan & Sons Mortuary and at St. John the Baptist Catholic Church. The Rev. James O'Connor officiated. Burial was in the Catholic Cemetery.

A charter member of the American Legion Post 47, Mr. Parent came to General Electric in 1919 and was a packer in Bldg. 6-2 then. Later, he was a drill press operator, methods planner, and staff assistant on machine operations. In 1950, he became a foreman in Bldg. 4-4 and had this position until his death.

Survivors are his wife, Edna L.; one brother, Omer A.; and one sister, Mrs. Joseph Rahrig.

**SHE WANTS A BOAT** — When Joan wants something, look out! Joan Davis, star of "I Married Joan" on NBC-TV, tries her wiles on hubby Jim Backus when she wants a boat instead of the cabin that Jim wants to buy. It's part of the Wednesday, March 10, telecast of the comedy program, titled "Mountain Lodge," seen at 7 p.m., CST, over WKJG-TV.

## Squares Card Tourney Starts Tonight at 8

Initial matches in the GE Squares Club for 1954 bridge tournament will get under way this evening at 8 p.m. in the Squares Hall. The event will continue for the coming two Friday evenings, March 12 and 19. After the con-

cluding night of play, winners will be announced and prizes awarded.

The event is open to members and their guests. Refreshments will be available. Wendell Hughes, Bldg. 26-2, is chairman. Assisting him are Mrs. Hughes and Mr. and Mrs. Art Pherson. Mr. Pherson is located in Bldg. 16-3.

The more arguments you win, the fewer friends you have.

## UNITED FUND SAYS THANKS

To: MEMBERS OF THE EMPLOYEE COMMUNITY  
SERVICES FUND OF GENERAL ELECTRIC:

Recently, the United Fund received the final payment on the 1953 pledges from the General Electric Employee Community Services Fund. Our records show that for 1953, a total of \$91,833.87 has been contributed to the support of United Fund agencies.

We would like to take this opportunity to pay tribute to the generous support given the United Fund drive by the men and women of General Electric Company. It is most heartening to have a group respond in such a manner to the needs of our community's health and welfare programs which go to make Fort Wayne and Allen County a better place in which to live and to do business. Because you gave, life is made brighter for your less fortunate neighbors, the crippled and blind, the needy sick and aged, orphaned and neglected children, and all others served by your United Fund agencies, which include the Red Cross, Community Chest and its 23 agencies; Cancer Society, Local Polio Services, USO, and the Crippled Children's Society.

Again, our sincere appreciation for your support and also, our thanks to the many of you who so actively worked in the campaign as volunteer solicitors.

Yours sincerely,

F. EDWIN SCHOUWEILER,

President United Fund of Allen County

## Story of GE's Guided Missile Project Appears in March Issue of GE Review

The feature article in the March issue of the GENERAL ELECTRIC REVIEW is an exclusive 15-page report of GE's participation in Project Hermes. This is the first time that the detailed, over-all story of the project has been told in an unclassified document. Many of the report's 30 photos have been recently declassified and are appearing in print for the first time.

The account was produced by Review Managing Editor Paul R. Heinmiller, who spent many months doing research work for the article at GE's Guided Missile Department, Schenectady, prior to his visit to the White Sands Proving Ground, N. M. There he observed the work of GE engineers and scientists, and witnessed launchings of Hermes and other guided missiles.

General Electric has been in the guided missile business longer than most people realize. In November, 1944, Army Ordnance initiated with the company a broad program calling for the investigation of all phases of guided missile research, development, and manufacture. GE's first activities involved V-2s, and in 1950 the first GE designed and constructed missile—the Hermes A-1—was launched. The Hermes guided missiles of today are of a considerably advanced design.

## Out-of-County Car Owners Asked To Put License Numbers on File Here

Did you come to work just half awake this morning? Everyone does at some time or another, if we can judge by the number of times employees leave their parked cars with the motors running or their lights burning brightly.

When a member of our plant protection force finds a car alone and in trouble like that, he is quick to note the license number, find the owner's name, and contact the person at work. This can save the employee from a dead battery or an empty gas tank.

Plant protection can only do this, however, when the car has

Allen County license plates, which are registered at the courthouse. For this reason, Chief A. R. Vegalues is asking that each car owner with an out-of-county license fill in the blank below and return it to his office.

A. R. VEGALUES

**EARNs RUBY SERVICE PIN**—Herbert C. Grueb (right) rounded out 40 years of service with the General Electric Company February 19. Mr. Grueb was honored by his co-workers including (l-r) Lisle D. Hodell and James H. Oman. The new wearer of the ruby service pin joined GE in 1914 as a messenger and is now supervisor of shipping in the General Purpose Component Motor Department at Taylor St.

## Tickets Still Available For Foremen's Meeting

Today is the deadline to secure tickets for the Foremen's Association March 10 meeting. Tickets, which are \$1, may be obtained from contact men.

The Southwest Conservation Club will be the scene of the meeting at which new officers will be installed by outgoing president Leonard G. Reuss.

The program will feature "Pantomimist Frank" who will present a skit entitled "Jolson Jests." Refreshments will be served.

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

Dolores Stapleton flew to Miami to see the Pistons play. She stayed over the week-end and had a wonderful time. Lucky girl! . . . We are wondering if Mary Cordell shouldn't teach her dog "Nipper" better manners. . . . Mac McDougall, Bldg. 26-2, was telling us his six-months old White German Shepherd dog took first place in a dog show. Since it was the dog's first show, both Mac and pup are happy. . . . Audrey Oberley received some publicity via the "Good Neighbor Policy" over a local radio station. . . . Another one of us has joined the new car club. Mary Cordell has a '54 Ford Crestline. . . . The stacking section enjoyed ice cream and cake due to Frank Shultz being transferred to Bldg. 26-1. We will miss you, Frank, and we hope you like your new job. . . . We welcome John Swales to the stacking section and Elaine Omo to the winding section. . . . If you would like to know the way, the long way that is, from the conference room on Bldg. 26-2 to our own floor see Morris Felger. He found himself in Bldg. 19. What happened, Morris? . . . Why is it that Mildred Leazer always carries a club when she goes outdoors. Could it be that she is afraid of a turkey? . . . We miss Lena Forker. Hurry back, Lena. . . . Ruth Freeland proved she could bake a pie. She brought one in and it passed inspection. . . . It makes no difference to Eddie Alter and Jim McGill whose pills they take. Both have colds, and they were seen trading pills to see which had the better pill. . . . Congratulations to Erma Werling, who is now a Quarter Century Club member. . . . Nancy, do you know that even small grocery boys like tall blondes? . . . Frank Clibon, why don't you tell your real age instead of saying that you are five. . . . Our sweeper, Levi, can't figure out why his gas gauge reads empty when full and vice versa. Try putting the battery in right and see what happens. . . . Art Pequignot's latest reason for being late, "I danced too much last night, but I had fun." . . . Nellie Wendt thanks everyone for the nice gift that was sent to her while she was in the hospital. . . . Congratulations, Wanda Grimm, on your patriotic gesture in knitting for the Britains.

Sbe: "Well, what excuse have you got for coming home at this hour?"

He: "Well, my dear, I was playing golf with a friend and . . ."

She: "What? At 2 a.m.?"

He: "Sure, we were using night clubs."

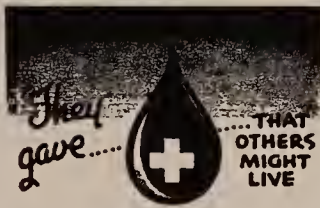

## RACONTEUR SECTION 114 TAYLOR ST. by Luana Oehlhasen

Fred Campbell is a proud grandfather for the first time. The new arrival is named John Edward. . . . Henry Carnall is a proud grandfather again, too. . . . When we walked into the Foremen's Office the other morning, we found Jim Brebner standing on a chair. My goodness, Jim, was the mouse very big? . . . We also saw Bob Duras smoking a pipe and a cigarette at the same time. It seems he forgot he was smoking the cigarette when he picked up his pipe. . . . Fred Vogt and Walt Niemeyer have no excuse for not raising their averages now. Dale Irwin's little girl, Molly, gave them some pointers. So let's see you go to town now, boys. . . . Our deep sympathy to Norman Biddle in the death of his brother and to Walt Niemeyer whose sister died in California. . . . Rosie Koons is now feeling much better. You're looking rosier every day, Rosie. . . . If you want to see Liberate-the-Second (referring to a new hair-do), see June Spillner. She says she will give autographs by appointment only. . . . Blanche Mountz visited with her grandson in Indianapolis last week-end. . . . We hear Ed Hines is contemplating taking over a 17-room house and several oil wells. How about that, Ed? . . . The painting season is here already. Several of the wives have their husbands hard at work. In one case, we hear it took one husband a week to get the paint mixed. . . . Maxine Daniels, Kathryn Aldrich, and Sandra Brown spent last Saturday in Chicago with the Elex Club. . . . Welcome back to Clayton Culver who was off sick. (For half a day.) . . . Happy birthday to Mike Brayer, Fred Campbell, Paul Clendenen, and Florine Elzey. . . . For any odd jobs that you need done around your house, please use the following directory: Home building and plumbing, Eldon Bell; and radio repairman, Hugh Neely. Anyone else wishing to list his name in this directory, please contact the

writer. . . . We wonder when Lou Anne Beauchamp will latch on to a fellow if she is going to be as careless about losing him as she is her rings. . . . Dorothy Money spent last week-end in Angola. . . . Kathleen Jencks is going swimming again this week-end. Make sure there's water in the pool this time, Kathleen.

## DITTIES FROM DISTRIBUTION by Ruth Sorg

Another television fan has been added to the list, Martha Newell is the proud owner of one. . . . Barbara Meyers, a former employee and now an Ensign in the Navy, paid us a visit last week. . . . Edna Turnbaugh and husband spent the week-end in Cleveland. . . . We wish a speedy recovery to Jean Hockenberry's little boy who has the chickenpox, and also to Pat Davis' little girl who has the scarlet fever. . . . This is the last warning to Vera Poe, who is going to take the fatal step on Easter Sunday. Don't believe two can live as cheaply as one. . . . Joan Schuller is her spry old self since she didn't play basketball over the week-end.

The following employees donated blood during the week ending Feb. 19.

Lewis Barney, Robert Crosley, John Franke, Paul E. Frantz, Robert McCollister, Miss Lora Schroeder, Robert Rietdorf, Richard R. Didrick, John E. Howard, Bernon J. Huguenard, Richard Madden, Ralph Schroeder, James Stoiche, and Pondo K. Vlasheff.

**CUTS RETIREMENT CAKE**—Clarence Caseldine (second from left) cuts his retirement cake for (l-r) Daniel Aughenbaugh, Charles Foreman, Philip Schott, and Carl Steinbacher. Mr. Caseldine, a former trucker in Bldg. 4-B, also received a television set as a gift from his co-workers.

## THE NIGHT WIND SECTION 417 TAYLOR ST. by Hazel Davis

Another new face around 11 frame is June Olson. We are glad to see you back, June. . . . It is "so long" to Marvis, Barbara, Ruth, and Iris as they are transferred to Bob Hull's new line. . . . Happy birthday to Frieda and Leona. . . . Welcome back, Blanche Lattimore and Norma Huff on the brazing line. Welcome to Hollis Jack in the 430 group. . . . Denver Coolman and Rowland Parner are the "Rover Boys" of Div. 17. . . . Opal Snider, you should turn on your machine before calling for the repair man. . . . Adele Weidtfelt says you have to be very fast to do your housework during the commercials on television.

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Ray Smith, Dorothea Miller, Fred K. White, Martha K. Ruhl, Fred Bender, Virginia A. Whitney, Henry Borne, Kenneth Arnett, Doris Case, Maurice Cook, Robert Crecelius, Ed Dahlin, Max Fielitz, Lawrence Case, Irene Holley, Alvin Happel, Jess Hart, Ed Worden, Oliver Tracey, Warren Hawley, Audrey Hickernell, Alice Fuchshuber, Erma Manor, Raymond Meyers, Marjorie Ogden, Mary Schlau, Joe Wyss, John Hippenhammer, Joe Zephyr, Claudia Twibell, Robert Reardon, William Nodine, Eva Morrison, Herbert Luntz, Mildred Insley, Ollie Harvey, Howard Harold, Eugene Diehm, Daniel Burley, Elizabeth Bieber, Gladys Baltes, Robert Taylor, Norman Wolf, and Charlotte Ester.

### Dismissed From Hospital

Garland Herron, Alfreda Gessler, Daniel Antrim, Elizabeth Williams, Fred Adams, Leonard Jenne, Loretta McCarroll, Albert Wickliffe, Emma Phillips, Robert Crecelius, Warren Hawley, Edward Dahlin, Audrey Hickernell, Doris Case, Robert Gotschall, Miguel Garza, Fred Bender, Dorothea Miller, Paul Devor, Mildred Fast, and

## SLEUTHING in 4-6 by Al Happel

BY-BY: Last Friday we bade farewell to Gene Yealy who will spend his next test assignment at Winter St. Leaving us today is Glen Shaver. Glen's next assignment is at the Philadelphia Works. A little gal who has been with us for a long long time, Donabelle Degler, is also leaving us today to become a full-time housewife. Donna, we shall miss you and we wish you loads of good luck and please let us hear from you now and then. . . . HELLO SHIRLA HENNEY, our new messenger. Shirla is married and lives at Columbia City. . . . WE ARE HAPPY to report that Bob Humbert, Val Rowan, and our star reporter, Al Happel, are all back with us again after a siege of illness. . . . HAPPY BIRTHDAYS to Ina Archer on March 6; a former employee, Maxine Lonergan, on March 7; Bonnie Leazer, March 8; and Johnny Boeckel, March 11. Hope you all have very pleasant birthdays. . . . WELCOME to Katherine Jamerson. She is an engineering assistant working for R. W. Dochterman. . . . CONGRATULATIONS: Jerry Duryee was presented with a cake from his fellow workers. . . . HELEN SMITH, also of Accounting, struck it rich over the week-end as a result of the Sectional tourney. Her old alma mater pulled through with flying colors. Now it's "on to State." . . . ANYONE KNOWING the whereabouts of a German shepherd dog, please notify Accounting at once. Clarie Mygrant has been deviling her husband for months to get her a dog, and he has finally consented to her having one, if it's a German Shepherd.

### Ray Smith.

### Returned to Work

Rufus Niblick, Stanley Tisovic, Allison Van Wormer, Helen Mossburg, Richard Smith, Jr., Gladys Smith, Betty Emrich, Oscar Meyers, Bethel Heersche, Margaret Mueller, Lucille Miller, Lucille Bates, Daisy Long, Margaret Lehman, Lawrence Huffman, Carolyn Kocks, W. M. Rowan, Dorothy Mondy, Chester Bend, Alma Wilkinson, Frederick Peck, Helen Platt, Rosella Koons, William Hodge, Willadean Todd, Lillian Harris, Margaret Kenyon, and Wayne Chapman.

# GE Club Springtime Revue Talent Lineup

## Spring Reveue

(Continued from page 1)

and members of their immediate families. The date when tickets may be secured will be announced in the GE NEWS next week. Employees must present their GE Club membership cards to get tickets. The GE Club desk, Taylor St. employment office, and 18 members of the entertainment committee will have tickets for the seven shows.

Tickets for the Springtime Musical Revue will be available at a date to be announced later. To secure tickets, employees must have a GE Club membership card for the current year. Any employees who do not have their cards should contact their foreman to obtain cards.

New employees should get cards at the employment offices at Broadway, Taylor St., or Winter St.

NANCINE AND ROBERT

WHITEY ROBERTS  
Master of Ceremonies

SANGER, ROSS, AND ANDREE

MARIMBA STARLETS

DORBIN DANCERS

LOUIS P. MANZ (second from left) receives 30-year congratulations from Clarence Linsky, C. B. Unecapher, Ed O. David, and David Bridges. Mr. Manz has been a truck driver for GE since 1923. He now works out of Bldg. 6-1.

CLARA GIDLEY (seated) is surrounded by her GE friends on her 30th anniversary as an employee here. With her are (l-r) Mary Shreve, Florence Minnich, Goldie Waikel, and Vadas Putt, all of whom have more than 25 years of service. Mrs. Gidley is on miscellaneous assembly work in Section 417 at Taylor St.

EDWARD JACKSON (right), an engineer in the Taylor St. Laboratory reached his 30th anniversary as a GE employee recently. Mr. Jackson is congratulated on the occasion by Ford Zimmer and Roland E. Kohl.

HAROLD GEORGE (left) gets best wishes from Paul Lehman and Walter Holloway as he winds up 30 years with the General Electric Company. Mr. George is a set-up man in Section 114 at Taylor St.

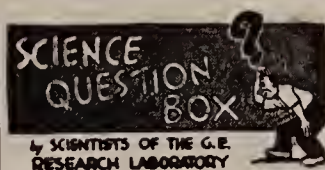

CARLOS S. CAMPBELL (right) greets Bill Pierce and John Root on his 30th anniversary with General Electric. Mr. Campbell is on test repair work in Bldg. 20-1.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

"Bugs Bunny" Bucher can't smile these days, his teeth you know. . . . Ensign Barbara Meyers visited us Thursday. She is an occupational therapist for the Navy. She formerly worked in Shipping. Nice to see you, Barbara. . . . Virginia Goeglein is ill with tonsillitis. . . . In spite of the snow and rain, several of our girls enjoyed the trip sponsored by Elex to Chicago. Just nothing like the Windy City. . . . Ed David has the TV bug. Ed is in the market, but can't make up his mind what to buy. The boys in Bldg. 6-1 didn't want to see Ed suffer any longer so they presented him with a beautiful 21-inch GE model. Ed seemed very happy with this gift and it was on display on his desk all day. Of course, this was a home-made model from a wooden box and a picture from a GE calendar. . . . Happy birthday to Robert Whonsetler, Delwood Bucher, and Francis Parker.

Q. Why is acid sometimes put into oil wells?

A. As oil flows through porous rock, on its way to the wells from which it is taken out for the use of man, it tends to carry with it small rock particles. These may in time plug up the pores through which the oil passes. If such "reservoir rock" is limestone, the flow of oil may often be restored, at stored, at least partially, by treatment with acid. This dissolves the limestone and reopens the small passages through which the oil has been moving.

Q. Is there anything in the old proverb, "Rainbow in morning, sailors take warning; Rainbow at night, sailor's delight?"

A. Yes, this saying is justified to a great extent. A rainbow is always seen opposite to the direction of the Sun, and results from the bending of the Sun's rays in raindrops. Hence a morning bow must appear in the west, while one in the evening is seen to the east. Weather in general moves from west to east. Therefore, a rainbow seen at night is likely to result from a storm that has already gone past, while one seen in the morning may be from an approaching storm or shower.

Q. What causes "gooseflesh"?

A. This roughness of the skin, which is induced by cold, or by strong emotions such as fear, is a result of the involuntary contraction of muscles that form a little cylinder around the base of each hair. The hair is thus raised, an effect that can be observed in a cat when it is scared or angry. In the human body, hair that was present in an earlier evolutionary stage no longer occurs but the muscular equipment still remains. When these muscles contract, they cause the little bumps on the skin which is commonly called "gooseflesh."

Are you often  
**OVERTIRED?**

Consult your doctor!

Pastor: "Good morning, sonny. I hear the Lord has sent you two little twin sisters."

Sonny: "Yes, sir, and daddy says the Lord's the only one who knows where the money's coming from, too."

# OWLS RUN VICTORY STRING TO 17

by Howard Colby

The GE Owls took the measure of Salisbury last Thursday morning by the score of 34 to 27 to run their winning streak to 17 in a row.

In the first quarter for the Club team Bob Markey hit two field goals and Anspach, one. Gladieux, White, and Etter each added a free throw for a first quarter total of 9 points. Salisbury was held to a single basket and two free throws for four points.

## Shroyer, Delman Lead Doubles With 1288 Total

In the second period each team scored 13 points. GE obtained their points on baskets by White, Markey, Wilson, and Fisher, two by Gladieux, and a free throw by Dickey. This put GE in front, 22 to 17, at the half.

GE dropped a point from their lead in the third, when Salisbury scored 6 points, while the Owls hit for only 5 points on a field goal by Wilson, and a basket and a foul shot by White, for a third quarter score of 27 to 23.

In the final period GE scored only 1 field goal, by Bob Markey. The rest of the scoring was done at the charity stripe where the Owls hit 5 out of 8 to make the final score: GE, 34, and Salisbury, 27.

Next week Salisbury meets Aircraft Gear at 9 a.m.; Zollner and GE get together at 10 a.m.; and Eckrich plays Indiana Rod at 11 a.m.

## STORMY WEATHER BLDG. 17-4

by Bill Hurtt &amp; Larry Reed

Watch for the latest book on the best seller lists: "How to Go In Business and Out Again in Five Minutes," by John Howard. . . . A welcome addition to our winding section, but by no means a stranger is Lucille Welch. . . . While our motto is: "Progress Is Our Most Important Product," nevertheless, we offer our sympathies to Cy Seymour on losing his job at the Golden Gloves Fights. Remember, Cy, the machine is replacing the man. . . . The honeymoon must be over. Clarence Nussel now complains that in order to get his breakfast he has to go to a restaurant. . . . For the very latest and most unusual method of preparing pickled heart and pig's feet, contact Alice Pfueger. Because of her great affection for these dishes she decided to make some herself. After buying the meat, she cooked it and prepared to soak it in vinegar but had to delay because she had no vinegar. After it had been obtained, the last step in the operation had been completed. When a customary waiting period had elapsed she went to the crock to sample her efforts but strangely enough they tasted very sweet. On further investigation she found that she had used sweet cider for

the pickling process. All hail the new Jane Weston. . . . It's a pleasure to welcome an old friend, Lloyd Pinkerton, who has assumed his new duties in the Test Section. . . . While it was disheartening to lose out in the tournament, Mike Lowe derived some measure of enjoyment when his boy broke the scoring record at Elmhurst. . . . This is one item we are very glad to report: Helen Fletter's two boys, who were in an accident last week, are both coming along well. In all sincerity we wish them both a very speedy recovery and no lasting ill effects. . . . Quotation for the week: "The size of a man can be measured by the size of the thing that makes him angry."

**'DON'T FENCE ME IN'**—A class in fencing instruction is being taught at the GE Club Friday evenings currently from 7 to 9 p.m. Among the students are Ed Papiez, Bldg. 26-2, and Glenice Blume, Bldg. 31-2, who are practicing under the watchful eye of instructor Joe Bahr, Bldg. 20-2, left. The classes are open free of charge to employees.

## 6-4 AIRLINERS

by Moe Satterthwaite

Ruth Reed went on the excursion to Chicago with the Elex Club last Saturday. When she arrived back in Fort Wayne her husband was supposed to meet her. He was detained a while in Columbia City trying to explain to the judge why he was flying so low on his way to Fort Wayne. After a small fee he arrived at the station. It's a good thing that Ruth left him a couple of dollars. . . . Jackie Keller worked all last Saturday preparing a fruit salad for 16 people who were going to have a potluck in Auburn the following day. Sunday Jackie and Ralph got up early, loaded the fruit salad in the car, and left for the big dinner in Auburn. When they arrived they drove around looking for the party. No one was home so finally Jackie called Fort Wayne to see where everyone was. Then she found out that the party was to be this Sunday and not last. Anyone wanting some discolored fruit salad, contact Jackie! . . . We are sorry to hear that Red Doakes is ill. Here's hoping him a speedy recovery. Hurry back, Red, the place doesn't seem the same without you. . . . If all of the foremen were hoarse last Wednesday morning it was because they had a good time at the hockey game Tuesday evening. If they use some new

phrases such as face off and high sticking it is because they picked them up at the hockey game. . . . Andy Anderson and George Lude-man were in Milwaukee at a bowling tournament last week-end. The team was still in the money when they left. . . . Little Pondo was initiated into the 40 et 8 last Saturday. I'm not going to say what he was required to do but if you were uptown and saw a girl that looked like Pondo, it wasn't Pondo's sister. . . . Another person was convinced this week that TV is here to stay. Butch Konow is the latest newcomer to the "Two Gun" playhouse. . . . Welcome to Lucile Schelper, who is the new addition to Bldg. 6-3 office. I wonder if she's any relation to that guy in Div. 17 by the name of "Oscar." . . . All together let's say, "Happy birthday" to Barb Smith, Ed Hils-mier, and Little Herbie Tilbury.

## COUNT OFF

SECTION 417 TAYLOR ST.

by Marguerite Stahl

We welcome Vivian Eggelston to our section, 17x51. . . . Luida Wahrer spent Sunday in Troy, Ohio, with some Komet fans. . . . Our sympathy is with Grace Hunt, whose father-in-law passed away. . . . We wish Mabel Staley a speedy recovery. . . . Herman Watters was very happy over his mail from Charlie Engle, who is visiting in Florida. . . . Laura Adams, Al Seifert, Oral Emerick were all seen Saturday afternoon at the basketball game. Some are rejoicing and others are blue. . . . Laura Gerber says she really enjoys working on Saturdays with group 17x61, especially when there is food involved. Sarah Moore made vegetable soup that was just out of this world. Clarabelle Whiteman furnished the crackers. Laura, they tell me your coconut cream pie was deluxe. Cozey Wampler was also in on the potluck, but no one told her to bring a thing. So watch out next time, Cozey! . . . Virginia Buesching is very proud over the new arrival in her brother's family in St. Louis, Mo., her first niece.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

Not having had much success in his former business ventures, that of peddling dogs and hogs, Howard Harold is giving these up and plans on going into the general contracting business. He is now busily engaged in assembling the numerous tools of the trade and is going to practice on his own house, giving it a general overhauling before throwing himself upon the unsuspecting public. When he completes his own home we definitely want to see it, but with misgivings, as no doubt it will resemble the house that Jack built. . . . Herman Hake was telling us the other day that he was glad to see the grass starting to get green again. He is getting tired of keeping those three sheep of his in the house. He is very hopeful that he will be able to turn them out to pasture soon. He also told us that due to the fact his sheep have done so well he is planning on acquiring several head of nanny goats to keep the sheep company. . . . Clarence Stove, being a devout fan of our popular TV weather forecaster, Ken Newendorp, has gone so far as to project his observations on a 21-inch corrugated paper screen here in the plant. Everyone is showing quite a lot of interest in his daily summary of the weather front. He is also thinking very seriously of changing his name to Clarence TV Stovendorp. . . . Bob Gerdorn who has been talking marriage for quite some time, and planning on having the nuptial vows solemnized on July 24 this year, has begun to show the white feather. We do not know for sure whether or not he is getting cold feet as time drags on. His latest date is some time in September, which will be all right if he does not continue to set the date ahead. This is dangerous as many a young swain has lost his lady fair by just such a practice.

The man who gives in when he's right is weak, spineless, and probably married.—James Balke.

## FARMNOD MASDA

The above letters, unscrambled, will spell some General Electric employee's name. All letters in each of the first and last names must be used. Do not combine the letters of the two names.

If this is your name, you will receive a ticket entitling you to \$1 in merchandise at the cafeteria. Come to the GE NEWS office, Bldg. 18-1, to claim your reward.

Another scrambled name appears elsewhere in this issue.

## WIRE RAVELINGS

TAYLOR ST.

by Art Rasor

Jake Arnold drove his car to work one day last week. This alone is an occurrence worthy of note. It is very seldom that he is permitted to have the car. He has now spoiled his chances of ever getting it again because he forgot to take it home with him that night. When his wife met him at the door and asked where the car was he replied with typical "Arnold" fast thinking that he had lost his keys and had to come home for the spare set. Under intense cross-examination by the family, however, he broke down and admitted that he forgot the car. His wife spent the next six hours on the phone telling all of Jake's friends, acquaintances, debtors, and creditors the story. P. S. Jake was given 45 minutes to bring the car home. . . . At 10:30 a.m. Bill Rohe's two office companions told him it was time for lunch and, without noticing the time, Bill hurried to the cafeteria and wondered why he was first in line. Realizing he was too early, he turned to leave and was caught in the act by a fellow employee. He explained that he was ordering steak and mushrooms so they would be ready for his dinner. This being a little out of line for a cafeteria meal, Bill was really surprised when at his regular lunch time he was handed a platter of the meal he had said he ordered. He enjoyed it immensely, but then became embarrassed when he discovered his change was too short to pay the \$1.40 check. He was saved from having to do dishes by a helping hand, but hereafter he will be sure to check the time more closely to avoid another such adventure. . . . Two employees of the Wire section have been lucky winners at the local hockey games. "Doc" Menefee won the electric razor for January, and Art Gardt won two free tickets to a future hockey game. . . . Birthday greetings to V. Sheets on March 3; Jess Easterday on March 5; "Salty" Coulter on March 7; and Esther Shannon on March 8. . . . After reading in the "Parade" section of the Sunday paper a couple of weeks ago about milk baths, Emory McDaniels accidentally tried the same treatment. The only

trouble was that while he was pouring some waste compound into a scrap drum the funnel moved and made him change to dry clothes. . . . It was an unusual happening, but Oscar Baumgartner had to give his fish away after catching them because he sprained his wrist and couldn't clean them. Even after the favor of saving someone a fishing trip, he still wasn't invited out to eat them, making the whole trip unsuccessful. . . . Carl Junk was getting out of his car with 10 pounds of popcorn when he spilled the entire contents on the street. As soon as he stepped into the house he was questioned as to where it was. He told his wife he needed a broom and dust pan to clean it up from where he spilled it in the street. She told him he needn't bother because she wasn't going to eat any of it, and that he was to get another order. . . . Mary Johnson has left the cost section to take up home duties. She is being replaced by Willadean Todd, who has returned after a leave of absence. . . . Austin Garman has also left the company to take up the duties of a city fireman.

## ECHOES from 19-2

by Fred McIntyre

We extend our sincerest sympathy to Martha Musselman on the loss of her father, also to Luella Boyce on the death of her brother-in-law, James Boyce. . . . Our visitor for the week was Monte Kelsey. Retirement certainly agrees with Monte. He's looking fine. . . . Violet Trammel and Nellie Parr have left us to work at Winter St. Norman Langmeyer is in Bldg. 26-5. Good luck, girls. Our loss is someone's gain. . . . Wilma Burkholder has finally returned to work after having been off work because of a broken arm. Welcome home. . . . Junior King is whistling the "Prisoner's Song." He was given a ticket in South Whitley for running a stop sign. . . . The starlings have come home to roost in Tony Lupe's martin house. Can't they tell the difference? . . . We're sorry to hear that Homer Hibler's boy, Stevie, has a broken hand. Reason? Basketball. . . . The bowling team, of which our eminent Bldg. 19-2 foreman is a member, will be mo-

toring to Louisville, Ky., for a tournament. Who's the foreman? Oh, that's Emmett Zollinger. . . . Florence Hindman, Edna Etlzer, and Gladys McNillan joined Elex in a trip to Chicago, Saturday. . . . Roy Lawrence is moving to his summer home at Hamilton Lake in a week. Some guys get all the breaks. . . . Birthday congratulations to Emmett Zollinger. Jack Benny and Zolly are now the same age. . . . Ernie Linn is now wheeling himself around in a wheel chair at the Lutheran Hospital. We're certainly glad to hear that. . . . Earl Beber, "The Man of the Hour." The cops caught up with him and the stork is on his trail. The cops he might have out-run, but the stork is a sure thing. . . . Murray Johnson used to be a skeptic about this television business. Not any more. Just call him T. V. Johnson from now on. He joined the club. . . . Leonard Michel and staff have been wanting a new secretary, blonde preferred. The writer has always been under the impression that they liked them brunette and brainy, but it just goes to show brains never get you anywhere. It's the local color that does the trick. . . . Bob Stute's wife went to Tucson for a visit. Did that ever cut off Bob's pies and cakes he used to bring in his lunch! . . . Welcome, Lois Weeks, to DC Motor Generator. Good-by to Dorothy Whonsettler, who has gone to work in Bldg. 31-1. . . . Another TV field is Lowell Kelsey. Between my car and the TV, I would pick the TV, Lowell says. I park my car and then I park by the television. . . . To Anthony Lupe we extend our sincere sympathy on the loss of his wife, and to Emile Droege on the loss of her great niece. . . . Congratulations to Melvin Yoquelet. He has a new baby daughter. . . . Paul Hathaway needs a new car and a new furnace. His furnace blew up and his car quit running.

## SPOT LIGHTS

BLDG. 4-2

by Estella Pettibone

To the family of Carl Swanson, we extend our sympathy. He was buried Feb. 20 in Montpelier, Ohio. Former co-workers from the tool room were pallbearers. . . . Our sympathy also goes to Bernie Fortman. Her father passed away. . . . Evelyn Daugherty has been spending much time at the bedside of her father in the Wells County Hospital. She reports he is improving nicely and we all wish him a speedy recovery. . . . After buying cokes for co-workers all week Kenny Geisinger finally discovered some nickels have "heads" on both sides. . . . Ed Rosenbeck is having quite a lot of difficulty tuning in his television set. It has been suggested that Bert Brown teach him how. He uses a mirror and tunes his in from the back. . . . Jerry Struter has completed his time in the Army and is now home. . . . Birthday greetings to Carmen Sordet and Dessie George. . . . If Ray Lepper seems a little "chesty" he has a good reason. He is now in the category of grandfather. This baby girl is very unusual, practically walking and saying "Grandpa," at the age of two weeks. . . . John Roose inquired of Johnny Wilson what roast would be the best buy for Sunday dinner. Johnny sold him an arm roast. Later Roose told Wilson the roast was delicious, what there was to it. His wife decided it was so nice it would have to make two meals. Incidentally Johnny is a Saturday butcher. . . . Oliver Tracy is on the sick list. We wish him a quick recovery.

**RETIREMENT GIFT**—Forest F. Wilson (left) displays the outboard motor he received as a retirement gift on his last day of work. Assisting him are H. F. Briggeman (center) and T. Wayne Jones. Mr. Wilson has been a GE employee since 1918 and was a leader in the shipping section, Bldg. 6-1, before retirement.

## DECATURITES

by George Laurent

Belated birthday greetings to Junior Lake, Junior celebrated Feb. 16. . . . If you don't believe Eloise came to the party last week in her Western attire just ask her. With Eloise, seeing is believing.

Not long ago while heading for the dock, I saw the girls were standing at the clock.

They were laughing and looking in a sack saying, "I never saw a thing like that."

Told me Elsie Peters brought this from home.

And this happens to be home grown. It was just an Irish potato grown so queer.

This freak proved to be a curiosity here.

Now this is one potato that got around. When Jay Moser saw it, it was Office bound.

After that it went to Fort Wayne, you see.

So Otto Huffman could show his wife, Dorothy.

Heard it is now wilted and shooting sprouts.

Reminds us it's almost time to put gardens out.

If interested better order right away. For Elsie says she sold four bushels that first day.

We wish to extend heartfelt sympathies to Dorothy Schnepf and other members of the family upon the recent death of their father, William "Bill" Schnepf, Sr. . . . Frank Sprunger and Arthur Closs of Bldg. 2 are back with us after several weeks being laid up with injuries. We're happy to see Frank and Art enjoying good health again. . . . We're also glad to have Dewey Neidigh back after a short illness. Best of health to you, Dewey. . . . Congratulations to the Monmouth Eagles who repeated as Sectional high school basketball champs for the second straight year. Monmouth's next foe will be North Side, winner at Fort Wayne. Keep going, you Eagles! . . . In the last week there has been but one topic of conversation—basket-

ball. Some observations are: Phyl Gerke dying ten thousand deaths during Commodore - Monmouth game. . . . Tom Haubold after the Decatur-Geneva game, "On to State." . . . Marie York playing the hardest game of the tourney. . . . Dwight Little, "Bluffton has the best team." Bob McAfee admitting it Monday morning. . . . Red Tumbleson eating Harvey Hileman's candy. . . . Art Dennig changing teams. . . . Martha Myers at the big bonfire in Wren.

**RETIREMENT CELEBRATION**—August Rodenberg (seated) is congratulated on his retirement last month by O. W. Rodenbeck, while a group of his friends looks on. Mr. Rodenberg first joined the company in 1919 as a machinist in Bldg. 26-5. He was an inspector in Bldg. 19-5 before retirement.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

## CLOSING DATE

Monday Noon, March 8, 1954

## LOST AND FOUND

LOST—Keys in Bldg. 26-1.  
LOST—Scottish Rite tie holder.  
FOUND—Lady's tan fabric glove.  
FOUND—Lady's gray wool neck scarf.  
FOUND—Lady's sterling ring, green set, Taylor St. parking lot.  
FOUND—Rhinstone and black ear drop.

## FOR SALE

SEWING MACHINE—Nice, treadle sewing machine, like new, in excellent condition. \$20. Nice upright Hoover sweeper in excellent condition with built-in light, attachments. \$20. A-59323.  
DAVENPORT—Maroon freize, good-looking, excellent condition. \$35. Blue-gray occasional chair, \$5. 4930 Oliver St., K-1086.  
GUITARS—Two electric Hawaiian guitars, one electric amplifier, good condition, will separate. H-03454.  
IRONER—GE compact, rotary ironer with stand. \$50. A-78535.  
HOME—Six-room, all modern home. Includes large lot, almost new garage, large basement, new coal furnace, rug carpeting. Bendix automatic washer, hot water heater, venetian blinds. After 4 p.m. Herman E. Hertz, Box 34, Zanesville, Ind.  
MOTOR BIKE—1950 model James motor bike, in good condition. Driven 3,000 miles, \$175. Richard Morton, Hoagland; 2 shorts, 2 longs on 62.  
SEWING MACHINE—Minnesota sewing machine, electric, reasonable. H-20944.  
CAMERA—Argus, 2 1/4 x 2 1/4 reflex camera, F 4.5 lens, case and flash. Two 9x12 ozite rug pads, 18x32, two basin sink. H-7422.  
DAVENPORT—Wood trim, in fine condition. \$25. H-75602.  
HOUSE—One-half acre of ground, five-room house, bath, motor plumbing, 1 mile south of Wolf Lake on State Road 109, 239 Etna.  
RADIO—1946 Buick Super radio and heater. Must sell at best offer. 2530 Warsaw.  
GARAGE—1 1/2 car garage. 2213 Brown. A-96163.  
PLAY PEN—Boodle buggy and stroller. Pads are included. Will sell all for \$25. H-55001.  
CAMERA—Bell and Howell, 8 mm. movie camera, model 134V with F 2.5 lens. Also Remington Auto, 12 ga. shotgun with ventilated rib. Both like new. A-96021.  
BED—Simmons (2 crank type) hospital bed, side rails, and innerspring mattress. Like new. After 4:30 p.m. or week-ends at 3726 Weisser.  
ROLLER SKATES—Pair roller skates, size 7 1/2. New Haven 3343.  
DOG—Three-year-old registered male Pomeranian dog. Likes children. \$50. 403 Dunnwood Drive. A-66632.  
TRAILER—23 ft. Trailmaster trailer, very good condition. Tires with less than 100 miles. Will sell cheap. Clyde Buycy, Box 25, Wolf Lake.  
DOOR—Interior, swinging, birch, single panel, with casing and hardware. Excellent condition. H-59624.  
HOUSE TRAILER—33 ft., 1950 Modern Alma, single bedroom, large living room. Lot 70, Ideal Trailer Homes, Lima and California Roads.  
JOINTER—4 1/2-inch Craftsman jointer, built on heavy bench with rollers. Built in draw to catch shavings. \$40. Four string tenor guitar, \$12. K-3518.  
DINING ROOM SUITE—8-piece mahogany, excellent condition, reasonable. 909 Cottage Ave., H-17333.  
MITER BOX—Stanley miter box, 36-inch saw, \$45. 6 1/4 hand-powered saw, \$25. H-02359.  
BICYCLE—26-inch boy's bicycle, in good condition, with basket and new tire, \$20. H-66332.  
TABLE—Walnut, Duncan Phyle, drop leaf table in very good condition. H-35047.  
DINING ROOM SUITE—Table and 6 chairs, good condition, \$18. A-69921.  
HOUSE—Six-room, three-bedroom, two-story house on large lot. First-class property, modern, ideal location, fine for children. Will sell or trade for bungalow. Southeast near James Smart School. H-0509.  
DINETTE SET—Lined oak extension table with two leaves, four chairs. Chairs newly covered, \$20. H-44535.  
BUGGY—Welch Deluxe baby buggy and pad, excellent condition, \$16. H-28151.

## TOOL BITS

## BLDG. 19-4 and 5

by Howard Demsey

We wish to express our sympathy to Harold Cutler on the death of his mother. . . . The planning unit welcomes Ralph Foust. His move has left a hole in the noon euchre game downstairs but he has already taken up his post as kibitzer in the noon euchre game in the office. . . . If the floor in Schafenacker's section looked cleaner than usual this week, it's because Don Konow and Dick Reinking were dragging their chins on the floor after Concordia lost to North Side. . . . Kenny McCague's new fire truck was slightly damaged when it became impatient to be off in search of fires and the garage door was still closed. . . . The die plant welcomes Oliver Lambert and Eugene Ries back after a short visit with Uncle Sam. . . . Gus Ausderan is trying to trade his TV set for Bob Niles' Packard. Gus heard there wasn't as much snow outside as he gets on his screen and he'll throw in a set of snow tires on the deal for the TV set. . . . Clarence Wiebke, with a 155 average, working on a spare with one point needed to win the game, threw a gutter ball. And Clarence wonders why his teammates put pencil shavings in his tobacco pouch. . . . Carey Baker tried to console Harold Wherry over Coesse's loss to Arcola by telling him it was an act of good sportsmanship by Coesse to lose since Arcola hadn't won a game all year. . . . Rufe Niblick paid us a visit last week looking fine and telling us he'd be back sometime this week. . . . Ross Cohagen took his third week vacation while his car is being overhauled. Rumor has it that he wanted to be on hand while his car was torn apart so that no antique car collector could pick up any of the parts. . . . Dallas Kies can't understand why some people wait until the last minute to buy their license plates. He remembered and ordered his in plenty of time. The only reason he drove his brother-in-law's car on Mondaw was because he forgot to pick up his plates at the license bureau before they closed for the week-end. . . . Anyone planning on putting a Formica top on his cabinets should see John Stetler for what not to do. John decided to put a new top on his sink cabinet and bought some Formica and took it home. Before he even started to put it down it cracked lengthwise but he still could use it. So last Saturday he started to cut it to fit around his sink but when he got done it

was all in pieces the size of his hand. That convinced John that Formica was allergic to him so he finished the job with some different material. . . . Max Baron claims there is a man in his neighborhood who is 10 feet tall, 70 years old, and still growing. John Roemer thinks it's just a tall story because if there was such a man the Pistons would have him signed up by now. . . . Wilbur Lane has a birthday March 11 and has offered to bring in a home-baked cake if the boys can get a permit from the fire department to light all those candles. . . . Bob Pickett and Leland Richardson ate Gus Ormsby's lunch from his lunch bucket the other day, leaving him only two pickles and a piece of celery. To make it up to him they offered to buy his lunch. Gus took them up and ordered everything he could think of and it cost them 87 cents. Gus claimed it still didn't equal those fish sandwiches that were filched. . . . Les Hines passed out candy bars and cigars for his birthday the other day. Les claims he is in his 27th year with the GE. . . . Eddie Kammeyer says his ear drums are healing nicely after his wife's screams during the Concordia-North Side game on TV. . . . FLASH! Marion More takes candy away from baby! The baby was a toy called a cry baby which let out a yell when you took a sucker out of its mouth. . . . Eldon Mee wants it known that the fish for the fish-fry he's selling tickets for are strictly the "store-bought" variety. He is not a fisherman. . . . Our three biggest GE stock shareholders through the stock bonus plan, Henry Frey, Elmer Sauerwein, and Kurt Martin, are holding directors meetings regularly in the "Dutch Colony" of Walt Greiner's section. They are figuring out ways of unseating Woody Hursh, who is not a stockholder, from his position as "Head Dutchman." . . . Mrs. Spangler is convinced that one of the buyers of the beef Clyde butchered just didn't cook right. The buyer, Walt Greiner, claims he is going to have several pairs of shoes half soled with the beef. . . . Kurt Martin was planning on feeding Hank Wittber's pigeon while he was off sick but none of the farmers would bring in any corn. . . . Don't forget the Ed Schafenacker party tomorrow night. We understand they will have some very capable foam dispensers in Ralph Steward, Jack Schemehorn, and Gus Kruse. . . . Mike Brandon got himself in the dog house on Sunday when he spilled a quart of varnish on the rug while varnishing windows. . . . Congratulations to Bill and Mrs. Hunt on the arrival of an 8-pound 6-ounce son at 2:30 a.m. Monday. . . . Things must be getting dull in Indiana on Saturday nights when Gorgon Yaeger has to go to Decatur to find excitement. . . . Welcome back to Dick Arnold and Gene Kester upon their return to work after illness and an operation, respectively. . . . Sharon Matthews is slowly regaining her voice after an overdose of cheering for North Side. . . . Marvin Beck and Michael Pence of the DeKalb Works visited the machine design section on Thursday last week.

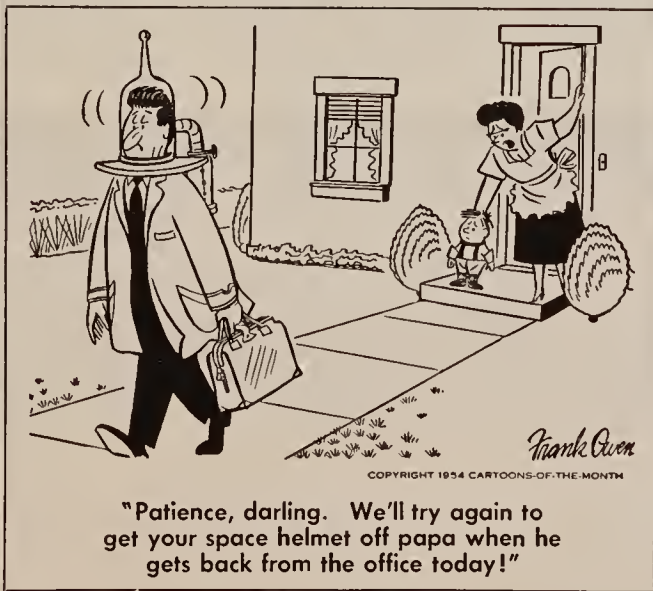

Maw and Paw left their mountain farm for the first time in years to attend the county fair. While strolling through the fair grounds, they passed a demonstration stand where a company was exhibiting one of its washing machines in operation. Paw looked at the glass door in the machine's front end and at the wildly girating clothes, suds, and water, and then remarked to Maw: "If that's television, they can have it."

## THISA &amp; THATA

## BLDG. 4-3 and 4

by Helen Engle

Harley Heckley was wearing his chin on his chest because Ossian lost the Sectional. . . . Glad to see Alice Fuschuber and Edna Rohrbach back at work after a siege of being sick. . . . We extend our sympathy to Janice Egolf on the death of her grandfather. . . . We of Section 401 offer our sympathy to the family of Berny Parent who died Saturday. Berny was a foreman in our section and will really be missed. . . . Spring is just around the corner, so Emery Tucker is getting his dog-fish tackle in order. . . . Al Erwin has applied for the job on the coffee-grinder at the Emery Tucker farm. . . . Emily Neirman is driving a new Ford. . . . Clem's "Leaping Lena" didn't last very long in the candy machine in Bldg. 4-3. Seems everyone liked "Lena." . . . Ruby DeBolt is very happy these days. Her daughter and son-in-law are back in the States. They have been in England. . . . SEBOLD FOR PRESIDENT—Dick is running on the Motorcatic, 3 Legged, Dog Ticket. J. E. Mills, campaign manager, says: You can put your confidence in R. C. Sebeld. "Quote." "They are as straight as the dog's hind leg." Others on the ticket are: R. Meyer, Sec.; W. Charleston, Dir.; and G. Castle, Dir. Another of their famous mottos is "ex nihilo nihil fit" which means "From nothing, nothing is made!" . . . Bill Crane hitched a ride with Emmett Mills and the first question his wife asked him was, "Where is the car?" Bill says, "It will be here in 15 minutes," and he jumped on his boy's bike and raced back to the GE parking lot for the car. That is not all, for the following week his dog followed him to work. It seems the dog doesn't like to stay alone. Don't believe we can get him on the pay roll, Bill. . . . Flo Korte will go along with the article in the GE NEWS about the chair situation in Bldg. 16-1. He was seen sitting on a three-legged one. . . . Bob Blee was seen trying to get something for nothing from the cigarette machine. He got nothing. . . . Herb Sullivan was so interested in his work on the grinder that when the auditor asked for his clock number Herb gave him the size of the shaft he was grinding. . . . Dick Crickmore, the visiting fireman from the third trick, made a good start on a fire run Friday morning at 8 o'clock. You have been on third trick too long, Dick. . . . Ever since Marie Griffin dreamed about a magic kitchen sink where all you have to do is hang up a sack of flour above and push a button and out comes gravy, she has had to have a plumber every Monday. . . . Clara Frede, Walt Dryer, and Walter Bloomberg are all leaving on pension this month. We hope you all enjoy your leisure time. . . . When the auditors came around to pass out the checks, Grace, our matron, had one of those embarrassing moments when she didn't know her clock number, but she did know in just what place to put her card when she rings in and out. . . . Congratulations to Mr. and Mrs. James Blanks, the proud parents of a boy. Lola was a former co-worker. . . . Clara Patterson says spring is here as she saw a robin in the yard Sunday. . . . Birthday greetings to Ruth Tutwiller on March 2; Claude Weaver, March 3; Jerry Burkett, March 6; Verna Meyer, March 8; Ted Bain, March 8; Federal Income Tax March 15; Gladys Beal, March 16; Lloyd Jacobs, March 23; Donna Crow, March 25; R. Cord Meyer, March 28; and Gertrude Boxberger, March 31.

# HOW GENERAL ELECTRIC WORKED IN 1953

## in the balanced best interests of all

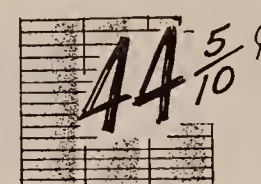

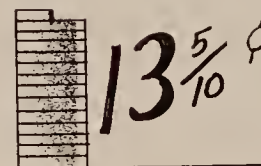

### GENERAL ELECTRIC RECEIVED

In return for products and services it supplied during the year 1953, General Electric received \$3,128,127,000 from its customers. Here's how this income was shared by those whose services of various kinds made this output possible.

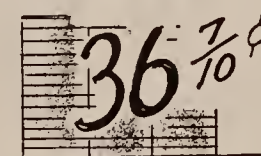

### GENERAL ELECTRIC PAID OUT

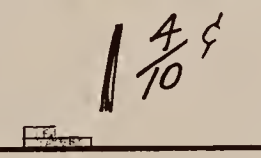

**Government** took \$422,451,000 (13.5¢ out of each sales dollar) in *direct* taxes. But that's not all. On top of this there was the still greater amount of money which went to government in the *indirect* taxes which were hidden in the prices paid by General Electric. There were multiple taxes on capital, income, pay rolls, materials and processing which added to suppliers' costs—and to the prices they charged General Electric.

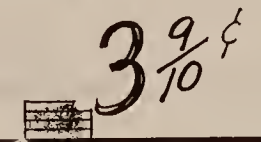

**Suppliers** of raw materials, components and services took \$1,393,192,000 (44.5¢ out of each General Electric sales dollar). This, in turn, was distributed to their employees, their suppliers, and, of course, to their tax collectors, with a little left over to pay those who provided the buildings and equipment.

**General Electric employees** had \$1,146,756,000 (36.7¢ of each sales dollar) provided for their pay and benefits. This was again the biggest pay roll in the Company's history—with more people at work than ever before.

**General Electric's future** in a competitive and changing economy required investment by the share owners of \$44,131,000 (1.4¢ out of each sales dollar) of their earnings to pay for improved plant, equipment and techniques—with which the Company will be able to produce more and better products and, thus, more and better and steadier jobs at General Electric.

**General Electric share owners** got the remaining \$121,597,000 (3.9¢ out of each sales dollar) in dividends as pay for the risk and use of their savings in providing the money and arm-lengthening facilities that made the Company's output possible.

No. 10

## 1,100 DONORS SIGN UP IN BLOOD DRIVE

More than 1100 GE employees have signed up to donate their blood in the recent drive for new donors, K. W. Michael, manager of community relations, announced this week. New donors may continue to register here through their foremen or supervisors. Approximately 10 per cent of employees here are enrolled as donors.

General Electric's weekly quota at the Red Cross Blood Center has been increased to 40

pints. Persons who turned in donor cards will be contacted by a representative of their department two or three times a year to schedule an appointment at the center.

The following persons will be in charge of cards and calling in the various departments:

Specialty Component Motor Department, Jean Meyers, Bldg. 18-1, Ext. 2213; General Purpose Component Motor Department, Adelia Forsythe, Taylor St., Ext. 630; Specialty Transformer Department, Nancy Brooks, Bldg. 26-2, Ext. 547; Hermetic Motor Department, Sally Lepper, Bldg. 2-2, Ext. 2805; DC Motor and Generator Department, Joyce Grieser, Bldg. 19-3, Ext. 2836; Small Integral Motor Department, Alma Elliott, Winter St., Ext. 296.

Any employees who are now donating their blood, but are not registered as General Electric donors, are urged to call their plant representative. This will help fill our quota each week, and give GE credit for all blood given by employees.

**POSTER MAN**—This picture of Robert G. McCollister, Taylor St., Wire Mill, is currently appearing on 1500 Red Cross-United Fund posters throughout Allen County. Mr. McCollister is shown donating blood at the Red Cross Blood Center.

**IDES OF MARCH RADIO SALE.** Employees will have something pleasant to look forward to Monday, March 15, after they have completed their Federal income tax returns. The Employee Store will conduct a one-day sale of 75 General Electric portable radios Monday. Special employee price will be \$19.95. The radios, which are displayed by Jim Crowe, Bldg. 8-1, will be available in three colors: grey, maroon, and black.

**SERVING** on the Fort Wayne General Electric Employees Community Services Fund Board for the 1954-55 year are the newly elected and continuing administrators shown at left. Seated clockwise, beginning in front at left, are: Ivan O. Standish, chairman; Paul M. Deal, treasurer; James P. McFeely, Lester E. Bienz, Walter L. Whonsetler, Glenn D. Stapleton, K. W. Michael, Chauncey B. Miller, John Fleischer, John Repine, John B. Thomas, Doris Salge, Victor M. Grothouse, Kenneth E. Kreamer, Edwin C. Rees, secretary, and Sam Allmandinger, vice chairman. Mr. Standish was elected chairman at the initial board meeting last week. Members of the board hold office for two years.

## How to Help Crippled Children

Americans are generous and friendly people, deeply concerned in the welfare of their neighbors. At the same time, they are practical people, keenly interested in the economic soundness of their nation.

Paradoxically, these two contrasting interests are united in the Easter Seal cause which thus offers a two-fold reason for the full and wholehearted support of all of us.

In the first place, Easter Seals, which come to us in 1954 for the 21st year from March 18 to April 18, make possible the highly skilled, professional care and treatment which restore crippled children to happy, useful lives. Thus, they satisfy the humanitarian impulse to help one's neighbor.

But Easter Seals do something else. They make independent, self-sustaining citizens of these children who might otherwise grow up to be dependent cripples. They help make it possible for these boys and girls as adults to make their own contribution to the economic and social life of their communities rather than going through life as the charges of family, friends or tax-supported agencies. This of course is just common sense and good business.

It is important to all of us to know, furthermore, that Easter Seal funds do their work right in the communities in which they are raised. Of every dollar contributed, 91.7 per cent remains within the state where it originated. The other 8.3 per cent supports a nation-wide program of education, research and direct service.

For all these impelling reasons, GE employees can be proud that through the United Fund, they are joining some 30 million Americans in the belief that "It is far better to mend a crippled child than to support a crippled adult!"

## SLEUTHING in 4-6

by Al Happel

Happy birthdays to Bob Ritchey on March 18 and Max Barrows, Lowell McLoughlin, and Lela Ompach on March 19. Hope you all have very pleasant birthdays. . . . The mechanical wizard, Bob Mee, had a busy day last Saturday. He said his car was not running right so he started to find out why. He spent eight hours trying to find the trouble. Finally the wizard found one little wire was the cause of the trouble. The old saying is: "You learn something new every day." We didn't know we had a mechanical wizard on Bldg. 4-6. . . . The Liberace Club has elected a new member. Her name is none other than Marian Leiter. Attention members, please don't tell anybody about the new Liberace Club member. She didn't want anybody to know it, but we are wondering why. She has a picture of the famed Liberace on her desk. . . . Oh, that smile: We noticed the last two Monday mornings that Larry Diller has a big smile on his face. We have been wondering why. We think it is because of the basketball tournament. Don't you think so, Larry. . . . We wish a speedy recovery to Lela Ompach. Lela slipped on the ice near her home and broke a bone in her foot. Check on those daytime TV programs for us while you are at home. Hurry back. Spring is just around the corner and we wouldn't want to miss the bright spring posies on your desk each morning. . . . The story of the missing lunch pail: Bill Naas brought his lunch the other day and put it where he usually does. When lunch time came and Bill was really hungry, he went to get his lunch pail and it was gone. Bill just couldn't believe his eyes so he starved through lunch time. About one-half hour after the lunch period, Bob Wickerstrom came in and the boys were telling him about Bill not being able to find his lunch. In a short while they noticed the lunch pail under Bob's desk (but it wasn't Bob's). Bob had put his lunch pail on the shelf when he hung up his coat that morning and by mistake brought in Bill's lunch. Lucky for you, Bill, that Bob ate downtown that day. Bill ate lunch a little late that day. Be sure your wife reads this, Bill, and she will know you were telling the truth.

## SMOKEHOUSE SAYINGS

BLDG. 22

by George Winans

We say goodbye to Robert E. Lee and wish him the best of luck. Hello to Theodore Carteaux, who is taking his place. . . . Our deepest sympathy to Erv France upon the death of his brother. . . . Adam Farrell was in to see us last Monday. We are always glad to see him and it makes us happy to know that he hasn't forgotten us. . . . Waymon Morton is the new traffic director at the Fairfield Ave. parking lot. Or were you just standing out there waving at your friends, Waymon? . . . Speaking of parking lots, someone hemmed Don Voorhees' car in the other night and he was the last one out of the lot. Tch, tch. And after being the first one over there too! Voorhees had a wonderful time at the auto show thought. He says it was the finest bunch of cars he ever found fault with. . . . All kidding aside, that auto show was really something. All of the models were beautiful and those dream cars! The fabrics and colors were

out of this world as were the prices. I noticed there weren't many red cars though, and I was disappointed for there is nothing more attractive to my notion than a bright red sports job. Oh well, I suppose the manufacturers were afraid they might upset Senator McCarthy. . . . Paul Miser says that his favorite TV actress is Dinah Shore. She's mine, too, Paul, but I wish she would stop throwing those juicy kisses at the end of her program. She's got the front of my set all slobbered up. . . . Well, I have to quit writing for this week. My little girl is pestering me to unpeel a tulip for her. (She means peel a turnip.)

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

Cora Karnes, Annabelle Blair, Mary Evans, Edna Waterson, and Levana Clark enjoyed their trip with Elex to Chicago. . . . We welcome Linda Werling and Evelyn Brown to the finishing section and Jim Schwartz to the office. . . . A former co-worker, Helen Greshman, has a new baby girl. . . . Almetta Till said her husband slipped and fell. Are you sure that you didn't push him, Tilly? . . . Erma Werling says thanks to her friends for the corsage and the beautiful cake on her 25th anniversary with the General Electric Co. . . . Mildred Leazier made sure that Erma's anniversary was a success. However, some of the girls didn't appreciate being called so early in the morning to be reminded to bring in the food. . . . Frank Clifton is sporting a loud shirt. Are you trying to compete with that new station wagon, Frank? . . . Some people dig their way out of snow drifts. Others stay in the drifts for two hours and have their neighbors bring them hot drinks, chocolate, I think. . . . Bob Wiehe bought a new TV set one night. Next day he came in at noon and told us he worked all night on his furnace. Let's have a better story the next time, Bob. . . . After weeks and weeks of talking, Art Pequignot finally got a few hours off. Can it be that Simmon is having a change of heart or just plain slipping? . . . We hope all the people that have been ill will soon be back to work. Our office looks bare without all those faces here. . . . Safety Sam Says: Watch that new car. It may have a lot of horsepower, but be sure that you add what it needs to travel safely: Good horse sense!

## SICK LIST

The following employees have been reported on the sick list.

### Sick List

Fred Vogt, Bernard Shroyer, Eva Webber, Walter C. Holloway, Edna Butler, Marie Lapadot, Mable Staley, Willard Arnold, Raymond DeBolt, Harold Butz, Margaret Rollins, LeRoy Jahnke, Iris Hebble, Mary Goss, James Merchant, Alta Franklin, Helen Meeks, and W. E. Histed.

## THE BIG WIND SECTION 417 TAYLOR ST. by Rachel Mounsey

Congratulations to Dick Pion on a daughter born Monday morning. . . . Fred Jackson is happy about a 7 pound 10 ounce boy born at Lutheran Hospital and named Fred Rex, Jr. . . . Birthday greetings to Nellie Wiggins, Vi Minnich, Mary Redford, Charlotte Blauvelt, Pauline Ober, and Ruby Stucky. Ruby has a new car for her birthday. . . . Walter Fair was in to see us since his retirement. He wishes to thank everyone for their gifts. His new address is New Waverly, Ind. . . . Peg Ballinger came in to work the other day with his face skinned. How, when, and where, Peg? . . . Darrell Emerick was pretty happy over his new granddaughter last week. . . . Ethel Koontz and Emma Vaughn bowled in Chicago Sunday. They had a good time and did well, too. . . . Goldie Arms went to Kentucky this last week. . . . We are wondering if Jennifer Mathias measures all the food she eats now. She did the other day. . . . Congratulations to Elsie Dunfee on her new son-in-law. We wish them both a lot of luck and happiness. . . . Welcome to Clestes Pierson, Jean Kartenber, and Olga Campos in our section. The assembly line wishes to welcome Lawrence Johnson and hopes Geneva Harter will like her new job. . . . The boys on die cast wonder how many Temple oranges Jerry McKnown has eaten. . . . You ought to see the method that John Haggenjos uses to get the baby a new pair of shoes. . . . We also want to wish Emma Vaughn a happy birthday. Thanks for the candy, Emma. . . . Les Menze has a new nickname. If you want to hear a good story, ask Les how he got the name of "Sailor Boy." . . . Walt Prince claims if you want to be lucky in the basketball pools just change your name to Prince and you are sure to win.

"We learned that happiness is to be found right in your own back yard - struck oil just outside the kitchen door"

# GE Club Spring Revue Tickets Available Beginning March 22

Tickets for the GE Club Springtime Musical Revue will be available beginning Monday, March 22, Gordon L. Smith, entertainment chairman, announced today.

The show will take place Saturday and Sunday, April 3 and 4, in the club auditorium. Seven performances will be given. Tickets will be available for the shows which start at 3, 6:30, and 8:30 p.m. Saturday, April 3, and for shows beginning at 1, 3, 5, and 7:30 p.m. Sunday, April 4.

To secure the free tickets for themselves and members of their immediate families, employees should present their 1953-54 Club membership card at the club desk, Taylor St. employment office, or to any member of the entertainment committee.

Members of the entertainment committee who will have tickets in addition to the chairman are: Gayle Griffith, Bldg. 26-4; Joe Wyss, Taylor St., Sec. 13; Glen Seabold, Bldg. 28-1; Buck Buchan, Bldg. 19-2; Art Brockmeyer, Bldg. 2-1; John August, Bldg. 22; Bob Glenn, Bldg. 26-2; Belle Buchan, Bldg. 2-2; Kenneth Redding, Taylor St., shipping; Earl Stauffer, Bldg. 17-4; Joe Gardt, Taylor St., office; Hubert Myers, Bldg. 21; Susie Jones, Winter St.; Charlie Wilt, GE Club, and Barbara Hyman, Bldg. 18-1.

Any employee who does not have a GE Club membership card for the current year should contact his foreman to obtain one. The cards list the number of dependents of the individual along with his name.

Headlining this year's revue, which is a switch from former shows in style, will be the Dorbin Dancers. This group of six girls will present numbers throughout the revue at various intervals, rather than appearing only once as acts have in the past.

In addition Nancine and Robert, a dance team, have been booked along with Whitey Roberts, master of ceremonies; Sanger, Ross, and Andree, comedy trio; and the Marimba Starlets.

All acts have been booked through the June Darling theatrical agency in Chicago.

## Elex Club to Use Sale Proceeds For Servicemen

With proceeds to be used to send boxes to GE employees in the Armed Forces, Elex Club members will conduct a rummage sale Thursday and Friday, March 18 and 19 at 2028 S. Hanna St.

Partizan Chapter members will take charge of the sale March 18 and Elex girls will conduct the March 19 sale.

Club members and any other employees who wish to contribute clothing, dishes, furniture, etc. to the sale are asked to turn in the items to the Elex Counter in the Employee Store, Bldg. 8-1; Veora Habig at Taylor St.; or to contact girls at Winter St. After 7 p.m., March 17, items to be contributed to the sale may be taken to the Hanna St. address.

The store where the rummage

Melvin L. Hurni

## Melvin Hurni, GE Consultant To Speak Here

Melvin L. Hurni, senior consultant in the Management Consultation Services Division, will be the principal speaker at the Fort Wayne Engineers Club meeting, Thursday, March 18.

"Cybernetics" will be the topic of Mr. Hurni's address. The dinner meeting will begin at 6:30 p.m. at the Chamber of Commerce. Dinner tickets, which are \$2.25 per person, may be obtained from contact men Richard Schults, Bldg. 19-5, or Forrest Carlson, Bldg. 4-6.

Any employees who are not members of the club but wish to attend the meeting may do so by securing tickets from the contact men. Those who cannot attend the dinner but wish to be present for the program should plan to attend at 7:45 p.m., Robert Rescorla, Bldg. 18-3, chairman of the meeting, announced.

Mr. Hurni, who is the author of numerous papers on engineering, marketing, and manufacturing subjects, compiled a recent GE booklet on Cybernetics. He has participated in many special studies and projects dealing with the General Electric decentralization program.

sale will be conducted will be open the two days from 8 a.m. until 6 p.m. Second shift members will work in the morning and first shift members will work in the afternoon March 19.

Margaret Tomson, of Partizan, is chairman of the first day of the sale. She is being assisted by officers of the chapter. Irma Beard is chairman of the second day's sale arrangements. She is being assisted by Florence Hargen.

## DMM to Elect Officers Mon.

Eldon Moodie, Bldg. 4-4, and Louis Swager, Bldg. 26-4, are candidates for the office of president in the Decimal Minute Men. The organization will conduct its annual election Monday, March 15, at the Chamber of Commerce. The meeting will begin at 7:30 p.m.

Other candidates for office are:

### Vice President

LeRoy Jahnke, Taylor St.  
Fred Grunst, Bldg. 2-2.

### Secretary

Walter Pohler, Bldg. 26-2.  
Amos Schladenhaufen, Bldg. 31-1.

### Treasurer

Edward Mosley, Bldg. 26-4.  
Clifford Dunton, Bldg. 4-2.

### Steering Committee

Marty Zernick, Bldg. 26-4.  
Dwight Jackson, Bldg. 26-4.

At the conclusion of the business meeting a film in sound and color will be shown. The movie will show touring in Canada.

## GE Directors Propose 3-1 Share Split

The company's Board of Directors, Feb. 26, recommended a conversion of the shares of General Electric no par value common stock to common stock having a par value of \$5 a share on the basis of three shares of the new stock for each share of existing stock.

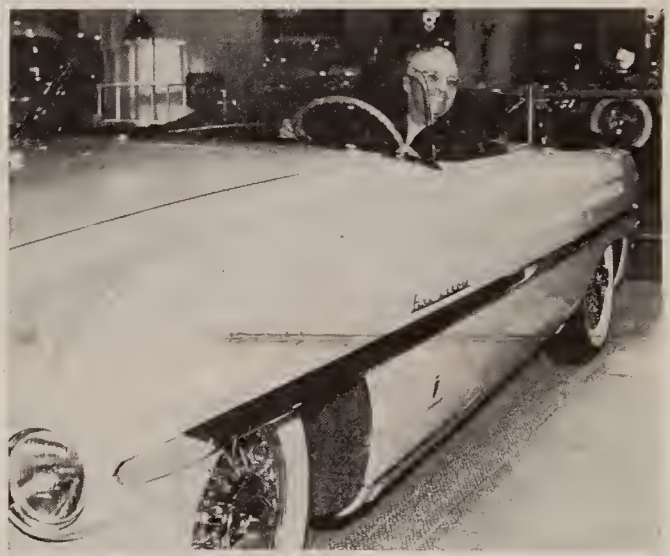

If the share owners, at their annual meeting, April 20, approve this recommendation, General Electric Employees' Savings and Stock Bonus Plan participants will be allotted shares of the company stock on the three-for-one basis for the stock bonus now fully or contingently credited to their accounts.

In this event, about 25,000 participants who purchased bonds under the Plan in 1948 will receive a full share of the new stock as soon as practicable after the conversion has been approved. Any fractional shares remaining after this distribution, together with all shares or fractional shares contingently credited as the stock bonus on bond purchases made after 1948, will be carried on the accounts of participants on the new three-for-one basis.

## Around the Town...

**MARCH MADNESS**—Proving its ability to roar like a lion, March brought us plenty to talk about with its low temperatures and winds up to 59 miles per hour last week. Marjorie Gross, Bldg. 26-5, found the roar of the lion greeting her on her way to work.

**AUTO ANTICS**—Employees stepped out on the town this week, enjoying themselves at many activities. At the Automobile Show in the Coliseum, Clarence Stove, Section 113, Taylor St., was one of auto admirers. He is examining a yellow Dodge Fire Arrow from the driver's seat.

**PARENTAL PRIDE**—Robert Mills, son of J. Emmett Mills, Bldg. 4-6, was named the city's Best Junior Achievement Salesman for 1954. He received a trophy for the honor and will represent Fort Wayne in Chicago's regional contest. In addition to attending South Side High School, Bob works part-time at GE.

featuring Hilliard Gates.

## GE Theater to Feature Love Story

The General Electric Theater will feature Martha Vickers and Ross Elliott in an inspirational story of the power of love, entitled "Another Sunlight," in this Sunday's dramatic presentation over CBS-TV (8 to 8:30 p.m. CST). Mr. Elliott portrays a returning war hero, Herb Jamieson, who feels that his former fiancée (Martha Vickers) can no longer love him because of his handicap, a foot lost in combat, and that her attentions to him are merely in-

spired out of pity.

It takes a harrowing experience while lost in a cavern and the courage of a little blind girl to show Jamieson the error of his outlook and bring him to realize that his problem was mostly one of self-pity.

The Fred Waring Show, which shares this Sunday evening time period with the General Electric Theater will return to the air next Sunday, March 21.

## MTP Members Plan Square Dance Sat.

Members of the Manufacturing Training Program organization will conduct a square dance Saturday, March 13. The informal dance will get under way at 8 p.m. at Gerke's Barn.

Tickets may be secured from club representatives. The event is open to MTP members and their guests. Ben Stellmen and John Meyer, both of Taylor St., are co-chairmen of the dance.

## Partizan Members Plan Shamrock Party

A "Shamrock Party" will be conducted by members of Partizan Chapter Tuesday, March 16, at the Gas Kitchen, 114 E. Wayne St. The meeting is slated to begin at 1 p.m.

Refreshments will be served and entertainment has been planned. Annette Hastings is chairman of the meeting. She is being assisted by Helen Thiele, Betty Skevington, and Blanche Druesedow.

## Engineers Hear Rediger

A. LeRoy Rediger, Bldg. 18-3, was the principal speaker at the Tuesday, March 9, meeting of the Fort Wayne Chapter of the American Institute of Industrial Engineers.

The meeting was sponsored by the General Electric Company. Under a rotating sponsorship, various companies sponsor each monthly meeting. Mr. Rediger's topic was concerned with methods and material handling in automatic factories.

## TRANSFORMER TATTLES

BLDG. 26-4

by Dutch Norwalt

Anyone desiring to know how to prepare a new taste treat get in touch with Gladys Payne who will be happy to help you. It is called baner float! She is the original originator. . . . Bob Enz came in at noon one day this week. It has been reported that Bob's pilot light was out. Have you been talking to Pete Bush again? . . . Anyone wanting special test on potential transformers see Ed (Winchel) Englert. . . . Murderers' Row is happy to hear that Mildred Fast is home from the hospital. . . . Paul Black and Jack Steele each carry their lunch in similar sacks. Paul peeps in his sack and yells, "Hey! Someone has my lunch." Jack takes a closer look and says, "Guess I have, Paul." "Well," says Jack, "I've taken a bite of your sandwich so you take a bite of mine, then we'll trade back." . . . Tom Freeman has a satisfied look on his face these days. Finally got some locks on the gates at test. He now feels safe from Murderers' Row. . . . Clarence Raney's able helper, Jackie, won the big basketball pool. . . . Rollie Mennewich was observed resetting the waves in his hair. "My wife likes it this way," says Minnie. "She thinks I look like Liberace." . . . Paul Peterson and Joe Prairie went from tears to smiles this week when it was reported the Daisies may again have a ball team. . . . The Central Tiger's cheer leader, Emil Schurenberg, says, "We'll be back next year bigger and better than ever." . . . Edna Bailey was home from work Wednesday. Her Ford took one look at the snow drifts and decided not to start. . . . Phyllis Borkenstein, Doris Salge, Gertrude Hughes, and Bernice Kratzsch enjoyed a short vacation in Chicago. . . . The girls have a going away dinner for Lois DeBolt who was transferred to Bldg. 8-1. . . . Section 88 welcomes Nancy Moore and Caroline Seyboldt to the transformer office.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

Preston Hille had the misfortune of colliding with a car driven by a rural woman one evening last week at the intersection of Harrison and Masterson streets. It had been raining, visibility was poor, and the woman, who was delivering eggs pulled out in front of him. There was about one hundred dozen eggs in the car. When he piled into her the trunk lid flew open, depositing around 50 dozen eggs in the center of Harrison St. Realizing the necessity of a salvage operation Preston grabbed a five gallon can from the back of his car, scraped up the damaged eggs from the street, and deposited them in the can. He tells us that he is getting tired of scrambled eggs at every evening meal. . . . John Weber, whose hair is becoming mighty sparse on top, is trying out a new method by which he hopes to coax out a more abundant growth of his rapidly disappearing hair. Nightly he sits before his TV set selecting only those hair-raising murder and detective mysteries. We do not know whether or not this plan will work but we sincerely hope so.

I told the Reverend not to buy that second-hand car . . . he doesn't have the vocabulary to run it.

## 'What There Is of It—Wow!' Says Lucky Color TV Viewer

What do you think about your daddy's color TV sets?

Eight-year-old Nicky Phillips was ready with a short and sweet answer:

"Wow!" he exclaimed. Then, as an afterthought: "But I sure wish they had some of those space shows in color."

This is the firsthand report on color TV from a General Electric family in Syracuse. Nicky is the son of Jack and Pokie Phillips and his father is manager of color TV product engineering for GE's Radio TV Department at Electronics Park.

Jack Phillips has a GE color receiver in his home on field test assignment. This makes the Phillips one of the very few families who are getting color video in their living room at the moment.

What's it like to have a color TV set in front of your favorite chair?

Little Nicky's comment just about sums it up. What there is of it—wow! But like the absent space shows, there is a great shortage of color programs to watch. Maybe a couple each week, then you have to be content with black and white pictures the rest of the time.

Mr. Phillips, as a color TV engineer, is in love with his product. He sees wonderful and unlimited horizons for color.

What color programs the Phillips have seen are beautiful. A colorcast of Howdy Doody proved the advertising value of the medium when a sparkling display of gelatin desserts set their mouths water. Another commercial showed a lavish display of linoleum patterns and modern kitchens—the beauty enough to make the viewers gasp.

The GE set in the Phillips home

has a 12½-inch screen.

"After you watch color for a period, you don't mind the size of the screen," Mrs. Phillips said. "You get more depth in color pictures and this tends to make the screen look larger."

Jack and Pokie report their color set brings plenty of visitors to their home. Young friends of their three children peek through doors and windows to get glimpses of the screen on afternoons when color slides are telecast for test purposes.

As though it were some symbol of the March of Progress, the Phillips' big 21-inch black and white console receiver sits silently by, relegated to a corner of the dining room.

Color's here—but just a dab of it.

## Foremen's Board To Meet Tuesday

Officers of the Foremen's Association and contact men will conduct a board meeting Tuesday, March 16, at the Colonial Restaurant. The dinner meeting will begin at 6:30 p.m., William L. Paulson, Bldg. 19-4, president, announced this week.

The club calendar for the coming year will be organized at the meeting and committee chairman will be appointed.

35 YEARS ON THE JOB—Paul F. Moore is shown beginning his 36th year as an employee of the General Electric Company. Mr. Moore celebrated his 35th anniversary March 2. He joined GE as an instrument reader in Bldg. 19-5. He is now an engineer in the Laboratory, Bldg. 28.

## 1948 Bonds, Dividends Arrive

Payroll sections in Fort Wayne received the 1948 Series E Savings Bonds and accumulated income checks yesterday. Paymasters report that they will be delivered Monday to foremen and supervisors for distribution to employees who are entitled to 1948 bonds and dividend checks.

These people in Schenectady helped make first delivery of bonds and income checks under the GE Savings and Stock Bonus Plan possible. Some of the boxes containing 1948 bonds and income checks are being sorted for mailing to local payroll units for distribution this week. The fireproof, burglar-proof cabinets in the background are part of the 72 required to store the almost 3 million bonds which employees have on deposit with the company.

## SHAFT SHAVINGS

BLDG. 19-3

by Blanche Cowell

We welcome Lois Weeks to our office. She comes from Bldg. 4-4. We hope she will like working here. So long to Dorothy Whonseller, who has left us to work in Bldg. 31-1. We will miss her bright smile. . . . Everyone in Bldg. 19-3 is scratching his head about the story Frank Enderle brought back from Cincinnati about a mouse playing a harmonica, accompanied by a cat playing a fiddle. Now don't anyone laugh. That is the story he tells. . . . John Campbell is the proud owner of a new Chevy. Elmer Warner is going one better. He just bought a Studebaker and now has two cars. . . . A belated welcome to Wilbur Herzog comes from Bldg. 19-2. . . . Bill Bryan has left detail section to work in Bldg. 26. Good luck, Bill. . . . Jack Eley, Bill Clevenger, and Martin Dassel have left to work at Winter St. We will miss you boys. . . . Floyd Wygant is the proud grandfather of a new baby boy born in Puerto Rico to Floyd's son and his wife. Floyd's son is stationed there in the Air Force. . . . Herman Zuber and his "Twenty Pic" have run into difficulties. He was trying to repair the bird and he lost the sound box and now the bird has laryngitis. . . . The men of today are not as gallant as the men of yesteryear. Mary Murphy was walking down the aisle one day when she dropped her handkerchief. Instead of rushing out and picking it up for her, they just yelled and told her she had dropped it. . . . Frank Kartholl is gaining too much weight so he decided to do something about it. He is now taking walks in the evening instead of hunting the can or bottle opener. Herb Boltz is also going to lose 20 lbs. between now and May 30. Can it be done, Herb?

## ANRELO HAMMEN

The above letters, unscrambled, will spell some General Electric employee's name. All letters in each of the first and last names must be used. Do not combine the letters of the two names.

If this is your name, you will receive a ticket entitling you to \$1 in merchandise at the cafeteria. Come to the GE NEWS office, Bldg. 18-1, to claim your reward.

Another scrambled name appears elsewhere in this issue.

HONORED ON ANNIVERSARY—William C. Reed (center) is honored on his 35th GE anniversary by (l-r) Susie Jones, Anita Slusher, Vera Sowards, (Mr. Reed), Mary Snyder, and Mildred Patton. Mr. Reed is a spray operator at the Winter St. Plant at the present time.

## GE DEATHS

### Services Held Today For R. L. Baumgartner

Services for Romie Leo Baumgartner, 43, will be conducted this afternoon at 1:30 in the D. O. McComb & Sons Funeral Home. Mr. Baumgartner died Monday, March 8, at his home on R. R. 1, South Whitley.

Burial will be in Lindenwood Cemetery. Mr. Baumgartner came to the company in June, 1934, as an assembler in Bldg. 4-2. Prior to his death he was an ensembler in the Wire Mill at Taylor St.

In addition to his wife, Genevieve, survivors include two sons, Dean and Marvin; a daughter, Carolyn Sue; a brother, Edgar, and father-in-law, Sol Johnson.

### Mamie Richardson, 57, Dies Following Illness

Services for Mrs. Mamie Richardson, 57, were conducted Wednesday, March 10, at her home, 2508 Graeter St., and in the Shiloh Baptist Church. The Rev. William Caldwell officiated. Mrs. Richardson died Friday, March 5, at her home after a five-month illness. Burial was in Lindenwood Cemetery.

Mrs. Richardson came to Fort Wayne from Hope, Ark., in 1923, and joined General Electric in 1944. She was a matron in Bldg. 4-6 prior to her illness.

Surviving are her husband, Henry; six daughters, Mrs. Essie Mae Washington, Mrs. Willa Mae Morrison, Mrs. Darlene Carter, Mrs. Mildred Goldsby, Mrs. Delores Lavett, and Miss Maxine Richardson; three sons, Roy, John, and Max Charles; three brothers, Rawleigh, Neil, and Epsy McPherson; and 10 grandchildren.

One married man: "I'm very happy. I have a wonderful home, a good job, and the finest wife in the country."

Another man: "Who wouldn't be happy with his wife in the country?"

## Walter Hassenplug Named To New SIM Engineering Post

Walter M. Hassenplug has been appointed supervisor of the Hermetic Motor Engineering Unit in the Small Integral Motor Department, J. Herbert Behm, manager of engineering, reported this week.

In September, 1950, Mr. Hassenplug came to General Electric as a project engineer in the Refrigeration Machine Engineering Section of the Air Conditioning Department at Winter St. He became engineering manager in 1952 in the same location. Last year he entered the SIM engineering section as an application engineer and held this position until his current appointment.

Walter M. Hassenplug

A graduate of Rensselaer Polytechnic Institute, Mr. Hassenplug received his BME degree in 1937. He is a member of the GE Squares, Supervisors Club, FWAGEE, NSPE, and ASME. He is a registered professional engineer in the state of New York. He is a native of Milton, Penna.

Mr. and Mrs. Hassenplug and their two children reside at 5303 Bluffton Rd.

## 6-4 AIRLINERS by Moe Satterthwaite

As you know Herman Buuck is a rather quiet boy. He gets a little noisy when things don't go just right. The other day his children saw a dog advertised in the paper and they wanted it. Herman told them he would take them to see the dog, but he wasn't bringing it home. He was wrong and that evening the dog got loose from his collar. Herman started to chase the dog, but he wasn't about to be caught. After Herman was half dead he went back to the house and went to bed. Next morning doggie was sitting on the doorstep. . . . It is nice to have Jack Hoopgardner back with us again after his recent operation. . . . Dell Winters is on the sick list. Hurry back, Dell, before Joe Adams wrecks your paint booth. . . . Our cold wave hit most of us hard. In fact, Lulu McCague was seen putting a pair of anklets over her shoes and then a pair of boots. . . . Dorothy Edgar is going on the night trick. Sorry to see her leave. . . . Kenny Berry is back on his old job again.

. . . Dept. 2x35 has lots of good bowling girls, especially Ruth Baker, Betty Clevenger, Dorothea Ramsey, and Ida Yahne. They can really hit the maples. . . . We found out during the safety meeting how brave Alma Volz is. She turned off the safety catch on her oil furnace before it exploded. She received a dirty face, but it could have been much worse if she hadn't acted as quickly as she did. . . . Last Wednesday open house was held in the Bldg. 6-3 conference room for Walter Dreyer, who retired after 41 years and 8 months service with General Electric. He was presented with a gift from his fellow workers and received best wishes from his many friends throughout the plant. On Friday night a party was held in his honor by the Foremen and Supervisors Club of Sections 401 and 402. Mr. Dreyer was presented with a scrapbook and a chaise lounge. Best of luck to you, Walter, and drop in and see us often. . . . Merle Keesler and Ed Glenwith are newly elected directors of the Foremen and Supervisor's Club. Dick Seibold was elected president and Bob Meyer, secretary. . . . Happy birthday to Naomi Cosner, Warren Jackson, and Miss Hahn.

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

We wish a speedy recovery to Edna Butler and Margaret Rollins, who are in the hospital, and Eva Weber, who is ill. . . . Betty Martz was married this week and was given a lovely toaster from her co-workers. . . . Welcome to Firda Hobrock in the 430 group. . . . Parker and Coolman don't only roam over Sect. 417 but the whole plant. What are you fellows looking for? . . . Last week we had several birthdays. Ann Cueller, Tina Dondero, and Tracey Bartle all celebrated. Thanks for the treats, girls. . . . Kenneth Anderson is proud of his new green '54 Ford.

Egotism is demonstrated by the young man in love who thinks nothing is good enough for her except himself.

## THISA & THATA

BLDG. 4-3 and 4

by Helen Engle

Gladys Strong surely is happy these days as her son is home from the Service for good. . . . Katherine Hepker attended her nephew's wedding over the week-end. . . . Edna Houser entertained a group of the girls at her home honoring Clara Frede on her retirement. . . . A group of the girls are going to the wrestling match out at the Coliseum. Florence Byers says she is going to wrestle with "Farmer Jones." . . . Julia Hohnhaus bought a new GE television set. . . . Dick Sebold was elected president and Bob Meyer secretary on the Motor-catic 3-legged dog ticket. Both Sebold and Meyers say they are going to keep their campaign promises of honesty and integrity. . . . Mildred Carpenter is in the Lutheran Hospital for observation. Hurry and get well, Mildred. . . . Congratulations to Jo Ann Montgomery, who is wearing a diamond ring from Max Metzger. . . . Lou Howley enjoyed her flying trip to California. She went to see her son who is in the service. . . . John Figley says that now spring is nearing he won't have so much trouble getting fishworms for his pet toad. . . . Evelyn Skelton almost didn't get to Frieda Poehler's party on Friday night. She went to the Twin Barns and it was all dark. After several calls she found out she should have been at the Rhythm Ranch. . . . Hazel Stauffer's niece got married and moved into her apartment. When someone came to the door and asked for Mr. and Mrs. She didn't know who it was and even called the neighbors to see if they knew them. Hazel finally heard the name and realized that it was her niece they were looking for. . . . Del Winter is on the sick list and a surgery patient at the Lutheran Hospital. Hurry and get well, Del. . . . Jake Koogler must have sold some of his onions. He was wearing a white shirt to work. . . . Wilbur Smith was snowbound for three days. He tried to shovel his way to work the first day of the snow and hurt his back so badly he couldn't get out of bed for two days. . . . Frank Barnes is in the chips these days. He must have some inside dope from North Side. . . . Bill McClure had to have three days to recuperate from South Side's defeat. . . . Rudy Zelt is go-

## 17-3 NEWSIES

by Wilhelmina Beeth

Congratulations on the pink-booted tax exemption at the Dale and Juanita Likens Dusing home. The mama is a former co-worker. . . . It's a happy birthday greeting to Eileen Steinacker, Kate Weigle and Gertie Wheat. . . . Get well as quick as you can wishes to Verna Bullerman and Irene Halley. . . . Glad to see Mabel Clark back in the groove and ringing in her clock card again. By way of celebration she brought the girls on her line a big cake. . . . Margaret Roemer came in to work with white hair. She had been painting the bathroom and her hair also got a coat of the paint. . . . We have heard of bees in your bonnet, but Lucille Allen had chicken in her hair. She had gone to the chicken house and something frightened the chickens. One flew on top of her head and sat there. She is still looking for her hairnet that she lost in all of the confusion. . . . The day of all the wind and snow, Lois Ripley was seen putting on a wool head scarf to keep her ears warm, and a silk one on top of it to look pretty. . . . We extend our sincere sympathy to Ireta Gillie, Dorothy Johnson, and Zelma Wood on the loss of their mothers. Also to Mildred Young on the loss of her father. And to Nellie Bellamy on the loss of her brother.

ing in the Shetland pony business.

. . . Recognize the person in the picture? It is none other than Emily Neirman at a very early age. Cute, isn't she? . . . Congratulations to Marge Rock who became Mrs. Joe Akins last

week. . . . Ruby DeBolt is in Denver, Colo., visiting her daughter. . . . It seems that I slipped up on some of the birthdays for March but here are some more. Greetings to Glen Schwartz, March 2; Ruth Tutwiler, March 5; Serena Slater, March 6; Flora Crawford, March 9; Edith Harchelrode, March 10; Chick Kortum, March 12; Kay Webb, March 17; Mike Kramer, March 17; Hilda Seiler, March 30; and Howard Hubbard, March 8.

TWO-WAY CONGRATULATIONS—John H. Breese gets a double handshake on his 30th GE anniversary from Vilas Bender (left) and Park Schemehorn. Mr. Breese, who first joined the company in 1923, is currently employed in Bldg. 4-2.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Mary Ann Laurent and Lucille Werling look real sharp in their new glasses. . . . Dolores Widner spent Saturday attending the Regional tournament. . . . Cathy Trautman spent the week-end in Indianapolis visiting her folks. . . . Farewell to Minta Cole, who was transferred from Bldg. 18-B to 18-4. Good luck to you on your new job, Minta. . . . We would like to welcome Ethel Redding, who replaced her. . . . Happy birthday greeting to Mike Laughlin. . . . Welcome to Donald Hurst, the new mail boy, and also farewell to Herb Anderson who left us last week. I understand Ed Blotkamp is doing a little dry cleaning on week-ends. How about that, Ed?

## RACONTEUR SECTION 114 TAYLOR ST.

by Luana Oehlhaffen

We wish to extend our sympathy to Carl Hattendorf and family at the recent death of Carl's brother, William Hattendorf, on March 2, 1954. . . . We are sorry to hear about Murial Echason's accident and hope she will be back at work soon. . . . After an absence of five weeks, Bill Hodges has returned to work. He is feeling much better now, and we hope he will continue to improve. . . . Walter Holloway is at work again after being confined to his home for a week. We are glad to have you back, Walter. . . . The boys are wondering what is the matter with Rex Mercer's eyes. It seems he got skunked in a euchre game last week. . . . Happy birthday to Geneva Pickering and Cliff Witham. . . . Lou Anne Beauchamp has a newly-styled coat with a scalloped hemline. It seems her cocker spaniel got into the act. . . . Kathleen Jencks traveled to Barrington, Ill., last week-end. . . . Mary Ensley, Marilyn and Bill Smith, George Ridge, and your reporter attended the Fort Wayne Regional last Saturday. . . . Eldon Bell spent Sunday at Lake Barbee gathering pussywillows. . . . Paul Clendenen spent Sunday at Lake Wawasee. . . . Johnny Meyers and family traveled to Cincinnati last week-end. . . . Vern Daseler is building a TV nook in his living room. . . . Earl Greenlee is loved by his neighbors. He attached his bulldozer to

## APPRENTICE BROADCAST

by James Schwartz

On some of the days we have been having, it is easy to tell that spring is on the way. Some of our golf bugs like Jim Schwartz can be seen moving about with that glassy look in their eye, swinging imaginary clubs and shouting, "Fore." . . . The Duke of Wayne-dale locked his keys in his car recently. After much tugging and verbal persuasion he decided to call in a professional. Locksmith service comes high, doesn't it, Wilbur. . . . Lucky Bill Cox finally missed one. He thought LaGrange would upset the appercart in the Regionals. . . . The word has just gotten out that Jerry Augsburg was voted the "Glamour Boy of 1953" in Adams County. . . . It would be wise for anyone that can possibly find time to enroll in the Red Cross First-Aid Training program. Myron Auer showed the value of first-aid know-how just last week-end. Myron gave aid to a woman who suffered a severe fainting spell at the new Sears-Roebuck store. Nice work, Jake. . . . We welcome four new fellows who enrolled recently in the machinist-toolmaker course. They are Charles Wilson, Eugene Banning, Donald Sordelet, and Everett Junge. . . . The apprentice school cagers won the first game of the championship play-offs in the interdepartment league. They defeated the Firemen, the second round champions, by a 12-point margin. The winner is to be determined by a best two out of three play-off.

## SPECIALTY MOTORS

Shipping—Receiving—Order  
Service

by Mabel Fisher

We assume Morris Petgen would get more milk for 10 cents than he could possibly get for a bus taken. . . . Ruth Ann Bentz, in trying to save wear and tear on her feet the other morning, ended up on her shoulder and one hand. Better use the feet, Ruth; they are the best yet for travel. . . . Sue Ann Pounds is our new mail girl in Bldg. 4-6. Hope you like working with us Sue Ann. . . . We are just a little curious about Cliff Saylor and stove blackening. Does he blacken stoves over week-ends? Cliff, could you tell us a little bit about it? . . . Juanita Berghorn is being transferred today. Good luck, Juanita. . . . Our Elex members surely enjoyed the style show Monday evening. We will probably all have new clothes next week, all because of the show. . . . Mabel Kepler taught a Sunday School class of seven-year-olds Sunday and found they knew more than she did. Keep trying, Mabel, you will catch up with them after while. . . . Fred Wheeler celebrated 25 years with the company Friday. He was presented a large cake from all of us. Hope you are with us 25 more years, Fred. . . . Happy birthday, Glen Fowler.

30-YEAR MAN—Joseph Robinson (center) rounds out 30 years of service with the General Electric Company with the best wishes of Dale Irwin (left), and Glen Courtney. Mr. Robinson did insulation work when he first came to GE. At present he is an assembler in Section 114 at Taylor St.

## Interested in Playing Horseshoes?

Any employees interested in playing horseshoes and who want to form a team or league are asked to sign their name on this blank and send it to Erv Huth, Bldg. 8-2, by Friday, March 19.

ARRIVING IN FORT WAYNE, 45 GE distributors and salesmen came to town last week to meet Specialty Transformer Department employees and observe the products they buy and sell in various stages of manufacture, from the design stage through testing.

# Specialty Transformer Hosts International Visitors Here

Specialty Transformer Department employees hosted 45 General Electric distributors and salesmen one day last week giving them a tour of the department's entire operation and an opportunity to meet the people involved in manufacturing the products they sell.

Thursday, March 4, the visitors came to the plant from 18 states and five foreign countries. They went away from the tour greatly impressed with the employees they met and talked with. They saw the department's new product, which is believed to be the smallest and lightest transformer ever provided to the industry in its particular ratings, in various stages of manufacture.

The areas toured by the guests included Bldg. 26, laboratory in Bldg. 28, and the Wire Mill at Taylor St.

CHECKING IN at a city hotel, the visitors arrived Wednesday evening, March 3. After attending a convention in Chicago, where they saw the new transformer introduced by GE, the men came to see how it is possible to manufacture a unit that is about 30 per cent lighter and 20 per cent smaller than previous units of the same rating.

SPEAKING ESPANOL—Coming from Caracas, Venezuela, Carlos E. Bachman found on the tour that Ann Bremer, Bldg. 26-5, had visited in his country and they exchanged greetings and conversation in both English and Spanish.

MEETING EMPLOYEES, the guests came away from their tour greatly impressed with the knowledge employees had about the jobs they do and operations involved in the manufacturing process. They said they enjoyed talking with the employees who build the products they sell.

TOURING for the visitors included a trip to the Wire Mill at Taylor St., which supplied material for the transformers. They also went through the laboratory in Bldg. 28, where they met engineers who amazed them with the knowledge they had of the distributors' problems and wants for products. They saw how these lab engineers are working to constantly improve materials and methods of manufacture.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

#### CLOSING DATE

Monday Noon, March 15, 1954

#### LOST AND FOUND

LOST—Man's billfold lost in Bldg. 8-1.  
LOST—6 keys on ring including car and padlock keys.  
FOUND—Lady's brown wool glove.  
FOUND—Single car key in leather key case.  
FOUND—Lady's small zipper bag.

#### FOR SALE

BATHINETTE—Aluminum. Ice skates, size 7. Cold maternity dress, size 10. Old victrola (good shape). Hawaiian guitar, music bar, picks. H-35911.  
SINK—Double compartment sink, 32x20x8, excellent condition. \$5. K-2882.  
WINDOWS—House windows, 28x28, 11 windows. E-66401.  
BEDSPREAD—Crocheted bedspread and table cloth. H-69601.

PLAY SAFE ALWAYS.

"This time you put the children's coats on, and I'll go out and blow the horn!"

## TOOL BITS

### BLDG. 19-4 and 5

#### by Howard Demsey

On Wednesday Ed Schafenacker joined the ranks of retired GE workers. He was presented with a 21-inch TV set by his co-workers and now Ed will have plenty of time to enjoy it. According to all reports everyone had a good time at Ed's farewell party last Saturday night. Ren Getty and Jim Buchheit vied for honors in the entertainment field with the magician, Tom Rockhill. Ed says he really enjoyed himself and was especially glad to see the almost perfect turnout of the pensions. We're sorry to see you go, Ed, but since your head's made up, we wish you many happy and enjoyable years as a pensioner. . . . Only last week Ed bought a used garden tractor in order to further mechanize his farm. The owner wanted to show Ed how good the engine ran but Ed said he'd take his word for it and didn't see the tractor run before he bought it. You guessed it. It wouldn't start when Ed got it home and isn't running yet. . . . That enlightened look on the face of Gale Bowser is due to the fact that he went through Indiana "U" over the week-end, while visiting his son who is a student there. . . . Harold Hoevel says that Charles Wrisk is very generous with his coffee cream. He not only puts it in your coffee, he also pours it down your back. . . . Herb Thiele and Maury Sordelet paid Glenn Hoon a visit after the Schafenacker party. Herb doesn't like to walk so he drove his Hudson over the curb and right up to the porch steps. . . . Jim Paxton kept the boys in the mold section very much awake during his short stay there. He broke Harold Hoffman's prize red pencil and Harold was very unhappy about it until Jim replaced it with his own. The fellows think that the complex Jim has, causing him to play tricks on people, is due to the fact that that new Dodge of his has been playing a few tricks of its own on Jim. . . . Jack Scheme-horn was all smiles when he bought a pair of \$2 tickets for last week's Zollner game for the bargain price of \$1.75. An hour before game time Jack was going through the Auto Show when they made an announcement on the P. A. system

RETIREMENT GOOD WISHES—Good wishes were the order of the day for Alger Bauky (center) as he retired last month from General Electric. Two of his well-wishers are Terrace Colvin (left) and Walter Fair. Mr. Bauky was a spray painter in Section 417 at Taylor St. before retiring.

informing the Auto Show spectators that they could come upstairs and get in the Zollner game for 25 cents. The picture above shows Jack just before he found out he could have saved \$1.50 on each ticket. . . . George Krill must have been using his mics for "C" clamps. Otherwise, how did they stay on the piece when he turned his lathe on. . . . Carl Bearman took Art Stahlhut's lunch pail the other night by mistake. He must have been extra hungry, as his bucket is gray and Art's is black. . . . Edward Frantz thinks there are 30 days in February as he dated his time cards February 30th. . . . The planning unit welcomes Don Bohner, who is replacing Jerry Gibson. . . . Don Clark has been selected as a prospective member of the Federal petit jury. If enough of you people "make a Federal case out of it" we'll get Don a job. . . . Art Wolfe locked himself out of his car recently and had to get a man from the key shop to look the situation over. The key man said he could open the door if Art could just get the number from his spare key at home. Art tried to call home several times but it seems Mrs. Wolfe was using the phone all the while so Art had to have the man pick the lock anyway. . . . Charlie Wrisk forgot to wear his glasses last Saturday night and also forgot to put film in his camera at Ed Schafenacker's party. Charlie surely got a lot of people to pose for those blank pictures. . . . Carl Einsiedel, the man who always keeps his window closed, is still wishing for three feet of snow. Someone suggested we haul several truckloads of used snow out and dump it on Carl's front yard, but a simpler solution would be to send him up to Alaska to his three feet of snow. . . . Walter Greiner and Walter Dreyer think euchre is fun, especially when the opposition is Elmer Sauerwein and Woody Hursh. Woody claims he was playing against three men and knew he didn't have a chance to win a game. . . . Clyde Spangler's hat is very tricky. Last week at lunch time, the wind blew Clyde's hat into a puddle of water. As he reached for it the wind blew it into a bigger pool. Solution: No hat, a smaller hat, or a bottle of glue. . . . It never entered Bob True-love's mind when he volunteered for a small job in the LaOtto Boy Scouts that in a few days he would be appointed Scoutmaster and his wife appointed Den Mother. Bob now has to go to school several hours a week to learn how to be-

## TOP FLOOR TOPICS

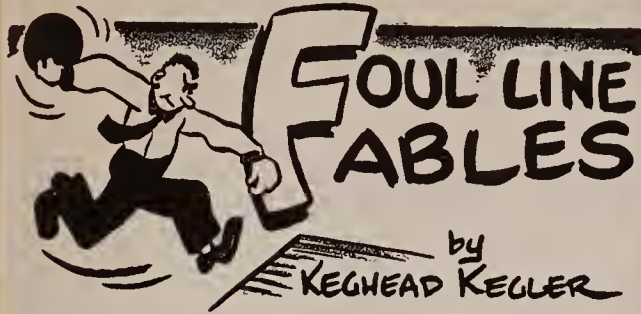

### BLDG. 26-5

#### by Jack Lea

Top floor said farewell to Bertha Wollert who retired with twenty-six years of service. The entire floor joined in a potluck, at which time Bertha was presented with a pop-up toaster and a wrist watch. . . . Walt Mertz finally made it back to work after eight weeks of watching television. . . . We heard a rumor that Jack Whiteridge had trouble pulling in a big fish at the lake recently. Jack came running to the lake shore at full speed when he heard Jordan Gunkel yelling he had a bite. It was a put-up job, however, as another conspirator was hidden below the sea wall, pulling on his line. . . . Just a coincidence maybe, but Viola Schnepf was off work the first day that Liberace's picture was offered at the bank. She probably went home and swooned. . . . Leona Henry is back after a trip to Texas. Leona advises not to eat on a train during a storm. . . . An interesting sidelight on that "boudang", blood pudding, that Norb Sordelet is famous for: He has to make it in the basement; his wife won't let him cook it upstairs. . . . Arrive: What in fashionable society no one does until everyone else has. . . . Girl: A person who always wants to go buy buy. . . . Syntax: Has nothing to do with paying for your fun.

come a Scoutmaster. Congratulations, Bob. It's all for a good cause and we're sure you'll never regret what you're doing. . . . Chet Reynolds and Max Baron had almost as much trouble getting to Ed's party as Herb Thiele and Maury Sordelet did getting home. . . . Don Eme didn't have any trouble getting to the party because he didn't remember there was a party. . . . The engineering services unit welcomes Richard Barton to the drafting board. . . . Jule Franke now owns a TV set. Here is the way we hear it all came about: Jule and his better half were downtown and when they returned they found a note on the table from their son who is about 14 years old, which read, "Dear Mother and Scrooge, I have gone over to see the neighbor's television." Jule doesn't have to be hit by a hammer. He can take a hint.

In the Ladies' Friday Night League, Team No. 2 and Team No. 5 are tied for the top spot, each having won 15 while losing 9. Team No. 3 is in third place with 14 wins and 10 losses. Teams No. 7 and No. 8 have each won 13 and lost 11, which puts them in a tie for fourth place. A big 543 series

was rolled by Tommy Williams on games of 154, 197, and 192. Winnie Scheurich rolled a 538 series on games of 194, 181, and 163. Liz Shearer rolled games of 187, 165, and 185 for a 537 series. Kathy Crouse put together games of 201, 153, and 147 for a 501 series. A 523 series was kegled by Ilo Matter on games of 137, 162, and 224. June Getty rolled a 229; Deloris Drewett, 206; Ann Lee, 187; Joan Koon, 173; Charlotte Stanford, 179; and Justine Brown, 203.

#### Apparatus League

It is Team No. 2 by one-half game. They lead the league with a 12½ and 8½ record. Teams No. 5 and 7 are tied for second place, each with 12 wins and 9 losses. In a tie for fourth place Teams No. 1 and 4 have each won 11 and lost 10. Buck Adams rolled a 208; Herb Langer, 213; H. Butcher, 201; and Vic Rump, 204. Windy Boester converted the 6-7-10 split.

#### Ladies' Thursday Afternoon

Team No. 2 has won 18½ and lost 8½, which puts them just one-half game ahead of Teams No. 1 and 6, who are tied for second place with 18 wins and 9 losses. Virginia Salmon kegled games of 173 and 171. LaVada Degraffenreed rolled a 187 game.

#### Transformer

Ohms were out in front with 13 wins and 8 losses. M is in second place with 12 wins and 9 losses. In third are Autos with 11½ wins and 9½ losses. Fourth place team is Watts with 10 wins and 11 losses. Furliners Koontz scored 92, and Black, 95. Double century counts were kegled by Hein, 207, and Naas, 201.

#### Small Motor

With 18 wins and 6 losses Two Legs Clothes are leading the league. Test is in second place with 15½ wins and 8½ losses. G-men have won 14½ and lost 9½ for third place. S and S and Denton Drugs are in a tie for fourth place, each with 13 wins and 11 losses. Walt Kammeyer kegled a 635 series. Tony Koorsen rolled a 200; J. Saylor, 224; S. Welker, 202; M. Junk, 204; C. Brandt, 214; and L. Pinkerton, 202. Marc Junk converted the 4-7-9-10 split.

#### GE Orphans

Team No. 2 took all 3 games from Ken's Market. Hotel Keenan won 2 from Team No. 6, while Team No. 5 won 2 from Bernie's Motors. High games were rolled by J. Armstrong, 187; Lu Dinnich, 185. Marge Bischoff rolled a 517 series with games of 142, 185, and 190. J. Armstrong converted the 5-8-10 split.

#### Office

With 18 wins and only 9 losses, Motor-Generator leads the league. Pawlisch Shoe Repair, Reproduction, and Plant Engineering are tied for second place, each with 15 wins and 12 losses. Glenn France kegled games of 213 and 202; Erv Aumann and Wendell Miller each had 212 scores; Ed Whipple, 204; Dan Manecke, 203; and Dick Grote, 200.

#### Ladies' Monday Night

Scatterpins lead the league by one-half game with a record of 19½ wins and 10½ losses. Holey-rollers and Twisters are tied for second with records of 19 wins and 11 losses. Rolling a 500 per cent with 15 wins and 15 losses and a tie for fourth place are Keglerettes, Pinball Five, and Gutterballs. Helen Studler converted the 4-7-10 split. A 505 series was rolled by Ardyth Hawley on games of 195, 170, and 140. Opal Kallmyer rolled a 176; Dorothy Fuhs, 178; and Ann Lee, 171. Dorothy Fuhs also converted the 6-7-10 split.

#### Men's Doubles

Openings are still available in the Men's Doubles Tournament. Squads will roll tomorrow at 1, 3, 5, and 7 p.m. Total cost is \$4 per team. This covers bowling and prize fee. Top prize of \$35 will be donated by the GE Club.

#### Men's Factory League

Paul Briede's big 230 enabled the Stators to win all three from the Office. The two teams are now tied for first at 13 and 11. Wynn's 211 and Shoaff's 203 enabled the Flanges to win 2 from the Rotors in their battle for third. Flanges now have 12 and 12, with the Rotors bringing up the rear at 10 and 14.

#### GE Fraternal

Riverview Gardens kept up their fast pace, winning 3 from the GE Club in spite of a good score by P. Briede, a 600. Riverview extended their lead to 17 and 7. Monroeville Lumber jumped from seventh place to fourth place by winning 3 from the Elks, mainly on the strength of J. Hobbs' 662. With G. Laurent rolling a 655, Teeple Trucks held on to third place at 14 and 10 with 3 wins over Peterson Elevator. West End, holder of second place chose a postponed date with K. of C. 200 scores were: G. Baumgartner, 220; E. Faulkner, 211; J. Beery, 211; C. McIntosh, 207; R. Mutschler, 204; R. Ladd, 212; H. Strickler, 202, and R. Macklin, 213.

#### GE Women's League

Evelyn Plasterer hit the charmed "500" as her Last Frames 15 and

**IN HOOP PLAYOFFS**—The Firemen were one up on the Apprentice team in the Interdepartment basketball championship playoffs at the beginning of the week. They won the first of three games from the Apprentice boys by a 44-32 score. The second game was played last night. Front row (l-r): W. Limbrook, Herb Bergman, Bob Baals, and Don Rietdorf. Back row (l-r): Manager Merle Morkoetter, Bennie Penkul, Dick Wehrle, Chick Morkoetter, and Virg Howell, coach.

## GE Owls Nose Indiana Rod By Two Points

by Howard Colby

The GE Owls won out over a tough Indiana Rod quintet last Thursday morning after a third-quarter score in which the Owls were really playing under pressure. This game was a must for GE.

Indiana Rod has been pressing GE for the league lead in each half. Indiana Rod now has two losses for the second half against GE's none, with only two games left to play. The Owls now stand in a good position after downing Indiana Rod.

With Ron Blodgett leading the way in the first quarter on three baskets and a foul shot, GE led Indiana Rod, 12 to 8.

In the second quarter Indiana Rod came back to within a single point of GE. Fisher scored two baskets and a foul shot; Bob Markey, a basket; and White hit a charity toss for a total of eight points. Indiana Rod scored 11 for a half-time score of 20 to 19.

In the third period Indiana Rod held GE to nine points, while they

6 team increased its first place hold, by winning two from second place Hi-Spots, 12 and 9. Evelyn hit a 540 on games of 172, 205, and 163. The Office team took all 3 from the Spares. Office now has 9 wins and 12 losses, while the Spares were set back to a 6 and 15 standing. High scores were: Kukulhan, 195; Wellman, 169; A. Reynolds, 175; G. Reynolds, 168; Kleinhenz, 168; Miller, 178, and Engle, 164.

tallied 12. Indiana Rod's Richmond led this third-quarter spurt as he hit four times from the field, to give Indiana Rod a three-quarter lead of 31 to 29.

After a huddle with Coach Benny Penkul, the Owls came out to start the final quarter all fired up. As a result they held the Rod men to a single field goal and five free throws.

Blodgett hit two field goals, and Gladieux, a free throw. Baskets by White, Wilson, and Anspach put the lid on the Owls' 18th straight victory to the score of 40 to 38.

Next week brings this season's play to a finish unless GE is forced into a play-off. Zollner meets Eckrich at 9 a.m.; Salisbury meets Indiana Rod at 10 a.m., and GE plays Aircraft Gear at 11 a.m.

### ELE LEWCORL

The above letters, unscrambled, will spell some General Electric employee's name. All letters for each of the first and last names must be used. Do not combine the letters of the two names.

If this is your name, you will receive a ticket entitling you to \$1 in merchandise at the cafeteria. Come to the GE NEWS office, Bldg. 18-1, to claim your reward.

Another scrambled name appears elsewhere in this issue.

## Fencing Class Tonight at 7

The fourth session of fencing instructions will begin at 7 p.m. this evening at the GE Club. Any employees interested in joining the class to learn the fundamentals of fencing may do so. The sessions are free of charge.

Fencing equipment for the course has been secured by the GE Club, Erv Huth, athletic chairman, reported this week. Those interested in attending the class should wear gym or rubber soles shoes.

Joe Bahr, Bldg. 20-1, is instructing the course.

## COUNT OFF SECTION 417 TAYLOR ST.

by Marguerite Stahl

We are happy to have Mabel Staley back with us after her recent illness. . . . The girls are wondering if your eyes are getting bad, Cozy Wampler and Grace Hunt, when you couldn't see them at the next table in the cafeteria. . . . Congratulations to Alvina Dohrman on the new sparkle that Howard Mills gave her. . . . Happy birthday to John Lee, March 4. . . . Bernadine Warner certainly tied up traffic on the parking lot last week. The girls said if you hadn't lost so much weight, Bernie, you could have unhooked the bumpers of the other car yourself! . . . Say, girls, any information you want on hockey, contact Linda Warner. . . . Andy Woods fell and stepped on his own hand. Or was it one of those big sandwiches, Andy? We are sorry. . . . Louise Sinn certainly had a blank expression on her face last week when she discovered she had bandaged the wrong finger.

# A BILL OF RIGHTS for the WORKER

CONGRESS again is considering changes in the Taft-Hartley labor law. Again the freedom and protection of the worker is the issue.

**Will the worker get more freedom and more needed protection?**

**Or will he lose some of what he has had for seven years under Taft-Hartley?**

That is the real issue that concerns 63-million American workers when trying to judge the Taft-Hartley amendments now under discussion.

Before Congress passed Taft-Hartley—by a majority vote of *both* Republicans and Democrats—the individual worker did not have some legally protected “rights” he urgently needed.

An earlier Congress passed the Wagner Act. This law helped to organize unions and put no limitations on how union officials ran them. It was called “Labor’s Magna Charta” by some. However, it promoted *collective* action through unions at the expense of *individual* freedom to such an extent that it gave vast power to union officials. Some of them used their power to become the masters rather than the servants of their members.

By 1947 the public had become alarmed that union officials were too frequently abusing their power over the worker and over the employer and the public as well. A general demand arose for proper regulation of that power. The result this time was the Taft-Hartley law.

We had seen this same thing happen to business 60 years before. Business had grown rapidly in size and influence

through favorable laws and other privilege. The public believed it was abusing its power to ride rough-shod over the rights of others. The public demanded—and got—the Anti-Trust law.

Just as the Anti-Trust law was the first of a lot of legislation intended to keep business the servant and not the master of the public, so is Taft-Hartley a start in the proper regulation of unions. Taft-Hartley kept the Wagner Act’s basic protections for unions but added regulations to ward off abuses and to protect a few inherent rights of employers in collective bargaining. For the first time in labor law history the “rights” of the individual worker received protection against certain unfair tactics of both his employer and his union officials.

Like other proper regulation that will undoubtedly follow as unions get still larger and still more powerful, this law will prove good for unions and for union officials—just as laws properly regulating business have proved good for business and businessmen.

Congress has made only one change in Taft-Hartley despite the law having been made a political issue in every election since its passage. That change—three years ago—has been called a minor change. But it was not a minor one to the workers in that it took away their right to decide—by majority vote—whether their employer and their union could agree to force them to join or stay in a union to keep their job.

Meanwhile, Taft-Hartley has proved to be a good start on a “Bill of Rights” for the protection of the worker where he needs protection now or in the future. These rights now obviously need to be preserved—with some others added.

These are some of the rights the worker has and some others many think he needs:

## Present Rights Under Taft-Hartley . . .

- RIGHT** to be hired without first joining a union.
- RIGHT** to join a union without dues or fee discrimination.
- RIGHT** to decide whether his dues should be checked off.
- RIGHT** to freely criticize union officials without fear of being forced out of his job under a union shop.
- RIGHT** to relief from certain unfair labor practices of *either* his union officials or his employer.
- RIGHT** to protection against union jurisdictional strikes.
- RIGHT** to protection against coercion or threats from either his union or his employer because of his union status.
- RIGHT** to receive an accounting of his union’s finances.

## Still Other Rights Now Needed . . .

- RIGHT** to work without belonging to a union—if he chooses.
- RIGHT** to a *secret* strike ballot.
- RIGHT** to work without interference by secondary boycotts.
- RIGHT** to protection against violence on picket lines.
- RIGHT** to protection against a strike when a majority of employees have *not* chosen a union to represent them.
- RIGHT** to protection of various state labor laws.
- RIGHT** to protection of union welfare funds.
- RIGHT** not to have a Communist-dominated union certified as his bargaining representative.

## 25 Past Elex Members Plan New Chapter

The second chapter of Elex Club was organized Friday, March 12, at a meeting conducted in the Bldg. 16-2 dining room. The 25 former women employees who attended the meeting will be charter members of the group. Past presidents of Partizan Chapter were present to assist in making arrangements for the organization.

Mamie Allen was elected president of the new chapter. Other officers elected at the meeting are Helen Scheer, vice president; Kathryn Gallmeier, secretary, and Doris Reiter, treasurer.

The group decided to have its first meeting April 21. At that time, they will select a name for their club. They chose green and white for their club colors and the snapdragon for their flower.

Dues were set at \$1.50 per member, per year. It was announced that meetings will be arranged for the third Wednesday of each month and will take place in members' homes. Membership will be limited to 35 persons.

Together with Partizan Chapter,

**OH, HAPPY DAY**—Monday brought smiles to the faces of employees enrolled in the Stock Bonus Plan as the 1948 Series E Savings Bonds and accumulated income checks were distributed. Clem Myers, Bldg. 20-1, left, is one of 102,000 GE employees enrolled in the Plan. He is receiving his bonds and check from Howard Morton, Bldg. 20-1.

the new chapter will receive their club charter at the April 12 meeting of Elex Club in the GE Club.

The new chapter was organized to provide a club for the persons

who were on the waiting list of Partizan. Both chapters limit their membership in order to be able to conduct meetings in members' homes.

## First Aid Classes Start at GE Club

A new series of first aid classes for General Electric employees gets under way this week in the GE Club, it was announced today. There will be five classes which are open to all employees interested in learning basic first aid training. The course will include 18 hours of the standard Red Cross first aid course plus four hours of civil defense training.

All that is necessary to enroll is for interested persons to come to the Club at the time of their choice. Classes will be two hours each.

The schedule of classes is as follows:

Monday, 1 to 3 p.m.

Monday, 3:45 to 5:45 p.m.

Tuesday, 3:45 to 5:45 p.m.

Thursday, 4:45 to 6:45 p.m.

Thursday, 6:45 to 8:45 p.m.

Red Cross instructors for the classes will be Ethel Shroyer, Bldg. 26-4; Carl Riedel, Taylor St.; Harry Richardson, Bldg. 17-2; Louise Hegerfield, Bldg. 19-5, and Mrs. Clyde Downes. Classes will conclude the last week in May.

The new series was organized at the suggestion of the Allen County Civil Defense organization.

Certificates will be given to employees who attend eight or more of the 11 sessions.

## Capps Duo Leads Squares Tourney With 8330 Pins

Mr. and Mrs. James Capps are in first place in the GE Squares bridge tournament. They have totaled 8,330 points in the two rounds of play. The final evening of the tournament will be this evening at the Squares Hall beginning at 8 p.m.

In second place are Mr. and Mrs. Bruce A. Rohn with 8,240 points, and Mr. and Mrs. H. R. Reidenbach are third with 7,860 points. Fourth and fifth place are currently being held by Mr. and Mrs. J. J. Clarkson and Mr. and Mrs. N. T. Horton.

## Apprentice Alumni to Tour Ohio Tool Firm March 26

A tour of the Monarch Tool Company, Sidney, Ohio, will be taken by Apprentice Alumni Association members Friday evening, March 26, Walter Buesking, Winter St., president, reported today.

At the conclusion of the two-hour tour, refreshments will

be served. A chartered bus will take members to and from Sidney. The bus will leave the Fairfield Ave. parking lot at 5:45 p.m. and will return to the city about midnight.

Persons planning to make the trip may park their automobiles in the Fairfield lot, Carl Brandt, Bldg. 12-3, chairman of the event, reported.

Reservations are due by Monday, March 22. Price of the trip is three dollars per person round trip. Members may make reservations with contact men.

The Monarch Tool Company manufactures lathes.

asked to call Anita Oldham, E-2777, or Alda Jane Carson, H-78222 and give their names and addresses.

The series is sponsored by the legislative and status of women study group of the American Association of University Women.

## GE Women Invited To Attend Series On Investments

A series of three lectures on "Investments" is being given without charge to all women in Fort Wayne. Wilson D. Criswell, of Merrill Lynch, Pierce, Fenner, and Beane, will conduct the lectures in the Fort Wayne Woman's Club, 402 West Wayne St., at 8 p.m.

The series will be as follows:

Monday, March 22, "How to Invest."

Tuesday, March 30, "How to Plan Your Portfolio."

Tuesday, April 13, "How to Read a Financial Report."

There is no charge for the series, but those planning to attend are

**DECIMAL MINUTE MEN** officers who were elected by members this week are (l-r) sitting: Carl Swain, Taylor St.; Marty Zernick, Bldg. 26-3, and Vern Boyers, Bldg. 4-2, all members of the steering committee. Standing (l-r): Frederick Grunst, Bldg. 2-2, vice-president; Edward Mosley, Bldg. 26-4, treasurer; Walter Pohler, Bldg. 26-2, secretary; Eldon Moodie, Bldg. 4-4, president, and Neil Hench, Bldg. 18-1, outgoing president.

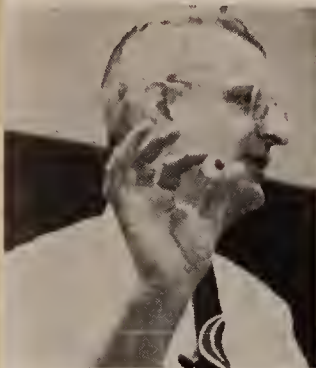

## Tickets Available Monday For Spring Musical Revue

Story . . . . . page 3

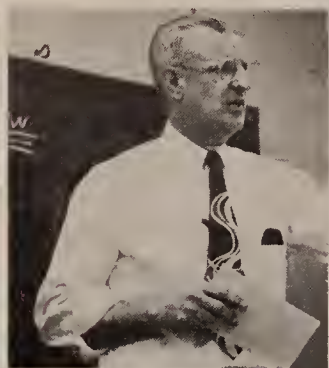

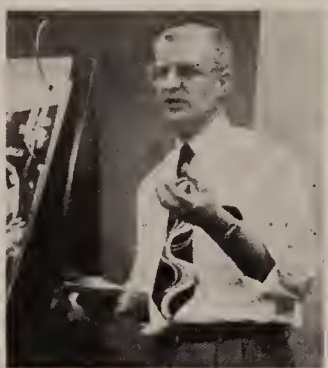

"Here is a glass eye . . .

"Who would trade it . . .

"For his eyesight? . . .

"Safety glasses protect . . .

"Our eyes and future."

## GE Families May Get Revue Tickets Monday

Monday, March 22, tickets for the GE Club Springtime Musical Revue will be available to employees for themselves and members of their immediate families. The show will take place April 3 and 4.

Employees may obtain tickets free of charge at the GE Club desk, Taylor St. employment office, or from members of the entertainment committee. Seven performances are scheduled for the two-day period. Saturday, April 3, programs will begin at 3, 6:30 and 8:30 p.m. Sunday, April 4, shows will start at 1, 3, 5, and 7:30 p.m.

When securing tickets, employees should present their 1953-54 club membership cards and have them punched. These cards list the number of dependents of the individual. "In this way, we hope to give all employees the opportunity to get tickets for themselves and members of their immediate families," Gordon L. Smith, club entertainment chairman, reported.

Members of the entertainment committee who will have tickets in addition to the chairman are: Gayle Griffith, Bldg. 26-4; Joe Wyss, Taylor St., Sec. 113; Glen Seabold, Bldg. 2-2; Buck Buchan, Bldg. 19-2; Art Brockmeyer, Bldg. 2-1; John August, Bldg. 22; Belle Buchan, Bldg. 2-2; Kenneth Redding, Taylor St., shipping; Earl Stauffer, Bldg. 4-6; Joe Gardt, Taylor St., office; Hubert Myers, Bldg. 21; Susie Jones, Winter St.; Charlie Wilt, GE Club; Katherine Gardt, Bldg. 4-6, and Barbara Hyman, Bldg. 18-1.

Any employee who does not have a membership card in the GE Club should contact his foreman to obtain one.

This year's revue features five acts. They are: the Dorbin Dancers, six girls; Nancine and Robert, a dance team; Whitey Roberts, master of ceremonies; Sanger, Ross, and Andres, comedy trio, and the Marimba Starlets.

The acts have been booked through the June Darling theatrical agency in Chicago. This is the same agency through which previous performers for previous shows have been secured.

"Dad, why do they call it the 'mother tongue'?"

"Just think a minute, son—who uses it most?"

## Value of Safety Glasses Stressed In Motor-Generator Safety Meetings

As part of the Direct Current Motor and Generator Department 1954 safety program, a series of classes is being conducted concerning the importance of safety glasses.

Begun in March, the series will be concluded in April. Groups of approximately 40 employees attend each of the classes which include discussion periods. Kenneth D. Strong, superintendent, Bldg. 19-1, is conducting each of the classes.

Through the sessions, it is pointed out how the loss of an eye restricts a person and how this can be prevented by wearing safety glasses on the job.

Charts illustrating near accidents were averted through the use of safety glasses are shown. Areas in the department where injury or loss of an eye might be expected are pointed out in an effort to show employees the importance of guarding their eyesight.

Illustrating parts of his discussion, Mr. Strong uses a glass eye to show how it can replace the real eye of a person who does not protect his eyes.

It is emphasized that the department has not had an eye loss to an employee since 1927. In order to continue this record, Mr. Strong states that employees must do something about it. Eye accidents

occurring in past years in other plants are explained to show how they can happen if proper protection is not used.

### MONYARD SELMOH

The above letters, unscrambled, will spell some General Electric employee's name. All letters in each of the first and last names must be used. Do not combine the letters of the two names.

If this is your name, you will receive a ticket entitling you to \$1 in merchandise at the cafeteria. Come to the GE NEWS office, Bldg. 18-1, to claim your reward.

Another scrambled name appears elsewhere in this issue.

### THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Johnny Craighead will be leaving again. We will be looking for you back. We wish you good luck, Johnny. . . . Marjory Reed left us for a little rest before entering the hospital. The 51 frame assembly wishes her a speedy recovery. It was nice working with you, Margie. . . . We want to welcome Don Firks to the 51 frame as stock man. Hope you like us, Don. . . . Rita Wolf, formerly of 51 frame assembly, visited us last Friday. It was nice to see you again, Rita. Call again. . . . Dorothy Hart spent last weekend in Elkhart. . . . We are glad to see Margaret Kenyon and Mary Rose back to work and looking well. . . . We say good-bye to Jack Adams and the best of luck, Jack, from all of us.

## MTP Monthly Dinner At Legion March 26

Members of the Manufacturing Training Program will conduct their monthly dinner meeting Friday, March 26, at the American Legion Home, Post 47, at 315 W. Washington Blvd.

The meeting will get under way at 7 p.m. Wilson D. Criswell, of Merrill, Lynch, Pierce, Fenner, and Beane, brokers, will be the guest speaker. Price of the dinner is \$2.15.

Co-chairmen of the meeting are Lee Elliott and Doyal McLemore.

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

We are happy to have Joe Harris back with us. Hope you're here to stay this time, Joe. . . . Harold Carlton Smith (Smitty, to you) was in to visit us last week. Sorry we didn't recognize you at first, Smitty, but you have lost a little weight since you have to work for a living over there on the east side. With that flat top haircut you were sporting, we mistook you for Eddie Fisher. . . . Happy birthday to Kenny Evans, who was 39 last week. He was born in 1906, but can I help it if I can't count? . . . Don Voorhees says that he is not the Don Voorhees that was pinched for speeding last week. We know it, Don, that Chrysler won't go fast enough to get pinched. . . . Ferroll (Cupid) Hill had a chance to put his famous hobby (designing artificial bait) in the public eye last week, but he was too bashful. We pleaded with him and Barbara of the GE NEWS phoned him and then came over to plead with him personally. But after coaxing him for an hour and pulling him out from under his table twice she gave it up. Aw shucks. . . . Glad you liked the advertisement that Waymon says he did not get that black eye in a fight. He was peep-I reprinted from that old 1876 newspaper, Clara Volz. No, I wasn't there; I was just a little kid when that paper came out. At a future date I'll try to publish some of the society belle's names of that day, kiddo. Might be some one you knew.

### KINDLING AVAILABLE

Kindling orders are now being taken at the Employee Store, Ray Fischbach, store manager, said today. Price is \$2 per load.

REVIEWING engineering design and coordinating new developments of their product with those of one Specialty Transformer product, customer representatives of the Haloid Company came here recently. Looking over the high voltage power pack, which the Haloid Company buys, are (l-r): John N. Grueger, of the Rochester sales office; Farold E. Schuman, Bldg. 26-3; Aaron M. Krakower, Bldg. 26-2; Robert M. Murphy and Rolf W. Eichler, both of the Haloid Company, and Eza C. Hill, Bldg. 26-2.

# GE ON RADIO AND TV

**EASTER BUNNY**—It could be an Easter bunny, but it's Phyllis Avery, who plays the TV wife of Professor McNutley (Ray Milland) in the General Electric Comedy Theatre's "Meet Mr. McNutley" over CBS television. It happens on the March 26th telecast at 8 p.m., EST, wherein Phyllis dons the rabbit costume for a masquerade party.

## Frank Davis Stars In Waring TV Show

Frank Davis, bass-haritone soloist with Fred Waring's Pennsylvanians will be featured in a presentation of "God's Trombones" on the General Electric's Fred Waring show, this Sunday, March 21, over WKJG-TV network 8 to 8:30 p.m.

Mr. Davis, first became associated with the Waring organization as a result of a guest appearance

## O'Connor Returns To GE Club Screen

Movie star Donald O'Connor returns to the GE Club kiddies' movie program tomorrow as the hero of "Double Crossbones." The full-length film also features Helena Carter, Hope Emerson, Will Greer, and John Emery.

The movie begins at 1:30 p.m. in the club auditorium and is free of charge to employee's children. Chapter 10 of the "Sea Raiders" will be shown along with a cartoon.

From 8:30 until 11:30 p.m. tomorrow, another in the series of square dances will take place in the club. These feature the music of Johnny Lukens and his band. The dance is open to employees and their friends.

## SICK LIST

The following employees have been reported on the sick list:

### Sick List

Louis J. Hesse, Claud W. Johnson, C. Noland Myers, Ruth Shoup, Marjorie Crabill, Theodore Olson, Rex Mercer, Ethel Crittendon, Edith Schaubert, Homer Ray, Marie Hellen, Shirley Girod, Dollie Fodge, Mattie Choinski, Mary Anderson, Howard Brooks, Mada Caudel, Gerald Cochran, Lulubelle Davis, Delmer Diederick, John Drinks, Thelma Garner, Elmer Hatfield, William Heit, Robert Hill, Emma Hockenberry, Henriette Jamison, Gertrude Markley, Donald Mozena, Geneva Moody, John Oaks, Lela Ompach, Coleman Price, Joseph Richman, Mary Standish, Trease Trout, Carmen Wheeler, Ronald Young, Francis Romary, William Moore, Ruth Cutter, Roman Nidel, Harold Dominique, Lewis Devoe, Arthur Doak, Karl Reith, Delphos Winters, Clara Wisel, Mildred Carpenter, Mildred Schoeff, John S. McCurdy, Irvin Junk, Carl Fletcher, Ruth Durnil, Sanford M. Christian, Maurice W. Emling, Walter Knipstein, Frances Miller, and Harry Schlichter.

Time saved by a risky short-cut is no bargain.

**INTRODUCING** a new model General Electric radio, the Musaphonic table radio. Ann Hubert, Bldg. 8-1, displays the new model, which is \$28.95 at the employee price. Among its outstanding features is the new console-like tone, built-in antenna, super sensitive quality, and audio-magic switch. The radio, which is available in brown and ivory cabinets, has six tubes, including the rectifier.

James E. Pritchard

## James Pritchard Appointed to New Transformer Post

The appointment of James E. Pritchard as procedures analyst in the Specialty Transformer Department has been announced by Edward J. Horstman, supervisor of procedures.

After joining the company in April, 1950, Mr. Pritchard entered an accounting training program in the Air Conditioning Department at Winter St. Two years later, he transferred to Bloomfield, where he was on special assignment. In 1953 he returned to Fort Wayne and entered the procedures unit of Specialty Transformer. This was his location at the time of his present appointment.

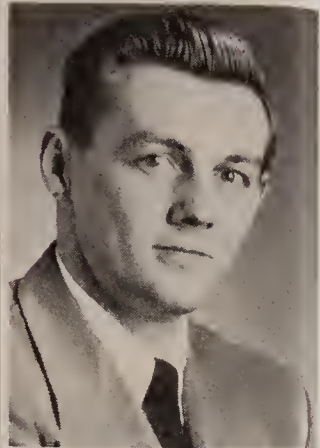

In 1943, Mr. Pritchard entered the U. S. Air Force and served in the European Theater prior to his discharge in 1946. He graduated from Indiana University in 1949 with a BE degree in business administration. Mr. Pritchard is a member of the National Association of Cost Accountants. He resides at 2110 Bowser Ave.

## APPRENTICE BROADCAST

by Ned Speheger

Mr. Ed Schafenacher, well known foreman in Bldg. 19, had a retirement party recently. Apprentices on assignment in the general tool division, who attended the party were: John Blair, Merrill Crews, Jim Webber, Don Bohner, Don Batchelder, Don Konow, Dick Rein-king, and Bob Gotschall. . . . Jack Robertson found out that it might be well to wear safety shoes all day long, instead of just at work. Jack had a flat tire and dropped his spare tire on his toe upon lifting it from the trunk. . . . Last Monday one of the fellows tried out his idea of saving the company money on time cards. After punching his old one three times, he must have decided it was too hard to read. . . . What is this strange work Carl Johnson is doing in his spare time? Could it be a bomb shelter he is building? . . . Wes Craig is the fashion show of the season. Wes appeared on the scene with unmatched socks the other day. . . . Congratulations are in order for Mr. and Mrs. Myron Auer, who became the proud parents of a son, Stephen Myron, born Thursday night at the Lutheran Hospital. . . . We welcome Richard Putnam to the school. Dick has enrolled in the machinist-toolmaker course. . . . The champions of the interdepartment league will be decided this week in the third game in the playoff. The Apprentices and the Firemen have each won one game. . . . If anyone wants a good meal some night, have your wife or mom call Mrs. David Jones. Pat makes terrific chop suey.

## Apprentice Grad

Donald R. Konow

Donald R. Konow was graduated from the Apprentice School today. He was on the machinist-toolmaker course. Mr. Konow came to the company in August, 1948, and entered the school at that time. In April, 1951, he went into the U. S. Army and served at Ft. Hood, Texas, and in Korea prior to his discharge in April last year. He is a 1948 graduate of Concordia High School.

Mr. and Mrs. Konow reside at 4402 Lillie St.

## GE DEATHS

### Services Held Today For Hilda M. Mueller

Hilda M. Mueller, 55, died Tuesday, March 16 at her home, 447 W. Williams St. Services will be conducted at 1 p.m. today at the Trinity English Lutheran Church by Dr. Paul H. Krauss. Burial will be in Greenlawn Memorial Park.

Miss Mueller came to General Electric in 1919 and was a receptionist at the Broadway plant for 35 years until she retired Feb. 1 this year. She was a member of the Quarter Century Club and Elex Club. A native of Upper Sandusky, Ohio, she lived most of her life in Fort Wayne.

Survivors include her mother, Mrs. Cora Mueller, of Fort Wayne; and two sisters, Mrs. Irene Mal-larkey, of Huntington, and Mrs. Luella James, of Fort Wayne.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Mr. and Mrs. Jim Hoelle are the proud parents of a baby boy born March 11, named Thomas Dwight. The father will be remembered as Audrey, a former employee. . . . We wish a speedy recovery to Francis Miller who underwent surgery last week. . . . Happy birthday greeting to Cecil Rose next Wednesday. . . . Norma Durnell spent the week-end visiting her brother, who is stationed at Fort Knox, Kentucky. . . . Did anyone think Wayne Jones had a funny look in his eyes last Monday? Could be due to the fact he was looking for snowballs Saturday?

## COUNT OFF SECTION 417 TAYLOR ST.

by Ruby Stoops

We wish Walter Sollberger a speedy recovery in 17x62. . . . Lost between Columbia City and Fort Wayne, one mattress. Contact Maurice Roe for a generous reward. . . . Milo Heller was certainly disappointed the other noon. After waiting all morning for those delicious chicken sandwiches he found only a bunch of chicken bones. . . . May DeBolt has returned to work in 17x417. . . . Welcome to Modene Smith, Elizabeth Johnson, Alice Decker, and Donna Smith in Ralph Keller's section. . . . Our sympathy to Linda Wahrer on the loss of her bird. Even Laura Gerher sympathizes with her as he was part of her family while Linda was in Florida. . . . We wish Grace Hunt luck on her new job in 17x3. . . . At least, Linda Wahrer, your efforts weren't all in vain with the Komets. Congratulations on the trophy they presented you.

## Sadie C. Wolf Dies At Home March 12

Services for Mrs. Sadie C. Wolf, 51, were conducted Monday, March 15 at the Trinity English Lutheran Church. Dr. Paul O. Krauss officiated. Burial was in Greenlawn Memorial Park.

Mrs. Wolf died Friday, March 12 at her home, 1705 Melrose Ave.

Until she retired Dec. 1, 1953, Mrs. Wolf had been an assembler in Section 113, Taylor St. She came to the company in 1929.

Surviving are her husband, Charles; her father, Marion Aeed; six brothers, Fred, Forest, William, Charles, Eldee, and Earl Reed; two sisters, Mrs. Kenneth Nulff and Mrs. Lillian Smith.

## 17-3 NEWSIES

by Wilhelmina Beeth

We were glad to see Viola Meeks and Fay Stockberger, when they paid us a visit last week. Hope to see you both back with us soon. . . . Alberta Foulks is cooking with electricity. She got a new electric stove last week. . . . We light another candle on the cake and wish a happy birthday to Mabel Schaaf, Beulah Lee, Mary Baxter, Vickie Clayton, Claudine Woodson, Margaret Stuck, Esther Fox, Floetta Zartman, Luella Knoche, Arlene Winebrenner, Hallie Hosler, Mabel King, and Jess Hahn. . . . Orville Kauffman had to dig down deep when he received one of those pretty red violation tickets. He almost had to sell a pig. Better stop next time, Orville. . . . Margaret Stuck will be enjoying a vacation this next week. . . . If you passed Arla Bower's home last Friday, you might have seen a sign "gone fishing." Didn't hear if she caught anything. . . . Mabel Clark is also a Liberace fan. She even carries his picture in her billfold. . . . Cheer up, Peggy Seibert. Your tire was flat on only one side. . . . Wilson McPherson finds that you can really give a car an accordion look by not making a curve. . . . We will miss seeing Max Fielitz on our floor. In your life of ease, we wish you the best of everything. . . . We extend our sympathy to Joe Bell on the loss of his father.

TALES from TAYLOR  
SECTION 113 TAYLOR ST.

by Harry Parker

Now that spring is about to put in its appearance once again Art Brandenburg has begun to worry about his strawberry patch. Last season his worries were multiple what with the bugs, squirrels, and raccoons ravaging the berry crop. At that time he considered getting a flock of geese to patrol the patch, keeping the varmints out. He has given up this idea now in favor of the bobcat. He plans on acquiring several head of these vicious felines to prowl the premises and keep all things in order. We are warning you, Art, that you had better abandon this idea as these critters might keep you off of your property. . . . Dick Johnson has given up the dog brokerage business and has now turned his attention to chickens, that is the feathered kind, you understand. He has approached Don Arnold, offering to trade two dogs, one skunk, and a woodchuck for 25 chickens with which to start his venture into this field. If he does not do any better than he did with the dogs we extend our sympathy. . . . One morning last week Everett McKee was observed entering the plant attired in his red cap and jacket, carrying an axe over his shoulder. He resembled a rail splitter of the old school. He explained to us that he brought it in to sharpen it up so that his mother would not have such a hard time splitting the wood. This chore is a daily task for her. Getting the next day's supply ready is usually done after the evening meal. Everett holds the lantern, while mother wields the axe. . . . An ad appearing in "The Nine Mile Daily Snort" wanted junker automobiles in any condition. Call or contact Brice Martin in Fort Wayne, Ind. We learn that he collects these derelicts, getting them for little or nothing in many instances, and then trades the lot even up for a presentable looking kettle for his own use. Nice juggling we claim.

Members of the Patent Section are (l-r) Dorothy Shaffer, Thomas A. Kovacs, Robert G. Irish, Derek P. Lawrence, and Clarann Walter.

## Patent Section Completes First Year As Counselor to Inventors Here

Looking forward to the completion of its initial year in Fort Wayne, our Patent Section here will observe its first anniversary next month.

Headed by Robert G. Irish, patent counsel, the section includes Derek P. Lawrence, patent attorney; Thomas A. Kovacs, patent illustrator; and Dorothy Shaffer and Clarann Walter, secretaries.

The Fort Wayne patent organization serves eight operating departments in the role of advisor and counselor on all matters concerning patents, trademarks, and copyrights.

The two most important responsibilities of company patent lawyers are determining whether or not new products would infringe patents owned by others, and securing patents which cover the new developments of our own engineers. They also assist in the negotiation of licenses that give General Electric the right to use inventions covered by patents owned by others and licenses which allow others to use GE patents.

### Protect Trademarks

Another of the patent attorneys' duties is handling patent and trademark suits and protecting GE trademarks. In the role of protector, the section checks publicity material to safeguard patent and trademark rights. Both attorneys are also engineers. This dual training creates a better understanding between the legal and engineering aspects involved in patents.

In order to increase the effectiveness of the patent attorneys by enabling them to work more closely with engineers and designers, the central Patent Services Department at Schenectady was split about a year ago. Separate patent sections were set up within each of the company's divisions.

Why does General Electric take out patents on its new developments? This is done to safeguard the company's investment in research and development in order that others who have not incurred the cost of development may not benefit by copying the end result.

### May Take Several Years

As a regular part of their job, GE engineers and designers submit

ideas which they feel are worthy of being patented. This is the first step of a process which may take several years and ends with the granting of a patent. When a patentable idea is received by the Patent Section, it goes into a file called a docket. From that time on, it is referred to by a docket number.

A search is usually made in the United States Patent Office in Washington, D. C., to see if the idea is a new one. This is done by the GE Patent Services Department there. If it is found that the idea is sufficiently new to be patentable, the docket with all information on the idea is referred to a patent review committee in the GE operating department concerned.

Since the cost of getting a patent is substantial and is paid by the department involved, it is up to the committee to decide if the idea is worth the cost of receiving a patent. When it is approved by them, the patent attorney and illustrator discuss the kind of patent drawing needed. The drawings prepared by the illustrator must comply with all of the various requirements of the Patent Office. Drawings for some patents take weeks of exacting work to complete.

With the patentable idea well on its way by now, the patent attorney prepares a draft patent application and sends it to the inventor, for review and approval. When the necessary formal papers have been signed, the application is sent to the U. S. Patent Office.

After the application is sent to Washington, a period generally from two to four years may elapse before the patent is granted.

Mr. Irish received an electrical engineering degree from Cornell University in 1940 and his law degree from George Washington Uni-

versity in 1946. He came to the company in 1940 and went on test in Schenectady. He entered the Appliance and Merchandise Department the next year. He served in the U. S. Army Signal Corps from 1942 until 1946. After his discharge that year, he entered the Patent Services Department in Schenectady and came to Fort Wayne on his present job last April.

Mr. Irish has been admitted to the New York Bar and is a registered patent attorney. He is a member of the Supervisors Club, Chamber of Commerce, and the Mayor's Traffic Advisory Committee. The Irishes and their son reside at 4447 Lafayette Esplanade.

A native of England, Mr. Lawrence came to the United States in 1941. He served in the U. S. Army during 1945 and 1946. He entered the company's test program in 1948 at Schenectady. The next year, he went to the Patent Services Department in Washington, D. C. and was in that location until coming to Fort Wayne last year.

Mr. Lawrence graduated from Clarkson College of Technology in 1948 with a mechanical engineering degree. He received his law degree from George Washington University in 1953. He has been admitted to the District of Columbia Bar and is also a registered patent attorney. He is a member of the Fort Wayne Junior Chamber of Commerce.

The Lawrence's live at 2222 Hoagland Avenue.

Mr. Kovacs joined General Electric in 1927. He was a patent illustrator in Schenectady until January this year when he came to Fort Wayne. Mr. and Mrs. Kovacs have two children. One son is a student in the Apprentice School at Schenectady. The Kovacs reside in Ossian.

## RACONTEUR SECTION 114 TAYLOR ST.

by Luana Oehlhaften

We wonder if Lowell Arnold has joined the Sleepy People's Club since he has that new television set. . . . We are glad to hear that Mrs. Chalmers Hazen, who underwent surgery at the Linvill Memorial Clinic in Columbia City, is doing very nicely and will soon be home. . . . Ed Hines claims he is going to cover H. Habig in bowling. Walt Niemeyer maintains that the only way Ed will ever cover him is with a blanket. . . . We are happy to see Fred Vogt's happy face again after two weeks. We really missed you, Fred. . . . If you find any mistakes on nameplates, you can blame it on Liberace. Kathryn Erwin saw him for the first time the other night, and we hear she is still in his spell. . . . We understand Marie Wickelman was so captivated by Liberace that she forgot to turn out the lights that night. . . . Walt Niemeyer says he is pretty good at winking, so he is going to start taking piano lessons. . . . Becky Lisle is a part owner of a new Studebaker. Now just watch the dust fly. . . . Happy birthday to Maxine Daniels and Ralph Fishback. . . . A welcome to Section 114 to Nellie Johnson, June Roden, Hazel Rodison, and Mary Elkins. . . . We are glad to welcome Millie Woolum back to work. We hope you are feeling better since your operation, Millie. . . . Who was Alberta Wyatt falling for when she fell down those stairs? . . . We hope to see Rex Mercer back at work soon. . . . There was a considerable amount of snow around Lake Gage several weeks ago. Herb Tons reports he got stuck in a drift with the Studebaker. Wonder what would have happened if he had driven the Kaiser instead. . . . Kenny Johnson's wife has taken a vacation from her household duties. Kenny is now bringing honey sandwiches in his lunch. . . . Bill Lavine is thinking of trading his Chevy for a television set. . . . Si Alspaugh is remodeling his living room. All donations of time and labor are cheerfully accepted. . . . The "Tons Bus Service, Inc." has disbanded. The reason, no Kaiser, no bus. . . . We finally decided why so many of the girls are getting these short hair cuts. That means 10 minutes longer in bed mornings.

## SPECIALTY MOTORS

Shipping—Receiving—Order  
Service

by Mabel Fisher

Ding-a-ling! Tony was all a tingle, when his phone began to jingle, for he knew Dinner Winner was on the air. Lucky for him the word "beans" meant money in his jeans. And a basket of groceries is now added to his fare. We will all be over for dinner real soon, Tony. . . . Another one of our group has TV eyes these days. Ruth Ann Bentz has a beautiful General Electric set. She spends all evening and half the night in its company. . . . Norma Hanshaw went gadding over the week-end. This time it was Michigan, amid much snowing and blowing. . . . Happy birthday, Ernest Grimes and Clarence Linsky. . . . We have all sighed with relief. At last March 15 has arrived and gone and we are finished with income tax for another year. . . . Spring is on the way and our country gentleman, Paul Thomas, plans to do a little farming. He is in the market for a good span of white mules. Clay knobs and white mules go hand in hand, they say.

## from the panel's point of view...

Saluting the Irish, this week we have chosen two sons and two daughters of the "Auld Sod" to comprise the St. Patrick's Day panel.

### THISA & THATA BLDG. 4-3 and 4 by Helen Engle

Herb Black hasn't worn his glasses for six months until Monday. He finally gave in and decided he could see better with them. . . . Don Mason is looking for a small short-haired dog. Anyone having one to give away remember he would like to have it. . . . John Figley says he brings his toad up out of the basement to watch TV. . . . Chick Kortum made a bobbed out of his Chevy the other day. . . . Glad to see Gus Rutz back at work following his operation. . . . Dick Blust is a little richer after the tournament. . . . Perry Esterline is looking for handouts this week. His team lost. . . . Wonder if Heiny Laehr has a new friend. He is wearing a new hat and he always wore a cap except when dressed up and going places. . . . Harold Baker has his order in for a new Pontiac. The ash tray got full in the other one. . . . Dorrie Proxmire finally got that new Pontiac and he says it has to last him the rest of his days. . . . Esther Pape got her car banged up on the slippery streets Monday morning. . . . Betty Baker is working days after being on nights a couple of years. . . . Do you remember when Clem Miller, our candy man, was known as a pigeon trainer? Back in 1936 he found a half-frozen pigeon down by the courthouse and took it home and nursed it to health and the pigeon refused to leave him. The bird was called Billy and every evening he would meet Clem as he came home from work and in the morning he would fly to the bedroom window and tap on the pane with his beak to waken him and then fly to the back porch to wait for him to come downstairs. Clem says that when he lost Billy he really lost a good friend. . . . Louis Barrow says he is having his last birthday March 22. He doesn't look a day over 50, does he? . . . Rodger Williams was wearing two different socks last week. He has two more on just like them today. Now we wonder if he is wearing the same ones or if he is wearing the mates? . . . Wedding bells are going to ring for Marcella

Schwartz and Fred Winicker on March 20. They are going to her mother's at Corydon, Ind., to get married. We all wish you lots of happiness, Marcella. . . . Edith Schriener wasn't too disgusted when she fell down the first time on her way to church but when she fell the second time that was just too much. . . . John Hess is the new man in the office. . . . Barbara Smith, Joan Gausepohl, Ginny Burkett, Donna Crow, and Francine Cyr gave blood at the Blood Bank. Which one of the girls was it that had to have novocain? . . . Bonnie Engleking, Joan Gausepohl, Verna Meyer, and Julie Rice went to Detroit to see Cinerama. The roller coaster ride really got the girls. . . . Our sympathy to Marie Griffin in the death of her aunt and to Carl Kinsey in the death of his father. . . . Helen White surely is proud of her new nephew. . . . Clara Frede wishes to thank everyone for the lovely gift. Reggie Engeman is a grandmother again. . . . Thanks for the treat, Evelyn, and happy birthday.

### PICK-UPS from 26-3 by Maxine Jordan and Helen Wagner

Belated birthday greetings to Nellie Martin. . . . Chloe Weitzman is recovering from injuries received in an auto accident. She hopes to return to work May 1. . . . Why did Dale Amstutz buy cokes for two stackers, namely Millie Haslup and Margaret Pelkey? Only bet on sure things, Dale. . . . Congratulations to Lorraine Pape, a former co-worker, on the birth of a baby boy. . . . Edna Mapes has another new grandchild, the second within a month and her twelfth—9 boys and 3 girls. She hopes to settle down to a normal life at least for awhile. . . . Here's belated congratulations to Blanche Kanning on her two new grandchildren. . . . Again thanks to Mildred Leazier, Velma Rose, Guleia Renier, Doris Rinehold, and Dee Palmer, our floor reporters, for doing such a fine job for us. . . .

Where was Ruth Freeland's mind when she was seen wetting Scotch tape? Does it work better that way, Ruth? . . . Let's all help Mildred Leazier's poor little canary bird, by reminding her that birds do eat. . . . Lois Bailey surprised us all when she came home with a bridal bouquet. . . . Lonnie Rockstroh needs roller skates these days to get from one machine to another. . . . We know spring has arrived, Almeta Till is getting the fishing fever. . . . It would be much cheaper for Wanda Grimme if she would get her ears pierced. She wouldn't lose so many earrings. . . . Any mistake that comes through the stock room can be blamed on Danny Reuille. He broke his glasses and couldn't see for two days. . . . Lois Bailey got the bridal bouquet at the Elex party. One of these days she might be throwing one. . . . Virgil Buchanan found out he had to have a TV set to go with his aerial before he could get a picture. He has one now. . . . Anyone wishing to bake yeast rolls should ask Wanda Grimme about them.

### THE BIG WIND SECTION 417 TAYLOR ST. by Rachel Mounsey

Thea Olsen is all swelled up on herself. She has the mumps on both sides. We do hope you have a speedy recovery, Thea, and hurry back. . . . Birthday greetings to Marguerite Stahl, Alice Zumbrum, Eula Murray, and Dorothy Huffman. Dorothy celebrated with cakes and candy, and received some nice gifts. Many more, girls. . . . Welcome to Charlotte Esters in our group. . . . A potluck was held Saturday in honor of Melvin Riley, who has left the company for a business in Garrett. Good luck, Mel. . . . Dorothy Wieler was confused the other day when she lost her lunch on the bus, but her husband came to the rescue and brought it to her. . . . Ed Biercly makes a good inspector on third track. Ed just doesn't believe anyone. He goes and sees for himself.

### TRANSFORMER TATTLES BLDG. 26-4 by Dutch Norwalt

Notice to all married women: A new technique has been discovered. Instead of waiting until your husband gets home to grab his pay check, do like Mrs. John Plummer. Get a job on the same floor and have the foreman give you his check. It is very effective because he has to ask her for spending money. . . . Baron Doc Gordon is hack at hard labor after a vacation in Florida. . . . Junior Gilliam still says he is going back to the Kentucky hills. Cheer up, Junior, we all love you. . . . Martha Kruse is leaving this week to be married. . . . The Permafif group welcomes Norma Langmeyer. . . . The winders wish Alta Franklin a speedy recovery. She is in the Paulding, Ohio hospital. . . . Congratulations to Lucy Keller who was married to Lester Green, March 12. . . . Evelyn Yoquelet has a new baby girl. Congratulations to Mr. and Mrs. Melvin Yoquelet. . . . The girls in finishing welcome Mary Geist to their group.

**RETIRES AFTER 41 YEARS**—After 41 years as a General Electric employee, Walter W. Dreyer retired this month. He is shown displaying a scrapbook he received at a party in his honor to (l-r) Walter W., Jr., C. B. Smith and Mrs. Dreyer. He also received a chaise lounge as a gift from his friends. Mr. Dreyer was supervisor of cost in Bldg. 6-3 at the time of his retirement March 10.

### WHAT MOTION PICTURE WILL WIN THE HOLLYWOOD ACADEMY AWARD AND WHY DO YOU THINK IT WILL WIN?

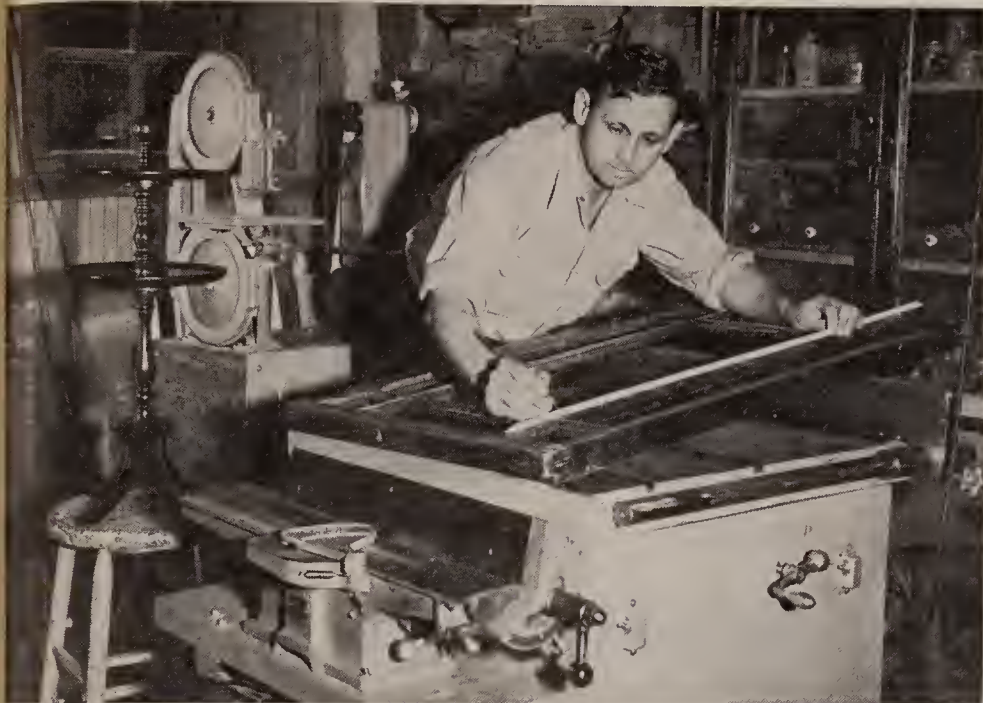

C. Michael O'Grady, Bldg. 6-2: "I have seen only five of the selected ten best movies. However, of those five, my choice would be 'The Robe.' Richard Burton's portrayal of Marcellus lent an ethereal air to an already religious theme. The picture was so well adapted to Lloyd Douglas' book that the characters became alive and I was left with a deep sense of humility."

Marjorie Murphy, Bldg. 4-6: "'Roman Holiday' is my choice. After having seen some pictures the Elex girls took while over there last summer, I enjoyed the movie even more. I thought the picture was unusual because it held my interest from beginning to end—not knowing what was going to happen next. The acting and story were very good."

Mary Ann Brothers, Bldg. 18-1: "It is my opinion that 'The Robe' should receive an Academy Award this year because it portrays what might have happened in the early days of Christianity. The movie shows that it is the result of many years of hard work by the cast and directors."

Dennis J. O'Connell, Bldg. 8-2: "I think the motion picture 'From Here to Eternity' will win the Academy Award this year because it was an entertaining picture and the story was realistic in its theme."

**HANDYMAN** Don Thomas, Bldg. 17-4, has built his own workshop in the basement of his home. With the various tools and equipment which he constructed, Don has made furniture for his home, done repairs on woodwork and windows, and built a 14-foot boat which he uses in a favorite sport in the summer. He also does furniture repairs for his church and clubs of which he is a member.

**OIL PAINTING** is a favorite hobby of Helen Hlawek, Bldg. 20-2. With the help of a kit that shows her what colors to use on the canvass, Helen is learning to work with oil paints and having fun doing it.

**ENJOYMENT** is a big factor in Don Thomas' hobby of making things for himself.

## 'Do It Yourself' Trend

Reviewers of past eras called them the "Gay Nineties," "Roaring Twenties," and "Turbulent Thirties." Today we might term our age in part as the "Productive Fifties."

An increasing number of Americans are turning to the "Do It Yourself" phase of life. True, we can buy anything we desire already constructed if we have the

money, but more and more we are returning to making things for ourselves. With the help of kits, instructions, and more leisure time, we are turning to hobbies that include everything from building our own homes to painting pictures for them.

Finding ways to divert their energies, GE employees in Fort Wayne are using their spare time in a constructive way by making things they plan to use as wearing apparel, in the home, or in their favorite sport.

In addition to ending up with a useful article for themselves, they are learning what is involved in construction of items they are interested in and are developing skills in producing these. They further their skills by reading articles on the subject and talking with others about it. With each completed article comes a little pride in displaying it to friends and saying "I made it myself."

On this page are four of the many employees here who have developed hobbies that prove that this is the "Productive Fifties."

**LEARNING** about the construction business, Robert and Richard Plasterer say they have gained much experience and know-how through building a home for Robert.

**EXPERIENCED SEAMSTRESS** is Ruth Hite, Taylor St., who has been making most of her own clothes for many years. With the aid of her sewing machine and a dress form in her size, she completed suits and dresses in materials and styles of her choosing. She also makes clothes for her two daughters and uses her knowledge as a licensed beautician in styling their hair.

**PLASTERERS AT WORK**—Richard Plasterer, Bldg. 17-4, and his son, Robert, Bldg. 19-5, work on the fireplace in the home they are building for Robert and his family on the Getz Rd. The two men have done all the work and securing of materials themselves.

## SLEUTHING in 4-6

by Al Happel

**BABY IT'S COLD OUTSIDE:** Herb Osborne did the family washing one evening and hung the clothes outside. Darkness came and Herb forgot about the clothes. During the night the weather turned cold and very windy. The next morning Herb was surprised to see the clothes standing out on the line frozen stiff as boards. . . . **WELCOME TO THE CLUB:** Katherine Jamerson joined the Floor Sitters Club. She wishes to thank the fellows who rushed over to help her to her feet. . . . **HAPPY BIRTHDAY** to Fred Suhr on March 25. . . . **THE FLOOR SITTERS CLUB** has two new members. Their names are Harvey Von Gunten and Clark (Gable) Stevens. How many times is it, Harvey? We are still trying to find out how Clark joined the Club. . . . **THE TV CLUB** has two new members, too. They are Jerry Zehender and Jack Jennings. Is this report true, Jack? We had a report two months ago that you were a member, but you said "No." . . . **JUST LAST WEEK** a new Club has been formed. The name is the 700 Coke Club. The first and only member is Arlene Yates. Isn't it lonely, Arlene? We heard a rumor, that two other members-to-be will join soon. The two are Wally Clayton and Warren Berkheiser. . . . **OH, THOSE INCOME TAX WORRIES:** Last Monday R. A. Susdorf came to work all worried about his income tax problems. His so-called friends just laughed at him and told him not to worry. A friend came by then and told him he would not get in trouble, but his wife would be put in jail. We heard that everything is straightened out now. We sure are happy for your poor wife and you. . . . **WELCOME** to Judy Berghorn who is replacing Gayle Horn. Gayle will be leaving April 2, to become a full-time housewife. . . . We also want to welcome Barbara Burns to the billing section. . . . We're all very happy to see Tom Lauer back to work after his three weeks' absence. You look as good as new, Tom! . . . **QUICK FLASHES** from marketing: In the new faces division are Paul Hopkins, Duane Peterson, and Hilda Barthold in Vince Gregg's group; Bob Henningson and Sogi Soder in Johnny Johnson's group; Hilda Nussel in Bob Groot's group; and Dorothy Favorite in Skip Rhodes' group. . . . Lori Brink leaves today for a bit of home duty. . . . Fred Wilson is spending this week in sunny Los Angeles. . . . Testman Bob Lowe leaves today for Johnson City. . . . Johnny Reuille and Watt Pye hit the scales after 10 days of rigorous Lenten starving. Score: Johnny gained a pound, and Walt half a pound. . . . It still is hard to believe that Old Hand Dick Thomas will be leaving us. . . . Lee Om-spach sends us the following poem:

### THANK YOU

Thank you, dear God, for friends so true.  
Thank you, dear friends, yes, all of you.  
When things go wrong and trouble comes,  
We're prone to cry, "What have I done?"

But soon we learn it is "His" way  
To lead us to a brighter day.  
And from the darkness comes the light  
As sure as morning follows night.

You've been so kind and thoughtful, too.  
You've helped me to come smiling  
through.

A special "Thanks" to all the girls,  
Your sunshine box is full of pearls.  
Each day as I select a gift,

To Walt, our poet, let me say,  
"I'll cultivate a better way  
To counteract that sudden stop.  
I just won't take another flop!"

Your poem made me laugh right out loud.  
Just knowing you makes me feel proud.  
I want to thank each one of you  
For Get Well Cards and letters, too.

Beautiful flowers of sweet perfume  
Add cheer and sunshine to my room.  
Books to read, good things to eat,  
All have made my days complete.

Oh, it's nice to sit and watch TV.  
Stories and famous celebrities.  
You may not believe it, but it's true.  
I'd rather see 4-6 and you.

Stephen E. Kelker

Melvin F. Kiessling

Fredrick C. Grunst

## Three New Appointments Announced In Hermetic Manufacturing Section

Three appointments in the Hermetic Motor Fort Wayne manufacturing section were announced this week by George B. Howell, superintendent.

Stephen E. Kelker has been named supervisor of planning. Melvin F. Kiessling has been appointed mechanization specialist. Frederick C. Grunst has been named wage rate specialist.

Mr. Kelker came to the company in 1935 and entered the Apprentice School. After graduation from the machinist-toolmaker course in 1939, he worked as a set up man, leading operator, and foreman in training.

In 1941, Mr. Kelker went into the Specialty Transformer Department as a foreman. From 1941 until 1946 he was a hand methods planner in the Fractional Horsepower Motor Department. His next position was that of staff assistant in FHP central planning.

From 1950 until 1952, Mr. Kelker was on the advanced manufacturing training course here and at West Lynn, Schenectady, and Philadelphia. He became supervisor of wage rate and methods at Tiffin in 1952 and had this position until his present appointment.

Mr. Kelker was a member of the

Chamber of Commerce at Tiffin and the Supervisors Club. The Kelkers have three children and make their home in Tiffin at present.

In 1936, Mr. Kiessling joined GE and went into the Apprentice School. He graduated from the machinist-toolmaker course in 1940 and became a toolmaker in the developmental section, Bldg. 26-2.

After entering the Hermetic Motor Department in 1942, Mr. Kiessling became a time study man. Later he did planning and was a leader in the planning section, Bldg. 2-2, at the time of his present assignment.

Mr. Kiessling is a member of the Apprentice Alumni Association and Outboard Motorboat National Association. Mr. and Mrs. Kiessling and their four children reside at 4521 S. Wayne Ave.

Mr. Grunst became a GE em-

ployee in 1942. He was on time study work in FHP Motor then. In July last year, he moved to Bldg. 2-2 where he was a time standards technician. This was his position until his present assignment.

In 1942, Mr. Grunst graduated from the Detroit Institute of Technology with a BME degree. He is a member of the Fort Wayne Engineers Club, Young Men's Industrial Club, and is a registered professional engineer in the state of Indiana. He is vice president of the Decimal Minute Men.

Mr. and Mrs. Grunst and their three children live at 4811 S. Calhoun St.

So we are persuaded by necessity and by belief that the strength of all free peoples lies in unity, their danger in discord.—President Eisenhower.

**AWARD OF MERIT**—The Specialty Component Motor Department received the National Safety Council's Award of Merit this week for its record of achieving more than 1 million man hours in the department without a lost time accident in 1953. Ivan Martin, C. of C. safety council, right, presents the plaque to J. J. Clarkson, general manager.

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Did you notice the cover on last week's GE NEWS? If so, you would have noticed that Robert McCollister was pictured at the blood bank and is the poster man of the month for the United Fund posters for Allen County. Our hat is off to Bob and the rest of those who donate to the blood bank. . . . We welcome Richard G. Fugazzi and Jack Steel to the Engineering sub-section as trainees. . . . Be sure to visit those on the sick list, or drop them a card, as they are always glad to hear from you. They are Gloria Boling and "Wimpy" Lemper. . . . Steve Bobay has good intentions of buying TV but he is still waiting on approval from Mrs. Bobay. He bought an antenna to start with. That gives him a reason for buying the set. . . . Guy Oberlin was in for another visit and to shake hands with his past fellow workers. We can tell by that smile he is enjoying his retirement. . . . Tom Hutsell tells me his wife had a wedding anniversary on the 18th. Do you suppose she would let him forget it? . . . Birthday greetings to Ray Kierspe on the 25th and to Mrs. Louise Lemper on the 26th of March. . . . Congratulations to Lloyd and Donnie Justus upon the arrival of a new son. . . . Be sure to have a good time tomorrow night at the Conservation Club. Plans have been made for square dancing and plenty of refreshments. See you there.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

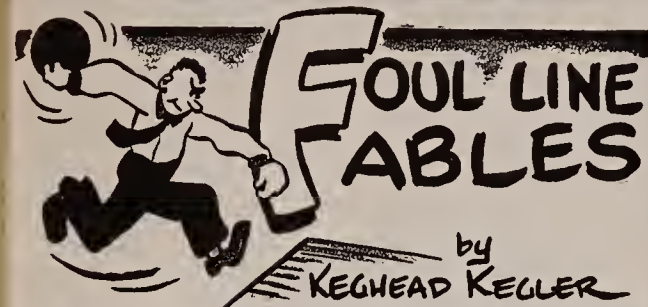

Sign in a store window: "Sale of bath towels for the whole damp family." . . . In a matched bowling game held at Scott's Alleys, the Test Dept. defeated the Assemblers of Bldg. 19-1 by 25 pins. The Test team was comprised of Bill Hoelle, Louie Clark, Dick Gettys, John Hoelle, and Art Braun. The Assembly team consisted of Willard Smith, Harry Schmidt, Fred Lahrmann, Don Kees, and Harry Seitz. Gettys was high man for the testers with a three-game score of 589. Harry Seitz was high for the Assemblers with a total of 604 for the three games. The following chit-chat is from one Bill Hoelle. Quote, "I hope the Assemblers will now be convinced that they cannot beat the Test team. This was the third straight match that the Test fellows have beaten the Assemblers. Assemblers, go out and get a reputation, then we Test boys may bowl you again." Unquote: W-U-R-F! . . . Art Druce paid us a visit and said that he enjoys every minute of his retirement. The gang thinks you look 20 years younger, Art. . . . John Dennis was telling me about the big fire at Waynedale with our hero, George Prince, doing his best to help the firemen out. The next day George came into work with his shoes covered with soap that he had somehow picked up from the night before. . . . Art Braun is grandpa again. His daughter had a baby girl last Sunday morning and Harry Kessel's wife presented him with a brand new boy last Friday morning. Congratulations to all. . . . The latest to desert the membership of the "No TV Club" are Bill Behm and George Zeis. There are only eight members left in the group. Gad! What do you eight people do for entertainment?

One man with courage makes a majority.

# GE OWLS ROLL OVER ZOLLNER 63 TO 32

by Howard Colby

The last Mixed Doubles Tournament of the season will take place Saturday, March 27, at the GE Club alleys. Squads will roll at 6 and 8:30 p.m. A fee of \$2 per person covers the entry and bowling. A first place prize of \$20 will be awarded.

In the Apparatus League Team No. 5, Central Dairy, and Team No. 7 are tied for the lead with 15 games won and 9 lost. Teams No. 1 and 10 are tied for second place with a 13 win and 11 loss record. Team No. 2 is in third place with 12½ wins and 11½ losses. 200 scores are as follows: Tom Anderson, 240; Bob Blomker, 220; Stoppenhagen, 205; George Warner, 204; Cliff Dunten, 203; and O. Shinn, 201.

## GE Orphans

Team No. 2 won 2 games from Hotel Keenan. Ken's Market won 2 from Team No. 5 and Team No. 1 won 2 games from Team No. 6. High games were rolled by M. Bischoff, 236; M. Reisdorf, 194; L. Day, 186; and B. Gnagy, 174. M. Bischoff rolled a 508 series with games of 156, 236, and 116.

## Interdivision League

The Airliners took all 3 games Wednesday night from the Deadheads. A. Harok of the Airliners came up with a 608 series on games of 214, 181, and 213. Brouwers won all 3 games from Tools. George Luedeman had a 201 game for Brouwers. Old Crown Beer and Ale won all 3 games from Apprentice team. Art Seidel had a 206 game for the Beer Boys. Kinney Concession took all 3 games from the Summit City Heating team. Les Shroyer of Kinney's had the high single game of the evening, a 225 score. Gutterdusters won 2 games from Harvey Bros. Transformer won 2 games from the Pin-dusters.

## Small Motor

Two Legs Clothes dropped 2 games but are still leading the league with 19 wins and 8 losses. Test is in second place with 17½ wins and 9½ losses. In third place, G-Men have a record of 16½ wins and 10½ losses. R. Horstmeier took over top spot in a high single game with a pin-heavy 275 count. He also had scores of 144 and 204 for a 623 score. Sam Baumgartner kegled a 224; W. Kammeyer, 201; W. Whonsetter, 203; K. Vonderan, 205; M. Junk, 220; Art Lantz, 212; and Joe Kramer, 210.

## Ladies Tuesday Afternoon

Team No. 1 and Team No. 6 are tied for the top spot each with 19½ wins and 10½ losses. Just 1 game behind the leaders with 18½ wins and 11½ losses is Team No. 2. High series was rolled by Lois Coleman, a 508 on games of 183, 190, and 135. Virginia Salmon kegled a 180 and Catherine Moley scored a 173.

## Transformer

Ohms are out in front with 15 wins and 9 losses. Autos have won 13½ and lost 10½ for second place.

M is in third place with a record of 12 wins and 12 losses. Furliner of the week is Furbee with an 87 score.

## Ladise Monday Night

In the top spot after winning 3 games are the Holeyrollers with a record of 22 wins and 11 losses. Just one-half game behind is Scatterpins with 21½ wins and 11½ losses. Twisters are in third place with 20 wins and 13 losses. Winnie Schuerich kegled a 501 series on games of 170, 183, and 148. Kay Bade put together games of 189, 142, and 169 for an even 500 series. Ruth Koeneleman rolled a 194; Dot Brubaker, 178; Jean Dangler, 173; Voyce Brumbaugh, 173; Ann Lee, 179; Margie Meeks, 194; and Kathy Bailey, 171.

## Office

It is Motor Generator out in front with a record of 19 wins and 11 losses. Plant Engineering is in second place with 17 wins and 13 losses. Pawlisch Shoe Repair, M and G Sales, and Reproduction are in a tie for third place with 16 wins and 14 losses. Wendell Miller kegled a 232 score; Les Baker, 215; Clarence Rump, 213 and 209; Ed DeCrappeo, 207; and Harry Brown, 201.

## Men's Doubles Tournament

Tomorrow is the last day for the Men's Doubles Tournament. This tournament is open to GE Club bowlers only, \$2 per person covers entry fee and bowling. Squads roll at 1, 3, 5, and 7 p.m.

## Saturday Morning Owl

In the GE Owl league Team No. 8 is leading with a 17 win, 7 loss record. Teams No. 2 and 3 are one game back of them followed by Teams No. 5, 4, 1, 6, and 7. Team No. 8 won 2 from Team No. 2; Team No. 3 won 2 from Team No. 5; Team No. 4 won 2 from Team No. 7; and Team No. 6 won 2 from Team No. 1. High game was rolled by Team No. 2 as they hit 946. The 6-7 split was made by Repine. 200 scores were rolled by: Adams, 245; Senesec, 236; Buick, 225; Williams, 216; Hart, 226; Younghaus, 215; J. Porter, 211; Keller, 203; and Schuster, 200.

## Men's Factory League

Sephus Jackson's 613 enabled the Flangès to salvage one game in their battle with the Office team.

GE racked up its 19th straight victory of the season by downing the Zollner quintet last Thursday morning at the GE Club to the tune of 63 to 32.

With only one more game to be played in league competition the Owls are now shooting for a perfect record for the 53-54 season.

In the first quarter Ron Blodgett and Bob Markey hit 4 and 3 field goals, respectively, to

pace the Club's attack. John Anspach dumped in a field goal and a foul shot for a 17-point period. Zollner was held to a single field goal and four charity tosses for a first quarter lead of 17 to 6.

Coach Benny Penkul used the two platoon system in the second quarter, as he sent a complete new squad into action that matched the first quarter's actions by adding another 17 points.

Warren Dickey led this drive as he hit two field goals and three free throws. Tom Gladieux hit two fielders; Harold Sommers and Ron Fisher hit one each; and a free throw by Frank Bailey ran the half-time score to 34 to 15.

In the third stanza Blodgett hit from the field three times, Gene Etter and White twice for 14 points, while Zollner hit 10 points for a three-quarter score of 48 to 25.

The final eight minutes of play found Ron Fisher pouring 11 points through the nets on five field goals and one free throw. John Anspach hit two field goals to account for the Club's fourth quarter scoring and put the final score of 63 to 32 into the record books along with the season's string of 19 straight victories.

**HAPPY OCCASION**—Herschel E. Pierson (left) holds a watch he received as a gift as he retired from General Electric with more than 25 years of service. With Mr. Pierson are his son, Roger Pierson, (right), and Donald D. Brayer. Mr. Pierson was a brick mason in Bldg. 20-1.

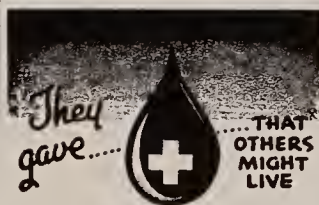

A 214 by Hank Krueckeberg, his first of the year; Chet McIntosh's 210, and G. Laurent's 208 kept the Office on the heels of the first place Stators. The Stators took all 3 from the slipping last place Rotors.

## G. E. Fraternal

Al Buick rolled a big 652 as his Peterson Elevator team took all 3 from the Elks. Riverview kept up their torrid pace and won all 3 from the K. of C. Riverview is still in first place by 2½ games over second place West End Restaurant, who stayed in contention by 3 wins over the GE Club. Teeple Truck Lines took 2½ games from Monroeville Lumber to remain in third. 200 scores were rolled by: B. Custer, 217; G. Baumgartner, 207; G. Schultz, 203; S. Jackson, 201; G. Laurent, 204; R. Lord, 202; W. Petrie, 209; A. Zelt, 202; H. Strickler, 219; C. Oetting, 213; and J. Murphy, 211.

## Women's League

G. Reynolds came up with a nice 564 series in games of 194, 200, and 179 as the Hi-Spots took 3 from the last place Spares. Hi-Spots are

The following employees donated blood during the week ending March 5:

Martin A. Laughlin, Miss Joyce Medsker, Mrs. Shirley Cunningham, Russell H. Dixon, Glenn E. Goshorn, Walter S. Griffith, Miss Lois Jensen, Leland E. Richardson, Erwin F. Richter, Edwin Rodenbeck, Freeman G. Rohlfing, Leo Schlaudroff, Marvin L. Schmidt, Calvin F. Schultz, and Mrs. Mabelle Woodward.

## DANIELL WOLE

The above letters, unscrambled, will spell some General Electric employee's name. All letters for each of the first and last names must be used. Do not combine the letters of the two names.

If this is your name, you will receive a ticket entitling you to \$1 in merchandise at the cafeteria. Come to the GE NEWS office, Bldg. 18-1, to claim your reward.

Another scrambled name appears elsewhere in this issue.

# Men's Doubles Tournament

Squads Roll at 1:00—3:00—5:00—7:00

Entry Fee and Bowling \$2.00 per Person

**Saturday March 20** **GE Club Alleys**

## WINTER STREET JOTTINGS

by Marjorie Hill

We're all glad to see Charlene Bierbaum back with us again. . . . The welcome mat is out this week for: Donna Tetlow, in Finance; Don Ferris, Planning; Bob Gross, Planning; Paul Ealing, Production; Milt Allmandinger, Manufacturing; Martha Mizell, Drafting; and also for the transfers, Betty Zollars, Lavon Nesbitt, Percis Hatch, Edna Goff, Howard Plattner, Howard Hatch, Martin Duesel, William Clevinger, and Marcele Davis.

Now I've heard everything.

Imagine Marge Hubert getting two parking tickets in the same week. . . . Rumor has it that there are only 134 days 'til vacation. How's that for rushing the season?

We're lighting another candle on the cake and wishing a belated birthday greeting to Margaret Morgan and Bob Messmer. . . . Have you heard all the talk about the up and coming vacations being planned for this summer? After all, they only have about four months to plan this annual adventure.

We received a very nice letter from William Ehresman, a pensioner of 1948. He sent along a picture of his wife, daughter, and self, taken as they were picking oranges on

Christmas Oranges

Christmas day. They are enjoying the warm, sunny climate and the beautiful scenery in the Valley of the Sun. Mr. Ehresman stated that they were planning to attend the World's Championship Rodeo appearing there this month. Best wishes are extended to them and may they continue to enjoy themselves wherever they may be.

We are happy to report Dorothy Hart is on the mend. She paid us a short visit last week and reports that she hopes to be back with us soon. . . . We won't mention any names but who was the girl that asked another girl what they made at our Winter Street plant and when the other girl said she didn't have any idea this girl spoke up and said, "I don't know what they're called either hut they're the cutest little motors." Well, girls, go out in the lobby and see the display they have set up on the motors the Winter Street plant produces.

Foreman: "You're asking mighty big pay for a man with no experience."

Applicant: "Well, the work is a lot harder when you don't know anything about it."

**VETERAN EMPLOYEE RETIRES**—Edward J. Schafenacher (left) is shown on his retirement day after more than 41 years of service with the General Electric Company. Mr. Schafenacher receives gifts and congratulations from James P. McFeeley and C. A. Brenner. The long-served employee first came to GE as an apprentice in 1912. He has been a foreman in the General Tool Section, Bldg. 19-4, prior to retirement.

## Interested in Playing Horseshoes?

Any employees interested in playing horseshoes and who want to form a team or league are asked to sign their name on this blank and send it to Erv Huth, Bldg. 8-2, by Thursday, March 25.

Name .....

\*Location .....

## DECATURITES

by George Laurent

On his return from sunny Florida, Forrest Roop treated the gang with real tree-ripened oranges, grapefruit, and kumquats. Really delicious eating, Forrest. . . . Vida Lammert celebrated her birthday last week-end. So belated greetings to you, Vida, and we hope you have many more birthdays. . . . Dick Bogner returned to work after spending some time in the hospital. . . . The crooner of the shaft line should really furnish some sort of earmuffs to his co-workers, so that they would not have so much ear trouble. You can always turn a radio off when you don't want to hear something. But how, oh how, can you turn Erman off? . . . Art Wedler is sporting a new Ford, bought with his income tax refund. It is black with cream top (no snow tires) and equipped with a portable guard rail which he places around it when he parks to keep fingerprints off the finish. . . . Woody Beery now argues that he gets better gas mileage. Woody fills his tank in the fall and in the spring. It's about time to check, Woody. . . . Buford Dull is going into the fishing tackle business. He has an assortment of plugs. In fact he is going to cast with three different plugs on at a time.

**SAYS GOOD-BY**—Clara Frede (right) made her retirement a family day as her sister, Elsie Frede, and brother, Reinhold Frede, wish her good luck on her last day here. M. T. Tobias is shown at left. Mrs. Frede, who joined the company in 1923 as an armature worker in Bldg. 17-4, was a stator finisher in Bldg. 4-3 at retirement.

## Add Wednesday Class To Fencing Schedule

Beginning next week, fencing classes will be conducted on Wednesday evenings in addition to the previously scheduled Friday evenings, Joe Bahr, instructor, reported today.

New equipment for the classes has been secured by the GE Club and is available. All employees are eligible to attend the sessions, which are from 7 to 9 p.m. in the Club gym. Those attending should wear gym or rubber soled shoes.

Those who have not attended previous sessions may still join the classes and learn fundamentals of fencing. The series is free of charge. There are 12 men and women employees enrolled in the course at present.

## STORMY WEATHER BLDG. 17-4

by Bill Hurtt & Larry Reed

In commemoration of his 54th birthday, Dick Plasterer passed out cigars to the carboly boys. . . . What was intended only in fun turned out to be a boomerang on us. What we didn't know in kidding Cy Seymour on losing his timekeeper's job at the Golden Gloves was that for nearly 25 years he had served in that capacity without pay or any token of remuneration. This last season would have been his 25th year doing a very workmanlike job for which we offer our thanks and congratulations. Also, may we offer our apologies for having distorted that fact. . . . Sporting a handsome tan and numerous tales, we welcome Norm Haugh back from Florida. . . . We were glad to welcome back, tape and all, Howard Brooks from his battle with Old Man Flu. . . . Sure sign of spring: Buck Lydy, in spite of the blisters on his hands, planning his spring farming. . . . According to Ray Hoelle, it was a short spring we had since he swears that he saw a car pull up at the Broadway

gate that had seven inches of snow on it. . . . Sight of the week: Larry Reed going down Calhoun St. with two large bundles under his arms. What was so unusual about that? Simply that the packages were gaily wrapped in Christmas paper which only leads us to believe that he is doing his Christmas shopping early. . . . On Monday, March 8, Carl Hattendorf celebrated his birthday. He sneaked it in on us though, because he didn't announce that fact until he was ready to go home that day. . . . The plans are all made for Cy Seymour's new house, 12x34, but from all comments made, the word "cornerib" seems to pop out of the conversation with increasing regularity. . . . Even though his children go to North Side, Don Thomas got the jump on them and got tickets for the tournament. Does that mean, Don, that they didn't get to go or does the team need more adult backing? . . . We extend our deepest sympathy to Des Walker on the loss of his brother. . . . Rollie Miller, determined to cure his cold, bought some nose drops. After using them he completely lost his sense of smell. Now he threatens, if that sense hasn't returned in a week, to sue. We thought that it is customary to lose your sense of smell when you had a cold but everything is changing these days.

## 2-2 TALES

by Belle Buchan

We are very glad to see Hugh Reynolds back at his desk after his recent illness. . . . We are so sorry to hear of the illness of the daughter of Elmer DeBolt. Mrs. DeBolt is in Denver, Colo., with the daughter. . . . Welcome to our office, Steve Kelker, who is our new planning supervisor. . . . Happy birthday to Pat Overmeyer and Virginia Badger. Both say that they are sixteen, plus. . . . Maxine Williams is going to change her name to Maxine Young come Friday. Congratulations to the young couple.

## Weeks Rest Aids Doubles Scores In Club Tourney

The layoff of one week in the Men's Doubles Tournament seemed to help the scores somewhat. Although Harry Dalman and Less Shroyer continue to lead the tourney with a 1288 total, Jim Einfinger and Percival Moore moved into second place with a 1275 count on scores of 417, 384, and 474, which included a handicap of 77 pins a game. Ross Smith and Ford Burnau's 1265 of 2 weeks ago holds third place. Paced by George Luedeman's 613 series he and his partner, Doyle Miller, moved into fourth place with a 1263 total.

Other high scores of last Saturday and their present position are as follows:

Bob Hickman, Al Edwards, 1256, 5th; Bill Hoelle, Joe Burton, 1241, 6th; Paul Billman, Joe Haas, 1217, 8th; and Ken Highland, H. Doehrmann, 1215, 9th.

Double century scores were rolled by Jim Einfinger, 200; G. Luedeman, 245; Bill Hoelle, 216; Joe Haas, 201; I. Girk, 210; and Ken Vonderau, 205.

The tourney will end tomorrow with squads rolling at 1, 3, and 5 p.m. There are still openings on all squads, so come on down and beat the scores.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 18-1.

**CLOSING DATE**  
Monday Noon, March 22, 1954

#### FOR SALE

CAR—1941 Dodge, good tires. A-55392.  
HORSE—Western riding horse, 4 yrs. old, saddle, bridle, and blanket. E-1703 or E-69321.

CRIB—Birch, 6-year size, with or without waterproof mattress. K-5164.

HOME—A good home for some kittens. They are free. H-75460.

## TOOL BITS

BLDG. 19-4 and 5

by Howard Demsey

Ed Schafenacker wishes to thank all his former co-workers for their thoughtfulness at his retirement. Ed was really surprised and speechless when his gift was presented to him and he wants everyone to know it was genuinely appreciated. . . . Never underestimate the power of the press. Two weeks ago we mentioned that Wilbur Lane's birthday was the 11th of the month and that his wife would bake a cake for his co-workers. Lo and behold, on the 10th in comes Hershel Odier with a cake for the fellows in the check room so they could help him celebrate his birthday which was on that date. Wilbur furnished the cake for the next day so they were sweet for two days in the check room, anyway. . . . Delphos Denny has left to take a new job running a small shop near Muncie. . . . The design section welcomes Harold Hager back to their group. . . . No, your eyes weren't deceiving you, that was a yellow bow tie Lovell Welker was wearing. . . . Jule Franke has been saying he thought he needed bifocals and his new TV set must have strained his eyes to the limit because he tried to get into the wrong car downtown the other evening. The car's rightful owner appeared and Jule found his own car further down the block. . . . Ed Kayser has a new TV set and has joined the "meals in the living room" club. . . . Bill Palmer was seen running around outside in his pajamas at 2 a.m. one morning. Seems he was trying to scare away a stray dog that was barking. Unfortunately he didn't lock himself out of the house so we could make a better story out of this. . . . Gus Ausderman had a flat tire one morning coming to work and changed it. That afternoon he found another flat when he was ready to go home and his spare was flat, too. Gus says the air you get nowadays is not nearly as good as it used to be. The air is all right, Gus, get rid of those sieves you're riding on. . . . Congratulations to Mr. and Mrs. Ned Gruelach on the arrival of an 8 lb. 11 oz. baby girl. . . . The fellows in Schlaudroff's section (after a few

CAMERA—Would like to buy a good used camera, preferably a 35 mm. with an F 3.5 or faster lens. Don Agost, A-3057.

ROW BOAT—Used aluminum or magnesium row boat. K-2830.

#### THANK YOU

I wish to express my sincere thanks and appreciation to my co-workers and friends for the gift and luncheon they gave me on my recent retirement.—Ed Schafenacker.

"The Fergusons here are doing a lot to make this a pleasant neighborhood. They're moving Saturday"

## 6-4 AIRLINERS

by Moe Satterthwaite

Ivy Mills says her family gets ready for bed each night around 6 p.m. That's when they take a recess from TV and get ready for the stories that start at 7. The same thing happens in the Diem family, too. Harry Diem works nights, but last Friday he was home and got caught in the 6 p.m. stampede to the bathroom. . . . Ann Prudy wanted to learn how to drive a car but was too scared until her mother said, "Ann, I've seen more stupid women than you driving cars and if they can get away with it, you can." Ann is now driving a car. . . . Lulu McCague went to bed right after work, got up at 7 and ate her supper, went back to bed, and believe it or not the next morning she overslept. . . . Although Perry O'Neill's name was omitted from the new phone book, he is still with us. He can be reached on Ext. 2214. . . . On March 14 Ralph Weikart observed his 25th year with GE. He was presented with a Quarter Century Club pin and welcomed into the organization. . . . Carolyn Givvin is now driving a new car. . .

Little Shaver

This is Alma Polz's grandson learning to shave at the tender age of three. . . . Freddie Clark is going to be pretty lonesome for the next two weeks as his wife has gone to Florida. Clarence Nahrwald, Andy Anderson, and Moe are going out to his house and keep him company next Monday night. Free refreshments! . . . The other day Carl Brenner's automatic heat went on the blink. He came into work, but had to leave again and let the repair man in. Carl said the house was cold and when he got there even the dog was giving him dirty looks. . . . If you're wondering why it was so quiet last Monday, it was because Ed Glenwith's section didn't report for work. . . . Little Pondo's bowling team was one game out of first place, but Pondo wanted to see the hockey game last Friday so now they are four games behind. . . . Millie Stetler was on her way to work last Tuesday morning when her Ford ran out of gas. She had to walk a half-mile to get gas and when she returned she discovered she didn't have a funnel so she found a tin cup and proceeded to pour the gas. . . . Harold Dalman went to the dentist and had to have a front tooth pulled. He says he will replace it with a gold tooth and then grow a mustache to cover it up. . . . Luella McQueen received a phone call from her son, who had just arrived in the States after a tour of duty in Korea. He talked to his mother and dad and sister and then his mother again. His mother reminded him the call would be pretty expensive and he said, "It's all right, Mom, I'm paying for it." They talked a while longer, then hung up. The operator called back and wanted to know if she would accept the charge as her son only paid for the first three minutes. . . . Congratulations to Betty Keister. She presented her husband with a son. Betty formerly worked for George Prince. . . . Happy birthday to Ruth Stroufe and Walter Dreyer.

# STEADY JOBS *through* STEADY FRIENDS

General Electric jobs have tripled since 1940. We want them all to be steady jobs.

The nature of our equipment and skills makes us unusually subject to widely varying demands from government and business in national emergencies as well as in between.

Yet ceaseless effort and good luck have kept our jobs remarkably steady through the thick and thin of war and peace.

## SOME LAYOFFS

Eight months ago our defense work started to taper off. Incoming civilian work did too. We redoubled our efforts to attract new business to replace that lost, and to transfer employees to open jobs to avoid layoffs.

But we have not been able to prevent all layoffs. Fortunately, relatively few workers have been laid off, and we hope to have most of them back soon.

Even if this *is* a good record, we are not satisfied. We are deeply concerned about *any* layoff. We know it is too likely to be a tragedy in the life of somebody.

## WHAT WE HAVE BEEN DOING

The customer is our *real boss*. Here is how we are trying harder every day to get him to buy *more* of our products and services through our *pleasing* him more with them:

- Doing new and aggressive selling and advertising to get the customers to buy G-E products in preference to others.
- Speeding up our engineering still further to develop new models at newly attractive values.
- Keeping our inventories fresh and adequate so we will not miss any business but also not get overstocked.
- Doing all we can to rearrange plants and lines of products—as well as get sales—so we can retain on civilian work the 60,000 extra jobs created since 1950 largely in connection with the war and defense work now tapering off.
- Doing all we can to transfer available employees to open jobs in other sections rather than to take time off.

## WHAT YOU CAN DO

There is a lot *you* can do. You can help yourself have steady work by doing all you can to keep customers buying G-E products. You—or anyone else—can make your job shaky by undermining customer or public confidence in General Electric. So:

- Help our salesmen by providing them with reliable, flawless products that will keep customers buying G-E products.
- Favor G-E products in your own home, and encourage others to do the same.
- Help cut costs and increase sales by reducing waste and spoilage, and by chipping in with good ideas.
- Tell the story of G.E. as a good producer of quality products, good employer, good buyer of local goods and services, good local taxpayer and good contributor and worker in worthwhile community projects.
- Realize the vital personal importance of not letting little differences be magnified into seeming importance, or into the kind of wasteful practices that hinder the intelligent planning and cooperation we must have to attract the sales we need for jobs.

The way to have steady jobs at General Electric is to have steady customer friends.

*Let's make friends for General Electric!*

## ADD TWO MORE ACTS TO SPRING REVUE

### Some Free Tickets Still Available At GE Club, T. St. Employment Office

Two additional professional acts have been booked for the GE Club Springtime Musical Revue April 3 and 4, bringing the total of acts for the show to seven.

For the first time on any GE Club entertainment program, a trained seal act will appear in the Revue. Walter Jennier and Buddy is the name of the act, with Buddy being the seal. This is one of the few such acts in show business today and has appeared on the Sealtest Circus program, other TV shows, and in circus performances throughout the United States.

The other added act is The Barons, a novelty trio. They have appeared on the Big Top and Super Circus shows and come to the GE Club stage from the Park Lane Hotel in Denver, Colo.

There will be seven perform-

ances during the two-day period. Shows begin at 3, 6:30, and 8:30 p.m. Saturday, April 3, and at 1, 3, 5, and 7:30 p.m. Sunday, April 4.

Employees who have not yet secured tickets for themselves and members of their immediate families and wish to do so should go to the GE Club desk or Taylor St. employment office and present their current club membership cards. Tickets are free of charge.

The other five acts slated for the

(Continued on Page 4)

### April 1st is Deadline For Filing Requests For Educational Aid

April 1 is the deadline for filing applications for financial assistance under the GE Educational Assistance Program. All applications must be mailed or brought to your department relations manager by that date.

Heading department employee relations are: Charles E. Slater, General Purpose Component Motor, Taylor St.; Walter H. Sunier, Specialty Component Motor, Bldg. 4-6; Joseph P. Orbin, Hermetic Motor, Bldg. 2-2; Stephen A. Capps, Specialty Transformer, Bldg. 26-2; Richard M. Hartigan, DC Motor and Generator, Bldg. Motor, Winter St. Applications for 31-1; Alan C. Lord, Small Integral this financial assistance may be procured from their offices.

Under the program some 70 scholarships at \$500 each and 30 loans of \$250 will be awarded to qualified employees or their children, June 1, 1954. To be eligible for financial assistance for themselves, employees must have completed at least one year of continuous service. Where children of employees desire assistance a parent must have completed at least five years of continuous service with the company.

Scholarships and loans are granted for use in any accredited college or university in the U. S. Recipients may follow any course of study as long as it leads to a recognized degree. Selection of recipients is based on character, scholastic standing, financial need and general merit.

**WHERE'S THE FIRE?**—Entering their 1954-55 club year in a blaze of glory are the officers of the Volunteer Firemen's Association. Front row (l-r): Harold Mosshammer, Sect. 417, Taylor St., outgoing president and current member of the board; Melvin Kestner, Sect. 417, Taylor St., vice president, and Paul Arnold, Bldg. 4-4, president. In second row (l-r) are Thomas Fox, Bldg. 6-3, secretary, and Ray Soughan, Bldg. 26-3, treasurer.

### Elex to Feature Easter Programs At Next Meetings

Elex Club meetings for both first and second shift members this month will carry a religious theme. The first shift meeting will take place Monday, April 12, at the GE Club.

Ab Martin, general manager of the Hermetic Motor Department, Bldg. 18-3, will be the principal speaker. Harriet Whonsetler will provide Easter music.

The dinner will begin at 4:45 p.m. Tickets are \$1.25 and reservations should be made with contact girls by Thursday, April 8. Six hams will be given as attendance prizes and Easter favors will be presented all those attending.

Decorations for both the two meetings will emphasize the Easter theme.

The second shift meeting will be conducted at the YWCA, Thursday, April 8, beginning at 12 o'clock noon. The Rev. Carl W. Bruggemann, of the Trinity Evangelical

(Continued on Page 4)

## Suggestion Market Shows Gain As 196 Trade Ideas for \$3,637

The 1954 idea market which opened slowly in January shows a marked gain for February, according to department monthly reports. Suggestion awards were up more than \$1500 over the previous month, as 196 employees shared \$3,637.50 in idea dividends.

At the top of the list was C. W. Sterling, of the Taylor St. Wire Mill, who earned \$840 (GE NEWS, Feb. 12). He suggested a method which eliminated the need for retreating certain types of wire.

A Hermetic Motor Department employee, R. Maurice Allen, Bldg. 17-3, was next on the list with a \$340 suggestion check. His winning suggestion improved the performance testing routine.

Bernard Rabbit, of the Decatur Plant, received \$180 last month for suggesting an improved method for making bottom plates used in die casting plates.

Two employees hit the charmed circle with ideas worth \$130 each. Doyle D. Miller, Bldg. 26-1, earned his check on four separate awards which totaled \$130. All were for improvements in various punch press operations. Herbert J. Bauer, Bldg. 4-4, earned his \$130 for a suggestion to burnish over adapter nuts instead of swage form on punch presses.

Frank H. Joiner, Bldg. 19-5, received an additional award of \$95 to a previous suggestion for an improved method of sawing steel stock which reduced waste.

Three \$50 awards were paid during February. Edward F. Bienz, Bldg. 17-2, was \$50 richer for a changed method from machining parts for the reciprocating press to fabricating the parts. Howard

**CASHES IN ON IDEA**—Maurice Allen (right), a tester in Bldg. 17-3, earned \$340 on a suggestion which improved the performance testing routine. Presenting him with his check and bonus awards are (l-r) George Souls and Dick Madden.

**SHE'S OUR ONLY REAL JOB SECURITY**

## If We Build A Better...

A century has passed since Ralph Waldo Emerson wrote a famous saying into the pages of history—but the basic economic truth remains unchanged.

"If a man can make better chairs or knives, crucibles or church organs than anybody else, you will find a broad, hard-beaten road to his house though it be in the woods."

None of us can quarrel with Emerson's prophesy, or with later writers who added "the better mousetrap" thought to Emerson's original comment. But those of us who work for GE meet the opposite truth in our daily efforts to make GE jobs steadier in times of war and peace.

If our customers, who have their eyes and ears tuned for new values all of the time, find a better—or cheaper—or more attractive—or more versatile product made by our competitors, there is no force on earth that will make them buy our handiwork.

This is the key to our job security. The customer is the only "king" that our democratic system recognizes—but no royal tyrant in history ever ruled a wider domain with a tighter fist. The customer commands—and our research and development people create new magic through electricity that would shame the Merlins of ancient courts. The customer adds new worlds to the buying kingdom—and our marketing men search far and wide for newer and bigger outlets for our goods. And every day, a bigger legion of competitors enters King Customer's court in quest of favor.

If we continue to build the world's best turbines and toasters, clocks and controls, transformers and television sets, lamps and locomotives, meters and motors—and a thousand-and-one other electrical products and components—King Customer's confidence will continue to give us job insurance.

Whether our job insurance policy lasts a lifetime, or expires tomorrow, is entirely up to us. There is no high-sounding scheme for guaranteeing jobs that can oust King Customer from the throne.

## 6-4 AIRLINERS

by Moe Satterthwaite

Ivy Mills has gone back on nights. Now she and Joan Armstrong can cry on each other's shoulders for they'll sadly miss Liberace. . . . Marvin Rutz has entered the Bowlers Hall of Fame with a big 702 series. . . . Rosie Kintz is leaving today. She was given a stork shower before she left. . . . Irma Haney seems to be having trouble with her money lately so the girls on her line decided to give her a gift with a pocket included. It's going to be a bunch of fun when she tries to get a nickel for a coke. . . . Dorothy Edgar is on the sick list and is going to the hospital Tuesday for an operation. . . . The party that Freddie Clark gave last Monday night was out of this world. He cooked the dinner all by himself. The menu consisted of cocktails, chicken noodle soup, mashed potatoes, fresh peas, creamed chicken, hot rolls, tuna fish salad, and a lazy Susan with seasonable vegetables. For dessert he served a whipped cream pie with cherries. The table was set with cut glass dishes, two spoons, two forks, a knife, and a cigar at each place. Freddie missed his calling. He should have been a chef at the Waldorf. . . . Gilbert Walker celebrated his 25th year with GE this week. He was presented with a 25-year pin and welcomed into the Quarter Century Club.

## STORMY WEATHER BLDG. 17-4

by Bill Hurtt & Larry Reed

Some very tasty cake was passed around by Karl Soest in honor of his 39th birthday. . . . In order that he wouldn't be fooled by having his birthday cake replaced by a chocolate one this year, Morris Mumma swore there would be no cake this year. However, unknown to him, his wife called in and had one of the boys meet her at the gate in order to bring in a cake she had baked for the occasion. So everyone was once again well satisfied and pleased, that is, we think all were satisfied with possibly the exception being the guest of honor. . . . The old story of a dog and a striped pussy cat finally came true. Gerry Holdgreve and his dog were tramping the country side when the dog flushed one of those particular cats and, of course, the inevitable happened. No amount of washing and perfuming would rid the dog of his unhappy condition and at last reports the house was just beginning to lose that distinctive aroma and once more company is being welcomed at the Holdgreve mansion. . . . Most wells are driven to a depth of 180 to 190 feet, but not Jim Smith's; he claims that it only had to go down 20 feet. However, we haven't quite acquired a taste for that salty surface water that is so popular in Hometown. . . . Once again we were happy to have Carl Cochran pay us a visit after such a prolonged absence and he was followed in rapid succession by Fritz Stauffer, Ernie Fruechteicht, and Chas. Haberkorn. Welcome to all you fellows. . . . According to Maxine Baker, Chas. (Izzy) Israel, now in Florida, is very wrong in the rumor that he heard, for he must have the wrong Maxine and as Mark Twain said, "The report is greatly exaggerated." . . . Quotation for the week: "So of cheerfulness, or a good temper, the more it is spent, the more it remains."

Near accidents are WARNINGS—heed them.

## Bing and Ken Talk It Over

Bing: Thank you, thank you very much.

Ken: Say, Bing, I have a note on my memo pad that says "Be sure and have a chat with Crosby."

Bing: What Crosby?

Ken: Ha, darned if I know.

Bing: Ha, ha, maybe it's me. I'm not hard to talk to.

Ken: Oh, yes, yes I believe it WAS you who I wanted to talk to.

Bing: Well, now, what did you want to talk about?

Ken: Well, I don't rightly know. I didn't write it down.

Bing: A couple of weeks ago you and I started quite an interesting discussion here about the partners in our economy.

Ken: That's right, Bing. That's what I wanted to talk to you about.

Bing: I had a hunch it was. . . . If you recall—which I doubt if you can—you'll remember that we came to the conclusion that the partners in our economy were the manufacturer, the worker, the investor, the customer, and the government.

Ken: That's right. And to continue, I think that perhaps we should point out that a person can play many roles—he's never completely, say—a WORKER.

Bing: Correct. You're reviving, you're sparking, you're coming to. But could you file that last bit?

Ken: Yes, I'd better, I guess.

Ken: Well, whenever a worker BUYS anything, he becomes a CUSTOMER, too.

Bing: True.

Ken: And everyone of us who has an insurance policy, or a savings account—let alone owning any stocks or bonds—is an INVESTOR, too.

Bing: Say, aren't we going full circle here, Ken?

Ken: We could be. Suppose I cite a specific example.

Bing: General Electric?

Ken: Bing, you were peeking!

Bing: Just a shy glance.

Ken: Well, now, many of us think of General Electric as a large company—a manufacturer.

Bing: It figures.

Ken: But General Electric is really thousands of men and women—in other words, WORKERS. General Electric is also a CUSTOMER—buying large quantities of raw materials and sub-contracted parts.

Bing: General Electric helps support GOVERNMENT by paying taxes on what it sells, on what it buys, and as a group of workers, on what it EARNs.

Ken: In other words, although basically General Electric is a manufacturer in our economy, it is many other things, too.

Bing: To simplify, Ken, what we're really getting at is, no matter what role or roles you, I, or the next fellow may happen to play in everyday life, we're all inter-dependent upon one another. I may hold stock in your company and still buy from you. Or, I may even work for you. The point is this: whatever group we primarily belong to, our interests are really the same. Each of us has not one, but many incentives to make better products, to buy better products, and to seek profits from better products. Everybody benefits!

Ken: Well, that seems to sum things up quite well.

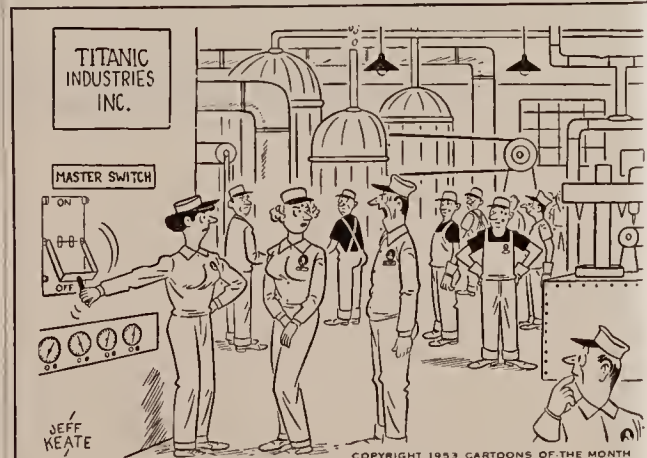

Bing: Thank you.

Ken: We must get together again soon.

Bing: I'm always available.

Ken: I'll be here.

Bing: Not talented, but I'm available. Now, if Rosemary will move in here, we'll get along with a little music.

"I'm sorry if the noise did make it impossible for you to hear what kind of a dress she's wearing to the company ball, Miss Hill, but we'd rather you didn't shut down the entire plant!"

## Employees Still May Enroll in New Series Of First Aid Training Classes at GE Club

There is still time for employees to enroll in a new series of First Aid classes for General Electric employees, which is under way in the GE Club, it was announced today. There will be five classes which are open to all employees interested in learning basic First Aid training.

The course consists of a minimum of 22 hours of Standard Red Cross First Aid training,

four hours of which are devoted to special care given in case of injuries suffered from atomic explosion, flash burns and nuclear radiation. In addition to the training offered in remedial care of atomic injuries, suggestions and procedures dealing in preparation of the home for atomic attack are also taught.

All that is necessary to enroll is for interested persons to come to the Club at the time of their choice. Classes will be two hours each.

The schedule of classes is as follows:

Monday, 1 to 3 p.m.; 3:45 to 5:45 p.m.

Tuesday, 3:45 to 5:45 p.m.

Thursday, 4:45 to 6:45 p.m.; 6:45 to 8:45 p.m.

Red Cross authorized instructors for the classes will be Ethel Shroyer, Bldg. 26-4; Carl Riedel, Taylor St.; Harry Richardson, Bldg. 17-2; Louise Hegerfeld, Bldg. 19-5, and Mrs. Clyde Downes. Classes will conclude the last week in May.

The new series was organized at the suggestion of the Allen County Civil Defense organization.

Universally recognized Red Cross First Aid Certificates will be given to all employees successfully completing the 22-hour course.

Character is not made in a crisis—it is only exhibited.—National Safety News.

## Keep 30-Year-Old Rendezvous

**30-YEAR OLD DATE**—After graduation from the Apprentice School 30 years ago, Ray Kierspe, Taylor St., and Herb Sullivan, Bldg. 4-4, made a pact to meet each other March 25, 1954 to talk over what had happened to each in the intervening 30 years. They made a note of the future meeting in their Apprentice School handbooks. It was decided by both to select a local landmark that they were certain would still be standing in Fort Wayne. Last week, the two men kept their 30-year-old date and met in front of the Lincoln Life Insurance Company.

## Are You Among The Missing?

A number of employees who purchased U. S. Savings Bonds under the GE Employees Savings and Stock Bonus Plan in 1948 and then left them on deposit for the five-year holding period which ended Dec. 31, 1953 have not yet sent the custody receipts for their 1948 bonds to their payroll sections as requested in the notice given to them last December.

Are you holding your custody receipts because you think the accumulated income earned on your 1948 stock bonus will be automatically applied to the purchase of additional GE stock? This is incorrect. Under the terms of the Plan, the income can only be paid to the employees, it cannot be used to purchase additional stock under the Plan. Checks for accumulated income have already been prepared for each eligible participant and are being held with their 1948 bonds for delivery as soon as the custody receipts are turned in to the payroll sections. If you cannot locate your 1948 receipts, inform your payroll section at once.

You are urged to give this matter your immediate attention so that your 1948 bonds and income checks may be delivered to you.

**VETERAN SPORTSMAN** Oscar Huge, retired employee, gives his grandson, eight-year-old David Knight, some pointers during a recent bowling session at the GE Club alleys.

## Oscar Huge, 77, Gives Kegling Tips to 8-Year-Old Grandson

A well-known kegler around the GE Club alleys is Oscar Huge, retired employee. Oscar, who will celebrate his 77th birthday Sunday, March 28, has been bowling for some 45 years.

During his 30 years of service with GE, the veteran sportsman actively participated in league bowling and has continued to do so since retiring in 1943 as a member of the Apparatus League.

In addition to making a weekly appearance at the club alleys, he kegles at the Emmanuel Lutheran Church alleys each Tuesday eve-

ning as a member of the Rhythm Ranch team. Last Tuesday he hit a 223 in league play to prove that he has not lost the knack for the sport.

Being a veteran bowler is not Oscar's only sporting activity, for he is known as a former city champion horseshoe pitcher and still participates daily in his favorite exercise of walking. He prefers to leave the family car at home at 911 Wilt St. most of the time and walk to his destination.

Carrying on the family interest in sports is Oscar's eight-year-old grandson, David Knight. David captains a children's bowling team at Emmanuel Church and gets together with grandpa occasionally for a game. Oscar's daughter and David's mother is Edna Knight, Bldg. 18-4. David's father, Paul Knight, works in Bldg. 20-2.

**SIXTH ACT ADDED** to the GE Club Springtime Musical Revue is The Barons. The trio has appeared on the Big Top and Super Circus television shows and at hotels and theaters in various parts of the country.

## TE's to Hold Dance With Parkview Nurses

The Test Engineers Club has slated an informal dance for Friday, April 2, at the GE Squares Hall. The dance will be a joint event with nurses from the Parkview Memorial Hospital.

Dancing will be from 8 p.m. until 12 midnight and refreshments will be served. Fred Ray, Bldg. 8-2, is chairman of the event.

Members of the TE Wives Club are sponsoring a tour of the Old Crown brewery this evening. They are inviting all TE Club members and their guests to attend the tour which will begin at 8 p.m. Mrs. Isabelle Hodgins is chairman of the meeting.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

The most unusual thing has happened. Al Phillips was seen talking to himself. Says he, "It was an argument between capital and labor. He is the proud owner of some stock in the stock bonus plan." . . . Guess what? Art Braun and Clayton Barrick went off their diets. Art held up well for one day; then he threw in the towel. Barrick had more will power. He stuck it out for two days. . . . Walter Gerdorn is once again a grandpa. His daughter recently had a baby girl. . . . Virgil Carmean's son, Jim, was home on a brief furlough and has gone back to camp. . . . Roger Paxton came into work on St. Patrick's Day wearing a bright green tie with a sticker on it saying "Erin go bragh." Some one became curious as to what that meant so Roger went to that good old Irishman, Dugan McKering, and asked him. Sam said, "Ireland go forever." 'Tis no blarney. . . . It's nice to have Howard Musselman back at work after a long absence. . . . Doc Garton came back after a week's illness. Now I'll have someone to bring me some pie from the cafeteria. Doc's pretty good about doing us girls favors that way. . . . Bob Kite has been seen cutting up paper dolls. Could it be that he misses someone? . . . Art Braun has spring fever. He is in the market for a greenhouse to raise plants. If anybody has a greenhouse lying around that you want to get rid of here's a customer for you. . . . Whenever there is a basketball game being played over the week-end you can be sure that it will be replayed again on Monday morning by the test office gang and any more enthusiasts within ear shot.

rother and Mary McKinney ringing in their clock cards again. . . . Edith Beaty will have to think of a remedy for riding past her bus stop when she takes a little snooze on the way home. . . . Gwendolyn Liggett purchased a new TV set. She didn't know what time the programs came on, so everyone watched the test pattern. Later she fell asleep and missed the program she wanted to see. . . . Margaret Zumbrun is a proud new grandma. It's a girl. . . . We wish a speedy recovery to Dorothy Blume. . . . Vickie Clayton must be in the handbag business. She was seen walking out with five of them last Friday night. . . . The next time Ida Sinn jaywalks, she will be more careful. The next cop might not be so generous. . . . We extend our sincere sympathy to Eliza Page on the loss of her sister. And to Arla Bower on the loss of her brother-in-law.

# GE Textolite and Monotop Plastic Surfacing Now Being Sold at Employee Discount Prices

An opportunity for General Electric employees in this area to purchase inexpensively GE Textolite and Textolite Monotop plastics surfacing has been opened with the announcement that these attractive and durable decorative-laminates would now be sold at employee price discounts.

A. Roethle & Sons, 3020 Wells St., was named authorized dealer for GE Textolite plastics surfacing in this area today. The firm has been franchised to sell decorative laminates for the home at regular discount prices to all G-E employees. Authorization purchase slips may be obtained at the Employee Store at Broadway and Taylor St. These slips will be honored at A. Roethle & Sons.

Textolite sheet surfacing will be sold to GE people at 62 cents per square foot, while Monotop 6-foot sections will sell at \$34.95 each.

Roethle officials said they would also carry in stock the new GE pressure-contact adhesives, for use in combination with Textolite surfacing. The adhesives, developed by General Electric after two years of rigorous testing, are believed to greatly simplify craftsmen's problems in installing Textolite on coffee tables, bars, vanities, and kitchen work surfaces.

Easy-to-follow instruction sheets are available at the dealer's salesroom. Plywood and other materials necessary for professional or home installation will also be marketed by A. Roethle.

Textolite and Monotop are manufactured at the General Electric Company's Laminated & Insulating Products Department plant in Coshocton.

GE TEXTOLITE and Textolite Monotop plastics surfacing are available to employees here through A. Roethle & Sons, 3020 Wells St. Samples of the GE surfacing are on display at the Bldg. 8-1 Employee Store.

## SUGGESTIONS

(Continued from page 2)

Oesch, Bldg. 26-2, earned his \$50 on an idea to use friction proof oil in the bearings of certain grinders. Paul Conrad and Robert Green, both of Bldg. 26-1, shared a \$50 award for their joint idea that helped eliminate scrap punchings.

The following employees received awards ranging in amount from \$25 up to \$50:

Harry E. Perl, Taylor St., \$35; George Lamboley, Taylor St., \$30; A. G. Gardt, Taylor St., \$30; Robert Sealover, Taylor St., \$25; Harold Baehler, Taylor St., \$25, and

Anna Womack, Decatur Plant, two \$25 awards.

Others are Ralph Bradtmiller, Bldg. 26-3, \$25; Elvie Dafforn and Lester Baker, both of Bldg. 26-5, \$25; Charles Belot, Bldg. 4-2, \$35; Harry Price, Bldg. 6-1, \$25; Burwell J. Hoopingarner, Bldg. 6-4, \$25; and A. W. Telschow, Taylor St., \$25.

There were 174 employees who received awards of less than \$25.

## ELEX

(Continued from page 2)

Lutheran Church, will be guest speaker. Paul Brumbaugh will furnish religious music.

Tickets are \$1.25 per person and may be secured from contact girls. Florence Hargen, Taylor St., is chairman of the meeting.

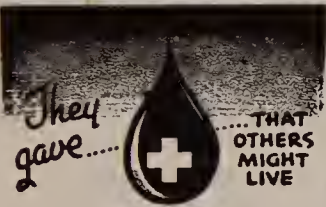

Easter favors will be presented at this meeting also and two hams will be awarded as attendance prizes.

## SICK LIST

Helen Meeks, Jack Sweet, Alta Franklin, Robert Hawk, Charles France, Ferdinand Beaser, Donald Rapp, Harry Anderson, Georgia Beamer, Dorothy Blume, Grace Brakenhoff, Dorothy Edgar, Lydia Eckrote, Glen Geiger, Louis Gighl, Lillian Hartman, Alberta Hudson, Thelma Kauder, Virginia Mayer, Clarendon Mosshammer, Wilard Smith, Beverly Thomas, Leo Nyboer, Earl Ostrander, Cristobal Bustus, Frank DeVaux, Florence A. Lemper, Walter Sollberger, Emily Eick, Orle Conner, Kenneth McCuaig, Margaret Turney, Homer Ray, Virginia M. Johnson, John Brandyberry, Eula Murray, Joseph Adams, Hazel Adamson, Walter C. Holloway, and Lloyd Foulks.

MARKS 35TH YEAR—Leo J. Neumann (right) marks his 35th year with General Electric in the company of some of his co-workers, John Henry (left) and John Bendel. Mr. Neumann first came to GE in 1919 and is now an electrician in Bldg. 20-1.

The following people donated blood during the week ending March 12:

Ronell Allen, Maurice Allen, Donald G. Baker, Paul V. Beltz, Paul G. Berghorn, David R. Blake, Roy L. Balke, Melvin A. Blomenberg, John W. Boeckel, James C. Borgstrom, Paul F. Boyer, Arthur C. Brockmeyer, Gilbert D. Brookhart, Walter L. Coolman, Oscar H. Bruick, Virginia Burkett, Miles R. Cameron, George R. Chandler, Rudolph G. Claymiller, Donna M. Crow, Francine M. Cyr, Paul W. Dannecker, Joan Gausepohl, Haulie T. Mee, Max Oberkiser, Robert W. Quinn, and Mary E. Saxton.

## 17-3 NEWSIES

by Wilhelmina Beeth

### "KATIE"

It's impossible to put on paper All the nice things we could say, About a certain person On her retirement day.

Words can't express the meaning Of her friendship and her smile, As she sits and watches TV We'll be missing her all the while.

Of Katie Weigele, I am speaking, For her working days are done, May much happiness attend her For many years to come.

by Mary Wright.

Next Wednesday Kate Weigele will check in her tools and bid us good-bye. We will certainly miss you, Katie. We will miss all those funny little happenings; like the night you chased a bat all over the house in the wee small hours; or when you had a zipper that wouldn't work, you oiled it; the time you brought a sack of grass seed instead of your lunch; or the night you took Luella Knoche's lunch home, and the cafeteria had a new patron. It just won't seem right to go back to the lead section and not see you. But in your life of ease we wish you the best, and do think of us once in a while. . . . Birthday greetings to Vereda Reinig, Jeanette Brienfalk, Betty Walker, Ruby Leffel, and Minnie Durnell. . . . We bid farewell to Rose Lichtsinn, who will be busy making tiny garments. . . . Betty Hoffman's husband really surprised her by arriving home last Saturday afternoon from Korea. He brought her a beautiful necklace and earrings. . . . The girls on line 3 really enjoyed the home-made candy passed by Ed Ortlieb. . . . Of all things to fall into, Maxine Hathaway had to pick a tote box. . . . Glad to see Lillian Hergen-

Mr. and Mrs. Bruce Rohn Capture  
Squares Bridge Tourney Crown

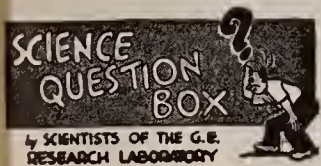

Mr. and Mrs. Bruce A. Rohn won first prize in the GE Squares 1954 bridge tournament with a total of 12,700 points. The final night of the tourney was concluded last Friday. Second place in the event went to Mr. and Mrs. James Capps for their 11,820 total and Mr. and Mrs. Nate Horton came in third with 11,460 points.

A total of 11,230 points brought fourth place prizes to Mr. and Mrs. Harry Fisher and the Derek Lawrences were in fifth place with 11,160.

Prizes for the event were awarded the first five places and were presented by Mr. and Mrs. Wendell Hughes, co-chairmen of the event.

Tuesday, March 30, the GE Squares will have a golf stag at their club rooms beginning at 8 p.m. Walter Helmke, chairman of the 1954 PGA golf tournament, and Dick Goshen, chairman of the same event in 1953 will discuss the tourney and golfers in it. A local golf professional will conduct a golf clinic also. Refreshments will be served.

Gil Carl and James Capps are co-chairmen of the event.

Q. I have often heard snow referred to as "The poor man's fertilizer," and would like to know what justification there is for this?

A. According to the N. Y. State College of Agriculture, there seems to be little justification for calling snow "poor man's fertilizer," since snow does not contain any appreciable quantity of fertilizer nutrients not found also in rain and other types of precipitation. Nitrogen, extracted from the atmosphere by lightning discharges, does come down with rain water, but there would probably be less in snow than in ordinary rain. Also sulfur, originating in the discharge from some industrial plants, is brought to the ground in rain as dilute sulfuric acid which is a valuable form of sulfur for crops. This also would not tend to be present in snow more than rain. If, as often happens, the ground is not frozen under the snow, and it melts gradually, the water may penetrate slowly into the ground and so build up a reservoir for the next season. This factor may be the origin of the idea that snow is particularly good for crops.

Q. Why do some stars change in brightness?

A. There are many kinds of "variable stars," and their change in brightness arises from several causes. One type is the "eclipsing" variable, where there are two stars, one much brighter than the other, revolving around their common center. The dark one may periodically come in front of the bright one and cut off some of its light. The star Algol, in the constellation of Perseus, is

ASTE Honors Smetana

James Smetana, Bldg. 2-2, has received the chapter service pin for the year from the University of Michigan Chapter of the American Society of Tool Engineers. The award is contributed each year to the member who has best contributed his time and talents to the chapter.

\$95 RICHER—Frank H. Joiner (right) looks over the suggestion which earned him \$95 recently. Clarence A. Brenner is shown with him. Mr. Joiner, a stockkeeper in Bldg. 19-5, cashed in on an improved method of sawing steel stock which reduced waste.

of this type. In other cases some internal effect in the star causes its brightness to change. One important type known as the Cepheid variable, because the first one studied was in the constellation of Cepheus, seems to pulsate as it changes brightness. Such a star is brightest as it is expanding and faintest while contracting.

Q. What are the blood types and how are they determined?

A. There are four main types or groups of human blood, known as O, A, B and AB. If one type of blood serum (the clear liquid that remains after the corpuscles and other solid materials have been removed) is added to red blood cells of another type, it may cause the corpuscles to agglutinate, or clump together. Thus, in blood transfusions, it is necessary to make sure that compatible blood is used; preferably it should be the same type as that of the person receiving the transfusions. To find one's blood type, a sample is taken, placed on a glass slide under a microscope, and sera of group A and of group B added. If neither of these causes clumping, the sample is type O, while if they both cause it, the type is AB. If only B causes clumping, the sample is type A; while if the agglutination is produced by A serum, the sample belongs to type B.

Q. What makes telephone wires shake when laden with snow?

A. Such shaking is due to the flow of air around the wire so as to form eddies in back of it.

These appear alternately in one part, then another, and so set the wire into vibration. Normally this may be so fast that the vibrations are not visible. When covered with snow, the diameter of the wire is increased and this, together with the increased weight supported by the wire, causes it to vibrate more slowly. Thus, you can more easily see it happen.

Q. Can sound be transmitted over a beam of light?

A. Yes. Something like a public address system is used at the transmitter, with a microphone feeding through an amplifier, not into a loud speaker, but into a special form of electric lamp, which varies in brightness in exact step with the sound waves. By mirrors or lenses, this light may be formed into a beam. At the receiver the beam is picked up with a phototube, which converts the variations of light back into electrical vibrations. When these are amplified, and fed into a loud speaker, the original sounds are reproduced. In 1932, General Electric engineers, experimenting with such a system, transmitted sound over a distance of 30 miles, and in 1935 they held a two-way conversation from Schenectady, over a light beam, with the U. S. Navy's dirigible, "Los Angeles," as it flew over the city. During World War II the Navy made use of sound transmission over a beam of infrared rays, which are not visible, and the Germans had similar devices.

Harold Harris  
Named Buyer  
For Hermetic

Harold E. Harris has been appointed a buyer in the Hermetic Motor Department, it was announced this week by Albert E. Leider, manager of production.

In 1934, Mr. Harris joined the company and entered the Apprentice School's machinist-toolmaker course in Schenectady. The following year he went into production work where he did expediting, planning and wage rate, accounting, and clerking. Later he was named supervisor of inspection planning. He went into the general engineering laboratory in 1945 as a procurement man and subsequently

Harold E. Harris

became a group leader in this section. He was in the purchasing section at Schenectady until his present appointment.

Mr. and Mrs. Harris have one son. They plan to move their home to Fort Wayne soon and will reside at 1414 Columbia Ave.

Service Engineering  
Operation Set Up  
At Danville Plant

Establishment of a new service engineering operation at the Danville Plant has been announced by R. P. Cheesman, manager-service engineering.

In keeping with the trend of decentralized activity, the location of a representative of service engineering close to the operating functions of the product department will permit prompt effective attention to the problems of the product line, Mr. Cheesman said.

Robert C. Kronhcke will be the representative of service engineering at the new location.

A part of the Apparatus Sales Division, service engineering provides the coordination between the product department and the district sales office engineers in connection with engineering service to customers. Mr. Kronhcke will serve the Ballast Department at Danville.

The man who makes a fresh start often gets his face slapped.—Sidney Brody.

GE DEATHS

Services Held Monday  
For Joseph C. Wait, 70

Services for Joseph C. Wait, 70, were conducted Monday, March 22, at the D. O. McComb & Sons Funeral Home. The Rev. A. Hunter Colpitts officiated. Mr. Wait died Saturday, March 20, at his home, 1415 Oneida St. Burial was in Greenlawn Memorial Park.

A Quarter Century Club member, Mr. Wait joined GE in 1922 as an assembler in Bldg. 17-4. He later worked as a set-up man and was a hench lathe operator in Bldg. 4-4 when he retired in June, 1947.

In addition to his wife, Anna E., survivors include a son, Orval; two sisters, Mrs. William Wispert and Mrs. North Osborn, and three grandchildren.

Maurice Cox, 51, Dies  
In Lutheran Hospital

A retired employee, Maurice H. Cox, 51, died Tuesday, March 23, at the Lutheran Hospital. He had been ill a short time. Services were conducted yesterday at the Mun-govan & Sons Mortuary.

Mr. Cox came to the company in 1916. He was a draftsman then and later became a supervisor of drafting in the Specialty Transformer Department. He retired in November, 1952, and was a member of the Quarter Century Club. Surviving are his wife, Bess; one daughter, Mrs. Robert Bunn; a sister, Mrs. Darl Harsh, and three grandchildren.

Jacob Trautman Dies;  
Served GE 41 Years

A Quarter Century Club member, Jacob T. Trautman, 78, died Friday, March 19. Services were conducted Tuesday, March 23, in the Klaehn Funeral Home by Dr. Paul H. Kraus. Burial was in Lindenwood Cemetery.

Mr. Trautman came to General Electric in 1891 and was a foreman at that time. He was in mechanical development work prior to his retirement in 1932. He completed 41 years of service with GE.

Survivors include two brothers, Samuel and Henry; three sisters, Mrs. Sarah Wolford, Miss Mary, and Miss Louise, and two nieces.

Oxford Bus Added  
To T. St. Schedule

A special Oxford bus that will leave the Taylor St. plant at 4:36 p.m. has been scheduled by Fort Wayne Transit, Inc., it was announced today. The bus will leave the West Gate at 4:36 p.m. and leave the East Gate at 4:38 p.m. Mondays through Fridays. It will proceed down Taylor St. to Broadway, to Creighton, and on to Calhoun St. where it will continue along the regular Oxford bus route.

## WINTER STREET JOTTINGS

by Marjorie Hill

Howdy to the new little one: Even though he wasn't a little income tax deduction for 1953, Robert Bacon Wyllie is a very welcome addition to the Robert Wyllie home. He arrived March 18 at the St. Joseph Hospital and weighs nine pounds and six ounces. We offer our heartiest congratulations to Momma and Poppa Wyllie.

The welcome mat is out this week for: Lena Jacobs in Drafting, Donald Klas in Engineering, Agnes Geimer in Drafting, and also for the Transfers: Jeanne Bloom, Harry Ash, Tillie Hautch, Robert Chroninger, Ervin Yoder, and Margie Ogden.

Best of luck: Last week, we bade good-bye to Mary Swartz, who is leaving us for a very worthy cause, marriage. This week we're saying good-bye to Carole Calkins who is moving out to Arkansas. Speaking of Carole, the girls in her department all got together last Monday night and had a farewell dinner at the Colonial. Lots of luck to you, Carole, we will all miss you and hope to keep in contact with you from time to time.

Light another candle on the cake this week for Betty Gentile of the Marketing section who is celebrating March 26. Happy birthday, Betty, and many more.

They say there is an Indian running loose in the Purchasing Section, but we know better. It's just Dianne Linn under the influence of her sun lamp. . . . Spring is here: Do you realize that there are only 127 days left 'til vacation time?

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

We wish to extend our deepest sympathy to Arveda Neal and Alice Zumbum on the recent death of their brother. . . . Now that Paul Braun has paddled off into the sunset in his canoe, the braves on the oven no longer have a reason for yodeling the "Indian Love Call" to him and the little red-headed squaw on repair. Now they will have to practice "Red Wing." . . . Radio and TV have nothing on us at GE. We have a Little Margie, too, Jenny Mathias. . . . Congratulations to Ruth Stout's daughter, Carolyn, who was married Sunday. We wish them the best of luck. . . . If you need an appliance fixed in a hurry, just contact Lois Burry. . . . Ruby Shine really enjoys the soup the cafeteria has been serving lately. . . . We wish Esther Richmond's husband a very speedy recovery at Lutheran Hospital. . . . Clarence Gardt wants to make sure that Nadine Reese makes things the right length as he draws a picture on her bench to go by. . . . Congratulations to Wallace (Butch) Castle on a baby girl weighing six and one-half pounds Monday morning. . . . Angeline Fogel keeps the girls in a dither over her new house. . . . Eula Murray is back after being off ill. . . . Nellie Wiggins is all moved into her new home now, but she says she can't remember where she puts things. . . . Birthday greetings to Art Leussenhop, Bill Kessler, Edna Cuyot, Esther Schladenhaufen, and also to Lela Linis' husband. . . . Welcome to Lewis Ortiz, Arnold Lower, and David Bonar in our section.

RECEIVES LETTER OF CONGRATULATIONS—Ford C. Zimmer (left) reads a letter of congratulations he received on his 35th anniversary to (standing l-r) R. D. Hodges and Henry A. Smith; (seated l-r) Claude M. Summers, Steven A. Zimmerman, and Howard W. Orr. Mr. Zimmer is presently supervising engineer of the laboratory administration unit.

## TRANSFORMER TATTLES

BLDG. 26-4

by Dutch Norwalt

Attention all members of the Eastern Star: There will be a special membership meeting for the initiation of Edna DeLeury, special feature, riding the goat. . . . Attention chicken farmers: Anyone in the market for an attractive modern building suitable for a chicken coop see A. H. Topp. His lake cottage is now for sale. . . . After 10 years Mr. Richard Pierce finally got his 600 series in his favorite game of bowling. But he doesn't think he can see the pins good enough to do the same at Toledo. . . . To those who haven't realized it, the George Finkbeiner in our office is the very same George Finkbeiner that won the Buffalo, N. Y. YMCA boxing cham-

pionship in the 60 division in 1930. . . . Latest style notes: Coat hangers are now worn inside your coat. Shoulders of a brand new shape are guaranteed, as well as a slight feeling of discomfort. However, that is immaterial compared to style any day. Ask Hilda Doeherman. . . . Famous last words: Oatmeal all over the place and none to eat. It seems that Margie Hiatt was getting her husband a nice breakfast one Sunday morning. She fixed the oatmeal and raisins together and was ready to eat when she turned and knocked the pan on the floor and all over her nice clean kitchen. . . . Tollie Norris just can't get suds out of Dutch Cleanser. She was pouring cleanser in her dish water instead of soap. . . . Gerald Norwalt was making a considerable amount of smoke today. Jerry Moore said that dumb Dutchman ought to know better than that. That was the first time we ever heard a dumb Dutchman call a dumb Dutchman a dumb Dutchman.

## SLEUTHING in 4-6

by Al Happel

Attention all friends of B. C. Girardot. We have an important story to tell you. Before the story, we have been asked by B. C. Girardot to call him by his name instead of the slang word "Bert". Mr. B. C. Girardot's family has fallen heir to a large sum of money. We heard that Mr. Girardot is now buying his own 10 cent cigars instead of mooching whatever, and we do mean whatever he can get. His future plan is the initial expenditure, which will be a car for Mrs. Girardot. The Mr. drives a big Packard. Although we haven't been able to verify what the second car will be, it has been intimated that the personal property taxes the first year will be at least \$101.24. . . . All American Wives: Even though Catherine (O'Connor) O'Gardt says she is just a "plain ol' American," the

luck of the Irish must have been with her on St. Patrick's Day. When the radio program "Dinner Winner" called her house the magic words were said instead of just plain "hello." Congratulations, Katie, for the Dinner Winner basket. . . . The TV Club is still growing. It has two new members. They are Walter Hahn and Bob Johnston. . . . Happy birthday to Mary Smoak, on the 28th, and Glen Stapleton on the 31st; also belated birthday wishes to Mary Shield, Kathleen Terveer, and Pat Curtis. . . . Nancy Ingram came to work all smiles Monday. Reason: She's sporting a brand new sparkler on her third finger, left hand. Congratulations, Nance. . . . JIM Simpson is our newest member to the TV Club. . . . We'd like to welcome Ruth Berry to the billing section. . . . The wearing of the green was very well displayed by the one and only Chris Flanigan. He purchased a new green tie, carried a green handkerchief, and wore green socks. . . . The nerve of some people! A certain party, named Dave Blake, was thirsty for a coke and decided maybe he could win a free one from his friend, Bill Naas, by flipping him. So instead of walking over to Bill's desk, which is only a few steps away, he telephoned Bill and made Bill walk to the phone and then Bill lost. Bill hopes the next time he will win. Of course you will not lose too much more as Dave will leave before long. Hope good luck is with you before he leaves, Bill. . . . All I want is to find a lunch, the right lunch. Lois Reed put her lunch on the shelf while hanging up her coat and then left it there for a few minutes and when she returned for it, it was gone. She came in the office and suspected none other than Pat Boling, but had no success. Then Cliff Denney came walking in the office, half asleep, and was directed to his desk by the boss, Jerry Duryee. He was carrying a thermos and a lunch. Harvey (private detective) Springer checked the boys and remembered seeing Cliff walk in carrying a lunch, so had a hunch he might be the guilty one and he was. Everyone had their right lunch by 8:15.

## SPOT LIGHTS

BLDG. 4-2

by Estella Pettibone

Birthday greetings to Mary Tucker and Oliver Tracy. . . . Kenny Guysinger was having TV troubles the other evening. The repairman arrived and found Kenny the victim of two pranksters. His pet puppies had chewed the antenna cable. . . . An SOS call comes from Frenchie LeGras. To his surprise he found a Polish newspaper in his mailbox. Now he needs someone who can read it to him. . . . Joan France listens to Lillian Sharpton and Roe Neible discuss their parakeets. They both have birds with quite a large vocabulary. Joan's just won't say anything. She is wondering if it could be that he just doesn't hear her talk enough? . . . Jimmy James has a very red eye. Earl Gebert suggests that he be moved from the center aisle as the strain of watching his machine and the activity in the aisle is too much. . . . Our deepest sympathy goes to Anna Waite, whose husband died Saturday. Anna was pensioned from our floor six years ago and Joe was pensioned from Bldg. 4-4 the same year.

Chemistry probably will never develop anything more dangerous than a blonde.—Wall St. Journal.

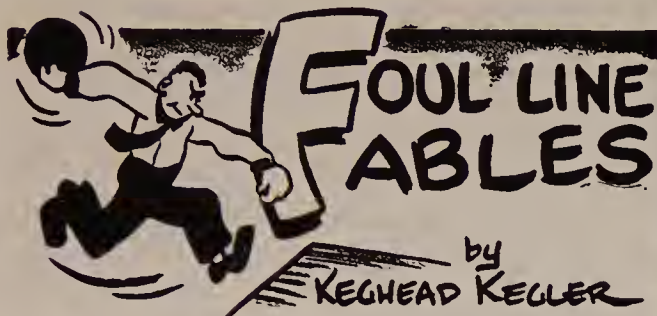

RETIREES AFTER 48 YEARS—William C. Starke spent his last day at the General Electric Company after 48 years on the job. Richard M. Hartigan and Mike Sorgen were among his many friends who stopped in during the day to congratulate him on his retirement. Mr. Starke was only tardy once in his 48 years here and that was because of urgent business one noon. He was employed in the production section, Bldg. 31 prior to retirement.

## Location.....

by  
KEGHEAD KELLER

Big scores by H. Shoaf, 238; S. Jackson, 235; and M. Hoffman, 210; enabled the Flanges to squash the Stators all three games. G. Schultz's 203 was best for the Stators. G. Laurent's 607 series on games of 193, 203, and 211, coupled with R. Schuster's 223, spelled three wins for Office over the Rotors.

The Office jumped back into the lead with 18-12; the Flanges moved up to second at 17-13; the Stators were bounced back to third at 16-14. The Rotors continued to the door mat with 10-20.

#### GE Fraternal

For the second week in a row Al Buuck led the parade in the Fraternal League. His big 675 led Peterson Elevator to three wins over Monroeville Lumber. The 675 series is second high to date in this league. Riverview Gardens at 22-8 continued to set the pace in the league by winning two from second place West End Restaurant. Third place Teeple Truck Lines, 17½-12½, could win only one from Elks, 12½-17½. GE Club, 10-20, couldn't get out of the cellar, losing two to K. of C., 12-18. 200 scores were rolled by E. Bultemeier, 216; R. Mutschler, 215; R. Lord, 200; A. Appelman, 235; D. House, 212; G. Baumgartner, 215; G. Strickler, 225; G. Alton, 203; C. McIntosh, 220; G. Laurent, 211, and J. Murphy, 203.

#### GE Women's League

By winning three games from the Office, the Hi-Spots jumped into a tie for first place with the Last Frames, who lost two to the Spares. Office with 10-14 is in third, while the Spares are not far back with 8-19. Best scores were Plasterer's 176 and Miller's 161.

#### Ladies' Friday Night

Ladies' Friday Night League finds Team No. 5 out in front with 20 wins and 10 losses. Team No. 3 won three games and went into second place with a record of 17½ wins and 12½ losses. Team No. 6 is in third place with 17 wins and 13 losses. Ardyth Hawley converted the 3-7-10 split, Ann Lee the 6-7-10 split. Ann Lee had a series of 533 on games of 175, 178, and 180. Liz Shearer kegled 162, 204, and 183 for a 549 series. Charlotte Stanford started with 153, added 188, and finished with a 204, for a 545. Tommy Williams rolled a 500 on games of 201, 136, and 163. Alice Dahman rolled a 191 and Joan Korn, 187. Ardyth Hawley rolled a triplicate score of 134, 134, and 134.

#### Transformer

Ohms have won 18 and lost 9 to lead the league. Autos are in second with 16½ wins and 10½ losses. M has won 13 and lost 14 for the third place spot. Black rolled a 232; Bower, 244, and Koontz, 202.

#### Interdivision League

After last Wednesday's bowling in the Interdivision bowling league, the race for first place tightens, with 5 teams right close up front. Old Crown Beer and Ale still lead the league with a 22 win and 8 loss record. Brouwers are right behind

with a 21½ and 8½ record. Kinney's have a 19 and 11 record; then come the Airliners and Gutterdusters tied with an 18-12 record.

Les Shroyer got 14 strikes out of 18 shots, ending up his three games with a grand total of 649 on games of 186, 216, and 247. Les was the sparkplug of Kinney Koncessions in downing the Old Crown Beer and Ale team three games. W. Seidel had a 202 and Jerry Koehl a 210 for Old Crown.

Brouwers took two games from Summit City Heating. In the second game Brouwers had a 1032 total. In this game three of the Brouwers' boys had 200 games. Andy Anderson had 247; Frank Matthews, 211, and Erv France, 203. France also had a 222 in his last game, while George Luedeke had a 205. Gutterdusters took two games from the Apprentice team. R. Bower had a 228 game for the Gutterdusters.

Deadheads won two games from Harvey Bros. took all three games the Pindusters, while Tools took two games from the Airliners, away from Transformer. Jim Meeks of the Pindusters scored a 211 game; Baker of the Tools had a 209.

In the individual standings Erv France squeezed by Vic Rump for the highest average, both having 176, but France having 63 extra pins against Rump's 26.

Apprentice still leads in the team high single and three-game scores, with a high single of 1069 and a three-game total of 2999. Franke,

**SPRING SIGN**—When sports enthusiasts dust off their golf clubs and start practicing putting on the living room rug, you know that spring is definitely here. Harry Rhodes, Bldg. 19-2, member of the GE golf league, begins practice for the league season which opens in May.

Shroyer, and Anderson are tied with a 247 for high individual single game. Les Shroyer has a high three-game total of 649.

#### GE Orphans

With 25 wins and 8 losses Hotel Keenan is leading the league. Team No. 2 is in second place with 23 wins and 10 losses. Team No. 6 has won 17 and lost 16, which puts them in third place. Milly Rietdorff rolled a 518 series on games of 175, 169, and 174. Ike Foor had a 172 and Joan Armstrong, a 171.

#### Ladies' Tuesday Afternoon

Team No. 1 has won 22½ and lost 10½ for first place. Team No. 3 has a record of 21 wins and 12 losses for second place. In third place with 20½ wins and 12½ losses is Team No. 6. Edna Koester kegled a 170.

#### Small Motor

It is still Two Legs out in front with 22 wins and 8 losses. Test

and G-Men are tied each with 18½ wins and 11½ losses. Models are in No. 4 spot with 16 wins and 14 losses. Art Lantz rolled a 200; Russ DeTurk, 202; Chuck Kelso, 203; Tony Koorsen, 200; Walt Whonsetler, 200; Jay Saylor, 206; Arnie Johnson, 224; Lloyd Pinkerton, 201; Dick Tholen, 214 and 201; Kenny Highland, 202; and Ray Lindemuth, 233.

#### Ladies' Monday Night

Holeyrollers won three games and now have a record of 25 wins and 11 losses. Scatterruins record is 23½ wins and 11½ losses, which puts them in second place. Twisters are in third place with a record of 21 wins and 15 losses. Ann Lee kegled a 541 series on games of 163, 190, and 188. Winnie Schuerich rolled 184, 169, and 161 for a 514 series. Dot Fuhs rolled 170 and 172; Ilo Matter, 181; Betty Hinton, 179; and Grace Johnson, 175.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

Helen Brown gave a shower Friday evening in honor of Ilene Richardson, who has an appointment with the long-legged bird. Her gifts were lovely and the girls all enjoyed the party. Helen is a fine hostess, we think. . . . Evelyn Tibbles' small son, Ricky, has scarlet fever. We hope he is soon better. . . . C. V. Von Behren entered St. Joseph Hospital for observation. Hope all's well with you, Charlie. . . . Mary Jane Wise was busily cleaning house when in rushed her husband with the suggestion that, "We go home" (to Indianapolis). Mary Jane was ready in a trice and home they did go. Just mention the word "Go", to Mary Jane and she is practically ready to accompany you any time. She is our traveling girl friend. . . . Happy birthday, Marie Renz, Dixie Hogg, and Phillip Nearing. . . . Friday, Ilene Richardson is leaving us to take up housekeeping in earnest. We will miss her lovely smile and the good advice she always gave us. The place just won't be the same, Ilene. Don't forget Regional; we never will forget you. Several of the girls who always ate with Ilene had a potluck Thursday in honor of her departure Friday. They were Berry Swift, Sue Stewart, Dixie Hogg, Carol Taub, Mabel Fisher, Helen Brown, Evelyn Tibbles, Marlene Niccum, Ruth Bentz, Faye Ann Christlieb, and Ilene. The entire office presented her with a gift Friday, each one wishing her good luck.

BLDG. 22

by George Winans

We wish to say good-by to Jason Black, who is leaving us this week, and to wish him good luck in his new job. . . . Happy birthday to Joe Harris, who was another 365 days older on the 23rd. . . . No, folks, we do not have a new office girl. That is just Mildred Messer with new streamlined specs, a new "poiple" dress, and a new hair frizz. Whoo whoo! . . . It finally happened! Red Juergen's Kaiser blew up. We knew he had been stretching his luck too far lately. . . . The usual thing happened in Bldg. 22 last St. Patrick's Day. Everyone wore green but the Irish. That shamrock that Ralph Garrett had on didn't go very well with the sauerkraut hanging out of his ears. Joe Ostrowski is about as Irish as a chunk of Polish sausage. . . . That pin-up picture that Eugene Miller took home to make some prints off of surely must have been a wow. He says those dreamy eyes that gal had upset him so he didn't get back on the job for two days! . . . Johnny Berger, we are glad that you are happy on your job as your singing indicates, but will you please soft pedal it a little? The people in the neighboring building are mistaking your rendition of "Oh, My Papa" for the fire whistle, thereby causing endless confusion as they keep pouring out into the street. . . . Red Sutter has a new Lenten snack that he wishes to pass on to you, spaghetti sandwiches. You just take two pieces of bread, put a ladle of spaghetti between them, trim off those that hang out with scissors, and there you have it, delicious.

**MANY RETIREMENT GIFTS**—An array of gifts at his retirement is viewed by Carl Deitche (center) on his last day of work. With him (l-r) are Emmet Bobay, Roscoe Marshall, and Lawrence Satterwaite. Mr. Deitche has been a welder in Specialty Transformer since 1937.

# GE OWLS COMPLETE PERFECT SEASON

END OF A PERFECT SEASON—Benny Penkul gets a big boost from his championship team in the Main Auto Owl League, as the crown-wearing cagers won their 21st game to wind up a perfect season. Left to right are John Anspaugh, Warren Dickey, Tom Gladioux, Bob Markey, Carl Wilson, Ron Blodgett, Gene Etter, Harold Somers, Frank Bailey, and Cornelius White. Ronald Fisher was not present when the photograph was taken.

### TOOL BITS

#### BLDG. 19-4 and 5

by Howard Demsey

Along with all his other accomplishments, Les Hines is also a motion picture projector operator. He showed some educational pictures at a machinist lodge meeting the other night . . . Russell Hamby was elected to the advisory board of the Aboite Township Community Association at their meeting recently. Serving on the same board is our former co-worker, John Montgomery, and the new treasurer of the Association is Frank Prezbindowski, who is remembered by most of you from back in the days of Bldg. 26-5. . . . Don Hoffman has left the planning unit to become a foreman in the Die Plant at its new location in the Perfect Building. Good luck on your new assignment, Don. . . . Also the best of luck to Dick Hennick who is also moving to the Die Plant at its new location. Dick received a pen and pencil set as a good-will gift from the fellows in the machine section of the second shift. No excuse for any more pencil borrowing now, Dick. . . . Clayton Racquet almost saw the Bob Hope Show on TV the other evening. He fell asleep in his chair before it even started. . . . Bud Dunlap failed to report all the foiled fishermen that attended El-don Mee's fish supper the other night. Bud drove 40 miles to the event himself. . . . It is quite an advantage to be a typesetter for the GE NEWS. They can get all of the bargains in the adlets before they are printed. . . . Bob Kahlenbeck's loaded cigar trick backfired on him. How does it feel to have your cigar lighter blow up along with your cigar, Bob. . . . Jim Lee is the latest to buy TV.

. . . Paul Strombeck does not think he can afford a TV set so he wonders if it would be possible for him to borrow those binoculars that Jule Franke used to see TV at his neighbors. Paul thinks that is the first step toward buying a TV set. . . . Congratulations to Don Konow upon his graduation from the Apprentice School. . . . If you find anything loose on a stripper don't ask Don Eme about it. He'll have it brazed together for you before you know it. . . . Don Alcott left a trail of coffee from his car to the office the other morning when his thermos bottle broke in his lunch basket on his way to work. . . . Dick Lee has made a \$21.75 down payment for paving the streets of Huntington. The sign said "Stop." He didn't. . . . Harold Blauvelt went to give a pint of blood at the Red Cross but all they could get was a half pint, using both arms at that. You're still to be commended, Harold, a half pint is better than none. Better luck next time. . . . Congratulations to Mr. and Mrs. Warren Spriggs on the birth of a baby girl on March 8. After a quick check with his wife as to the correct spelling Warren reports the baby's name is Jacqueline Sue. . . . Del Stiekler and family are the proud owners of a brand new power glide Chevy. . . . Bob Krugh is a mighty lucky fellow that his wife served his sandwich on a paper napkin, rather than a plate during the final basketball game last Saturday night. Everyone who saw the game will admit it was a mighty exciting game, as does Bob. He was half way through his sandwich before he looked down to find he had been eating the paper napkin right along with his sandwich. No ill effects as yet have been reported. . . . The boys in the lathe section received a real treat last Monday when Maury Sordelet came to work wearing his lovely new Christmas

trousers. One of the special features of these trousers is the exclusive "pocket within a pocket" used for carrying lost keys and stuff. They do look pretty good, Maury. . . . John Stetler and his wife spent quite a bit of time hunting a place to buy a meal of ribs. They had almost given up and were even considering eating some of the eggs they had bought from Les Dafforn instead, when they finally found a place near Max Baron's house to get ribbed. . . . Chet Reynold's son, Jack, found Fort Wayne a rather unfriendly place while he was home from college for his three-month work period. He had stopped for a red light on Anthony Blvd. when a car hit him from the rear, driving his car into the car ahead, making a total wreck of Jack's car. Fortunately, Jack's only injury was a bruised leg. All of the drivers in Fort Wayne aren't bad, Jack, it just seems that way. Most drivers know that courtesy is contagious but avoid it like a case of measles.

### THE NIGHT WIND

#### SECTION 417 TAYLOR ST.

by Hazel Davis

Vera Fletcher has returned from Florida with a lovely tan. . . . We hope to see Margaret Turney back at work soon. We've missed her. . . . Welcome, Harold Stith, to the die cast section. . . . Rebecca Fogwell, Mable Shinn, Marge Bischoff, and Wilma Robinson attended a surprise party for Mae Diel. Everyone had a grand time. . . . Alice Parks celebrated her first anniversary at GE with ice cream and cake for everyone on third shift. . . . We wish Leona Taylor's daughter, who is in the hospital, a speedy recovery.

## Down Aircraft Gear 65 to 20 To Win Main Auto Cage Title

by Howard Colby

Last Thursday morning the GE Owls set back the Aircraft Gear team to the tune of 65 to 20 to finish the 53-54 season with a perfect record of 21 straight games to win the Main Auto Industrial Owl League championship.

In a very slow first quarter GE scored just two field goals, both by Bob Markey, for 4 points. Aircraft Gear was held to just two free throws for a first quarter score of 4 to 2.

The second quarter picked up a little in tempo for the Club team as they hit for 16 points on six field goals and four foul shots. The Gear team was still unable to find the range as the best they could manage was two foul shots and a single basket for 4 points. This field goal was the only one that the Gear men were able to collect in the entire first half.

This gave the GE Club a half-time lead of 20 to 6. The Club team continued to roll in the third period as they totaled a 27-point quarter, while Aircraft was scoring 7 points.

Ron Blodgett led this attack with four field goals and two foul shots for 10 points. Carl Wilson chipped in 6 points, followed by two baskets each by White and Etter, while Etter added a charity toss. Bob Markey completed the scoring in this quarter as he dunked a fielder to make it 47 to 13 at three quarters.

Warren Dickey paced the Club in the final period with 10 points. Bailey added four more and two points each by Anspach and Somers completed the scoring for the Club with a total of 65 on the scoreboard. Aircraft Gear scored 7 points in the final quarter to fix their total on the board at 21.

FINAL LEAGUE STANDINGS				(Complete Schedule)		W. L.

## Dalman, Shroyer Grab First Prize In Men's Doubles

by Les Shroyer

Harry Dalman's and Les Shroyer's 1288 total withstood the final week-end's firing to win first place of \$35. Their 1117 actual pin fall also withstood the elements for the actual pin prize of \$15. Harry Dalman scored 184, 181, and 198 for a total of 563, while Les Shroyer scored 165, 194, and 195 for a total of 554. Their handicap totaled 171 pins.

Bob Ilickman and Serge Schuster fired a 1280 series Saturday to move into second place which was worth \$25. They had a bad last game as they had 897 going into the final game.

Frank Matthews and Harry Dalman moved into third place with a 1277 series. They had scores of 428, 399, and 450, which included a handicap of 60 pins per game. Their third place finish was worth \$17 to them.

Following is the rest of the price list:

Jim Einfinger-Perceval Moore	\$15.00
Andy Anderson-George Luedeman	12.00
Ross Smith-Ford Burnau	11.00
George Luedeman-Doyle Miller	10.00
Charlie Wilt-Vic Rump	8.00
Bob Hickman-Al Edwards	8.00
Bill Hoelle-Joe Burton	6.00
Doyle Miller-Andy Anderson	6.00
Charlie Shipman-Les Hahn	5.50
Doyle Miller-Erv France	5.50
Hughes-Aberilla	5.00
P. Nearing-Tony Koorsen	4.00
Paul Billman-Joe Haas	4.00
Ken Highland-H. Doehrmann	4.00
Bob Ilickman-R. Thomas	4.00
Frank Matthews-Erv France	4.00

Here are the high scores rolled Saturday: Serge Schuster, 220; Frank Matthews, 202; George Luedeman, 242 and 201; Charlie Wilt, 200; A. Anderson, 210; Erv France, 208; P. Nearing, 201; Ralph Thomas, 203; Charlie Shipman, 221; Vic Rump, 213; and R. Nahrwold, 208.

The tourney had a total of 77 entries which was 32 short of last year's tourney. Along with the \$50 donated by the GE Club this gave us a prize list of \$204. Prize money may be picked up at the Club.

## MIXED DOUBLES

### Saturday

Squads Roll at 6:00 and 8:30 p.m.

## At Your GE Club Alleys

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

This is something which I feel should be brought to the attention of the readers of this column. During the past week a most unusual newspaper fell into my hands, giving me quite a thrill. It happens to be "The Territorial Enterprise" published in Virginia City, Nevada. This publication is truly a classic in the old manner and a liberal education in early journalism. No doubt many of our readers would be interested in this quaint publication. Virginia City, Nevada, home of "The Enterprise", received much notoriety, both good and bad, during the bonanza of the famous Comstock Lode. . . . On his way home from work the other evening George Schoeph was attacked by a wild animal in the form of a half-pint terrier, which kept pestering him, rushing in and nipping at his heels. He tried to shoo him away, but the pooch was persistent. In desperation George whirled his lunch kit around several times, then let it go at the dog, scoring a near miss. The dog took to the woods and the lunch kit was a total wreck. . . . Herbert Saurer is now busily engaged in putting his shooting irons in order for his annual onslaught upon the wily crow. He informs us that he has them pretty well licked in the vicinity of his home, so he is going to have to venture far afield in search of the black demons. We suggest that he visit our city parks during the early morning hours where he will find enough to satisfy his taste for raven pot pie, that is providing the authorities do not object. . . . Ivan Hammond would surely like to own a TV set, but has held off purchasing one all winter. Now that spring and summer are in the offing he tells us that he intends to hold off until fall. He and his wife like to spend their leisure hours outside during warm weather. If he were the owner of a set it would be necessary to cart it in and out of the house each evening, also the neighbors would pester the life out of him. Get wise, Ivan. Get a set and put it in the back yard each evening, then charge the neighbors 25 cents a head. This should defray the cost of your set.

## COUNT OFF SECTION 417 TAYLOR ST.

by Ruby Stoops

Virginia Beusching and her mother will spend this week-end in St. Louis, Missouri visiting the new niece and granddaughter. . . . Betty Graft's husband, mother, and father spent the week-end in Chicago, Ill. . . . We welcome Bernadine Warner back in Ralph Keller's section. . . . The girls want to thank the person who brought in the frozen cherries Saturday, but ate nearly all of them before they had a chance at them. . . . Sorry we missed your birthday, Otto Geiger. . . . That noise we heard last Saturday night was only Betty Bertsch cheering for Milan. . . . Ed Fiedel certainly had the girls worried Saturday. He came down and asked if any of them had borrowed his bridge and then Mr. May spoke up, "What does he mean by his bridge, his false teeth?" . . . Anyone wanting a good paperhanger contact John Lee. Really John, will paper stick with water instead of glue? . . . We wish Joe Adams a speedy recovery. . . . Welcome, Helen Curtis, to the lead section.

CELEBRATES ON LAST DAY—Bertha Wollert (second from right) celebrates her last day at General Electric with (l-r) R. D. Grove, Kenneth Wollert, her nephew, William R. Crouse, and Louis Sordelet. Mr. Wollert joined General Electric in 1928 doing radio work. She was on connect and assembly work in Bldg. 26-2 before she retired.

## THISA & THATA BLDG. 4-3 and 4

by Helen Engle

If anyone has an extra chest in need of a drawer see Ed Brink. He has a very beautiful one that he made and has no place to put it. . . . A new branch has been added to the Dick Seabold family tree by the name of David Michael. . . . Ed says there's a girl on the floor that looks like Florence Byers. She does, Ed; she is her sister. . . . The girls in Group 1x55 are going to the wrestling match again. . . . A group of the girls took Marie Griffin out to a dinner to celebrate her birthday. . . . Ray Soest says he would like to see Liberace on TV every night. . . . Since Jacobs has moved his desk to a new location, John Figley is considering putting up a rear view mirror so he will know just how hard to work. . . . Glad to know that Del Winters is home from the hospital. . . . Evelyn Skelton and Alva Foulks were quite the proud grandparents Sunday when the first grandchild was baptized. . . . Sam

Taylor has a bigger shoe wardrobe than the boss. He has three pairs here at work. The one pair's leather is so thin one can almost see through it. They must be the pair he bought with his first check 30 years ago. The new ones he bought a week already have an extra sole to save the original one. I guess they last longer that way. . . . Don Mason got a dog for the kids and he is sorry he didn't get the long one, so they could all play with it at once. . . . Fred Feber is a happy man these days. His son is home on leave from the Navy. . . . Abe Richter is finding out he isn't as young as he once was. He is laying some hardwood and has sore knees. . . . We wish Bus Romary a speedy recovery from his operation. . . . Willard Smith and manual labor just don't agree. . . . Cora Rice is sporting a new Packard these days. . . . Hilda Seiler has a new GE television set and enjoys it very much. . . . Glad to hear that Mildred Carpenter is feeling so much better. . . . We of Section 401 extend our sympathy to the family of Joe Waite. Joe went on pension about six years ago and worked in 1x10 at the time of his retirement.

## TOP FLOOR TOPICS BLDG. 26-5

by Jack Lea

Al Miller wants everyone to know he has four and one-half years to go before retiring and that he would like a TV set as a retirement gift. Will you settle for just the antenna? . . . When Kenny Fisher first came in after his accident, he had his whole head covered with a bandage. Now we see it is just a spot covered by a Band-Aid. . . . Rita Zuber must really believe in keeping clean. We wonder why she takes two baths in 15 minutes? . . . Agnes Jump brought in some wedding pictures of her oldest daughter. The one showing her youngest daughter, Colleen, makes me wish I were a little younger. . . . We hear that Ruby Brandt likes spaghetti so well that once she starts cooking it she makes enough to last a week. . . . Any veteran wishing to join the GE War Vets Association see me for a membership card. Membership is 50 cents a year.

## APPRENTICE BROADCAST

by Dave Jones

The big news to report this week is the victory of our apprentice basketball team. Having been forced into a third playoff game by a very fine Fireman team, our boys came through in brilliant fashion, defeating the Firemen 52-39. Harold Friedrich was high with 18 points, 13 of these in a tremendous 25 point third quarter. Dick Thomas, hitting from well out, scored 9 of his 13 point total in the big third. With this outburst, our boys shot into a 42-30 lead at the end of three quarters, after trailing 23-17 at half-time. Howard Bash and Warren Sloan contributed 7 points apiece, plus playing nice defensive and rebounding games. Ned Speheger played a sparkling floor game. Les Fanning did a good job of rebounding along with his four points. Dick Buffenbarger, Tom McCrea, Tom Ahr, and Don Batchelder all saw action and helped to gain this truly great team victory. This has been a fine season for our team, having won 17 games while losing only five and we are very proud of them. We would also like to express our appreciation to Jim Schwartz, our scorekeeper and chief statistician. We will try and have the season scoring records available for next week's news. . . . Ned Speheger has been transferred to Bldg. 4-2 and was forced to retire from his recently acquired position as reporter for Apprentice Broadcast. Thanks a lot for a splendid job, Ned. . . . Congratulations are in order for Don Konow, having completed his apprenticeship last Friday. We wish you lots of success, Don. . . . We have two new boys with us this week, Kenneth Gerber and Jack Shultz, both on the machinist-toolmaker course. Hope you enjoy your stay with us, fellows.

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Mrs. Romie Baumgartner wishes to express her thanks for all the kindness and flowers sent at the recent passing of her husband. . . . I'm sure everyone had an enjoyable evening at Mr. Kierspe's party. He was presented with a suitcase by his fellow-workers. The biggest attraction of the evening was viewing the state championship high school basketball game on TV. It was like having a ring-side seat. There were plenty of highlights during the square dancing as it seemed that some could scarcely remember their left from their right, and while one set square danced another set looked like they were doing a maypole dance! "Tiny" Wright was called upon for a song, but while singing he had to stop and laugh in the middle to sympathize with Bill Rohe, who was laughing so hard he was crying. A large group turned out for the party; even Melvin Bill found his way. Maybe he followed someone down the road to make sure he wouldn't get lost. . . . Maxine Harding didn't look where she was sitting the other day. She accidentally upset a can of turpentine and it soaked to the skin. The neighbors thought she was doing the "bunny hop," but all kidding aside, she was blistered so badly she couldn't sit down for two days. . . . The new scent coming from the engineering conference room was an accident as Mildred Vogt dropped and broke a bottle of cologne. It was an entirely new aroma around here, but a costly one for Mildred.

REACHES 35-YEAR MARK—Esther R. Walborn (seated right) reached her 35th General Electric anniversary last week. On hand to offer their best wishes were Dale Lauer (seated left), and (standing l-r) Nard Diedgen and Wava Aughenbaugh. Mrs. Walborn has been a tester since joining GE. She is employed in Bldg. 4-3.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-Let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 18-1.

**CLOSING DATE**  
Monday Noon, March 29, 1954

- HOUSE—Small, unfurnished house, in or around Fort Wayne. Working couple. Will give good reference. A-97495.
- APARTMENT—Two bedroom apartment or house for couple with two children. H-81773.

**RACONTEUR**  
**SECTION 114 TAYLOR ST.**

by Luana Oehlhaften

It was the wearing of the green that made many of our employees happy on St. Patrick's Day. In the Hi Bay area Herb O'Kellermier with his bright green shirt and Abbie O'Hartman with her pretty green dress were the only two people with courage enough to honor Erin's great saint. . . . We also heard Abbie Hartman buys green paint by the gallon for St. Patrick's Day. . . . According to reports, Johnny Burnett would be a good member on anybody's track team. . . . Marilyn Smith recently purchased "a half a horsepower motor." That's what the girl said. . . . Happy birthday to Clayton Culver and Gus Weisenburger. . . . Mr. and Mrs. Bill Weber treated Maxine Daniels to dinner on her birthday. . . . Goodby and good luck to Johnny Meyers who is going back east. Lou Anne Beauchamp did the farewell honors for the office with a kiss. . . . Dorothy Baumgardner lost the keys to her car and had to walk three miles to get another set. Wait Niemeyer and Ed Hines were heard to comment, "What some women won't do to keep their girl's figure." . . . We understand Paul Fremion wanted to get rid of his dog before the assessor came around. Ah, ha! . . . The boys at the Tool Crib should get a sewing kit. For particulars, see Dick Nix. . . . Joe Monahan brought shamrocks from Ireland to Helen Platt and Rosie Koons. . . . Eldon Bell's son, who is in the Army, has been transferred to Camp Carson, Colorado. . . . We

- LAWN MOWER—Rubber-tired, ball bearing, lawn mower and lawn roller. A-97771.
- TUBA—E flat, upright, bass tuba horn or E flat sousaphone in good condition. Uniondale, Box 123, or Phone 36-L.
- APARTMENT—Young engineer, wife, 2 children, desire 2-bedroom, first floor, apartment or house, unfurnished. No hurry; want to give 2 weeks notice. A-87834.
- STOVE—Apartment gas stove and small coal or wood heating stove. A-88645.
- LADDER—Extension ladder, 24 ft. or longer, to buy or rent. H-39825.
- COAT—Child's coat, girl's size 2, boy's size 3 or 4. Must be in good condition. A-16964.
- STATION WAGON—Crosley station wagon, 1948 or later. Must be reasonable. H-02153.
- LADDER—Extension ladder, 28 ft., two 14 ft. sections. H-59153.
- SKATES—Girl's roller rink skates, size 8. E-37682.
- FARM HOME—For gentle dog. Good watch dog and hunter. English setter and collie mixed, 2 yrs. old. E-65941.
- PLAY PEN—Good condition, must fold flat. E-67415.
- BABY BED—And mattress, 6 yr. size, good condition, reasonable. H-01604.
- CAR—Old car, must run, not over \$35; 21 ft. trailer awning. H-60623.

wish a speedy recovery to Doris Rhonemus's father, Keith Wolf who is in the Parkview Hospital. . . . Dorothy Money traveled to Jackson, Mich., for the week-end for a visit with her daughter and family. . . . Carl Reynolds is the latest TV addict in the office. . . . Welcome to Stan Stookie, a new member of our Wage Rate Section, and William Mackey, who will be working with Carl Reynolds. . . . Lucille Salas's son has returned from Korea and is going to be married Saturday, March 21. Congratulations. . . . The noon enshrine game in the Tool Room has settled down to a humdrum affair since Bill and Dick have promised not to skunk Buck and Kitch again. . . . Spring is here! Vondy has bought a new line of fishing equipment. He even brings it to work so he can practice during the lunch periods. . . . Congratulations to Red Dillon who won a 1954 Mercury on St. Patrick's Day. It must be nice.

**PICK-UPS from 26-3**

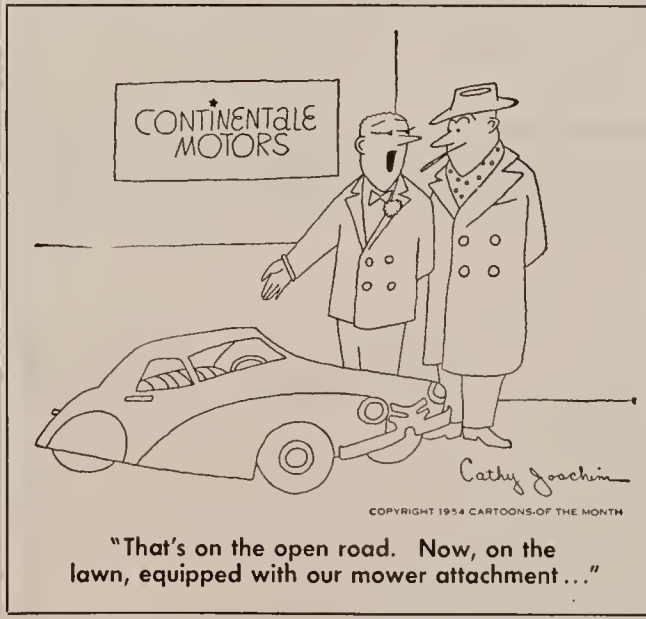

by Maxine Jordan  
and  
Helen Wagner

If Beverly Willig loses a lot of sleep, she can blame it on her new TV set. . . . That person beaming with pride is Carolyn White announcing a new nephew, Alan Joseph. . . . We welcome Frenchy Chilcote back after an extended illness. . . . Bill Edmunds and Nellie Wendt, who have been on the sick list, paid us a visit. . . . Congratulations to Murray Sherman on that one new puppy at 3 o'clock in the morning, too. We are sorry, no tax deduction. . . . Guleia Ranier had a new '54 Bel-Aire Chevrolet delivered last Saturday. . . . We received a letter from Cpl. Robert E. Thomas. He is fine and hopes to be home in 30 days. . . . That red face Ed Bangert had wasn't caused from blushing. He just sat too long under the sun lamp. . . . Louise Lengerich's face must have been red when she got home the other night. She discovered she had on the necklace which the clerk loaned her when trying on a new frock. . . . Cornelia Glass, let's not be trying to get two checks in one week. One at a time, they will last longer. . . . Shorty Pequignot would like for some one to take Arnold Wolf out of his hair. . . . Keep your birds away from Almetta Till's house. She laundered a sparrow the other day. Results: No feathers, only small pieces. . . . Everyone appreciated Art Pequignot's hat on St. Patrick's Day.

**DECATURITES**

by George Laurent

Birthday greetings to Janet Evans, who celebrated her birthday just one day late for St. Patrick's Day. Janet says that she is a big girl now and can vote. . . . On a cold wintry night recently Ella Scherry had an unexpected guest. We have been wondering, Ella, if your wanderer really enjoyed the comforts of a home. . . . Heave ho, just watch the pieces fly. Yes, Carl Smith has been making little one out of big ones, but he hasn't been working on the rock pile either. Carl has been breaking up some concrete at his town home and then hauling it to his country place. Did you ever lose any of them, Carl? . . . Could it be that Dick Bogner is in the market for a new and louder alarm clock? One day recently Dick was seen rushing to work late and eating his breakfast on the way. Did you forget the coffee, Dick, or just where did you put the cup? All that was visible was the remains of a cookie that soon was eaten. . . . Birthday greetings to Art Dennig who recently celebrated his "39th" birthday. Wonder if he is a twin of Jack Benny. Art baked his own birthday cake and shared it with the folks in the department. Take our word for it, folks, that cake tasted just as good as it looked and it really was super. . . . Mickey McDougal, president of the Foremen and Supervisors Club of Decatur Plant, urges all members to attend the Club's Spring Stag at the Elk's Home tomorrow, Saturday, March 27th. Refreshments and entertainment galore for everybody is the way Mickey expresses it. . . . Oran Schultz, employed in the Tool Room at Decatur Plant, has been highly honored by being elected Exalted Ruler of the B. P. O. Elks lodge of Decatur for the year 1954-55. Mr. Schultz's term of office begins April 1st. Kenneth Beard, also of Bldg. 1 was re-elected to a second term as secretary, while J. K. Eady of Bldg. 2 will begin his third year as trustee of the lodge. We wish to congratulate these men on the high honors of position and trust bestowed upon them by members of their lodge. This lodge is very prominent in Decatur because of its charitable and community activities. . . . Happy birthday to Joan Borne who celebrated on St. Patrick's Day. We hope you have many, many more, Joan. . . . Congratulations to Ray Bodle and his wife. Ray is a second shift inspector and recently was presented with a set of twins by Mrs. Bodle. Ray accepted the well wishes of fellow employees with the air of a veteran as this is the third consecutive set of twins in his family. . . . Maggie White doesn't believe in carrying an umbrella and not using it (even if you don't need it). She was seen walking home from work holding the umbrella over Maggie Fruchte and herself and it was a beautiful day, not raining or even snowing. . . . Rosemary Miller, Mable Murry, Eloise Noll, Ethel Schickman, and Dorothy Schnepf entertained 86 members and guests of the Elex European Tour, Sunday evening, March 21, at the Moose Home. Dinner was served by the Women of the Moose. The group was later entertained by a boy's quartet from Adams Central High School. Carl Robert's singing, and Eloise Noll's slides of the European tour. The "Irish Potato Bug" was played by the group and prizes awarded. The tables were decorated with shamrocks, candles, and bouquets of white snapdragons. Each guest's place was marked with miniature flags of the countries visited.

"That's on the open road. Now, on the lawn, equipped with our mower attachment..."

# *What the proposed*

## **LABOR LAW AMENDMENTS**

### *mean to YOU...*

The Taft-Hartley labor law is being discussed again.

President Eisenhower has some things he wants done with the law. Members of Congress have ideas.

So do many others—union officials, employers, employees, consumers and the rest of the public.

We hope you, too, have been considering what you would like done about Taft-Hartley—the worker's "Bill of Rights." Changes will affect your rights as an employee or as one seeking employment. Some of the proposed changes seem good, and some do not. The important thing is for you to be able to judge them; to know just how the changes will affect *you* and *your* best interests, which in the end will turn out to be the best interests of all of us.

We assume you believe, as we do, that unions can be a fine force for good. We want them, as you must, to keep having the opportunity to serve every proper purpose their members and the public want them to serve.

There's some difference of opinion as to how, if at all, the law should be changed. There's also a lot of emotionalism, catchy slogans and political mumbo jumbo.

You will have to sift through all this to judge fairly for yourself what are the good and bad changes proposed. But the questions seem to simmer down to whether union officials—in your own and public interest—should . . .

**Have new power over you, or**

**Keep only what power they now have over you, or**

**Have their power limited against certain abuses.**

With those questions in mind, you may want to consider what you would like to see Congress do about:

... **SECONDARY BOYCOTTS:** Should these be allowed to keep you from working and perhaps cost you your job by driving your employer out of business when there is no labor dispute between him and you?

... **COMPULSORY UNION MEMBERSHIP:** Should you have a free choice to join a union—or not to join a union—just as you yourself choose?

... **SECRET STRIKE BALLOT:** Should union officials be permitted to call or prolong a strike without your having a chance to make the decision through a secret ballot in the best American tradition?

... **STATE LABOR LAWS:** Should your state, as well as your federal, labor laws protect you in your right to work and in dealing with your union and your employer?

... **COMMUNIST UNION LEADERS:** Should they be removed by a competent and judicial government agency so that your union can be *your* servant and fight solely for *your* short-term and long-term best interests and not those of some hidden foreign power?

... **FEATHERBEDDING:** Should wasteful practices be allowed that raise living costs unnecessarily and thus keep our living standards from rising even higher—as they can—even though these standards already are the highest in the world?

How Congress and you answer these questions will help decide the big issue: Whether union officials are to get even more power over you or whether you are to be still further protected in your rights.

## Vets Schedule Annual Banquet April 24 at Legion Post 47

Saturday, April 24, has been set as the date of the General Electric War Veterans Association annual banquet. The event will take place at American Legion Post 47, 315 W. Washington St., beginning at 6:30 p.m.

Tickets, which are \$2 per member, may be secured from contact men. Reservations are due by Tuesday, April 20, Robert Turschman, Bldg. 2-2, chairman of the committee in charge of the banquet, stated.

Election of officers for the coming year will be conducted at (Continued on Page 4)

## Specialty Announces Plans To Manufacture New Motor In Sect. 417 at Taylor St.

An extensive tooling program for handling production of a new type shaded pole motor, whose manufacturing home will be Section 417, Taylor St. Plant, was announced today by Jack J. Clarkson, general manager of the Specialty Component Motor Department.

Incorporating unique features in shaded pole motor design, the new motor will be aimed at fan and blower markets, especially for room air conditioners, small furnace blowers, win-

## GE Share Owners To Meet April 20 In Schenectady

The quarter of a million share owners of the General Electric Company will hold their 62nd annual meeting in the State Armory in Schenectady, Tuesday, April 20.

In addition to the election of 16 directors, share owners will be asked to approve a proposal to change the company's 35 million shares of no par value common stock into 105 million shares of \$5 par value common stock and to eliminate the company's 6 per cent cumulative \$10 par value special stock which was authorized but never issued.

The GE board of directors voted last month to recommend this three for one conversion of the common (Continued on page 4)

### CAN YOU VOTE?

Monday is the last day to register to vote in the primary elections May 4.

You must register if you have moved since you last voted, if you did not vote in either the primary or general election in 1952, or if you became 21 years of age on or before Nov. 2, 1954. If you are in doubt as to whether you are registered properly, call the Registration Department, Room 105 Court House, E-1470 or A-9457.

The Registration Department will be open from 8:30 a.m. to 5 p.m. Saturday and until midnight, Monday.

## Retired Employee Gives Impressions On 7-Month Visit to Native Land

"Interesting but a little sad," is retired employee Charles Koomjohn's impression of his recent trip to his native land, Armenia, after a 43-year absence.

Charlie, who retired in 1953, returned last month to the U. S. after 7½ months traveling through Armenia, Egypt, and Turkey, visiting relatives and friends and taking a pleasure trip to Italy and France. He left this country by plane in July.

Unlike many Americans who are going abroad now, Charlie was seeing many places not for the first time, but revisiting the country and people he knew before the wars and difficult times that occurred in the period since he left his homeland in 1910.

"Where there were 1,000 families in the place of my birth, Develou Everek, there are now 20 families," he said, and explained how these people differ from Americans in their wants and aims in life. "Items that we take as a part of our daily lives are not considered by them, unless they are members of the few wealthy families." They work and live from day to day seeking the basic things of life in simple forms. For a people who have been involved in conflicts so much, they do not talk of war as much as we do, Charlie feels.

(Continued on page 4)

GIFTS FROM THE MIDDLE EAST, brought back by Charles Koomjohn, retired employee, from his recent trip to his native land, Armenia, and other places, are admired by Mrs. Koomjohn.

INTRODUCING the new type shaded pole motor to be manufactured in Section 417, Taylor St. is Theo Olson, employee of the section. Theo holds the new, light-weight motor, a product of the Specialty Component Motor Department.

## GE Open House in Progress At Schaper Home Appliance Co.

Schaper Home Appliance Co., General Electric appliance dealer, is conducting a General Electric Jamboree Open House today and tomorrow at their store and service department, 1622 Sherman St.

Employees and the general public are invited to attend the event, which is from 6 to 9 p.m. today and from 9 a.m. until 6 p.m. tomorrow.

Free orchids flown in from Hawaii will be presented all ladies attending, coffee and cookies will be served, and attendance prizes will be awarded. During the open house demonstrations on GE ranges and laundry equipment will be presented.

Schaper's handles the following GE major appliances, television sets, ranges, refrigerators, and laundry equipment. Ed Schaper and Maurice Spade are co-owners of the store. They are extending an invitation to the public to attend the event and meet the 11 store employees, including the five persons who handle the work of their service department.

The store employs four salesmen for two persons in the office, including Clarence Hueber, retired GE employee.

## What Makes Good Human Relations?

What are the good things that add up to "good" human relations? Human relations is a pretty broad term. Any time two human beings meet, there is some kind of human relations involved. Only a hermit or a castaway on a desert island lives without human relations.

But in industry, everybody understands that human relations means the kind of understanding and cooperation that exists between employees and employers. The plant where understanding, mutual appreciation and cooperation all are real, dependable parts of day-to-day living has good human relations. Where these things are not in evidence, people feel that all they have is a job.

That is simple enough—but how is good human relations achieved? It isn't easy to define good human relations, nor is it easy to bring it into being. However, there is one sure thing about it—good human relations rests upon dignity and self-respect of the individuals concerned.

Recently, an outstanding American industrialist returned from a trip to Italy, where he had served as a member of a productivity team to help Italian industry learn something of our industrial methods. He reported an interesting case study in human relations as practiced in one Italian plant.

This particular Italian employer was very proud because he was doing so much for his employees. He offered to exhibit his "human relations" department. He said, "We have a recreation department," and in order to show it, had to take a key out of his pocket to unlock the door to the "human relations department" to get himself and his visitor into it.

This Italian employer felt that he was doing something for his employees out of the goodness of his heart, and no doubt he was. But to the American mind, there is something pathetic about the idea. To us, good human relations is not something that can be locked up in a "department." It is not something you "give." Good human relations requires a fair exchange, involving not favors or charity, but performance.

We need some frank talk on this subject. Good human relations is good business — not only for employers, but for employees. The independent, free American employee stands in no need of favors, paternalism, or "something for nothing" from his employer. He doesn't want philanthropy. What he wants is good wages for a job well performed; recognition of his personal dignity and of his ability, and the feeling that what he has to say to his employer is as worth listening to as what his employer has to say to him.

Good human relations in American industry is based on mutual respect and fair treatment by employers of the people who are working to produce — and who should be rewarded not out of the goodness of anybody's heart but in accordance with what they produce. The better they produce, the better the reward — or as a more accurate word, the earnings.

Both the employee and the employer have things to exchange with each other. Nothing less than a fair exchange, made with no loss of dignity or self-respect, and with benefits to both, will make for good human relations between them.

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

E. K. Wolfe, Stanley Tisovich, Arthur Stute, Robert Packwood, Harry Dorsey, Clarence Lothamer, Carl Miller, John Ruhl, Edna Chiddister, Marjorie Reed, Robert Keller, James Robinson, James Christle, James Storch, Rosemae Tucker, Ernest Etzler, Richard Mosier, Marie Anderson, Helen Burnam, Dorothy Burns, Earl Dixon, Joyce Dull, Wanda Ebersole, Kathleen Gephart, Carl T. Greene, Howard Griefinstine, Harriett Haynes, Cecelia Joseph, Irma Kohlmeyer, Marlene J. Niccum, Coleman Price, Doris Stevenson, Charles Von Behren, Claudine Woodson, Herbert Buck, Vernon Boyers, and Clinton Sorenson.

### Dismissed from Hospital

Dorothy Blume, Russell DeSpain, Charles Von Behren, Dorothy Mills, Irene Halley, Clara Wisel, Grace Brakenhoff, Mildred Carpenter, Joseph Richman, Emily Zick, Edna Chiddister, and Ruth Durnil.

### Returned to Work

Bernard Shroyer, Agustin Rodriguez, John Brandyberry, Eula Murray, Lawrence Lemper, Beverly Lothamer, Marjorie Crabill, Russell Lagemann, Beulah Smith, Marcella Rodman, Howard Brooks, Ruth Cutter, Frances Eckrote, Virginia Mayer, Glen Geiger, Harry Conner, Willard Smith, Lillian Hergenroether, Cristobal Bustus, Earl Ostrander, Leo Nyboer, Frank Devaux, Geneva Moody, Loretta McCarroll, Margie Ogden, Virginia Pfeuger, Verna Bullerman, Harry Anderson, Stanley Deel, Ronald Young, Anna Gibson, Elmer Hatfield, Clarendon Mosshammer, and John Drinks.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

How about this? Viola Haiber needs an overstuffed chair while riding the elevator. She really rates, we think. . . . Happy birthday to Eva Westrick. . . . Faye Ann Christlieb just cannot bring herself to catch the mice in her wastebasket, so Melvin Schrader is our official mouse catcher. . . . We are happy to see Charles Van Behren back to work after a short illness. We also wish a speedy recovery to Jean Nebehy. . . . Do ask Clifford Saylor if he has ever won an award on the Roy Rogers show? . . . The Old Shipping Gang says "hello," to Edna Carpenter, who is confined to Irene Byron Hospital. From the luck Viola Haiber has when she throws a bull, we believe she must belong to Big League Bowlers. . . . We are glad to see Marlene Niccum back on the job after a week's illness. . . . Melvin Schrader really should have more than 10 fingers. At the present rate he has been mashing one per week, though he does much better at bowling if he has at least one finger in a splint. . . . Howard Miller is in the Lutheran Hospital following an emergency appendectomy. Hope you are feeling much better by this time, Howard. . . . The Eiffel Tower now weighs 45 tons more than it did last year. The reason is it has a new coat of paint.

## Bing and Ken Talk It Over

- Crosby: I can remember the day when I was ahead of the Berry Farm . . . Anyway Ken, since we are standing here together, I think this constitutes a quorum for our weekly pow-wow on the intricacies of modern economic life . . . shall we proceed as planned?
- Carpenter: I forgot the gavel, Bing.
- Crosby: Let's not stand on ceremony, Ken . . . just open the discussion with one of your ad-lib straight lines.
- Carpenter: Okay . . . Ladies and gentlemen, this evening we are going to say a little more about the investors.
- Crosby: That's right . . . the men and women, in all walks of life, who, instead of spending all their money, save some of it and put it to work.
- Carpenter: Very well put, Bing. And I believe at our last meeting we discussed how this money is used . . . how it contributes to the up-building of our economy. We mentioned the case of the automobile mechanic who needed money to go into business for himself.
- Crosby: If I recall rightly, he interested two of his friends in advancing the money — so he could start his own garage. His friends became investors, partners in the enterprise.
- Carpenter: Right, Bing. Now the question is — what do his friends expect to get out of it?
- Crosby: No doubt they hope to share in the profits, if any.
- Carpenter: Bing, you're treading on my conclusions.
- Crosby: Frightfully clumsy of me. Sorry.
- Carpenter: Just this once, then.
- Crosby: Pray continue.
- Carpenter: But that's what the investor wants — whether he's dealing with a small business or a large corporation like General Electric. In return for the use of his money, the investor expects a share in the profit. Otherwise he might as well keep the money and spend it himself.
- Crosby: As we say on the road to Hong Kong: "No tickee no shirtee".
- Carpenter: Well, let's face it, Bing . . . if a man's going to put his hard-earned savings into a venture, he wants to be sure it's a sound proposition. He accepts the possibility of failure. But on the other hand, if the venture succeeds, he expects — and deserves — a fair share of the earnings.
- Crosby: In addition to his dividends, it seems to this observer, the investor should expect a well-run company, sound management, good products, attention to the company's future expansion and progress. Incidentally, the same things the workers are after and the same things the customers want.
- Carpenter: To that extent the interests of the workers and investors are the same as the interests of the customers.
- Crosby: As close as the relationship between you and your next breath. But suppose you sum it up, Ken.
- Carpenter: Well, the investor is the person who puts his savings to work and in so doing makes possible more and better products, more and better jobs — all the things that make our economy grow. In return, he expects some profit — dividends or interest or whatever.
- Crosby: Well-summed, Ken. And I'll take three 'what-ever's'.
- Carpenter: Sorry, Bing. There's a long waiting list.
- Crosby: Well then in that event, I'll get back to the other tasks at hand . . . that's if Peggy Lee is ready.
- Peggy: Right here, Bing!
- Crosby: Folks, Peggy and I would like to sing some of our favorite tunes . . . in ad lib fashion sort of . . . and we hope we run across some of your favorites, too . . . will you start, Peggy?
- Peggy: Sure.

COPYRIGHT 1954 CARTOONS-OF-THE-MONTH

"A broom, eh? You're goin' to ruin us tryin' to keep up with the neighbors!"

# GE Club Spring Revue Starts Tomorrow

## Wayne L. Henderson Granted Second Patent In Two Months

Wayne L. Henderson, Bldg. 26-2, has been granted his second patent, according to notification received from the United States Patent Office.

The patent provides a unitary structure in which the auto-transformer winding and reactor winding for a gaseous dis-

charge lamp are combined on a single laminated magnetic core. It also provides a new and improved combined low reactance auto-transformer and ballast reactor magnetic core structure which will be simple to manufacture and economical to operate.

In February, Mr. Henderson was granted his first patent which consists of a stabilized transformer for the ballasting of mercury vapor lamps.

After joining the company in 1948, Mr. Henderson went into the Philadelphia plant as a member of the rotating engineer group. His second assignment was with the Ballast Department in Fort Wayne and since that time he has become a permanent member of the engineering section here. He is a development engineer.

### TE Meeting Slated

Test engineers will play host to their wives and guests at a TE dinner meeting Tuesday, April 6, at the Chamber of Commerce Building, corner of Ewing and Wayne Sts. The meeting will open at 6 p.m.

Reservations are due Monday, April 5, and should be made with contact men, Art Pehrson, Winter St., chairman of the event, stated.

William Tucker, past president of the Fort Wayne Junior Chamber of Commerce, will be the guest speaker. His subject is, "Your Civic Responsibility."

## Peter Neuman Dies In Denver Hospital

A Denver, Colo., resident, Peter August Neuman, 73, died March 15, at Denver's St. Luke's Hospital. He retired from the company in 1940.

Mr. Neuman came to GE in 1892. Later he left the company and returned in 1907. He was a foreman in the winding section in Bldg. 16-3 and prior to retiring was in fractional horsepower motor assembly.

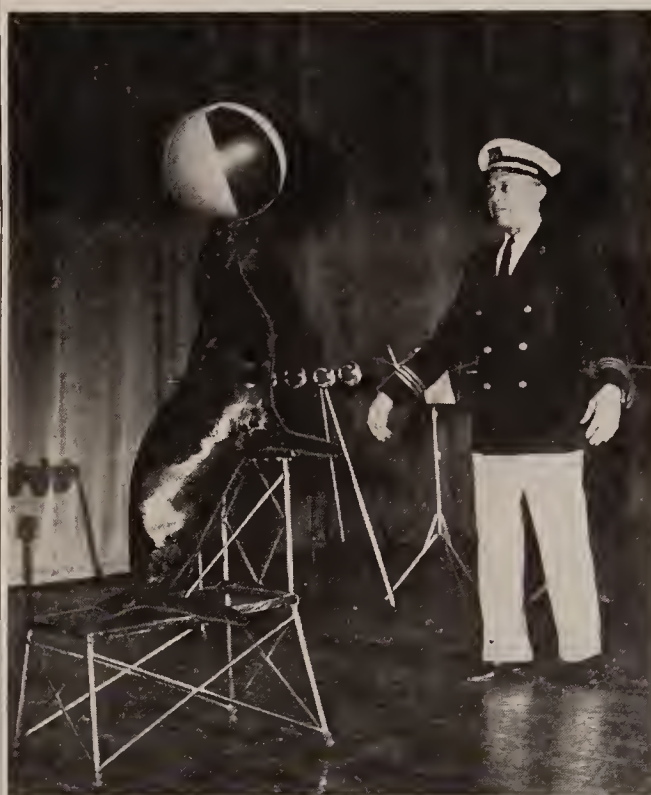

Tomorrow and Sunday the GE Club Springtime Musical Revue will be staged. There are tickets available yet for the 3 p.m. Saturday show and 7:30 p.m. Sunday evening program, Gordon L. Smith, entertainment chairman, stated.

Employees who wish tickets should obtain them at the GE Club desk this evening or tomorrow. To secure tickets, employees should present their 1953-54 Club membership card.

Any persons who have tickets and find that they cannot attend the Revue or wish to exchange them for a different time should do so at the Club desk.

There may be tickets available for some of the other performances also, Mr. Smith stated. The seven programs begin at 3, 6:30, and 8:30 p.m. tomorrow and at 1, 3, 5, and 7:30 p.m. Sunday.

The seven acts include Walter Jennier and Buddy, a trained seal; The Barons, a novelty trio; Dorbin Dancers; Nancine and Robert, dance duo; Whitey Roberts, master of ceremonies; Sanger, Ross, and Andre, comedy trio of two men and a girl, and the Marimba Starlets.

JENNIER AND BUDDY  
Seventh Act Added to Spring Show

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

Congratulations to John Terrel on his new son, David, weighing eight pounds. . . . Carmelita Fough almost got away with putting her name on that new chair the other day. Shorty stopped her, however. . . . We wish a speedy recovery to Mary Casanova. . . . Anyone wanting fishing tackle in good condition contact Mel Kestner. His wife won't let him use his anymore. . . . Congratulations to Bernadine Lake's daughter, who was married last night in a very pretty ceremony. . . . Harold Mosshammer was confused Friday morning on the time. He thought it was mid-morning when the 8 o'clock whistle blew so he started to run for the fire. . . . Esther Schladenhaufen is spending her third week's vacation in Florida. . . . Happy birthday to Olka Johnson and Charles Penn. . . . Welcome back to Hazel Gahman, who has been off because of illness. . . . Welcome to Vera Jordan on days. We are sorry to see Wanda Seare leave us for nights. We hope both girls like their new tricks.

foreman of electrode manufacturing, on the manager's staff in manufacturing losses, and as assistant general foreman in the Instrument Transformer Department.

After becoming a general foreman in 1937, Mr. Harmison was named assistant superintendent and superintendent. In 1942 he became superintendent in the Electronics Department. Two years later he came to Fort Wayne on special assignment and later returned to West Lynn on special assignment.

After moving to DeKalb in 1946, Mr. Harmison became superintendent of the plant and later was named manager of the plant. Prior to his present appointment he was superintendent of the DeKalb plant.

A graduate of Kansas State College, Mr. Harmison received his BSME degree in 1930. He is a past president of the DeKalb Chamber of Commerce and was a member of the Kiwanis there, in addition to being active in Boy Scout work.

The Harmisons have two children.

## Harmison Named Project Specialist In Gen'l Purpose

Eugene F. Harmison has been appointed project specialist in advanced manufacturing development, General Purpose Component Motor Department, W. Kenneth Williams, manager of advanced manufacturing development, announced this week.

In 1930, Mr. Harmison joined the company and entered the factory training course at Schenectady. Upon completion of the course the next year, he went into planning at West Lynn. Later he served as

Eugene F. Harmison

## GE Family Celebrates Second Birthday

This week the new fractional horsepower motor, the Form G, is celebrating its second birthday. The new FHP motor family is observing the occasion quietly by working toward the one millionth motor, expected this spring.

Product of the General Purpose Component Motor Department, the motor has proved to be the pioneering achievement announced in 1952 with its lighter weight, smaller size, increased versatility and improved appearance. Other motor manufacturers are now planning to follow this trend set by GE, according to William R. Boggess, marketing manager of the department.

Customer acceptance of the all-angle motor is outstanding, Mr. Boggess stated. Many customers have re-designed their products to manufacture smaller, lighter-weight units made possible by the new motor.

In fitting customer demands for it, 70 per cent transition to the new motor has been accomplished already, Mr. Boggess reported. Rated mostly from 1/8 to 3/4 horsepower, members of the new family include: oil burner, jet pump, sump pump, lawn mower, shaft-mounted fan and blower, two-speed summer cooling fan, totally enclosed, gear, and utility motors. These have different specifications from basic

Form G models, fitting them for particular duty.

Engineering advancements continue in Form G electrical and mechanical design as tests for top quality go on. One experiment being conducted at Taylor St. to determine durability of insulation has a 40-frame motor submerged in a fish bowl. The motor has been run each day since Dec. 8.

Through such tests and engineering-sales-manufacturing teamwork this revolutionary new GE motor is providing industry with the highest motor value offered, resulting in more and better products for more people at lower cost.

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

Doris Rinehold says, "Thanks," for the nice cards and hankies received on her birthday, March 23. . . . Roy Dierstein is back from vacation in New Orleans looking fit as a fiddle. . . . Anyone who is hungry for fresh vegetables see Leonard Pequignot. His lettuce is growing fine. . . . Frank Clifton has a different design on the side of that new station wagon. Could it have been he didn't park properly or what? . . . We wish Erma Strater a very happy birthday on April 4. . . . Nancy McCrea was overheard giving advice to Lonnie. She said, "Lonnie, if you take your shoes to the dentist, he can fix them." . . . Syl Englemann and Harold Scheer are known as the experts of Cybernetics. . . . Congratulations to Mr. and Mrs. Harry Bailey. It's a boy. . . . We wish good luck to Bernie Hughes and Hazel Ludwig, who are leaving us this week. . . . Willard Lenz got a free coke and bag of peanuts all in one day. Thanks to Louie Miller and Whitey Lieherenz. . . . Blanche Kanning dated all her reports one week ahead of schedule. Why the hurry, Blanche?

## 2-2 TALES

by Belle Buchan

George Soule and his teammates had quite an experience as they were going to Marion to bowl. It seems that the trunk lid of George's car came open and when he pulled off on the berm to close it, the car got stuck in the mud. As the result of that little episode, all of the fellows had such lame hacks that they lost out in the tournament. . . . This week we say good-bye to Clint Newman and Ralph Armey. Clint went to Winter St. and Ralph is going to work in Bldg. 18. . . . There have been a great many changes in our office, but the most outstanding one, I think, concerns Vern Castle. After about thirty years as general foreman he has a new job title. He is now supervisor of manufacturing. To those of us who have been so closely connected with Vern for so many years, it means a new boss and a lot of fond memories in our hearts for a swell guy. . . . In case anyone is interested, I will be working in Bldg. 8-2 for Vic Cartwright, another swell fellow. I guess I am just lucky that way. . . . Clara Nelson served a delicious chili supper Tuesday night to about 20 members of the Birthday Club. As usual, everyone had a grand time. . . . Congratulations to Mr. and Mrs. George Howell on the arrival of their new daughter, Nancy Jo.

Gregorian calendar. In addition to some very pleasant sightseeing, he rode a camel and by special permission was taken on a tour of King Farouk's palace in Egypt.

Returning to the United States aboard the U. S. S. United States, Charlie said that his trip gave him a great appreciation of the sight of the Statue of Liberty. It was almost as great as the time in 1910 when a young Armenian boy named Charles Koomjohn approached the statue for the first time on a different kind of ship.

## Share Owners

(Continued from Page 1)

stock. It is expected that the split will result in a market price range which it is believed will be more attractive to individual investors and thereby benefit both the share owners and the company by increasing investors' interest and creating a broader market for the stock.

Also, the proposed change from shares without par value to those with a par value of \$5 per share is expected to increase marketability and to make substantial transfer tax savings available to the share owners.

The company at the present time has issued 28,845,927 shares of its common stock without par value. These shares have a stated value for capital purposes of \$6.25 each, resulting in a total capital of \$180,287,046.

If the conversion is approved by the share owners, the company will have issued 86,537,782 shares of stock having a par value of \$5 each. This will require the company to increase its capital from \$180,287,046 to \$432,688,910. Such an increase will be made by transfer of \$252,401,864 from the company's earned surplus which amounted to \$729,862,586 on December 31, 1953.

One of the features of the day's activities will be the inspection by share owners of an all-electric General Electric family home which is being constructed on company property about a block from the state armory.

Other events during the day will include tours of factory buildings to observe manufacturing operations and presentation of a 40-minute show "Engineering Wonderland." The latter will illustrate engineering problems typical of those which regularly confront experts in the company's General Engi-

## 17-3 NEWSIES

by Wilhelmina Beeth

Farmerette

It's a grand time for retiring, Spring and summer just ahead, Time to enjoy the great outdoors, Read the books you haven't read, Congratulations, Margaret, And Happy times in store, Regards, and all good wishes, What can your friends say more?

by Frances Eckrote.

Last Wednesday Margaret Stuck bid us good-bye to become a lady of leisure. We wish you the best of everything. . . . Congratulations to Bill Ort. He recently bowled a 727. Took home a little folding money, too. . . . We bid farewell to Margaret Moeller. She is spreading the welcome mat for Mr. Stork. . . . We light another candle on the cake and wish a happy birthday to Marjorie Sorg, Iva Bixler, Ellen Dittlinger, Betty Dulak, and Eliza Page. . . . Mary Schumm went to the hospital to make a call. When she arrived there, she discovered she was wearing her house slippers. . . . Idanell Lowe was real pleased to unscramble her name in the GE NEWS. . . . Here we have Hazel Cox enjoying a trip down on the farm in the good old summer time. . . . Glad to see Fay Stockberger and Verna Bullerman ringing in their clock cards again. . . . Olga Lindberg forgot her thermos. Her husband brought it to the gate. When she started to pour her coffee, it was just hot water. Was it an April fool joke, or is the price of coffee too high? . . . Violet Brower will also answer to the name of Boswell. . . . Willie McPherson went out on Lindley Ave. the other evening and had a nice pink ticket on his car. . . . There is an addition to the Young household. Mildred has a new daughter-in-law. . . . Also Joe Jensen has a son. His daughter is married. We wish both couples lots of happiness. . . . Helen Lewis was doing a little building. They built a new closet and built it around a table. Now their problem is how to get the table out of the closet. . . .

neering Laboratory. GE President Ralph J. Cordiner will report during the share owners' meeting, and following the meeting, a box lunch will be served the share owners in their seats. Plant tours will be available both before and after the meeting, which is called for 10:30 a.m.

We never thought this would happen. Friday morning the boss had to tell us that we were starting to work too soon. The clocks were to blame. . . . Glad to see our former co-workers from Bldg. 8-1 back with us again.

## APPRENTICE BROADCAST

by Dave Jones

As promised last week I have the final scoring statistics for the basketball team: Bash, 17 games, 166 points; Friedrich, 17 games, 161 points; Buifenhager, 16 games, 146 points; Fanning, 11 games, 88 points; Sloan, 17 games, 64 points; Thomas, 9 games, 56 points; McCrea, 14 games, 28 points; Speheger, 14 games, 22 points; Ahl, 10 games, 17 points; and Batchelder, 9 games, 14 points. These figures were computed on the league games only. Anyone desiring more detailed information may contact me. . . . Wayne Perry played host to the members of class "K" last week. The boys were celebrating the end of their fifth term. For entertainment the boys played cards. One table played euchre, while at the other table Jim Preston gave an excellent demonstration of how not to play poker. All the boys appreciated your efforts, Jim. . . . Tom (Butterball) McCrea has been put on a strict diet by his family physician. Tom likes to believe the excessive weight is due to his wife's good cooking. We know that Barb is an excellent cook, Tom, but we are more inclined to believe the extra pounds are there because of your laziness, pardon me, inactivity. . . . Myron Auer had to do some fast talking one day not long ago to get himself out of an auto theft charge. Myron was trying unsuccessfully to start the car when the owner walked up and asked Myron if the car was his. Myron admitted that it wasn't and after the aforementioned fast talking discovered that the car he had borrowed from Bob Barnes was parked a few spaces behind the one he had been trying to start. Myron insists that the fact of being a new father only a few hours had nothing to do with the incident. We're not convinced.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

Herewith we present our annual Spring Growl.

If there comes a little thaw, Still the air is chill and raw, Here and there a patch of snow, Dirtier than the ground below. The rain comes down, you slosh along, Ankle deep you stick in mud, In the meadows while you sing, "This, my friends, is glorious spring."

One morning last week Albert Christman arose a little late and had to hurry in order to arrive at the plant on time. While he was scurrying around his wife packed his lunch so everything would be in readiness for the takeoff. Lunch period arrived and Albert prepared to take on the groceries, grabbing his bait can as he sat down. Everything was in order, but upon opening the kit there reposed an empty tea cup, a spoon, and a package of chewing tobacco, nothing more. In his haste he evidently had grabbed the wrong lunch box. . . . It seems that Merritt Simons can never get his fill of pumpkin pie, pumpkin butter, and scalloped pumpkin. In fact this robust vegetable is his favorite fruit. So as to insure him and his family of an ample supply of them he has purchased a ten acre tract of land and is going to plant the entire area in pumpkins of various varieties. He tells us that the propagators of a new hybrid guarantee 85 pies per pumpkin.

30 YEARS FOR ELMER FRETZ—Elmer F. Fretz (second from left) receives best wishes on his 30th anniversary with General Electric from (l-r) Robert N. Hoffman, A. B. Rondot, and Bruce Rohn. Mr. Fretz' service dates to 1924, when he served as a time study engineer. He is now a methods planner in the Specialty Component Motor Department.

TAYLOR ST. PLANT

WINTER ST. PLANT

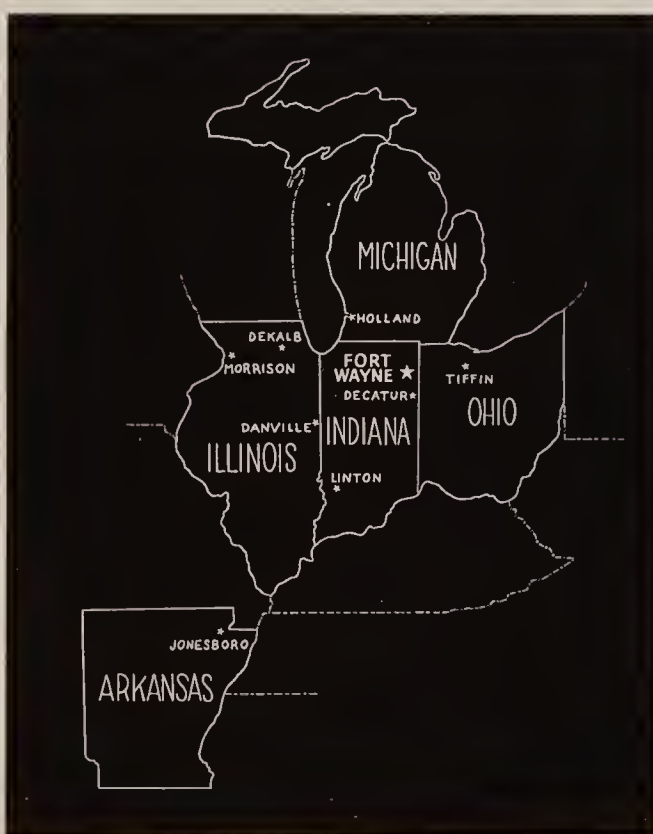

# THIS IS GE IN FORT WAYNE

During recent years there has been more than a normal amount of organizational change within the General Electric Company—changes which have been made to meet the challenges inherent in a rapidly expanding electrical industry. Organization changes in a company like General Electric are usually more or less a continuous process. However, the years since the end of the war have not been normal ones, and consequently, the number and extent of the alterations within GE have been more extensive and more rapid than normal.

This broad organization study and change has been called "decentralization." What it really means, and what concerns us in Fort Wayne, is indicated by the diagram and text on the next pages. The company's business is divided up into nearly 100 self-contained product operating departments, each headed by a general manager; related product departments are then grouped together in divisions. The headquarters for such a division are located here in Fort Wayne under H. A. MacKinnon, Vice President. Three of the product departments comprising this division have their headquarters located respectively at DeKalb, Morrison, and Danville, Illinois.

In addition, there is also located in Fort Wayne the headquarters of the Small Integral Motor Department, and part of the DC Motor and Generator Department, whose headquarters are located in Erie, Pa.

Each of the five product departments whose headquarters are located here in Fort

Wayne is fully organized to handle all functions of its business; namely, engineering, manufacturing, marketing, relations, and finance. Each of the product departments, in most essential respects, is much like any independent business under a general manager.

The organization changes which have been made in recent years have all been in the direction of, and with the view to, creating these self-contained businesses which together form the General Electric Company. Actually, there is still, and always will be, one vital difference between any one General Electric operating department and an independent company—each of the departments will retain all of the obvious advantages and rich customer confidence that have been built up through the years by General Electric. With the decentralized authority and responsibility now vested in each department general manager and his aides, General Electric should be better able to render prompt and efficient service to its customers.

The growth of the General Electric Company through its 75-year history has been manifested in its increasing diversity of products and in the increasing number of its manufacturing plants. Presently with more than 200,000 employees in 101 plant cities, and with the future growth confidently anticipated, it is obvious that prudent management will dictate a continuing evaluation of organization structure in order best to meet the increasing demands upon the organization.

## Small Integral Motor Department

As Fort Wayne's newest department, Small Integral Motor is now producing a newly-designed induction motor, called the Tri Clad 55, in ratings from 1 to 5 hp. These new leaders in modern motor design are built in horizontal, vertical, dripproof, totally enclosed, and totally enclosed fan-cooled models. Also a complete line of motors for various gear combinations is produced in addition to motors for hermetically sealed equipment. The entire manufacturing process, from the receiving of raw materials to final inspection and packaging, is carried out at the Winter St. Plant.

## General Purpose Component Motor Department

From drawing board to customer service, the General Purpose Component Motor Department is responsible for motors such as those used on oil burners, pumps, compressors, electric lawn mowers, farm machinery, machine tools, fans and blowers. Two years ago, the department introduced the revolutionary new fractional horsepower motor (Form G) which is lighter in weight, smaller, more versatile, and better appearing. Other activities for the Fort Wayne plants which are responsible to the general manager include plant protection, wire mill, advanced manufacturing development, Apprentice School, transportation, power plants, external buildings and utilities.

## DC Motor & Generator Department

Used by all the major industries of the world, products of the Direct Current Motor & Generator Department include AC synchronous motors and generators, direct current motors and generators, motor-generator sets, and dynamometers. This equipment is used in driving process machinery as well as for supplying power in all phases of manufacture.

In the machine tool industry, motors and generators are used to power planers, boring mills, punch presses, etc.; in the communications industry they are used as stand-by emergency power units; on board ships, the products are used to provide power as well as drive machinery and propulsion equipment.

Headquarters for the department are at the Erie, Pa. Plant of General Electric.

## FACILITIES:

Bldgs. 31-1 and 31-2  
Bldgs. 19-B, 19-1, 19-2, and 19-3  
Bldg. 27  
Bldg. 22

**POWERFUL SHOVEL**—The huge excavating shovel shown above is powered by a DC motor-generator set manufactured by the DC M&G Department here. These shovels are used in open pit mining and construction projects. They often operate 24 hours a day, seven days a week all year round.

**CALENDAR ART**—The painting pictured here appeared in full color on last year's General Electric calendar. It shows a fractional horsepower motor, manufactured in the General Purpose Component Motor Department, powering a drill press and a sander in a home workshop.

## Products Find World-Wide Market

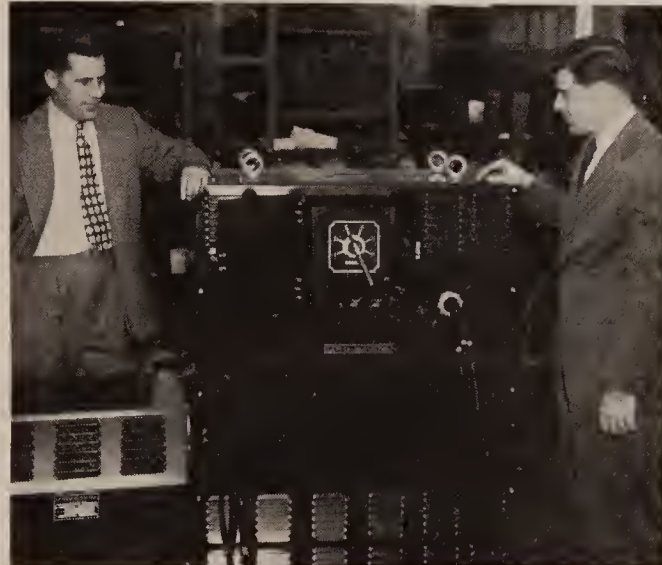

**THIS TRI-CLAD 55** one horsepower standard drip-proof motor has continued to give trouble-free service over a period of time in our Winter St. Plant. It has been subjected purposely to extremely dusty, gritty conditions on this belt sander. Notice iron dust piling up on surface of motor.

General Electric products manufactured in Fort Wayne are now at work in homes and industries throughout the world, and new ones are constantly being developed to keep pace with the expanding electrical world.

Fort Wayne employees, who helped pioneer with the first dynamo and motor top refrigerator, among many other firsts, are now helping open doors to the even broader markets of the future.

It is expected that the General Electric team of engineering, marketing, and manufacturing in all departments is ready to meet the challenges for future progress of General Electric in the Fort Wayne area.

**VOLTAGE STABILIZER**—The 50 KVA voltage stabilizer shown above is used largely by industrial firms with precision electronic or laboratory equipment with rigid requirements on voltage variations. This is one of the many products of the Specialty Transformer Department.

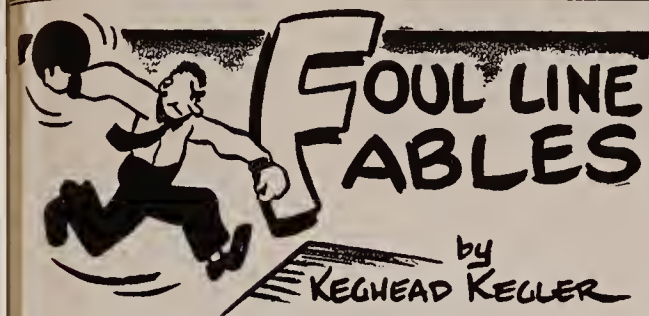

**BETTER LIVING**—At left is a shaded pole motor manufactured by the Specialty Component Motor Department being assembled into a room air conditioner like the one shown above.

**COMPRESSOR PARTS**—James Germanson shows two of the parts made by the Hermetic Motor Department for room air conditioners. These parts, produced here are used in the hermetically sealed compressors for room air conditioners as well as in refrigerators and other cooling equipment.

In the Ladies' Friday Night League Team No. 5 won three games and is leading the league with a record of 23 wins and 10 losses. Team No. 6 moved into second place with 20 wins and 13 losses. Team No. 3 and Team No. 8 are tied for third place, each having won 17½ while losing 15½ games. Ann Lee kegled a 501 series on games of 178, 163, and 160. Charlotte Stanford rolled the high single game, a 196; June Getty, 191; Kathy Crouse, 193; Iris Hebble and Francis Hagenjos each had 188; Bertha Mechling, 177; Ruth Blauvelt, 181; Justine Brown, 170; Tommy Williams, 175; Ilo Matter, 170; and Virginia Mollet, 178. Winnie Schuerich converted the 6-7-10 split.

#### Ladies' Tuesday Afternoon

Team No. 1 leads the league by one-half game with a record of 23½ wins and 12½ losses. Team No. 3 record is 23 and 13. Team No. 6 has won 22½, while losing 13½ for third place. Bessie Fincher kegled a 206 and Lois Coleman, 193. Reginia Dion converted the 5-10 split. Theresa Hickman converted the 6-7-10.

#### Transformer

With a record of 21 wins and 9 losses Ohms are leading the league. Autos are in second place with 19½ wins and 10½ losses. M and Watts are tied for third place, each having won 13 games and lost 17 games. Fur Liner was Doc Gordon with a 92. Double century counts were rolled by Evans, 234; Nass, 231; and Proxmire, 206.

#### GE Owl

Team No. 5 rolled a 2680 series for the top spot in the league in this division. Team No. 8 won 3 games from Team No. 7; Team No. 3 won 3 games from Team No. 1; Team No. 5 won 3 from Team No. 6; and Team No. 4 won 2 games from Team No. 2. C. Wilt kegled a 214 score; L. O'Shaughnessy, 209; P. Billman, 207; and H. Bradfield, 205.

#### Apparatus

Team No. 5 is still out in front with a record of 20 wins and 10 losses. Team No. 7 has won 17 and lost 13 for second place. Just one-half game behind in third place is Team No. 11 with 16½ wins and 13½ losses. Tom Anderson kegled games of 227 and 200; Ford Burnau, 224 and 203; Bob Blomker, 207 and 212; Vie Rump, 225; Bill Stute, 220; Bob Stute, 211; Walter Beatty, 212; Omar Shinn, 203; Windy Boester, 202; Paul Perry, 204; and Charlie Townsend, 200. Clyde Musser rolled his first double century count this season, a 208 count. Team No. 6 rolled a 999 single game which is the league's third highest game to date. Ford Burnau rolled a 597 series, which is second high 3 game series to date.

#### Interdivision League

The lead hasn't changed, but the race is getting closer. Last Wednesday the Airliners won 2 games

from the Old Crown Beer and Ale team. Arlo Hawk had a 216 game for the Airliners. The Gutterdusters won 2 games from the Brouwer Tire and Battery team. Anderson had a nice 243 game and France, a 201, for the Brouwer team. Kinney Koncessions won 2 games from the Transformer team. Vic Rump had a 223 game for Kinneys. Harvey Bros. downed the Tool outfit 2 games out of three. Berghorn had a 206 for Harvey Bros. and Don Hoffman, a 202 for Tools. The Deadheads won 2 games from Apprentice. Summit City won all 3 games from the Pindusters. The Summit City team had a nice 1015 single game, and ended up with a 3 game total of 2808.

#### Small Motor

With 24 wins and 9 losses Two Legs Clothes are leading the league. Test is in second place with 21½ wins and 11½ losses. In third place is G-Men with 19½ wins and 13½ losses. Ed Bowser rolled a 213; Joe Trentadue, 208; Lowell Welker, 206; Boh Horst-meyer, 200 and 206; and Bob Guingrich, 206. Denton Drugs rolled a 959 game to move into second place in the single game scores.

#### Ladies' Monday Night

It is Holeyrollers still out in front, but just by one-half game. Holeyrollers have won 26 and lost 13, while Scatterpins have won 25½, while losing 13½. Twisters are in third place with 24 wins and 15 losses. Gutterbells have won 21 and lost 18, which puts them in fourth place. Ester Muzzillo kegled a 177 and Marilyn Franke, a 176 game. Maxine Root converted the 4-7 split and Ester Muzzillo, the 4-7-10 split.

#### Office

Motor Generator leads the league with 24 wins and 12 losses. In second place is M&G Sales with 20 wins and 16 losses. Don Stoneman kegled a 231; Don Waldrop, 217; Paul Ohnesorge, 215; Earl Morrell, 213; Ed Hagadorn, 212; Glenn France, 212; Dent Manecke, 208; Clarence Rump, 208; Johnny Johnson, 205; and Ed Whipple, 203. Steve Nagy and Carl Hattendorf scored 202 counts.

#### Men's Factory League

Jim Pollock rolled a 228, his first 200 score in this league, and led the fourth place Rotors to 3 wins over the third place Flanges. Clem Snell's 205 was the best score for the losers. G. Laurent rolled a 656 on games of 216, 213, and 227. Guy Kooos had a 221 for the first place Office, but the scores were not enough as the second place Stators nipped them 2 games to 1. G. Schultz's 212 led the more bal-

# Mechling, Dalman Duo Finish First In Final Mixed Doubles Tournament

Bertie Mechling and Harry Dalman teamed up to win the final GE Club Mixed Doubles Tournament of the season last week-end. They nosed out Lee and Carl Hattendorf by just one pin.

The winners posted a 1228 score which included a 243 pin handicap. They received the \$20 first prize. The second place due scored a 1227 with 201 pins handicap and took home \$15.

Herb and Jessie Habig had an actual count of 1061 plus 159 pins handicap which was good for third place and \$12. Fourth place and \$7 went to Winnie Scheurich and Joe Kramer. They rolled 1216, including a 222 pin handicap. Winnie kegled a 521 which included the high single game of the night, a 221 score.

Other winners were:

5th place—J. Brown and R. Brown, 1204, \$5.

6th place—M. Rietdorf and W. Rietdorf, 1189, \$5.

7th place—M. Boner and R. Boner, 1171, \$4.

8th place—M. Koorsen and A. Koorsen, 1168, \$4.

High scores included Ann Lee, 183 and 182; Jessie Habig, 192 and 175; Justine Brown, 171; Millie Rietdorf, 172; Liz Sherer, 188 and 190; Ida Yahne, 176; V. Dideon, 185, and Serge Schuster, 202. Winnie Scheurich converted the 6-7-10 split.

anced Stators attack.

#### GE Fraternal

Riverview Gardens (24-9) maintained their hold on first place as they turned back the challenge of Peterson Elevator, holders of fourth place at 16-17. Bob Mutschler's 605, 238, 185, and 182 led the winners. Second place West End Restaurant (20½-12½) took the deciding game from third place Teeple Truck Lines (18½-14½). The fifth place Elks (15½-17½) took all 3 from the seventh place K. of C. (12-21). Monroeville Lumber (13½-19½) with Joe Hobbs rolling 615 (208-216-191) advanced to sixth place with 2 wins over the GE Club cellar dwellers who have 11 wins and 22 losses. Johnny Beery's 259 was the high individual score of the night, followed by Zelt's 246. Other 200 scores are: G. Baumgartner, 223; R. Werling, 210; L. Hoffman, 235; A. Bauck, 221; E. Bultemeier, 222; R. McClenahan, 211; H. Strickler, 210; G. Strickler, 202; D. House, 222; G. Schultz, 215, and Appel-man, 200.

#### GE Women

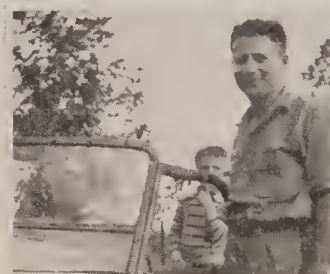

E. Plasterer's 530 series on games of 199, 147, and 184 led the Last Frames to 3 wins over the Hi-Spots. Last Frames now lead the league with 21-9, while the Hi-Spots trail in second place with 18-12. GE Office stayed a notch ahead of the Spares by salvaging the last game of their series. The Office now have 11-19 with the Spares bringing up the cahoose with 10-20. Other high scores were G. Reynolds, 171; and H. Wellman, 166.

Lawyer: "Under your husband's will, if you marry again, his fortune will go to his brother."

Widow: "Fine! It's the brother I'm marrying."

## TOOL BITS BLDG. 19-4 and 5 by Howard Demsey

That strong wind the other day blew no good for Carl Ahlersmeyer. He was on his way to work that windy morning, bragging about his his umbrella to several co-workers, when along came a big gust of wind and Carl had an inverted umbrella. . . . It was also an ill wind for Louise Hegerfeld, who was seen carrying the skeleton of her umbrella home that afternoon. . . . Congratulations to Mr. and Mrs. Harry Blauvelt on the birth of a baby girl, Joan Louise, on March 20. . . . Ron Blodgett is getting dishpan hands since he has been doing the dishes three times a day. . . . Frank Armstrong either inherited some money or got a raise that nobody knows of as he was seen tearing a dollar bill the other night at the lunch wagon. . . . Kenneth Frey bought himself a new Ford since he is living suburban now. He says he won't let his wife drive it until he gets 5,000 miles on it, so it's broken in before it's broken down. . . . Sharon Matthews spent a very restful week-end at home being nursemaid to her sister who was ill. . . . Bill Hunt has a tired, confused look about him lately. His new son is keeping him up at all hours of the night and Bill's sleep has become pretty much of a hit and miss affair. . . . Vic Barcus reports the fishing at the Coliseum isn't any better than at Blue Lake and costs more, too. . . . Carey Baker asked Lloyd Welbaum to pick up some tickets for the GE Spring Show. Somehow the corner of Carey's club card showing the number of dependents was missing and they refused to give Lloyd any tickets. We are uncertain as to the number of dependents he has. Does anyone know? . . . Glenn Hoon wants everyone to know that his Dodge is still a good car even if it does have a tendency to fall apart at times. . . . The first working day of spring Earl Lenz came to work wearing his Stetson Play Boy. The next day he was wearing his hunting cap again. When are you going to wear your new Corky hat, Earl? . . . How can some fellows from Coesse get to work and back home without driver's license, money, or identification? . . . Since Mrs. Dallas Smith had her picture in the Journal-Gazette last week we'll put in this picture of Dallas

Dallas and Son

and his son to kind of even up things in the Smith household. . . . Henry Frey claims the fish fry

## Girl's Volleyball Sessions Begin

In line with the GE Club policy to provide recreation and relaxation for employees, a series of volleyball sessions for women employees will open at the Club Tuesday evening, April 6, Betty Puff, member of the Club board of directors, reported this week.

The sessions will be conducted Tuesday evenings from 7 to 9 p.m. No club or permanent teams will be formed, it was announced.

All GE women are invited to participate in the games. Those planning to attend are asked to wear gym, or rubber-soled shoes.

cost him \$7.50 last week. You're supposed to take the bones out before you eat them, Hank. . . . Walter Greiner's daughter, Sandy, is all smiles these days since Walt got her a TV set. Now she and pappy both can watch Hopalong Cassidy. . . . Don't blame the wind for all of these hats flying through the air. One of them was Dave Bartle's hat and he was throwing it into the ring in an effort for the candidacy for Advisory Board in Springfield Township. Any campaign slogans will be appreciated. How about "Put DAB on your TAB?" . . . Paul Bringroeger thinks he is in the age of phone-vision. He was talking with his wife the other day and pointed out the window at the street intersection where he wanted her to meet him. Arnold Korte isn't any better. He was seen giving a series of measurements with his fingers over the phone to another party. . . . Dick Poehler was well worn out when he got home from the Sports Show Saturday night after the trip to Sidney on Friday night. Of course, that was the night the neighbor's cat decided to climb a tree and get marooned there. Dick's kind-hearted daughter prevailed on him to get the kitty down and Dick gave in. After quite a struggle up and more of a struggle down he rescued the cat. At least he brought it down far enough that the fall didn't hurt it and it got up and ran away, probably looking for another tree to climb. . . . From the looks of Kurt Martin's bench he's starting a scrap drive for wood. . . . The Apprentice Alumni had a very nice trip to the Monarch Lathe factory at Sidney, Ohio. The return trip was livened by Willie Garman's personal check of all the railroad crossings. . . . Paul Yentes made a Dagwood catch of the last bus on the Sidney trip. . . . With the new ambulance in service, Chief Kenny McCague's duties are becoming more varied. On a recent run he volunteered to baby sit with the other children of the family while the father took one of them to the hospital. Kenny said he even changed the baby. . . . Russell Dunten is going to apply for a dentist's license. He says he is very proficient now since he pulled one of his wife's teeth.

Calvin W. Marhenke

James F. Kocher

## Two Appointed to New Posts In DC M & G Manufacturing

Two appointments in the Direct Current Motor and Generator Fort Wayne manufacturing section have been announced by Kenneth D. Strong, superintendent of the shop. Calvin W. Marhenke has been named general foreman of Area C with responsibility for light machining; shafts, cores, and commutators, and armature coils and winding. James F. Kocher has been appointed manufacturing loss specialist in the section.

In 1929 Mr. Franke entered the Apprentice School after coming to GE. When he graduated from the electrical test course in 1934, he became a tester in Bldg. 4-3. He went into M&G test the next year as a calculator.

In 1940 Mr. Marhenke was named a foreman of test on second shift. Last August he became manufacturing loss specialist in the section and held this position until his present appointment.

Mr. Marhenke is a member of the Foremen's Association and Apprentice Alumni Association. The Marhenkes and their three children reside at 1903 Curdes Ave.

After joining GE in 1923 Mr. Kocher became a member of the Apprentice School. He graduated

from the machinist-toolmaker course in 1927 and became a tool designer. In 1931 he entered the Fractional Horsepower Motor Department as a mechanical inspector and later went into production expediting.

When he moved to M&G in 1939, Mr. Kocher worked as a draftsman. Later he went into tool design and in 1950 moved to mechanical design in plant engineering. He returned to M&G in 1950 as a tool designer and equipment planner. He was named a foreman of all operations on third shift in 1953 and was a foreman in Bldg. 19-3 prior to his present assignment.

A native of Churubus, Mr. Kocher is a member of the Foremen's Association, Fort Wayne Engineers Club, and Apprentice Alumni Association. Mr. and Mrs. Kocher and their two sons reside at 2521 Hubertus Ave.

## ECHOES from 19-2

by Fred McIntyre

A hearty welcome to Paul Schlaudenhauffer, who is a new employee in Bldg. 19-2. . . . We wish a speedy recovery to Ada Phillips' mother, who is in the hospital. . . . Ernie Linn has left the hospital and is now at home. Ernie always appreciates his friends and co-workers calling on him. . . . To Don Distel and Elmer Yordey we extend belated birthday greetings. Also greetings to Joe Laisure, who celebrated his birthday this week. . . . Good-by and good luck to Pat Aberilla, on his new job in Bldg. 22. . . . Frank Schlink could not stand the pressure from his family any longer. The result was that he finally bought a TV set. That leaves but two die-hards in the east end, Homer Hibler and Joe Laisure. . . . Anthony Lupe says the reception on his TV set will be improved with the addition of a necktie aerial. . . . We extend our sympathy to Joe Laisure on the recent death of his sister. . . . A speedy recovery to Bonnie Aises, who is recovering at home after injuring a finger. . . . We understand that Walter Duhn is offering to sell his new car at a reduced price. . . .

Roy Lawrence sold his home in Fort Wayne and now commutes to work from Hamilton Lake where he has a year around dwelling.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

We would like to welcome Margie Watkins, our little southern gal, to the M/S section. Margie hails from Birmingham, Alabama. . . . We say so long today to Edna Turnbaugh, who leaves us to become a full time housewife. Good luck to you, Edna, in your new duties. . . . Dolores Miles and Norma Durnell attended a shower last week given in honor of Chylene Anderson. . . . Helena Nelson, the lucky person, and her husband left last Friday for a two-week vacation in Florida. Have a wonderful time, Helena, and don't forget us. . . . I would like to correct an error that appeared last week in the paper. Audrey Hoelle, the mother, was a former employee, not the father. . . . In the spring a young man's fancy turns to love, but Virginia Archbold's thoughts turned to a new home which she purchased in Indian Village.

## SLEUTHING in 4-6

by Al Happel

THE FLOOR SITTERS CLUB has a new member. His name is Bob Susdorf. Don't feel too badly though, Bob. Everybody seems to get a red face when they can't find their chair. . . . ATTENTION to all Easter bonnet buyers. Our super saleslady, Mary Harper, can be found in Schillers Millinery Store for three Saturdays before Easter to assist you in purchasing your new Easter bonnet. . . . CONGRATULATIONS, Alma Mae. Last Monday Alma Mae Shenfield came to work in a dream. She was wearing a shining beam in her eyes. On her third finger she has a beautiful diamond ring. The lucky man is Alan Gene Cox. . . . OH, DEAR, it's a birthday present. That is what Kathleen Terveer said last Tuesday. All her friends got together and thought they would get her a birthday present, so they started taking donations for Kathie's present. They ended up with a big box full of beautiful and useful presents. They gave Kathleen the box, and she started to investigate the many presents. Kathleen said in a high tone, "What is this junk?" She surely was pleased over the many gifts she received, but was more pleased over the cigar butt and bottle of pills. She wishes to thank all her friends for their thoughtful gifts. Aren't we lucky to have so many friends, girls? . . . DAVID PURDY left us Friday and is now working in Bldg. 19. He is replaced by Domenico Caceano, working for Dochterman. Dave Blake is leaving us today and is being replaced by Robert Chiabrandy, working for C. J. Herman. . . . WE BID FAREWELL and best wishes to John Leffers who left us last week. He transferred to Winter St. We will miss you, John. WE WISH a happy birthday to Lois Schmidt on April 3, and Mildred Heinkel on April 4. . . . WE HAVE a new member in "Liberace Club." Her name is Phyllis Faulkner. We heard a rumor that she is giving Mary Smoak a hard time for the presidential nomination of the club. Hurry up, girls, the time is running out.

## THISA & THATA BLDG. 4-3 and 4

by Helen Engle

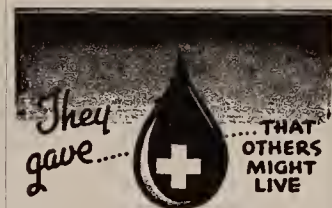

The snow didn't dampen Mary Nute's spirit one bit. She still is dreaming of going fishing. . . . Jules Zumbum has one for the books. The wind was so strong that when he was driving his car at 60 miles an hour the wind stopped him in his tracks. . . . Glad to have Dan Tetlow back after a short illness. . . . Lloyd Jacobs is glad that Hazel Stauffer finally made up her mind to stay on the good side of the conveyor. It took a lot of persuasion to get her to stay. . . . Paul Arnold is making progress at his new house. He had the floors poured last Saturday. . . . When driving to work, Helen Struver saw a deer jumping across the road and fence. At first she thought she was seeing things but it really was a young deer. She lives up at Adams Lake, so no doubt someone will soon have their freezer full. . . . Emery Tucker and Bob Black were both out to see the Sportsman's Show and they couldn't even catch any fish. . . . Congratulations to Grandpa Harry Berry on the new 10-lb. boy, Timothy Rudolph, who arrived at his home last week. . . . Marie Griffin joined the family of television owners. . . . Mr. and Mrs. Joseph Spieth are the proud parents of a 7-lb. son born on St. Patrick's Day. Barbara formerly

worked in 1x55. . . . Sorry to hear that Ray Soest's father-in-law died. . . . When Marie Griffin's car stalled in a puddle of water outside of Garrett the night of her birthday party, the girls thought she took them into the creek. . . . Glen Fernwalt was going to the boat show to see if there might be some bathing beauties. . . . Did you see the picture in Sunday morning's paper? On further inspection we discovered one of them was Bob Meyer. It was a basketball picture from "Do You Remember When?" . . . Birthday greetings to the following people: Arnold Kiefer, April 6; Ann Hersberger, April 8; J. R. Stoner, April 9; Hazel Niswonger, April 11; Jessie Hamilton, April 12; Elizabeth Genthner, April 17; Easter, April 18; Virginia Burkett, April 18; C. A. Hartman, April 19; Mary Harvey, April 19; Mary Harvey, April 20; Perry Esterline, April 23; Bonnie Engleking, April 23; Darwin Stout, April 30; and Eileen Brown, April 30.

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

We are glad to see Ethel Critten back to work again. . . . Dorothy had a little horse in her throat last week. Be careful he doesn't kick. Dot. . . . Carol Telschow worked over the week-end, helping to lay a tile floor. . . . We welcome Vera Jordan to second shift again. . . . Rita Cummings motored to Indianapolis Sunday. . . . Hazel Adamson and husband have left Fort Wayne to make their home in California.

The following people donated blood during the week ending March 19:

Frances Acton, Albert Amspach, Carroll Arnold, Gustave Ausderan, Victor Barcus, James Barnes, David Bartle, Jr., Eldon K. Bell, Noble Bell, Kenneth Bergman, Waveland Bernardin, Harold Blauvelt, Fred R. Roehm, Elsie Brown, Daniel J. Bryan, Wayne Chrystler, Benjamin Conner, Margaret Cowan, James Duff, Mearl Dukes, Ralph Dunlap, Frank Elder, Jr., D. C. Ewing, Jack Farris, James Fatzinger, H. C. Foreman, Melvin Franke, Max Green, Harold Guyot, Mary Alson, and John J. Powner.

## UNDER THE PENSION PLAN

Should your beneficiary be changed?

You may change your beneficiary under the Pension Plan at any time. In case you should die before reaching optional retirement age, your beneficiary will receive all your contributions plus interest. Should you die after reaching normal retirement age or during the first five years of your retirement, your beneficiary will receive your pension for the balance of the five year period unless you had selected a survivorship option. Change of beneficiary forms for the Pension Plan may be procured from payroll.

**SECTION 114 TAYLOR ST.**  
by Luana Oehlhaften

The fellows in Test and Inspection are wondering if the plant will shut down while Fred Vogt is in Germany. Fred is going to visit his parents whom he hasn't seen in 28 years. We will miss you while you're gone, Freddie, but we know you will be having a wonderful time. Bon voyage! . . . They say robins herald the coming of spring, but we know it isn't spring yet because Norb Meyer doesn't have his golf clubs out. . . . Speaking of golfing, we hear there are a lot of golf players in our office. But we doubt that a certain person hit a 36 last year. . . . It has come to our attention that Helen Platt had a stiff neck. Now do you suppose she could have fallen asleep while watching television? . . . It happened again! Bill Minor and Dick Nix were the recipients of the black and white kitty again. It's getting to be a habit, isn't it, boys? . . . Mrs. Carl Hattendorf had the misfortune of injuring her foot. She will be confined to a wheelchair for the next few weeks. Carl seems to be having considerable difficulty packing his lunch and doing double duty around the house. . . . John Holloway has a burn on his forehead. He says he got it from a light bulb. I wonder. . . . We notice Earl Greenlee has been rather sleepy lately. Must be that new TV set is keeping him up late. . . . Elmer Jackel caught a trout at the Coliseum Thursday night in 12 minutes. What kind of bait did you use, Elmer? According to Elmer, you've got to be a trout fisherman. . . . Marilyn and Ann Smith are going to spend the week-end in Hartford City while Mr. Smith is bowling in the Masonic Tournament in Columbus, Ohio. . . . Harry Diem really gets good reception from his TV set. Anyone getting Germany without an antenna must get good reception. . . . Judy Lehman has patented a new fish stretcher. Vondy says it works especially well on perch. Bob Till says he thinks it's unlawful to stretch fish. . . . The "Duke of Waynedale" believes in the old saying, "Follow the beaten path." For him the "beaten path" leads to Dayton. . . . We hear that nothing can keep Blanche Mointz from dancing, not even a blizzard. . . . Louis Hesse, Bob Laver, Al Lloyd Foulks, and Carl Miller have been on the sick list in Hi-Bay. Here's hoping you're feeling better

Electric friends of our daughter and sister, Hilda.—Mrs. Cora Mueller, Mrs. Irene Mullarkey, and Mrs. Luella James.

"Meet my new secretary, dear. Now for heaven's sake, do her looks meet with your approval?"

now, boys. . . . We want to give our sympathy to Rose Harter and Paul Fremion. We hear the boys are giving "youse guys" a rough time. We know you're going on those diets even if they don't. . . . If you are planning a trip out west during vacation, be sure to see Everett Mullen. He can give you a good idea on what you will encounter. . . . Be sure to watch each Sunday's paper for the announcement of Frank Conley's engagement. . . . Bob Duras is helping Mike Brayer's bowling score by giving him instructions on the art of bowling. . . . Our gal, Abbie Hartman, rated her picture in the Saturday paper. . . . A good husband is one who stands by his wife in troubles she would not have if she hadn't married him.

**SPOT LIGHTS**  
**BLDG. 4-2**  
by Estella Pettibone

Good luck to Imogene Schumm, who is leaving us for full time housekeeping duties. . . . The fishermen co-workers of Charlie Reinbold decided he deserved the fisherman's Oscar. Bud Neu designed and made the plaque. If anyone would like to see it, Charlie has the welcome mat out. He has it displayed above his work bench. . . . Ed Rhodenbeck designed a special screw driver to use in adjusting his TV set. After making it he found it was a service repairman he needed instead of a screw driver. . . . John Wilson and Park Schemehorn were discussing favorite sandwiches. The Wilson Special is a cold bean sandwich. Park had never heard of it. After about two weeks of questions as to how to make them, etc., John finally brought Park a sample. It was a terrific hit as Park is advising all who has never eaten a bean sandwich to try it. . . . Congratulations to Clarence Watson, who has a new grandchild. . . . We are happy to see Ben Hawley ring his clock card again after several weeks of illness. . . . Vern Boyer is hospitalized with chickenpox. His buddies were of the opinion the disease was strictly a child's disease. Now they are worrying about this phase in life called second childhood. Vern, can you enlighten them? Sincerely, we do all wish you a speedy recovery. . . . Theresa Prine is catching up on her reading. Her foreman saw her reading an ABC book on the bus recently. . . . Larella Guy and Opal Runyon would like to see Ed Gluskamp get a new chair. It seems that the one he has walks right out from under him.

**SMOKEHOUSE SAYINGS**  
**BLDG. 22**  
by George Winans

A couple of the boys unwillingly became pedestrians last week when their cars became indisposed. George Hatch's Buick became violently ill and had to be rushed to the auto hospital and Eugene Miller's Mercury was badly bruised and battered when he failed to keep it out of the way of a woman driver. . . . The maintenance men who keep our equipment in order are always sure of plenty of help when working in Bldg. 22. The other day one fellow who was working on the oven was trying to find the center of the oven door by standing at the top of a tall ladder and dangling a plumb bob. Waymon Norton, noticing the workman's plight, grabbed the plumb bob and climbing up the ladder handed it to the man. "That fellow surely must have been weak," said Waymond, "couldn't pull that little piece of iron up with that string." . . . Carl Habis of Bldg. 27 was thankful for the fish pond at the Sport Show. His buddies say for once he had a chance to catch some fish. . . . The gang had an unexpected treat last week when Red Juergens, who runs a chicken farm, brought in plenty of fried chicken for everybody. If any more business men would care to bring in samples they will be most welcome. Bankers especially are invited. . . . I'm very sorry if I led anyone to believe that Ralph O'Garrett is not Irish by my column last week. Ralph was very upset and said he could furnish definite proof that he was a true son of Erin. Shore and begorry, Ralph, we knew it all of the time. . . . Well, March is here and gone and I hope the strong winds have gone with it. My bonnet blew off so many times during the month that I was seriously thinking of tying it on. Of course it's an ill wind that blows no good. After watching Mildred Messer and Emma McCormick walk down Broadway the other noon, I finally figured out who those two dancers are on the Old Gold cigarette program.

**COUNT OFF**  
**SECTION 417 TAYLOR ST.**  
by Ruby Stoops

Anyone wanting a real antique, contact Ed Feidler. He is going to part at last with his 1936 Chevy. Those new cars really look nice, Ed. . . . Welcome to Walter Doenges in Section 417x50. . . . We welcome Joe Adams back to work in Section 17x580 after his recent illness. . . . We miss Joyce Jump, who has left the lead section to join Clarence Gardt's section. . . . Ed Brockall, what was the matter with your luck Sunday? We understand that Delos Martin led you right to a spot at Lake Wawasee where people all around you were catching fish and nary a nibble did you get. . . . Congratulations, Bob Smith, on that big black bass you caught at High Lake. We understand the paper said it weighed seven and one-half pounds. The fellows you were with said it weighed six and one-half pounds at the sport store at Wolfe Lake. We are wondering how it gained a pound between Wolfe Lake and Fort Wayne. . . . We are sure that Fred House's wife won't need to worry over her new Easter bonnet after seeing Fred in his latest head creation.

# Advanced Manufacturing Development Promotes V. D. Barcus and R. R. Getty

Two appointments in General Purpose Component Motor Department's Advanced Manufacturing Development were revealed this week by Clarence A. Brenner, superintendent of manufacturing in the section.

Victor D. Barcus has been appointed a foreman in charge of heat treating, horizontal boring mills, welding, drill press, jig boring and slotting machines. Reynold R. Getty has been named supervisor of production services.

In 1941 Mr. Barcus joined General Electric and went into the Apprentice School. After graduating from the machinist-toolmaker course in 1943, he became a die maker in Bldg. 26-5. He entered the U. S. Navy the next year and served in the Pacific Theater 18 months.

After his discharge from the Service in 1946, Mr. Barcus returned to the company as a die maker. Later he was on inspection and cost reduction in the General Tool Section. Last year he became supervisor of production in the section and had this position at the time of his present assignment.

Mr. Barcus is a member of the Supervisors Club and Apprentice Alumni Association. Mr. and Mrs. Barcus and their two children reside on R. R. 1, Churubusco.

After coming to GE in 1925, Mr. Getty entered the Apprentice School. He graduated from the machinist-toolmaker course in 1929 and became a bench machinist in Bldg. 26-5. Later he had jobs as an operator on various machines.

In 1941 Mr. Getty was named an instructor in the machine section in Bldg. 26-5. He entered the General Tool Section planning in 1944 and was a planner prior to his present assignment.

Mr. and Mrs. Getty and their three children live at 815 Pasadena Dr.

Victor D. Barcus

Reynold R. Getty

has joined the new car family. . . . C. B. Smith took his parents back to their home in Iowa last weekend. . . . Any veteran wishing to join the GE War Vets Association see Roy Brower for membership, which is only 50 cents a year. See your contact men for tickets for the annual banquet to be held April 24 at Post 47. Tickets are \$2. . . . Welcome to the second trick, those who came on days this week. . . . The boys in the stock room want it known that their co-worker, Gene Meyer, is now known as "Nature Boy." . . . Happy birthday to Margaret Hilgeman, Carl Frankenberg, Marjorie Goodrich, W. Winders, Carl Smith, and Harold Weigman.

Hear about the fellow who always let the other fellow pick up the dinner checks whenever they went out for dinner? He had a sort of impediment in his reach.

## SHORTS and SNORTS

### GENERAL SERVICE

by Mary Saxton

Hi, from Plant Services at Taylor St., which is now located in the northwest corner of the building in the Hi Bay section. We are all still in a hub-bub from moving. As a matter of fact the only thing settled is the machines. . . . There has been a lot of complaints about not having a column in the GE NEWS. Let's start with the last fellow to complain. It seems he came to the plant to check on some new lights along the drive and since the gate was open he drove on through. The guard was the first to notice the car that drove in behind him, which were the boys in blue. Seems our boss didn't know that he ran the light at Taylor and Brooklyn. . . . Dick Everett was scheduled to work on Saturday and thought it would be a good idea to work the earlier shift. After being voted down, he decided that 8 o'clock would be all right. All the others came in at 8 but Dick didn't show up until 9 o'clock. In the confusion of trying to remember what time he was supposed to come to work, he forgot to get gasoline and had to walk four miles to the nearest station. There must be a moral to this, if we could only figure out what it was. . . . Hilda Krause was married to Harry Disbro recently. Hilda works in General Stores. . . . Bruce Gene made his appearance. He is the son of Mr. and Mrs. Gene Etter. Gene works second shift. . . . George Wralstad has had quite a few sleepless nights lately. Thank goodness Georgia's upper tooth finally came through. . . . Margaret Bradtmiller is all settled in her new home and likes it fine. . . . Emery Cramer always wanted to be a fireman but it seems he waited a long time to even get started. That new Nash sure looks like a fire truck. . . . We are glad to hear that Mable Cook's mother is now home recuperating from an operation. . . . Bob Farmer is the new test engineer in the office. . . . Our deepest sympathy to Matt Jackson and Harold McGary on the death of their mothers and to Lois Tarr, whose brother-in-law died last Friday. . . . Bob Deewester and Harold Miller are the new foremen in plant services. . . . Florence Hamm was in such a

hurry to get to work that she grabbed up her scarf and ran. She didn't notice until she was half way here that she had also grabbed up a stocking. It can be quite embarrassing to have a stocking blowing in your face when you are trying to put on a head scarf. . . . Byron Nelson finally broke down and bought a new car. He can't seem to get Red Pettit to buy one though. Maybe next week we will have big news. Minnie, the power house cat, is expecting her family any day now.

## DECATURITES

by George Laurent

Glad to see Ora Brentlinger back after several days illness. . . . We wish Genny Owens a speedy recovery and hope to soon see her back on the job. . . . Last week was a busy week at the Dan Foreman home. They celebrated Mrs. Foreman's birthday and their wedding anniversary both in the same week. Congratulations and best wishes to you both. . . . Greetings to Luella Werst who celebrated her birthday last week. She treated the gang to candy bars, and they all join in saying, "Thanks for the candy, Luella, we hope that you have many more happy birthdays." . . . It sure takes pep and vitality to keep up with Waldo Baumann. He has worked out a good system. First he will tell you how to build up a lot of pep (and of course you wear out your shoes trying to keep up with all that energy); then he will sell you shoes (to replace the ones you had to wear out). As Rudy says, "Shoes for man or beast." Take your choice. . . . The Sports Show was well attended by Decatur GE. Art Wedler was checking the gas mileage of a Chris-Craft in comparison to a Ford. George Myers didn't catch a trout but he didn't have his own tackle. George noticed how hard the casting expert tried to get a back-lash. George said he can do it without even trying. . . . Basketball is gone and baseball is here. Chet Kleinknight says that the Red Sox will be the Milan of baseball.

It's too bad that the only men who can solve the world's problems are too busy sitting on the front porch whittling.—Wall St. Journal.

## WIRE RAVELINGS

### TAYLOR ST.

by Art Rasor

Our deepest sympathy goes to Rollie Anselman upon the death of his mother-in-law. . . . It's a wedding anniversary for Vaughn Sheets on the 4th, and birthdays for Joe Hill and Virgil Howell on the 6th. . . . If you don't tell Steve Bobay that I know it, I'll let you in on the fact that he bought himself a television set to go with his antenna! . . . A guy must be a little peculiar to carry home two chicken bones, two used paper towels, and a pack of sawdust, but to his amazement that was what Fritz Rudasky found when he opened his lunch bucket. . . . Congratulations to Mr. and Mrs. Dean Crum upon the arrival of a 5 lb. 7 oz. boy on Monday, March 29. . . . Don Pappert is back in the swing of things after a two week cruise with the Naval Reserve. . . . Now that Benny Penkul has completed a successful season with a 23-0 record for the GE Owl team, I heard a rumor that Fred Zollner is considering an offer as coach for his team. That's the way most of them get their start. . . . The next time it rains Truman Buckles had better call a cah to get to work on time. As he and Cleo Crowe got a couple of blocks away from the house they developed motor trouble and stood in the rain under the hood to look for the cause. Al Hambrock passed them up "like a dirty shirt," and Cleo wouldn't go home and get his car to push him, so they had to settle for being late.

Recipe for a honeymoon salad—lettuce alone.

## 6-4 AIRLINERS

by Moe Satterthwaite

Lillian Schaffer went to the show the other night expecting to see the Glenn Miller story, but she was surprised when a western appeared on the screen. She went to the wrong theater. . . . Paul Clark took the bus home from work last Monday and later discovered that he had left his car in the parking lot. . . . The March winds had a lot of fun with Roxie Miller and Hazel Leonard last week. The wind caught Roxie's umbrella and turned it wrong side out. Hazel also was carrying an umbrella but it got caught in her hairnet and she had a bad time getting it loose. . . . Paul Kinsley had a rough time trying to keep his Girl Scout cookies. It seemed everytime he turned around they came up missing and by the time he found them they were stale. . . . Bernice Winters

EXPLAINS \$50 IDEA—Howard Oesch (right) explains his idea to use friction-proof oil in the bearings of certain grinders to Dean Lockwood. Mr. Oesch, who earned \$50 for his suggestion, is a maintenance machinist in Bldg. 26-1.

IDEA PAYS \$50—Edward Bienz pocketed \$50 recently for suggesting change in the method of machining parts for the reciprocating press to fabricating the parts. Harold Hohman congratulates Mr. Bienz, who is a bench machinist in Bldg. 17-2.

**AUER'S ADVICE**—Reminding seed and soil fans that it is time to take to the garden, four-year-old Danny Auer gives his full attention to the business of hoeing. Danny is the son of Pauline Auer, Bldg. 26-5, and Gene Auer, Bldg. 26-4. He is the grandson of Mrs. Luther Childers, Bldg. 17-3; Luther Childers, Bldg. 8-1, and Frank Auer, Taylor St.

## Two Engineers Receive New Posts In Specialty Component Motor Dept.

Two appointments in the Specialty Component Motor Department were revealed this week by Adolph J. Rose, manager of manufacturing. Thomas L. Staley was appointed operations research engineer and Lawrance W. Wightman was named manufacturing engineer.

Mr. Staley joined General Electric in 1929. He entered the factory training program then. After completing the program in 1931 he became a test calculator in Large Motor and Generator. In 1935 he moved to plant engineering as a mechanical engineer.

In 1938 Mr. Staley went on special assignment on the staff of the supervisor of general planning. He became superintendent of the 60 and 70 section in Bldg. 4-4 in 1940 and was appointed supervisor of planning for the Fractional Horsepower Motor Department in 1944. Named assistant manufacturing engineer in FHP in 1950, he became manufacturing engineer in Specialty Component Motor in 1952 and had this position until his present appointment.

A graduate of Yale University, Mr. Staley received his BSIE degree in 1929. He is a member of Tau Beta Pi, honorary engineering

Thomas L. Staley

Lawrance W. Wightman

## Elex Sets April 15 For Easter Egg Sale

The Easter Bunny will visit here when Elex conducts its annual Easter egg sale Thursday, April 15. Contact girls will sell the decorated eggs. Proceeds from the sales will be used in the club's defense project to pay for Easter boxes sent 400 GE employees now in the Armed Forces.

First shift contact girls will sell eggs from 8 a.m. until 12 noon and second shift members will sell eggs from 4 to 6 p.m.

Any employees who wish to donate eggs or money to purchase dyes may do so from April 8 to 14 by giving their donation to contact girls or the women's activities offices at Broadway or Taylor St.

A series of egg-dyeing parties has been set up by Elex members in their homes. They will boil and decorate the eggs at these meetings.

The 400 boxes sent recently to Service men and women by the club consisted of candy in vacuum-sealed tins. A total of 216 of these boxes were shipped overseas. Elex remembers employees now in Service four times each year with gift boxes.

## Supervisors Plan April Fish Fry

The Supervisors Club has slated a fish fry for Wednesday, April 21, George A. Finkbeiner, Bldg. 26-3, and Bret Young, Bldg. 26-2, co-chairmen of the meeting, announced this week.

The meeting will take place at the Southwest Conservation Club with dinner served at 6 p.m.

Movies of the MBA East-West All Star game played during the past season will be shown and refreshments will be served.

Reservations should be made with contact men and are due by Friday, April 16.

Group 2 is in charge of arrangements for the event.

## Apprentice Honored For Korean Service

Kenneth L. Gerber, a student in the Apprentice School, has been awarded the Commendation Ribbon with Metal Pendant for meritorious service in Korea. Announcement of the award was made today by the Indiana Military District Headquarters.

Gerber was a General Electric employee when he was called to active duty on Feb. 18, 1952. He was discharged in February of this year.

## Teen-Age Rodeo Plans Announced; Slated for May 2

Plans for the second Teen-Age Rodeo were announced this week by Charles T. Johnson, Bldg. 8-1, chairman of the Civic Affairs Youth Activities Committee of the Fort Wayne Engineer's Club. The driving contest for teen-agers will be held at Rogers Market parking area, North Anthony and Crescent, May 2, beginning at 2 p.m. There will be no admission charge.

The Rodeo is sponsored by the Fort Wayne Engineers Club and the Chamber of Commerce Public Safety Committee, with the cooperation of the Fort Wayne Police Department, Allen County Sheriff's Department, and the Indiana State Police.

The Rodeo marks the climax of the Good Driving Program conducted in the Allen County high schools. It will test the skill of two representatives from each of the high schools in both written and driving problems. One girl and one boy will be selected from each school. Plaques will be awarded the winners. Mr. Johnson stressed that the Rodeo is not a driving contest between schools, but rather a test of individual skill.

The local winner will be eligible to compete in the Indiana State Teen-Age Rodeo Saturday, May 8, in Anderson. State winners compete in the national contest at Washington, D. C., for \$3,100 in scholarships.

General Electric engineers who are active in the Civic Affairs Youth Activities committee in addition to Mr. Johnson are: Frank H. Fleischer, John Taylor, Irvine E. Ross, Forest T. Carlson, and Morris M. Felger. Mr. Carlson is in charge of publicity for the event.

## GET ANNUAL REPORTS IN GE NEWS OFFICE

### PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

We put out the welcome mat to all our new employees and wish a fond farewell to those who are leaving us. . . . John Collins has transferred to the office and we wish him the best on his new job. He received a gift from his co-workers in appreciation for his fine co-operation with us in the past. . . . When you want identification of an animal carcass, see Levi Carpenter. When he says it's a coon, you can bet it is. Mrs. Carpenter can verify this, \$5 worth. . . . Ed Lauer paid his dentist another visit. This job of growing old can be painful, eh, Ed? . . . Mildred Leazier had a birthday on April Fool's Day. She told the girls she was 16 or did she say 17? Could you please tell us your method of counting as it might come in handy some day. . . . Nellie Wendt has returned from a sick leave. . . . Roy Dierstein had to have Betty Haines sew a button on his coat. Is he really being neglected at home? . . . Art Pequignot always instructs his winders to follow the specifications precisely. What are we going to do about the one that called for a "bale of hay"? . . . Levi "Mucklehead" Carpenter plans to take up smoking with the thought in mind "Good-by cruel world." . . . Wanda Grimm was describing a beautiful home she saw. Now how could a living room 24 inches long have an 18 foot picture window? . . . Wolf says he's going to bowl a

perfect 300 game. Please don't anyone hold his breath. . . . Varo Hoover feels safer at home since her neighbors got two watch dogs. . . . We would like to know what the story is behind Jim McGill's aliases: Jack Dempsey, Max Schmeling, Jersey Joe, etc. . . . Anyone who wants to learn new arithmetic see Syl Englemann. He can even do it like the Ethiopians. . . . Mildred Leazier is sporting new glasses. Now she will be able to recognize her own coils. Maybe you should have had them a month sooner, Millie. . . . Millie Strickler and Donna Murphy exchanged shoes. Millie had a rough time with those high heels.

### TOP FLOOR TOPICS BLDG. 26-5

by Jack Lea

Notice! Compound pourers will please watch what comes out the spigots on the tanks. I understand Dick Shull almost fell in. . . . Ruth Durnhill has had a neck operation and is presently at the Lutheran Hospital. . . . Al Miller changed his mind. He wants a rowboat for retirement. You can't get a rowboat in that trout pool at the Coliseum, Al! . . . Ruby (Jean) Brandt finally dug up her money that she had buried in an old sock and bought herself a home. . . . John Herney is now known as "Mr. Salvage," as he is taking the place of Earl Waterman, who will soon retire. . . . Teeth—Be true to them or they'll be false to you. Grapefruit—To which there is more than meets the eye.

The April Foolers had their day.

## I Speak for Democracy

by ELIZABETH ELLEN EDWARDS

I am an American.

Listen to my words, Fascist, Communist.

Listen well, for my country is a strong country, and my message is a strong message.

I am an American, and I speak for democracy.

My ancestors have left their blood on the green at Lexington and the snow at Valley Forge

. . . on the walls of Fort Sumter and the fields at Gettysburg

. . . on the waters of the River Marne and in the shadows of the Argonne Forest

. . . on the beachheads of Salerno and Normandy and the sands of Okinawa

. . . on the bare, bleak hills called Pork Chop and Old Baldy and Heartbreak Ridge.

A million and more of my countrymen have died for freedom.

My country is their eternal monument.

They live on in the laughter of a small boy as he watches a circus clown's antics

. . . and in the sweet delicious coldness of the first bite of peppermint ice cream on the Fourth of July

. . . in the little tenseness of a baseball crowd as the umpire calls "Batter up!"

. . . and in the high school band's rendition of "Stars and Stripes Forever" in the Memorial Day parade

. . . in the clear, sharp ring of a school bell on a fall morning

. . . and in the triumph of a six-year-old as he reads aloud for the first time.

They live on in the eyes of an Ohio farmer surveying his acres of corn and potatoes and pasture

. . . and in the brilliant gold of hundreds of acres of wheat stretching across the flat miles of Kansas

. . . in the milling of cattle in the stockyards of Chicago

. . . the precision of an assembly line in an automobile factory in Detroit

. . . and the perpetual red glow of the nocturnal skylines of Pittsburgh and Birmingham and Gary.

They live on in the voice of a young Jewish boy saying the sacred words from the Torah: "Hear O Israel: the Lord our God, the Lord is One. Thou shalt love the Lord thy God with all thy heart and with all thy soul and with all thy might."

. . . and in the voice of a Catholic girl praying: "Hail, Mary, full of grace, the Lord is with thee . . ."

. . . and in the voice of a Protestant boy singing: "A mighty Fortress is our God, A Bulwark never failing . . ."

Smitty was backing his car from the drive when he looked up to see his wife on the porch frantically waving her arms pointing to the rear of the car. With the disagreeable vision of changing a flat tire on that chilly morning, Smitty got out only to have his wife break into hysterics. . . . Agnes Jump related how she went to her daughter Colleen's bedroom in the morning, woke Colleen, and demanded to know what one of her boyfriends was doing parked in front of the house at that hour. Colleen took the bait and bounced out of bed to see for herself. Nobody was there, of course. . . . Iona Gray was the butt of the jokes in the payroll section. First she had her coat sleeves sewed up, and later was parading around with a touch of green on the tail of her coat. Maybe Iona was celebrating a belated St. Patrick's Day. . . . Quarterback—What some dads receive in return for educating the son. Reformer—A person who insists that his conscience be your guide. Tabloid—A screaming newspaper.

An American named Carl Sandburg wrote these words:

"I know a Jew fishcrier down on Maxwell Street with a voice like a north wind blowing over corn stubble in January.

He dangles herring before prospective customers evincing a joy identical with that of Pavlova dancing.

His face is that of a man terribly glad to be selling fish, terribly glad that God made fish, and customers to whom he may call his wares from a pushcart."

There is a voice in the soul of every human being that cries out to be free. America has answered that voice.

America has offered freedom and opportunity such as no land before her has ever known, to a Jew fishcrier down on Maxwell Street with the face of a man terribly glad to be selling fish.

She has given him the right to own his pushcart, to sell his herring on Maxwell Street,

. . . she has given him an education for his children, and a tremendous faith in the nation that has made these things his.

Multiply that fishcrier by 160,000,000—160,000,000 mechanics and farmers and housewives and coal miners and truck drivers and chemists and lawyers and plumbers and priests—all glad, terribly glad to be what they are, terribly glad to be free to work and eat and sleep and speak and love and pray and live as they desire, as they believe!

And those 160,000,000 Americans—those 160,000,000 free Americans—have more roast beef and mashed potatoes,

the yield of American labor and land;

. . . more automobiles and telephones,

. . . more safety razors and bathtubs,

. . . more Orlon sweaters and aureomycin, the fruits of American initiative and enterprise;

. . . more public schools and life insurance policies, the symbols of American security and faith in the future;

. . . more laughter and song—than any other people on earth!

This is my answer, Fascist, Communist! Show me a country greater than our country, show me a people more energetic, creative, progressive—

bigger-hearted and happier than our people, not until then will I consider your way of life. For I am an American, and I speak for democracy.

### Words by Walt

#### "SYMPTOMS, SIGNS AND SYMBOLS"

This morning on a crowded bus  
A high school girl, so sweet,  
Looked up at me, arose, and smiled,  
Then offered me her seat.

Just then the bus, I know not why,  
Quite suddenly was stopped,  
Affording me an alibi  
For having almost dropped.

I forced a smile and said, "My dear,  
That's very kind of you.  
But still, that wouldn't be for me,  
The manly thing to do."

But while extending her my thanks,  
Another not so sweet  
And more in keeping with the times,  
Slipped in and took her seat.

I could find in this a moral  
If I really cared to try  
But right now, I'm more concerned about  
This school girl's reason why.

I wonder just what prompted her  
To offer me her seat?  
Did I look like some old Grandpa,  
Rather shaky on my feet?

Did I seem a bit bedraggled?  
Did my countenance betray  
To this lass attending high school  
That I'd seen a better day?

Was I looking too intently  
For a seat on which to land?  
Did I show my disappointment  
When I found I had to stand?

Just how long, I have to wonder,  
Will it be before I meet  
Some youngster asking, "Grandpa,  
May I help you cross the street?"

Holy Smoke, this has me worried!  
Surely, I've not gone to pot.  
Even though I know some mornings  
That I may not look so hot.

I admit at times my trousers  
Get to bagging at the knees,  
And my shoes could use some polish,  
And I often puff and wheeze.

And my hair could stand some trimming,  
And no doubt I ought to try,  
When I eat, to keep those grease spots  
And the gray off my tie.

But I'm not the slightest feeble,  
Nor unsteady on my feet.  
So I wonder what's behind  
This school girl offering me her seat?

Guess I'd better see my barber;  
Think I'll have my trousers pressed;  
Buy myself a couple of neckties,  
And try looking better dressed;

Wear my hat a little tilted,  
Get myself a knitted vest,  
Shine my shoes, and then by golly,  
Give this girl another test.

If she smiles at me and blushes  
With that sort of dreamy look,  
And then doesn't offer me her seat,  
I'll know I'm off the hook.

But if when she looks at me,  
She has that sympathetic eye,  
Then I'll know, at least, the reason  
Wasn't gravy on my tie.

—W. L. Whonsetter.

# Squares Stage Little Theatre Night Tomorrow

## Henry J. Paulsen, 87 Dies at Home Sunday

Henry J. Paulsen, 87, died Sunday, April 4, at his home, 1024 Wilt St., after a brief illness. Services were conducted Wednesday, April 7, at the Klaehn Funeral Home. The Rev. Fred Heidbrink officiated. Burial was in Concordia Cemetery.

In 1916 Mr. Paulsen joined General Electric and was a carpenter until he retired August 14, 1936, from the General Service Section.

Survivors include three sons, Ralph, Herbert, and Ernest; a brother, August; four grandchildren, and two great-grandchildren.

## Rites Held Saturday For Q-C Club Member

Services for Lillian L. Droegemeyer, 72, were conducted Saturday, April 3, at Klaehn's Funeral Home by the Rev. Fred Heidbrink. Burial was in Concordia Cemetery. Miss Droegemeyer died Wednesday, March 31, at St. Joseph's Hospital.

A Quarter Century Club member, Miss Droegemeyer joined General Electric in 1903 and was a coil winder at that time. Later she worked on placing armatures and was placing leads in Bldg. 4-5 prior to her retirement in September, 1938.

Survivors include a brother, Henry, and two sisters, Miss Clara and Miss Gertrude, all of Fort Wayne.

## 100 College Juniors to Share \$50,000 in GE Scholarship

One hundred college juniors are going to share this year in \$50,000 worth of General Electric Company scholarships. According to Kenneth G. Patrick, GE manager of educational relations, this is the second consecutive year the company has granted 100 scholarships of \$500 each to outstanding college juniors to assist them to complete their senior years.

The scholarships will be awarded to students in various engineering fields, business administration, marketing, manufacturing, employee relations and public relations.

Sixty-nine of the scholarship winners will be selected from all sections of the country by the General Electric Professors' Conference Association. The association was formed by a group of college engineering professors who have participated in summer programs conducted by GE over more than three decades.

The association, representing more than 100 colleges and universities throughout the United States, is divided into 14 geographical divisions, each of which pass upon applications for the GE technical scholarships and select the winners.

Other committees of educators will co-operate with college administrators in selecting the recipients

## Philip Miholich Joins Hermetic As Advanced Planning Specialist

Philip Miholich has been appointed advanced planning specialist in the Hermetic Motor Department, A. LeRoy Rediger, manufacturing engineer, announced this week.

After joining the Bridgeport Plant in 1934, Mr. Miholich entered the Apprentice School in that location in 1935. He graduated from the machinist-toolmaker course in 1939 and went into tool designing.

In 1940 Mr. Miholich joined the U. S. Air Corps. He served in Africa and the European Theater prior to being discharged in 1946. At that time he went to the Oakland Plant where he worked in the planning section on the San Jose Plant.

Philip Miholich

After moving to the San Jose Plant in 1948, Mr. Miholich became a foreman in the machine shop and later had this position in a punch press section, assembly, and tool room. He was a supervisor in production prior to coming to Fort Wayne and his present appointment.

Mr. Miholich was a member of the Supervisors and Technical Association at San Jose and an advisor in the Junior Achievement organization there.

## Color TV List Price \$1,000, GE Announces

A list price of \$1000 for its open face console color television receiver (Model 15CL100) has been announced to its distributors by the General Electric Company, according to J. F. Effinger, color TV sales manager here.

### Service Contracts

The list price includes a 90 day use warranty on the picture tube and parts, Mr. Effinger said. An additional charge of \$25 is expected for installation and adjustment of the receiver in the home. Cost of additional antenna when necessary would not be included in this charge, he said.

Mr. Effinger also announced that two service contracts will be available to the GE color television purchaser. One of these, he said, is expected to cost about \$100 and would include installation and adjustment of the set in the home, unlimited service calls for 90 days,

LOSSES HER HEAD—Comedy star Joan Davis hasn't exactly lost her head—that is, not literally. But it does happen figuratively on the comedy telecast "I Married Joan," on WKJG-TV, Wednesday, April 14, when a "get rich quick" promoter gets Joan involved in a plan to make easy money through South American investments.

Tomorrow evening GE Squares Club members and their guests will gather at the Squares Hall for their annual Little Theater Night. Beginning at 8:30 p.m., the program will feature mixed acts presented by members from various areas in the Fort Wayne plants.

## New Apprentice School Graduate

Richard H. Reinking

Richard H. Reinking was graduated from the Apprentice School machinist-toolmaker course today.

After graduation from Concordia High School in 1946, Mr. Reinking came to General Electric and was a punch press operator in Section 113, Taylor St. He entered the Apprentice School in August, 1948.

In January, 1951, Mr. Reinking went into the U. S. Army Medical Corps. He received special training in the Medical Field Service School and served in the Army Hospital in Tokyo, Japan. After receiving his discharge in January, 1953, he returned to GE to complete his training.

and a one year warranty on picture tube and parts. The second contract available, according to Mr. Effinger, is expected to cost about \$150 and would provide the same service and warranty as the first with the addition of unlimited service calls during the year.

The GE color television sales manager said the company has been shipping limited quantities of its color sets to those areas of the country where network color broadcasts are being received or where color service will shortly be available. These sets, he said, have been shipped to about 15 distributors for demonstration, service education and sales purposes.

The club's Nobel Trophy will be presented to the group with the best skit and Oscanettes will be awarded the best actor and actress. A panel of judges will make the awards.

Howard Brust, Bldg. 31-2, is serving as general chairman of the meeting. Refreshments will be served.

The six groups presenting skits are composed of members in the following areas: Small Integral Motor, the three fractional horsepower motor departments, DC Motor and Generator, Specialty Transformer, laboratory and plant engineering, and test engineers.

### Wives to Meet

Tuesday, April 13, members of the Squares Wives Club will conduct their regular monthly meeting at the Squares Hall. The session will begin at 8 p.m.

Theodore Sizer of the Civic Theater will be the guest speaker. Bridge and canasta will be played following the program. Mrs. Daniel Antrim is chairman of the meeting. Test Engineer wives in charge of arrangements in addition to the chairman are: Mrs. David Blake, Mrs. Donald Koestler, Mrs. Arthur Pehrson, Mrs. Robert Farmer, Mrs. Ray Guidos, Mrs. Ralph Hodgins, Mrs. Donald Wood, and Mrs. Robert Zigler.

## Store Prices Reflect New Excise Tax Cuts

The recently announced cut in manufacturers excise tax will be reflected in Employee Store prices, Ray L. Fischbach, store manager, announced this week.

The manufacturers excise tax on items sold in the Employee Store has been cut in half on some items. This cut will be passed on to the consumer in lower prices, Mr. Fischbach stated. Reductions on items vary from 1 cent on light bulbs to approximately \$1.50 on certain models of fans.

Certain models of clocks sold at the Employee Store have a retail excise tax that has been cut also and this reduction will be passed on to consumers.

(Continued from Page 1)

society; Supervisors Club; GE Squares, and the Fort Wayne Engineers Club.

Mr. and Mrs. Staley reside at 3404 Portage Ave.

### Started at Bridgeport

Mr. Wightman came to the company in 1937 and entered the Test Engineers Program at Bridgeport. Later he became a member of the Sales Training Course and transferred to Schenectady. He completed his test assignments while at Schenectady.

In 1939 Mr. Wightman came to Fort Wayne and finished work in

the Sales Training Course in the FHP commercial section. He became a sales engineer later and in 1940 went into the FHP engineering section. At that time he was a floor engineer on the 10-20-30 frame line.

After going into development engineering in 1941, Mr. Wightman later joined the Development Section in the mechanical development group. In 1944 he became a group leader and had this position in Specialty Component Motor prior to his present appointment.

Graduating from the University of Kansas in 1937, Mr. Wightman received his BSME degree. He is a member of the Fort Wayne En-

gineers Club, NSPE, Supervisors Club, GE Squares Club, and FWAGEE. He is an advisor in the Junior Achievement organization sponsored by Specialty Component Motor Department.

The Wightmans and their two children live at 340 W. Woodland Ave.

## 17-3 NEWSIES

by Wilhelmina Beeth

A big hand for the GE Club committee. Everyone seems to enjoy the "Spring Revue." . . . In the spring a woman's fancy lightly turns toward a new car. Leona Hollis has a new Chevy. Louise

Lewis has a new Studebaker. . . . We bid farewell to Viola Bearman and Hassie Byrge. Both will be busy with tiny garment-making. . . . Congratulations to Ethel Keller's son on his fine performance on the "Stars of Tomorrow" program last Thursday night. . . . We were very glad to see our former co-workers: Helen Schiffli, Nellie Bellamy, Iley Souder, and Ina Smith. They attended the farewell dinner for Kate Weigele. . . . Elsie Clemm and Naomi Robinson visited us last week. Naomi also attended the dinner for Kate. . . . Mildred Hartnett, former co-worker and daughter of Margaret Stuck, attended the farewell dinner for her mother last Wednesday. . . . Last Thursday a farewell din-

ner was given for Ralph Armeys, Turkey and all the trimmings were enjoyed. Ralph will be in Bldg. 18. We wish you the best of luck in your new job. . . . Marilyn Holcher also has left us to go to Winter Street. . . . It's a happy birthday to Rose Fuhrman. She is spending the week-end in Chicago. . . . Ronnie Affholder decided to help his mother with her house work. He put so much energy in his work, he broke the mop handle. . . . Bertha Furge and Hazel Cox are on the sick list. . . . We extend our sincere sympathy to Lucille Chapman on the loss of her grandmother.

A good wife laughs at her husband's jokes, not because they are clever, but because she is.

## GE Uses "Electronic Handshake" To Break Ground for New Plant

An "electronic handshake" was used March 29 to break ground at Waynesboro, Va., for a new General Electric Company plant which will manufacture electronic controls for industrial and aviation use.

The unusual handclasp completed an electrical circuit between H. A. Brower, mayor of Waynesboro, and Dr. L. T. Rader, general manager of the GE Specialty Control Department, each of whom held a "live" wire in his left hand. The weak electric current that passed through the human circuit was amplified by a resistance-sensitive relay (a device which will be produced at the new plant) thus activating the ground-breaking shovel.

The new factory, according to Dr. Rader, is being built "in anticipation of projected heavy demands for such equipment as electronic drives, adjustable speed drives, speed regulators, aircraft and regulating equipment, and similar devices."

Expected to be in full operation some time next year, it will employ about 550 people. Facilities on the 70-acre site will include a large manufacturing area, warehouse, laboratory, personnel facilities, and modern offices.

Following the ground breaking ceremonies, more than 100 people attended a luncheon at the Hotel General Wayne. Vice-Mayor Paul Freed was the keynote speaker. Others on the program included W. R. Perry, executive secretary of the Waynesboro Chamber of Commerce; Louis Spilman, president and editor of the NEWS-VIRGINIAN; and Dr. Rader.

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Bob Huhn is in the parakeet business. He has seven parakeets now. Three are his own and he is rooming and boarding four others. . . . Mabel Shinn was hostess to the following girls: Thelma Dammer, Coy Weber, Blanche Lattimore, Wilma Robinson, Mae Dial, Adele Weitfeldt, Ruth Gunn, and Edna Parker. The occasion was a surprise birthday party for Rebecca Fogwell last Tuesday. Rebecca received many gifts and all of the girls had a wonderful time. . . . We are glad to hear Margaret Turney is recovering nicely from her operation. . . . The famous Golden Gate quartet of radio, concert, and television is appearing Easter Sunday afternoon, April 18, at the North Side High School Auditorium. You may secure your tickets from Press Chaney. There is sure to be a wonderful program. . . . Marjorie Reed, a former 51 frame employee, is in the hospital. We wish her a speedy recovery. . . . Tracey Bartle was listening to TV and someone said, "Drop it," so Tracey dropped the pan she was holding. . . . We surely hate to see some of our co-workers leave us. We are hoping they will be back soon, and we can be working together again.

## 6-4 AIRLINERS

by Moe Satterthwaite

Roxie Murray entertained Donna Hahn and husband last Saturday night. Donna says Roxie has a recipe for making fruit and meat pie that is out of this world. . . . Barb Smith measured the windows in her new apartment and they are 18 ft. long. Measure again, Barb, as the room is only 15 ft. long. . . . Ann Purdy tripped on her housecoat, fell down the steps, and cracked three ribs. . . . Lu McCague had her hair restyled and was so self-conscious of it she walked 15 blocks home instead of riding the bus. . . . Rosemary Diem is very proud of her 12-year-old niece. She plays the accordion on an Ohio radio station. . . . Congratulations to Ralph Weikart. His son won the spelling contest in the Leo school. It cost Ralph \$2. . . . Lillian Schaffer's daughter pulled a trick on her last week. After Lillian had fixed her lunch, her daughter switched eggs. It was quite a mess when she cracked the egg at lunch time. . . . Charlie Dockery and Russ Bowdy are leaving us this week to work in Bldg. 17. . . . Freddie Sarriren saw some mail order TV antennas advertised so he sent for one. For some new words contact Freddie. What could he expect for \$2.98? . . . Bob Pence, we hear, is doing some false advertising. He can't tell the difference between a one-fourth and one-half horsepower motor. . . . Bill Curtis was late getting home the other night. He had trouble finding the sleeves in his coat. The coat wasn't Frank Lahrs', Bill. . . . Ivy M. and Millie K. decided to join the ranks of the gals with the short bobs. To express our sentiments—h-m-m. . . . It just doesn't seem the same around here since Glen Archibald left. Deloris S. has to open the windows herself now. . . . Happy birthday to Leonard Kinsley, Walter Starke, Marie Johnson, Tony Mandra, Dorothy Webber, and Lou McCague. . . . The boys in Repair and Return, namely, Elmer Koehlinger, Ralph George, and Arlo Hawk, have surely been quiet since they had their code changed.

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

April 1 is past and the biggest laugh came when Melvin Bill prepared to eat a hard-boiled egg. There must have been a switch as the egg he broke had never been boiled! . . . Although not in any trouble, Pat Thrasher called a number given her and found it was a direct line to the sheriff. . . . Birthday greetings go to Roy May on the 20th of April. . . . If you were a member of Joe Taylor's fan club you would have received a copy of "The Cowboy Auctioneer" and would have seen a picture of Virgil Howell. That is only part of it, as he had it taken with none other than Jack Dempsey when they appeared at Buck Lake Ranch last summer on the same card as referees. . . . The next time Art Ackerman gets new drapes for the house he will have Mrs. Ackerman do the measuring. The first time Art did the ordering and they were three feet short, due to his calling a measurement three feet instead of six. . . . Be sure to abide by the law when traveling through Zanesville. Robert Johnson is both the mayor and town marshal, and an honest one at that, as he turned down the treasurer's job! . . . Did you hear the dedication for Merle Armstrong's wedding anniversary on the Joe Taylor Show?

## Vernon R. Castle Appointed Supervisor of Manufacturing

Vernon R. Castle has been appointed supervisor of manufacturing in the Hermetic Motor Department, George B. Howell, manager of the Fort Wayne Operations, announced this week.

In 1916 Mr. Castle became a GE employee and went to work in fractional horsepower motor assembly in Bldg. 17-4. Later he became an inspector and worked on special production assignments. In 1919 he was made a leading operator in Bldg. 4-5 in winding and finishing. During this period he worked on the first samples of hermetically sealed motors.

After moving to Bldg. 26-4 in 1920, Mr. Castle became an assistant foreman in winding and finishing of rotors and stators. He was appointed a foreman the following year in the same location and later was named foreman in the Hermetic Motor section, Bldg. 17-2.

In 1929 Mr. Castle became the general foreman in charge of Hermetic Motor manufacturing. He had this position prior to his present appointment.

In 1922 Mr. Castle completed a two-year GE electrical test course and a course in practical manufacturing and engineering with International Correspondence School.

Vernon R. Castle

He is a member of the Foremen's Association.

Mr. and Mrs. Castle have three children and three grandchildren. One daughter, Ruthie, is a student at St. Francis College. The Castles reside at 4234 Arlington Ave.

## 2-2 TALES

by Belle Buchan

No, that wasn't a birthmark on Vern Castle's forehead. It was lipstick put there by the tall lady at the GE show. It is a good thing that Vern had his family with him, or the midget with the ball bat would have pulverized him. . . . If Pat Overmeyer was going around in a daze this week, it was because her husband got home from overseas. She is going to Texas with him for about a year.

. . . Ethel Perry is making believe that it is spring by doing her spring cleaning. . . . It's good-by to Del Deiderich, who is going to be connected with the new Holland plant group. . . . We are so sorry to be late in extending our sympathies to Nancy Weinley, whose mother passed away two weeks ago. We also extend sympathies to Mrs. Vic Cartwright, who lost her father last week. . . . The dark-haired fellow walking around in his sleep the other day was Max Decker. Max is now working on the first shift after several years on second shift.

35 YEARS AT GE—Marion M. Sprague (left) recently totaled 35 years with the General Electric Company. On hand for the occasion were (l-r) Robert Hunt, Carl Hattendorf, and Charles Stuckey. Mr. Sprague joined GE in 1918 as a stacker. He is now a milling machine operator in Bldg. 17-4.

GENERAL  ELECTRIC

# Training Tomorrow's Leaders

ORIENTATION for the new engineer entering the Engineering Program at Fort Wayne includes learning company organization structure as pointed out to Don Stone, Jr., right, by Don Reek, technical program representative, Bldg. 16-3.

COMMERCIAL assignment for Joe Hartwell, left, places him in the Specialty Component Motor sales section, Bldg. 4-6. He works with Homer E. Porte, right, who has previously completed the Engineering Program.

ASSIGNED to production engineering at Taylor St., Len Staskelunas, left, receives on-the-job training as he works with Ira Runyan, right, Section 113, Taylor St.

Training tomorrow's leaders today is a 60-year-old practice at General Electric. It is one that has paid dividends by proving to be a sound investment in the company's future in a highly competitive field.

In addition to investing in laboratory facilities, buildings, and equipment, GE gives assurance of its position in industry by training top-notch college graduates in on-the-job programs.

Today the company offers 10 such programs. Of the 10, which are listed on this page, all but the Atomic Test Program bring trainees to Fort Wayne on assignments.

Representative of these is the Engineering Program, which is designed to acquaint engineers with the company's policies, products, and people.

Formerly known as Test, the Engineering Program consists of a series of 13-week assignments for the engineer during a 12 to 15 month period. His assignments take him to various plants within the company thus acquainting him with different operations. On each assignment, he learns while performing a job. In Fort Wayne, he can receive training in engineering, manufacturing, testing, and commercial sections.

While on the program here, some trainees participate in classroom studies which include courses in Creative Engineering, Applications, Economics, and Materials and Processes.

When he completes his training period, the engineer has a practical idea of the company for which he works and is able to fit himself into the job that is most suitable to his abilities and preferences.

<b>The Engineering Program</b>	<b>Marketing Training Program</b>
<b>Manufacturing Training Program</b>	<b>Apparatus Sales Engineering Program</b>
<b>Chemical and Metallurgical Program</b>	<b>Business Training Course</b>
<b>Atomic "Test" Program</b>	<b>The Physics Program</b>
<b>Advertising Training Course</b>	<b>Employee and Plant Community Relations</b>

The past 60 years during which such programs have been conducted have proved their worth by yielding ing advancements in scientific knowledge and producing many leaders within the company.

ON TESTING assignments, Arthur Pehrson, Juan Feuerman, and Jerry Graff are located at the Winter St. Plant, where they are shown taking a speed-torque curve on a small integral motor. Juan is with International General Electric.

## WINTER STREET JOTTINGS

by Marjorie Hill

The Welcome Mat is out this week for: Mary Berghoff in Acctg., a transfer from Fairfield; Wayne Hardy, a transfer from Bloomfield; and Justus Parrish in Quality Control. Also we're welcoming to Winter Street the following transfers: Mildred Barrand, Marilyn Holocher, Robert Donahue, Richard Polston, Paul Zuercher, Geraldine Trautman, William Arps, Junior Coulter, Charles Ervin, and Harold Baker. We're also welcoming Ed Disborough, the Marketing trainee who is going to be with us for a few months.

We're happy to see Caroline Pressler back on the job after being off with the mumps. . . . What did we say about the Indian loose in the Purchasing Section? Well it looks like we spoke too soon: We have one with the initials Joe Raupfer running around out in the Tool Room now.

In the pouring-down rain the other day who should leave their parking lights on but Duane Leeka. I could think of a much better idea to get outside for a while, Duane.

If the people in the cafeteria are missing maybe a salt or pepper shaker please inquire at Betty Gentile's desk. I guess that's not as bad as walking out with the mustard or catsup as a lot of our people did when the cafeteria first opened.

What would you say or do if you received a long distance telephone call some night telling you that your son had just received a National Fellowship Scholarship in astronomy? Also of which there are only nine people in the United States who were awarded this same fellowship? Well, that's what happened to Henry Mutschleener one night last week. This fellowship will allow his son, Paul, (who already has his Master's Degree) to go on to a Doctor's Degree, studying anywhere he chooses. It was awarded to him from the Fellowship National Scientific Foundation Association. We understand that Henry is quite interested himself in astronomy. We know you must be very proud of your son, Henry, and we feel sure that everyone is wishing him a lot of success.

This week we're lighting another candle on the cake and wishing a belated birthday to Russell Davis, Mary Heindselman, Raymond Hoffman, Harry Smith, John Leininger, and Marjorie Augenbaugh. Happy birthday in the next week for Gerry Coyne, Loring Gotschall, and Carl Jenkins.

Are our faces red! We find ourselves at the bottom of the heap, percentage wise, in the number of our folks who have signed up to be blood donors. Only nine per cent have filled out cards signifying their willingness to donate for a very worthy cause. While our quota is in supplying even this small number. Only 43 employees of the SIM in supplying even this small number. Only 43 employees of the STM Dept. have volunteered to give to the Red Cross Blood Donor Program. The need is still great, both at hospitals at home and for wounded servicemen in hospitals here and abroad. Blood which is donated to the Red Cross is given without charge to those in need, blood for emergencies, surgery, accidents, and many other cases where nothing can be substituted for human blood if a life is to be saved. If you would like to have more information on the Blood Donor Program or to fill out a card at this time, contact Alma Elliott, Ext. 296.

**GIFTS AND GOOD-BYS**—Walter Blomberg receives congratulations on his retirement from Bob Olsen, while a group of his friends look on. Left to right are Frank Gamee, George Chandler, Marlow Shepherd, Emmett Mills, and Bill Schultz. Mr. Blomberg had been with GE since 1915, when he came to the company as a clerk in Bldg. 17-3. He was employed in Bldg. 4-3 prior to retirement.

## THISA & THATA

BLDG. 4-3 and 4

by Helen Engle

We wonder what Carl Kinsey saw at the Sport Show. He didn't see the same show the other people saw. . . . Marie Griffin, don't you know you are supposed to take the tag off your coat before you go to church? . . . Someone sent Peggy Bahde a picture of America's latest pin-up boy, Liberace, all wrapped up in fancy paper. That someone turned out to be her husband. . . . After paying her bills on payday Fern Painter ended up the next morning with \$1.50 she can't account for. She thought she was broke. Maybe some little elf left it in her purse during the night. . . . For a minute Mardo Tobias really though Freda Farley had something wrong with her finger. April Fool, Mardo. . . . Ed Taylor and Carl Kinsey made a bet on the fight Friday night. Ed bet Carl the fight wouldn't be on radio, just television. Who won, Ed? I guess we'll get free Cokes the way it turned out. . . . Did you know that George Chandler was in one of the acts of the Spring Review at the GE Club Saturday. He was one of the notes in the Bells of St. Mary's. . . . According to a letter from Louie and Clara Clark they say they came through the cold Michigan weather with flying colors and that Louie has just finished the remodeling. . . . Mary Harvey's birthday is really April 20. . . . Don Mason is among the new TV owners. It's too bad his turtle died or it could have enjoyed TV just like John Figley's toad does. . . . Maggie Bopp thanks all for the lovely party and sunshine gifts she received. We know you'll come through your operation with flying colors, Maggie. . . . Congratulations to Lloyd Jacobs on his 35 years with the company. . . . Wonder why John Figley is so afraid he might get thrown in jail? . . . We extend our sympathy to Heiny Kammer in the death of his brother. . . . Marcella Schwartz Winicker says thanks for her lovely wedding gifts. . . . Fern Hollowell is losing sleep these nights since she has a new TV set. . . . That picture that Warren Jackson has showing him and Ralph Gilbert out here in the GE park is really something. Back in 1917 when the picture was taken they were called "gay young blades." . . . Guss Rutz can catch fish without going to the lake. He got a trout at the Sportsman Show last week. . . . Chick Kortum is getting ready for hard times. He is getting his tongue toughened up for a pipe and the roll-your-own tobacco.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

It is good to see Francis Miller back on the job after an illness. Clint Sorenson also returned to work. . . . Joan Baker, a former employee, paid us a visit last Thursday. . . . We received a card from Helena Nelson, who is vacationing in Florida, and she is having a wonderful time. . . . We wish to welcome Bill Swift, the new mail boy. . . . Louie Gigli, a recent accident victim, is recovering and we hope to see him soon. . . . Wesley Grover is the proud owner of a new Chrysler convertible. . . . Our deepest sympathy goes to Peggy Ford and to Eleanora Blake. Both girls lost their mothers this week.

**35-YEAR MAN**—Harley DeWitt (left) talks over his 35 years with General Electric with William Rohe and Jack Heiniger. Mr. DeWitt celebrated his anniversary March 18. He was a machine operator in Bldg. 8-2 when he first came to GE. He is now employed in the Wire Mill at Taylor St.

## RACONTEUR

SECTION 114 TAYLOR ST.

by Luana Oehlhaufen

Louise Lambole has a new TV set. Welcome to the clan of sleepy people, Louise. . . . Welcome to Section 114, Gene Mittermaier. We are a bit late, but we mean it, Gene. By the way, has anyone noticed how much Gene looks like Eddie Fisher? . . . We hear Earl Greenlee is trying to make a deal for one of those famous Oyer-Niemeyer television antennas. We hear the manufacturers drive a pretty hard bargain. Isn't that right, Earl? . . . Mary Malay got a new TV set, and she says she simply can't get her work done. . . . What happened to that 17-room house and all those oil wells Ed Hines was always talking about? You don't have a new girl, do you, Ed? . . . Ife Holmes really has the TV bug. It seems he stays up so late that he just can't seem to make it to work on time. . . . Lowell Arnold has had TV for three weeks. He says he would have bought it sooner if he had known the reception was so good. . . . Did you dig that crazy tie Ray Brown was wearing April 1? It was real gone, man, real gone. . . . Ife Holmes, Lowell Arnold, and Ray Brown have each admitted to being a "goose." . . . Happy birthday to Violet Myers, Willadean Rathert, Hugh Neely, Carl Kloepper, Glen McNamara, Ewald Stinsmuehlen, Dorelyn Forde, Russell Frey, and Louis Shattuck. . . . If you ever get to Boston, be sure to stop in at Durgin Park. We hear the food is out of this world. . . . Ted Childs will be through playing the Good Samaritan for a while at least. Helping a friend cost him a cracked rib and a few days away from his work. . . . Bob Till will enter his name as a candidate on the advisory committee in the primaries in Washington Township this spring. Good luck, Bob. . . . Wilda Gibson and Wilda Miller quit their jobs this week. They are both in-

fanticipating. . . . That sleepy look that Section 114 tool room has acquired is not a contagious disease. It is caused from too much television. Kitch says he is the only one who isn't sleepy. We wonder why he is late for work in the morning. . . . Don Sterling was voted "The fisherman most likely to succeed." Bill Lavine visited the drug store last night to buy his annual dose of sulphur and molasses. . . . Just imagine: Bill Lavine driving a Packard, Si Als-paugh driving a Chevy, Herb Tons driving anything but a Kaiser, Gene Bair without his horse, Red Dillon with black hair, Buck Sessler without a smile, Kitchen getting skunked again, Carl Fuller with a Farmall, Duke Doepke missing a week-end at Dayton, Charlie Hazen with a green hat, or Paul Hitzeman bowling 300. . . . Congratulations to Lowell Arnold who will have been with us for 25 years on April 8. . . . We wish a speedy recovery to Walter Holloway who has been off because of illness. . . . We still want to know how Carl Reynolds got his hand burned. . . . A. A. Ralston was seen passing around a box of candy (?) on April Fool's Day.

## DECATURITES

by George Laurent

Birthday greetings to Josephine Ivetch, who celebrated her birthday last week. Jo treated the gang with home-made cookies. . . . No fooling, Eloise Noll and True Gephart celebrated their birthdays April 1. Greetings to both. . . . Dort Schnepf was disillusioned the other morning when she opened a package of T bones. She thought there were four one-inch steaks and found two two-inch steaks. How lucky can you get? . . . Junior Hoffman joined the many Hollywood celebs; he also won an Oscar. . . . Dwight Little has offered his services as an apron tie man. . . . It was a beautiful tie, Mickey. . . . Proposals of marriage are all beautiful, Joan.

# GE Major Wins "Y" League Volleyball Title

by Art Rasor

WIN "Y" LEAGUE CROWN—Shown is the GE major volleyball team which won the YMCA league title for the 1953-54 season. Kneeling (l-r) are Glenn Straight and Robert Baals; (standing l-r) are Art Rasor, manager, Dick Wagner, captain, Charlie Shipman, Mel Kestner, and Warren Sloan. Dick Gebert was not present when the picture was taken.

With a record of 39 wins and 9 losses, the GE major volleyball team won the YMCA league title for the 1953-54 season. Inca was second with 24 wins; "Y" Throwers third with 20 wins; "Y" Lifters fourth with 7 wins, and Indiana Tech fifth with 3 wins.

With combinations of Glenn Staight setting for Charlie Shipman and Mel Kestner setting for Dick Wagner, GE repeatedly drove the ball for points as the Majors lost games on only four of the 16 nights of play.

Three members, Dick Wagner, Charlie Shipman, and Art Rasor, along with John McClure and Dick Hansen from the "Y" Throwers and Joe Elmer from Inca, were chosen on the "Y" All-Star team. Dick Wagner and Art Rasor also competed in YMCA tournaments at South Bend and Toledo and in the State YMCA tournament at Anderson.

### Men's Factory League

S. Jackson's 247 was the big gun in the third place Flanges' two wins over first place Office. Bill Porter rolled a 213 for the Office. Fourth place Rotors helped to tighten up the race by taking two from the second place staters. C. Schultz's 228 and P. Briede's 204 helped the Staters salvage one game.

### GE Fraternal

W. Petrie's 617 (223-212-172) led second place West End Restaurant to two wins over sixth place Monroeville. Third place Teeple Truck Lines kept pace with two wins over eighth place GE Club. G. Laurent with 614 (188-215-211) was the pace setter for the winning truckers. Fourth place Peterson Elevator took two from seventh place K. of C. mainly on the strength of G. Baumgartner's 608 (224-180-204). Riverview Gardens, the leaders, refused to give any ground by winning two from fifth place Elks. Other 200 scores were: L. Ulman, 202; A. Buuck, 203; S. Jackson, 204; C. McIntosh, 210; P. Briede, 210-208; A. Zelt, 236; C. Crates, 216; R. Mutschler, 215; and C. Oetting, 202.

### GE Women's League

Third place Office took two games from first place Last Frames. Second place Hi-Spots had to settle for 2½ points when the last place Spares rallied to tie the last game. High scores were: Plasterer, 185; Engle, 161; Myers, 161; and G. Reynolds, 160-162.

### Apparatus

Team No. 5 lost two to Team No. 7, but is still leading the league with 21 wins and 12 losses. Team No. 11 blasted Team No. 3 into the cellar with 3 straight wins, gaining second place with a 19½ win, 13½ loss, record. Just one-half game behind and holding down third place is Team No. 7 with 19 wins and 14 losses. 200 counts were rolled by Charlie Townsend, 205; Bob Dicke, 206; Ford Burnau, 205; Tom Anderson, 234; Bob (sore thumb) Blomker, 224; and Joe (Keghead) Kramer, 221. Oscar Huge, 77-year-old veteran GE bowler converted the 6-7-10 and the 4-7-10 split and Jus Heaston picked up the 6-7-8-10 or "Picket Fence" split.

### Interdivision

Paul Perry was high man last Wednesday in the Interdivision

## Horseshoe League Meets Saturday

The initial meeting to organize a GE Club horseshoe league will be conducted tomorrow at Swinney Park, Erv Huth, chairman of athletics, reported this week.

All employees interested in playing horseshoes are invited to attend the meeting, which will begin at 1:30 p.m., Huth stated. Those who have already signed up for the league should be present also, he said.

Plans for the day, time, and place of play will be discussed.

## APPRENTICE BROADCAST

by Dave Jones

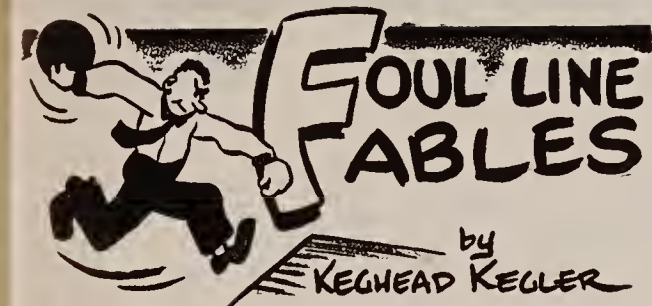

The Apprentice Alumni Assn. made a tour of the Monarch Lathe Co. in Sidney, Ohio recently, and very considerably permitted the apprentice hoys to accompany them. I'm sure that everyone that made the trip enjoyed themselves, and found it very beneficial. Three buses were chartered to accommodate the group on the 160 mile trip. Don Bohner, Bob Taylor, and Jack Olinske played euchre in the back seat of our bus. Light was provided by a pen light suspended from the baggage rack. After the tour of the plant, coffee (must be money in lathe manufacturing) and doughnuts were served before starting our trip home. You may check with Ben Conner and Don Batchelder on the quality of the doughnuts. In fact, Batch may still be eating them for breakfast. . . . When it comes to taking orders, you can rest assured that Woody Trostel will obey them. At least that is what Myron Auer will tell you. It seems that Myron asked Woody to tidy up the area around the gear section. When Pete Zook, Dick Wagner, John Becker, and Myron gathered for their noon hour card game, it was discovered the piece of Masonite used for a table top was gone. I overheard a couple boys talking and laughing about a piece of Masonite hidden in the heat treat section. You might check on that.

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

Did you like the Spring Revue? You did? So did I. I think the GE Club should be commended on the fine shows they put on. I liked that big tall babe in the next to the last act. She reminded me of an old gal friend of mine. . . . We wish to welcome Patricio Aberilla, our new inspector, and hope he enjoys working with us. . . . We all miss Mildred Messer, our office steno, who is on the sick list. Hurry up and get well. . . . Henry and Mildred Well's little boy, Gary, is in the hospital. Hurry up and

get well real fast, Gary, because the weather will soon be fine for playing outdoors. . . . Our sympathy to Al Kleinrichart on the death of his father. . . . Is Elkhart such a big town, Frank Mathews, that you got lost in it three times? Or did the fact that you were hauling the bowling team at one cent per mile have anything to do with it? Just kidding, Frank. . . . Officer Tieman is becoming streamlined since he has been on that diet, a second Charles Atlas if we ever saw one. . . . Well, I have to work on my budget now. I have to figure out how I can buy the little woman a new spring wardrobe. She was going to make her last year's outfit do, but she read in the paper that Liberace is coming to Fort Wayne, May 15.

In the Ladies' Monday night league Scatterpins won 3 games and took over the top spot with 28½ wins and 13½ losses. Holeyrollers slipped to second by dropping 1 game and now have won 28 and lost 14. Twisters won 3 and are in third with a 27 and 15 record. Dot Fuhs kegled a 191; Ester Muzzillo, 173; Bonnie Wolf, 175; Betty Hinton, 171; and Winnie Schuerich, 179. Margie Pasternak converted the 5-7 split.

### Transformer

Ohms are out in front by one-half game. Autos are second with 22½ wins and 10½ losses. Watts are tied with 16 wins and 17 losses. Bower kegled a 219. Furliners for the week were Koontz, 97, and Sweet, 98.

### Ladies' Tuesday Afternoon

Team No. 1 is out in front by 2 games with a 26½ and 12½ record. In second place is Team No. 6 with 24½ wins and 14½ losses. Team No. 3 with 24 wins and 15 losses is in third place. Mary Nute kegled a 186 and Mary Leiter, 180.

### Ladies' Friday Night

With a record of 24 wins and 12 losses Team No. 5 is out in front. Team No. 6 is just 2 games behind with a 22 and 14 record. In a tie for third place are Teams No. 3 and 8, each with 20½ wins

and 15½ losses. Winnie Scheurich kegled a series of 511 on games of 177, 165, and 169. Tommy Williams scored 176, 164, and 168 for a 508 series. Ann Lee put together games of 180, 159, and 161 for a 500 series. Francis Haggenjos scored a 187; Charlotte Stanford, 186; Liz Shearer, 195; Margie Parisot, 174; Delores Drewitt, 170; and Colleen Rogers, 180.

### Small Motor

Two Legs Clothes are out in front with 25 wins and 11 losses. Test and G-Men are tied for second place, each with records of 22½ wins and 13½ losses. Denton Drugs have won 19 and lost 17 for fourth place. C. Brandt scored a 217; E. Downie, 227; E. Bowser, 220; A. Johnson, 237; R. Seidel, 211; G. Ormsby, 220; L. Pinkerton, 208; R. Tholen, 212; and G. Haggenjos, Jr., 212. H. Conrad scored 212 and 204.

## TALES from TAYLOR SECTION 113 TAYLOR ST. by Harry Parker

This happens to be a story the likes of which we did not believe could happen in this day and age. We were well aware of the fact that such things did occur in the early years of the automobile, never suspecting that it was being practiced today. Here is the proof. Buck Kline drives a 1937 model; Howard Knight, a 1939; and Henry Bubb, a 1941. They tell us that each year after the first frost they jack up their cars, take out the batteries, then drain out the oil. There they repose until the tulips bloom. Shades of 1910. . . . Herb Saurer, while being a crow slayer of no mean ability, is also a fox hunter extraordinary. He and his assistants laid low 16 of these shrewd little animals during the past week-end. When asked what disposition was made of the hides he told us that he makes moccasins for his family out of them, using the tails as household decorations. . . . Organizations having been completed the Jim-Bo Bait Club has received its charter, the membership net, and elected officers for the ensuing year. The slate elected is as follows: George Breinfalk, president; Ed Schaefer, secretary; Lawrence Ankenbrick, keeper of the funds; Cecil Sible, chairman of the board of trustees; and Harry Parker, clerk of the session. Clarence Stove will keep all bait in repair while Ed Schaefer will handle all applications for membership. . . . Ray Heck, our Buckeye junk dealer, is now drawing up plans for a new home. It seems that his family has outgrown their present quarters, so a new one just has to be built. He plans on disposing of his Model T Ford collection to defray part of the cost. He has quite a number of those famous tin Lizzies dating from 1914 to 1925. No doubt but that he could dispose of his museum for a handsome sum.

## TRANSFORMER TATTLES BLDG. 26-4 by Dutch Norwalt

It looks like Freeman Inc. is expanding operations. Bargains in coffee are now daily expected. . . . Tom Freeman has lots of influence in certain quarters. Since losing his bed for noontime nap he has succeeded in having bunk beds installed in the repair section. Nice going, Tom. (Three bunks high, too). . . . Fay Russell says it's still cheaper to watch his neighbor's TV than to buy one. . . . Speculations and rumors are running high and wild as to whether Walt Pohler will try another cross-country vacation tour in his 1919 Dort speedster. . . . Dick Pierce and Earl Bartling are now hard put for entertainment at noon hour since the B. B. season is over and they have no pool tickets to sell. Rumors are about as to whatever became of the money. We can't seem to find any winners and only vague answers from the promoters. Is that the reason for the dark glasses, Dick? Guilty conscience? . . . Velma Johnson either has a lot on her mind or is getting absent-minded. It is reported that Velma hurriedly parked her car and went merrily on her way shopping. Time then flies by until Velma remembers there is a time limit on parking. Hurrying back to her car she finds a nice red parking ticket. The moral of this story is: Put a nickel in the meter, Velma. . . . It is reliably reported that

Art Brown and his Plymouth had to take a back seat to Ed Englert and his new Crosley in a race between stop lights. . . . Work is a little slow in the M&D Section, Bldg. 26-4, but at the present rate of progress Fay Russell can work at least until vacation or maybe all year on the (one) unit he has been on the past 30 days. . . . Your news forecaster was probing around for news when Al Topp's name was accidentally mentioned. "Well," said one of the boys, "Al does so little it's just hard to come up with anything." . . . Why is it Paul Peterson can't find time to drink his milk? Is it because he has to stand by the time clock and watch Al Topp? . . . The girls on cleaning table had a very nice potluck Friday noon for Mary Geist. . . . Nora Spencer had a birthday but Nora says, "Not a birthday, just a passing of time." . . . Thelma Kistler's son was operated on and is doing very nicely. He is in the Parkview Hospital. . . . Thelma Harmeyer is in the St. Joe Hospital. The girls say good luck, Thelma. . . . Another on the hospital and sick list is Alma Darnall's husband. He is doing fine. . . . Vacation time is for some people, but not for Dorcas Klinker's mother. It seems that she went on a vacation and came home three times to see that Dorcas had plenty to eat. . . . Marjorie Hiatt hopes her husband doesn't read this since she has already had a ticket. She drove uptown and was in the wrong lane of traffic when she ran out of gas. Think fast, Marjorie, your husband is a cop. . . . All the Permafil Section wish Nora Vanover a speedy recovery.

## SLEUTHING in 4-6 by Al Happel

**SPEEDY RECOVERY:** Cecil Harrod is recovering from an operation. Belated birthday greetings to him on April 5. . . . **HARVEY SPRINGER**, an apprentice, left us to go to Bldg. 19-5. He is replaced by Don Meyer. Glad to have you, Don. . . . **IT'S LATER THAN YOU THINK:** Hugh Stephenson became so interested in his work the other day that he forgot to go home for lunch until about 45 minutes later. Mrs. Stephenson had lunch ready at the regular time but since Hugh didn't show up until later, he got to eat a cold lunch. . . . **PAUL'S LOSS** was Jack's gain. Paul Motter lost a penny and all his friends were trying to help him find it but Jack Seigel

## THE BIG WIND SECTION 417 TAYLOR ST. by Rachel Mounsey

We want to wish Marilyn Davis a very speedy recovery. . . . We also extend our deepest sympathy to Elsie Dunfee in the loss of her grandson. . . . Nellie Wiggins and Myrtle Cramer have left us for third and second tricks temporarily. We hope to see you both back again real soon. . . . Joyce Shroyer and family are enjoying a vacation in Florida. . . . Jenny Mathias thought the cafeteria was giving out free meals the other day so she didn't wait for her ticket. . . . Laymond Huffman popped all of the buttons off of his shirt a week ago when he was presented with another grandson. . . . Since Woody Winters isn't working overtime anymore he has started another job, that of repairing old washing machines. Woody claims no matter how old they are he can fix them. . . . Kate O'Connor had the luck of the Irish. Her daughter wanted a watch for graduation so Kate took a chance and what do you think happened? That's right, Kate won it. . . . The Winter St. gang has real teamwork according to George Graue. One man starts in the group and before you know it the rest of the gang is there, too. George claims you just have to make a few phone calls and nature takes care of the rest. . . . Bob Boone has asked why we don't mention his horse anymore. Bob says business has dropped about 50 per cent since we quit giving him space.

was the lucky one. No, he did not find Paul's penny. Better than that he found a quarter and it had been waxed to the floor for sometime. No one knew who it belonged to so Jack was just lucky. Did you find your penny, Paul? . . . **THE COURT** will now come to order. Christ Flanigan has been chosen to serve on the jury so we had better watch our step. . . . **WE WISH** a speedy recovery to Shirley Doster. She underwent a serious operation last Thursday. We surely miss you, Shirley. Hope you will be back soon. . . . **WE BADE** Keith Waldo farewell last Friday. We wish you good luck, and we surely will miss you. . . . **HOWDEEDOO** to those three young draftsmen. They are Jack L. Baumgartner, W. M. Perry, and J. D. Croghan. We hope you will like it here, boys. . . . **HAPPY BIRTHDAY** to W. Anderson.

**30-YEAR LETTER**—Reading a letter of congratulations on his 30th anniversary with the company is Jacob Hoelle (second from right). With him are Martin F. Macke, Clarence Spencer, and Walter Leonard. Mr. Hoelle was a punch press operator in Bldg. 26-1, when he first came to GE. He is now employed in Bldg. 5.

## COUNT OFF SECTION 417 TAYLOR ST. by Ruby Stoops

Don Reinhard certainly keeps the stock room and his car supplied with beautiful calendars. . . . Paul Winters has rested a whole month, but still hasn't made up his mind to buy his own TV set. . . . Alberta Watt, everybody doesn't own an up-to-date car like yours, so please look when you are getting out of these older models. . . . We are wondering how some rate telephone numbers and others are limited to their initials on their "high pots" in repair section. . . . We extend our sympathy to Edna Sill, whose father passed away this past week. . . . Laura Gerber spent the week-end in South Bend, Ind., visiting her sister. . . . We welcome Levon Tucker in Ralph Keller's group. . . . Anyone unfortunate enough to hook bumpers should get the advice of "Superman" Eddie Baudt. He can unhook bumpers without even touching them. It is too bad that he can't use the same technique in getting out of a tight squeeze. He has been in a couple lately. . . . If you are wondering what the commotion in the aisle is each evening it is only Marguerite Stahl trying to find her clock card! . . . Eddie Baudt asked Melvin Riley Saturday to say "Hello" to everybody.

## SPOT LIGHTS BLDG. 4-2

by Estella Pettibone

Kenny Guysinger took his vacation last week to build a garage. He reports the weatherman was in his favor. All week there was bad weather so he could rest. . . . Charlie Reinbolt has been making a rowboat. Last week he attended the Sports Show. Now he will settle for nothing less than a cabin cruiser. . . . Honors go to Roy Bracht. The new apprentice boys call him Mr. Bracht. He says it sounds so good that he is trying to promote the idea to the rest of the fellows. Vick Hall thinks it is a good spring project for Roy to work on. . . . Joan France watched Arnie Johnson bowl Saturday night and after working with him for several years was surprised to find he is a southpaw. . . . Birthday greetings to Mel

Brown and Francis Fitch. . . . After watching the tree climbers at the Sports Show, Verg Allmendinger and Ray Leper have decided to learn tree climbing as a method for losing their extra poundage. . . . Joe Trentadue and Bill Turner put on good acts of saucer throwing at the Variety show Sunday evening. . . . George Langenburg has promised to reveal to Vick Hall who the next Piston coach will be. As yet he has not told him. We are wondering which of the two are going to try to scoop the daily newspapers. . . . We welcome Alice Klinge from second shift to first. . . . Harry Anderson is with us again, having recovered from his illness.

## OVER OUR WAY BLDG. 19-1 by Clara Volz

"Blessings are not valued until they are gone."—Thomas Fuller.

There certainly are a lot of new grandpas strutting around these parts, and so young looking too. Art Biens is the newest one to join the gang. . . . If you want to get George Prince all frustrated, just dangle a live mouse in front of him. He simply goes wild. . . . Magdalene Perrey took in the sights in Chicago recently. . . . Here is something you don't see very often these days, hand-rolled cigarettes. Frank Rathert is an expert at this lost art. . . . It's nice to have Ralph Rockhill back to work again after his foot operation. . . . Say, fellows, did any of you see Oscar Martin leave work last Friday? I thought perhaps he might have stayed at the shop over the week-end. It seems that Oscar got in bad with the little wife over a burned out TV tube. I do believe that he was half afraid to go home. . . . Bill Hoelle, "I wish you wouldn't put your empty tea cup on my desk while I'm still eating my lunch. While I was so engrossed in reading George Winan's column, I almost picked up your cup with the soppy tea bag in it instead of my own. Watch it, bub, or you'll be making your own tea from now on. . . . Kenny Strong was seen wearing a sharp-looking corduroy packet. Several of the girls said so, and they must be right. . . . Most of the fellows around here have started to wear safety glasses. I could say something about here, but I might get in more hot water than a Scotchman with a tea bag.

**FAREWELL PARTY**—Katherine Weigle (right) gets a farewell handshake from Ab Martin at a party held in her honor before she retired, while Helen Schiffler, Mrs. Weigle's daughter, watches proudly. Mrs. Weigle has been a GE employee since 1925. She worked in Bldg. 17-2 before retirement.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address. Send all ads to GE NEWS office, Bldg. 10-1.

**CLOSING DATE**  
Monday Noon, April 12, 1954

**LOST AND FOUND**  
FOUND—Pocket knife.  
FOUND—Pearl and gold compact.  
FOUND—Set of keys in brown leather case.  
FOUND—Man's wedding ring.  
FOUND—Cold and silver tie clasp.  
FOUND—Cold glove holder.

**FOR SALE**  
BEDROOM SUITE—Maple bedroom suite, complete with springs, innerspring mattress, and vanity bench. Very good condition, cheap. H-48123.  
HIGH CHAIR—Tiny Tot high chair and pad, like new. H-60021.

COOKER—Excel electric cooker; case-ment window and frame, unused; chemical toilet, complete; man's blue suit, size 38; buck saw. H-3587.  
TACKLE BOX—Fishing tackle box, bait, two rods, 2 reels, two roll-away beds. H-78394.

MOTOR—1953 model Elgin outboard motor, 6 hp., practically new. Owner entering service. H-50149.  
WASHER—CE, in very good condition, 4 yrs. old, automatic timer. H-77713.  
CAR—Model A Ford, 1931 coach, good shape throughout, Unidone 36-L or write Box 123, Uniondale.

IRONER—Deluxe Ironright ironer. Health value, used only few times, \$225. \$95 value. H-1805.  
BICYCLES—24 and 26-inch bicycles. English bulb puppies. A-67285.  
INCUBATOR—1200 egg incubator, used only once, good as new, electric, \$135. Russell Goble, R. R. 6, Columbia City, Ind.

GAS STOVE—Apt. size gas stove, like new, Maple twin size bed, good felt mattress, reasonable. H-17954.  
PARAKEETS—Pair blue parakeets and breeding cage. H-19737.  
STOVE—Hotpoint stove, 4 mo. old, reasonable. Alice Ann Flum, R. R. 1, Markle, Ind.

CAR—1950 Ford convertible, new deep red finish, W. W. tires, chrome rims, R and H. A-1 mechanically. Sell or trade. H-20634.  
ANTENNA—20 ft. mast rotor and late Finco antenna, good condition, \$50. K-4297.

COAT—Navy spring coat, size 10, \$4. Three summer dresses, size 8, \$1 each. Red corduroy jumper, size 8, \$1.50. All in good condition. A-57573. 2123 Bevel Ave.

BICYCLE—Girl's Schwinn bicycle, blue and white, original tires, \$20. Underwood typewriter, \$10. 4 pr. drapes, pussy willow pattern, 83 inches long; coffee table with removable glass top which can be used as a tray, \$7.60. H-77173.

TOYS—Tricycle, merry-go-round, slate top desk, pedal car, wrecked, roll-top desk, maple Storkline wardrobe. Reasonable. A-15032.  
MATERNITY—Dress, size 20, pink skirt, navy skirt, good condition. H-64452.

CAR—Plymouth, 1935, 2-door, good tires, 1930 motor, good running car, \$55. H-56332.  
VISE—Cabinet maker's vise, 10 inches across face, \$5. E-55741.

GLIDER—In excellent condition, new cushions. Also lawn mower, 1 yr. old. K-1824.  
CAR—1950 Pontiac 5, Streamliner, 4-door; 22,000 miles, very good condition. E-69654.

SWING SET—\$16; air compressor with new motor, \$15; apron sink; 3 burner gas stove. A-40143.  
WASHER—Speed Queen, wringer type washer, 2 years old, \$35. Violin, K-1955.

CLOTHING—Good used clothing, reasonable. H-83343.  
BULL—Year old Angus bull, 700 lbs. Roanoke 3193, 6 miles west of Wayneville on Lower Huntington Rd., then one-fourth mile to right, brown shingled house.

COUCH—Studio couch, excellent condition, \$25. H-28545.  
WINDOW—30x32-inch, glass with frame and storm sash, \$12.50. Set of garage doors, 4x8 ft., \$15, or both for \$25. H-752.

BICYCLE—Girl's 24-inch, A-1 condition, \$20. Pot belly stove, 33 inches high, \$5. Umbrella style clothesline, aluminum with rubberized line, \$5. A-29661.

ROLLER SKATES—Ware Bros. roller skates, woman's size 7, man's size 10. Like new, have been worn three times. Will give skate cases with skates. A-50042.  
COAT—Boy's brown tweed coat, size 3, good condition. H-45459.

MOTOR SCOOTER—Small motor scooter, easy for small boy to handle. Zanesville 8B.  
DAVENPORT—Rose mohair davenport, \$16. Folding pen, \$4. Bird cage with stand, \$2. E-37122.

TIRES—Four, good. Atlas tires and tubes, size 650x16, reasonable. A-95713.  
INNERTUBES—Goodyear, four, 5.70x15, excellent condition, never punctured. \$5 for all four. H-55903.

CLOTHES—Girl's clothes, size 9 to 10, including one spring coat and a winter coat, like new and very reasonable. A-46771.  
CAR—1951 Chevrolet, 2-ton tractor, air over vacuum brakes, 2-speed axle, saddle tanks, good tires, new motor, radio, and heater. See at 5700 Decatur Rd.

BEES—12 hives of bees and all equipment. Waterloo 5153.  
BEDROOM SUITE—Three-piece walnut bedroom suite; innerspring mattress; 2-piece, blue, living room suit; coffee table. H-8734.

RANGE—Bottled gas range, good condition, \$35. Poe, 3 long on 23.  
BED—Twin bed, complete with Beautyrest box springs and mattress, used less than 1 year. E-60775.  
TRACTOR—Garden tractor, 1 wheel, cultivator and plow. H-64681.

CAR—1940 Chevy, 2-door sedan, good tires, body and motor, 720 Home Ave. S-55091.  
CAR—1945 Chrysler New Yorker, black, 4-door sedan, radio, heater, very good condition. H-53534.

CAR—1948 Chevrolet Fleetline, 2-door coach, good tires, very good condition. H-4341.  
CAR—1936 Plymouth coupe, good tires, battery and motor. Recently overhauled. Reliable transportation. Make me an offer. 4107 Little St. H-02153.

MOTORCYCLE—1953 Indian Chief motorcycle, fully equipped, reasonable. Can be seen at 912 Wilson Drive. H-03032.  
STOKER—O. P. stoker, grinds coal from bin and ashes into containers. No clinkers to remove, no shearing off of pins, \$70. H-74535.

BICYCLE—Girl's bicycle, Simmons bed with good innerspring mattress and springs, cheap. A-99332.  
SEWING MACHINE—Electric Singer sewing machine, desk model, lined oak, like new, with attachments. Boy's spring jacket, size 12. A-89522.

COAT—Girl's, navy flannel coat, like new, size 12. Boy's light gray coat and cap, size 6. Reasonable. K-1894.  
DOG—Shepherd dog, 1 yr. old, loves children. A-98109.

OVERCOAT—All wool overcoat, brown, size 44 long, trade name "Curly Coat," like new, \$20. A-3724.  
MATTRESS—54-inch, good condition, felt, suitable for lake cottage or children. Reasonable. A-94445.

OUTBOARD MOTOR—Wm sacrifice 16 hp. Mercury, used one season. H-45183.  
HEIFERS—Three heifers with calves, reasonable. Deep Freeze, 10 ft., \$35. Hammer mill, \$40. Automatic, bottle gas, water heater, 3 years old, 30 gal. \$30. A-95448.

STATION WAGON—Crosley station wagon. Will sell or trade for late model 25 hp. outboard motor and will pay difference. E-2550.  
REFRIGERATOR—GE refrigerator, 5 cu. ft., good condition, \$40. Apartment size gas stove, \$25. 4014 Tacoma Ave. H-8734.

MOTORCYCLE—Hoffman, lightweight, 5 mo. old, used very little, very good condition. Will sacrifice for quick sale. H-68450 or H-50361.  
COMPASS—Hull automatic compass, illuminated, good as new. GM cleareproof rear view mirror. Reasonable. H-44506.

SUIT—Ladies', size 14, blue check, spring suit, just like new. Ladies' brown suede pumps, size 7 1/2 medium, worn twice. 1556 Lindley Ave. A-56643.

TABLE—Ping pong table, regular size, \$16. Chur, 3174.  
EWES—Two-year-old ewes with lambs, \$25 each. Two yearling ewe lambs. H-50871.

CAMERA—Argus A2F camera, F 4.6 lens, 35 mm. camera, 1/26 sec. to 1/200 sec. shutter, complete with case, good condition, \$15. K-3086. 5102 Winter St.

BUGGY—Twin baby buggy, Thayer, with pads, excellent condition. Reasonable. H-55101.  
APRONS—Ten aprons made from ladies' handkerchiefs, excellent gifts for any occasion. E-35533.

ICE BOX—75 lb. ice box, good condition, ideal for lake cottage. Best offer takes it. A-40884.  
WALKER—Invalid's adjustable walker with seat and back seat. Will sell reasonably. H-74611.

DAVENPORT—Blue velvet davenport and chair; studio couch; bedroom suite, bed, chest, and vanity dresser; record player and radio combination. All good furniture. 613 W. Fourth St.

HIGH CHAIR—Baby's high chair and nursery chair, \$2 each. Good used baby carriage, \$7.50. All in need of paint. Steel rowing machine exerciser, like new, \$5. H-9573.

GUNS—Collector items: DWM Luger, 4 1/2 barrel, 9 mm., \$55. Mauser, 9 shot, 9 mm., \$26. Prewar Jap Nambu with original ammo, and holster, 8 mm., \$25. Military Jap Nambu, 8 mm., \$15. All in excellent condition. H-59245.

COAT—Lady's blue spring coat, full length, size 14, like new, \$9. H-79535.  
REFRIGERATOR—Bedroom suite, dinette set, washer, very good condition. Herman Bauman, at Ringwalt's Trailer Park, 5 mi. west on 24.

HOUSE—5-room house in Newville, Ind., with extra lot, new well, \$3,400. Small down payment, 37 North to 101, turn left, go to 8, turn right, 2 mi. E-1544 from 4 to 7 p.m.

CHINA CLOSET—With curved glass front, \$10. H-20825.  
CABINET—Wall and floor cabinet with double sink, 7 ft. Leo Zuber, Madison St., Antwerp, Ohio.

SHOES—Lady's red pumps, size 9-A, like new. Reasonable. A-68424.  
**FOR RENT**

APARTMENT—Four-room, upper apartment with bath, newly decorated, private entrance, garage. One or two small children. 2707 Maumee Ave.

APARTMENT—Four rooms and bath, private entrance, garage, southwest, 1 block to bus line, automatic heat, utilities furnished. H-40821.

ROOMS AND BATH—Unfurnished, lower 3 rooms, private bath, private entrance, all utilities furnished, adults. 824 Huestis Ave. H-8734.

APARTMENT—Private, first floor, front 2 rooms and bath, utilities, range and refrigerator furnished, \$12.50 a week. 1520 E. Creighton.

APARTMENT—Two rooms and kitchenette, furnished, private entrance and bath. 2215 Fairfield Ave.

**TRANSPORTATION**  
RIDERS WANTED—From South Whitley to Taylor St. or Broadway, 7 to 3:30 p.m. Ext. 580 or South Whitley 101 R. Roger W. Collar.

RIDE OR RIDERS—Ride, share ride, or riders from Tri Lakes to Broadway or Taylor St., second trick. Ext. 455. Wm. Sumney.

RIDE WANTED—From 7108 Ideal Ave. Waynedale, to Broadway, 8 to 4:35 p.m. Mary Taylor, Ext. 2411.

RIDE WANTED—From Bluffton to Broadway, 7 to 3:30 p.m. Bluffton, 1073 R.

**WANTED**  
GOLF CLUBS—Good, used, golf clubs and bag. Rubber-tired, ball bearing, lawn mower. H-03571.

PIANO—Small piano, reasonable. E-4994.  
CAR—Pre-war car in good condition. H-78704.

TRICYCLE—Good, boy's tricycle, 20 or 24 inch. H-48459.  
OUTBOARD MOTOR—25 hp. outboard motor, 519 Colerick St. H-9673.

OUTBOARD MOTOR—25 hp. outboard motor and 14 ft. boat. H-50243.  
HALL RUNNER—10 to 14 yds. Reasonable. H-8734.

TYPING—Have old typewriter and will do all kinds of typing; also any duplicating work, pamphlets, postcards, etc. A-4771.

HOUSE—Two-bedroom house, in or near city to rent. A-58272.  
WOMAN—Middle-aged woman to stay with elderly woman, more for home than wages. A-56921.

TRUCK—Pickup or stake body, 1947 to 1960 model. H-37777.  
CAMERA—8 mm. B and H movie camera, 2 lens turret, preferably 19 lens, magazine load, 1305 Union St. E-38093.

CAMERA—Brownie box camera, No. 2, Film 116. A-85349.  
BICYCLE—Boy's 24-inch bicycle and snowblades for Simplicity tractor. E-68193.

DRAPES—Two pair drapes, 84 inches or longer. A-50553.  
BABY BED—H-58224.

BUGGY—Baby buggy, bassinet, bathnet, play pen. Must be in good condition. A-80123.

**THANK YOU**  
I want to thank all of my co-workers for my farewell party and gifts.—Margaret Stuck.

Who says "I often wonder why those one-application cures for dandruff, gout, and fallen arches always come in such large bottles."

After waiting in vain at the guard house for a young lady who had called him up and asked him to meet her, Jack (Dwight) Hurlless had to be reminded by the receptionist that it was April Fool's Day. . . . Some young kid tried to run over Mart Walsh last week and then threatened to clean Mart's clock for grabbing the only available parking space, but before he could do either Mart was hollering, "Help, police." . . . Bill Hoevel claims a 1949 Frazer has good material in it, but Woody Hursh tells us he can bend the bumper with his bare (or is it bear?) hands. . . . W9YBJ are the call letters of Jule Franke's amateur radio station and also his auto license number. . . . Norm Jackmeyer will soon be the proud owner of a new Ford. He wasn't satisfied with the general run at the display room. He had to have a special factory job. . . . We hear Glenn Hoon and assistant, Swede Mosser, took some very interesting candid shots at the Sportsman's Show. We'll try to show some here later. . . . Watch for the announcement of the date of the dedication ceremonies for Charlie Bracht's remodeled bathroom. . . . Luther Schrock made a command appearance in Decatur city court recently after authorities decided he went around a corner a little too fast. . . . Willie Garman was one of the few persons who took something home from the fish tank at the Sportsman's Show. He grabbed into the tank for a high-swimming fish, missed, and went home with a wet coat sleeve. . . . Art Dicke has been showing everyone a picture of his grandson while Joe Mettler has been telling how his son was one of 21 State Champions in a school project. . . . Walt Hazelet is no doubt the champ bowler of the tool room. Last Wednesday he rolled a 643 series and the next night a 616. . . . The mill unit welcomes Max Gollmer who spent two weeks with the die plant at its new location. . . . Johnny Inches and Paul Yentes tried to wear each other's jackets the other noon, but discovered their mistake before going too far. Charlie Laymon wasn't so lucky and couldn't find his coat at all after eating dinner one noon at the cafeteria. After a bit of sleuthing he found a coat similar to his and traced it back to its owner through a parking ticket in the pocket, and there was his coat. . . . Bob Broderick is taking over Lamarr Brant's duties

## TOOL BITS

### BLDG. 19-4 and 5

by Howard Demsey

this week while Lamarr is spending a week's vacation in Washington, D. C. . . . Paul Richter, the magician, can't seem to pull his eggs out of a hat anymore. He bought two dozen eggs from James Lee and put them on a bench while he put on his coat to go home. When he looked for the eggs they had disappeared and he had to go home without them. When he came in the next day there were the eggs, right where he had put them. Either your magic or your eyesight is failing, Paul. . . . While he was in the Bluffton Clinic for a check-up Hershal Odier says he felt like a sieve after the nurses got done sticking him dozens of times trying to find some blood to test. . . . In the spring the fancies of young men like Wilbur Lane and Hayden Rice turn to thoughts of boats and fishing. . . . We have seen Charlie Gattson's ears get red already but the other day was the first time they were ever dark blue. . . . The design section welcomes back Harvey Springer. . . . Jim Buchheit heard it was going to rain and freeze one afternoon last week and pulled a fast one by putting newspaper on his windshield at noon. It rained and froze and rained and froze and Jim read Li'l Abner all the way home. . . . Welcome to Naomi Cosner who will be Dave Bartle's secretary. . . . The Planning Unit welcomes Ed Bienz. Watch out for initial trouble with Eric Blumh, Ed. . . . Bob Benz had to do some fast talking to keep out of the hoosegow when he was called to explain why he hadn't had his driver's license renewed. . . . Ross Cohagen thinks he has removed the possibility of his being in the dog house by hauling his dog house to the city dump. . . . Frank Woenker has bought a new Mercury. . . . DeWayne Schele missed some work because he had to appear in court, in the jury box, that is. . . . Virginia Simon and Phyllis Jacquay made plans to attend the Sunday afternoon show at the Club. Virginia got there and waited through the whole performance but Phyllis never showed up. She had a good excuse though. She said she just forgot.

## SPECIALTY MOTORS

### Shipping—Receiving—Order Service

by Mabel Fisher

It is wonderful to see Gertrude Koldewey back in Telegraph. You had quite a winter holiday, Gertie. . . . Clint Sorenson is back with us again after a two week session with the flu. We missed you, Clint. Button up your overcoat so you won't catch the flu again. . . . A shower was given by the girls in Specialty Motors at the Colonial Restaurant for Beverly Sampson who is to be an Easter bride. She received many lovely gifts and everyone had a pleasant evening. . . . Our deepest sympathy goes to Howard Saurer in the death of his mother and to Norma Jean Henshaw in the death of her father. . . . We wonder what Carl Oberwite intends to do with his de-icer fluid for his windshield. The other evening Tom Fox, Katie Minehart, and Carl were seen very busily scraping ice from the windshield of Carl's car, only to learn a bit later he had a big bottle full of de-icer at home. . . . We wish a happy birthday to Mabel Keppler, Norma Jean Henshaw, and Howard Saurer. . . . All veterans of World Wars 1 and 2 and the recent Korean conflict are urged to get their membership tickets and also tickets for the annual banquet of GE War Vets, which will be held April 24 at Post 47. See your contact man, Carl Oberwite.

"Despite his many shortcomings, he never lets a lot of paper work accumulate on his desk!"

# Doing Our Part Together

Management and employees have one underlying common interest which probably runs deeper than all the others. *It's to win and keep customers.*

Whenever the going gets or looks a little rough, more and more good people begin to look around to see how they can do their part a little better.

Some railroad union officials recently emphasized these facts to their members. Because of the timely good sense of their message, we are reproducing it below in the hope you will find it as interesting and encouraging as we have.

## INSURING YOUR PROSPERITY

A Message from  
The Association of General Chairmen  
Pennsylvania Railroad System

TO ALL MEMBERS  
OF OUR BROTHERHOODS:

Last year the Pennsylvania Railroad's operating revenue amounted to more than a billion dollars, and the Company reported that more than half of that amount was paid in wages. Half a billion is big money in anybody's language, and commands the interest of all employees.

As General Chairmen of the organizations representing employees, it is our job to promote and protect the welfare of our members. Because of this fact, and because you are staking your working years on the success of this Railroad, we think we ought to give you our ideas on what you can and should do to insure this stake of yours.

The foundation of your welfare and that of your families is the security of your employment, and your own well-being is inseparably coupled to the continued existence and growth of the railroad industry. More to the point, your present and future way of life and the realization of your hopes and ambitions are hooked up to the progress and prosperity of the Pennsylvania. Whatever internal differences we may have, and however often we face the management from opposite sides of the table, all of us have at least one common cause. We want the Pennsy to succeed, because that is the only guaranty of our own success.

What are you willing to do to protect the investment of your labor, your experience, and your faith in your chosen calling of a railroader? Your General Chairmen will always do all that they can to protect your interests, but neither we nor you can leave it entirely up to someone else to insure the earnings of the Company.

The Pennsylvania, like other roads, is faced with the stiffest kind of competition. It has to pay out a big slice of its revenue in the form of taxes that are used to subsidize its own competitors. As your representatives, we joined with the management, many times, in fighting the unfairness of that situation. We have been ready and willing to join in every other activity of common cause, and you shared the benefits of any success that we achieved.

We think that the time has come when you can and should get into the act, as you have done before, and add your strength and unity to a common effort that is of vital importance to you. Insurance of your stake is available on easy terms, and it only requires that you do this:

1. *Do your own particular job in a conscientious and workmanlike manner and convince shippers and passengers that nobody could do it better.*
2. *Tell everyone, starting with your neighbors and the people with whom you trade, why it is to their advantage to travel and ship "Pennsy". The most convincing argument is that you, yourself, believe it.*

Tell them whom to contact for detailed information on schedules, services, and rates, and tell your local Agent or Traffic Representative who they are and what they want to buy.

Look for Business that means the Revenue that will insure your job and your share of prosperity.

Faternally yours,

ASSOCIATION OF GENERAL CHAIRMEN  
PENNSYLVANIA RAILROAD SYSTEM

## ELEX TO GO WEST THIS SUMMER

**GOLD DIGGIN' '54 STYLE**—Marguerite Schnieders, Section 113, Taylor St., lines up her prospecting equipment for the coming trip with Elex to California.

### Club Announces 12-Day Jaunt To California During Shutdown

The Elex Club will be California-bound during vacation shut-down this year, according to an announcement made this week by Voyce Brumbaugh, president. The trip, which is open to Elex members, their friends, and families, will leave Fort Wayne Saturday, July 24, by Pennsylvania Railroad.

The cost of the 12-day trip will be \$224 for members and \$226.50 for non-members. Included in the price is the round-trip coach ticket from Fort Wayne and return, all meals except in San Francisco and Los Angeles; deluxe hotel rooms with two to a room; all sightseeing, transfer of passenger and baggage between hotels and stations. Not included are meals in San Francisco and Los Angeles, and personal expenditures such as phone calls, laundry, and refreshments.

Reservations and rooming arrangements should be made with

Irene Meyers in the Women's Activities Office, Bldg. 18-1; Veora Habig, Taylor St.; or Miss Brumbaugh at Winter St. Arrangements for payments will be explained to those going when they register. Registration starts May 10.

Luggage for the trip will be limited to two medium sized suitcases.

The trip west will take the group through Denver, Pueblo, and Canyon City to the Royal Gorge on Sunday, July 25, where there will

(Continued on Page 4)

### Negotiations Open Tuesday

National negotiations with IUE-CIO and with UE are scheduled to open in New York Tuesday. Individual negotiations with most of the other unions representing employees covered by some 90 contracts will open at the various plant locations either on that day or shortly thereafter at the mutual convenience of local management and union leaders.

The proposals that will likely be put forward by the unions appear to be those already made familiar by the advance union publicity since last fall, and by the demands already made elsewhere, a company spokesman said. These are the demands that have also become familiar through the dis-

(Continued on Page 4)

### General Purpose Employees Near Two Million Safe Man-Hours Mark

General Purpose Component Motor Department employees at the Taylor St., Decatur, and Linton plants have worked a total of 1,721,771 man hours since Jan. 1, 1954, without a lost-time accident.

Section 113, Taylor St., has a record of working since April, 1951, without a lost-time accident, having accumulated a total of 4,560,464 man hours worked during this period.

This achievement by employees of the department has been made possible by their alertness, efficiency, and cooperation. A. C. Hartman, safety engineer, stated. Among factors that have made the record possible are the wearing of safety glasses and safety shoes, the prompt reporting of hazards, and taking corrective methods for the elimination of these hazards.

During the past few months, three General Purpose Motor employees have become eligible for membership in the Wise Owl Club. Membership in this organization can only be obtained by saving the

eyesight while wearing safety glasses.

LeRoy Heintzelman and Benjamin Miller, both of Section 113, saved the sight of their eyes when molten aluminum from a pot exploded and their safety glasses prevented the hot metal from entering their eyes. In both cases the glasses were damaged to such an extent that replacement of the lens was necessary.

Delva Stickler, Bldg. 19-5 toolmaker, had a cutting tool break and a ragged piece about one-fourth inch by one inch penetrated his safety glasses. It is believed by safety personnel that this accident could have caused a fatality if he had not been wearing protective glasses.

All three employees will receive their membership pins and certi-

### This Was The First Easter

Observed on the Sunday after the first full moon following the Spring equinox, Easter this year comes on April 18. According to St. Matthew's gospel, it was "as it began to dawn toward the first day of the week" that Jesus rose from the dead.

The early Christians took over as their own the ancient festival of Eostre, which celebrated the renewal of life in the Spring, to commemorate the Resurrection of Our Lord. Eostre was a Teutonic goddess.

During the Civil War, the churches of our land sought to bring solace into the thousands of homes bereaved by the conflict, through services which emphasized the theme of resurrection and everlasting life in the story of the risen Christ. Thereupon services in churches at Easter became general throughout America, until today it is one of our principal religious observances.

In the profusion of flowers which decorate the churches on Easter Sunday, the graceful white lily predominates. One of the earliest blooms of Spring, it originally was called the Bermuda lily. But so widespread has become its use on this particular occasion that it is now generally known as the Easter lily, and horticulturists arrange to meet a peak demand for it.

### Behind the Scenes

When we look around for the new products that have blossomed as new jobs in GE during recent years, it is natural to look first at those items most of us use in our own lives.

Clock radios, for instance. They're a big part of the multi-million dollar payroll added to GE Electronics employment since 1939.

Automatic washers and dryers. They mean better than a million dollars monthly in pay for the men and women at Appliance Park in Louisville.

GE textolite plastics surfacing covering thousands of kitchen sink tops; GE silicones polishing a million cars; GE jets flying overhead. These things we can see—to appreciate. But a big part of GE's job security lies behind trade-marks other than our familiar GE monogram on a wide variety of electrical products that we don't make.

Take electric motors, for instance. In Fort Wayne, nearly five thousand people are working on motors and motor components today that we weren't making 15 years ago. Their general purpose motors are humming away behind electric lawn mowers and several brands of room air conditioners. Their hermetic motors are making ice-cubes in a number of electric refrigerators besides our own. Their specialty component motors operate adding machines, window fans, aircraft accessories, and air circulators. Their appliance motors are powering garbage disposers and a number of automatic washing machines and clothes dryers.

So when we consider new GE products that have created an estimated 40,000 new jobs since 1939, we should give plenty of credit to GE products that other manufacturers have used to create new employment in THEIR plants. New GE motors represent nearly \$20 million a year in new payrolls at Fort Wayne alone.

In this, we can see a basic advantage offered by America's free competitive system that no other country duplicates. As far as we know in America an invention by one company creates employment within that company—without eliminating jobs somewhere else.

As a matter of fact, one good job done by GE employees usually leads to new jobs in companies that are GE's competitors on consumer goods—but customers on component products.

### Words by Walt

#### CRUCIFIXION AND RESURRECTION

May this Day of Crucifixion  
Somehow make us all aware  
That in stumbling up Golgotha,  
'Twas our cross Christ had to bear.

'Twas our cross of worldly error  
Upon which our Savior died:  
'Twas for us on this Good Friday  
That our Christ was crucified.

Son of God, Divine, yet human,  
Subject to all earthly pain.  
Born to die for man's redemption,  
Then with God forever reign.

There is much within this drama  
That I don't quite understand,  
But I feel all things Christ suffered  
Were in line with God's command.

If they weren't, then God didn't  
Send His only Son to die,  
To atone for man's transgressions;  
But He did, and here is why:

If God's Son had been accepted  
By all men when He was born,  
There'd have been no crucifixion  
And, of course, no Easter morn.

There'd have been no resurrection,  
And no triumph or the grave;  
There'd have been, of course, no Savior;  
There'd have been no one to save.

But God knew this wouldn't happen,  
For He'd given man control,  
Over all his thoughts and actions  
Plus what happened to his soul.

So with boundless love and mercy,  
And in spite of man's behavior,  
He sacrificed His only Son—  
In death to be our Savior.

I believe when Christ was born,  
God knew that He would be rejected;  
And His death upon the cross, I feel,  
Was just what God expected.

Even Christ knew in Gethsemane  
Where He had gone to pray,  
For He said, "If Thou wilt, Father,  
Won't You take this cup away."

But God didn't, so Christ died for us  
On Crucifixion Day.  
Then arose on Easter morning,  
When the stone was rolled away.

And returned to God, His Father,  
Where He'd been before His birth.  
He'd fulfilled His Father's mission,  
He redeemed all men on earth.

God has made it, oh, so easy  
For mankind to get along:  
Just accept His Son, our Savior,  
Ask His help when things go wrong.

And no matter what may happen,  
He has promised we will find  
That our Savior Who was crucified  
Will give us peace of mind.

And there'll be a resurrection;  
It's not final when we've died.  
This our Savior demonstrated  
After He was crucified.

But I often have to wonder  
How I'd think and act today  
If that angel Easter morning  
Hadden't rolled the stone away.  
—W. L. Whonsetter.

### WIRE RAVELINGS TAYLOR ST.

by Art Rasor

It's mushroom season again and already we have heard many a tale, but not like this one from "Skin" McGary. It seems that it was a perfect day for hunting mushrooms but finding them was a hard job. "Skin" was about to give up when he heard a noise in the sky and looked up only to stumble to the ground. What had happened was that he had tripped over a mushroom that came up to his knees. In the stem was a hole and as "Skin" started to examine it, out jumped a startled rabbit. . . . Birthday greetings to Joan Crum on April 23. . . . The next time the boys from the spool repair section need a euchre partner they will be careful how they choose one. After begging him to play with them, Ora Harden teamed up with "Pappy" Friend to skunk Charlie Best and Eldon Swaidner. With only a little time left they scored three more points to make the total points for the day 13 to 0. . . . A welcome back to Warren Harding, who has been on sick leave. . . . Virgil Dennis is all smiles now that he has a 1953 "Chevy" to clean and polish. . . . Congratulations to "Pappy" Rasor on his 25 years with the company. If anyone knows the secret as to how he grew hair on the cut-out, be sure and let him know the details. . . . Let's everyone enjoy a happy Easter!

### Bing and Ken Talk It Over

BING: Mr. Carpenter, will you move right in here now?

KEN: Right here, Bing.

BING: Good. The weekly coffee klatsch and oratorical society is hereby called to order. Have you any objections?

KEN: Not from me you don't.

BING: Then we shall proceed with our thesis on the basic partners in our economy. It's my understanding the partners to go under X-Ray tonight is the government.

KEN: Right you are, Bing. I thought you might like to start us off by explaining who the government is.

BING: Who?

KEN: Who.

BING: I think there's an owl in the air conditioning. Okay, Ken, I'll tell you who the government is. It's people. Just like everybody else. People charged with the difficult job of regulating and directing public affairs. Working each in his specific sphere of . . . Do you follow me?

KEN: Does anybody?

BING: Now don't tell me you're fogged in already.

KEN: Well, Bing, couldn't we take it in easier stages. . . .

BING: Well, I guess so. Now, first of all, in our system, the people elect their government. That's important; it means the people run the government—not the other way around.

KEN: Yes sir. The government is the servant of the people—whether it's a town or city government, headed by a mayor . . . a state government, under a governor and a state assembly . . . or the national government, headed by the President, the Congress and the Supreme Court.

BING: Seems to me you've touched all the bases there, Ken. Except perhaps why we need a government in the first place.

KEN: Well, the government acts for the common good of all of us; it regulates health and education and trade. . . .

BING: It helps protect us . . . by maintaining the Armed Forces . . . and our courts of law.

KEN: It provides services, such as — oh, printing money, conserving our forests, registering patents . . . making sure the mail man rings at least once—every day.

BING: At the local level, it provides the Police Force and the Fire Department and the Sanitation Department . . . maintains our streets and highways . . . and runs the schools.

KEN: And of course all these things cost a pile of money.

BING: King-size coin which we pay for through taxes.

KEN: Sales taxes . . . personal income taxes . . . amusement taxes and so on.

BING: These taxes are an indication of how large the government is as a partner in our economy.

KEN: Government activities, government taxes have a marked effect on each of us individually.

BING: You're so right!

KEN: And they effect business as well. For example, take a company like . . . well . . .

BING: May I cut in?

KEN: Go ahead.

BING: General Electric.

KEN: The very one I had in mind.

BING: Just call me lucky.

KEN: From the book of the same title?

BING: Natch.

KEN: Well, in 1952, General Electric alone paid out about 360 million dollars in taxes.

BING: A tidy sum.

KEN: Yes sir. As a rule of comparison, for every dollar of dividends declared to GE's investors, the government got more than four dollars in taxes.

BING: Solid statistics, old boy. Suppose now, Ken, you sum up.

KEN: Well, let's see, Bing. The government, as one of the partners in our economy, has the function of making the laws, providing for our protection at home and abroad and furnishing numerous services that we need. In return for which we all pay taxes, whether as individuals or as organizations.

BING: Carp, may I tell you something?

KEN: What?

BING: You can sum up with the rest of them.

KEN: Some summer, huh?

BING: Yes, sir. Cool as June in January. That's not a song cue, either, friends, though it's a good tune, but it just doesn't happen to be on the agenda this evening. However, if Rosemary Clooney will glide in here sinuously, we'll go on with a medley of very stylish ballads which we have rehearsed rather well, I think.

ROSEMARY: I guess I'm ready, Bing.

BING: Our first selection, in a medley of three, is called THESE FOOLISH THINGS.

# GE Veterans Name Candidates for Election

## Two Elex Chapters Receive Charters; New Group to Hold Initial Meeting Wed.

Charters authorizing the two chapters of Elex Club to operate as branches of the Club were presented the two organizations Monday evening by Voyce Brumbaugh, Elex president.

Accepting the charters on behalf of their clubs were Martha Zehendner, president of Partizan Chapter, and Mamie Allen, president of the newly formed chapter which is yet unnamed.

Included in the charters are a list of the aims of the two groups and their members and their chapter slogans.

The ceremony took place at the regular monthly meeting of the Elex Club Monday, April 12.

The initial meeting of the newly formed chapter of Elex Club for former women employees will be conducted Wednesday, April 21, Mamie Allen, president, reported.

The meeting will begin at 1 p.m. and will take place at the Gas Kitchen. Officers will serve as hostesses. Other officers in addition to the president are: Helen Scheer, vice president; Kathryn Gallmeier, secretary, and Doris Reiter, treasurer.

Business to be considered at the meeting will include selection of a name for the organization and setting up a club constitution.

Tuesday, April 20 Partizan Chapter of Elex will conduct their Easter party at the Gas Kitchen. In addition to a business meeting an entertainment program has been planned and refreshments will be served.

Edna Berdelman is chairman of the meeting and is being assisted by Clara Cooper, Loraine Doherty, and Phyllis Wagner.

CHARTERS were presented the two chapters of Elex Club by Voyce Brumbaugh, Section 113, Taylor St., president, left. Accepting the charters for their groups were Mamie Allen, center, president of the new chapter, and Martha Zehendner, right, Partizan Chapter president.

## Today Is Supervisors' Deadline For Fish Fry Reservations

Today is the deadline for obtaining reservations for the April 21 fish fry scheduled by the Supervisors Club, George A. Finkbeiner, Bldg. 26-3, and Bret Young, Bldg. 26-2, co-chairmen of the meeting, reported.

The Southwest Conservation Club will be the scene of the meeting, which will start at 6 p.m. Movies of the NBA East-West All-Star game played this season will be shown and refreshments will be served.

Membership in the organization now totals 366, Arthur W. Bireley, Taylor St., president, reported this week. He added that 15 pensioners have been given life membership cards upon retirement.

Remaining activities for the club year are:

May 12—Company sponsored dinner.

June 9—Picnic.

September 15—Smoker.

October—Theater party.

December—Joint meeting with Foremen's Association.

January 10, 1955—Annual banquet.

Prizes will be awarded winners of games played. A late spaghetti and meatball dinner will be served.

Tickets are \$3 per couple and may be secured in the test office, Bldg. 16-3 or from Fred Ray, Bldg. 8-2. Members of the GE Squares Club and MTP group are invited to attend the dance, Mr. Ray said.

## "Parade" to Feature Indiana "Ham" Operator

An Indiana "ham" radio operator who won General Electric's Edison Radio Amateur Award recently will be the subject of the lead article in "Parade" magazine, April 25.

The magazine, a supplement to 45 Sunday newspapers, is carried locally in the Fort Wayne Journal-Gazette. Its article describes the work of J. Stan Surber, Peru, the 46-year-old C&O Railway dispatcher who won the award.

During 1953, he relayed over 12,000 messages between men at isolated Arctic Islands weather stations and their families in this country. His call letters are W2NZZ.

Surber received the Edison Award trophy at a special presentation dinner in Washington Feb. 10.

Roy Brower, Bldg. 6-4, and George Graue, Winter St., are candidates for president of the General Electric GE War Veterans Association. The election will take place Saturday, April 24, at the group's annual banquet at American Legion Post 47.

Other candidates for office are:

### 1st Vice President

Neil Daley, Winter St.  
Herbert Koch, Bldg. 2-2

### 2nd Vice President

Ed Moodie, Taylor St.  
Larry Suelzer, Winter St.

### Secretary

Carl Rehling, Bldg. 27  
Walter Blomberg, retired

### Treasurer

Gary Forester, Winter St.  
Merritt Hartman, Taylor St.

### Sergeant-At-Arms

Clayton Schultz, retired

### Board of Directors

Al Adams, Bldg. 26-4

Robert Turschman, Bldg. 2-2

The annual event is slated to begin at 6:30 p.m.

Ed Gallmeier, Fairfield Plant, will present a magic show and the Reddy Kilowatt Quartet will present barbershop harmony.

Monday, April 19 is the deadline for reservations. They should be made with contact men. Tickets are \$2 per member.

Membership cards must be presented at the door the evening of the banquet along with tickets, Robert Turschman, president, stated.

Committee members in charge of the election slate are: Neil Daley, chairman; William Sivits, Taylor St.; Roy Brower; Les Patton, Bldg. 27, and Hugh Neely, Taylor St.

## M & G Group Wins Best Skit Award At Squares Show

Members of the Direct Current Motor and Generator group won the Nobel Trophy for the best skit in the GE Squares annual Little Theater Night program last Saturday evening.

Oscarett awards were received by the following persons: Doris Fortier, DC M&G, best actress; Larry Bishop, Bldg. 26-2, Specialty Transformer, best actor; Jerry Graff, Winter St., Test Engineers, best female costume; Frank Woods, Bldg. 31-2, M&G, best male costume; and Hal Windrel, Bldg. 16-3, Test Engineers, best prop.

Four groups of members presented skits on the program. They were Specialty Transformer, Test Engineers, DC Motor & Generator, and Broadway fractional horsepower motor. Approximately 150 members and their guests attended.

The panel of judges consisted of Keith King, Bldg. 26-2; E. Watson Pye, Bldg. 4-6, and C. Ray Atkinson, Bldg. 31-2. The program was under the supervision of Howie Brust, Bldg. 31-2.

## Max Cotterman Appointed Buyer In M & G Dept.

Max W. Cotterman

The appointment of Max W. Cotterman as buyer in the Direct Current Motor and Generator Fort Wayne manufacturing section was announced this week by George M. Murray, purchasing agent.

When he came to the company in 1951 Mr. Cotterman went into Large M&G procedures. In 1953 he was named procedures analyst and had this position until his present assignment.

In 1948 Mr. Cotterman received his BS in education from Ohio State University. He served in the Navy Air Corps from 1943 until 1945 and was a commissioned second lieutenant in the U. S. Field Artillery. He is a member of the GE Squares Club and Supervisors Club.

## Foremen Assn. Event Calendar

The 1954-55 calendar of events for the Foremen's Association was announced this week by W. LeRoy Paulson, Bldg. 19-4, president. The following schedule has been set up by officers and board members:

May 12—Company sponsored meeting.

June 9—Southwest Conservation Club, guest speaker.

August 28—Joint picnic for first and second shift foremen.

October 26—Ladies' Night at the American Legion Post 47 Hall.

December — Joint meeting with Supervisors Club.

February 2, 1955—Election of officers, Southwest Conservation Club.

March 9, 1955—Installation of officers, Southwest Conservation Club.

## DMM to Install Officers Monday

Monday, April 19, Decimal Minute Men will install their 1954-55 officers at the Van Orman Hotel. The ceremony will take place at a banquet beginning at 6:30 p.m.

Members will entertain their wives as their guests at the event. Tickets are \$3 per couple and may be obtained from contact men.

Dick Stoner, magician, will present a program of entertainment. George E. Hicks, Bldg. 4-6, is chairman of the meeting.

## Test Engineers Slate Venetian Street Fair

A Venetian Street Fair dance has been slated by the Test Engineers Club Saturday, April 24. The informal event will take place in the Squares Hall beginning at 8 p.m.

Joe Hartwell and Laddy Petruka, both of Bldg. 4-6, are in charge of arrangements for the event.

In addition to dancing, a program of entertainment and games has been planned. Bob Hess, Bldg. 4-6, will provide accordion music.

## GE DEATHS

Daisy D. Ford

### Rites Held April 14 For Daisy Ford, 57

Services for Daisy D. Ford, 57, were conducted Wednesday, April 14, at the Chalfant-Perry Funeral Home. The Rev. Raymond G. Jewel officiated. Miss Ford died Sunday, April 11, at her home, 603 Hendricks St. She had been in ill health for several months.

Burial was in Lindenwood Cemetery.

In 1920 Miss Ford joined General Electric. She was a drill press operator in Bldg. 6-4 prior to her retirement Dec. 1, 1953. She was a member of the Quarter Century Club and Elex Club.

Surviving are three sisters, Mrs. Ethel Brown, Mrs. Mable Imler, and Mrs. Myrtle McOmber; and two brothers, John and Donald C.

F. Joseph Schwarzkopf

### Joseph Schwarzkopf Dies at 84 in Hospital

One of GE's oldest retired employees, F. Joseph Schwarzkopf, 84, died Wednesday, April 7, in the Lutheran Hospital. He retired from the company in 1932 after completing almost 40 years of service. He came to GE in 1892 and served as a foreman for 38 years.

Services for Mr. Schwarzkopf were conducted Friday, April 9, at the Klaehn Funeral Home by the Rev. Leslie Eads. Burial was in Covington Gardens.

Survivors include his wife, Della E., and three nieces, Mrs. Kenneth Ford, and Mrs. Wade Reed, of Fort Wayne, and Mrs. Paul Fair, of Lake-of-the-Woods, Ind.

## Retired Employee Dies After Brief Illness

A Quarter Century Club member and retired employee, William C. VerBryck, 82, died Sunday, April 11, at St. Joseph's Hospital. Mr. VerBryck, who resided at 1207 Swinney Ave., had been a patient in the hospital for three weeks.

Wednesday, April 14, services were conducted in the C. M. Sloan & Sons Funeral Home by the Rev. Charles E. Roberts. Burial was in Prairie Grove Cemetery.

When he came to the company in 1916, Mr. VerBryck became a switchboard operator. He was a powerhouse operator when he retired Aug. 1, 1945.

In addition to his wife, Mabel, survivors include one son, K. William; three brothers, Oscar, Sam, and Bert, and two grandchildren.

## Negotiations

(Continued from Page 1)

cussions in negotiations of recent years with one exception, which is the so-called annual wage or private supplementation to state unemployment compensation. This will be the first time a union has put it forward as an active demand at the company bargaining table since the UE's guaranteed wage demand on GE was turned down by the government war labor board 10 years ago—at the same time as the board rejected a guaranteed wage demand on the steel companies by the CIO steelworkers.

NLRB representation questions are pending in some locations and, as in previous years, such locations may not be covered by new agreements until the representation questions have been resolved. However, it has been possible in the past, if consent of the competing unions is obtained, to put in effect in the contested locations whatever adjustment, if any, may be arranged for union and non-union employees elsewhere. Whether the elections will be concluded by the time of general settlement, or whether the competing unions would agree to this for the con-

tested locals pending the outcome of the elections, is something that will have to be determined later.

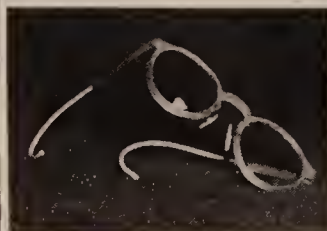

In any event, L. R. Boulware, GE Vice President, said in New York this week, "General Electric employees can be sure that their company will again this time be seeking from the unions and from all other sources every bit of evidence as to what is the right thing to do in the balanced best interests of employees and all others concerned—just as we have tried our best to do in previous years."

There will probably be a series of meetings at which there is usually a list of union proposals to be considered along with the company proposals. Historically, when any company proposal on wages has been warranted, it has come late in the negotiations after the other matters have been discussed and disposed of one way or another. Pensions and insurance are not open for negotiation at this time, but under the union agreements, are scheduled for review next year.

## General Purpose

(Continued from Page 1)

cates at the annual Safety Conference at the Chamber of Commerce, April 27 and 28.

THE SAFETY GLASSES shown saved the eyesight of LeRoy Heintzelman, Section 113 die caster, recently when molten aluminum flew up and hit them. The aluminum was embedded in the lens.

Three polar bears sat on a cake of ice.

Said Papa Bear, "I've got a tale to tell."

Said Mama Bear, "I've got a tale to tell, too."

Said Baby Bear, "My tail's told."

## California

(Continued from Page 1)

be a ten-minute stop. This is the location of the Hanging Bridge, an outstanding railroad engineering achievement. Here also is the highest suspension bridge in the world, which spans the top of the gorge a thousand feet high.

The train will carry the crowd through the heart of the Colorado Rockies and make a stop on Monday, July 26, at Reno, Nevada before crossing into California.

The tour will arrive in San Francisco Tuesday, July 27, where they will stay at the Palace Hotel. The afternoon and evening will be open.

Wednesday, July 28

Today they will really see San Francisco and Marin County. Modern sightseeing buses will pick them up at the hotel and they will have a complete tour of the city, including the Civic Center, Mission Dolores, Twin Peaks, Steinhart Aquarium, residential section, Ocean Beach, Seal Rocks and Cliff House, thence to Fisherman's Wharf, where there are a large number of eating places to lunch.

Following lunch, they will again board buses for a trip over the Golden Gate Bridge to picturesque Sausalito, through thickly wooded canyons to Muir Woods, where giant redwood trees over a thousand years old rear perpendicular trunks to a height of over 300 feet. Buses will return them to the hotel and the evening will be open.

Thursday, July 29

After a quick breakfast, buses will pick up the group at 7 a.m. to transfer them to the Southern Pacific Third Street Station for a daylight ride on the streamliner to Los Angeles. They will stay at the Biltmore Hotel and the evening is free.

Friday, July 30

Buses will call at the hotel at 9 a.m. for a tour of the city and picture studios. They will see Echo Park, Angelus Temple, Griffith Park, San Fernando Valley, Walt Disney Studio, visit inside Republic Studio from the bus. They will also see the homes of movie stars and celebrities in Toluca Lake district, as well as the Hollywood Bowl before returning to the Biltmore. The afternoon and evening are open.

Saturday, July 31

Today a trip will be made to "Ghost Town." Buses will leave the hotel at 11 a.m. for Knott's Berry Farm for a delicious chicken luncheon (included). En route they will pass Exposition Park, Memorial Coliseum, Los Angeles Airport, Douglas and North American aviation plants, as well as other points of interest. Two and a half hours will be spent at Knott's before returning to the hotel. There will be ample opportunity to view the multitude of interesting relics of the California Mother Lode country and other replicas of the "True Gold Rush of Early California." The evening is open.

Sunday, August 1

Early church, then back to the hotel to board busses to a never-to-be-forgotten trip to Old Mexico. They will cross San Diego Bay by ferry to Coronado and then down the famous Silver Strand to the Mexican border, across the International Line to colorful Tijuana, where there will be two to three hours for lunch and shopping.

## SICK LIST

The following people have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Dorothy Burns, Elnora Claycomb, Hazel Cox, Paul High, Arthur Holterman, Sadie Hudlow, John Madden, Robert Moberly, Jesse Moore, Marilyn Robinson, Dewey Simmers, Gladys West, Dolores Rickord, Sylvia Walker, Rachel Kelley, Clifford Harms, Golden R. Arms, Mildred Smith, Enno Richter, Alma Wilkinson, Cleon Oyer, Harley Ward, Ernestine Kelso, Andy May, Mildred Hall, Gloria Irvin, Elmer W. Auman, William F. Behm, Thelma Harmeyer, Irene A. Huey, J. Kavanaugh, Percy Lofton, Ferdinand Reaser, W. Walker, and Albert F. Wilcox.

### Dismissed From Hospital

Thelma Harmeyer, Emil Fabian, Albert Wilcox, Stanley Tiscovich, Orlie Conner, Cleon Oyer, Wanda VanWald, Homer Ray, Crystal Waterman, Shelton Hampstead, and Shirley Doster.

### Returned to Work

Karl Reith, Otto Prohl, Al Wickliffe, Elsie Klemm, Doris Case, Mary Standish, Clinton Sorenson, Claudine Woodson, Lucille Schelper, Mary Schlau, Gertrude Koldey, Irma Kohlmeier, Emma Hockenberry, Howard Griefinstine, Leonard Jenne, Clarence Saylor, Marshall Truman, Warren Harding, Charles Menefee, Harry Dorsey, Louis Hesse, Florence Minnich, Jean Youngs, Willa Bryant, Carl J. Miller, N. Muriel Etchason, John Hippenhamer, Elnora Crawford, Charles France, David Persing, Henry Borne, George Miller, Doris Olinger, Robert Glenn, Harry Edmunds, and Maxine Lydon.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

All the girls thank Ralph Heminger for the salt water taffy from Atlantic City. Hope he goes again soon. . . . George Hill lost his Gold Star for the week. . . . Della Abel spent last week-end in Washington, D. C. She says the weather was hot and the cherry blossoms were beautiful. Lucky Della. . . . Our deepest sympathy goes to Ivan Ford in the death of his mother-in-law. . . . Helen Risser is now president of the Liberate Club. Two new members are Paul Klage and Melvin Schrader. . . . Fred Wheeler is gathering up all the GE NEWS he can find to send to his relatives and friends, the reason being his picture in the GE NEWS for the Quarter Century Club. We wish to thank members and friends of Elex who contributed so generously to the Easter Egg project.

After returning that day to Los Angeles, the evening will be open.

Monday, August 2, the group will board the Santa Fe's El Capitan for the return trip home. They will arrive back in Fort Wayne Wednesday, August 4.

Arrangements have been made for the group to have private coaches and private dining cars on the trip.

LEISURE DAYS AHEAD—Margaret E. Stuck (second from left) gets best wishes for enjoyable days ahead in retirement from Margaret Zumbum (left), Mildred Hartnett, and Charles Rice. Miss Stuck had worked for GE since 1942, when she was employed in Bldg. 26-3. She was a placer in Bldg. 17-3 before retiring.

# Fort Wayne Engineers to Hear Famed Soldier-Statesman

Henry A. Byroade, an Allen County native who has become internationally known as a soldier and statesman, will be the principal speaker at the Thursday, April 22, meeting of the Fort Wayne Engineers Club.

The dinner meeting will begin at 6:30 p.m. at St. John's Evangelical and Reformed Church. Members will entertain their wives as guests.

Mr. Byroade is assistant United States Secretary of State for Near Eastern, South Asian and African Affairs. He will discuss "Problems Facing the United States in the Middle East."

A 1937 graduate of the United States Military Academy, Mr. Byroade received his MS degree in engineering from Cornell University in 1941. He was appointed a second lieutenant in 1937 and advanced in 1946 to become one of the youngest brigadier generals in the history of the Army.

In 1944 Mr. Byroade was named department chief and acting chief of the Asiatic Theater Section, Operations Division in the Office of the Chief of Staff, Washington, D. C. He served as a military attache to Gen. George C. Marshall in the Far East and became executive officer and commanding general of the headquarters group in Peiping, China, in 1946.

A graduate of the Armed Forces Staff College, Byroade served as chief of the International Affairs Section of the Army's general staff and later entered the Department of State in 1949.

Prior to his present appointment, he was deputy director of German Affairs and then director of the Bureau of German Affairs from 1949 until 1952. At that time he re-

ceived his present appointment. He is the son of Mr. and Mrs. E. C. Byroade, of near Woodburn.

## Time Schedule Set For GE Blood Donors

General Electric employees who participate in the GE Blood Donor Program are scheduled by their department representatives Tuesdays from 11 a.m. until 12 o'clock noon and Thursday afternoons from 3:45 until 5:45 o'clock.

These are the only days available for scheduling at the Regional Blood Center since Red Cross personnel are out of the city other days with the Bloodmobile visiting locations in the 37-county area covered by the local center.

Richard A. Madden

Robert W. Dent

Preston W. Slack

# Three Men Named to New Positions In Hermetic Manufacturing Section

Three appointments in the Hermetic Motor Department were announced this week by Vernon R. Castle, supervisor of manufacturing.

Robert W. Dent was named general foreman of winding and finishing on first shift. Richard A. Madden was appointed general foreman of all operations on second and third shift. Preston W. Slack was appointed supervisor of production.

Mr. Dent came to the company in 1934 and was a messenger. Later he entered shipping as a freight rate clerk. In 1938 he went to Bldg. 17-2 fabricating stator cores.

After moving to Winter St. in 1940 Mr. Dent was a dispatcher, raw material clerk, and chief dispatcher. He returned to Broadway and went to Bldg. 4-6 on special assignment in production. Afterward he entered the production training course. Upon completion of the course in 1947 he went into Hermetic manufacture as chief dispatcher.

When he moved to Tiffin in 1948 Mr. Dent became assistant production supervisor. The following year he returned to Fort Wayne and was production supervisor of Bldg. 17-1 contributing parts section. Later that year he was named production supervisor of the Hermetic Motor Department and had this position until his present appointment.

Mr. and Mrs. Dent and their two daughters reside at 555 Kinniard Ave.

A graduate of the Apprentice School, Mr. Madden came to GE in 1929 and entered the school then. He completed the electrical tester course in 1934 and became an inspector in Bldg. 4-2. In 1937 he was named foreman of inspection, Bldg. 8-2.

In 1942 Mr. Madden went to the Supercharger Plant as a foreman and later returned to Bldg. 17-2 in the same capacity. He was named supervisor of inspection in the Hermetic Motor Department in 1950. This was his job until his present appointment.

Mr. Madden is a member of the Foremen's Association and Apprentice Alumni Association. The Maddens and their three children reside at 2107 Courtland Ave.

When he became a GE employee in 1928 Mr. Slack worked as a laboratory assistant in Bldg. 28. In 1932 he entered FHP Motors and was an assembler and dispatcher.

After going into the Hermetic Motor Department in 1949 Mr. Slack was chief dispatcher and became supervisor of order service in 1952. This was his position prior to his present assignment.

Mr. Slack is a member of the Foremen's Association, Supervisors Club, Quarter Century Club, and a past vice president of the GE Club. He is a former manager of the GE sponsored Little League team and he helped organize this group.

The Slacks, who live at 5811 Fernwood Ave., have one son, James, who is a student at Utah State College.

## GE ON RADIO AND TV

### Waring to Present "Song of Easter"

The musical splendor of Easter will again be presented on television by Fred Waring and his Pennsylvanians Easter Sunday, April 18, when the glee club, orchestra, and soloists combine their talents in the annual presentation of the beautiful "Song of Easter." The program will originate in New York over the CBS-TV network from 8 to 8:30 p.m. CST.

Dramatic and yet simple, "Song of Easter" tells the story of the Crucifixion and Resurrection of Christ. It is perhaps one of the best-known of all Easter musical pageantries.

Fred Waring said, "To us, Easter has always meant music. In 'Song of Easter' we hear not only the sorrowful mournings of witnesses to the Crucifixion, but we hear,

too, their triumphant song as the stone is rolled from the Tomb. It is indeed a magnificent work. We are proud that public demand dictates presentation of 'Song of Easter' each year at this time."

Among the choral and orchestral arrangements to be presented are: "Calvary," "They Led My Lord Away," "Crucifixion," "Were You There When They Crucified My Lord?" and "Jesus is Risen From the Dead."

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

We are sorry to hear that Mildred Messer is taking a sick leave of absence. Hope you will be feeling real good soon again. Welcome to Elma Newhard, who will be filling in for "Mid" while she is off. . . . Also we want to welcome Bertha Martz, who is replacing Sue Wilkins. We'll miss you, Suzie Belle. Take care of yourself. . . . I see by the local newspapers that Liberace will be appearing at the Coliseum. I wonder if the other half of that piano bench would be available? That's just in case they run out of seating capacity. . . . Congratulations to Mr. and Mrs. Adam Farrell on the arrival of a baby girl. . . . We're in the office got two brand new window panels put in. You know the kind that you can see out of. Now we can tell what time of day it is. . . . That first start on the electric drill made Helen Staley jump two feet off of her chair.

OFFICIALS of Curtiss-Wright Corp., Caldwell, N. J., visited the Specialty Component Motor Department recently. Discussing a new motor development are (l-r): R. P. Carter, Newark sales engineer; J. H. Adrian, Curtiss-Wright chief engineer; Carl A. McKay, Bldg. 4-6, and W. B. Gray, Curtiss-Wright project engineer.

## BULLETIN

DAYLIGHT SAVING SCHEDULE

At midnight Saturday, April 24, clocks throughout the city will be set forward one hour to Eastern Standard Time. However, the company will not change its clocks to Eastern Standard Time until midnight, Sunday, April 25, at which time the least number of people are working.

Any third shift operators working on Sunday night will ring in on Central Standard Time and ring out on Daylight Saving or Eastern Standard Time so that the interval worked will be one hour less than the clock card registration. The Payroll Sections will take care of this adjustment in time.

## SHAFT SHAVINGS BLDG. 19-3

by Blanche Cowell

SHERRY VARNER  
Guest Columnist

Tony Wichman made the bulletin board down at Bldg. 19-3, east end. That is with the help of a cartoon. . . . Anyone having a Scotch Collie pup look up Everett Harris. He wants one. . . . The commutator boys want to know if Willie Irmscher is working first and second trick now. They saw him going home at 11:48 the other night. . . . Bill Curtis, a former employee, paid us a visit last week. . . . We have a new television star on the west end of Bldg. 19-3, none other than Elmer "Liberace II" Wagner. He did a very good job on Gatesway to Sports, Tuesday, April 6. We would appreciate anyone with sufficient influence to help get our Mr. Herman K. Zuber on television, also. . . . We wish a happy birthday to Floyd Mutton, Elmer Wagner, and Pat Christle. May you all have many more. . . . Clarence Mathes of Sheet Metal Section left us last Friday to work at Winter St. Good luck, Clarence. . . . Bill Grover, a retired pensioner, is ill at St. Joseph's Hospital. We all wish you a speedy recovery, Bill. . . . Hubert Risser has a difficult time getting out of the west office, Bldg. 19-3, sometimes. What's wrong, Hubert, is the doorway getting too small? . . . We welcome Charles French to day shift from the night shift. . . . We wonder who it was walking down Taylor St. the other night carrying a Chevrolet manifold? No hints, but his initials are Phil Burney. . . . What was Judy Keirns doing on top of the desk the other day? Could a mouse be the cause? . . . George Saurwein was celebrating Memorial Day, a month early. He was seen hoisting a flag on top of a window pole. . . . What was keeping Ted Schulp so close to his machine the other day? Was it that his job was so pressing? . . . We are sorry to hear of Kenneth Hart's illness and wish him a speedy recovery. . . . May everyone have a happy Easter and here's hoping you will be treated well by the Easter Bunny.

## ECHOES from 19-2

by Fred McIntyre

We extend our sympathy to Ada Phillips in the recent death of her mother. . . . A speedy recovery we wish to Anthony Lupe, who has been under observation in the hospital. . . . Anyone who likes spice cake can get a recipe from Howard Berrier. He baked one recently and brought in samples. He said it was a home-mixed cake and not a boxed job. . . . Happy birthday to Catherine Eckenbarger. . . . New TV viewers for the week are Lawrence, Laisure, Yordy, and Ehram. . . . Pete Scotton was a week-end visitor in Cincinnati. . . . As of last report, Ernie Linn is now getting about on crutches. He lives at 3419 S. Barr St., and visitors are always welcome. . . . Homer Hibler has been wearing a shirt that looks like the pylon at an air race. A pylon is a tower constructed at the turns in an air race, painted to resemble a checker board, which is visible for miles to the pilot in the plane. That's Homer's shirt, you can see him a mile away. . . . Lefty Musser gave Carl Beber an upright piano, but he unloaded it too soon at Main and Lafayette Streets Saturday noon. The result was a traffic tie-up of a half hour and a battered-up piano, which Carl hopes to salvage for his efforts.

**RETIREES FROM COMPANY**—Frank J. Noll (center) gets a hearty farewell from (l-r) Al Kissinger, Alice Klingel, and Bernadine McCune, while Mrs. Noll is on hand to share his congratulations. Mr. Noll was formerly an engine lathe operator at Winter St. and was a cylindrical grinder in Bldg. 4-2 prior to retirement.

## DECATURITES

by George Laurent

Add another candle on the cake, for another year has been added in the life of Florence Brandyberry. Florence treated the gang to delicious home-made candy. No, she says she did not make it, but her mother did. Thanks, Florence, we hope that you have many more happy birthdays. . . . On April 9, Helen Brintzenhofs left us for another job. Helen will soon be married and have a full-time job as a home-maker. We wish you much happiness and success on your new venture, Helen. We will miss you, but hope that you don't lose all contact with your former co-workers. . . . On April 7, 1918, the wedding bells rang out for Gladys and Willard McBride. Our best wishes and congratulations to both of them on their 26th anniversary. Hope that you get to celebrate many more of them. . . . Variety is the spice of life, so Margaret Fruechte changed from the

usual milk chocolate bar that she usually eats to one of cardboard. Of course this only happened on the first day of April, so perhaps someone was just trying to fool her. . . . We wish a speedy recovery to Ralph Rabbitt, who is a patient in the Parkview Hospital in Fort Wayne. . . . We wish to express heartfelt sympathies to Ray Moser upon the death of his brother, Mary Fennig upon the death of her father, and to Jay Baker upon the death of his sister. . . . We have some wonderful machines, intelligent, too. They can even understand a spoken command. Right, Noah? Noah Roth's shirt was caught in a drill press and instead of turning it off he just yelled, "whoa." . . . Any information regarding tax refunds see Jay Moser, if it is on ball tickets, that is. . . . Anyone finding a hillfold please return to Harvey Hileman. It was lost (placed) near the concessions last Friday. . . . Pennant rumors: Chet Kleinknight, Boston Red Sox; Kenny Gaunt, Cubs. It will be a nice series.

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Edna Parker wondered why her ride hadn't shown up after she had waited so long. She took a look at her watch and discovered that she was an hour too soon. . . . Walt Deal received a lot of unexpected birthday gifts. We hope you had a happy time. . . . Rowland Parker had a good excuse for being late. He was caught at 3:18 p.m. at the gate exit and couldn't get in, so he backed up to Annie's until it was over, meanwhile consuming a few pretzels. . . . Emmett Owens' coke cost him 15 cents for four times. Finally his luck changed and he is much happier. . . . We didn't know Bea Adams had theatrical talent in the family, but we found out Sunday at the Spring Revue. Her son, Jerry, took part in the program. You did a nice job, Jerry. . . . We wish everyone a happy Easter day.

## TALES from TAYLOR SECTION 113 TAYLOR ST. by Harry Parker

After learning that the GE Club Spring Revue was quite a success, Lavern Amstutz became very unhappy. It seems that he became confused as to the date of the show and thinking it was the week previous he discarded his tickets. Then, only too late, he realized that he had destroyed the goose that laid the golden egg. Art Brandenburg, being an interested spectator at the show, was quite thrilled when the tall lady in one of the acts descended from the stage and kissed him on his balding dome. Shortly afterwards the thrill turned to fear as Shorty, another entertainer of the group, threatened him with a baseball bat. Evidently no casualty was suffered as he appeared to be in good condition on Monday morning. . . . Since a baby boy was born to his sister and her husband, John Terry appears to be in high glee due to the fact that he is now an uncle. He wishes in this manner to inform his co-workers of the fact that from now on he desires to be referred to as Uncle Johnny. . . . Last Saturday morning Ralph Dunlap crawled out of the hay and put the kettle on for coffee, deciding in the meantime to shave. He forgot about the kettle until he heard it boiling over. Rushing out to set it off the stove, he banked his toe into a chair his wife had recently moved to another location. Immediately she proceeded to give him a rough time because of scratching up the furniture with his toe nails. . . . Alfred (Red Snapper) Renz seems to have quite some difficulty in getting out of bed in the mornings, causing him a lot of late arrivals at the plant. In order to make life easier for Red, someone suggested inaugurating a new shift starting time to be 9:30 a.m. Then perhaps he could get here on time. We have our doubts that he would be able to make it.

## 17-3 NEWSIES

by Wilhelmina Beeth

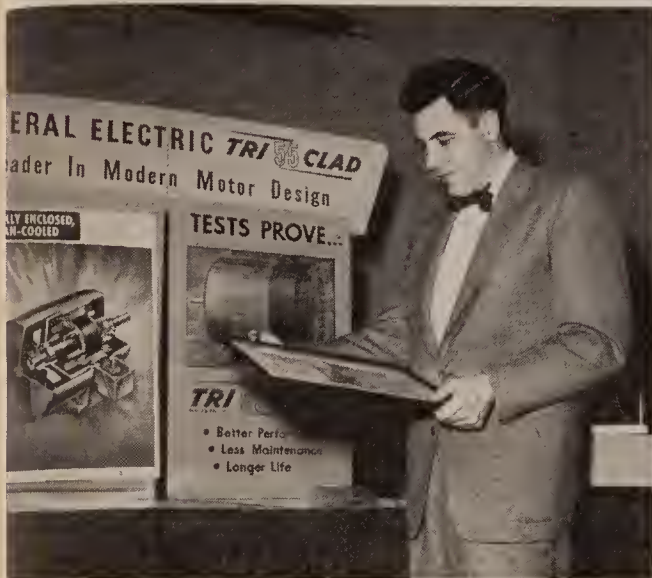

Happy Easter. We hope the weatherman gives us nice weather for the Easter parade. . . . Art and Gertie Maske were enjoying a vacation in Illinois this week. . . . Got your green thumb in working order and the liniment bottle handy? It is getting close to garden-making time and we will be needing them. . . . There was room for a lot of celebrating at the Lowe home, Henry and Idanell celebrated their 24th anniversary, also Idanell's birthday. Congratulations. . . . Happy birthday greetings to Helen Lewis and Marie Fox. . . . It isn't the heat, it's the hum-a-ditty. We have been having a bad case of pipe-dripping. So don't let a few drips bother you. But don't forget to see if your chair is dry before you sit down. . . . Speaking of drips, Mildred Huntine wishes that cherry flips didn't drip. . . . Our Elex contact girls wish to thank everyone for their help in the Easter egg sale. . . . Jeannette Smith must have thought she would give her lunch a workout. She wore her work apron to the cafeteria. . . . Glad to see Mary Schlau, Lettie Medrano, and Cindy Ormiston ringing in their clock cards again. . . . Have you looked at your boots lately? Do you have two for the right foot and one larger than the other? Ella Arn has lost a boot. . . . We extend our sincere sympathy to Ruby Wickliffe, Geneva Farrell, and Ray Johnson on the loss of their mother.

**BEST RETIREMENT WISHES**—Charles Sherland (second from right) receives his retirement gift from (l-r) Paul Bowman, Ralph Dunlap, Russell Poorman, Everett McKee, Harold Koehlinger, George App and Harold Hart. Mr. Sherland, a welder in Section 113 at Taylor St., was an active member of the safety committee for several years. He first came to GE in 1929.

# 'MOTORAMA' WINS NATIONAL HONOR

## Small Integral Motor Presentation Acclaimed 1954's Best Point-of-Sale Aid

"Motorama," General Electric's new medium of motor selling, received the annual award of the National Visual Education Association at a luncheon of the Sales Executive Club of New York City Tuesday.

Acclaimed as 1954's best point-of-sale aid, "Motorama" took first place over 2,000 companies in the competition. This was the first time an industrial product had won the top honor. The 1953 winner was General Foods Corporation.

### Win in Two Classes

Honors came to GE in two of the three classes of competition—Sales Presentations Using Motion Pictures, and Sales Presentations Using Props. The third class, which "Motorama" did not enter, was Sales Presentations Using Charts.

Receiving the award for the General Electric Company were Edgar B. O'Hora, manager-advertising and sales promotion, Small Integral Motor Department; Harry E. Smith, manager-advertising and

sales promotion, Medium Induction Motor Department; and Robert L. Pegley, manager-visual education section, Advertising and Sales Promotion Department, Schenectady.

### Portable Set

"Motorama" is a portable sales aid containing a back projection movie, flip-up charts, a cut-away motor and other visual features of the Tri/Clad '55' motor manufactured at the Winter St. Plant. It is used by a team of two salesmen who take it directly to a customer's plant and give the presentation there. The complete pres-

entation takes an hour and a quarter.

### Tells Motor Story

It was designed to tell the Tri/Clad '55' story to customers and to the GE sales force by providing GE salesmen with a hard-hitting visual sales aid.

The department estimates that about 40,000 people have now seen "Motorama" which includes 90 per cent of their customers, all the distributors and many distributor's customers. District offices claim it is the "best sales tool ever designed."

**ACCEPTS AWARD**—Edgar B. O'Hora, manager-Advertising and Sales Promotion for the Small Integral Motor Department accepted the National Visual Education Association's first place award for the department's "Motorama" at a luncheon in New York City Tuesday.

**UNVEILS CUTAWAY MODEL**—Robert J. Wylie (left) unveils a cutaway model of the new totally enclosed fan-cooled Tri Clad '55' for a sample group of customers. The cutaway is part of the prize-winning "Motorama."

**DISPLAY OF STRENGTH**—Edgar B. O'Hora (left) and D. M. Doolittle demonstrate the tensile strength of the new mylar insulation used in the Tri Clad '55' motor manufactured at the Winter St. plant for a sample group of customers.

G. Does radium change into something else?

A. Yes, radium is a member of a series of radioactive elements, which spontaneously change into other elements after periods ranging from a fraction of a second to many centuries. This series starts with uranium and ends with lead. Radium is formed by the radioactive decay of what is sometimes called ionium, really a form of the element

thorium. Then the nucleus of each radium atom eventually gives up part of its mass. It thus changes to a lighter element, called radon, a gas similar to helium and neon. This decay occurs at such a rate that, after 1620 years, half of the radium you start with will have changed to radon, half of what is left will be changed after another 1620 years and so on.

Q. Can scientists tell what some prehistoric animal looked like, if they find only a single bone from its skeleton?

A. No, although it is commonly believed that they can. From a single fossil bone, or perhaps

a tooth, it is often possible to identify the animal. Then, if similar animals are known, its general appearance could be inferred. Only if most of the skeleton is known is it possible to reconstruct the animal with any accuracy.

Q. What was the method used in England recently to prove that a skull supposed to be very old was not really so old?

A. This was the Piltdown skull, a supposed fossil relic of early man, which was found at Piltdown, England, in 1911. Some authorities had thought it was half a million or more years in age. It has been found that bones, buried in the ground,

gradually absorb fluorine from the soil water, and by determining how much fluorine is present in a bone that has been dug up, some idea of its age may be determined. This method, applied by Dr. K. P. Oakley, of the British Museum, has demonstrated that the Piltdown skull is not more than 50,000 years old. The jaw that was supposed to be associated with the skull turns out to be from a modern ape. It apparently was stained with chemicals to make it look old.

Q. What would cause a rainbow to appear in the southeast about 9:30 a.m. on a winter morning?

A. Apparently this was not a rainbow, since that effect always appears opposite to the direction of the Sun. What you saw was in the direction of the Sun, which rises in the southeast on winter mornings. Probably it was a halo, a ring around the Sun, usually about 22 degrees of arc away from it, produced by the refraction or bending of light rays in tiny, six-sided crystals of ice high in the atmosphere. A rainbow is caused by the refraction and reflection of light rays in drops of water in a storm. It shows red on the outside with blue and violet on the inside of the bow. The halo, by contrast, is red on the inside and blue outside.

**LEAVES ON RETIREMENT**—After 38 years of service with the General Electric Company, Samuel F. Houser (center) recently retired. Mr. Houser was an electrician in Bldg. 8-1 before leaving the company. With him are (l-r) W. O. Luebke, Ernest Lawyer, George Thimlar, Anthony Arthur, and Harold Smith.

## RACONTEUR SECTION 114 TAYLOR ST.

by Luana Oehlhaften

If Holmes picked up a cigarette and lit it last Wednesday morning. And what do you know, it blew up. Now who do you suppose would do a thing like that! . . . Happy birthday to Kathryn Erwin and Rosie Koons. What's this we hear about that gum Rosie was passing around? . . . Louise Lambole's father arrived from Florida, April 7. We hope he will enjoy his stay in Indiana. . . . Our deepest sympathy to Blanche Mountz, whose mother-in-law passed away. . . . June Spillner is with us again after being away for two weeks because of illness. . . . All the girls want to know what kind of perfume Walt Niemeyer was wearing last Thursday. I think it was French, kids. . . . Mr. and Mrs. Paul Clendenen will travel to Linton this week-end to visit their son and family and to do some fishing. . . . Earl Greenlee and Henry Carnall must be very ardent fans of Liberace, since we understand they have received complimentary tickets from the famed pianist for his Fort Wayne concert. . . . Dorothy Money and Stan Stooki both spent last week-end in South Bend. . . . Congratulations to Keith Kalb, who was married on March 19 to Jean Hager who works in Shipping. . . . We hear Clayton Culver is on a soup diet. Wonder why! . . . Poor Paul Fremion! He bought a car, and we hear someone has a petition out to remove it from the streets. It seems you just can't win. . . . After driving his Buick for three years, Kitch discovered it is supposed to have hub caps. For particulars, see Kitch. . . . We wish to welcome Fred Boehm to the Section 114 Tool Room. Hope you like it here, Fred. . . . Doug Campbell, who was a trainee in Section 114, dropped in last Friday to say hello and good-by to everyone. Doug is

leaving soon for Erie. . . . Charlie Hazen has traded his deer cap for something more appropriate to the season. . . . Curly Alspaugh came to work Wednesday night with a present for Bill Lavine. When Bill opened the package, he found it was the transmission from his Chevy. It seems Bill lost it last fall and didn't discover his loss until this week. Bob Till says he's going to buy a Chevy. . . . Neil Allen, who will take over in the Hi-Bay area, is no stranger to most of the boys in the punch press section, as many of them worked for him at the Broadway plant. Welcome to Taylor St., Neil, we hope you will like it. . . . Lloyd Foulks, who has been off for some time, is now at the Veterans Hospital. We hope he will be released soon. . . . We will all be glad to see Bob Laver and Carl Miller when they come back. . . . The competition in the Section 114 Bowling League is running high now. The results should be mighty interesting.

## COUNT OFF SECTION 417 TAYLOR ST.

by Ruby Stoops

Delos Martin certainly has a hard time finding his car on the parking lot. . . . Clarabelle White-man is so happy over the fact that they didn't move her far from Sarah Moore, for Sarah brings in the most delicious cookies. . . . Gladys Pantizan is excited that her brother and family, Mr. and Mrs. Hagans, Steven and Michael, will arrive Easter Sunday from Paris, France. . . . Virginia Buesching's sister and family from New York City will spend their Easter vacation here. . . . Our sympathy is extended to Bertha Burnan on the death of her father. . . . Freida Flaugh is thrilled over her weight. Let's all weigh on 125 lb. scales. . . . Bernie Warner's dog insists

on sleeping in her bed. The other morning she awoke and found him across the top of her head, so Bernie thinks that is going too far. She intends to purchase twin beds. Bernie couldn't decide whether to buy her niece a tricycle or a pony. With the no parking rule on Calhoun St. she decided on the tricycle. It will be so much easier to park. . . . Hilda Steffen knows what to take to the basement in case of a tornado; hammer, saw, and crowbar. Hilda, did you leave your thermos bottle in the rest room on purpose so it could be filled with coffee. That stuff's precious. . . . Linda Wahrer's sister came home from Florida for the summer. . . . Ed Bandt, the girls think those white socks are springish-looking. . . . Ed Feidel enjoyed his birthday last Wednesday. . . . We extend our sympathy to Guy Johnson, whose mother passed away. . . . We are glad to have Laura Adams back after her recent illness. . . . We wish Eno Richter a speedy recovery. . . . We are happy to hear that Homer Ray is getting better. . . . Our congratulations go to Mr. and Mrs. Lester Bentley, who were married last Thursday. Mrs. Bentley was Thelma Harrison, our nurse.

## GENERAL ELECTRIC INFORMATION CLINIC

## PICK-UPS from 26-3

by Maxine Jordan  
and  
Helen Wagner

Between getting stuck in a 10-acre field and having his car door sprung backing out of a driveway, it was certainly a trying week-end for Allen Gillum. Better luck next time. . . . Can you imagine anyone buying a pair of shoes but forgetting where to pick them up? Mildred Leazier is the guilty one. . . . Vera Hoover will be doing some new dance steps after she takes her free lessons. . . . On such a nice warm but slightly windy day, everybody wanted to know why Mildred Leazier put her coat on. . . . Sylvia Lazoff and Beverly Willig treated Tony Tosconi to cake and ice cream in honor of his 21st birthday on April 9. . . . Congratulations and best wishes to Rose Onstott on her recent marriage. She is Mrs. Krieg now. . . . Wanda, why didn't Nancy get any ice cream Sunday? Did your luck run out? . . . That new typist in the office was none other than our own George Harmeyer. He did all right, but had a little trouble getting seated properly. . . . Small lot winding welcomes "Windy" Pequinot back on the job after being ill for a couple of days. . . . Has anyone found or heard anything

of that extra five feet of aisle that Hal Hoffman, our planning man, lost? If found, it belongs in the west end stock room. . . . We are sorry to see the people leave that have received transfers and hope they will like their new jobs. . . . Happy birthday wishes go to Levi Mercer and Rose Onstott and a belated greeting to Lonnie Rockstroh.

## TOP FLOOR TOPICS BLDG. 26-5

by Jack Lea

Leona Lethwaite scared the wits out of a few people when she stepped from the elevator and was greeted by a mouse. . . . Pearl Eger was putting on a fashion show for the finishing girls. Pearl was demonstrating the new dropped waistline. . . . Not to be outdone by goldfish-eating college students, Lillian Krudop eats bugs! . . . Ethel Brown received several wonderful gifts upon her retirement last week. The women had a pot-luck dinner for Ethel, and really went all out to make it a success. . . . Today will be the last day for Earl Waterman, who is retiring. Earl will be missed by his co-workers, always a cheery word and a smile.

**ANNIVERSARY GREETINGS**—Lyndes Burtzner (center) is congratulated on his 30th General Electric anniversary by William F. Mueller, Herbert Adamske, Harvey Petty, and Glenn Macy. Mr. Burtzner came to GE in 1924 as an apprentice. He is now a methods planner at Winter St.

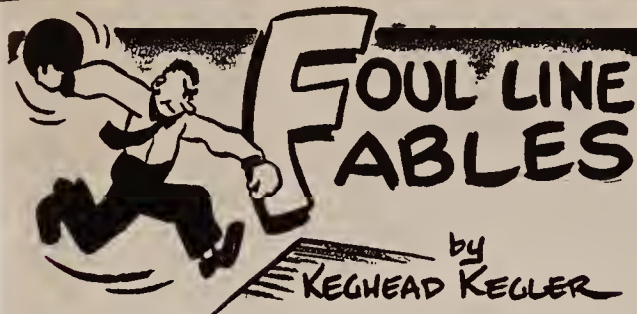

## INTERDEPARTMENT SOFTBALL

Anyone interested in taking part in Interdepartment softball this season is asked to fill in the blank below and send to Erv Huth, Bldg. 8-2.

Name .....

Bldg. .... Ext. ....

In the Small Motor League just 1½ games out in front is Two Legs' Clothes. Test is in second place with a record of 24½ wins and 14½ losses. G-Men have won 23½ and lost 15½ for third place. Denton Drugs are in fourth place with a 21 and 18 record. Very few double century scores were rolled: L. Pinkerton, 213; E. Bowser, 203; and R. Tholen, 202.

#### Ladies Friday Night

Team No. 5 still leads the league with a 26 win, 13 loss record. Team No. 8 moved into second place by winning three games. In third place is Team No. 3 with 22½ wins and 16½ losses. Tommy Williams really burned up the alleys starting with a big 224, rolled a second game of 184, and ended up with a 189, for a total of 597. Kathy Crouse scored a 543 series on games of 198, 184, and 161. Virginia Mollett put together games of 213, 178, and 131 for a 522 series. Deloris Drewitt scored a 215, 146, and 151 for a 512 series. Liz Shearer rolled a 182; Winnie Scheurich, 191; Charlotte Stanford, 181; Marge Murphy, 172; and Alice Dahman, 171.

#### Transformer

It is Autos by one-half game now leading the league with 24½ and 11½ record. Ohms are in second place with 24 wins and 12 losses. Watts and M's are tied for third place, each having won 16, while losing 20.

#### Ladies Tuesday Afternoon

Team No. 1 is out in front with 27½ wins and 14½ losses. Team No. 6 is in second place with 26½ wins and 15½ losses. Team No. 3 is in third place, only 1½ games behind the leaders. B. Fincher has rolled a 206 single game count for the league high score to date. Mary Nute has a 534 series for the high series to date.

#### GE Orphans

With a record of 29 wins and 10 losses Team No. 2 is out in front. Just two games behind the leaders is Hotel Keenan. Team No. 6 has won 20 and lost 19 for third place. Milly Reitdorff kegled a 180 and V. Kessler, a 171. Lu Dimick converted the 5-10 split.

#### Interdivision

Old Crown Beer and Ale gained a full game on the Brouwer Tire and Battery team by winning all three of their games, while Brouwer's dropped one. Walt Seidel had a 216 game for the Old Crown

team. "Big Foot" Miller slid his foot across the foul line to live-up the nickname. Art Seidel, not to be outdone, rolled a gutterball on his first ball and followed up on his second try by sliding his foot across the foul line. Old Crown won their three games from the Summit City Heating team.

Brouwer's won two games from the Apprentice five. Pinkerton rolled a 202 game for Apprentice. Frank Matthews had a 209 and Erv France, a 233, for Brouwer's. Gutterdusters won two games from the Deadheads. Tools won two from Transformer. Davies of Transformer had a 208 game. Kinney Koncessions won all three games from Harvey Bros. Vic Rump had a 631 series on games of 236, 215, and 180. Les Shroyer rolled the highest 3-game series so far in the Interdivision League. He had a 652 series on games of 216, 232, and 204. Airliners won two games from the Pindusters.

#### Men's Factory

Gary Schultz rolled a new season's high of 663 on games of 214, 217, and 232, as he led the second place Stators to two wins over third place Flanges. Ned Myer's big 237, his first 200 of the year, helped the Rotors salvage one from the leading Office team. Other 200 scores were: Bill Porter, 205; Rog Schuster, 200; Bob Lord, 204; and Seph Jackson, 209.

#### GE Fraternal

Third place Teeple Truck Lines with a 22½, 16½ record, bowled over the leading Riverview Gardens with 27 wins and 12 losses, 2 games to 1. Fifth place Elks took two from second place West End Restaurant. Sixth place K of C climbed a notch by winning all three from seventh place Monroeville Lumber. Our lowly GE Club's cellar dwellers could win only one from fourth place Peterson Elevator. For the first time this season there were no 600 series in this league. However, there were many 200 scores: G. Baumgartner, 214; Shackley, 209; D. Terveer, 215; F. Wolpert, 202; J. Murphy, 230; D. House, 204; J. Hobbs, 203; G. Schultz, 204;

# City-Wide Little League Meeting Scheduled in GE Club April 19

The GE Club will play host to hundreds of Fort Wayne Little Leaguers, their parents, managers, sponsors, and coaches next Monday evening, April 19, for the first annual "Little League Family Night." Charlie Wilt, chairman for the annual event, announced that Craig Smith, Little League city commissioner, and Bob Young, former member of the national Little League board of directors, will speak on the plans for the 1954 Fort Wayne Little League season. The meeting is scheduled to begin at 7:30 p.m.

A panel of representatives from each of the nine Little Leagues in the Fort Wayne area will be on hand to answer questions from the audience.

Movies of the action taken at two of the Fort Wayne Little League diamonds last year will be shown followed by the film "Play Ball, Son" produced by the Ford Motor Company.

All those who are interested in the Little League program or are interested in becoming coaches for the 1954 season are also cordially invited to attend. Youngsters from 9 to 12 who may try out for Little League teams in May are also encouraged to attend this meeting with their parents. The Little League season starts June 14.

Members of the Annual Meeting Committee are: Charlie Wilt, Craig Smith, Bud Jornd, Fred Coffee, Ray Bauer, Fred Berghoff, Bob Young, and Don Dannecker.

## GE Club to Enter Softball Nine In Main Auto Major League

by Dave Jones

It will be good news for all the softball enthusiasts to learn that the GE Club is going to sponsor a team in the Main Auto Major League again this summer.

Dick Thomas, who will manage the team this year, attended a meeting at the Main Auto last week and wants to inform the interested parties of the available information.

### Owls Practice Tues.

Owl softball practices will start Tuesday, April 20, in the GE Club gym, manager Benny Penkul reported today. Any interested players should bring their gym equipment and glove. Practice sessions will start at 10 a.m.

The next practice is slated for Tuesday, April 27.

The league which operated five teams last year, is very hopeful of having a larger participation this season. The GE Club is to be commended for choosing this league to enter a team, as it includes some of the best teams in the Fort Wayne area. All league games will be played at the Municipal Beach diamond and will be played on Tuesday and Thursday nights.

The first practice, which will be confined to pitchers and catchers, will be held Wednesday, April 21 from 5 to 7 p.m. in the Club gym.

All players interested in trying out for the team are requested to contact Dick Thomas, Bldg. 26-4 or to call him on Ext. 336.

## BLOOD DONORS

The following employees donated blood during the week ending April 2. These donors were recruited from Specialty Transformer Dept. and Small Integral Motor Dept.:

Boleslaw C. Biega, Thomas D. Cowan, Richard W. Fisher, John H. Jackson, Harold Orr, William F. Rodocker, Charles E. Adams, William W. Anderson, James E. Bird, L. K. Bodenhamer, William R. Boling, Wesley W. Brooks, David F. Brunett, James H. Capps, Joseph H. Clark, Jr., Joseph M. Collis, William H. Crouse, Hilda Doehrmann, Lawrence H. Ehinger, Edward C. Ehrman, George H. Finkbeiner, Arthur H. Fortier, William A. Garney, Beverly Goshorn, Betty J. Grim, Beth Moore, Robert E. Murphy, Shirley A. Richard, Wayne W. Weismer, and Jewel Wickliffe.

William R. Boling, James H. Capps, and Wayne W. Weimer are one gallon donors.

G. Laurent, 235; R. Mutschler, 202; H. Strickler, 204; C. Oetting, 200; A. Zelt, 204; A. Appelman, 215; R. Lord, 201; N. Steury, 206 and 202; and R. Macklin, 212.

#### GE Women

Mary Miller rolled a big 235 game and a 547 series but the third place Office team could win only one from the second place Hi-Spots. Emma Lou Kukelhan came up with a nice 188 game to help the leading Last Frames salvage one from the last place Spares. Other high scorers were Myers, 170 and 167, and A Reynolds, 163 and 161.

FISHIN' FEVER—Carl Reiter, Taylor St., strikes a pose for the camera which will be a mighty familiar sight in the days ahead, as the fishing season gets in full swing at all the Indiana lakes.

## WINTER STREET JOTTINGS

by Marjorie Hill

Have you noticed the sparkle in the eyes of Marna Wilson? It is in the reflection from her new diamond, left hand, third finger. The donor was John Bosch, a former Winter St. TE'er. . . . Danny Hill is one person who was not particularly impressed with his new TV. After watching for five minutes he turned it off and went to the movies. The picture might not have been any better but at least it was newer. . . . Anita Slusher claims to have the best eyes on the second floor. She can spot a fish through 10 ft. of water and predict its weight within an ounce. She says it is easy. The fish are connected with scales and all she does is read them.

**HOWDY TO:** Epsie Jo Gregory, IBM; Frank Loch, Engineering; Martha Mizell, Drafting; and Jack Olinski, Tool Room. We are glad to see that Bill Bennett and Clarence "Red" Mathes have returned after a "visit" at Broadway. . . . Want to buy a chicken? See Jackie Frey who has recently moved to a farm in Scott, Ohio. She brings to work wondrous tales of the two drum-sticked critters. . . . Gladys Staley, Al Distler, and Fred Woerner had birthdays this week. Gladys distributed chocolate cake (best by taste test among those of us lucky enough to sample it); Al gave out cigars (we didn't share this, but they smelled good); and Fred dispensed kind words. All were appreciated.

John Reardon gets a tan the hard way. Most people buy a lamp at this time of the year. John bought a new convertible. . . . We are going to miss Virginia Moore who departed last Friday. Co-workers gifted her with a glamorous nightie and items for the expected "newcomer."

Jane

Here's a sweetheart, Tom McCrea's little girl, Cynthia Jane. She's 5½ months old now. . . . Thelma Proxmire brings the oddest lunches. Last week she showed up with a half dozen raw eggs. Wonder if she fixes her own lunches? . . . Charlene Bierbaum has a new red Buick and a mink cape. Rumor has it that these were purchased to impress Liberace on his coming visit. . . . Doris McDaniel is the only girl who occupies a drafting board at our plant. Doris is an artist from the Data Bureau at Broadway and is doing a special assignment here. Glad to have you with us, Doris. . . . Collins Mannon is the most energetic being! He walks several miles to work every day. We have seen him turn down rides even in squashy weather so as to get his exercise. He claims this is easier than cutting down on food. His wife is such a good cook. . . . Eileen Salmon was highly indignant to discover Bill Mueller down on his knees collecting night crawlers. If he was going into the bait supply business she felt she had a right to part of the profits. After all, he was collecting them in her yard. We understand that they finally agreed upon a percentage deal. Eileen collects 1 cent each for all that wiggle and tosses in the straight ones for free if he is able to palm them off on anyone. . . . Don Anderson was all prepared for a vigorous summer, new golf clubs, car, fishing gear, etc., when spring fever hit him. We will be watching the For Sale ads, Don. . . . If Virginia Worden gets too discouraged while learning to operate the switchboard, we suggest that she contact Esther Meeks. Esther has recently returned to Winter St. and can tell some interesting tales about the switchboard as it looked 28 years ago when she was the operator. At that time we did not have dial phones and all calls had to be placed directly with the operator. . . . We are sorry to report that Ada Romanowski is in the Lutheran Hospital. If you have a spare minute, drop her a card.

Larry Magsamen reports a nice rambling vacation. His mother's green thumb began to itch so he drove her back to Norfolk, Nebraska, to tend her strawberry plants. In between plants he visited with kin-folks and old neighbors. . . . We are glad to hear that Bob Branning's daughter, 7-year-old Kathy, is home from the hospital after a minor eye operation. . . . One of our most ardent camera fans, Karl Hofacker, gave up his time-and-a-half Saturday work to take pictures at the YMCA Photo Fair. The only thing he has to show for the day is a red face. He had his camera set for outdoor instead of indoor pictures and none of the snaps turned out.

The cute little miss in the picture below is Janet, age three, the pride of the Dick Tholen household. Dick works in the Toolroom. . . . James Barrick is going around with a cat-that-ate-the-canary look on his face these days. He not only has his garden planted but some of the produce is showing above ground. We will be looking for green onions to go with our sandwiches. . . . Several people have inquired for our blood donor schedule since they have signed up and have not yet been asked to donate. We are scheduled to donate on the following dates: April 29, May 27, June 24, and July 22, and September 2. Since our quota is 8 people each time it may be a little while until we get around to you, but your blood is wanted and needed.

The most unusual celebration of the month was that observed by Marge Ogden and Tillie Hautch. They marked their fourth anniversary with GE by treating girls in the Hermetic Room to candy. . . . The balcony IBM room is brightened these days by the new engagement ring displayed by Carolyn Windhorst.

Janet Tholen

WITH GE 30 YEARS—Maurice Sordelet (second from left) is surrounded by well-wishing co-workers on his 30th General Electric anniversary. Left to right are Ed Schafenacker, Art Thieme, William Paulson, Norman Jackemeyer, Elmer Auman, and George Spittler. A former apprentice, Mr. Sordelet is now a foreman in Bldg. 19-4.

## SLEUTHING in 4-6

by Al Happel

WELCOME TO Dick Wallace, working for R. W. Dochterman. . . . CHANGEABLE CHARLIE has changed his mind again. He has been telling the boys that he was getting a 1954, red and white, hard-top Buick. Now he says he is getting a 1954, blue and white, hard-top Oldsmobile. When are you going to make up your mind, Charlie Wurm. Maybe next week you might get a rocket ship. You never can tell what you will get, can you, Charlie? . . . THE MYSTERY is what happened to the necktie? A week ago last Friday Larry Diller came to work all sharpened-up. He had on a beautiful necktie. Since then we have never seen the necktie again. What happened to the necktie, Larry? . . . HAPPY BIRTHDAY to Dorothy J. Brubaker on April 17. . . . FORGETFUL KATE: Last Thursday Katie Gardt went to lunch at the cafeteria as usual. When she finished she put her empty tray on the tray conveyor and started to pay her bill. She suddenly got red in the face and said, "Oh, I lost my billfold." She started running after her tray that was going with the conveyor. She finally reached her tray, puffing as she was tired out. But she found her billfold and went back to pay her bill. It was a very trying experience, wasn't it "forgetful Kate?" . . . WE BID a belated farewell and good wishes to Jerry Coleman, as he left us last week to go to his next assignment. We will miss you, Jerry. . . . SPRING IS IN THE AIR, flowers popping up all around us, Easter bunnies scampering here and there. . . . Lela Ompach is throwing away her cast and dunking her tootsies in tubs of hot water so she can come back to us. Won't that be wonderful to have her back with us? We are anxious for your return but we don't want you to ruin yourself in the effort. Walk, don't slide. . . . THE NEW TE in Max Barrow's group is Laddie Petricha. He hails from Cicero, Ill., attended

Illinois Institute of Technology and is on his fourth test. His hobbies are brides and tennis, and gals he's single. . . . We said farewell to Dick Tanner last Friday, leaving for a test assignment in Schemectady. . . . WE WANT to wish Shorty Becker a speedy recovery. Shorty became ill quite suddenly last week and was taken to the hospital. Hurry back.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

We wish to extend our deepest sympathy to Elsie Dunfee in the loss of her brother. . . . We have no news from the Old Soldiers' Home this week as Joe Eifried is on his vacation. . . . Kate O'Connor is still having the luck of the Irish as she won another watch last week. . . . Belated birthday greetings go to Ann Lee. . . . Welcome to Frances Davis and Louise Reinhart in the winding section. . . . Nadine Rees is back with us again after an illness. . . . Mel Kestner came in Monday morning with a big bass fish head. What we want to know is, "Who caught it for you, Mel?" . . . Georgia Wieler, Golden Arms, and Eula Murray are all on our sick list. . . . Joye Schroyer is back from Florida and says she really liked it there. She wants to go back again this summer. . . . Now that spring is here, the girls think Pauline Settle should let "Pete" out of her drawer. . . . Helen Kritzman should bring her own food instead of eating the help's all the time. We wonder where she got her nurse's degree to do all of the medical treatment she has been giving lately. . . . Welcome to Harold Wright and Harold Stigh. . . . Laura Krauskopf entertained Betty and Frank Walker of Chicago over the week-end. . . . Dave Reidt thinks he is pretty smart now that he and his wife have all of their spring housecleaning done.

Nothing is ever lost by politeness—except your seat on a bus.

FOR SALE

WANTED

FOR RENT

LOST & FOUND

AD-  
VERTISEMENTS

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 18-4.

**CLOSING DATE**  
Monday Noon, April 19, 1954

**BICYCLE**—Girl's. H-31622.

**THANK YOU**

I want to take this opportunity to thank my friends and co-workers in Bldg. 4-4 and 6-4 for the many messages of good wishes and the very nice gifts. These all contributed to my speedy recovery and I am looking forward to being with you in the near future.—Delphos A. Winter, Bldg. 6-4.

**SMOKEHOUSE SAYINGS**  
Bldg. 22  
by George Winans

The Smokehouse extends a hearty welcome to Elma Newhard, the gal who is battling for Mildred Messer, while she recuperates from her operation. Elma has a husband who is very jealous, so she told him all of the boys in Bldg. 22 were old and ugly. Elma, how could you? . . . Three cheers for Erv France and Frank Mathews, Bldg. 22's bowling champs. They came home loaded with prize money and trophies. Erv France has other talents besides bowling. I understand that he is quite a drummer. To see him in action try the Elks Lodge at Columbia City some Saturday night. . . . Red Juergens' wife had quite a time before and it turned out to be a real masterpiece. In fact it looked so good that Red ate it. The next day she baked another but it flopped. Setting it aside for Red's supper, she proceeded to bake another, but it flopped, too. The third one came out all right, but while she was frosting it she sneezed and blew out her tooth. All's well that ends well. The supper was a success, the cake was delicious, and that front tooth out makes it much easier for her to eat spaghetti. . . . Eugene Miller says now that warm weather is here, they ought to start putting ice cream in the vending machines again. Where have you been, boy? They have been full of ice cream all winter! . . . Dan Ferguson's dog finally met his Waterloo. The pup has always had a mania for roughing up cats. Last week he ran across the prettiest black and white striped kitty—pew! . . . Happy Easter everyone. Let's all go to church this Sunday. Even if you haven't got a new outfit, go anyway. He won't care how you look, just so you come.

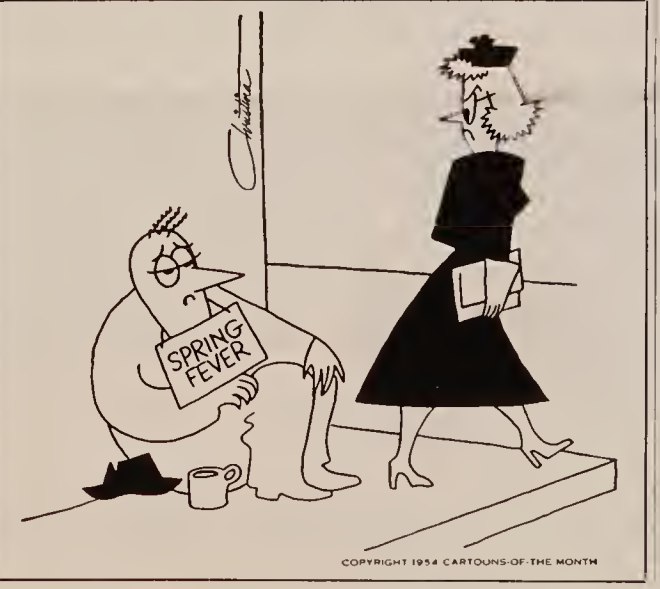

**TOOL BITS**  
Bldg. 19-4 and 5

Jim Buchheit planted some grass seed in his front yard and when he saw the birds begin to feast on it he put out a genuine scarecrow to discourage them. But Jim's scarecrow seemed to have some special power to attract more birds and they welcomed a place to sit between meals. Might as well join a bird-watcher's club, Jim. . . . John Ebert came around to say good-bye to everyone at his retirement last Friday. John didn't tell his wife that Friday was his last day and even sneaked his suit of clothes out of the house on Thursday night and put them in his car. He planned on breaking the news Friday afternoon after work when he met his wife and daughter (who was in on the deal). We haven't heard any stories on the outcome of the situation as yet. Many happy years of retirement, John. . . . The lathe section welcomes Norman Koons, Wes Craig, Jr., and James Fatzinger who are replacing Jim Paxson, Bob Silk, and Cliff Creason, all apprentices. . . . Chet Reynolds and a friend went fishing Sunday afternoon without much luck but did enjoy a few laughs. One of the sidelights occurred when Chet became a little absent-minded and forgot about a low barbed-wire fence he had crossed several times previously to get to his fishing spot. No damage was done except a few scratches and a very red face as he picked up himself and his fishing rod. Chet says flying is fun but the landing is a little hard. . . . Max Baron is now convinced that a hammer isn't the best tool to use on a glass door knob. Max says he only tapped it lightly but we think he means he hardly hit it. . . . John Stetler claims he is watching his weight but we have reason to doubt it. Saturday evening he fried three big slices of mush for supper and they tasted so good he followed them up with three slices more. Sunday he gave a repeat performance for breakfast. Getting any thinner, John? Come to think of it, he did just say he was going to watch his weight. He didn't say what he was going to do about it. . . . We hear that Charlie Bracht's remodeled bathroom is almost done as he just installed the pay door. Charlie got the idea from a toll bridge. . . . Congratulations to Richard Richhart, our vapor blast operator, who was married last week-end. . . . Times surely have changed. Ross Cohagen now uses a standard size copper hammer to drive out guide pins instead of the big sledge he used formerly. . . .

Bob Truelove came to work the other day complaining of being stiff and sore. He was with a group of 4-H boys the night before and forgot he wasn't one of them. . . . Harry Mitchell and Charles Abbot pinch-hit for Lowell Welker and Frank Druhot in the euchre game the other noon and promptly got skunked. . . . Ed Boedeker holds back when howling in the Tuesday night mixed league with his wife, but let a tournament dollar sign come up and bang, bang—614. . . . Fred Koenig and Les Fanning traded places with Bob Mills and Derward Franke in the design sections. . . . We hope George Houser has recovered from his illness. . . . Bill Hunt took on an MG with his Olds 76 last Saturday. The Olds is now in the garage for a new transmission.

**THISA & THATA**  
Bldg. 4-3 and 4  
by Helen Engle

We have all heard of the absent-minded professor, but here is one that beats anything going. It seems that Betty Dunn worked in Bldg. 17-3 for some time and recently was transferred to Bldg. 4-4, but the other morning she came to work and as she was hanging up her coat turned to the girls around her and asked, "Oh, were you transferred over here, too?" only to find out that she had gone to Bldg. 17-3 and not to Bldg. 4-4. . . . Ruth Tutwiler is among the new TV owners. . . . Jim Stauffer, a former co-worker, is going to school at Indiana and in his spare time is working with boys at the YMCA. They entered a kite in the city contest and won first for having the largest kite that would fly and so got their pictures on the front page of the Bloomington paper. . . . Belated birthday greetings to Geneva Moody. . . . Veva Healy also broke down and got a TV. . . . The rear view mirror that John Figley has ordered must be an extra large one as it is a long time getting here and he hasn't got one up yet. . . . Congratulations to Floyd Stienbacher. He has another new granddaughter, his eighth grandchild. . . . We wonder who scared who the other day when Frank Barnes and Ruth Tutwiler met head on as he was trying to close the door and she was trying to open it. . . . Birthday greetings to Wava Augenbaugh who is celebrating on April 14. . . . Paul Arnold wants someone to help, not on his house, but to serve him his drinks, coke or buttermilk, for free. . . . Harry Heckley is on his third week's vacation. He says he is going to do some cement work. . . . Our sympathy goes to the family of Daisy Ford. Daisy, a former co-worker, died last Sunday after a serious illness. . . . Maggie Bopp is recuperating fine from her recent operation. . . . Alice Claymiller was surely tickled to see her mother after a two month's visit in Arizona. . . . Barbara Smith, Bonnie Wolf, Ruth Summers, and Ginny Burkett got together and colored eggs for Elex. . . . People, beware! After all these years Grace Ober has finally decided to learn to drive a car. She is practicing on backing these days, so if you see someone backing down the highway get out of her way because it just might be Gracie. . . . The 1x55 girls went to see the Globetrotters at the Coliseum last Monday evening. . . . Irene Williams went to town to buy a new Easter bonnet and she ended up going home with two hats. It happens quite often when women go shopping.

## WHAT ARE YOUR PLANS FOR HIM?

Sure you want him to be the local marble champ!

And you want to feel your chest swell when he hits his first home run!

These are wonderful plans for any Dad and Mom to have, but what about your plans for a dozen years from now?

Will you have the money to send your boy on to a technical school or a university? You will, if you start today to set aside a part of your income for his college expenses. Save each pay day by buying bonds under the GE Savings and Stock Bonus Plan. The bonds will grow in value over the years; and, in addition, you'll receive a bonus in GE stock plus dividends if you leave your bonds on deposit for the 5 year holding period.

## Share Owners Vote 3 for 1 Stock Split

About 20,268 General Electric employees, who are participants in the GE Savings and Stock Bonus Plan, will become share owners this year as the result of the approval of a three-for-one split of GE common stock. This split was voted at the annual meeting of share owners held this week.

### Negotiations Open

General Electric management representatives opened national negotiations with IUE-CIO and the UE in separate meetings at the company's New York headquarters this week.

Meetings also are being held elsewhere around the country with representatives of most of the other unions representing General Electric employees, covered by some 90 contracts, where appropriate at this time. Locally, a meeting has been arranged with Lodge No. 70, IAM-AFL for Tuesday, April 27.

As we went to press, the company had made no statement of position on the unions' demands, which were presented at the Tuesday meetings.

National negotiations will continue next week with company representatives scheduled to meet in New York with UE on Tuesday and IUE on Wednesday and Thursday.

The split, recommended by the Board of Directors, was made in recognition of the great growth of the company since 1930 and is expected to benefit share owners and the company by improving the market for and the marketability of the stock.

It is estimated that in 1955 about 49,000 employees will receive 175,000 of the new shares.

The Savings and Stock Bonus Plan, which was inaugurated in October, 1948, requires that U. S. Savings Bonds, purchased by employees through payroll deductions, be on deposit with the company for a five-year holding period in order to qualify participants for the 15 per cent bonus in GE stock allocated to them.

The statement follows:

"The General Electric Company announced that share owners at their Annual Meeting on April 20, 1954, approved a proposal to convert the present no par value common stock into a \$5.00 par value common stock on the basis of three shares of the new stock for each share of the present stock. This three-fold increase in the number

**HAPPY SHAREHOLDER**—News that each share of General Electric stock will split three ways brought a big smile to Eugene Miller, Bldg. 22, as he learns that he, like other members of the Savings and Stock Bonus Plan, will become a share owner this year as a result of the split.

of shares is a recognition of the great growth of the company since 1930 when the last previous split was made, and it is expected to benefit both the share owners and the company by improving the market for and the marketability of the stock.

"The market price of the Company's stock reached \$100 a share on Feb. 26, 1954 and subsequently has exceeded this price. The pro-

## Ground Breaking Ceremonies Held For Holland Plant

Ground breaking ceremonies for a new Hermetic Motor plant in Holland, Mich., were conducted Wednesday, April 21, at the site east of that city. Manufacturing at the new plant is scheduled to begin early in 1955, when the department's headquarters will be transferred to the new location.

Speaking at the ceremony, Ab Martin, general manager of the Hermetic Motor Department, said, "This new plant is evidence of General Electric's faith in one of the fastest growing industries in our economy." He stated that the air conditioning industry alone should pass the billion-dollar-a-year level within the next decade.

First to actually break ground at the occasion was Walter Vanderhaar, representative of Holland Township. He was followed by Holland Mayor Harry Harrington and Mr. Martin. As Mr. Martin passed the shovel to a representative of the general contractor, a bull dozer began excavation. Participating in the ceremony, Rev. Kok, of Holland, gave the invocation.

Others present for the occasion included H. A. MacKinnon, vice president; C. M. Dunn, manager of the Michigan district; M. T. Law-

## ★★★★ Customer Visits Here

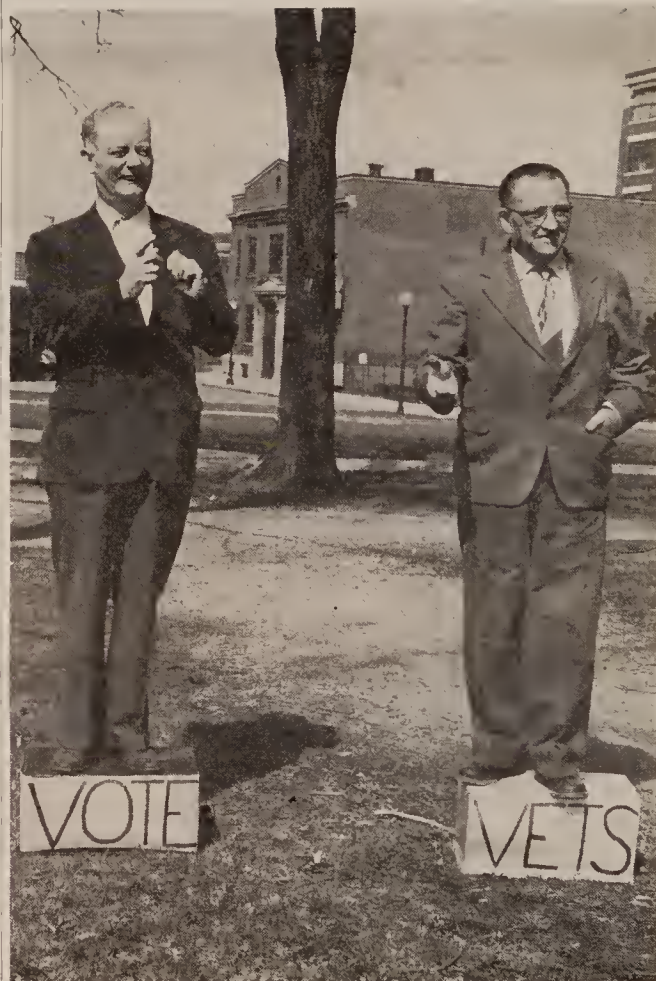

The York Corp. is a four-star GE customer as far as Fort Wayne is concerned. Unique among our customers, this corporation buys products from four departments, Hermetic Motor, General Purpose Component Motor, Specialty Component Motor, and Appliance Control.

Representatives of York Corp. came to the plant last week to discuss items of business including what GE can do to help York increase its share of future air conditioning business. The visitors also took a

tour of the wire mill and production lines at Taylor St. during their one-day visit.

Talking with Ab Martin, general manager of Hermetic Motor, are: H. L. Consley, director of procurement at York Corp; J. J. O'Rourke, of GE's York, Pa. office, and J. G. Bergdoll, Jr., vice president and general works manager, York Corp.

York Corp. manufactures large and small air conditioning room cooling units.

**PRESIDENTIAL LINE-UP** in the GE War Veterans Association election includes candidates Roy Brower, Bldg. 6-4, left, and George Graue, Taylor St., right, who are shown urging members to take part in the election. Both are charter members of the organization, which will elect officers tomorrow evening at the annual banquet.

"MODERN MAGICIAN"

## Good Jobs Are Born, Not Made

No one needed an automobile when R. E. Olds put his horseless carriage into production 60 years ago. No one really wanted to fly when the bicycle-making Wrights of Dayton flew their first powered plane 50 years ago. Yet two new ideas for moving human beings from one place to another marked the birth of direct and indirect employment for millions of Americans. They give dramatic emphasis to a basic economic truth. Good jobs in America are born when the ideas of inventors are backed by the initiative of investors.

Consider our own company for example. In Fitchburg, Mass., an entire work force of more than 1,000 people earns more than \$750,000 in wages every month—on products that GE didn't make before World War II. In Evendale, Ohio, upwards of 10,000 men and women are turning out GE jet engines—motive forces that no American company was producing in 1939. At Appliance Park in Louisville, Ky., and Electronics Park in Syracuse, N. Y., wages in excess of \$25 million a year are being paid to thousands of GE employees who make refrigerator-freezer combinations, room coolers, automatic clothes washers and driers, television sets and clock radios—all products that GE did not make 15 years ago.

And so it goes throughout GE plants employing more than 240,000 men and women in more than a hundred cities. Small towns like Hudson Falls, N. Y. and Ludlow, Vt. Medium-size cities like Fort Wayne, Pittsfield, Mass.; and Rome, Ga. Big cities like Cleveland, Detroit, and Milwaukee. Communities of all sizes in more than 20 states are prospering today because GE jobs, by the thousands, have been "born" since 1939. More than \$50 million of GE's billion-dollar payroll last year went for work that was born through our company's constant "moving ahead."

America's good jobs—undeniably the best in the world—are born in the minds of men who explore the unknown; in the courage of investors who finance the untried. In their willingness to "plow back" a big part of their earnings since 1939, GE's share-owners have been making thousands of new jobs for new GE employees—while increasing the seniority and other protections of longer-service employees on old jobs.

## 6-4 AIRLINERS

by Moe Satterthwaite

The third time must be the charm for Dave Smith. It's a boy. Congratulations to the proud parents. . . . Alma Volz visited her grandchildren in Cincinnati, Ohio, over Easter. She was the Easter bunny as she had her car filled with Easter toys and goodies. . . . Johnny Ormiston is sporting a new red Plymouth. . . . The girls in 2x35 are always discussing good things to eat or trading recipes. This puts Dorothy Webber and Thelma Wyss in a bad spot as they are on a diet to lose 30 lbs. Thelma says she'll have to drink carbonated water as that's the only thing that doesn't have calories. . . . If you're looking for a free coke anytime match coins with a certain dispatcher. He paid for 32 cokes last week. That must be some kind of a record. . . . Fred (Butterfingers) Zirk broke a jar of cold cream. A few people sitting close by raised off their chairs a few inches. . . . We are all happy to hear that Dell Winters is getting along so well. Dell hopes to be back to work real soon. . . . Welcome to Aileen Miller. She's the new girl in Bldg. 6-3 office. . . . Three more have joined the Armchair Theater: Carol Sanderson, Jim Craw, and Arno Winebrenner. Arno says the buttons on her TV work easily as her only grandchild loosened them up over the week-end. . . . Anyone wanting advice on replacing new picture tubes contact Andy Anderson. . . . Walter Starke showed the boys how to bowl last Friday night. He rolled a big 244 for a 612 series.

Bob Hoffman, John's little helper, is taking a transfer this week. Good luck Bob. . . . The girls on the 400 cycle line visited Pat Patterson's place of business Monday night. A toast was proposed by Eleanor Whitehouse: Here's to you, as good as you are; here's to me, as bad as I am; for as good as you are and as bad as I am; I'm as good as you are as bad as I am. . . . Happy birthday to Don Greenler, Al Olson, Merl Keesler, Eugene (Nature boy) Meier, Millie Koehler, Gertrude Bartaway, Walt Richardson, Max Herzog, Alfred Lepper, Marie Bruggencate, and Gerald Briggs.

## THISA & THATA

BLDG. 4-3 and 4

by Helen Engle

Peggy Bahde and Fern Painter are coming right along in their first-aid classes. They're learning how to bandage now. . . . Helen White is ready any time to go to Chicago to see a hall game. . . . Walter Blomberg was in to visit us this past week. He is enjoying his retirement very much. . . . Helen White and Fern Painter have become great wrestling match fans. . . . Wedding bells are going to ring for Donna Crow next Saturday. Bonnie Engleking, Ginny Davies, and Ginny Burkett got lost on the way to the party in Donna's honor, but with the aid of Donna's fiancé they made it on time. . . . We are sorry to hear that Mildred Carpenter is back in the Lutheran Hospital and we hope the operation is not too serious. . . . We wish Virgil Dahlman's son a speedy recovery following an emergency appendectomy. . . . Grace Ober is so happy. She thinks she will get her diploma from driving school Tuesday. We'll let you know the results next week. . . . What strength! Rodger Williams was getting ready to wash his car and fastened the hose on. When he pulled the hose, the faucet came out of the side of the house! . . . Anyone wanting

dandelions to eat next winter call on Helen Struver. She got two bushels last Sunday and is planning on freezing them to eat next winter. . . . Fred Feever had a big moving project on at the lake. We wonder if he moved "it" into or out of the lake? . . . Jessie Hamilton got a nice birthday gift, a new GE television set. . . . Hilda Sieler was a little tired on Monday morning but she said she had a good time at her niece's wedding. . . . It must be the coming of spring that makes John Figley so ornery. . . . How dumb can some men be? It took the little woman to straighten out the rhubarb plants that Don Mason planted. He and his neighbor both planted their new rhubarb starts upside down but their wives discovered the error and now they just might get some pie. . . . We wonder what made Clarence Rump finally buy some matches. Did his friends run out? . . . Floyd Stinebacher killed one of his sheep. We were always under the impression that a good sheep herder loved and protected his sheep, but maybe Floyd killed his in self defense. . . . Ruth Tutwiler had plenty of cake on hand last week-end. She baked two, one for home and one for a fair, only to find out that the fair was a week away!

## THE BIG WIND

SECTION 417 TAYLOR ST.

by Rachel Mounsey

Congratulations are due to Sarah Pulfer, who became engaged to Don Reinhart. Congratulations to both of you. . . . Lewis Oitiz has received a new baby girl. . . . Mel Kestner says he can see more fish in the paper every day than he can see at Hamilton Lake. . . . Ethel Koontz was pleasantly surprised Easter morning, when she received flowers from her son in England, who is serving in the Army. . . . Iris Allen spent Easter in Indianapolis. . . . Lee Hatch and S. L. Wilson both are in the state of Alabama. . . . We wish a very speedy recovery to Dorothy Wieler, who is ill. . . . Naomi Longworth has joined the second trick. Lena Stump and Ruth Bonham have also left us. Mildred Hindlang is now on days. . . . Ross Strodel is crippled up this week. He says he sprained his ankle working in the yard, but we believe it is just old age and Ross doesn't want to admit it. . . . Clarence Gardt gave Jenny Mathias a mate for Pete the other day, so now Jenny and Pauline Settle will have to get together. . . . Peg Ballinger is handy with the tools. Saturday we had a day off, so Peg built a swing for her grandson. . . . Kenny Wills had his seasons mixed up. Kenny saw Santa Claus instead of the Easter bunny. He took the jackpot Thursday night with a 228 game. The gang found out it doesn't pay

## COUNT OFF

SECTION 417 TAYLOR ST.

by Ruby Stoops

Bertha Burnau wishes to thank the co-workers and friends for the flowers and cards sent in their recent bereavement. . . . Hilda LeCoque, with those good-looking new rings you received for your anniversary gift, the girls are wondering if you were on your second honeymoon last week! We are glad to have you back. . . . That car stalled in the main driveway of the parking lot last week was none other than our Betty Bertsch. The girls are wondering, Betty, why the man didn't give you a push instead of just standing and talking to you! . . . Was Wally Castle so weighted down Saturday with that fried chicken dinner that he couldn't think where he parked his car? . . . Ed Brockall, that was a mighty big bass head you brought in to prove your luck Saturday.

## 2-2 TALES

by Belle Buchan

Could it have been the warm spring weather that caused Bob Gebert to fall off of his chair. Well whatever it was, Bob, you should watch that. It could be dangerous. . . . We welcome Agnes Godfrey to our office. Agnes is connected with our new employment office, having come from Bldg. 21. . . . It must be love that makes Sally Lepper sit in the park every noon, looking dreamy-eyed. . . . Vic Cartwright got in some advanced fishing practice when he fished the stationery room keys from the top of a cabinet inside the high fence. He got them on his first cast, too. . . . George Soule and Adrian Weaver are still trying to get accustomed to working nights and sleeping days. . . . Everyone is remarking how much Dick Madden looks like Jack Dobson. In fact the fellows themselves are a bit doubtful as to who is who, but everything will be straightened out and we all had a good laugh at their expense. . . . We extend our sympathies to Kenneth Hyman, in the death of his mother.

to show him the money, because he'll grab it every time. . . . Have you noticed the new ring that Dick Pinkham has on his little finger? Dick claims that is the only way people will know that he is partly Indian. . . . Ray Burris was so busy plowing Saturday that he forgot to come in. . . . Due to a change in shifts, Ruby Stuckey will be your reporter until I come back.

Psychiatrist: "Are you troubled by wicked thoughts?"

Patient: "Well, no. Fact is, I kinda enjoy 'em."

## Primer on Communism: No. 1

### What Are the Communists?

All are members of Communist parties modeled on the Soviet Communist party. And it says it is the true party of the working class. All other parties, it declares, are enemies of the working class.

Communist parties around the world would have no independence but are directed and controlled by the Cominform, a Moscow-based international organization. Additionally, a member of Russian secret police is a secret member of the central committee of every Communist party. Hence all Communist parties everywhere are agencies of the Russian government.

(Adapted from the "Primer of Communism" by the Anti-Defamation League of B'nai B'rith)

# What's Going On Here

## News and Events of GE Organizations

**GE WAR VETERANS**—Tomorrow evening GE War Veterans Association members will meet at American Legion Post 47 for their annual banquet and election of officers. The event will begin at 6:30 p.m.

Members attending are reminded to present their membership card along with ticket at the door. A program of entertainment has been planned and will include Ed Gallmeier, Fairfield Plant, magician, and the Reddy Kilowatt Quartet.

Candidates for office are: Roy Brower, Bldg. 6-4, and George Graue, Taylor St., president.

Neil Daley, Winter St., and Herbert Koch, Bldg. 2-2, first vice president.

Ed Moodie, Taylor St., and Larry Suelzer, Winter St., second vice president.

Carl Rehling, Bldg. 27, and Walter Blomberg, retired, secretary.

Gary Forester, Winter St., and Merritt Hartman, Taylor St., treasurer.

Robert Turschman, Bldg. 2-2, and Al Adams, Bldg. 26-4, board of directors.

\* \* \*

**MTP WIVES**—"The History of Fort Wayne" is the theme of the April 28 meeting of the MTP Wives group which will be conducted at the Chamber of Commerce. The meeting will begin at 8:30 p.m.

Albert Diserens, head of the reference department of the Public Library, will present an historical paper on the theme. The film, "The Story of Fort Wayne" will be shown also.

Mrs. Clair Otis and Mrs. Jim Smetana will serve as hostesses for the social hour following the program.

\* \* \*

**APPRENTICE ALUMNI ASSOCIATION**—Members will stage a Civic Theater party Tuesday, April 27, Wayne Bergman, publicity chairman, reported this week. Members and their families will attend the play "Lo and Behold."

The performance will get under way at 8:30 p.m. Admittance will be by membership card only.

The three-act comedy is a ghost story with no murders but plenty of laughs. Featured in the cast are: Robert Kaag, Laurene Bedree, Stuart Ronald, Tap Hines, Delores Lister, Robert Becker, Walter Lupke, Jr., and Paul Gilbert.

\* \* \*

**GE SQUARES**—Tuesday, April 27 members of the GE Squares Club will convene at the Squares Hall for a stag. Beginning at 8 p.m. the meeting will feature guest speaker Charles Koomjohn.

Mr. Koomjohn, who retired last year, recently returned from a seven-month trip through the Middle East. He will discuss his experiences and impressions on the trip including revisiting the place of his birth, Armenia; show slides taken on the journey, and items he brought back. He will play Turkish records of popular songs from that country.

Refreshments will be served at the meeting also. Sol London, Taylor St., is chairman of the event.

\* \* \*

**FWAGEE GENERAL MEETING**—The FWAGEE general meeting will be held at the Squares Hall, Thursday, April 29 at 8 p.m. J. F. Young, consultant for Engineering Surveys and Studies, will speak on product planning.

Mr. Young will discuss the planning and coordination necessary to detect a need for a product, determine potential market, detail the specifications, develop, design, build, test and tool to produce the product. He will also show slides of two examples of product planning.

Mr. Young graduated from Lafayette College with a BSME degree in 1937. He held various positions in the Engineering Training Program and the Appliance Merchandise Department prior to his present position on C. H. Linder's staff.

Refreshments will be served after the meeting.

# Elex Membership to Fete Mothers at May Parties

First and second shift Elex Club members have slated their annual Mother-Daughter parties for Tuesday, May 4, and Thursday, May 6.

The YWCA will be the scene of a noon luncheon at which second shift members will entertain their mothers May 4. A professional act, "The Four Wades," will present a program of music and songs. The act has appeared at theaters and supper clubs throughout the midwest and in other parts of the country.

The Four Wades

Tickets for the party are \$1.25 per person and may be secured from contact girls. Deadline for reservations is Friday, April 30.

In addition to gifts for each of the members' mothers attending the function, prizes will be presented the oldest and youngest mother. Other prizes will be given the mother coming the farthest distance to attend and the oldest grandmother.

Decorations will carry out the theme of the party. Florence Hargan, Taylor St., vice president, is in charge of the event.

First shift members will fete their mothers May 6 at the GE Club with a party beginning at 8 p.m. A program entitled "Show Biz Off Broadway," will be pre-

## Egg Sale Success

A total of \$1,480.73 was collected by Elex Club during its annual Easter egg sale Thursday, April 15, club officers reported this week. The money was used to pay expenses for 400 Easter boxes sent employees now in the Armed Forces both in this country and overseas.

"Elex Club extends its thanks and appreciation to all employees for their cooperation which made the sale so successful," officers of the club stated. They also expressed their thanks to those who donated eggs and prepared and dyed them.

sented by members under the direction of Roqua Wibel, Bldg. 18 gate, and Mary Olson, Taylor St. Paul Brumbaugh, soloist, and Loren Yaggy, pianist, will present a program of special Mothers' Day music.

Refreshments will be served and gifts presented mothers of members. Special prizes like those awarded at the second shift party will be given at the Thursday evening event also.

Tickets are 50 cents per person and may be secured from contact girls. Reservations are due by Friday, April 30.

The meeting is being planned by the officers.

money will change hands. As an inducement he says that there will be plenty of refreshing beverages on hand, also a goodly supply of appetizing foods, insuring those that apply against thirst and hunger. . . . Harold "Popeye" Patterson has become quite proficient in juggling a deck of cards. Some of the tricks he performs with them are positively amazing. He is planning on going to Reno and Las Vegas, Nevada, this summer and taking the boys out there, but we are willing to bet our bottom dollar that the Nevada gang will take all of the wind out of his sails.

# Commercial Electric Is Now Factory Service Headquarters

Commercial Electric, GE distributors in this area, have moved to 1720 S. Harrison Street from their previous S. Hanna Street location, Mike Casey, sales manager, said today.

It was also announced that a factory service headquarters had been established at Commercial Electric, which will provide a centralized service center for all General Electric major appliances with the exception of radio and television receivers.

Charles Vinton will serve as product service manager.

Commercial Electric is open from 8 to 5 p.m. on weekdays and from 8 a.m. to 12 noon Saturdays.

Richard A. Madden

Announcement of the appointment of Richard A. Madden as general foreman of all Hermetic Motor Department manufacturing operations on second and third trick was made last week in the GE NEWS. Through error Mr. Madden's photograph was incorrect as printed last week.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

Oh! The lovely fickleness of an April day. Her winds are magical and thrill our tuneful frames. The garden walks are passionate to bachelors and dames. . . . Art Brandenburger tells us that the squirrels around his place on the Windsor Road are becoming quite active. Several of them chased him around the house several times last week. He is in quite a quandary as to how to protect himself against them during the coming summer. Our advice to you, Art, on the squirrel problem is for you to abstain from being such a nut, as you know it is pretty hard for you to fool those little animals. He has solved the woodpecker problem by acquiring an old army helmet which he wears when out in the yard. He doesn't intend to have his head all pecked-up this summer. . . . Darrel Daniels is looking for several strong-armed men to help him level off his yard. He wants it distinctly understood that no

## U. S. Post Office Introduces First Regular Religious Stamp

The most impressive ceremony of its kind in the history of the United States Post Office Department set the stage for the introduction of the Nation's first regular stamp combining a religious message and the Statue of Liberty this month.

At the request of thousands of persons who have urged the Post Office Department to issue a regular stamp with a religious sentiment, the new 9-cent Statue of Liberty stamp carries the inscription of "In God We Trust" arched over the symbolic torch bearer which stands at the entrance of New York Harbor on Bedloe's Island. Under this symbol of freedom that thrills returning citizens and visitors to the United States is the word "Liberty."

"The symbolism of God and Country in this .75 by .87-inch stamp," Postmaster General Arthur E. Summerfield said, "marks the first time that a religious tone has been incorporated into a regular or ordinary stamp, as distinguished from a commemorative stamp which is discontinued after the initial printing order."

"Since this new stamp will be used primarily for international regular mail," Mr. Summerfield noted, "it is 'a postal Ambassador' which will go abroad at the rate of about 200 million or more stamps a year."

The stamp was introduced to a nation-wide television and radio audience during a 15-minute program in which President Dwight D. Eisenhower, Secretary of State John Foster Dulles and Postmaster General Summerfield participated with the leaders of the Nation's

three largest religious groups.

Although the Statue of Liberty stamp is red, white and blue, it actually is a bicolored stamp since blue and red have been added to the white.

The statue itself is printed in red, with a white halo for the head, surrounded by a rich blue background which forms the frame that defines the outline of the stamp. "U. S. Postage" and the denomination "9c" appear across the top in white-face gothic type and underneath in dark gothic, forming an arch over the head of the woman bearer, is the motto: "In God We Trust." Displayed boldly across the bottom in white face gothic is the word, "Liberty."

price of the shares is that about 20,268 employees who are participants in the General Electric Employees Savings and Stock Bonus Plan will become share owners in 1954. It is estimated that about 49,000 employees will receive 175,000 of the new shares in 1955. This would include the 20,268 employees who will become share owners in 1954, assuming of course that they are still in the Plan in 1955.

"On Dec. 31, 1953, there were 102,000 participants in the Plan and there were on deposit to their credit U. S. Savings Bonds costing \$99,600,000 and 273,575 shares of General Electric stock having a market value at that date of \$23,900,000 as well as \$2,300,000 of income accumulations. As most employees know, the Plan requires that U. S. Savings Bonds be on deposit with the company for a specified five-year holding period in order to qualify participants for the 15 per cent bonus in General Electric common stock allocated to them. The Plan commenced its operations in October, 1948 and hence ran for only three months in its first year.

"This short period of payroll deduction in 1948 has resulted in a maximum allocation to any participant of only 49/100 of a share for that year and an average allocation of 28/100. No full share of stock was available to any participant therefore, and the shares were to remain on deposit in the stock bonus trust in accordance with the provisions of the Plan until alloca-

## Holland Plant

(Continued from Page 1)

rence, manager of the Grand Rapids office; Mr. Martin's staff, and members of the Holland Planning Study.

Citizens of the Holland area who attended the ceremony and a luncheon with company officials included representatives of the Holland Chamber of Commerce, township, schools, service clubs, industries, and businesses.

Mr. Martin explained that the new plant is necessary to provide additional capacity for motor parts to meet the rapid growth in the refrigeration and air conditioning industries.

After the department's headquarters are moved to Holland, other manufacturing facilities will continue operations with augmented facilities in Fort Wayne and Tiffin, Ohio.

Commonwealth Associates of Jackson, Mich., are architects for all design of the building and services. L. O. Stocker & Co. is general contractor for the new plant.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

With warmer weather knocking at our door, it seems as if our country gentleman, Paul Thomas, is thinking of switching to camels. You see he just hates to pump water, and he figures camels won't drink as often as his mules. . . . Helen Brown, our ardent Liberator fan, is so anxious to see him when he comes to Fort Wayne that she rushed right down to the Vim to obtain tickets. Only then did she learn to her disappointment that the tickets weren't on sale yet. Chin up, Helen, here's hoping you get a front row seat. . . . It seems as if our second trick worker, Bill Switzer, was so hungry the other night that he went to supper at 5:30, forgetting that the cafeteria doesn't open until 6:30. We suggest you pack yourself a light snack hereafter. . . . We understand Dixie Lee had a slumber party the other night. What time was it you say you got to bed, Dixie? . . . We wish to extend our sympathy to Evelyn Tibbles on the sudden death of her cousin. . . . Happy birthday this week to Virginia Goegelein and Evie Tibbles. . . . From all reports received we hear that Beverly Sampson, now Mrs. Gebert, had all she could do to keep her knees from knocking when she spoke her vows. Now it really wasn't that bad, was it, Bev? . . . Mabel Fisher, our weekly reporter, was so worn out

tions of later years were sufficient to permit issuance of a full share to a participant or until he withdrew his fractional interest in cash.

"A lower allocation price for the shares will result from the three-for-one conversion and this will permit 20,268 employees to receive one full share of stock in 1954. All participants who have allocations of 34/100 of a share or more of the present stock credited to their account will become eligible to receive a full share of the new stock.

"Any fractional shares remaining after this distribution together with all shares or fractional shares contingently credited as a stock bonus on bond purchases made after 1948, will be recorded on the new three-for-one basis.

## FASHION SHOW DISTURBS MILLAND

Because Peggy McNutley (Phyllis Avery) has many of the attributes that make for a successful fashion model, her services are in demand for a charity fashion show at Lynnhaven College. But TV audiences will find that this does not always result in domestic tranquility, when they see the Friday, April 30, telecast of the General Electric Comedy Theatre's "Meet Mr. McNutley" over CBS television at 8 p.m., CDT, starring Ray Milland as Professor McNutley.

## JOAN DAVIS LEARNS LESSON

When comedy star Joan Davis mistakenly believes that her friend Mabel has had a violent argument with her husband, she sets in motion a conciliatory plan that leads to a zany climax, on the Wednesday, April 28, telecast of "I Married Joan," titled "The Milkman Cometh," over WKJG-TV at 7 p.m., CDT.

from coloring and selling Easter eggs during the recent Elex drive that she couldn't write the column this week. This is Gertie Pinch hitting for Mabel and saying, "As the washer woman brings her clothes to a line, I bring my line to a close."

## SICK LIST

The following people have been reported on the sick list and dismissed from the hospital:

### Sick List

Cecil Herrod, Stanley Lytal, Loretta McCarroll, Imo Pitts, Marcille Roffelsen, Ella Grimes, Max Oberkiser, Catherine Stanton, Betty Eisennacher, Marcella Lawrence, Martha Davenport, William Meek, H. Lowell McLaughlin, Ruth Minnick, Bernice Davis, Virginia Curtis, Cleto Lenz, Charlene Rush, Ruth Nern, Roosevelt Stalling, Harvey Fairchild, Robert Horstmeier, Thelma N. Hill, Clair Lieurance, Omar Shinn, Carl Sorenson, Rose Ulrey, Dorothy Wailer, Rita Comings, Florence Weimer, Thomas Carr, Myron Poor, Loretta Jarrett, Allen Teleschow, Hazel Thompson, Pauline Abel, Clifford Shuler, Donna Vorndran, George F. Connett, Dennis A. McKering, Bonnie Nicodemus, Kenneth C. Hart, Emerson Harvey, Eleanor F. Hemker, John Henry, Anthony M. Lupe, Frank Mains, Glen Robinett, H. Schneider, and Gwen Neal.

### Dismissed from Hospital

Donald Edgar, Irene Huey, Mil-

Bing Crosby croons a duet with lovely movie starlet Joanne Gilbert in scene from his second television show for General Electric which will appear on April 25th over CBS-TV from 8 to 8:30 p.m. CDT.

## Crosby Does Second And Last TV Show

The second Bing Crosby television show will be telecast over the CBS-TV network April 25 in the 8 to 8:30 p.m. time period normally occupied by the General Electric Theater and the Fred Waring Show. This show, as was the first one, was filmed in Hollywood and will be Crosby's last video appearance for General Electric. According to present indications, it might very probably also mark the end of his short lived but widely discussed career in television. The premiere Bing Crosby show Jan. 3 received exceptionally high rating and was one of the most talked about shows on the air.

Bing's guests on the April 25th show will be Paramount singing star Joanne Gilbert and the internationally-known novelty act, the Wiere Brothers, a singing, dancing, violin-playing comedy team consisting of three zany brothers named Herbert, Harry, and Sylvester. Songs to be rendered in the Old Groaner's traditional style will include "Dear Hearts and Gentle People," "Young At Heart," "After You've Gone" and "Secret Love."

dred Messer, Gwen Neal, Melen Johnson, John Henry, Frank Mann, Harley Ward, Robert Nash, August Zollinger, Clair Lieurance, Ina Arney, Marjorie Reed, Denelda Blessing, and Rose Ulrey.

The first man to go on a forty hour week was Robinson Crusoe. His work was all done by Friday.

## Share Owners

(Continued from Page 1)

posed new shares should have a market value of the time of their issue of about one-third of the then price of the present shares. As a general rule, the history of stock splits of corporate stock indicates that a lower price may induce more trading in the shares and a wider distribution since less funds are required to buy each share. Moreover the conversion from no par stock to a \$5.00 par value stock will reduce the Federal tax on transfers and thus decrease the cost of trading. The Federal transfer tax payable on sales of the present no par shares is six cents a share. On sales of the proposed \$5.00 par value stock the corresponding tax would be six cents for each 20 shares or fraction thereof or only 5 per cent of the former tax. Similar savings would result in state transfer taxes in certain instances.

"The company will benefit from the proposed conversion in several ways. A wider distribution of its shares should have considerable public relations value. Obviously a growing group of share owners can be expected to be interested in the corporation which pays them dividends thus creating good will for it and widening the market for its products.

"Benefits to the company of course are benefits to its employees. A collateral benefit resulting from the anticipated lower initial

# CORDINER TELLS SHARE OWNERS: 'Company to Spend Record Total For Plants and Equipment in '54'

The General Electric Company will spend a record total of \$175 million in 1954 for new and modernized plants and equipment, company President Ralph J. Cordiner said in Schenectady Tuesday.

Mr. Cordiner told more than 3,000 share owners gathered for the company's annual share owners' meeting that the planned expenditure represents an increase of 24 per cent over

the previous high of \$141 million last year. He said that the high level of investments in plants and equipment will continue next year, making 1955 the second highest year in General Electric history.

Mr. Cordiner cited General Electric's expansion program as an example of one of five "points of strength" in the nation's economy which, he predicted, "will not only continue but accelerate" the country's long term trend of economic growth.

"At a time when so many public spokesmen seem to be determined to frighten us into a depression, it is important to emphasize these points of strength," Mr. Cordiner said.

He cited these five:

1. Research and product development, in which industry has stepped up its efforts to a point where it spends an average of two per cent annually of gross sales in an "investment in the future."

2. Industry's intensified effort to shorten the time interval between the new discoveries of fundamental research and their application to new and improved products.

3. Improvements in manufacturing methods, which in the past have brought a multiplication of jobs and eliminated many unpleasant and back-breaking jobs and which will bring to the factory employee of the future a pleasanter working environment, greater challenges to mental and intellectual development, and a necessity for a substantially higher level of educational background.

4. The marketing area, where modern technology provides a way never before possible to attack such problems as the flattening out of peaks and valleys of production occasioned by seasonal demand.

5. Improved over-all planning on the part of industry, as indicated by industry's plans for a near-record \$27.2 billion investment in new plants and equipment this year, despite widespread recession talk.

"People who spread fears that we may be facing another period of depression such as that of the 1930's ignore completely the changes in our economy since that time," Mr. Cordiner said. "And I refer principally not to changes brought about by government but to those changes which were brought about by business and industrial pioneering."

He said that research and product development was "the foundation" for confidence in an acceleration of the country's economic expansion, and cited his own company's development since

it began a program of planned product diversification in 1925.

The number of share owners has increased nearly ten times, the share owners' equity in the company has increased nearly three times, dividends have increased almost five times, the number of jobs has been multiplied three times, and compensation per employee has more than tripled, he pointed out.

Research and development and planned product diversification (including the new manufacturing and marketing methods necessary to sustain it) have been chiefly responsible for this multiplication of employment opportunities," Mr. Cordiner asserted.

He noted that the electrical manufacturing industry is spending an average of six per cent annually of gross sales volume on research and development — or three times the rate of industry as a whole, "and General Electric spends considerably more than the average for the industry."

"Perhaps," he added, "it is not just a coincidence that our electrical industry has been growing at three times the rate of American industry generally."

He cited four examples of General Electric research and product development which "have already shown promise for new and improved products and more and better employee opportunities."

One example was the field of atomic energy. Mr. Cordiner noted that the company-operated Knolls Atomic Power Laboratory in Schenectady is working with the Atomic Energy Commission and the Navy on a nuclear-powered submarine, that the company is working with the Air Force and the A.E.C. at Evendale, Ohio on development of a nuclear-powered airplane engine, and that the company's proposal to build, at Hanford, Wash., the first dual purpose reactor to produce both plutonium and large quantities of electric power is now being studied by the A.E.C. He said that General Electric has nearly 12,000 people engaged in atomic energy projects, about one-sixth of the total employees estimated by the A.E.C. for all its operations contractors.

The other three examples he described were a new thin-wall insulation for refrigerators, cathode irradiation applied both to food sterilization and to chemicals, and semi-conductors.

He noted that General Electric has applied the thin-wall insulation in an experimental refrigerator designed to hang on the wall, and which was displayed here today for the company's share owners.

Mr. Cordiner reported that the General Electric Research Laboratory in Schenectady has determined that food subjected to certain cathode rays resists spoilage, and that bread or meat which has been irradiated and sealed in cellophane has been edible for a year. He said that irradiation of polyethylene containers had made these containers capable of withstanding steam sterilization, broadening their potential applications in the pharmaceutical field.

Pointing out that such semi-conductors as transistors and germanium products have been applied largely in military electronics, Mr. Cordiner reported that General Electric is now manufacturing germanium rectifiers for industry at its West Lynn, Mass., plant, and said that the semi-conductors may bring about another great revolution in the electronics field.

## WIRE RAVELINGS TAYLOR ST. by Art Rasor

Elmer Hamilton is a member of the "Old Crown" bowling team, and on a "chicken night" he bowled 615 for a best over average score to win. Somehow his teammates had noticed that Elmer was improving and figured on him winning. Elmer struck up an acquaintance with another fellow. Then, as Elmer didn't know what to do with the chicken, he sold it to the fellow as he left, and mentioned that it was still solid from being in the freezer. Everything was solved except that a joke backfired and Elmer was innocent. It was told that he had sold three pieces of 2x4 for a chicken! I'm sure he will not be picked up for playing the confidence game, but selling three pieces of wood for a chicken surely looks bad. . . . April 13 was surely a lucky day for Virgil Nash as he not only cut his finger but was selected for jury duty and also completed 25 years of service with the company. . . . You have all seen "Porky" Schoenfeld with his sweater on, and some curious person asked him why he wears it in hot weather. Quick thinking brought the answer that since it has two pockets it helps to carry his extra pocket items to balance the load. . . . George Miller is quite a wrestling fan, but he was seen on his hands and knees playing marbles at the last match. George had brought the family along, and he had instructed his boy to leave his marbles at home, but as they were ready to leave Mrs. Miller turned the boys coat over and the marbles fell to the floor, resulting in George getting on his hands and knees. Oh well, everything happens to George.

TIME TO CELEBRATE—Max Fielitz is shown at right admiring his new watch presented him at retirement, while George Holthouse assists him in opening other gifts. Mr. Fielitz joined General Electric in 1926 as a tool maker. He was a bench machinist in the Bldg. 17-2 tool room at retirement.

## First Quarter Report Shows Sales Decline Over 1953

General Electric Company sales during the first quarter of 1954 reached \$715,596,000, a decline of eight per cent from last year's record-breaking first quarter sales volume of \$777,819,000, President Ralph J. Cordiner told share owners at the company's annual share owner's meeting in Schenectady Tuesday.

Mr. Cordiner reported that first quarter earnings for 1954 were \$48,029,000, or \$1.67 a share, representing an increase of 42 per cent over last year's first quarter earnings of \$33,849,000, or \$1.17 per share. First quarter earnings were 6.7 per cent of net sales billed, compared with 4.4 per cent for the first quarter of 1953.

Pointing out that regular commercial sales were down only about three per cent from last year, Mr. Cordiner said that the decline in first quarter sales of eight per cent is attributable largely to a decline in defense business which took effect in the first

quarter. He said it was anticipated that in the next few years the company's defense business would fall back to about 20 per cent of the total sales volume.

Mr. Cordiner said that the substantial increase in net earnings is attributable largely to the elimination of the excess profits tax starting at the first of the year.

He expressed confidence that sales of commercial lines for all of 1954 would equal sales of similar products for 1953, and said that the higher margin on these sales than on defense business, coupled with the reduction in federal taxes on income, indicate substantially higher earnings for 1954 than for 1953.

The consolidated statement of earnings for the three months' periods ended March 31, 1954 and 1953, with the results for the 1954 period partly estimated and subject to audit at the close of the year was, as follows:

	3 months ended March 31	
	1954	1953
Sales of products and services to customers	\$715,596,000	\$777,819,000
Deduct: Operating costs, expenses and other charges	615,310,000	651,448,000
Income from operations	100,286,000	126,371,000
Add: Non-operating income	5,931,000	3,539,000
Total income from operations and other sources	106,217,000	129,910,000
Deduct: Interest and other financial charges	188,000	61,000
Federal income taxes and renegotiation	58,000,000	72,000,000
Federal excess profits tax		96,061,000
Earnings	48,029,000	33,849,000
Earnings per dollar of sales	6.7 cents	4.4 cents
Earnings per share of common stock issued	\$1.67	\$1.17

## SHAFT SHAVINGS BLDG. 19-3

by Blanche Cowell

Eloise Kartholl wanted her husband, Frank, to fence in their backyard. Now, Frank isn't lazy; he is just tired most of the time. He decided to put in the growing kind of fence and let nature do the job, a hedge that is. . . . Leroy Cook now has a new alias, "Sergeant Friday." Anyone needing any mysteries solved, contact him. He will be most happy to help you. The fellows also presented him with a medal, badge "714." . . . Everett Harris is a V.I.P. (very important person). He now has his own buzzer signal. . . . We had a visitor last week—Carl Wiegman. He seems to be enjoying his life of retirement. . . . Harry Woodward is interested in information concerning inverted elm trees. It seems they have two in McCulloch Park, but he isn't sure if that is what they are. . . . Ted Schlup isn't a gambling man, but from what I understand, he does have a two-headed nickel. The other day he got hold of the wrong coin and he bought two cokes. Better luck next time, Ted. . . . ATTENTION! Anyone needing any television installation contact Art Keller. I understand his prices are reasonable, especially for his friends. . . . Paul Gruber isn't blushing, folks. That red on his face is just a sunburn. He got it last week watching the progress of the building of his new house. . . . Ross Snyder is very observing about most things, but it wasn't until last Monday he knew about the big fire in his home town of New Haven. . . . The Three Musketeers, Charles Waltemath, Roger Hafeley, and Floyd Wygant, are still trying to see who can buy the most peanuts and cokes. Who is ahead, fellows? . . . Paul Lichtsinn came into work the other day with a bush haircut. That is a sure sign that summer is on its way. . . . Lynn Robertson is a new face in Room 301. We say good-by to Douglas Campbell. . . . I understand George Sauerwein is the new fashion consultant in Motor Generator. Right this way, ladies. . . . Lloyd Germano is moving to Huntington and the boys at the east end want to know, Lloyd, are you moving in with Bill Bellamy or vice versa? . . . QUOTE FOR THE WEEK: Kindness is one thing you can't give away. It always comes back.

## PICK-UPS from 26-3

by Maxine Jordan

Mary Williamson, who has been on the sick list, paid us a visit the other day. . . . Audrey Oberley and Blanche Kanning treated us to cupcakes made like Easter baskets. Willard Lenz said, "These are sure good. I wonder if they have any more." . . . Our deepest sympathies to Carlton Creager on the loss of his mother. . . . Due credit to Helen Studler and Mildred Leazier, our contact girls, who made the Elex Easter egg sale a success on our floor. They say, "Thanks a million." . . . Anyone building a fence and needing information, especially on how to remove old clothesline posts, see Fred Leinker. . . . Believe it or not, Ed Lauer can eat hard candy Easter eggs with two teeth, however not without some difficulty. . . . Have you read the latest edition, "Rats in the Vats," by George Harmeyer? . . . Eddie Alter buries his food in a hole in the ground because no one will give him a large enough discount on a new ice box. Jim McGill was caught trying to get in the hole during a storm. He says he learned that from his dog. . . . Gladys McConnell has returned from Florida ready for work. . . .

George R. Hemmeter

## George Hemmeter Appointed to New Laboratory Post

The appointment of George R. Hemmeter as supervising engineer of metallurgical applied research and development in the Fort Wayne laboratory.

When he came to GE in 1947 Mr. Hemmeter joined the Chemical-Metallurgical Program here. Later he went to Schenectady where he finished the program and also took the Advanced Training Course. In 1948 he returned to the Fort Wayne laboratory where he was a development metallurgist working in applied research. He became group leader of applied research in 1952 and was in this capacity at the time of his present appointment.

Mr. Hemmeter graduated from Lafayette College, Eastern, Pa., in 1947 with a BS degree in metallurgical engineering. He is a member of the ASM and Mount Vernon Park Community Association.

From February, 1943, until February, 1945, Mr. Hemmeter served in the U. S. Army Field Artillery. The Hemmeters reside at 4757 Holton Ave.

We wish a speedy recovery to Howard Fritz's son who had an operation. . . . Jim McGill will be our new office reporter as we say so long to our co-editor, Helen Wagner, and Carmella Raucci, who transferred to Bldg. 26-4 office. . . . Guleia Ranier celebrated her birthday, April 14, by treating the Sample Shop to cake. . . . Kermit Griffin finally gave in and bought a TV set. . . . We welcome Edna Kneubuhler to the Sample Shop and Wilma Hambrook to the office, also Robert Vice and Sale Booker to our floor. . . . Erma Werling is going to be a mere shadow if she just sticks to that diet. . . . Frankie, doesn't it cramp your style to drive a 1941 Plymouth after driving a 1954 Dodge? Be patient. It will be repaired in no time. . . . Rose Onstott wishes to thank her co-workers and friends for the nice wedding gifts. . . . Lonnie doesn't appreciate the help she gets from her parakeet. He breaks her eggs, walks through her egg dye, to say nothing about the ammonia she had to wash out of his eyes. . . . We wish Almetta Till a very happy birthday. . . . Doris Rinehold pulled the "jelly bean switch" on Blanche. Was she surprised? What became of all those black beans?

# Frank Fleischer, Dean Thompson Assigned To Hermetic Motor Engineering Positions

Frank H. Fleischer and Dean W. Thompson have been appointed to positions in Hermetic Motor engineering, Robert W. Snyder, manager of engineering, announced this week.

Mr. Fleischer has been named supervisor of product engineering. Mr. Thompson has been appointed supervisor of advanced development engineering.

After joining the Test Engineer Program at Schenectady in 1929, Mr. Fleischer went on

the A Course. Upon completion of this he came to Fort Wayne in 1930 and entered Fractional Horsepower Motor on AC motor design assignments.

In 1935 Mr. Fleischer went into special engineering studies and five years later began design of special equipment for aircraft. He started work on design of hermetic motors in 1944 and was named assistant section engineer assigned to hermetic motors in 1947.

Prior to his present appointment Mr. Fleischer was design engineer on Hermetic motors.

A graduate of Cornell University, Mr. Fleischer received his degree in electrical engineering in 1929. He is a registered professional engineer in the State of Indiana and is a member of the AIEE, Fort Wayne Engineers Club, FWAGEE, Supervisors Club, GE Squares, and Foster Park Lions Club.

Mr. and Mrs. Fleischer reside at 4821 Indiana Ave. They have one son, Frank, who is a student at Indiana University.

Mr. Thompson came to the company in December, 1945, and went on the Test Engineers Program

Frank H. Fleischer

Dean W. Thompson

here. After completing the course he entered the laboratory as a metallurgical engineer. In 1948 he was named assistant engineer in the metallurgical section. Later he was a section engineer in the laboratory and was supervising engineer of the metallurgical unit before his present position.

In 1942 Mr. Thompson graduated from the Colorado School of Mines with a professional degree in metallurgical engineering. He is

a registered professional engineer in the State of Indiana and is a member of the ASM, Fort Wayne Engineers Club, and Supervisors Club.

After entering the U. S. Air Force in 1942 Mr. Thompson served in the European Theater of action and was discharged in December, 1945.

The Thompsons and their two children reside at 126 E. Fleming Ave.

## APPRENTICE BROADCAST

by Dave Jones

John Ellenwood recently received a parking ticket while visiting Lafayette, Ind. John looked at the ticket, casually laughed, and threw it away. He remarked to his companion, "They won't come clear to Fort Wayne to collect a 50 cent parking ticket." A few days later the long arm of the law tapped John on the shoulder and presented him with a summons. The results: A variety of fees and fines totaling \$13. Don't feel too badly, John. The experience should be worth something. . . . The GE volleyball team, which won the YMCA league title this year, was well represented by the Apprentice School. Dick Gebert, Dick Wagner, and Warren Sloan played for the team. Congratulations on a fine season, fellows. . . . It has been rumored that John Becker is contemplating taking a course in body building. John, while demagnetizing his mics, became engaged in a bitter struggle with the demagnetizer. After being subdued, John turned the machine off, retrieved his mics, and vowed to "show that thing!" We would like to be present for the return match, John. . . . Some of the boys are looking forward to summer vacation already; namely, Warren Sloan, who is sporting a new '54 Chevy, and Roy Gawthrop, who purchased a '52 Buick Special.

OPENING RETIREMENT GIFTS—Julia H. Martin gets some help in opening her retirement gifts from Harold Hart. Among her gifts were a coffee maker and a toaster. Mrs. Martin first came to GE in 1933 as a tester. She was an inspector in Section 113 at Taylor St. before retiring.

The in-laws of whom we all seem to be fondest  
Are those who considerably live the beyondest.

# Fort Wayne to Host Members Of EPCR Development Program

Fort Wayne will be host to members of the Employee and Plant Community Relations Development Program when they meet here for their semi-annual seminar April 28 through 30.

Twenty program trainees will convene here from other General Electric plants in the country to discuss employee relations problems they have observed in their assignments, meet with employee relations managers from the area, and hear guest speakers discuss various aspects of the program.

Tours of several operations have been planned to acquaint members of the program with Fort Wayne plants. At the April 29 dinner, Louis E. Newman, GE manager of Health and Safety, will be principal speaker. He has just returned from Italy where he served as a member of the Italian Industrial Management team operating under the Marshall Plan.

Included in the trainees are three men who are located here on assignments. They are Jim Haan, Jack Steel, and Merrill Hall.

The newest of the ten training programs conducted within the company at present, the E&PCR Program was begun a few years ago to produce trained personnel to handle employee relations.

To meet requirements for managers, supervisors, and specialists in this expanding field, GE has inaugurated a three-part program to develop professional E&PCR personnel.

Part one of the program gives college graduates selected for the training "grass roots" experience in engineering, manufacturing, marketing, and finance over a 27-month period. Two members of the program here are assigned to the Apprentice School at present where they are gaining experience in

manufacturing methods and problems. The third trainee located here is assigned to a manufacturing section at Taylor St.

Those who complete the first phase go on to rotating job assignments in the field. These include the following areas: education and training, employee communication, health and safety, personnel practices, employee benefits, plant community relations, salary administration, wage administration, and union relations.

In the second part they perform a job in the area they select, working with persons trained in the particular activity.

The third part of the program offers an opportunity to the trainee to specialize in his major field of interest. When he reaches this phase, the trainee will be listed by his interest and ability in a central file and will be eligible for any E&PCR job in the company that becomes available and for which he is qualified.

PART TWO of the program will take the trainee out into the E&PCR field on specific jobs such as placement of new employees. Jack Steel interviews a job applicant as a part of his job on this phase.

## GE Official Urges Universal Social Security Coverage, Increased Minimum Benefits

A. D. Marshall, manager of employee benefits, last week urged that old age survivor insurance coverage should be broadened to include all present unprotected aged, that minimum benefits should be increased, and that the system should be made self-supporting with present contributors paying

enough to provide benefits for the aged of the future. Acting as spokesman for the National Chamber of Commerce, in testimony before the House Committee on Ways and Means in Washington, D. C., Mr. Marshall said, "Everyone working and every employer should contribute to OASI and all retired persons should receive benefits from it."

Among the reasons cited for his position Mr. Marshall mentioned the following:

1. The Old-Age and Survivors Insurance Program "still excludes some half of the retired aged." It is a matter of simple justice that benefits should not be withheld from those who helped to build

and strengthen the nation and its economy merely because they were born too soon or because Congress excluded their work under the Social Security Act.

2. OASI is a public purpose program designed to provide a basic floor of protection to the retired aged and to orphans. As such it should not continue to discriminate against the millions of those people who are not covered today.

3. Only if OASI is changed to a universal system — extending minimum benefits to presently unprotected aged, including the aged of the new covered groups — can real equity be achieved between

groups originally covered and groups newly covered. A universal system would mean that OASI benefits would be paid to all retired aged of all groups and financed by Social Security taxes of all the gainfully employed of all groups.

4. Extending benefits now to the unprotected aged will end the unwarranted discrimination against them which is based on a token tax participation by those who do receive benefits. At present, token requirements can be met by almost anyone with six quarters of covered employment, properly spaced. On the other hand, millions of the country's present aged are unable to receive benefits simply because they did not obtain the token coverage required to qualify due to their physical condition or lack of information.

5. The cost of extending minimum protection to all of today's aged is small compared with even a minor liberalization of the benefit formula for all persons now covered.

Mr. Marshall also urged that any increases to be effected under the Social Security Act should be properly used to raise minimum benefits rather than to create extra benefits for those with higher in-

EMPLOYEE AND PLANT COMMUNITY RELATIONS offers a wide field of jobs including the above.

PART ONE of the E&PCR Program provides "grass roots" experience in manufacturing methods and problems to (l-r) Merrill Hall and Jim Haan. Bob Barnes, right, Apprentice School instructor and foreman, explains an operation to them.

comes. He contented that, in view of the true purpose of the act, minimum benefits for people with average and below average incomes should be increased to provide them with an adequate basic floor of protection. He could see no justification, however, for increasing OASI taxes in order to give extra protection to those whose earnings are above average.

Mr. Marshall asserted that the system should be put on a pay-as-you-go basis. In this way he said, the present trust fund reserve could be retained and excess contributions in good times would supplement that reserve. This practice according to Mr. Marshall, would provide against any need for sharp increases in contribution rates in periods of business recession. In addition, he recommended that any payments by the federal

government to the aged should be made directly and determined by law in order to allow an extension of coverage and an increase in minimum benefits without requiring a reduction in payments to any single individual presently covered by OASI.

An Easterner was being driven by a rancher over a blistering, barren stretch of West Texas when a gaudy bird, new to him, scurried in front of them. The Easterner asked what it was.

"That's a bird of paradise," the rancher replied.

The visitor rode in silence, then said, "Pretty far from home, isn't he?"

"Hard work never killed anyone." "You're wrong, lady? I lost one of my wives that way."

## Ray Kierspe Named Manufacturing Specialist for General Purpose

Raymond L. Kierspe has been appointed manufacturing specialist in the General Purpose Component Motor Department, Leo W. Kuttner, manager of manufacturing, announced this week.

In 1920 Mr. Kierspe came to General Electric and entered the Apprentice School. After graduation from the toolmaker course in 1924, he became a tool and die maker. He went into tool design in 1927. When he transferred to the Fractional Horsepower Motor Department in 1936, he did tool design and planning in Bldg. 4-6.

Mr. Kierspe was named supervisor of planning and wage rate in 1939. He was appointed assistant superintendent of the Wire Section at Taylor St. in 1948 and had this position until his present assignment.

The Kierspes have three children. They reside at 459 Violet St.

Raymond L. Kierspe

Ralph Steward forgot his keys last Saturday and had to make a trip back to work after supper to get them. . . . Earl Lenz ended up top man on the totem pole in the Monday night bowling league. . . . Proposed names for the two new streets through Leo Schlaudroff's section in Bldg. 19-5 are being accepted. . . . Glenn Kline and Jim McFeely and their wives are spending some time vacationing in Florida and will attend a tool and die conference in Atlanta on the way. . . . Welcome to Bill Walker, who came back to work this week after a bout with scarlet fever. . . . We wish a speedy recovery for Elmer Auman and hope to see him back at work soon. . . . Carl Einsiedel observes "Be Kind to Animals" week every week by keeping a pan of water for the mice of Bldg. 19-4 to drink. One of Carl's little friends tried to run up Bob Hirschmann's pants leg the other day and got the brushoff. . . . Don Clark's brother in the Navy bought pocket knives in Japan for Don's boys and Don brought one to work to show around. Pocket knife is hardly the right name. It was more of a combination tool and workshop. . . . A group of the east end men were marooned for a half hour or so the other afternoon when the elevator decided to stop between floors. No one suffered from claustrophobia and the whole group is now eligible for submarine service. . . . Earl Brandon is taking unfair advantage of the Indiana bass. He sent for a bait from Florida and it sure looks like a "killer." Don't forget to use a southern drawl with it, Earl. . . . We are glad to hear that Mrs. John Stetler is recovering nicely from her operation last week and is now at home. . . . Luther Schrock builds and files model airplanes as a hobby and found that it can be dangerous. He was reaching over a turning propeller and got a little too close and wears a bandage to prove it. . . . The fellows in the Bldg. 19-4 lathe section are mighty happy to have Kenny Frick in the lathe section again. The gang misses John Neukam, Max Baron, Ray Mutton, Gus Wiedelman, and Ralph Reed who stayed up in Bldg. 19-5 in Maury Sordelet's gang. . . . Anyone wanting a ham baked should see Louie Paluszak, who has his own secret formula. Since the formula is secret we won't mention the product used for basting, but Louie says it won't cost you a "dollar a second." . . . We wish Hershel Odier a speedy recovery from his operation. His fellow workers miss his cheerful smile around the check room. . . . Bob Pickett went out to Leland Richardson's farm to fly a kite for his little girl. They got the kite up and after some wild gyrations it was decided that the

30 YEARS FOR HAROLD STIRLEN—Friends of Harold Stirlen (second from left) gathered to congratulate him recently on his 30th General Electric anniversary. Left to right are Howard Moore, Mr. Stirlen, Lewis Lee, Carl Moore, George Copeland, Elmer Mesing, and Dewey Heaston. Mr. Stirlen is a steel worker in Bldg. 20-1.

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

We bid good-by to Joe Harris and Glenn Jordan, who have been transferred to Winter St. and to Ken Settlemire, who is now working in Bldg. 27. . . . We are sorry to hear that Hank Alfeld is on the sick list. . . . Congratulations to Red Juergens, who received the Wise Owl award. Let's keep wearing those safety glasses, fellows. . . . I read in my favorite column that Clara Volz is trying to find someone with enough influence to get her a seat next to Liberace on the piano bench when he appears at the Coliseum. How's he going to give us his best, honey chile, with you sighing in his ear and running your icy digits through his hair? . . . We've heard of thrifty people but Elma Newhard takes the cake. She washes her Kleenex tissues in the washing machine and uses them over again. . . . The totem pole in the picture is on the Lin-

Totem Pole

coln Highway between Fort Wayne and New Haven. It advertises the trading post run by Big Chief Brownie and his squaw. Brownie is one of the Smokehouse gang. . . . George Feltz says he had a neighbor woman once who put up 1400 quarts of plums one summer. It was tragic. She went plum nuts.

FOR HIS LISTENING PLEASURE—John Ebert shows a radio he received at retirement to a group of his co-workers. Left to right are Arthur Stahlhut, Frank Armstrong, Gustave Berghoff, Donald Comer, Richard Gecowets, Mr. Ebert, Arthur Rose, Maurice Sordelet, and Robert Pequignot. Mr. Ebert had been a GE employee since 1918. He was a vertical boring mill operator in Bldg. 19-5, before leaving on retirement.

kite had too short a tail. They finally remedied that and the little girl finally got to fly the kite after Bob got tired of it. . . . Ralph Foust, the ardent fisherman, does not plan on getting caught without his bait. He was seen walking around with a small artificial lizard hanging on his back. Get any strikes, Ralph? . . . It looks like the telephone calls from California have gotten results. Perhaps Sharon Matthews had so many reversed charge long distance calls to pay for, she came to the conclusion it was better to marry the airman and stop giving her pay check to the telephone company every month. Anyway there's going to be a marriage in July for Sharon and we all wish her a lot of happiness. . . . Bill Hunt gave the new transmission repair job on his Olds a test drive by going to Lansing, Michigan, over the week-end. He says it's all right now. We suggest he better stick to digging Plymouths and Willys and leave the MG's alone. . . . Things are getting slow for Gordon Yaegar in Fort Wayne so he went to Portland for a week-end of excitement. . . . Dick Burns tried his luck at fishing in Michigan a week ago, but we have no report of the catch, if any. . . . Bob Calkins didn't lower the water level at Big Lake any by his take at fishing there last Saturday. . . . Louie Peduto got some valuable experience last Saturday by helping a friend move.

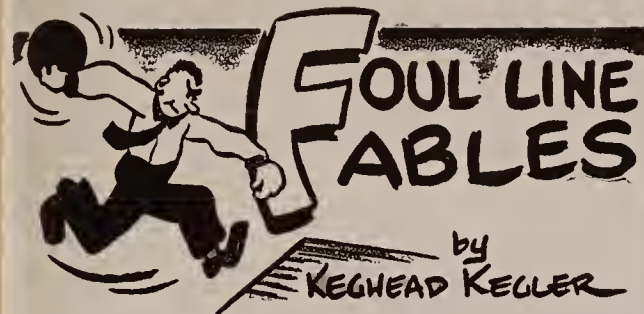

A bank president was strolling through his domain one day and saw a stranger in one of the teller's cages, briskly counting \$100 bills and piling them neatly next to a small bag. Assuming him to be a new employee, the president greeted him cheerily and said, "You look like a bright young man. May I ask where you received your financial training?" "Yale," stated the young man, scarcely pausing in his task. "I thought so," beamed the executive. "And what is your name?"

"Yohnson."

# GE GOLFERS TO HEAD FOR LINKS MAY 3

by Earl Stauffer

In the Ladies' Tuesday afternoon league Team No. 1 is out in front with a record of 29½ wins and 15½ losses. Just one game behind is Team No. 6 with a 28½ and 16½ record. Having won 28 and lost 17, Team No. 3 is in third place. Virginia Salmon kegled a 525 series on games of 183, 177, and 165. Lucille Hiner scored a 180; Dortha Ramsey, 178; and Theresa Hickman, 170. Chicken winners were Dortha Ramsey, Janet Dillon, and Edna Bailey.

## Transformer

It is still Ohms out in front with a record of 27 and 12. Autos have won 25 and lost 14 for second place. M is in third place with 17 wins and 22 losses. Black kegled a 204 and a chicken. Osburn was the furliner with a 96, but he won a chicken. Fritz was the other chicken.

## Small Motor

Two Legs' Clothes are just one-half game ahead of Test, who have won 26½ and lost 15½. G-Men are in third place with 24½ wins and 17½ losses. Denton Drugs have won 22 and lost 20, which puts them in fourth place. L. Pinkerton scored a 203; G. Ormsby rolled a 203; and A. Koorsen, 211. Chicken winners were Miller, Pinkerton, Ormsby, Johnson, Macy, and Swihart.

## Interdivision

Instead of giving the bowling scores, this story is about one of the chicken winners last Wednesday night. Elmer Hamilton, a member of the Old Crown Beer and Ale team with a 151 average, got hot and rolled games of 192, 209, and 214, a nice 615 total and 162 pins over his average, therefore making him eligible for a chicken. Someone got the idea to wrap up a few boards in paper and give it to Elmer instead of his chicken. He accepted it and thanked the GE Club for the chicken, not knowing what was inside of the package. When asked the next day how he liked the chicken, Elmer said that he had sold it after he left the Club. Elmer was surprised when he was told that his chicken was still at the Club and the package that he had sold contained nothing but a couple of boards. Elmer says he hopes he never sees the person again to whom he sold his wooden chicken. From now on you can be sure that Elmer will never accept any wrapped package unless he opens it first and makes sure just what is inside.

## Office

Motor Generator has won the second half with a record of 28 wins and 17 losses. Plant Engineering finished in second place with 26 wins and 19 losses. Pawlisch Shoe Repair sported a record of 25 wins and 20 losses for third

place. Joe Jameson kegled a 234 game. Gil Baker, Bob Blomker, Myron Cole, and Hal Fanning each scored 211's. Dick Grote rolled an even 200. Harry Dalman converted the 6-7-10 split; Chuck Kelso, the 4-6-10; and Bob Knepple made the 4-6-7-10, better known as double pinochle. Roll-off for league champion will be held next week between Motor Generator and Reproduction, the first half winners.

## Ladies' Monday Night

Holey Rollers won the second half with a record of 32 wins and 15 losses. Scatterpins finished in second place with a record of 30½ wins and 17½ losses. Twisters were third with 29 wins and 19 losses. Winnie Scheurich kegled a 510 for the winners on games of 171, 162, and 177. Ann Lee had 156, 145, and 200 for a 501. M. Beugnat scored a 200; A. Roth, 174; M. Meeks, 198; and Y. Rosendahl, 187. V. Brumbaugh converted the 5-7-10 split and J. Butler, the 5-7 split.

## GE Apparatus

Central Dairy is still in front by one game with a 25 win, 14 loss record. Team No. 7 is close on their heels with 24 wins and 15 losses. Team No. 11 is in third place, having won 22½ games and lost 16½ games. Don Greenler was headed in the right direction with scores of 214 and 212 in his first two games, but he faded in the stretch and came in with a 592. Other 200 scores were: Ross Smith, 225; Paul Johnson, 212; George Horner, 212; Herb Langer, 211; Best, 202; and Paul Perry, 201. It was chicken night in the Apparatus League and the winners were: Ross Smith, Oscar Huge, Harold Geise, George Waggoner, Don Greenler, and Paul Johnson.

## GE Orphans

Team No. 2 won 33 and lost 12; Hotel Keenan has won 31 and lost 14; while Team No. 6 has a 24 and 21 record. L. Gillard scored a 178; F. Oberholtzer, 171; M. Rietdorff, 172; and G. Moore, 171. F. Oberholtzer converted the 5-7 split as did M. Chalski. B. Nicholson converted the 5-10 split and B. Lantz, the 3-9-10 split.

## Men's Factory

The Stators with a 24 and 18 record have won three and jumped into first place, dropping the Office with a 22 and 20 record into a tie for second place with the Flanges.

The Brookwood links will again host the GE Club golf leagues Harold (Red) Braden stated today in announcing the list of 1954 golf activities. Monday, May 3, has been set as the date for league play to get under way.

Leagues and managers were listed by Braden as follows:

Monday afternoon — Charlie Briggs.

Monday evening — Denny Pease.

Tuesday evening — Shortie Poyser.

Wednesday evening (Winter St.) — Stewart Fisher.

Thursday morning — "Pappy" Garland.

Many interesting side events were also carded by Big Red beginning with the annual match against Studebaker A. C. from South Bend June 6.

Aspirants for berths on the GE Club entry in the Midwest Indus-

**Owl golf action is slated to get under way Thursday, April 29, at 8:30 a.m.**

trial Golf Tourney will try out July 17 and 24. This will be a summer rules elimination of 18 holes each of the two Saturdays. The winners of this qualification will compete in the Midwest Tourney in Chicago August 20 and 21.

The final event on the golf calendar will be the Blind Bogey and league playoffs scheduled for September 11. This year, 1954, looks like one of GE golf's biggest.

## Owl Practice Set

The Owl softball team will hold a practice session Tuesday, April 27, at 9:30 a.m. in McMillan Park. For further information, contact Benny Penkul, manager.

## DECATURITES

by George Laurent

A very familiar sight has been changed. Leonard Myers has discarded his old faithful bicycle and is now riding a brand new English style bike. . . . Yep, he was up in the air and for a good reason, too. Hank Lichtenstiger was really up in the air on April 11. Why? Because his son received his license and that day took Dad for his first plane ride. Dick owns his own airplane and plans to do quite a bit of flying this summer. . . . Wanted—A pair of soundproof earmuffs. Anyone working near a self-styled crooner will surely appreciate some soundproof ear protectors. How about it, fellows? . . . I hear K. Gaunt has been making some pretty wild bets lately. Better luck next time, Kenny. . . . If you didn't get any Easter eggs you can blame Frank Sprunger. Saturday morning a rabbit began to nibble on some of Frank's new garden. It is the same rabbit that fed on his shrubs all winter, so Frank and his rifle proceeded to put an end to it. After seven shots the rabbit died of surprise. . . . Lydia Lehrman had a most pleasant week-end. Lydia has two strong favorites in the Major League, Cincinnati and Chicago White Sox. They both had a very good week-end. . . . Signs of spring: Bob Striker taking orders for strawberries; John Bauman missing a putt; Tom Haubold not wearing an overcoat.

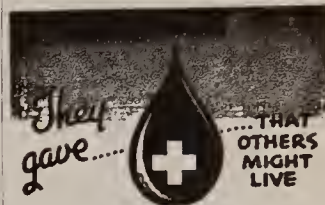

## Softball Team Slates Battery Practice

The GE Club Main Auto League team will hold a practice for pitchers and catchers only Wednesday, April 28 from 5 to 7 p.m. in the Club gym.

Tryouts for other positions will start as soon as weather conditions permit outside practices.

Further information on the team or practice sessions may be obtained from Dick Thomas, Ext. 336.

Socialism is not an equal distribution of wealth. It is equal distribution or poverty.

The following people donated blood during the week ending April 9. These employees were recruited from the Specialty Component Motor Department:

Harold H. Baker, Clifford H. Dunten, Kenneth Emcrick, Donald D. Hower, William Pappert, Charles Prince, Gertrude Reichard, M. E. Snyder, Glenn C. Witte, Samuel W. Baxter, Margaret A. Beugnot, Lewis C. Bolyard, Elmer H. Busche, Forrest T. Carlson, Glen A. Castle, Merle Coburn, Raymond J. Craft, John L. Dawson, Ernest E. Desmonds, William D. Dunmire, Barbara Engelman, Perry E. Esterline, Raymond Finton, Inonet Foster, Alexander A. Fox, Helen Fletter, Eugene W. Calloway, Enoch W. Hursh, Thomas E. Lauer, Robert P. Loveland, John C. McMillan, Robert Lawrence Mace, and Arnold Wendel.

## SPOT LIGHTS

BLDG. 4-2

by Estella Pettibone

Oliver Tracey's latest hobby is rabbit raising. Anyone interested in buying rabbits, see Oliver. He even offers to fry them and included is the story of his difficulty in getting his hobby started. . . . Arnie Johnson has improved his bowling since the Kendallville tournament. . . . We received Easter greetings from Christine Lare of Florida. She reports they have had a nice winter there and enjoy reading the GE NEWS. She and her husband will return to Fort Wayne in May. . . . Opal Runyon received a lovely set of luggage from their son, Bob, who is in the Army. It looks as if it is a gentle hint for his folks to spend their vacation in Albuquerque, New Mexico. . . . Homer Vigneaux has recently returned from the Army. It surely is nice to see some of the fellows returning. . . . I shall be saying good-by to my son, Ed, this week. He has been stationed at Ft. Knox, Ky., the past 10 months and is now going to the Far East. . . . Ed Glusenkamp has added a new service to his repair department. Ed Rodenbeck received a set of coils that had been repaired that he thought smelled bad, so he asked Ed Glusenkamp if there wasn't something that could be done about it. Ed answered, "Sure, I'll have them washed." He then borrowed a stick of cologne from one of the girls and covered the coils, and returned it to Ed, who thought it was much improved. He handed it to Frenchie LaGros, who also put his approval on the scent. After handling it they were all afraid to go home as they could not wash it off their hands and they weren't sure their little women were going to buy their story. . . . Congratulations to Ralph and Mrs. Calvert, who celebrated their 32nd wedding anniversary, April 16. . . . Carl Platner and his brother will never forget their parents' Golden Wedding Anniversary celebration last Sunday. The fellows washed dishes for three hours.

# Bing and Ken Talk It Over

**KEN:** Oh, I'm always ready and waiting for this part of our program, Bing. This is the meat of our whole operation.

**BING:** Meat?

**KEN:** Well, no offense, Bing. Music is all right, but, well, you know what people want for a change of pace—bon mots... sparkling conversational give-and-take.

**BING:** You think the chatter charms the listeners, eh?

**KEN:** Sure. Like our fascinating descriptions of the country's economy—that's what knocks 'em over.

**BING:** Oh, I'll bet the economics professors really go for that. Well, let's not keep them waiting any longer, then. Carry on, Kenneth.

**KEN:** Okay. Let's see—we've finished talking about the partners of our economy—the worker, the customer, the government, the investor. Next we move on to the corporation.

**BING:** Why don't we define the term "corporation" from the legal standpoint. That's my department, you know, because I once studied for the law.

**KEN:** That's right, Bing, you did.

**BING:** Oh yes. I took torts at Gonzaga. I was extremely subtle with a summons.

**KEN:** Knew all the tricks, huh?

**BING:** I even had a Sherlock Holmes disguise outfit. At any rate, legally, a corporation is an individual or several individuals acting as a unit... and accepted by others as a unit. Could be you or me... or a cast of thousands.

**KEN:** In other words, it's not just a building... or an office... or a laboratory. It's people acting together that bring a corporation to life.

**BING:** That's right. A corporation is—people. One example that comes readily to mind is of course General Electric. You'll notice I face toward the East when I say the name.

**KEN:** You perform a very faithful salaam, too.

**BING:** Thank you, thank you. Of course, corporations can be in any kind of business—but General Electric is a manufacturing corporation. GE makes things—radios, refrigerators, turbines, jet engines and so on.

**KEN:** But all that takes money. To manufacture all these products and launch new ones... to carry on research and run sales offices... GE needs huge sums of money. "Borrowed" money, we might call it. Perhaps you recall our story about the mechanic who wanted to have his own garage.

**BING:** Yes, how is that chap? Has he retired yet? Heard he'd won at Bingo.

**KEN:** He's still in business. But you'll remember, Bing, that he needed money help from two of his friends to get started.

**BING:** And that money his buddies invested in the enterprise is his "borrowed" money.

**KEN:** Right. Now, any corporation, large or small, has to have this "borrowed" money to carry on its business and grow. It's the risk money, the venture money.

**BING:** And if I may be obvious—the larger the corporation, the more cabbage it's likely to need. Especially a sauerkraut factory. Wasn't that awful?

**KEN:** So these businesses usually sell stock to those with money to invest. They offer a share in the business... by means of shares of stock.

**BING:** Is that your stock answer?

**KEN:** Please, Bing.

**BING:** Can't get out of this rut I'm in. Look, Kenneth, that's a large responsibility on the management of the corporation—using this money wisely. Both management and the employees have to work together to try to turn a profit.

**KEN:** It's a matter of teamwork, Bing, of democracy, if you will... everyone pitching in to do his part. When they do, everybody benefits.

**BING:** The deal on it, Ken, is that it works. We have corporations... corporations have grown large and successful... because they've proved themselves the most effective and efficient way to do the work that has to be done... to benefit our whole economy.

**KEN:** Whether that corporation is a department store... or a moving picture company.

**BING:** Or even a hot dog stand. Down at Long Beach. With Brother Everett behind the counter.

**KEN:** Oh no, that'll never work, Bing.

**BING:** Why not?

**KEN:** Eat up all the profits.

**KEN:** Right, Bing. To sum up... a corporation is people working together as a unit—a business brought into being by the savings of some and carried on by the daily work of others. We have corporations because they've proved to be the best means to produce more goods for more people at less cost... and thus benefit all the partners of our economy.

**BING:** Oh you've done it again. You've summed up superbly.

## WINTER STREET JOTTINGS

by Joan Shoaff

Last Friday, Winter Streeters bade their farewell to Marion Closson, who after the 24th of April, will be Mrs. Al Doempke. Marion was feted with a dinner at the Colonial on April 14 by the shipping gang and was the recipient of a GE toaster with the compliments of her co-workers. Best of luck, Marion and Al!... Elinor Viland has been anxiously awaiting a visit from the stork again. Yes, her kitten, Tobiatha, is expecting to again increase the number of inhabitants at the Viland farm, while Elinor, who is determined to keep the number as is, has been eagerly trying to find a good home for the anticipated little kittens. Anyone interested in providing a home for a cute little kitten?

If you notice Margaret Motherwell carrying a sleeping bag on her back, it's because she wants to be prepared to meet another crisis if it should arise. Our "Fresh Air Queen" had to spend Saturday night sleeping out in the garage in the car because her husband had forgotten to remove the key from the inside lock; and, having pounded on the door until she succeeded in waking everyone in the neighborhood except her husband, Margaret accepted her fate and headed for the garage. Only slight after effects, like a stiff neck and a restless night, were the results of her outdoor adventure.

Here's a nomination for practical joker of the year. After the alarm went off one morning, Marion Zent got up, dressed, had breakfast, was ready for another day's work, and then went next door to awaken his brother who still hadn't gotten up. Having raised the other Zent household, Marion was shocked back to sleepiness when he learned that it was just 4:30, not 6:30. Marion's cousin had evidently set the clock ahead two hours the night before when he had paid the Zents a visit. Oh well, back to bed and forty more winks!

After the successful Elex Easter egg sale on Thursday, all office desks and factory work places were decorated with the colorful Easter eggs that were so gaily colored by the Elex members. Those helping put over this yearly event by selling the eggs were Betty Thompson, Tillie Lantz, and Mary Peduto.

Lawrence Magsamen was conspicuous by his absence last week when he spent a week of his vacation in Norfolk, Virginia, and Columbus, Nebraska. From all reports, an enjoyable and interesting trip resulted. A drive has been launched to draft Howard Beery as the manager of the Winter St. softball team. Several members have signed up for the team and now they are trying, with their most persuasive talk, to convince Howard that "he's the man for the job."

An Easter trip to Tennessee to visit relatives was undertaken last week-end by Jack Olinke of the Tool Room and his wife, Wilma, of the second floor office. After pushing and pulling on all types of buttons on the gum machine, Virginia Bloom was rather embarrassed when a helpful fellow worker procured the gum from one of the dark corners of the machine, the exact spot the gum was intended to land. Visitors at the hospital to see Ada Romanoski report she is progressing very well after having undergone a gallstone operation recently. A speedy recovery, Ada.

Barbara Ternet, when setting forth her requisites in a suitable husband, has placed big feet as one of the qualifying factors. Ernie Paurote displayed his outstanding artistic ability by bringing to work a drawing of Pat Pepple sitting at her work bench, proudly displaying her expert workmanship. Ernie, an employee in the hermetic section, also drew this cartoon on safety glasses. Anyone who is working or visiting the factory area is encouraged to wear safety glasses under our new program.

A welcome visitor to the plant this week was Walter Bell, former Winter St. employee, now enjoying his pension by spending his time at the lake, taking life easy. Walter Scherschel is still in the market for another car. Here's hoping he gets some results before his patience or shoe leather runs out. Welcome to D. C. Groves, the new addition to engineering, and to Bonnie Franklin, a new employee in payroll.

It's encouraging to hear that Marcella Koehn, who is mending a broken ankle in Room 286 at St. Joseph's Hospital is progressing satisfactorily on the road to recovery. Rumors tell of a new girl, bestowed with a sweet delicate voice, in the tabulating room that answers to the name of "Marsha." Russell Gebhart's 10-year-old son, Terry, spent a short time in the Park View Memorial Hospital for the removal of his tonsils and adenoids; while Don Voorhies' son, Don, Jr., was confined to the same hospital for three days for a nose operation.

Paul Greenlee, apprentice in the Tool Room, is taking a week's lesson in housekeeping while his wife is out of town. Harvey Smelser will have the experience of an expert after his wife returns from a 30-day visit with their daughter and granddaughter, Kathryn Elaine Tunget, at China Lake, California. Ray O'Keefe seems more appreciative of the Easter season than anyone else because it offers him an opportunity to wear the gay ties that he got last Christmas. After the mass picture-taking project on third floor, Audrie Fankhouser was wondering if she would get a chance to see the proofs so she could have re-takes if it didn't turn out, sorry, no re-takes.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 10-1.

#### CLOSING DATE

Monday Noon, April 26, 1954

#### LOST AND FOUND

LOST—Yellow-colored rosary at GE Club, Bldg. 10-2 and gold ear drop.

FOUND—Tan leather, zip, tobacco pouch.

#### FOR SALE

REFRIGERATOR—And gas stove, both in good condition. H-46131.

BUGGY—Thayer, collapsible, baby buggy; stroller and Teeter-baby. Ironing board and 12 ft. kayak. E-55065.

SUIT—Boy's suit, size 12-14, good condition. \$5. Book House, 12 volumes, \$10. Gooseberry bushes and rhubarb plants. H-9520.

AUCTION—Every Tuesday night, 2326 Morris St.

STORM WINDOWS—And screens: six, 30x51; three, 34x35; two, 34x43; one, 22x50 window only. \$25. H-4514.

BASSINETTE—And baby bed. H-55153.

SAXOPHONE—Tenor, excellent condition, 1201 Jackson St., Decatur.

BATHTUB—Clean bathtub and stool. Cheap if taken at once. H-17903.

CAR '51 model deluxe Chevy, 4-door sedan, excellent condition; must sell. Wm. Adkins, Columbia City.

DIRT—Peat moss, black dirt, 50 cents each delivered. A-75552.

RANGE—Table top gas range, \$10. A-16805.

CLOTHES—Girl's clothes, size 6X and 7. H-65371.

TOPCOAT—Young man's top coat, size 38, clean, good condition. H-8742.

BIKE—Boy's, 20-inch bike, good condition. Oak panel type, screen door, 3 1/2 x 6 ft. 9 in. H-55593.

ANTENNA—Hal-O UHF antenna. K-1517.

CAR '53 Mercury, good condition, one owner. H-9878.

PIANO—Packard Spinnet piano, walnut case, excellent condition, reasonable. A-19332.

COAT—Girl's spring coat, navy, matching hat, like new, size 8-10. Dresses, skirts, blouses, 8-10, Chubbette dresses and skirt, 10. K-5133.

LOT—Building lot. Will take car in trade. Trainer wheels for 16 to 24 in. bike. Girl's spring coat, size 4; boy's spring jacket, size 16. H-44094.

CAR—1946 Chrysler, New Yorker, black sedan, radio and heater, low mileage. W. W. Hires. H-58334.

SHOTGUN OUTFIT—Shotgun shell-loading outfit. A-69644.

CAMERA—Kodak Beau Brownie, 2A box camera, double lens, 2 1/4 x 4 1/4 picture, excellent condition, \$2. H-8995.

ANTENNA—Finco antenna with rotor, control box, lead-in wire, guy wires, all assembled, \$40. 526 Madison St. A-97771.

HEIFERS—Four Holstein heifers, 1 brindle heifer, 1 black heifer, 1 Shorthorn steer calf. A-26069.

RADIO—Brunswick radio, older model, but in good condition. Come see it and give us a bid. A-26582.

BICYCLE—Girl's bicycle, 26 in., like new, reasonable, 3615 Lafayette St. H-70322.

TABLE—Mahogany, drop leaf table; 2 chairs; rugs, 9x12 and 9x9; breakfast table, chairs; small corner cupboard; lamps. A-80123.

ENGINE—Truck engine, 1951 GMC, 270 cu. in., good condition, will fit Chevy truck. Will trade boy's 24-in. bike valued at \$20 for 20 in. boy's bike. E-37122.

RECORD CHANGER—RCA 45, portable, very good condition, one-half price. 3920 Smith St. H-91845.

JARS—Small jars for jelly, etc., free. H-17505.

CAR—1951 Chevrolet, 4-door, deluxe. A-96725.

GAME—Pinball machine, large size, complete, good condition. H-40383.

IRONS—GE travel and heavyweight irons, electric mixer. A-29105.

RUGS—Two 9x12 and four small throw rugs, all matching, reasonable, good condition. A-39464.

HORNS—Set of dual air horns with air compressor. A-26782.

DRESS—Yellow satin evening or bridesmaid's dress, beautifully made, size 10 or 11. K-3086.

GLIDER—Porch glider with separate cushions and 9x12 rug pad. All in good condition. A-69921.

BABY BED—Birch baby bed with Simmons mattress, 6 yr. size, \$18. Taylor-tot, \$3. H-50734.

BICYCLE—Boy's bicycle, A-1 condition, 26 in., needs paint, \$20, 1715 Grier St. H-44535.

CAR—1946 Plymouth, looks good, runs good, \$250. H-03465.

SEWING MACHINE—Singer sewing machine, treadle type, just overhauled, sews fine; guaranteed; \$20. A-57704.

CARPET—All wool, heavy carpet, 9x13, raised rose pattern, just cleaned, \$35. Heavy-lined, blue satin drapes, with silver feather design; 3 pr., two and one-third yds. long; \$5 pr.; cleaned. E-3030.

PA SYSTEM—25 watt, 6 or 110 volt, mobile type, with record player top. John Crocker, R. R. 5, Columbia City, 2015-R.

SUIT—Boy's gray suit, used twice, size 16. A-4586.

PUPS AKC registered Beagles. Four field-broken males and females; also pups to break this fall. Toy Boston. H-37964. H-02573, or H-20424.

LOT—Desirable lake lot, Crooked Lake, Whitley Co., golf course side, fine homes in area, \$900. A-2746.

CAR—Four-door, 1950 Plymouth sedan deluxe, low mileage, very good condition, original owner. A-46252.

LOT—Beautiful lot on Highway 37, close in. H-75132.

CRIB—Used 6 mo., \$15. Bassinet, pad, liner, and skirt, \$5. Taylor-tot walker, \$5. H-39215.

BEJ—Springs and mattress, like new. A-65675.

BREAKFAST SET—Wood, table and 4 chairs, purchased in 1947, \$15. H-46985.

SWEAPER—Almost new, Singer sweeper. For sale or trade for a roll-away bed or single mattress and springs. E-5897 before 2:30 p.m.

RUG—9x12 good Wilton rug; 2 1/2 hp. outboard motor. H-69081.

BEDROOM SUITE—Includes springs, mattress, and dresser, also floor lamp base. 3532 Winter St. H-68091.

GATE—Steel yard gate with fixtures, a new gate, \$5. E-4337.

JARS—Fruit jars, 50 cents per doz. Cross-cut saw, 5 ft., \$3. Tractor, sickle bar, and snow plow \$235. Power mower, \$145. H-44062 or E-72100.

#### FOR RENT

APARTMENTS—Two-room and three-room apartments, utilities, heat, 1 or 2 small children, laundry facilities. 625 E. Wayne St.

APARTMENT—Unfurnished, upper apartment, 5 rooms, bath, heat, hot water, furnished; private entrance, 1336 Greene St.

APARTMENT—Furnished apartment, living room-bedroom, private kitchen, bath, and entrance, utilities, large wardrobe, clean, newly decorated, near GE. H-4973.

APARTMENT—Three-room, upper apartment, utilities, heat, furnished, private. E-77945.

ROOM—Small sleeping room, private entrance, automatic heat, hot water, \$4 week, 1045 Swinney Ave. A-77751.

APARTMENT—Unfurnished, upper, 3 rooms, private bath, Murphy bed, newly decorated, heat and water furnished, close to GE. H-1633.

APARTMENT—Three, nicely furnished, upper, private entrance and bath. E-3115.

APARTMENT—Furnished, large living room-bedroom, private kitchen, bath, entrance, first floor, all utilities, clean, near GE. H-4973.

APARTMENT—Unfurnished, 3 rooms and bath, automatic gas heat. K-2701.

#### TRANSPORTATION

SHARE RIDE—From Country Club Gardens, Coleman Ave., 2 mi. south Anthony Wayne school, to Broadway, 7 to 3:30 p.m. Harry Kessel, Ext. 2267.

RIDE WANTED—From Hesse Cassell Road and US 27 south to Broadway plant, 8 to 4:30 p.m. Ext. 2317.

RIDE WANTED—From Ludwig Rd. (airport road) and Road 3 north to Winter St., first shift. E-71231.

RIDE WANTED—From Rome City daily. A-46252.

#### WANTED

SAILBOAT—Preferably snipe. K-3917.

BOAT—Good, used, car top boat. H-66962.

PUMP—Sump pump, used, without motor. A-2746.

BED—Maple baby bed, 6 yr. size. H-8033.

LADDER—8 to 12 ft. ladder; porch swing; two lawn chairs; Finco antenna including rotor and associated parts. H-90441.

MOTOR—2 hp. gasoline motor. A-58063.

CONCRETE MIXER—Columbia City, 2015-R.

COTTAGE—One or two bedroom cottage at Pretty Lake or at lake close by with private beach to rent for the season. H-90562.

TOILET—Outside toilet, prefer WPA, reasonable. A-88645.

BABY SITTING—Girl, 16, will do baby sitting after school and evenings, also light housework. A-68481.

MICROMETERS—Pr. 4 to 5 in. H-15140.

#### MISCELLANEOUS

CARE—For small baby in pleasant, licensed home, diaper service. H-0778.

## RACONTEUR SECTION 114 TAYLOR ST.

by Luana Oehlhaften

Are there any artists in our section? We know of one man who is offering \$15 for painting his house, and another will pay \$20 for painting his barn. The line forms to the rear. . . . Congratulations to our bride-to-be, Dorelyn Forde, who just received her sparkler and will be married to Richard Kassens this fall. Dorelyn was last seen on cloud nine. . . . Good-by and good luck to Ruth Wappes and June Spillner. . . . We hope to see Loretta Jarrett back at work before too long. Loretta was recently operated on. . . . We are happy to see Mariel Etcheson back at work after being off with a broken wrist. . . . Happy anniversary to Bernice Frick and her husband. . . .

Welcome to Section 114 to Lila Schlagenhauf, Jeanette Huth, and Frances Acton. Welcome to Mildred Runkle, who starts on first shift this week. . . . We wonder why Bob Duras wants Fred Vogt to stay in Germany. Could be those bowling scores, hrm! . . . Paul Clendenen fell in the lake last week-end at Linton. Is that how you caught those fish, Paul? . . . Eldon Bell is taking his Chris-Craft out of dry dock this week-end. Better get your bids in early, kids. . . . Glen MacNamara is having a new ranch-style home built. We're looking forward to that housewarming party, Mac. . . . Louise Lamholy's son, Wesley, will be on the Ground Observer Corps TV program Sunday, May 2. . . . Dorothy Money has now joined the TV crowd. . . . We hear Kathleen Jencks has a car now; at last, transportation for the canoe. . . . Mike Brayer and Paul Clendenen are proud winners of Easter chickens. They had the highest scores above their average in bowling Thursday night. . . . It is now a known fact that Fred Campbell threw two gutterballs in one frame Thursday night. He must have been trying too hard to win one of those Easter chickens. . . . Poor Mr. Culver! He is through the list of Campbell's soups and is ready to start on Gerber's strained foods. Our advice is to just keep trying, Clayt. . . . Spring certainly must be here. Herb Tons is going to trade the Kaiser for a motorcycle. . . . Carl Klopfer has the prize catch of fish for this spring. He caught two bluegills seven inches long, seven inches between the fish,

that is. . . . The fish are due for a surprise this year, Vondy has a new spinning rod and reel. Judy Lehman says his fish stretcher is not for sale. . . . Bill Lavine is going out of business. He just sold the last of his berry bushes.

THANK YOU

## SLEUTHING in 4-6

by Al Happel

WELCOME BACK, Lela Omspach. That was a nice Easter bunny that brought you back to us. Six weeks is a long time to hop around on one foot, so take it easy. You don't want to turn into one of those rabbits, do you? . . . With the GLORY OF EASTER just past we turn to outside work: Everett Letsinger budding his little trees and digging his pond deeper; Doran Hershberger concentrating on completing his new home (with his own hands); E. Stanbery sprouting his dahlias; Howard Stark setting his tepee built out among the Indians; Max Barrows planting his Christmas trees; and Katie and Joe Gardt getting the wrinkles out of their car. . . . BOB MEE washed and polished his so-called car; Charles Kelso, Bob Humbert, and Jack Baumgartner brought out their golf clubs; Gil Baker began to clean up his lawn. Is that true, Mrs. Baker? . . . Arlene Yates and Warren Berkheiser are playing nursemaid to their flower gardens. Shirley Doster is staying home and watching TV; Bob Johnson is raking his lawn. We guess that Wally Clayton is busy doing something outside too, but we think he's just sleeping. . . . HAPPY BIRTHDAY to Bert Girardot on the 27th of April. . . . BASEBALL SEASON is here again. Harry Conner, our elevator man, is still a St. Louis Cardinal fan. What is the matter with those Cards anyway, Harry? Bob Knepple is a White Sox fan. What happened to your club, Boh? We also understand that Owen Vaught and Walter Whonseller are praying for those Brooklyn Bums. . . . WE HEARD a rumor that Gil Baker is shopping around for an old car to buy. If anyone has a 1930 model or older, please contact Gil Baker in Bldg. 4-6. He is very anxious to get an old car, so he can teach his wife to drive. . . . WE HAVE a new member in the 700 Coke Club. His name is "Cheap" Gil Baker who received his name from Wally Clayton and Warren Berkheiser. . . . BEV SCHOEPH returned to work Monday after the Easter holiday and it seemed like some honey of a bunny left a pretty diamond ring on her finger. Congratulations, Bev.

## OVER OUR WAY BLDG. 19-1 by Clara Volz

"Okay, so when you get to be 40 you do have to give up tennis. You also have to give up shoveling snow." . . . Time marches on: George Fink has been caught dating some of his papers, 1952. My! We are a bit behind time aren't we, George. . . . Bill Hoelle brought in a treat, homemade cookies that his wife made. They were very good, too, Mrs. Hoelle. . . . No ringee the phonee at Margie Messer's house between 9:30 and 10 Tuesday evenings. Reason: Libeace is making with the music on TV and Margie doesn't like to be disturbed. (Her phone number is H-76392.) . . . Welcome to Alfred Munster, our new TE. We hope you will like us, Al. . . . Is it true, Clayton Barrick, that you paid out \$4.80 to see Libeace? You are a real music lover if this is the case. . . . Farewell to Bob Dowell, who is leaving here for the East. We'll miss you, Bob, but not those big, black cigars you smoke so profusely in the office. . . . Virgil Carmean must have gotten a raise that the rest of us don't know about. He wore a spanking new pair of shoes into work. Real fancy, that boy is. . . . Congratulations to Carl Schafian-ski on the arrival of a new baby boy last week. . . . A certain woman driver was waiting on a stop and go signal. She waited for a complete change of the lights, and still didn't make any effort to drive on. Finally a cop noticed her waiting, and walked over to her car. He replied, "What's the matter lady, ain't we got any colors you like?"

## 17-3 NEWSIES

by Wilhelmina Beeth

Timely reminder: Don't forget to turn up the clock tomorrow night. . . . The head-shaking between Mabel Schaaf and Floetta Zartman is over. The new grandma race was won by Mahel by two days. Congratulations. . . . Also congratulations to another new button-popping grandma, Mary Monigal. Mary now has three grandsons. . . . We bid farewell to Helen Pickett, who is expecting a visitor on the Stork Express. . . . We light another candle on the cake and wish a happy birthday to Leona Hollis, Ethel Keller, and Florence Lea. . . . Coming to work at six instead of seven has some of the girls confused. Mary Jane Redding, Doris Ryan, and Floetta Zartman went to the places where they usually park their cars. They found them back on the parking lot. I guess they needed a little exercise. . . . Helen Smith was all dolled up and ready for church. Just as she was getting in the car, she noticed she had on her house slippers. . . . We have a new Libeace fan and, believe it or not, girls, he says he will be the first one in the door come May 15. Now, Louie Wyss, you know you don't stand a chance doing that. . . . Bertha Furge spent Easter in Akron, O. . . . Congratulations to Ruth Pequignot on her 22nd wedding anniversary. . . . When Charlie Rice sits on his glasses, he really shatters them. Better not go to sleep the next time you are watching TV. . . . We received a letter from Clementine Dykes and she says "hello" to all. . . . Greetings and best wishes to Loretta Bloom, who has been seriously ill. . . . Get well wishes go to Sadie Hudlow and Marie Claycomb, also to Alberta Foulks, who was in an auto accident. . . . We extend our sympathy to Vera Nelson Ramsey on the loss of her husband.

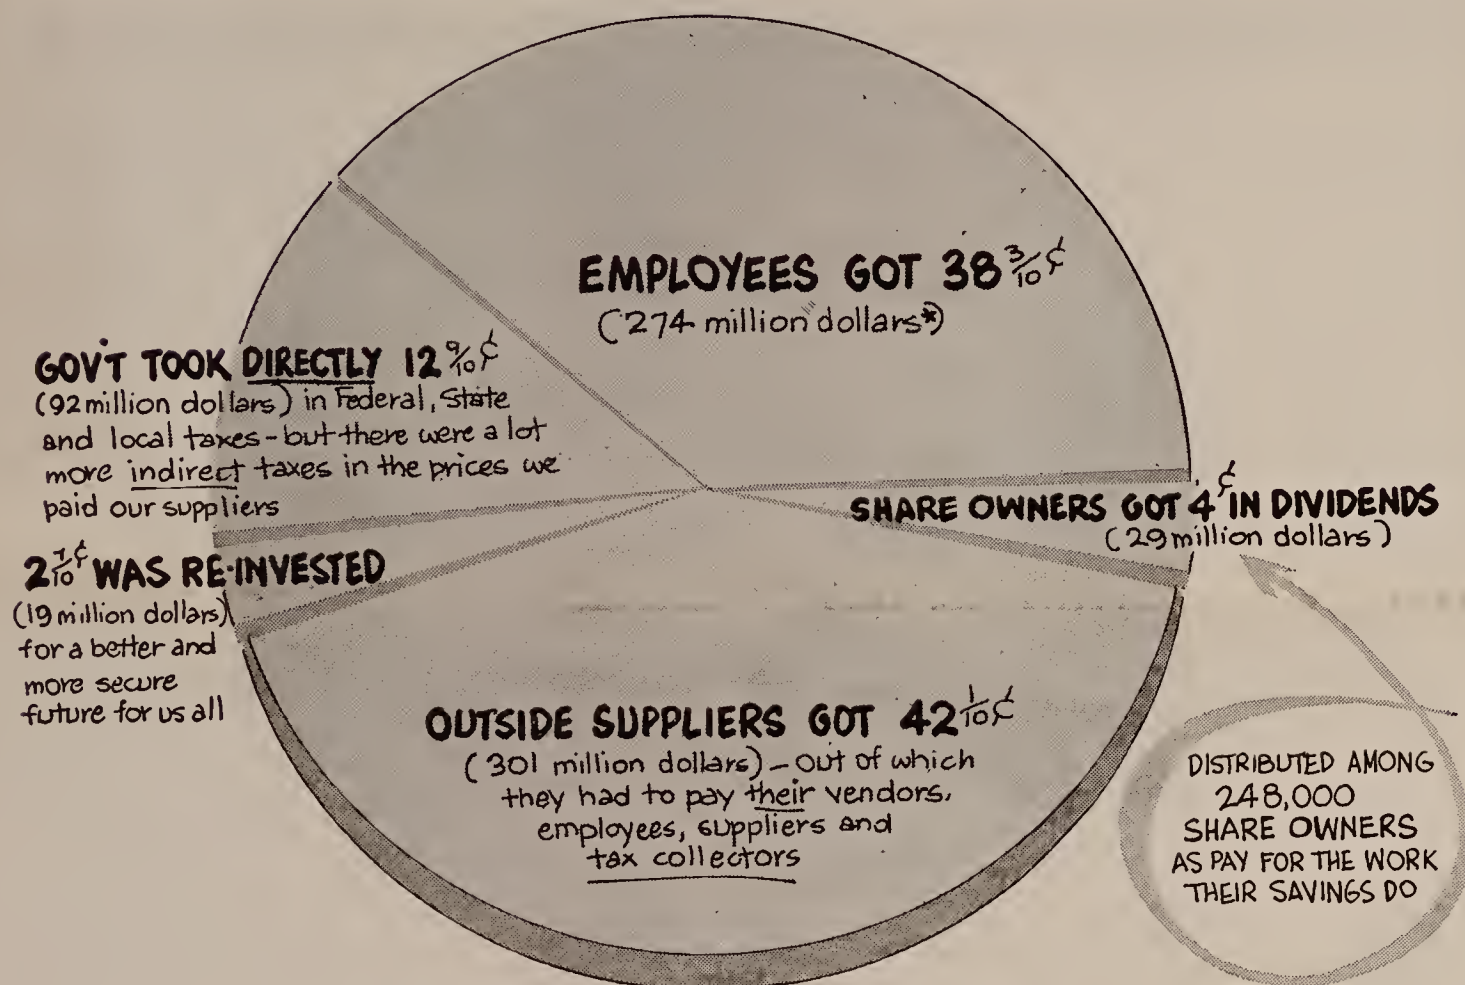

"That's an efficiency expert for you! Insists we make up a foursome before using the revolving door!"

# OUT OF EVERY DOLLAR RECEIVED

*during January, February, March...*

GENERAL ELECTRIC received \$715,596,000 from customers for products and services during the first three months of 1954.

Employees, suppliers, and government taxes together took over 93 cents of each dollar of sales.

After all these claims were met, the balance of  $6\frac{7}{10}\%$  was profit. As shown above,  $2\frac{7}{10}\%$  of this was put back in the business for strength, growth and a sounder future for us all. The remaining 4¢ went to share owners for supplying our jobs and risking their savings in our daily operations.

\*All amounts stated in nearest millions of dollars.

## GE Executive to Address Foremen, Supervisors May 12

Robert Paxton, executive vice president of the General Electric Company, will address members of the Foremen's Association and Supervisors' Club at a joint meeting scheduled for Wednesday, May 12, in the GE Club.

Invitations for the dinner will be issued next week. Dinner will be served in two shifts at 5:30 and 6 p.m. Invitations will indicate which time members should report for dinner.

ROBERT PAXTON

Mr. Paxton is responsible for the company's Industrial Product and Lamp Group, consisting of the chemical, construction materials, lamp, and industrial power components, component products, measurements and industrial products divisions, Carbonyl and Mahoning Valley Steel.

He became associated with GE upon graduation from Rensselaer Polytechnic Institute in 1923 when he joined the Test Course. He has been manager of the Philadelphia and Pittsfield works, and manager of the Transformer and Allied Product Divisions.

## GeCode Plans Vacation Trip To New York

Lured by the glitter and excitement of the country's largest city, Decatur GeCode Club members have announced plans for a six-day trip to New York City during vacation shut-down.

Leaving Decatur Sunday, July 25, the group will travel by chartered motor coach to the capital of the Empire State, stopping overnight in Pittsburgh. They will spend two and one-half days in New York and return to Decatur Friday, July 30.

Total cost of the trip is \$52.50 per person for members and \$54.50 for non-members. These prices are based on accommodations of four persons to a room. Those who wish two-to-a-room accommodations will have an additional charge of \$10 per person.

Price of the trip includes: transportation by chartered motor coach, hotel reservations, Federal transportation tax, sight-seeing as specified in itinerary, admission to Empire State Building observatory, guided tour of United Nations building, sight-seeing bus tour and yacht trip, admission to Radio City Music Hall, tips for handling of one piece of luggage per person, and tour escort for entire trip.

Persons interested in taking the trip should make reservations with either Dorothy Schnepf, GeCode president, or Dora Mae Fairchild, travel chairman. A down payment of \$10 is required to hold a reservation. Deadline for securing reservations is Friday, May 21.

After the group arrives in New York City Monday, July 26, they will check in at the McAlpin Hotel, which is in the heart of the shopping district and in the same block as the Empire State Building.

The vacationers will see the city at night from the observatory of the Empire State Building, travel through such sections of the city as the Bowery, Chinatown, Green-

## March Suggestion Reports Show 250 Employees Take Home \$1,825

March suggestion reports from Fort Wayne departments show 250 employees received \$1,825 in awards during the month.

Henry W. Skevington, Bldg. 19-3, headed the list with \$130 for revamping the clutch used on taping machines. His new clutch is six pounds lighter, holds better, and will last longer.

A \$70 award check went to Glen C. Straight for suggesting that a level be added to the dial indicator so that the shock of hammer blows would not damage the indicator. Mr. Straight is employed in Section 417 at Taylor St.

Stella Hagadorn, also of Section 417, earned \$65 for improving the method of preparing the manufacturing load schedule. A suggestion for using power screw drivers in place of hand drivers in motor assembly brought Fred H. Vogt an award of \$50. His idea resulted in time savings. Mr. Vogt is employed in Section 114 at Taylor St.

The following employees received awards ranging from \$25 to \$50 in amount:

Harold D. Patterson, Taylor St., \$47.50; Dallas F. Smith, Bldg. 19-5, \$47.50; Paulus Adams, Bldg. 4-5, \$45; H. J. Wichern, Bldg. 17-1, \$45; C. H. Bell, Taylor St., \$45; M. E. Riley, Taylor St., \$45; Joseph H. Jensen, Bldg. 17-3, \$40; and Joseph Adams, Bldg. 6-3, \$40.

More are: Paul Gressley, Bldg. 26-5, \$37.50; Clarence Gaar, Bldg. 4-3, \$35; P. A. LeCoque, Taylor St., \$30; Kenneth Fisher, Bldg. 26-5, \$30; W. R. Hausbach, Bldg. 4-1, \$25; Floyd R. Mutton, Bldg. 19-3, \$25; F. D. Cox, Taylor St., \$25; R. A. Wuttke, Taylor St., \$25; Galen Krieg, Bldg. 6-2, \$24; Clar-

(Continued on Page 4)

in the shade of the old apple tree, work begins on a new parking area between the West Broadway gate and Bldg. 20. It is expected it will be completed late in May.

**VOTE MAY 4**—No matter what your politics, the important thing is to vote, says Wilson Garman, Bldg. 19-5, Republican precinct committeeman, and Virgil Kline, Taylor St., Democratic precinct committeeman. Primary elections will take place Tuesday, May 4.

## New Parking Lot To Replace Old 'Apple Orchard'

This week the "apple orchard" became part of the passing scene here as work was begun on a visitors' parking lot which will replace it. To youngtimers unfamiliar with the name, the "apple orchard" is the area between the West Broadway gate and Bldg. 20, which consisted of a large grassy plot with several fruit trees on it.

The first step in a program to improve our parking facilities the new lot will accommodate approximately 60 automobiles. It will be an oval-shaped area with a section in the center which will be landscaped. Only two of the eight trees from the orchard were removed. The others will remain along with shrubbery to be added adjacent to the Broadway side.

If weather permits, the concrete paved lot is scheduled to be completed the latter part of May. Sewers totaling 230 feet were laid last week. When completed the new parking lot will have 19,000 square feet of paving.

## Negotiations Report

National contract negotiations with IUE-CIO and the UE continued in New York this week. The meetings were devoted largely to some discussion and critical analysis of the economic presentations made by the unions at the opening of negotiations last week and to consideration of some of their proposed contract revisions.

There had been no developments of significance as we went to press.

## After Hours

For those of us who push pencils, wind coils, shape cores or castings, or assemble GE's finished products, quitting time means we can go home. Whatever shift we're assigned to, we can count, each day, on time off from work "after hours." But the men whose ideas in engineering and marketing keep products and payrolls coming our way have plenty of use for the electric light we help to make.

Recently, President Ralph Cordiner told GE share owners that the number of GE jobs had tripled since 1925—the year in which we began our planned program of product diversification—to give us more and better GE jobs through our company's constant moving ahead.

And Mr. Cordiner gave much of the credit for this program to "research and development and planned product diversification . . . including the new manufacturing and marketing methods necessary to sustain it." As examples he cited atomic energy work in GE such as the atomic-powered submarine under development at Schenectady and the atomic-powered airplane developments at Evendale. Today, about every sixth person working on contract operations for the Atomic Energy Commission is a GE employee.

As other examples, Mr. Cordiner referred to our thin-wall insulation for refrigerators; our cathode-ray treatment for preserving foods; and our progress with "semi-conductors"—the transistors and germanium products of West Lynn that may revolutionize the world of electronics.

And he paid particular tribute to our gains in the science of marketing—attitudes and approaches that promise to flatten-out some of the sales peaks and valleys which caused up-and-down swings in employment during earlier generations. Inspired by Mr. Cordiner's dynamic leadership, our marketing men are doing more and better market research and sales planning, better sales forecasting, more and harder selling, sharper pricing, more venturesome extension of credit and terms, stronger "off-season" sales promotion—all aimed at the target of steadier demand for GE products which means steadier work for GE employees.

Competing with more than 300 different companies, GE must be a World Series champ in every sales league it enters. To keep ahead of the pack, our engineers keep pitching new product ideas; our production work force turns these ideas into customer-winning electrical products; and our marketing men bring home the customer dollars by hitting hard every day of the year.

It is obvious that the hundreds of new GE products which have tripled GE employment since 1925 represent plenty of after hours study and thought by GE engineers and salesmen. Those of us who go home when the whistle blows can be glad that our engineering and marketing teammates are turning out customer-winning ideas after hours—to keep us on top of the electrical league.

\* \* \*

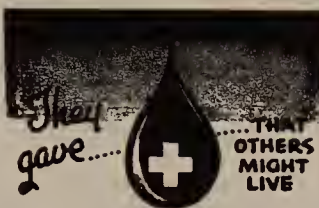

## It's Not Too Big

Some people say that the development of atomic energy for peacetime uses is too big a job to be tackled by any individual firm.

It's interesting to recall that when the automobile was first talked about, many people thought that the railroads would be the natural developers, since they had the resources—financial and mechanical. Few people at that time paid any attention to a couple of obscure men named Henry Ford and Walter Chrysler.

But the railroads didn't do anything much about developing the automobile. And Detroit stands today as a monument to Ford and Chrysler and other pioneers.

Today the government has a monopoly on atomic energy. The chances are that you'll probably never enjoy pushing a button and lighting an atomic furnace if the government keeps atomic energy development entirely to itself. History clearly shows that all our great industrial developments have come from individual ingenuity and enterprise.

The following employees donated blood during the week ending April 16: These people are from the General Purpose Component Motor Department:

Fane D. Clingenpeel, Mrs. Peggy Clingenpeel, Russell Gerardot, Ray Herber, Joseph T. Hill, Bob W. Kahlenbeck, O. Harold Kibiger, Harold R. Knepp, William Lewis, Carl Steinbacher, Charles Tester, Kenneth W. Carpenter, John Carroccio, Donald W. Clark, John Duffey, Robert Frederick, Paul Fremion, Charles W. Gatton, Roy Gawthrop, Russell L. Hambly, Leslie M. Clough, Edward G. Hamilton, Richard R. Harlow, Charles H. Hartman, Edgar R. Henningsen, Orrell L. Hess, Joseph E. Hoog, Claude Holmes, Ralph N. Hoover, Carl D. Hower, Harold F. Huebner, Keith Kalb, and Richard S. Tobias.

Fane D. Clingenpeel, Mrs. Peggy Clingenpeel, and Joseph T. Hill are one-gallon donors.

## SLEUTHING in 4-6

by Al Happel

CONGRATULATIONS to Mr. and Mrs. Coceano on the arrival of their daughter, Laura Marie, 5 lbs., born April 23. . . . WHERE OH WHERE has my little dog gone? Chris Flanigan and family were taking a drive Sunday and the dog was leaning out the window, when all of a sudden he leaned too far and fell out. All the cars came to a screeching halt as Chris' family were put out of the car to recover the dog. . . . TWO USED KITES for sale. See Chris Flanigan for the largest kite used in the Cub Scouts' kite contest. Although the first one broke the first time in the air, Chris didn't give up. He bought another plastic tablecloth and made the second one and it worked as well as the first one. Have you made the third one yet, Chris? The third time is the charm. . . . WE WOULD LIKE to say "hello" to Jean Stokke, who used to work here. . . . CONGRATULATIONS to Mr. and Mrs. Jacob Park as they are the proud parents of a baby daughter, Rebecca Sue, born April 12. . . . CLUBS! CLUBS! Last week we just discovered two new clubs. The one new club is the Short Hair Cut Club. It has two members at this date. It is supposed to have 10 more members by next month. This statement was announced by its two members, Harvey Von Gunten and Wier W. Anderson. The other club is named the Pajamas Top Club. Its only member is Charles Wurm. Are you lonesome, Charley? If so you had better elect some new member to your club. It will be a tough job, but we think you can do it. . . . HAPPY BIRTHDAY to Larry Diller and John Willsey on May 2, and Mabel Waggoner on May 5. . . . WE WELCOME Dorothy Connor to the Specialty Motor Department. She is the daughter of Harry Connor, our elevator man. We hope you will like it here, Dorothy. . . . FUNNY PEOPLE! At this particular time of year one finds people acting in the most peculiar fashion. They get up at daybreak or before, sneak out with paper bags or baskets on their arms, boots on their feet, and an old sweater or jacket around

their shoulders, look all around to see if anyone is watching them and they scoot off to their secret hunting grounds by various routes so as to lose anyone trying to follow. There is one person guarding their crop in their own back yard, while others have been known to travel all the way to Michigan to gather mushrooms. . . . TICKETS! TICKETS! TICKETS! This is what Wally Clayton has been saying to himself lately. We heard that Wally is making a hobby of collecting tickets, so if anyone is interested in giving Wally tickets for his hobby collection, please give only nice pink tickets, because that is all Wally is collecting.

## TRANSFORMER TATTLES

Bldg. 26-4

by Dutch Norwalt

We suspect that George Finkbeiner came straight in from the farm instead of Bldg. 26-3 from the amount of "corn" there is in some of his stories. . . . Attention Bldg. 26-4 office workers: Dick Pierce wins again. . . . It is reported that Charley Scott at long last is going to have his "last" tooth pulled. . . . A. H. Topp Trucks, Inc., is now going to have some competition. Robert Smith just bought a new 10-tonner, latest equipment and all. . . . Peace and quiet should now reign supreme in Bldg. 26-4. Ed W. Englert has been transferred to Bldg. 26-3. . . . Joe Trondely, retired Transformer employee, is now home recovering from recent surgery at Ann Arbor, Michigan. . . . Clark Scheid, Bldg. 26-4 foreman, is now on a new schedule working 25 hours a day. . . . Edna DeLeury, the people's choice, again is at the head of the list. She has two new calculating machines on her desk, one for each hand. . . . Anyone wanting expert advice on fence stretchers or fence stretching see Walter Mauke. . . . The Permafil Section wish Novell Pape and Dorothy Donahue many more happy birthdays. . . . Howard Draper has a lazy man's haircut. It is very sharp or maybe we should say very short. . . . Roger Bebout, a well-known tester, welcomes the return of our recent winter weather. . . . The many friends of Mildred Fast welcome her back to work after her recent illness. . . . Edna DeLeury, the Easter egg saleslady for the Elex Club, showed much enthusiasm for her work. Could it have been on a commission basis? . . . It is reported that Emil Schurenberg is the newest member of Murderers Row. . . . Notice to Al Topp: TV telephones are not yet in service. You can't do all your talking with your hands.

## THISA & THATA

Bldg. 4-3 and 4

by Helen Engle

The girls in the office planned a surprise birthday dinner for Bonnie Engelking, Ginny Burkett, and Mary Harvey. Bonnie caught the girls collecting for the cakes and wondered if she was getting left out of a collection, so Mona Hirschbiel, thinking fast, said they were organizing a Liberace Fan Club. Bonnie felt very bad about not being asked, so to date she is the only member and anyone wanting more information about the Fan Club see Bonnie. The girls gave her the money back so she didn't really have to pay for her own party. . . . Bob Black has his boat all painted and ready for the fishing season. . . . Grace Ober is a full-fledged auto driver now. She passed the test with flying colors. . . . Congratulations and best wishes to Donna Crow, who became Mrs. James Beck last Saturday. . . . Hazel Stauffer is now among the new TV owners. She got the right brand, too, a GE. . . . Russell Rose said he caught 21 bluegills over the week-end. . . . We wish Buss Romary, who is a patient at St. Joseph's Hospital, a speedy recovery from his operation. . . . Freeman White's wife and Helen White's mother is also a patient at St. Joseph's and we wish her a speedy recovery, too. . . . That new bundle of baby that arrived at the Fleckenstein home was named Paul Patrick, according to father Tom. He was named after his uncle and godfather but then mama and papa liked the name, too. . . . We are glad to see Glen Schwartz back at work after being off work for a week and glad that Cora Rice is able to be back at work after a week's illness. . . . We wonder why Ed Taylor hasn't made any bets lately. . . . The Elite Club entertained Peggy Bahde with a birthday dinner Tuesday evening. . . . Clarice Fyock thinks she might have the mumps! . . . Our sympathy to Lorinda Beyerlein and the Scherzinger family. . . . The Don Mations have no rhubarb at all now! The dog dug the new little starts up, so if Don eats any rhubarb it will have to be through the courtesy of his friends. . . . Birthday greetings to the following people who have birthdays in May: Alice Fuchshuber, May 2; Evelyn Skelton, May 3; Bill Widdefield, May 4; Ruth Somers, May 8; Dorothy Hoffman, May 9; Edna Rohrbach, May 7; Wilma Linker, May 15; Harold Fraizer, May 12; Margaret Beugnot, May 19; Betty Kummer, May 20; Ralph Gilbert, May 21; Lee Schnepp, May 23; James Pugh, May 25; Irene Stoner, May 28; Gerna Cook, May 29; and Marian Miller, May 29.

## Primer on Communism: No. 2

### Who Are the Communists?

At first Russia's Communists were the workers, the people who won the civil war and endured the hardships of industrialization. Now they are a distinct minority in the Russian Communist party, elbowed out by a social group represented by plant and farm managers, government and party functionaries, military officers and technicians.

Yet many recruits to the Communist party outside Russian borders join in the belief that the party is of, by and for the worker. A few intellectuals are deceived into joining by the party's idealistic camouflage. But in Russia's satellite states, most who join are prompted by fear or quest for special favors.

(Adapted from the "Primer on Communism," published by the Anti-Defamation League of B'nai B'rith.)

## Harold Staley, Don Poland Assume Posts In Small Integral Motor Manufacturing

Two appointments in the Small Integral Motor Department were announced today by Oscar L. Weitzman, manager of marketing. Harold F. Staley has been named manufacturing engineer and Donald B. Poland has been appointed superintendent of manufacturing. Both appointments become effective May 15.

Mr. Staley came to the company in 1934 and entered the Apprentice School. When he

graduated from the design-drafting course in 1938 he became a draftsman at Winter St. In 1941 he went into the power drive division where he was assigned to planning and tool design. He completed a one-year general course in mechanical engineering in 1941 also.

In 1946 Mr. Staley entered plant engineering as an engineer and became general foreman in the hermetic section the following year. Later in 1947 he moved to the Bowling Green, Ky., plant, where he was superintendent.

Entering a manufacturing training course in 1949, Mr. Staley went on special assignment at Winter St. in 1950. Later he became supervisor of new product planning and in 1953 was named superintendent of manufacturing at Winter St. This was his position until his present appointment.

Mr. Staley is a member of the Fort Wayne Engineers Club, Indiana Engineering Council, and Supervisors Club. The Staleys and their three children reside at 4417 Spatz Ave.

Mr. Poland entered GE in 1935 as an electrical tester in Specialty Transformer. He went into development work later and in 1939 became a foreman in the winding section, Bldg. 26-3. He did quality control work the following year and in 1942 went on a program that took him to Detroit, Chicago, and the East Coast.

In 1945 Mr. Poland went on special assignment under the superintendent in Transformer. Later the same year he went to Clyde, N. Y., as plant manager. He returned to Fort Wayne in 1948 as superintendent and the next year went on special assignment to Danville. In 1950 he became assistant to the plant manager at Danville and the following year was named plant manager. This was his position prior to his present assignment.

IDEA EARNS \$130—Henry Skevington earned \$130 for revamping the clutch on tapping machines, which is six pounds lighter, holds better, and will last longer. Mr. Skevington is a maintenance machinist in Bldg. 19-2. Shown at left is Harold Misegades.

Harold F. Staley

Donald B. Poland

## Schueler's to Bring 'Junior' To Home Show Tomorrow

"Junior, the Walking, Talking Refrigerator," will be back in town next week under the sponsorship of Schueler Appliances. He will play his return engagement at the Fort Wayne Home Show in the War Memorial Coliseum, May 1 through May 9.

### PICK-UPS from 26-3 by Maxine Jordan

The finishing section surprised their foreman, Dale Amstutz, with cake and a gift on his birthday, April 23. . . . Ruth Freeland has taken up adagio dancing. The other noon she gave us a sneak preview of her act in the middle of Wall St., to the beat of an air hammer. . . . Ray Loveless has a new nickname. He is now known as "Ramrod." . . . Anyone interested in learning how to shear sheep can contact Al Carper. . . . Lena Forker has decided not to buy any more dresses that have full skirts. Wonder why? Could it be these gentle breezes? . . . The Virgil Buchanan family has a new addition—nine Cocker puppies, all colors. . . . We are sorry to have Alta Cotner leave us. We hope she likes her new job. . . . Blanche Kanning was visiting friends and had to be told by her host that her car motor was still running. We guess she was preparing for a fast get-away. . . . We express our deepest sympathies to Levi Carpenter on the death of his brother-in-law. . . . Phil Cartwright filled in at the daily bridge game in the office. He was goaded into taking a set by five tricks on a two no trump bid. There is now an opening for one bridge expert. No euchre or pinochle players need apply. . . . We understand George Mannisto went to the egg hunt Easter Sunday. That must have been why the office gang had eggs for lunch last Monday. . . . Thanks to Sylvia Lazoff from all the office folks for the cute little cupcakes she baked last week. They were good, too, Sylvia. . . . Rose Krieg should wear identification tags in case she gets lost so her new husband would recognize her if he ever did find her.

A special treat for children, as well as their parents, "Junior" will be operating from the Schueler display, which will also include General Electric major appliances.

The General Electric booth at the show will feature pictures of the new General Electric all-electric Wonder Home.

The Home Show, sponsored by the Junior Chamber of Commerce, will be open from 6 to 10 p.m. week nights and from 12 noon until 10 p.m. Saturdays and Sundays.

Tickets are available from members of the Jaycee group or at the door of the Coliseum during the show.

## 'El-Par' Is Selected as Name Of New Elex Club Chapter

El-Par is the name that has been selected for the newest chapter of Elex Club by its members, who are former employees. The name was voted upon at the April 21 meeting of the organization, Mamie Allen, president, announced.

The name is derived from the first parts of the names

Elex and Partizan. It was suggested by Helen Scheer, vice president. In addition to deciding upon a name, the group chose its slogan which is "We Serve." The club colors are Nile green and white and the flower is the snapdragon. Members decided to conduct board meetings the last Thursday of each

month and general meetings will take place the third Wednesday of each month.

The following committee chairmen for the year were appointed: Nettie Englebrecht, hospitality; Alberta Cripe, historian; Tessie Wise and Elsie Logue, telephone; Helen Scheer and Zella Whitmer, ways and means; Caroline Hans, Elex contact girl, and Mamie Allen, publicity.

May 19 the next meeting will take place in the GE Club beginning at 1 p.m. It will be a May Day party.

Mr. Poland is a member of the Danville Ballast Association and Volunteer Firemen's Association and is chairman of the City of Danville Zoning Ordinance, director of the Danville YMCA, executive of Cancer Society, and chairman of the central district, Boy Scouts of America.

The Polands have three children and reside in Danville at present.

## Two GE Men To Be at President's Safety Conference

H. W. Garton, Bldg. 21, and Herschel L. Smith, Bldg. 8-2, will attend the President Eisenhower's Conference on Occupational Safety May 4 through May 6 in Washington, D. C.

Under the supervision of Secretary of Labor James P. Mitchell, the conference will include a welcome by President Eisenhower and an address by Secretary Mitchell.

The session is a voluntary program to reduce the number of deaths and injuries on the job. It includes the following areas from which representatives will attend: construction, manufacturing, public utilities, trade, finance, service, and government.

The three-day agenda will include addresses by national safety authorities, committee meetings, panel discussions, and tours.

VICTORIOUS VETS—Officers of the GE War Veterans Association for the coming year, who were elected last week are (l-r): Robert Turschman, Bldg. 2-2, director for three years; Clayton Schultz, retired, sergeant-at-arms; Herbert Koch, Bldg. 2-2, first vice-president; Roy Brower, Bldg. 6-4, president; Carl Rehling, Bldg. 20-2, secretary, and Ed Moodie, Taylor St., second vice president.

### MEET MR. McNUTLEY—WANE

8 p.m. Thursday  
Starring Ray Milland in the General Electric Comedy Hour.

### BING CROSBY—WANE

7 p.m. Sunday

## THRILLER ON GE THEATER SUNDAY

Ruth Hussey and William Lundigan star in "To Lift a Feather," a psychological thriller seen on "The General Electric Theater," Sunday, May 2, at 8 p.m., over WKJG-TV.

Life during the day and night becomes a bad dream for Charlie Bassett (Lundigan,) and his wife, Emma, (Ruth Hussey) because of Charlie's nightmares and their consequences. Everything he dreams seems to come true. He dreams Emma buys a hat, and when she does, it's exactly the hat he saw during his dream. He has a nightmare about hitting a hairless man with his car, and that dream comes true.

On succeeding days, the same pattern is repeated and Emma becomes so hysterical with fright and indecision that she is driven to a suicide attempt. At the last moment, she discovers that sometimes reality can be even more frightening than the most horrible nightmare.

"To Lift A Feather" was directed by R. Stevenson, and produced by Joe Siström and Stuart Reynold for "The General Electric Theater."

## CURIOSITY GETS JOAN IN TROUBLE

Through natural curiosity comedienne Joan Davis opens her husband's mail, precipitating a minor crisis, in the telecast titled "Curiosity" in the "I Married Joan" series, Wednesday, May 5, at 7 p.m., CDT, over the NBC-TV network. When first presented in 1952, this telecast proved one of the most enthusiastically received of the Joan Davis programs.

When her TV husband (Jim Backus) protests, Joan vows that never again will she open his mail. However, a small package arrives and Joan can't resist the temptation to investigate. She finds a self-inflating life raft which deflates her ego and almost crushes her

when she tries to assemble it.

Efforts by Joan to cement the damaged raft only get her into deeper trouble and the climax arrives when her husband discovers what has happened.

## GeCode

(Continued from Page 1)

wich Village, Wall Street, and Lower Manhattan.

They will attend a television broadcast of the Garry Moore Show, a program at Radio City Music Hall, and may attend a performance of the Broadway play "Kismet" if they desire. Tickets for this play are in addition to the cost of the trip and should be secured by the individual by writing to the Ziegfeld Theatre, 6th Ave. at 54th St., New York 19, N. Y. Enclose a self-addressed stamped envelope along with your check or money order. Prices for the show are: orchestra, \$7.20; mezzanine, \$6; balcony, \$4.80, \$3.60, and \$2.40.

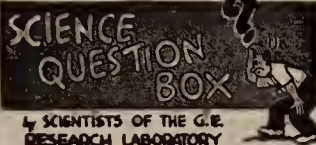

Another optional feature of the trip is attending a dinner party and floor show at the Latin Quarter. Price of this is \$7.60 per person, including dinner, tax, and tips.

With sight-seeing and entertaining programs filling the day, the tourists will have their evenings in the city free to do as they wish.

Returning to Decatur, the group will leave New York City July 29 and stop overnight at the Hotel Roosevelt in Pittsburgh before arriving in Decatur the afternoon of July 30.

NEW SERVICE DEPT. at the Employee Store, Bldg. 8-1, was opened recently. John Crocker, serviceman, works on repairs in the new enlarged area which is located near the front of the store for the convenience of employees who wish to take items there for repair.

Q. Does the presence of six colors in the spectrum of the Sun indicate the presence of six different metals in that body?

A. No, it is not the colors in the spectrum of the Sun or another star that indicate the elements. A bar of iron, heated white hot, produces a continuous spectrum from red to violet. The interior of the Sun likewise gives off light that would produce a continuous spectrum. As this light passes through the outer layers, certain narrow bands of color are absorbed by the different elements present. Thus, when we view the solar spectrum with a spectroscope, we find that it is not continuous but is interrupted by a number of dark lines, each due to some particular elements. For example, two lines in the yellow part of the spectrum are caused by sodium in the Sun's atmosphere.

Q. What would cause a sort of an echo of a speaker to be heard on television?

A. If there is nothing wrong with the TV receiver itself, it may be due to the signal traveling from the transmitted to your antenna over two different paths and thus arriving at two slightly different times. This produces an effect similar to an echo. Atmospheric conditions may sometimes cause the signal path to be so divided into two paths.

Q. Why does thunder occur only in the summer time?

A. It can occur at any time of year, including the winter. The formation of a thunderstorm requires a large mass of warm air which is carried to high altitudes. In the summer, with the long days and great noonday height of the Sun, heating of the air to produce this condition can occur more easily than in winter, when the Sun is low and the days are short.

Q. Can ultrasonic waves be used to kill insects?

35-YEAR MAN—E. Lloyd Jacobs (second from right) gets best wishes on his 35th General Electric anniversary from (l-r) Frank T. Gamec, Florian C. Korte, and Fred M. Castor. Mr. Jacobs came to the company in 1919 as a punch press operator. He is now a foreman in Section 1.

A. Yes. Ultrasonic waves are really like sound waves, but are vibrating so fast (about 20,000 times per second or more) that they cannot be heard by the human ear. They can be used to kill rats, mice, insects and other vermin. However, the victim must be placed directly in the beam, and it would not be practical to flood a whole house or room with ultrasonic waves to kill the insects in it. In most applications of ultrasonics, the object to be treated is immersed in a liquid through which the waves are transmitted.

Q. How did the ancient Egyptians get the enormous stone blocks of the pyramids into place without using modern machinery?

A. It is believed that huge ramps, probably made of sun-dried brick, were built and the blocks were pulled up these, on rollers, by the efforts of swarms of men. Probably the bottom of the ramps extended to the banks of the Nile, so that the blocks could be brought on barges from the quarries.

Q. Are there such things as "snow fleas?"

A. Yes, these tiny insects appear in the late winter and are often observed on snow, or in puddles of water from melted snow. Though little is known about their life cycle, they are believed to develop in very rich soils, those that contain large amounts of humus, on which the insects feed. They are not regarded as harmful to any crop.

## Suggestion

(Continued from Page 1)

ence Penick, Jr., Bldg. 26-3, \$25; and Ray Loveless, Bldg. 26-3, \$25.

There were 227 employees who received awards of under \$25, totaling \$1,825.

Malcolm C. Hamilton

## M. C. Hamilton Named Sect. 402 Cost Supervisor

Malcolm C. Hamilton has been appointed supervisor of cost in Specialty Component Motor Section 402, Chester B. Smith, superintendent, announced this week.

When he joined the company in 1945, Mr. Hamilton entered the Tiffin Plant where he was an accounting clerk and later cost clerk. He became leader in the cost section and in 1952 came here to enter central cost. He was cost analyst in Specialty Component Motor prior to his present appointment.

A graduate of Washburn College, Mr. Hamilton received his AB degree in economics in 1941. He is a member of the National Association of Cost Accountants and the Supervisors Club and is an advisor in the Junior Achievement organization.

Mr. and Mrs. Hamilton and their two children reside at 4838 Holton Ave.

from the  
panel's point of view...

Today's panel consists of four employees who are candidates for offices in the Primary Election which will take place Tuesday, May 4.

**SHAFT SHAVINGS**  
**BLDG. 19-3**  
by Sherry Varner

Congratulations to Mr. and Mrs. Robert Miller on the birth of a daughter, Mary Alice, April 20. Bob works in the maintenance section. . . . The Little Red Riding Hood, George Noffze, in maintenance, killed a big, bad wolf, who stood there yawning at him. . . . John Redmerski and Roy Prince are back in the business of selling hot dog sandwiches. The line forms to the right, people. . . . Some people have hobbies which are a good thing. Kenneth Handshy took to training dogs, but Leroy Cook wanted to be different so he is trying his luck with squirrels. Rudy Rastenberg is furnishing the corn. Leroy already has the squirrels following him about with his authentic squirrel call. . . . Phil Burney is looking for a chauffeur. Anyone interested, apply Bldg. 19-3 west. . . . Clarence Ripp of sheet metal pays a pretty good price for alarm clocks. He wasn't satisfied with the crystal on one he bought at Walgreen's. He had a new crystal put on it three doors away at Cousins. . . . Ted Carteaux is working again in Bldg. 19-3 east. Welcome back, Ted. . . . Kenny Hart is still on the sick list. Here's wishing you a speedy recovery, Kenny. . . . Now Joe Burton and John Redmerski are not the greatest of music lovers. It surely will be fine when the Liberace show comes and we can get back to the normal way of living, though. . . . The drafting section presented Elmer Wagner with a greeting on his 37th anniversary of marital bliss. Congratulations, Mr. and Mrs. Wagner. May you have many more. . . . Roy Prince was at the Moose egg hunt with his children. He was so busy looking for eggs that he didn't see a group of his co-workers standing by watching. How many eggs did you get, Roy? . . . Floyd Wygant has decided that he isn't going to smoke as much any more. It surely is a struggle, isn't it, Floyd? . . . We welcome John Tuto back to detail section, Bldg. 19-3 west. . . . Ask Mary Murphy and Joyce Grieser why they became so quiet the other day. Was it because of a mouse? . . . Happy birthday to Joyce Grieser. . . . The city may have two inverted elms in Mc-

Culloch Park, but we have an inverted Elder in the sheet metal section. . . . A friend, according to one small boy, is a person who likes you even though he knows you. . . . Anyone having any heavy work to be done, please do not contact Sherry Varner. Sherry is nursing a wrenched shoulder from trying to move some cement steps. Sympathy calls are in order, phones 2108 or 2164, a co-worker reports.

**SMOKEHOUSE SAYINGS**  
**BLDG. 22**  
by George Winans

We are sorry to lose George Hatch, who left the Smokehouse to take over a truck-driving job in the yard. . . . On May 11 the Smokehouse will celebrate the 25th anniversary of one of its most famous characters, Ferroll (Cupid) Hill. Ferroll has spent the most of his 25 years with the company as a welder. Besides taking an active part in all safety projects, disaster control, first aid, M.B.A., etc., he has received numerous suggestion awards. He acquired the name "Cupid" when he succeeded in making a match between his friend, Henry, the woman hater, and our beautiful but lonely office gal. . . . Another new car in Bldg. 22! This time it's Jesse Bixler with a new Ford. . . . Mr. and Mrs. Charles Mowery moved into their brand new trailer home last Saturday. . . . Anyone having a coon hound for sale please contact Harold Misegades. . . . What's this about Erv France taking up golf? And what about Frank Mathews helping Clara Volz hang out her wash?

"Restaurant Manager: "Where have you been all morning?"  
Kitchen Helper: "Filling salt shakers, like you told me."  
Restaurant Manager: "All that time?"  
Kitchen Helper: "Well, it ain't easy pouring salt through them little holes."

**RACONTEUR**  
**SECTION 114 TAYLOR ST.**  
by Luana Oehlhaffen

Becky Lisle was wondering if she can take a rotor home and make a "rotordendrum" out of it. . . . Carl Hattendorf is more concerned about the price of coffee than the amount of money he spends on gasoline shoving that new DeSoto around. Perhaps a little less gas would permit a steaming cup of java now and then. . . . We hear Bob Till is trying to start up a jewelry business for his wife so he can retire. . . . Dorothy Baumgartner has started a Liberace fan club. Anyone wishing to join, contact Dorothy. . . . Ife Holmes' daughter, Claudia, was asked to sing a solo for Easter at the Wayne St. Methodist Church. We think that is quite an honor. . . . Anybody wishing an expert's views on changing a tire, see Wanda Hunt. . . . Bernice Fricke entertained her in-laws from Kendallville over Easter. . . . Helen Platt spent Easter at the lake, and Rose Koons entertained her brother and family from Anderson. . . . June Spillner spent most of the week-end at the Driveln. What's so good there, June, the picture or the last rows? . . . Herb Kellermeier dropped his pier into Lake Gage last week-end, stepped out to the end, and cast his gaze across the water. You don't suppose he had green frogs on his mind, do you? . . . Wanted: One motorized garden tractor for Marilyn Smith. It seems that she is taking up farming on the side. Marilyn claims that her garlic plants are coming through. . . . Eldon Bell is the proud owner of a "Ca-dil-li-ac." . . . George Ridge has transferred to Broadway. We miss you, George. . . . Paul Clendenen, Hugh Neely, Jack Farris, Stan Stocki, and Eldon Bell are spending the week-end at Eldon's cottage on Lake Barbee. It is supposed to be a fishing party. . . . Ivan Osterman was talking to his wife on the phone the other day when his two-year-old daughter, Karen, splattered a freshly baked cake on the floor. You know what they say, Ivan. Enjoy your children while they're small. . . . Mike Brayer hooked up a battery charger backwards the other day and discharged his battery. Sometimes it is cheaper to hire things done,

Mike. . . . Ralph Fishback is in the moving business again. He claims if you move once a year, you don't have to clean house. . . . Incidentally, when we fell off our chair the other day, we were just as surprised as everyone else.

**DECATURITES**  
by George Laurent

Why were Phyllis Gerke and Janet Evans going around the office with oil cans? Don't you like for your chairs to squeak? . . . Dave Embler was seen going through Hanna Nutman in his pajamas and housecoat at 2:30 a.m. one night last week. We think Dave had a lapse of memory, but Dave says it was a "lapse of a boy," his son, who was actually at home in bed. Good as any excuse I can think of. . . . Belated greetings go to a couple of men this week. Yes, they also have birthdays but we don't usually hear of them. Herman Lengerich celebrated his birthday on April 18 and "Bones" Brunnegraff celebrated his on April 19. We hope you have many more birthdays, fellows. . . . Nellie White says that another grandson has been added to her family. Sure was a nice Easter present, wasn't he, Nellie?

**COUNT OFF**  
**SECTION 417 TAYLOR ST.**  
by Ruby Stoops

Happy birthdays to Gladys Pantizan and Ruth Cavender. . . . It seems Ralph Keller forgot to set his clock up Saturday night. He was a wee bit late Monday morning, but Clara Gidley was grateful to him for his absent-mindedness as she wouldn't have come in at all. . . . Why all the screams last week? Betty Bertsch, it was only a man's arms you walked into! . . . We miss Morey Roe. He is now on second trick. . . . Now that Eddie Bandt is a celebrity and has his name in the paper every week, sometimes twice a week, he becomes very indignant at having his name misspelled. . . . Paul Winters was really disappointed last week. After re-reading the pamphlet he found in a pack motor he found he would have to go all the way to Quincy, Mass., to buy one banana split to get one free.

**DITTIES FROM DISTRIBUTION**  
by Ruth Sorg

Mr. and Mrs. Herbert Anderson are the proud parents of an eight pound baby boy born on Easter Sunday, named Herbert Eugene Anderson, Jr. . . . Congratulations to Vera Poe who became Mrs. Owen Gross on Easter Sunday. . . . Happy birthday greeting to Evelyn Mayfield on Saturday and to Virgil McGuire on Thursday. . . . Helene Nelson returned to work with a beautiful tan from sunny Florida. . . . Lucille Werling is spending her vacation in California. . . . Fred (Dominic) Heaston must be going into his second childhood. Hear he had a fine time on roller skates on Sunday night. No falls, either!

**17-3 NEWSIES**  
by Wilhelmina Beeth

Tomorrow is May Day. You are telling your age if you remember when that was the date for the removal of your longies. . . . Our "We wish you happiness" mat is out for Robert Knapp and Esther Reiter, who middle-aided it today. . . . Congratulations on the pink-bootied addition at the DePew home. The mama, Donna DePew, was a former co-worker. . . . Thelma Lacey was enjoying a spring vacation last week. . . . Esther Reiter will be on vacation next week. . . . Tillie Nuttle left the tea kettle on all night. She must have been worrying how Laura Antrup was going to make coffee at noon. . . . We wish a speedy recovery to: Viola Jacobs, who had the misfortune to fall and fracture her shoulder; Hazel Lockwood, who has been at the Lutheran Hospital; also, Ella Grimes, who is on the sick list; and to Loren Garr, husband of Doris Garr. He was in an auto accident. . . . Eva Fisher spent last Wednesday in Indianapolis. . . . Floetta Zartman had her days mixed. She wondered why she didn't get a pay check Friday.

The difference between the right word and the almost-right word is the difference between lightning and the lightning bug.—Mark Twain.

Should the United States Continue Development of the H-Bomb?

HOWARD W. MORTON, Bldg. 20-1, Republican candidate for advisory board in Pleasant Township: "Yes. It is my opinion that we should continue development of the H-Bomb. In the world today the United States is outweighed in mass manpower and material. Therefore, in meeting our responsibilities for defending the free world, we should out-develop our materials and machines."

J. WILMER LAVINE, Bldg. 6-1½, Republican candidate for advisory board in Jefferson Township: "The U. S. should continue developing the H-Bomb. The progress the U. S. and the world has made has come about through research. All research and inventions could be used for aggression and destruction to promote selfish interests. As a world power the U. S. has a responsibility in seeing that the use of this immense power is used for the benefit of mankind."

CARL A. ALTER, Bldg. 17-4, Democratic candidate for county councilman-at-large: "Yes, we should continue development of the H-Bomb. The knowledge we gain from its development will aid in discovering ways to improve the standard of living of all mankind. We should seek Divine Providence's guidance so that we may never have to use its devastating power as a military weapon."

HENRY H. KRUSE, Bldg. 19-4, Democratic candidate for Allen County assessor: "I most certainly believe that the United States government should continue developmental and scientific research in the nuclear fission field. The future possibilities are unlimited, when converted to use, as a source of power for industrial and domestic purposes."

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Mushrooms are still in season as well as the tall tales that accompany them. The latest hunters are Ed Sterns and Don Eaton, who always get as big and more than anyone else. In fact they have such an ample supply that they are thinking of peddling them for a living. . . . Another euchre game produced a skunk as Melvin Yates and Wilbur Gray "knocked the socks off" of Orval Haver and Phil Freiburger for 10 straight points and a mention of their names in this column. . . . Al Hambrock says he has a lot to be thankful for as he has been married 36 years and still has four teeth left. . . . When Virgil Howell gets in the ring to referee it takes only two wrestlers to change his mind. On Monday, April 26, he no more than started a bout when he became involved and was pinned to the canvas with the crowd's approval. It wasn't long afterwards that his pants were held by a grappler and torn from ankle to hip to look like the latest in air conditioning. With a few other grunts and groans he lasted the evening, not to mention 275 lbs. thrown on top of him and a poke with a logger's shoe. It was the first time I had seen three wrestlers in one ring with one that didn't even volunteer. . . . Congratulations to Pat Thrasher, who will become Mrs. Dick Parnin tomorrow, May 1. Here is a picture of her taken at the shower given

Pat Thrasher

to her by the girls in the office. . . . I've seen a horsefly and a windowpane but the latest must be a hen on the telephone wires. As Jack Heiniger was driving along in his polished car there came a "splat" on the windshield, which was an egg that made a driver mad. Any way you look at it, I don't think you can blame the chicken.

## Spring Square Dance On Squares Calendar

A spring square dance will be staged by GE Squares Club members Saturday, May 8, at the Franke Park pavilion. Stan Emery and his band will provide music for dancing from 8 to 11 p.m.

A program of entertainment is being planned and refreshments will be served. Tickets are available from contact men for \$1 per couple. Members of the Test Engineers Club and MTP Club are invited to attend the event also, Walt Hein, Bldg. 26-2, chairman, reported.

Assisting the chairman with arrangements are Mrs. Milt DeJean, of the Squares Wives Club, and Vern Peterson, Bldg. 26-2.

**EARN \$70 CHECK**—Glen C. Staight (right) receives a suggestion check for \$70 from J. H. Cline. Mr. Staight's idea concerned adding a level to the dial indicator so that the shock of hammer blows would not damage it. He is an inspector in the tool and die section at Taylor St.

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Arthur Sorg, Joseph Zephyr, Wilbert J. York, Marjorie Mercer, Dorothy Faulkner, George Kraus, Thomas Hutsell, Edward Saxton, Ellen Bucher, Herschel Odier, Marjorie Haflich, Robert D. Hughes, Helen M. Johnson, Royal A. Parisot, Henry A. Smith, Lucille Bates, Floyd Enos, Viola Jacobs, Evelyn Jennings, Eunice Kurtz, Helen Papenbrock, Francis Romary, Opal Runyon, Claudia Sanders, Lowell Teegarden, and Walter Hoeppner.

## SPECIALTY MOTORS

Shipping—Receiving—Order  
Service  
by Mabel Fisher

Chris Reiz stopped in to see us last week. He just returned from Altadena, Calif., where he has been visiting his son, Gene, for the last two months. He really likes California, and his healthy look and buoyant enthusiasm were good proof. . . . It's time for Amos Trowbridge to go mushroom hunting at Houghton Lake. It's an annual outing and usually quite successful. . . . Ed David started on daylight saving time several weeks in advance. . . . He was seen coming to work at 6 o'clock instead of 7. Maybe he's proving the old adage: "Practice makes perfect." . . . Paul Thomas didn't get to eat the dandelions he picked. He put them in the wrong lunch pail and Joe Rygoeski took them home. . . . Evelyn Kissinger is vacationing this week, fishing for smelt. We are all expecting fish, Evelyn. . . . Welcome to Betty Campbell, our new file girl in Shipping. We hope you like us, Betty. . . . Ruth Bentz entertained some of the girls from our office Thursday evening with a shower for Carol Taube, who has a date with the long-legged bird. Those attending were Dixie Hogg, Evelyn Tibbles, Mabel Fisher, Helen Brown, Ilene Richardson, Marlene Niccum, Sue Stewart, Betty Swift, and Faye Ann Christlieb. Carol received some lovely gifts.

### Dismissed From Hospital

Keith Wolfe, Marjorie Haflich, Cecil Harrod, Cletyce Lenz, Margaret Bopp, George Robb, Byron Blough, Shelton Hempstead, Gerald Becker, Viola Jacobs, Ella Grimes, Floyd Enos, Betty Eisenacher, Mary Casanova, Roosevelt Stalling, Rose Ulrey, Florence Weimer, Herman Bertsch, Frank Mann, Orlie Conner, Thomas Carr, Robert Horstmeier, and Thomas Hutsell.

### Returned to Work

Emily Zich, Roosevelt Stalling, Florence Weimer, Herman Bertsch, Enno Richter, Marilyn Davis, Edward Hamilton, Clair Lieurance, Virginia Worley, Bernard Lauer, Earl Dixon, George Taylor, Lela Ompach, Donald Mozena, Fred Gibson, Catherine Stanton, Buelah Firks, George Robb, Dorothy Burns, Marcella Lawrence, Betty Ann Minard, Marvin Wicks, Charles Tester, Helen Papenbrock, Martha Scott, Charles Koontz, Jess Moore, Merlin Gromieux, Viola Meeks, Glen Robinette, Elayne Britton, Helen Meeks, Thelma Loveless, Thelma Harmeyer, Paul Gemmill, and Stanley Tisovich.

## OVER OUR WAY BLDG. 19-1

by Clara Volz

We are sorry that Rus Menne-wich has been on the sick list. Hurry back "Minnie." We all miss you. . . . Welcome to Pat Evans, who is working for Lenny Reuss in Bldg. 19-B. You have very good taste, Mr. Reuss. . . . Leave it to Louie Clark to paint his bedroom bright red. How does it strike you when you first wake up in the morning, Louie? I hear that Louie is a great one for raising flowers. He can tell you just about anything your little heart desires to know on this subject. . . . Anything goes in the test office. Helen Staley was counting off some papers on her desk, just as the phone rang. She lifted up the receiver and answered, "Three." It's a good thing the man on the other end of the line isn't a complete stranger to the ways of the test personnel. . . . Kenny Strong has a bell wired in his car and he and his chums, namely Bill Hall and Lenny Reuss, have great fun ringing it while driving down the avenue. Anything for a laugh with those three. We guess these Production men have to have an outlet of some sort or other. . . . Note to George Winans: Cold hands; warm heart. . . . Bonnie Gerber came in Monday morning with a beautiful diamond on "you know what" finger. The big event will take place this summer. We are glad to hear it, Bonnie.

## STORMY WEATHER BLDG. 17-4

by Bill Hurtt & Larry Reed

Look out for those easy chairs fellows! Herb Buck sat down in his favorite easy chair and fell asleep. After an hour and a half nap he awoke, got up, and sat down to a game of cards. When he tried to get up again, the old back refused to co-operate. Could be he was losing at cards and needed some kind of an excuse? . . . Don Thomas still takes a dim view of hard-boiled eggs since he found that an uncooked one had been substituted for his usual hard one. . . . A new Yogurt has been discovered although Rolli Miller claims it is cottage cheese. He now favors the curds left from the making of butter. . . . Our new comedy team, "Pinky Lee and

## GE Club Will Be Closed Saturdays

The GE Club will be closed Saturdays during the spring and summer beginning Saturday, May 8, Charlie Wilt, manager, said today. However, there will be open bowling in the evenings at the close of the League season.

Uncle Miltie" has been almost inseparable for the better part of a week. . . . It was a little hard to get used to but Phillip Kraft has found that a smile will do quite a bit of good, especially when it comes to getting food. So you see, Phil, you can get something besides your wife for a smile. . . . There are sighs of relief at the homes of Bernice Mertz and Bill Hurtt now that their children's tonsils have been removed. . . . Quite a few people on the floor have learned, at their own expense, all about the three coin trick. . . . Edna Ward should watch what and when she eats after that choking period she had the other day, or was it food that did it, Edna? . . . Things we thought we'd never see: Mike Lowe sick enough the other day to go home. . . . The girls in Winding declare that all spring cleaning is done now from leaf raking to room washing and painting. We hope no ill effects were suffered since there seems to be a skim milk diet now in progress. . . . Another invalid cropped up at Bernice Mertz's house. This time her parakeet came down with the flu but at last report the bird was resting easily although it may have to learn to whistle all over again. . . . Once more we find that another bird has been caged in and this time no less than our own "Pinky." . . . Much to his disgust Frank Runkle could not weigh himself the other day in spite of putting on and taking off weights. After trying for five minutes he gave up and stamped away. However, if he had turned around he would have seen that heavy foot that had been added to the scale. . . . Quotation for the week: "Write injuries in dust; Benefits in marble."

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

It was with a very sad heart that we said good-bye to Adele Weitfeld, who left us to work in Bldg. 6-4. Good luck, Adele. . . . Bob Huhn's wife gave him another parakeet for Easter and he gave her a box of bird seed. What lovely, original gifts, Bob and Ruth. . . . A very hearty welcome goes to Luella Ternet, who has joined the second shift brazers. . . . Myrtle Cramer has also moved over to the brazing line on third.

The three bears were taking a walk on the desert so Goldilocks could eat the little bear's porridge.

Papa bear sat down on a cactus and said, "Ouch!"

Mama bear sat on a cactus and said, "Ouch!"

The little bear sat on a cactus and didn't say anything—just sat.

Mama bear turned to papa bear, "Paw," she said, "I hope we're not raising one of those Dead End Kids."

**REACHES 30-YEAR MARK**—Kenneth McCague (right) reached his 30th year with the General Electric Company April 21. Congratulating him are (l-r) Clarence A. Brenner, Russell Duntin, and Norman Jackemeyer. Mr. McCague came to GE as a learner in 1924. He is now a carboly tool grinder in Bldg. 19-5.

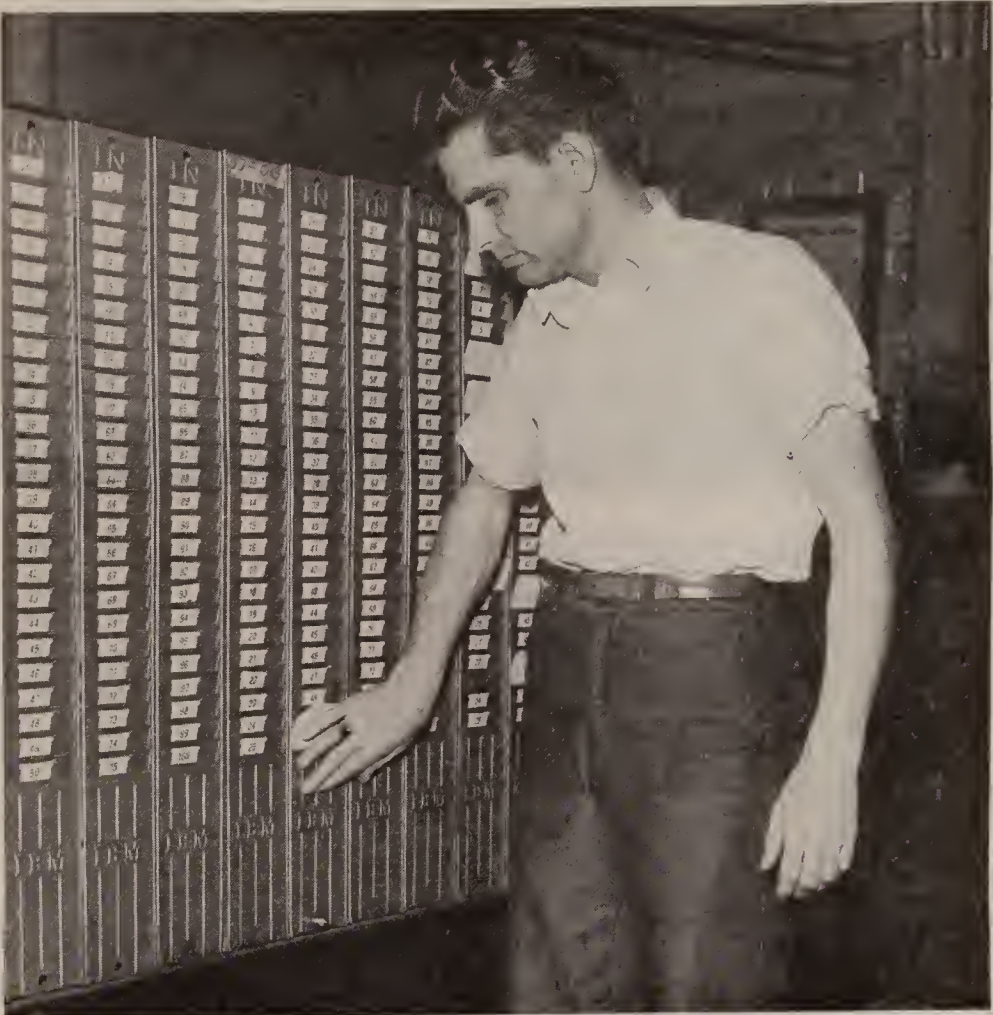

LOCATING his coat is easy for Jack because he keeps it at the end of the rack.

TALKING with co-worker, John Waikel, Jack pauses in his work.

HEADED for one of their many trips, Jack and his dog Skippy leave their home.

PUNCHING IN time card, Jack Miller, Bldg. 17-2, blind employee, finds card by a small button near it.

# On The Job With Jack

"My biggest handicap is not in adapting myself to blindness, but in getting others to accept it," Jack Miller, blind employee in Bldg. 17-2, states.

Jack, who is the son of Rollen Miller, Bldg. 19-2, lost the sight of both his eyes in the invasion of Normandy, July 4, 1944. He was hit in the face, neck, and arms by German shrapnel. After four operations and attending schools in England and Connecticut, Jack came home to resume his life. He had been an employee before entering the Service and wanted to return to work. While in the U. S. Army rehabilitation school at Avon, Conn. he began to learn how to work with tools and machines

again. This had been both his occupation and hobby before his injury.

When he returned to the company last year, Jack went on his present job which is a reaming operation in Bldg. 17-2. This job requires accuracy and sureness which Jack performs with no trouble at all.

Since returning home Jack has been busy doing carpentry work and building a cottage at Fish Lake, near Sturgis, Mich. He has done all the work on the cottage himself, except putting on the roof which 12 carpenters did for him in 6½ hours.

In the basement of his home Jack has a set of power tools with

which he makes many articles. His other favorite pastimes include swimming, fishing, and dancing. He is a member of the "Hoosier Go-Getters," an organization for the blind in Fort Wayne and Allen County.

His companion on his travels around town or when visiting other cities is Skippy, a black Labrador retriever. However, Skippy does not accompany Jack to work. Jack's father brings him to work and one of his co-workers meets him at the gate and takes him to Bldg. 17-2, where Jack has no difficulty in finding his way around from time clock to his work area, where he is at home working with his tools.

ON THE JOB, Jack performs a reaming operation from taking the rotor from the tray to stamping the ID on it after he has reamed, brushed, and checked the rotor bore.

# GE Club Sets May 18 for Sports Banquet

## May 3 and May 8 Big Dates On GE Club Bowling Calendar

May 3 and May 8 are important dates on the calendar for GE bowlers. Monday, May 3, the annual Champion of Champions Tourney will take place on the GE Club alleys. Saturday, May 8, an inter-plant tourney will be conducted between six Fort Wayne kegler teams and six Tiffin plant teams on Club alleys.

The Champion of Champions event will determine the GE Club champ over the 12 league winning teams in the men's division and three league winners in the women's division.

Bowling for the men will get under way at 7 p.m. May 3 and women will start the playoffs at 9 p.m. Each team will roll three games and actual pins will determine the winners.

Victors in the annual event will receive windbreakers and trophies at the Club's Spring athletic banquet May 18. Regular league bowling closed Friday, April 23.

Announcement of the inter-plant tourney was made this week by Joe Kramer, bowling chairman. The six teams competing under the Fort Wayne banner will be from the following leagues: Small Motor, Taylor St. 114, Taylor St., Hermetic Motor, and two from the Interdivision league.

The six teams from Tiffin will arrive May 8 and kegling is scheduled to begin at 8 p.m. One team from each plant will roll against a team from the other plant. Opposing teams will be selected on the basis of average.

Rules of the tournament include: each team will bowl three games; one city will be selected the winner and will be the one with the most games won; all prizes will go to the winners; entry fee is two dollars per man, one dollar for prizes and the other dollar for bowling fee.

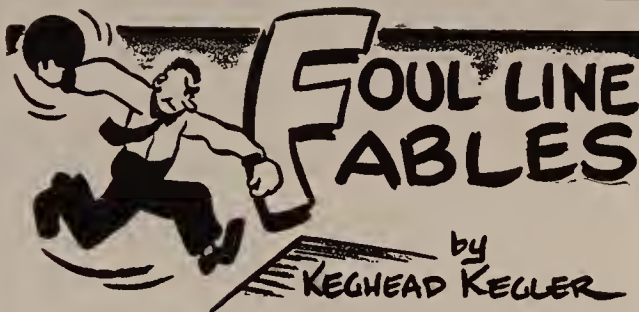

### Dexter Marshall To Manage 1954 League Softball

Plans for Interdepartment Softball League activity got under way this week with the naming of Dexter Marshall, Winter St., as league manager by Erv Huth, GE Club athletic chairman.

Marshall reported that the initial meeting to set up the organization for the coming season will be conducted Wednesday, May 5, at the GE Club starting at 3:30 p.m.

Persons interested in forming teams or who played on teams last year are urged to attend the meeting. Managers within the league will be named at this session. Employees who wish further information concerning entry in the league may contact Marshall on Ext. 222 at Winter St.

The new league manager is a former Test Engineer team member. He played second base while with the TE's. He has been active in bowling and basketball at the Club also.

It's all over but the shouting in the Interdivision League. Old Crown Beer and Ale won the second half. Next week Old Crown will roll against Brouwer Tire & Battery, first half winner, for the league championship. Old Crown came out on top with a 33-12 win and loss record. Brouwer Tire & Bat-

tery came in second with a 29½-15½ record. Tied for third were the Kinney Koncession team and the Airliners with a 29-16 record.

Vic Rump had the highest individual average with a 178.66 average, followed by Les Shroyer with a 178.47 average. The Apprentice team had high single and 3 game counts, a 1069 single game and 2999 three game total. Vic Rump had a high single game of 257, while Les Shroyer was high with a 3 game total of 652.

#### Transformer

Ohms are the champions in the league and finished up the second half with 29 wins and 13 losses. Autos were second with 28 wins and 14 losses. Hein rolled a 200 score and Black kegled a 201. Furliners were Wyckoff, 87, and Kellogg, 95.

#### Friday Night Girls

Old Crown Beer and Ale won the second half, finishing with 29 wins and 16 losses. Team No. 8 was second with 28½ wins and 16½ losses. Team No. 6 won 26 and lost 19 to finish third. Old Crown Beer and Ale are the league champions, having won both the first and second half. Ann Lee rolled a 195 score, the best effort of the night.

#### Ladies Monday Night

It was the Keglerettes all the way in their roll-off with Holey Rollers. Keglerettes, the first half winners, rolled games of 727, 762, and 629 for a 2118 total. Holey Rollers scored 673, 682, and 606 for a 1961 total. Marge Meeks rolled a 170 for the losers and Dot Fuhs rolled a 180 for the winners.

#### GE Orphans

Team No. 2 won the second half and finished with a 36 win, 12 loss record. Hotel Keenan had a 31 win, 17 loss record. Team No. 6 took third place with a 25 and 23 record. In fourth place is Team No. 1 with a 20 and 20 record.

Team No. 5 scored with 19 wins and 29 losses. Ken's Market finished with 16 wins and 32 losses. Carol Telschow kegled a 518 score on games of 172, 169, and 177. V. Keelser scored a 211; M. Rietdorf, 203; M. Mischoff, 187 and 176; B. Overman, 180; while L. Day, B. Lantz, and A. Wise each rolled a 170 score. Team No. 2 rolled the league high series, a count of 2423.

#### Office

In the roll-off for league championship, Reproduction came out ahead with a total of 2822 pins as compared to 2759 rolled by Motor Generator. Reproduction had games of 911, 934, and 977. Motor Generator scored games of 900, 979, and 880. Bob (Sore Thumb) Blomker rolled a 206 for the losers.

#### Ladies Tuesday Afternoon

Team No. 1 won the second half by defeating Team No. 6 in the roll-off. Team No. 1 had games of 701, 725, and 782 for a total of 2208. Team No. 6 rolled games of 648, 721, and 644 for a series of 2013. Dot Ramsey rolled a 200 and Betty Clevenger, 170, rolling on Team No. 1. L. Degraffenreed rolled a 178 for Team No. 6. The high single effort for the league was a 207 by Norma Arnold. Mary Nute rolled the high series of 534.

#### Small Motor

Test defeated Two Legs Clothes to win the second half. Test finished with a record of 29½ wins and 15½ losses. Two Legs Clothes had 27 wins and 18 losses. G-Men finished in third place with a record of 25½ wins and 19½ losses. Denton Drugs, Models, and Hi Five finished in a tie with 23 wins and 22 losses each. R. Horstmeyer rolled the high single game of the season, a 275 score. Walt Kam-meyer had the high series, a 635 score. Test and R and R rolled for the league championship and the

## Hilliard Gates to Be Guest Speaker At Dinner Honoring League Winners

The second semi-annual sports banquet honoring winners of GE Club sponsored athletic events will take place Tuesday, May 18, at the Club auditorium, Bill Schible, president, announced this week.

Hilliard Gates, assistant manager and sports director of radio station WKJG and WKJG-TV will be the guest speaker. Members of winning teams in Inter-department bowling, basketball, and volleyball will be honored at the event along with the Owl industrial basketball team and industrial volleyball team. The latter two groups took first place in their respective leagues during the past season.

Invitations will be sent to those eligible for awards. Reservations are due by Tuesday, May 11. Major and minor awards will be presented. These include jackets and windbreakers with the GE Club insignia on them, belt buckles, and trophies.

Members of the committee in charge of the banquet include Erv Huth, Joe Kramer, Harold Braden, Bill Schible, and Charlie Wilt.

Instigated last year, the semi-annual event is designed to give fuller recognition to employees winning honors in various Club sports activities.

right to represent the league in the Champion of Champions to be held next Monday. C. Brandt rolled games of 200 and 209, but didn't quite get that 600. Bill Miller kegled his high score of the season, a 244 effort, while Walt Lamboley kegled a 203.

#### Apparatus

Central Dairy won both halves and is the league champion. Team No. 11 made a determined bid but could win only 2 games, leaving them in second place, a game and a half out. Team No. 7 had a good chance to win the second half, but lost 3 games to Team No. 2 to wind up in third place. Don Green-ler's 259 was the high single game for the season and Jus Heaston's 640 was the high 3 game score. Louis Culbertson rolled the first 200 game of his career on the last night of the season, a 201. Other 200 scores are as follows: Ed Reese, 224; Ross Smith, 210; Don Greener, 209; Ford Burnau, 205; George Horner, 202; and Lee Schnepf, 202.

#### Men's Factory League

With only one more night to go these teams are still in the thick of the race. Stators have a one game lead over Office, who in turn lead the Flanges by one game. In the semi-windup Office took 2 from the Flanges, and the last place Rotors steamed up and took 2 from the leading Stators. 200 scores were rolled by: Rog Schuster, 201; and Geo. Laurent, 204-201.

#### GE Fraternal

Last place GE Club (15-30) rallied to win 2 from the leading Riverview Gardens (31-14). West End Restaurant (27½-17½) took 2 from K of C (17-28) and Teeple Truck Lines (27½-17½) won 2

## Rifle Team Wins Bowser Trophy For Second Year

Last Wednesday evening the GE Rod and Gun Club rifle team won the Bowser trophy match at the National Guard Armory with a 446 total. The International Harvester No. 1 team was second and the GE No. 2 team was third. The GE rifle team also won the cup last year.

The team scores were as follows:

GE No. 1	
H. Patterson	119
O. Enrick	119
L. May	118
<b>Total</b>	<b>446</b>
Harvester No. 1	
R. Jones	149
W. Vanderford	149
F. Schleiger	146
<b>Total</b>	<b>443</b>
GE No. 2	
C. Atkinson	148
E. Allmandinger	146
R. Linden	145
<b>Total</b>	<b>439</b>
Magnavox	
G. Bolden	148
W. Miller	147
D. Scott	141
<b>Total</b>	<b>436</b>
Harvester No. 2	
M. R. Sipe	143
V. L. Suttore	146
C. Swihart	140
<b>Total</b>	<b>429</b>

#### OWL PRACTICE

The next practice in the Owl Softball League has been slated for Tuesday, May 4, at 9:30 a.m. in McMillen Park, Ben Penkul, manager, reported today. In case of rain, the practice will be held in the GE Club gym.

from Peterson (22-23) to maintain a slim chance to overtake the leaders. Monroeville Lumber (16½-23½) beat the Elks (22½-22½) 2 games. Dale House of the Monroeville team was the only high to hit the 600 mark. Dale had a 634 on games of 244, 188, and 202. 200 scores were rolled by: P. Briede, 212; H. Strickler, 220-206; T. Pillars, 213; C. DeBolt, 235; G. Alton, 201; A. Zelt, 201; W. Petrie, 201; R. Lord, 200; O. Schultz, 205; G. Baumgartner, 222; A. Buuck, 213; and C. McIntosh, 210.

#### GE Women's League

The GE Office (15-27) lost all 3 to the first place Last Frames (28-14) and found themselves ending up in the cellar. The Spares (16½-25½) advanced to third place by taking 2 from the second place Spares (24½-17½). High scores were: Engle, 178; Egley, 169; Myers, 175; Kleinhenz, 164-175; G. Reynolds, 166; Miller, 171; and Kukulhan, 178.

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 16-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone. Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS Office, Bldg. 16-1.

**CLOSING DATE**  
Monday Noon, May 3, 1954

- CAR—1948 Chevrolet, 2-door, very good condition. H-35643.
- COAT—Ladies', gray spring coat, 14, \$5. Tan coat, free. Dresses, good, \$3 each. E-35264.
- COAT—Green, like new, 14, \$5. Winter coat, blue, for play, \$4. Bolero, rose suit, 10, \$2. Print dresses, like new, 10-12-14, \$1, \$2, and \$3. 2117 Reidmiller St.
- RUGS—Two, 9x12, with pads. Dining room suite, cheap. A-56074.
- JODHPURS—Pair ladies' Jodhpurs and riding boots, excellent condition. E-69123.
- REFRIGERATOR—6 cu. ft. Kelvinator refrigerator, excellent running condition. \$30. A-26782.
- FIXTURES—Bathroom fixtures, good condition. A-85524.
- HORSE—Black riding horse; practically new saddle and bridle, \$100.
- COAT—Spring coat, 36, worn twice. Large porch swing. H-90072.

BICYCLE—Girl's, 24-inch bicycle, Hiawatha; very good condition; \$14. 1911 Brown St. A-49023.

UNIFORM—Girl Scout uniform, 12, \$3. H-10751.

CARS—'51 Nash Statesman Super, radio and overdrive, \$750. Kaiser Traveler, \$49, radio, \$350. Both in excellent condition. Modern 8-piece dining room suite, like new, \$50. Maple cocktail table, \$3. A-55410.

TRAILER—One-wheel, Allstate trailer; special sideboards. Very good condition. E-72162.

CAR—1939 Hudson six, 4-door, mechanically good, dependable runner, always starts. \$85. H-74471.

STAMPS—New stamps coming out soon. Will mail you first day covers. A-50561.

LAWN MOWER—K-1324.

BOAT—Fishing and pleasure boat, 14 ft. long, 62 inches wide, 25 inches deep. 3332 S. Lafayette St.

BASSINET—\$5, good condition, folding type. A-57431.

BATHTUB—Lavatory and toilet combination, good condition, \$20. A-36095.

EQUIPMENT—Jigs, material, and some finished parts for making interesting toy. Ideal for home workshop or retired man, profitable. A-70593.

DAVENPORT—Rose bed davenport, like new. A-89241.

PIANO—Small Bond upright piano, good finish, good tone, \$30. H-66332.

ANTENNA—TV antenna and rotor. Good antenna to take to the lake for your VHF channels. New, \$125; will sell for \$45. H-9402.

CHEST—Four drawer chest, ivory, \$5. A-3515.

RUG—Wilton rug, 7½x9, brown taupe; very good condition; pad included; \$20. E-4025.

HOUSE TRAILER—22 ft., all metal exterior, Trailblazer. A-50175.

DOG—AKC Beagle, male, 7 mo. old, champion blood lines; reasonable. A-60741.

HEATER—Duo Therm, console oil heater, original cost, \$180. Will sacrifice, \$55. Used one winter. H-70265.

OUTBOARD MOTOR—In good condition, runs good, \$25. 3-ft. screen door. H-60025.

BEDROOM SUITE—3-piece, mahogany, good condition. H-0405.

BUGGY—Collapsible baby buggy, baby scales; reasonable. H-9479.

DRESSES—Girl's dresses, skirts, sweaters, 8-10. Two First Communion dresses, 5-7. All very reasonable. H-75662.

RUGS—9x12, brown grass rug, like new. Cotton pile, green, 6x9; reasonable. 5111 Reed St.

LAWN MOWER—Craftsman, 16-in., all steel, precision, ball bearing, lawn mower, with aluminum roller and handle, practically new, \$15. E-36213.

SWEeper—Eureka, tank type, sweeper and all attachments, like new, \$25. H-78205.

HIGH CHAIR—Blond, \$5. E-35263.

CAR—1953 Olds 98, 4-door, like new, low mileage. Will take cheap car in trade. H-78071.

ACRE—One acre, suburban, 1 mi. west of Fort Wayne, Ga. lights, water, 16x22 garage. Cash or terms. H-44501.

**FOR RENT**

APARTMENT—Furnished, 4-room, upper apartment. Private bath and entrance. A-89073.

APARTMENT—Three-rooms and bath, furnished, utilities, newly decorated, employed couple, private entrance. E-71635. 1209 Van Buren St.

CARAGE—Large garage for storage or car. 1311 Jackson St.

CABIN—Lake James cabin, accommodates 4, inside toilet, lavatory, electric refrigerator, bottle gas stove, rowboat, private dock. Now until October, \$175. Nelson Bucher, R. R. 2, Angola, Ind.

APARTMENT—Three-room, furnished apartment and bath, utilities furnished, \$14. A-1075. 1225 Clark St.

APARTMENT—Girls only, two-room, newly decorated, new bed, shower, utilities paid. H-2198.

ROOM—May fix light lunch, phone, near street car. No smoking or drinking. \$6. Also one at \$5. A-37553.

**TRANSPORTATION**

RIDE WANTED—From Anthony and Rudisill to Broadway, 8 to 4:35 p.m. daily. H-02153.

RIDE WANTED—From Decatur to Winter St., 7 to 3:30 p.m. Decatur 3-2881 or W. St. Ext. 250.

RIDERS WANTED—To Broadway or Taylor St., 6:48 to 3:30 p.m. Chur. 2179.

**WANTED**

COTTAGE—Lake cottage for the summer, 2 bedrooms or 3. Driving distance to work. Any lake north by May 15. H-48123.

CRIB—Large baby crib and play pen. A-85524.

SWING SET—For small child, 1001 Summit St., New Haven. Don Mansfield.

GIRL—To share apartment with 3 other girls. Good location and next to bus line. H-45904.

CLIDER—Porch glider, good condition, reasonable price. H-15723.

**THANK YOU**

I want to express my sincere appreciation to many many good friends and co-workers for their gifts and kindness. Thank you—Loretta Bloom.

I wish to express my appreciation and say, "Thank you," to each of my friends and co-workers for the gifts and kindness they have given me during my illness.—Otto Witte.

Young man to draft board: "But you can't turn me down—I've proposed to 3 girls, told my boss what I think of him, and sold my car!"

**TOOL BITS**  
**BLDG. 19-4 and 5**

by Howard Demsey

In case you saw Carl Mosser on the highway wearing pedal pushers here are the facts. He was doing a good deed by helping some Boy Scouts get their cycling awards. Carl's boy first thought he and his dad could ride a tandem but after some consideration the boy decided he might have to do all the pumping so he rode his own bicycle alone and Carl went in the car. . . . Carl Einsiedel claims his toy Manchester dog can jump from a sitting position four feet straight up in the air. But Kurt Martin claims his German police dog not only understands German as well as English but he can jump from a standing position five feet straight up in the air. The first tall jumping dog story-teller hasn't a chance. The only thing we can't figure out is how Kurt Martin's dog learned English. . . . Mart Walsh has a tractor with a special nail-removing attachment. What some guys won't do to avoid a manicure. . . . The fishermen were out in force over the week-end. Art Dicke and Bill Wedler didn't catch a thing on Big Long Lake. Art Thieme and Walt Greiner caught five bass on Hamilton Lake. Also, at Hamilton, Dick Burns got his limit, six fish in an hour and a half, the largest weighing three and a half pounds. To finish up the fish stories, Woody Hursh got lots of fresh air on Indian Lake. . . . Glenn Ramsey tells us he is very much alive and that the obituary column in the daily paper must have meant another Glenn Ramsey. . . . Dick Poehler wants to be sure he has all the parts of his jobs available when he needs them. In fact he even carries some parts home and back so he will be sure that no one misplaces them while he's gone. . . . Bill Hunt, George Luker, Don Hoffman, and Jim Ubelbaer attended the auto races Sunday. . . . Spring has officially sprung. Reinhold Lepper was seen wearing a spring-type shirt one day this week. His co-workers are wondering whether his wife wears one of his shirts to get even. . . . It was bound to happen. Clyde Spangler forgot to turn his clock ahead and came to work an hour late Monday morning. Mart Walsh set all his clocks ahead except one, the alarm clock that woke him one hour late on Monday. Fast time waits for no man, fellows. . . . After a few sleight-of-hand tricks and a lot of fast talk, Bob Pickett found that the piece of pie he was supposed to get free cost him \$1.94. . . . Les Hines is the envy of all his neighbors since he bought a new power mower that he can ride on as he mows. . . . Otto Rodenbeck came to work with a pleased expression on his face last Friday morning. His oldest son, Dick, was released from the Navy after serving his term and came home to surprise his folks. . . . Charlie Bennett came on the first trick after being replaced by Dale Lautzenheiser. . . . If you haven't been getting any welding jobs lately it's because Ernest Braun, the welder, is down with the flu virus. Hope you're back soon, Ernest. . . . Sympathy is expressed by all to Gus Rodenberg, whose mother died suddenly at the age of 92. . . . A quartet of tool-room warblers took part in the Fort Wayne Maennerchor concert. They are Henry Frey, Paul Richter, Kurt Martin, and Paul Martin. This distinguished quartet will sing (for a price) at dog shows, horse pulling contests, or what have you. Get your reservations in early.

**WINTER STREET JOTTINGS**

by Alma Elliott

The Volunteer Firemen's Association has placed its stamp of approval on the Hollywood Ice Revue. The Winter St. Smoke Eaters attended the Saturday night performance as a group. . . . Congratulations to the Robert Fischers on the birth of their first child, a baby girl, on Easter Sunday. The new papa reports that she has been named Rose Ann. . . . We were pleased to see that Cliff Baker had not forgotten his friends at Winter St. Cliff, who is now engaged at Bloomfield, visited in the shop last week.

Notice the wide berth that co-workers have been giving Thelma Proxmire lately? Her 7-year-old son, Rex, is the latest victim of the mumps and no one is eager to share them with him. . . . Some of our better brains are trying to figure out how Herb Adamske and Jack Skevington can finish out the bowling season. Herb has a sore arm and Jack a pulled leg muscle. Perhaps they can take their cue from Aeneas, a fellow in Greek mythology, and Herb could carry Jack on his back while the latter did the bowling. Wonder if there is any rule against combining talents if they split the score?

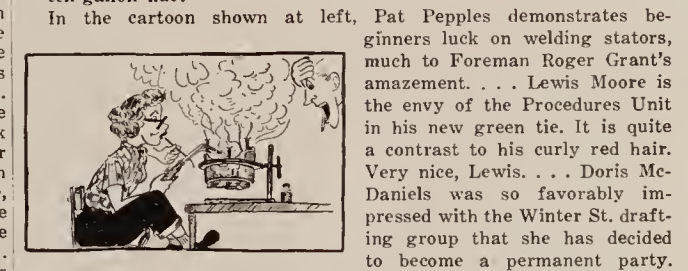

Donald Zipp has been making a few minor changes on his car. While driving home, a blade from the fan zoomed up through the hood. Don says that his car looks like a Buick now except that the slits are on the top instead of the side of the hood.

During these days of widespread spring fever, Aubrey Lash received an unusual amount of attention when he made a mad dash to the drinking fountain. Elmer Heemsoth had been generous enough to share his gum with Aubrey and the latter will agree that it was "hot stuff." . . . Vera Sowards is making several of our merchants happy as she prepares her wardrobe for a trip to Greencastle. Son Jerry, a student at DePauw, has invited her down for the May Day Festival and Mothers' Day celebration.

Harold Bohde has poured the foundation for his new summer home at Big Long Lake. Several fellows in the Tool Room have attempted to make reservations to spend their vacations there, but could think of several other places that they were anxious to visit when Harold informed them that all guests were to assist him in putting in a dock and resodding the lawn. . . . Congratulations to Dexter Marshall on his appointment as manager for the GE Softball League.

Marge Hubert and Maureen Martaugh have lost faith in modern advertising. After purchasing the large size of "Bubble Bath" and filling their tubs with nice warm water, the stuff refused to bubble. It just lay limply in the bottom of the tub, so they just had the bath part of a bubble bath. . . . Did you attend the fish fry at the Southwest Conservation Club? Winter St. was well represented.

James Streit, now off work because of an appendectomy, may be the indispensable man. From the amount of work stacked up on his desk, evidently he is the only one who can handle it. . . . Frances Snodgrass was so impressed by the tall tales told of Texas by Ann Richards that she is spending her vacation there. Wonder if she, too, will come back wearing fancy boots and a ten-gallon hat?

In the cartoon shown at left, Pat Pepples demonstrates beginners luck on welding staters, much to Foreman Roger Grant's amazement. . . . Lewis Moore is the envy of the Procedures Unit in his new green tie. It is quite a contrast to his curly red hair. Very nice, Lewis. . . . Doris McDaniels was so favorably impressed with the Winter St. drafting group that she has decided to become a permanent party.

Drafting also welcomes Agnes Geimer, a recent newcomer. By this time the Marcus Waterman home is probably settling back on its foundation. Son, Steve, was two years old last Sunday and was feted with a birthday party, complete with hats and guests who had attained the same ripe old age. . . . Did you see the picture of Dale Weaver and Pete Liebig in the Journal-Gazette? They were shown holding 18 fish on a stringer. These they caught, according to the boys, at High Lake. Rumor has it that they were seen, fishless, dicking with a small boy with a cane pole and a loaded burlap bag. May be something fishy here (ouch).

Have you noticed the glazed look which keeps returning to Wade Tyler's eyes? Occasionally he smiles and extends his hand in a shaking gesture to an invisible person or object. This may be because he has officially been elected the Drafting Section Welcoming Committee of one. He escorts new arrivals around and makes introductions.

We would be the last to imply that Ellsworth Geller does not keep his car spotless at all times, but we do wonder why he tried to stick his head out of the closed window after he had the car washed recently. Maybe he was thinking about his recent TV debut on Easter Sunday with the Lutheran Choral Group. . . . We are sorry to report that Bill Reed is off from work because of illness. Get plenty of rest and come back soon, Bill. We miss you.

Jack Olinske liked the South so much that he returned from his vacation bearing a Confederate flag. It is now waving proudly from the lid of his tool box. Jack can get details on the proper display of the flag and on the fastest methods of getting to his feet when "Dixie" is played if he will contact John McLaughlin, our soft-spoken representative from New Orleans.

# GE Board Elects Three New Veepps

Three General Electric Company executives have been elected vice presidents by the GE Board of Directors, President Ralph J. Cordiner announced recently.

They are: William V. O'Brien, of New York, general manager of the Apparatus Sales Division; George E. Burens, of Philadelphia, general manager of the Switchgear and Control Division, and Harold E. Strang, of Lyn, Mass., general manager of the Measurements and Industrial Products Division.

Mr. O'Brien, whose headquarters are in New York, directs sales activities for approximately 40 GE departments which produce equipment for electric utilities, industry, the transportation field, and the national defense. Some 150 sales offices and 35 service shops throughout the country also are under his organization.

Mr. O'Brien has been associated with General Electric since 1922, when he joined the company's test course for student engineers at Schenectady.

In May, 1950, he was elected a commercial vice president and appointed assistant manager of marketing policy for the company. He was named general manager of the Apparatus Sales Division in July, 1951, and will continue to serve in that capacity.

Mr. O'Brien is a native of West Virginia, and was graduated from the Virginia Military Institute in 1922 with a B.S. degree in electrical engineering.

**George E. Burens**

Mr. Burens joined General Electric in 1921, working in the Lamp Development Laboratory. Later he was production manager of the Euclid Lamp Works, Cleveland, and assistant manager of the Lamp Manufacturing Division of the Lamp Department at Nela Park, Cleveland.

In 1947 he became vice president in charge of manufacturing of Telechron, Inc., a GE affiliate. In 1949 he was appointed manager of manufacturing of the Affiliated

Companies Department, which position he held until he was named acting general manager of Locke, Inc., in 1950 and subsequently president, general manager and a director of that company in September, 1950. Locke, Inc., formerly an affiliate company, is now a department of General Electric.

Mr. Burens became general manager of the Switchgear and Control Division in September, 1951, and will continue to serve in that capacity.

**Harold E. Strang**

Mr. Strang, a native of Mechanicville, N. Y., was graduated in 1922 from Rensselaer Polytechnic Institute, with a B.S. degree in electrical engineering. He began his career with General Electric the same year as a student engineer on the company's test course at Schenectady and during that period was placed in charge of switchboard tests.

After an initial assignment in the Switchboard Engineering Department, he was transferred to the Philadelphia Works as an application engineer. In 1932 he was named managing engineer of the Large Power Circuit Breaker Division and in 1940 was named engineer of the Philadelphia Works.

In 1944, Mr. Strang was assigned to the staff of Harry A. Winne, who was then vice president in charge of design engineering for the Apparatus Department. Mr. Strang subsequently became engineering manager for the affiliated Manufacturing Companies Department. In 1949 he was appointed manager of the Apparatus Department's Meter and Instrument Divisions. He assumed his present position in September, 1951.

**HERMETIC MOTOR'S NEW PLANT**—The artist's conception of the plant being constructed at Holland, Mich., by the Hermetic Motor Department is shown above. The new plant, which will be completed next year, will serve as headquarters for the department.

## GE Announces Gala New TV Schedule Featuring Top Hollywood Names

Ronald Reagan will act as host for one of the most ambitious live and film dramatic series in the history of television, J. Stanford Smith, manager of General Public Relations, announced today.

Scheduled to begin in September, and running for 52 weeks, the new GE series contemplates showcasing such top stars as Tyrone Power, Fred Astaire, Henry Fonda, Joan Crawford, Jane Wyman, Joseph Cotten, Paul Douglas, Thomas Mitchell, and others.

The new line-up will occupy the same prime spot General Electric has retained for the past four years on the CBS Television network Sunday, 8 to 8:30 p.m. CST. To insure even greater audiences, the number of stations for the new high-budgeted series will be increased to 120.

Through Management Corporation of America 26 live shows will be produced during the 1954-55 season. These productions will originate both in Hollywood and New York to insure complete flexibility and access to the finest dramatic talent.

In addition, MCA will go out on location throughout the country to shoot film productions which will be seen during the regular run of the 52-week new "General Electric Theater."

Ronald Reagan will act as host each week as well as star in some of the dramas.

Mr. Smith said the actor was chosen by General Electric not only for his national popularity but for his reputation and prestige in the movie industry. He is one

of the movie colony's most esteemed actors and was President of the Screen Actors' Guild for five consecutive years. His participation in civic and charitable affairs is well known.

Mr. Smith said the actor will become a spokesman for General Electric and will travel to various cities to attend company conventions and meetings during the year. Reagan arrived in New York Tuesday, April 27, to meet General Electric management and then visit GE's research laboratories and other plants in Schenectady.

### Rites Held Monday For Robert Hoffman

Services for Robert N. Hoffman, 50, were conducted Monday, April 26 at the Getz & Cahill Funeral Home and St. John the Baptist Catholic Church. The Rev. James O'Connor officiated.

Mr. Hoffman died Thursday, April 22, at his home, 217 W. Fleming Ave. He suffered a heart attack. Burial was in the Catholic Cemetery.

A Quarter Century Club member, Mr. Hoffman came to the company in May, 1919, as a tester. Later he worked in the tool room and was a methods planner in Bldg. 4-1 until his death. He was a native of Fort Wayne.

In addition to his wife, Lucille, survivors include a daughter, Judith Ann; three sisters, the Misses Rosella, Marie, and Ignatia; and a brother, Frank.

### THANKS, PIN BOYS

Members of the Owl Bowling League express their thanks to the pin boys who helped bring their Saturday morning kegling to a successful close this season through their cooperation.

**SAFETY EDUCATION** was the topic discussed by William E. Hunter, member of the Indiana State Police Safety Education Division, at a Foremen's informative meeting last week. The guest speaker is discussing aspects of his subject with Ruth Wiedeck, Bldg. 6-4, left, and Merland Heller, Bldg. 4-4, right.

**LUSCIOUS LOUISE** Gusky pantomimes "You Can Put Your Confidence in GE Form G Motors," at the Central Electrical and Industrial Show held recently in New Jersey. The GE space at the show featured Thymotrol and Tri Clad "55" motors and lamps as well as Form G motors. The portable turn table type display designed by Bill Brunner, Taylor St., is being used in both district and national trade shows to interest potential customers in Fort Wayne's motor line.

## TE, MTP Families Will Hold Picnic

Members of the Test Engineers and Manufacturing Training programs will hold a family picnic at the R. M. Hartigan farm Sunday, May 16. The farm is located on Hardesty Road, the third road to the left after passing the junction of highways 1 and 427.

Members are encouraged to bring their immediate supervisors and their families to the outing which will start at 11 a.m.

Tickets are 50 cents per family and may be purchased from contact men. The picnic will be a potluck.

Gene Riley, Bldg. 6-3, and Fred Ray, Bldg. 8-2, are co-chairmen.

## Apprentice Alumni To Tour Harvester

A tour of International Harvester's Engineering Laboratory on the Meyer Road has been arranged for members of the Apprentice Alumni Association.

The tour will begin at 7:15 p.m. on Wednesday, May 12. Members will be required to furnish their own transportation. Movies of Harvester's proving grounds will also be shown.

"Over my heart in the days that have flown,  
No love like mother-love ever has shown;  
No other worship abides and endures,  
Faithful, unselfish, and patient, like yours."

—"ROCK ME TO SLEEP," by Elizabeth Akers Allen.

Mrs. Merle Augenbaugh, whose husband works in Bldg. 19-4, is shown with their 13-month-old daughter, Vicki Ann.

## California Reservations Open Monday

Reservations for the Elex Club 12-day vacation trip to California will be taken beginning Monday, May 10, Voyce Brumbaugh, president, announced this week.

Elex members, their friends, and families may make reservations with contact girls; Irene Meyers in the Women's Activities Office, Bldg. 18-1; Veora Hahig, Taylor St., or Miss Brumbaugh, Winter St.

Folders outlining the jaunt will be available at all of these locations Wednesday. Persons wishing to take the trip should fill in the reservation blank appearing on the last page of the folder and turn it in to one of the above locations. Arrangements for payments and rooming will be explained when individuals register.

Price of the tour is \$224 for members and \$226.50 for non-members. This includes the round-trip coach ticket from Fort Wayne and return; all meals except in San Francisco and Los Angeles; deluxe hotel rooms on a two-to-a-room basis; all sightseeing; transfer of passenger and baggage between hotels and stations.

Not included in the cost are meals in San Francisco and Los Angeles and personal expenditures such as telephone calls, laundry, and refreshments.

July 1 is the deadline for mak-

(Continued on page 12)

## 'Flowers' Topic At Squares Wives May 11 Meeting

"Floral Arrangements" will be the topic of discussion at the Tuesday, May 11, meeting of the GE Squares Wives Club. Mrs. Max Barrows, chairman of the meeting announced this week.

The meeting will take place at the Squares Hall beginning at 8 p.m. Mrs. Wes Goss will be the principal speaker. She will present various types of floral arrangements in demonstrations. Refreshments will be served.

Six members of the organization are assisting Mrs. Barrows with arrangements. They are Mrs. Andrew Frank, Mrs. Marvin Schmidt, Mrs. Claude M. Summers, Mrs. John Sheak, Mrs. I. H. Freeman, and Mrs. Harold L. Ferverda.

## GE Squares Club Slates Annual Meeting May 10

The annual meeting of the GE Squares Club will take place Monday, May 10, at the Squares Hall. It will begin at 8 p.m.

President Don Reek, Bldg. 16-3, will present the annual report. John Taylor, Bldg. 4-6, will give a report on the status of plans for a new Squares hall. Charles E. Strecker,

Bldg. 26-2, will present the treasurer's report and officers for the 1954-55 year will be announced.

A program of entertainment has been planned to follow the business meeting and refreshments will be served.

Assisting Mr. Reek, who is general chairman of the meeting, are Albert I. Martin, Taylor St., and James H. Capps, Taylor St. Chairman of the tellers' committee in the election is Arthur L. Johnson, Bldg. 4-6. He is being assisted by Harold L. Ferverda, Taylor St., and Fred E. Junker, Winter St. Richard Thomas, Bldg. 4-6, was chairman of the nominating com-

mittee.

The large pavilion at Franke Park will be the scene of a square dance for Squares members and their guests tomorrow evening. Stan Emery and his band will furnish music from 8 to 11 p.m.

Free hot dogs and soft drinks will be served. Tickets are \$1 per couple and may be secured from contact men. Walt Hein, Bldg. 26-2, and Vern Petersen, Bldg. 26-2, are co-chairmen of the event.

The GE Squares Club was founded in 1922 by ten test engineers at the Fort Wayne plant. It derives its name from the ini-

(Continued on page 12)

**NEW HOME FOR NURSES**—Lois Tustison, daughter of Paul Tustison, guard at the East Broadway gate, is one of the student nurses occupying the new Parkview-Methodist School of Nursing and residence building. She is shown in the lounge which is typical of the modern decoration found throughout the building. Other pictures appear on page 7.

### Something for Nothing?

By Mark C. Schinnerer, Superintendent of Schools, Cleveland, Ohio

This is about economics. This is about the teaching of economics, not directed just to teachers of economics, but to all teachers. It is directed to all teachers because the job that needs to be done cannot be done by just the teachers of economics.

There is a colossal oversupply of people in my country who either never discovered some of the basic principles of economics or think that the economic laws have been repealed. We hear much wailing that the schools have failed in this regard and the cry is for required courses in economics. We have failed—in school and out—but the answer is not in required courses. The answer, in my opinion, lies in a continuous effort to inculcate in children, from kindergarten through high school, some basic and very simple facts.

There are three things which almost anyone can be brought to understand and if these three are ingrained, we can leave the more complicated principles to the experts.

1. You can't get something for nothing. Too many think they can. That is the basis of gambling and most speculation. Giving a higher mark in school than is earned is proving that the student can get something for nothing. That is bad business. When parents urge no homework, they somehow expect something for nothing. One gets out of school work about what he puts into it. Only parasites get something for nothing.

2. You can't spend more than you have and remain solvent. The longer such a system is followed, the more impossible it becomes to keep afloat. Know anyone who trades in a mortgaged car on a new one and has both a newer car and a bigger mortgage? The woods are full of such people. It is bad economics. It's somewhat like drug addiction. This applies equally to a person, a business, or a government.

3. You cannot equalize ability by a handicap system. It is wrong to expect as much from a youngster with a low I. Q. as is expected from a youngster with a high I. Q. It is also wrong to set up handicaps so that they come out even. Leave that for the exclusive use of the racing stewards. Competition still has a place in America, thank goodness, and I don't want it any other way.

In every school day, there are numerous incidents in each student's school experience when these three fundamentals are present. Just repeatedly bringing them to the pupil's consciousness will work wonders. If all our people accepted these three economic axioms and lived by them, we would live in an economic paradise.

(Reprinted from Scholastic Magazines, January 6, 1954)

### Primer on Communism: No. 3

## Does Size of a Communist Party Indicate Its Danger?

Not necessarily. A Communist party of any size is dangerous, although a large Communist party is more dangerous than a small one. Communists are an organized, disciplined force with a definite world goal; they are determined, shrewd and courageous. And they can draw on a vast international army.

At the time of the Spanish civil war, the Spanish Communist party was a minor force of about 50,000 members. Yet, through Russian pressure, it overnight became Spain's dominant political force. This pressure was a main reason why the republican state was defeated, a victim of fascism.

(Adapted from the "Primer on Communism," published by the Anti-Defamation League of B'nai B'rith.)

## SICK LIST

The following people have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Frances Gilliam, Delores Ward, Virginia Gordon, Nona Scott, John Brandyberry, Ocie Jackson, Gerald Kramer, Dollie Fodge, Margaret Bradley, Glenn Kline, Virginia Jones, Hartman Deel, Victor W. Blomenberg, Lillian Krudop, Emma R. Meyer, Verna Powers, Donabelle Taylor, John Wyatt, Frank Glenn, Robert Curry, Mary Anderson, Thomas Voetter, Marvin Wicks, Mary Wright, Wilhelmina Dominique, Annie Lillard, Marie Anderson, David Harrold, and Paul Harvey.

### Dismissed from Hospital

Victor Blomenberg, Henry Smith, Homer Ray, Lillian Harris, Wilbert York, Joseph Zephyr, and Charlene Rush.

### Returned to Work

Edward Saxton, Thelma Hill, Thomas Hutsell, Myra Poor, Herbert G. Wise, George Kaade, Florence Fisher, Garland Herron, Dorothea Miller, Albert Wilcox, Eunice Kurtz, Alberta Williams, Larry Moore, Robert Mobberly, Martha Woodward, Hazel Cox, Audrey Hickernell, Naomi Robinson, Clarence Rentschler, Ina Bixler, Robert Curry, Martha Davenport, Lucille Bates, Vernon Boyers, Cora Rice, and Glen Schwartz.

## DECATURITES

by George Laurent

The boat painter has been at it again. No, he did not paint Fry's boat this time. He just tried to decorate the gage check room in blue. . . . Birthday greetings to Betty Frauhiger. Betty treated the gang with delicious big red apples. . . . Have you ever tried catching a greased pig? Rumor has it that Ella Scherry has been practicing the art at home with the fond hopes of becoming an expert by the time the annual picnic is held. Let us know when you become an expert, Ella, and we will be there to see you. . . . Birthday greetings to Genny Owens and Nellie White, who celebrated May 1. Here's hoping you have many, many more wonderful birthdays. . . . Congratulations to Speck Hebble and his wife upon the arrival of their new pink-bootied tax exemption. . . . We wish to extend our deepest sympathies to Theodore Schumm upon the death of his brother. . . . Congratulations and best wishes to James Strickler and his bride Lois Barkley, who were married last Sunday. . . . Last week the time changed and most of us came to work an hour earlier. Sephus Jackson, to be different, came in two hours late. The Jacksons ordinarily use two alarm clocks but decided that one was enough. They used one and Sephus became a 10 o'clock scholar. . . . Bikini is not the only atom bomb site. The north parking lot also is echoing to the sound of bombs. There was a whistle, a bang, and Art Miller's car was enveloped in smoke. . . . The mushroom stories are coming in thick and fast, but be sure to tell yours last if you wish to have a chance.

Real estate salesman: "Would you like to see a model home?"

Prospect: "Glad to. What time does she get off work?"

# GE ON RADIO AND TV

### TELEVISION

"I MARRIED JOAN"—WKJG-TV.

7 p.m. Wednesday  
Starring Joan Davis

MEET MR. McNUTLEY—WKJG-TV

8 p.m. Friday  
Starring Ray Milland

FRED WARING—WKJG-TV.

### RADIO

GATESWAY TO SPORTS—WKJG  
6:15 p.m. Monday through Friday, featuring Hilliard Gates.

MEET MR. McNUTLEY—WANE  
8 p.m. Thursday

Starring Ray Milland in the General Electric Comedy Hour.

BING CROSBY—WANE

7 p.m. Sunday

MOTHER'S DAY will be a double event for pretty Phyllis Avery, who plays Ray Milland's TV wife in the General Electric Comedy Theatre's "Meet Mr. McNutley" over WKJG-TV, Friday at 8 p.m., CDT. On hand to make it a perfect day for Phyllis will be her two daughters, Avery, 4; and Anne, 3.

RONALD REAGAN VISITS THE GENERAL ELECTRIC — Ronald Reagan, host of General Electric's new series of television dramatic shows, paid a three-day visit to GE in New York and Schenectady, Tuesday, Wednesday, and Thursday of last week in order to meet company executives and become familiar with the organization whose spokesman he will become when the first of the new program series is telecast in the fall.

Arriving in New York from Hollywood Tuesday, April 27, Mr. Reagan lunched with Public Relations Division executives at the Waldorf before touring the executive offices at 570 Lexington Avenue where he met and chatted with a number of company officers.

Wednesday and Thursday were spent in Schenectady visiting several manufacturing installations and administrative offices. The tour bogged down several times during the day when the handsome screen star was besieged by crowds of admiring young ladies in search of autographs. He also visited the research laboratory where he had lunch before departing on Friday.

Mr. Reagan's relationship with General Electric in the future is expected to be something more than the usual arrangement between a TV performer and his sponsor. In addition to acting as host for the new dramatic series and starring in some, Reagan will be present at company meetings and functions throughout the year and in general become a spokesman for GE.

WARING SHOW HIGHLIGHTS—Special choral versions of "Peer Gynt" and the popular "Nutcracker Suite" are highlights of "The Fred Waring Show," sponsored by GE, Sunday, May 9, at 8 p.m. over WKJG-TV.

The Pennsylvanians also sing a new song, "We Love to Sing," by Buddy Bernier, a kind of musical explanation of what drastic measures singers must take when they become part of a television show. They do a round-robin version of "Swanee River," displaying their individual vocal abilities.

A Mother's Day tribute is made as the members of the Glee Club, accompanied by the orchestra, perform the stirring song, "You'll Never Walk Alone," from the Rodgers and Hammerstein show, "Carousel." The selection was a favorite of Maestro Waring's late mother.

Other selections on this May show include "Where in the World But in America," "Trust In Me," "Slumberboat," and "Stars and Stripes Forever."

DOUBLE MOTHER'S DAY CELEBRATION—It will be a double-header for Joan Davis, star of the NBC-TV "I Married Joan" comedy (Wednesdays at 7 p.m., CDT) on Mother's Day, Sunday, May 9. Joan is pictured here with her mother, Mrs. Nina Davis, and Joan's daughter, Beverly Wills, who plays her sister on the show. Three generations—all doing fine, thank you.

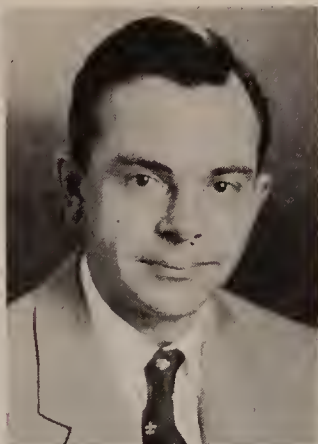

JOAN DAVIS HAS TROUBLE WITH A CHIMPANZEE ON "I MARRIED JOAN"—Joan Davis, star of the "I Married Joan" comedy series over NBC-TV, monkeys around with a chimpanzee on the Wednesday, May 12, telecast of the program at 7 p.m., CDT.

The show, titled "Talent Scout," was first telecast June 17, 1953.

Walter H. Buesking

Thomas G. Roberts

James M. Stafford

Ross G. Holt

Melvin E. Linberg

# Five Promotions Announced at Winter St.

Five appointments in Small Integral Motor manufacturing have been announced by Oscar L. Weitzman, manager of manufacturing. Walter H. Buesking has been named foreman of special motor winding. Thomas G. Roberts has been appointed foreman of specialty polyphase motor machining.

James M. Stafford has been named foreman of test. Ross G. Holt has been appointed facilities engineer in the Plant Engineering Unit of the Manufacturing Section. Melvin E. Linberg has been named foreman in training.

**Walter H. Buesking**  
Mr. Buesking came to the company in 1934 and entered the Apprentice School. After graduation from the machinist-toolmaker course in 1938 he became a boring mill operator in Motor and Generator manufacturing. Later he was a toolmaker and in 1945 went to the Kokomo Plant as a planner.

Two years later Mr. Buesking returned to Fort Wayne and was a mold maker in Bldg. 19-5. He went to Winter St. in 1952 as a planner and had this position until his present appointment.

Mr. Buesking is president of the Apprentice Alumni Association and is a member of the Foremen's Association and Southwest Conservation Club. He is a state chief in the Indian Guide organization. The Bueskings and their three children reside at 1315 Home Ave.

**Thomas G. Roberts**  
When he joined GE in 1941 Mr. Roberts went into the Apprentice School. He graduated from the machinist-toolmaker course in 1943 and became a diemaker in Bldg. 26-5. He went to Winter St. in 1948 and worked on tool design prior to his present assignment.

Mr. Roberts is a member of the Foremen's Association and Apprentice Alumni Association. Mr. and Mrs. Roberts and their two children reside at 2602 Winter St.

**James M. Stafford**  
In 1952 Mr. Stafford became a GE employee and went on the Test Engineer Program here. He had assignments in the Hermetic Motor and DC Motor and Generator Departments and at the Louisville Plant. He completed the program at Winter St. in 1953 and entered manufacturing in that location, where he was at the time

of his present appointment. From 1944 until 1946 Mr. Stafford served in the U. S. Navy. He graduated from Oklahoma A&M in 1951 with a BSEE degree. He is a member of the Foremen's Association, Fort Wayne Engineers Club, AIEE, and Indiana Engineering Council. Mr. and Mrs. Stafford and their three sons live at 4322 Queen St.

**Ross G. Holt**  
Mr. Holt joined General Electric in 1952 and went on the Test Engineer Program at Evendale. Later he went to Lynn and came to Fort Wayne where he completed the course prior to his present appointment.

A graduate of Michigan State College, Mr. Holt received his BSME degree in 1951. He resides at 2319 Broadway.

**Melvin E. Linberg**  
When he came to the company in March, 1953, Mr. Linberg was a machine operator at Winter St. In June, 1953, he became a dispatcher in production at the same location and had this job until his present appointment.

In 1951 Mr. Linberg entered the U. S. Army Corps of Engineers. He served as an engineering research prior to being discharged in March, 1953. Mr. Linberg graduated from Indiana University in February, 1951, with a B.S. in business administration. He is a

member of the Foremen's Association and GE War Veterans Association. Mr. and Mrs. Linberg live at 1030 W. Jefferson St.

## GE Features Model Homes At Home Show

Pictures illustrating various General Electric model homes are featured in the GE booth at the 1954 Home Show at the War Memorial Coliseum. The show will remain open to the public through Sunday, May 9.

Scenes of homes sponsored by the company to dramatize the contributions to modern home design growing out of GE research and development are shown. Motors built in the Fort Wayne plants for various appliances in the home are on display also.

Employees serving on various committees in charge of the show which is sponsored by the Junior Chamber of Commerce include Remsen A. Chatterley, Bldg. 26-2, publicity chairman; Howard A. Brust, Bldg. 31-2, chairman of advance ticket sales, and Don Dannecker, Bldg. 18-1, radio and television promotion.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

We salute thee, oh glorious month of May. Now the bright morning star, day's harbinger, comes dancing from the east, and leads with her the flowery May, who from her green lap throws the yellow cowslip, and the pale primrose. Hail bounteous May, that doth inspire, mirth and youth and warm desire. Woods and graves are of thy dressing; hill and dale doth boast thy blessing. Thus we salute thee with our early song, and welcome thee and wish thee long. Oh May, the sweetest and in fairest colors dressed. . . . Having just returned to work after spending a week at home doing some expert interior decorating and carpet-laying and as good copy is unavailable with the exception of a couple choice items which popped up, I was about to play hooky for another week on this column. . . . George Cowan and his boss were doing a little fishing at Lake Gilead, having a goodly catch stashed away in a gunny sack which hung loosely over the end of the boat. Deciding to move to another spot on the lake herself, the boss cautioned George about the sack of fish, saying that it should be secured before moving. Old "Rough House" in his usual manner said, "Oh, it will be all right," and proceeded to row toward

## Major Appliance Parts Available at Discount At Commercial Electric

Parts for GE major appliances may be purchased by employees at a discount at Commercial Electric, 1720 S. Harrison St., Mike Casey, sales manager, reported this week.

General Electric distributors in this area, Commercial Electric, is a factory service headquarters, providing a centralized service center for all GE major appliances except radio and television receivers. Charles Vinton is product service manager.

Week-days the store is open from 8 to 5 p.m. and is open from 8 a.m. until 12 noon Saturdays.

ward the new spot. Upon arrival at the new location and preparing to lower anchor, he discovered that the sack and fish were A.W.O.L. "Rough House" made no comment as to what herself, the boss, had to say about this turn of events. . . . Justin Heaston was all excited over the Elex Easter egg sale. He just could not get over the big bunny pulling that gaily-colored cart filled with Easter eggs up and down the aisles of the plant. This event seemed to give him quite a thrill and he kept continually asking the boys in the tool room if they had seen the big bunny. They all denied seeing it. This was done to break Justin's spirit, but it was no soap as he was just as thrilled at quitting time as he had been all day. . . . Thrice is he armed that hath his quarrel just, and four times he who gets his fist in "fust."

## THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Our sympathy goes to Berniece Casper in the death of her brother, who passed away Friday after being in an accident. . . . Ruth LaPradd and Dorothy Hart are really gaining weight on their new job. . . . Congratulations to Margaret Hey and Johnny Suciu, who were married Saturday. . . . Dorothy Hart is going to start farming. She bought two more lots last week at Bear Lake. . . . Rebecca Fogwell wishes to extend her sincere thanks to all of those who helped to make her last day such a grand surprise, also for the lovely gifts. We wish you lots of luck, Becky.

HOME SHOW 1954—Viewing General Electric's booth at the Home Show at the War Memorial Coliseum are three of the thousands of visitors to the exposition which will be concluded Sunday, May 9. They are (l-r): Mrs. Phyllis Saylor, Mrs. Barbara Strong, and Mrs. Darlene Rodenbeck.

## GE DEATHS

William J. Hunt

### Rites Held Tuesday For William J. Hunt

Services for William J. Hunt, 67, were conducted Tuesday, May 4, at the Zwick Funeral Home, Decatur. Mr. Hunt, a retired Decatur Plant employee, died Saturday, May 1, at the Parkview Memorial Hospital. Burial was in the Decatur Cemetery.

Joining the company at Decatur in 1923, Mr. Hunt was doing electro plating until his retirement in October, 1951. He was a Quarter Century Club member.

Survivors include his wife, Laura; three sons, Byrl, Dale, and Keith; two brothers, Theodore and Oscar; two sisters, Mrs. Nora Burget and Mrs. Millie Scherrer, and two grandchildren.

### William Grover Dies In St. Joseph Hospital

A retired employee, William S. Grover, 69, died Saturday, April 24 in St. Joseph's Hospital. Services were conducted by the Rev. A. Hunter Colpitts in the E. Harper & Son Funeral Home. Burial was in Covington Memorial Gardens.

A Quarter Century Club member, Mr. Grover was active in the Volunteer Firemen's Association. He came to the company in 1912 and was leading operator and set-up man in Bldg. 19-2 until his retirement. He retired March 1, 1947, which was the date of his wife's retirement also.

Surviving are his wife, Viola, and a daughter, Mrs. T. A. Perry, of Owenton, Ky.

## THISA & THATA

BLDG. 4-3 and 4

by Helen Engle

Wonder what kind of fish Bob Meyer is going to catch with that big fishhook he received? We are sorry he left us for 415, but in his place we welcome Bill Shuler from 415. . . . The other day Julia Hohnhaus went to the oven at lunch time and took out a sandwich and found out it wasn't hers. After looking at everybody's lunch to see if they had hers, she discovered hers wasn't in the oven! . . . Marie Griffin had company from California last week. . . . What happened to Peggy Bahde Friday after the get-together the girls had with Pat Hatch? . . . Have you noticed Clara Patterson's new curly haircut? . . . Howard Hubbard has found out that he can yodel much better if he removes his top plate. . . . Earl Sexton is not only a fisherman but a mushroom hunter. He got 75 big ones, and Chick Kortum confirms this as he helped to eat them. . . . Dick Blust enjoyed the week-end by cleaning wallpaper and washing woodwork. . . . If you city farmers want your garden plowed or disked see Russell Rose as his new tractor really works. . . . The Bob Spitlers are now living in Lee, Mass., and from all reports like it very much as they are right across the road from the Country Club and very close to a trout stream. The boys are getting their fish lines ready to do some fishing. . . . Don Mason had a couple of sick kids on his hands last week when the dog came up missing and some very happy ones when they found her clear over on the north side of town. . . . Clarence Rump is off the wagon. He started smoking all over again. . . . We have an "Honest John" in our midst. It seems a "planted" billfold was put in the punchings that John Figley was to work out of. Imagine his surprise when he found it. He hurriedly took it to Jake for safe-keeping, but now we are wonder-

ing how it found its way back to the rightful owner. . . . Glen Ulery spent the week-end up by Cleveland. . . . Fred Alles got his garden all planted and screens up last week on his vacation. . . . Paul Arnold says he is going to move into his new house by Christmas, but he doesn't say which Christmas. . . . Hazel Niswonger said she and Al looked like hillbillies when they went walking in the woods looking for wildflowers and mushrooms. . . . Al Erwin is unhappy as he can't get away to do any fishing. We don't know what is holding him back. Maybe it is spring cleaning time at his house. . . . Bill Wickliffe is on his vacation this week and from his stories as to what he was going to do, we all wonder if he will be able to make it back by next Monday.

## TOP FLOOR TOPICS

BLDG. 26-5

by Jack Lea

If you don't have anything better to do and see Liberace at the Coliseum, take note of the piano bench he will be sitting on. Believe it or not, the bench belongs to Cleota Stallbaum, who recently purchased a piano and consented to allow the bench to be used for the program. . . . Bertha Wollert recently paid a visit to her former co-workers. . . . Congratulations are in order to Virginia Smith, who has received a beautiful diamond. Let's face it, men, we can't escape! . . . A pigeon recently paid a visit to the second trick. Before leaving, the pigeon paid its respects to Gervase Hernan by "bestowing a blessing" upon him. The pigeon was dropping while Gervase was eavesdropping on a private conversation.

The husband was consoling his wife after their daughter's wedding. "Don't think of it as losing a daughter," he said, "think of it as gaining a bathroom."

## Minnie's a Mamma!

**MIND YOUR MANNERS**—Under Minnie's reproving eye, one of her offspring leaves the table without being excused. Clarence Amones, Minnie's first trick supervisor, is serving. Minnie is the pet of the power plant at Taylor St.

Minnie the Moocher's a mamma! The power plant at Taylor St. is proud to announce the birth of quadruplets to their pet cat Minnie, with Darrel Bolds as attending physician.

Despite rules governing animals in General Electric property, Minnie edged her way past the usually vigilant plant guards a few months ago and wormed her way into the hearts of Taylor St. employees.

Her time card's not on the rack, but most folks agree she's earned her keep. The mousing code pays fairly well, too—daily on all three tricks. She has her own private cafeteria in the power plant, which serves her all her favorite delicacies, including steak and her particular preference, cottage cheese.

There have been a few complaints that Minnie's not as safety-conscious as a model employee should be. She's been rescued time and again from perilous strolls through the Wire Mill and she has been known to nap on the boss' desk, of all places.

But those little slips are all forgotten. She's on maternity leave at the moment and Sunday is Mother's Day. As for Minnie, she's anxious to get back to her mooching and mousing business.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

Happy birthday greeting to Margie Watkins next Sunday. . . . Martha Newell is spending her vacation this week visiting her brother in Greenville, Tennessee. . . . Vera Gross and her husband entertained all their friends at about midnight Saturday night. Their friends gave them an old-fashioned belling. . . . Millie Kou-

**FORMER ELEX PRESIDENT RETIRES**—Loretta Bloom, long active in GE social activities organizations, retired last month with 24 years of service. Miss Bloom was employed in Bldg. 26-4 as a lead and cable maker before retiring. She is a former president of the Elex Club, former board member of the GE Club, and member of the Credit Committee of the Credit Union.

der was ambitious Saturday morning, getting up in a hurry, thinking it was a morning to come to work. . . . Virginia Archbold was a quiet person last Friday, being unable to talk. . . . Normal Durnell is beaming with happiness. She has received some letter from her boy friend, who at the present is stationed somewhere in France.

**SNOW SHOVEL DOOMED**—Commuters using the Pennsylvania Railroad's Suburban Station in Philadelphia next winter will find station steps of both the 16th and 17th Street entrances free of ice and snow at all times, regardless of the weather. There will be no shoveling of snow to keep the steps clear, either, because as the picture shows, the Pennsylvania Railroad is installing GE electric heating cable in the concrete steps. When this cable is energized, it warms up and melts the snow and ice.

# Questions—Information Clinic—Answers

## THINKS DIVIDEND CHECK TOO LARGE

### QUESTION:

I have contributed the maximum to the Stock Bonus Plan since its inception in 1948. On March 16, I received bonds, the face value of which represented a cash contribution of \$130. The certificate reads that I have accumulated 49/100 of a share of stock.

Dividends declared in 1949 were	\$2.50	paid	\$2.50
1950 were	3.40	paid	3.40
1951 were	3.00	paid	3.00
1952 were	3.00	paid	3.00
1953 were	4.25	paid	4.00
	\$16.15		\$15.90

49/100 share times \$15.90 total dividends would equal \$7.79. I received a check for \$8.90. What does the difference of \$1.11 represent? Is it interest, and if so, what is the rate of interest?

### ANSWER:

Following is a record of the dividends declared on General Electric stock and income credited per share under the GE Employees Savings and Stock Bonus Plan:

Year	Paid	Credited	Excess Amount Credited
1949	\$2.50	\$2.94	\$0.44
1950	3.40	3.86	0.46
1951	3.00	3.36	0.36
1952	3.00	3.35	0.35
1953	4.25	4.68	0.43

The excess amounts credited under the Stock Bonus Plan are explained as follows:

1) Participants who withdraw bonds purchased in prior years forfeit the stock bonus applicable to such bonds. The dividends earned on shares forfeited which still remain with the GE Employees Stock Bonus Trust are credited to the accounts of participants who leave their bonds on deposit.

2) The Trust invests the dividends which it receives on General Electric stock and thereby realizes income from these investments. This income is also credited at the end of the year to those who have stock bonus to their credit. There is no definite rate of interest.

We hope that this explains why amounts credited to participants' accounts per share of General Electric stock are greater than the dividends declared on General Electric stock.

\* \* \*

## INSURANCE TAX DEDUCTIONS

### QUESTION:

Since life insurance premiums are not deductible for income tax purposes and health, hospital, and medical premiums are deductible, I would like to know what part or percentage of my payment of 74 cents per week falls into the category of deductible premiums.

### ANSWER:

The employee pays approximately 12 cents per week for the weekly sickness, hospital, and surgical benefits of the insurance plan. It should be remembered that this is just a small part of the actual cost as the company pays most of the premium.

The balance of the 74 cents, or 62 cents per week, is your contribution for \$6,000 life insurance and \$2000 accidental death benefits.

\* \* \*

## COLLEGE ST. CROSSING PROBLEM

### QUESTION:

Why wasn't a traffic signal light ever installed at Wall and College to protect employees going to the west parking lot during rush hours. This is a very dangerous corner!

### QUESTION:

I would like more information about the possibility of safeguarding pedestrians who must cross College Ave. at shift changes to get to and from the Broadway Plant. Must one of us be killed before any action or thought is

taken. I am told this is just another one of many inquiries.

### ANSWER:

Frankly, we don't have a practical solution to the traffic problem for College Ave. at Wall St. Much thought has gone into the problem by persons here at General Electric, but as yet no satisfactory solution has been reached. We are going to re-open the subject with the city traffic department to see if there are any new ideas that are applicable.

\* \* \*

## STOCK ISSUED SAME AS BONDS

### QUESTION:

Will stock under the stock bonus plan be issued jointly the same as government bonds?

### ANSWER:

We are informed that stock issued under the Employee Savings and Stock Bonus Plan will be made out the same as authorized for government bonds.

\* \* \*

## EXPECT TO COMPLETE HOLLAND PLANT IN 1955

### QUESTION:

Who is going to Holland and when is the move to Holland being made?

### ANSWER:

Ground was broken in Holland, Mich., on Wednesday, April 21, for a new plant to make Hermetic motor parts. This plant will provide the needed additional capacity to

manufacture Hermetic motor parts which is brought about principally by a rapid increase in the production of air-conditioning equipment.

Operation of the present Hermetic motor manufacturing facilities in Tiffin, Ohio, and in Bldg. 17 at Broadway will continue. We expect that the new Holland Plant will be completed and that production will commence early in 1955. Part of the supervisory and planning force will come from Fort Wayne and other General Electric plants. Other people required in the manufacturing operation will be hired in Holland.

The Hermetic Motor Department offices now located at Broadway in Bldg. 18-3 and part of Bldg. 18-4 will also be transferred to Holland in 1955. The managerial people and many of the professional employees in the department offices in Bldg. 18-3 and 18-4 will be moved to Holland.

\* \* \*

## ANNIVERSARIES BASED ON CONTINUOUS SERVICE

### QUESTION:

For presentation of a Diamond Pin to an employee of the GE Company (one having 50 years of service with the company) would receipt of this pin be governed by the day the employee first started to work at the plant, or would the strike time which occurred in the 1940's be deducted from the employee's service time with the company? If this deduction in this deduction in strike time would be taken away from the employee's service, the employee would lack a very short time in order to receive his honor.

### ANSWER:

Anniversary awards are based on actual service with the company and original starting date may be affected by all absences which are deducted from continuity of service, according to the regular continuity of service rules. Time lost during the 1946 strike is one of such deductions.

There are regrettable instances when service anniversaries are missed by a few days or weeks, but credited time is an exact calculation, and exceptions are not possible.

\* \* \*

## WANTS ANSWER ON LAY-OFF QUESTION

### QUESTION:

I would like more information about employees being laid off out of line of seniority. Is this true or false? Please answer correct.

### ANSWER:

Our general policy provides that seniority shall be the major factor determining the layoff or transfer of employees. However, ability will also be given consideration—that is, all employees retained must be able to do the job with incidental training. There are occasions when skilled mechanics must be retained who have less service than semi-skilled employees laid off. The company does its very best to administer each layoff with care and consideration of doing the right thing in each individual case and to make sure that we follow the

seniority provisions of our general policy and the seniority provisions of the union contract.

\* \* \*

## YOUTH VS. AGE

### QUESTION:

I would like more information about giving stock to infants. Why doesn't the company do something for the people who have given their best years of their lives to the company? They are deserving of something instead of newborn babies. If they would even pension on service instead of age, it would give younger people a chance for a lot of people would get out and make room for younger people.

### ANSWER:

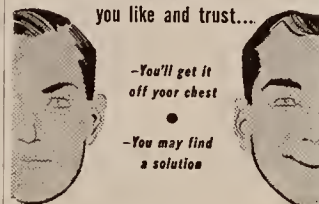

The "Stork Derby" last October was a part of the publicity promotion for the company's 75th Anniversary celebration. Advertising and public relations are a necessary part of every business, and the stock bonus awards to babies born on GE's anniversary

received very favorable reports in papers throughout the country.

The Pension Plan is the company's program of compensating for long years of faithful service, and we feel it has advantages over many industrial plants. The compulsory retirement age may be argued, but it is questionable whether a compulsory retirement based on maximum service would be a welcome substitute or encourage employees to retire at an earlier age.

When you have a problem that bothers you...

Talk it over with someone you like and trust...

HAPPY ANNIVERSARY—Ora V. Martin (second from left) spent a happy day April 26 as he celebrated his 30th GE anniversary in the company of (l-r) Clyde Enslin, Art Braun, and William Hoelle. Mr. Martin, a tester in Bldg. 19-1, has received 28 suggestion awards since joining the company.

# Parkview Nurses Move Into New Home

Among those taking part in dedication services for the Parkview-Methodist School of Nursing Sunday, May 2, were three student nurses who are daughters of GE employees. In addition to participating in the services, the girls served as guides taking the public through the modern three-story residence building.

In one of the student rooms, which two girls share, are (l-r): Vancha Wyatt, daughter of Kenneth Wyatt, Taylor St.; Lois Tustison, daughter of Paul Tustison, guard at the East Broadway gate, and Kathryn Vorholzer, daughter of Philip Vorholzer, Bldg. 10-1.

Shown at right, the three girls take advantage of the facilities offered in the newly decorated recreation room.

## TOOL BITS

by Howard Demsey

Wilson Garman has received many altered versions of his picture which appeared in last week's GE NEWS. As a Republican precinct committeeman, Willie claims that altering his picture will never make him alter his politics. . . . Kurt Martin has been very excited over his new TV set. He hardly even noticed that he was sitting on a two-pronged pin while viewing TV the other night. . . . Archie Gwaltney hammered so hard on a spoke that the hammer bounced, hitting him on the nose, and nearly knocked him out. . . . Last week we reported that Woody Hursh got lots of fresh air and no fish on a fishing expedition and this week we can add Myrwood Dunlap to the fresh air club. . . . Ed France is planning on putting all kinds and colors of tomatoes in his garden this year so when you put in your orders be sure to specify color and size. . . . Mervil Lowden needs some landscaping advice to help him plant the right kinds of trees and shrubs at the right time. In order to narrow down the field of advisors for Merv we will add that all prospective landscapers should come equipped with shovels. . . . We wish to express our sympathy to Kenny Smith on the death of his father last week. . . . Kenneth Brown visited Hamilton, Ohio, over the week-end. . . . Congratulations to Mr. and Mrs. Gerald Gambel on the birth of their fourth child, a nine and a half pound boy. . . . We all wish Clayton Raquet a speedy recovery. He had a heart attack while visiting in Chicago over the week-end and will probably be in a hospital there for three or four weeks. . . . Norm Jackemeyer found he had a seven cylinder 1954 Ford for a while when a distributor wire wasn't making contact. If all those stories of your smooth-running new car were with one cylinder missing, you must be floating on a cloud

now, Norm. . . . Two of our best known sidewalk engineers, Bud Dunlap and Carl Einsiedel, were seen checking on the pouring of concrete at the new parking lot. . . . Julius Doster is buying wholesale quantities of soup, Jello, and other soft foods since he left his teeth at the dentist's office. Speaking of teeth, or rather no teeth, Frank Druhot brought in a teething ring for Charlie Abbot who is also gumming things up, but Frank wound up wearing it tied to the back of his coat on the way

home. . . . When a friend stopped at Chet Reynold's house last Saturday evening with two big bags of mushrooms, Chet suddenly got the mushroom-hunting fever. At 5:30 Sunday morning he was the first one in the mushroom pasture and got himself two messes. One mess was mushrooms and the other was the one he was in when he got back to his car and found a flat tire. . . . Swede Mosser and son also went after mushrooms the other day but Swede's woodsman's instinct wasn't up to par that day

and they had to settle for a bag of dandelion greens. . . . Geneva's loss is Decatur's gain. Norman Koons, an apprentice in the lathe section, moved to Decatur last Saturday. . . . Anyone who likes rhubarb sauce should not delay in contacting Louis Paluszak because he only made a gallon of it. . . . The reason for the gloom around the west end of Roy Paulson's section is that Henry Wittber is parting with his faithful old Chevy. . . . We all hope Glenn Kline gets well soon and comes back to work.

## SMOKEHOUSE SAYINGS

BLDG. 22

by George Winans

We all want to wish a speedy recovery to Mrs. Dan Ferguson. Get well wishes also go to Dugan, our sanitary engineer, who sprained his back carrying that heavy plunger around. . . . Arnold Schieferstien had quite a time the other night putting a wrapper on one of those round stator frames. He pried and he hammered; he grunted and groaned. At last he succeeded, but when he had finished, he couldn't straighten up. No, he didn't have a crick in his back. He had his apron fast under the wrapper. It was a good thing that he didn't have a necktie on. He might have choked to death. . . . We understand that Johnny Berger is quite a fisherman. We hear by the grapevine that he caught 33 bluegills, ranging from two to three feet in length. His wife fried one for supper the other evening and used up a three-pound can of Spry. . . . Eugene Miller bought a new pair of safety shoes last week and when the quitting whistle blew he took off for home with the shoe box under his arm. When he opened his package he had one shoe and a block of wood. . . . Kenny Evans went to the Supermarket the other evening and being a wise and thrifty shopper, he got a whole cart full of bargains. He didn't take them home though. It seems that he forgot his wallet. . . . Poor Elma Newhard! She got a blood test the other day and it seems that her veins are tiny and hard to find. Her arms have more holes in them than window screen. She was afraid to take a drink of water, for fear she would look like a lawn sprinkler. . . . What's this we hear about Carl Schafianski putting sand burrs on Pappy Wright?

CITY FIREMEN demonstrated the E&J resuscitator used by the Fort Wayne Fire Department to members of one of the First-Aid classes conducted at the GE Club. At left is Ethel Shroyer, Bldg. 26-2, instructor of the course. Edward Loraine, private from Engine House No. 5, and Harold Roenke, district chief from Engine House No. 4, presented the demonstration.

# Morris-Meyer Quintet Takes Honors In Champion of Champions Tourney

by Joe Kramer

With pace setting scores of 3059 and 2924 the Morris-Meyer team of the Saturday Owl League and Old Crown team of the Ladies' Friday Night League took first place honors in the Champion of Champions Tournament Monday, May 3.

Winning over 11 other teams, the Morris-Meyer men's quintet tallied their 3059 with a 426 pin handicap. Charlie Wilt was the big gun, rolling a 593 series on games of 178, 178,

## Little League Roster Short Five As Team Tryouts Get Under Way

Tryouts for the Hamilton Park Little League in which GE sponsors a team got under way Saturday, May 1, and will continue for the next three Saturdays, Charlie Wilt, GE team manager, reported this week.

Application blanks have been distributed to schools in the Hamilton Park area and these should be filled in and taken to the park by all boys who wish to try out for a place on one of the four teams in the league.

Wilt stated that the GE team needs one 12-year-old, three 11-year-olds, and one 10-year-old to complete this year's roster. Each team has 15 boys in uniform. To be eligible boys must be at least nine years old by July 31 and not more than 12 years old by the same date. Each team has a percentage from each age bracket.

Assisting the manager this year

will be the following coaches, Perry Esterline, Bldg. 4-4; Bob Guingrich, Bldg. 8-2, and Sam Macy, Bldg. 26-4.

The other three teams in the league are Patterson-Fletcher, Inca, and Allen Dairy. In the area there are a total of nine leagues and 36 teams.

Officers of the Hamilton Park League are: Lee Harter, P-F, president; Wilt, GE, vice president; Earl Smith, Inca, secretary, and Ben Vannatta, AD, treasurer.

## ECHOES from 19-2

by Fred McIntyre

Beware of Ray Wiese's purpose if he asks you to accompany him on a fishing trip. He asked a certain foreman in Bldg. 19-2 to go fishing with him for the sole purpose of rowing the boat. When the man refused, he asked someone else. The result was one sucker to row the boat, one bass, and two bluegill caught. . . . Belated birthday greetings to Dewey Wickliffe and greetings to Edna Etzler. . . . Good luck to Eileen Gault and Ann Fairbanks, who are receiving transfers to new jobs. . . . Frank Bitsberger is visiting his son in New York, who is soon to leave for Japan to further continue his work in the missionary field. . . . Glen Baker has returned to work after spending a week with his brother-in-law fishing on the St. Lawrence River. . . . Anthony Lupe, who is a patient at the Veterans' Hospital, has been reported taking a rest cure at the insistence of his attending physician. . . . Martha Musselman is beginning to enjoy quite a bit of celebration in circles wider than just the confinement within the walls of Bldg. 19-2.

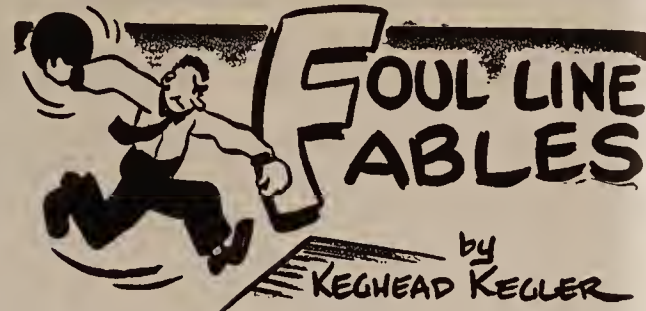

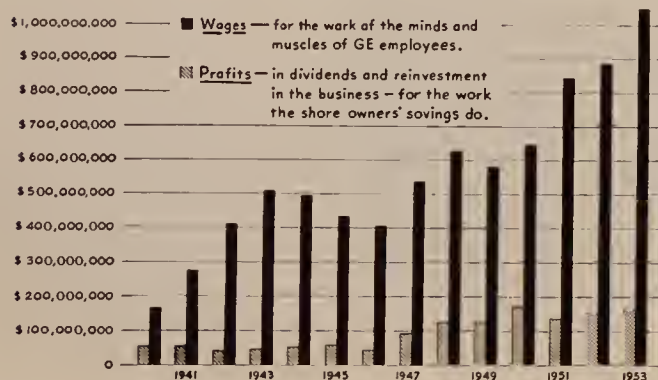

Cliff Milnor's column had quite an item about Martha's adopting a motherless baby rabbit, which she is raising to become a full-sized citizen. . . . A member of the sheriff's department paid Glen Baker a visit recently, not to arrest him, but to notify him that he had been selected to serve as a juror on the grand jury if it convenes in a certain period. . . . Definition of Golf: Golf is a game where a ball, one and one-half inches in diameter, is placed on another ball, 8,000 miles in diameter. The object is to strike the small ball, but not the large one.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

Our congratulations and best wishes to our new bridegroom, Cletus Harper, who was married recently. . . . The welcome mat is out for Laura Shank and Emma Henrich, who have come on the day trick, and Billy Whitton and Virginia Worley, who have returned to work. . . . Tommy Williams, Ethel Kintz, and Emma Vaughn bowled in Coldwater,

## PAY for TWO KINDS of WORK

Thanks to Gary Schultz's 268 the Stators in the Men's Factory League were able to salvage the one important game from the Flanges which gave them a one game lead and the championship for the second half. The Flanges (winner of the first half) finished in second place, one game ahead of

## COUNT OFF SECTION 417 TAYLOR ST.

by Ruby Stoops

Velma Reeter attended her sister Esther's wedding last week. . . . We wish Andy Woods a speedy recovery. . . . Laura Gerber drove with friends Sunday to Berne, Ind., Celina, Ohio, and Van Wert, Ohio. . . . We welcome Claude Mudd in Ralph Keller's section. . . . Congratulations to Mr. and Mrs. Melvin Payne, who celebrated their 30th wedding anniversary. They have three children and two grandchildren. Melvin also celebrated his birthday that day, May 1. . . . Happy birthday to Florence Minnick and Oral Emerick. Oral tells us the records show he was born on the 30th instead of the 29th. Oh well, celebrate two days, Oral! . . . Bernie Warner hit the bargain counter Saturday. She attended a bazaar where they had pie for a nickel, cake for ten cents, and a whole movie for a nickel. Bernie said, "I had as much fun as the kids!" . . . Betty Bertsch and Mae LeBold had stators stacked very high and Betty said, "Gee, it looks like we are working behind iron curtains."

GE Fraternal With one session to go River-view Gardens cinched the second half title by sweeping three games from K. of C. West End Restaurant took two from GE Club and broke the tie for second place as Teeple Truck Lines slipped to third by losing two to Monroeville. Peterson Elevator edged by Elks into fourth place by taking two out of three. Three keggers rolled into the charmed 600 circle: J. Hobbs, 621 (213-198-210); A. Zelt, 615 (214-189-212); and G. Laurent, 610 (211-195-204). 200 scores were rolled by: R. Mutscher, 234-204; H. Strickler, 214; L. Ulman, 210-214; K. Bauserman, 210; C. McIntosh, 202; J. Beery, 203; W. Petrie, 202; E. Faulkner, 210; R. Lord, 203; P. Briede, 201; C. Strickler, 205; R. Werling, 202; and A. Buuck, 223.

GE Women's League The league-leading Last Frames increased their lead by swamping the third place Spares all three games. Kukelhan's 186 was tops for the leaders while Engle rolled a 186 for the losing cause. The second place Hi-Spots captured two from the last place Office. Other high scores were: Myers, 174; A. Reynolds, 176; McDonald, 163; and Kleinhenz, 163.

## 2-2 TALES

by Belle Buchan

The Birthday Club was entertained by Barbara Houser with a come-as-you-are party. It was just pure luck that none of the girls were taking a bath when called, but some of them were in bed, so they got a chance to show off their cute pajamas. . . . John Magley was seen carrying a box of tags for Ginny Philo and either the weight or the privilege was too much for John for the next day he was ill. . . . Can you imagine opening up your mail in this warm May weather and finding a Christmas card from your foreman? You wouldn't know if it was a belated 1953 card or an advanced 1954. Either way, you would still wonder. That is why all of the girls in Bldg. 17-3 are looking at Charlie Rice a little dubiously, and you can't blame them much. . . . Vern Castle can keep a secret. He was driving his new Pontiac around for a week before we knew about it. It's pretty snazzy, too, especially with his pretty daughter at the wheel. . . . We are a little late, but still very sorry that Jenny Hey lost her father. Please accept our sympathies. . . . Welcome to the office, Walt Kryder, who has accepted a job with the planning section.

## PONY League Tryouts Start; Need Coaches

Pony League try-outs will get under way tomorrow at Lawton Park, Ed Mosley, manager, reported today. The GE Club sponsored team will play in the North League of the city. Mosley reports that there are five or six returning veterans to the team this year.

The second series of try-outs are slated for Saturday, May 15. Pony League teams are composed of boys 13 and 14-year old boys. The GE team came in third in the league last year.

Any men interested in serving as coaches in the Pony League are urged to contact Mosley on Ext. 723.

Mich., over the week-end. . . . We hate to say good-by to the winders, who are leaving us: Wanda Scare, Nadeene Reeve, Marjorie Ford, Glendola Barnett, and Phyllis Aumiller. Maxine Cavender is working second trick. Hurry back, girls. . . . Ruby Stucky hopes the nice weather is here to stay, for they have their pier out and the cottage all ready for summer. Any volunteers to help her with her spring housecleaning at home? . . . We know time flies but Jean Mathias thought the week was over on Wednesday and put her card in the box. Then she wondered why she couldn't find it in the rack the next morning. . . . Chet Carey was embarrassed the other day when he got a splinter in his finger and tried to get it out with his teeth. Then he remembered, no teeth anymore. . . . Kate Biltz made a special trip to see a new car that somebody told her Libera had ordered from a Butler garage only to find it was all a joke on her. Maybe you can see it at the Coliseum May 15.

# GE'ers Honored with Wise Owls Awards

## SPECIALTY MOTORS Shipping—Receiving—Order Service

by Mabel Fisher

Friday, the office presented Carol Taube with a lovely gift. Each of us wishes her good luck. Come back to see us, Carol. . . . Evelyn Kissinger reports smelt fishing was very good last week in spite of the cold rainy weather. We wonder just how much Floyd Brown thought of the fish Evelyn gave him. . . . My apology to Gertrude Koldewey for omitting your name from the group who attended the shower for Carol Taube at Ruth Bentz' home. . . . Eva Westrick treated us to some lovely chocolate candy Monday in honor of her birthday. . . . Happy birthday to George Michael, Jean Nebel, Paul Richter, and John Brothers.

## 17-3 NEWSIES

by Wilhelmina Beeth

MERRY CHRISTMAS, everybody. No, we aren't "catawampus." It is Charlie Rice. The girls on Charlie's line received Christmas cards last week. . . . Congratulations on the pink-bootied addition at the Ewing and Betty Collier home. The mama was a former co-worker. . . . Floetta Zartman just knows that her new little granddaughter is a hillbilly, because she doesn't want her feet covered. . . . Sunday is Mother's Day. Let's not forget our "Queen for a day." . . . Are you a little behind in your mending? Orville Kaufman might give you a lift. He was seen darning his socks the other day. . . . We light another candle on the cake and wish a happy birthday to Helen Biddle, Virginia Herbst, and Opal Sample. . . . Louie Hoffman finds that two minutes can be expensive, especially when you get a pink ticket for overtime parking. . . . A couple of weeks ago Lorena Buuck received a parking ticket. Last Monday she should have had one for unparking. She breezed into the parking lot and backed into place right over the 8x8's. It took quite a few muscled people to help her out that evening. . . . Mary Wright, Joe Matter, and their husbands went to the Kentucky Derby. Anything on Determined? . . . We bid farewell to Doris Hewes, who will be busy making tiny garments. . . . Something new: Fish with feathers! Virginia Pelz was telling about Ed going fishing. She put them in the refrigerator and the next morning they were frozen stiff, feathers and all. . . . We are still wondering what Laura Starner did with five dozen bananas. . . . Glad to see Naomi Robinson ringing in her clock card again. . . . Congratulations to Luella Mason on her 13th wedding anniversary. . . . Line 4 is bidding Walter Kryder farewell this week. We wish you the best of luck in your new job. . . . Vickie Clayton doesn't like just plain gum. She wants bubble gum so that she can blow bubbles. . . . Doris Ryan has quite a time with her can for carrying old gloves. . . . A former co-worker now in the service would like to hear from us. His address is:

Rodolfo D. Casiano AF16312488  
Flight 3242, 3669 B.M.T.S.  
Sampson Air Force Base  
New York, New York.

Eight employees were among those honored at the 11th annual Northeastern Indiana Safety Conference and Exposition last week at the Chamber of Commerce. The eight men received Wise Owl certificates and pins and became members of the Wise Owl Club for preventing injury to their eyes

PAUL GREENLEE, Winter St., earned his Wise Owl award while he was working in Bldg. 17-2 last year. He shows the safety glasses he was wearing when a piece of metal struck them.

through the use of safety glasses on the job during the past year. The awards are sponsored by the National Society for the Prevention of Blindness.

The eight men are: Paul Greenlee, Winter St.; Charles E. Foulks, Winter St.; LeRoy Heintzelman, Taylor St.; Benjamin Miller, Taylor St.; Delvia Stickler, Bldg. 19-4; Frances Nelson, Bldg. 26-3; Anthony Wichman, Bldg. 19-1, and Erwin Juergens, Bldg. 22.

Included in the two-day conference were 25 exhibits of safety appliances and materials. Guest speakers at this year's event included A. M. Baltzer, director of the small business and association program of the Industrial Department of the National Safety Council, and Raymond D. Harvey, of the Safety Division of the Ford Motor Co.

TAYLOR ST. WISE OWL CLUB members are Benjamin Miller and LeRoy Heintzelman, both of Section 113.

HAPPY about becoming Wise Owls by saving their eyesight are Charles Foulks, Winter St., and Delvia Stickler, Bldg. 19-4.

SAFETY MINDED TRIO who received Wise Owl certificates last week are (l-r): Anthony Wichman, Bldg. 19-1; Erwin Juergens, Bldg. 22, and Frances Nelson, Bldg. 26-3.

## SHAFT SHAVINGS BLDG. 19-3

by Blanche Cowell

Jerry Stanger should take care of his business a little better. He was given a parking ticket a few weeks ago at Auburn, but instead of paying it he threw it away. Two weeks later, Jerry's wife was digging dandelions at their lake cottage and found it. Jerry, the saying goes "Your sins will find you out." . . . The game must be too tame for Ed Lepper. He has quit playing euchre at noon. He says he is too good a player for the boys. . . . Whose business was Ralph Ayers in? Or is he just nosy? Anyway he is sporting a nice red beak. He says it is caused by a boil. . . . Toni Wichman was hob-nobbing with the brass Tuesday evening. He had dinner at the Chamber of Commerce with Mr. McCormick and others and received the Wise Owl award for wearing his safety glasses, thus preventing a serious eye injury. . . . What was wrong with Doug Heckman last Friday? You should carry a spare pair of overalls in case of emergency, Doug. . . . There was a

long line of traffic at Columbia and Barr Streets the other evening. Horns were blowing and there at the front of the line it was reported sat Kenneth Handschy. What were you doing Kenny, day-dreaming? . . . Happy birthday to Harry Skevington. He now says he is the same age as Jack Benny. . . . Hugo White and Cliff Mugg furnished tea and crumpets the other afternoon for Elmer Schoenlein. "What, with the price of coffee now, tea will do," they said. The boys in maintenance would like to know why Harold Misegades' back is always to the camera when he has his picture taken. . . . Anyone needing help getting into a locked house with just one upstairs window unlocked, contact Paul Lichtsinn. . . . Henry Becker is working on a combination seat and bed for his car so he can sleep while his wife drives when they go on trips. . . . With the weather getting nice we probably will see Bill Gallmeyer getting his motorcycle out. . . . We welcome Albert Penrod back to the detail section, west end. The common denominator of friendship is a smile.

You get credit for what you finish—not what you start.

## SPOT LIGHTS BLDG. 4-2

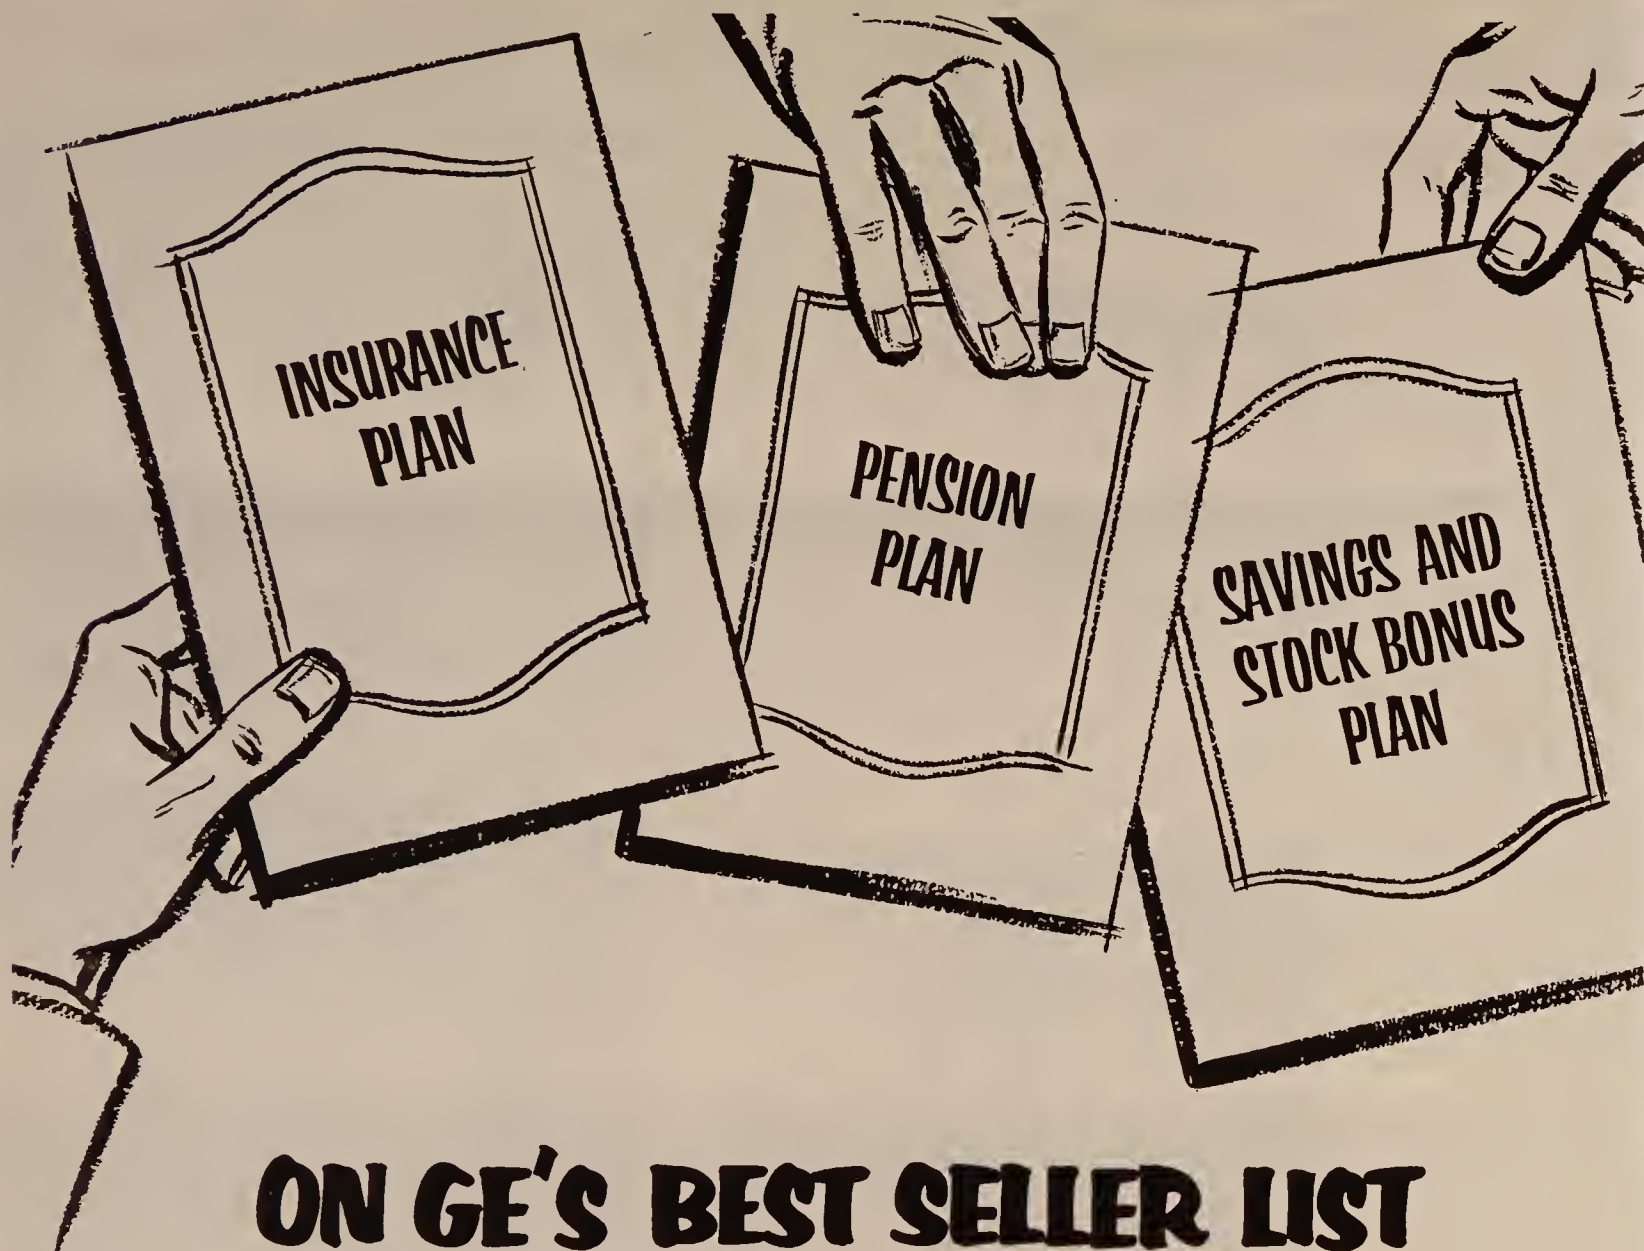

by Estella Pettibone

The children in Jake Harshman's neighborhood had learned to make stilts, but they could not walk on them. Jake became their instructor. He had no trouble at all, walking on the grass. They wanted to see him walk up the cement steps and Jake attempted it, but found he should have stopped while he was their hero. . . . Ray Lepper cannot resist listening to Liberace play the piano, although he does not share his family's appreciation of watching him. He solved the problem by going to bed, leaving his door open, and letting the music lull him to sleep. . . . Ralph Pettit and Verg Allmandinger are the two reported successful fishermen. Verg caught pike, and Ralph, carp. While Verg's were good eating the carp proved to be good entertainers for the Pettit grandchildren. They spent the evening watching them swim in a tub. . . . Mark Brindle thought he was confused in the days of the week because Mary Tucker came to work wearing a blue dress last

Friday. Usually he knows it is Friday because Mary, Joan France, and Bessie Potts wear their red bowling dresses. . . . We are happy to see Vern Boyers is able to be back again. . . . To Opal Runyon we wish a speedy recovery. . . . Friday night the fellows had a party at the American Legion Home in Waynedale in honor of Bill Schuler. Bill was so quiet the fellows are wondering if he was feeling low because he is leaving them or if Mrs. Schuler had given him orders to be of very good conduct since the party was for him? The party progressed with fun, surprises, and disappointments. Frank Gamec was lost without Bill Walt for a euchre game. True Sheets stole the spotlight in vocal numbers from Joe Trentadue and John Wilson. John couldn't sing because "Tiny" wasn't there. Joe did not get to be an individualist. Sheets did so well that it took both Earl Gebert and Ed Sunday in duets to accompany him on the piano.

A youngster being called down for a poor report card, asked: "What do you think the trouble with me is, Dad—heredity or environment?"

## ON GE'S BEST SELLER LIST

- GE INSURANCE PLAN
- GE PENSION PLAN
- GE SAVINGS & STOCK BONUS PLAN

About 98 per cent of all employees are enrolled in the GE Insurance Plan.

Of all eligible employees, about 92 per cent are preparing for retirement under the GE Pension Plan.

About 84,000 employees are buying bonds under the GE Savings and Stock Bonus Plan.

These are three solid sellers that have been in demand for years.

Make sure that you are enrolled in all three plans. They're excellent plans around which to build your own *Program for Security*.

BOAT—16 ft. metal, fair condition, \$10. A-60951.

TABLE CLOTH—Grocheted, and crocheted bedspread, both like new. H-69601 Sat. or Sun.

BICYCLE—Boy's 16-in. Schwinn bicycle with chrome wheels, balance wheels included, used very little. Twin wash tubs, \$4. White enamel, toilet seat, \$1. H-48024.

LIVING ROOM SUITE—Brown mohair, \$25. Chaise lounge and matching chair, \$20. Rayco over, never used, \$35. Philco console radio, \$10. 348 W. Wildwood.

PLAY PEN—With upraised wooden floor and plastic teething rail, \$7. Pink nursery training chair, folds to stepping stool, \$2.50. Safety car seat, \$2. H-77620.

PUPPIES—8 wks. old, three-fourths Cocker, one-fourth Terrier, \$2 each. H-78388.

STOVE—Hotpoint electric stove, \$35. Child's Scrapper tractor, \$5. H-57155.

SUIT—Gray wool dressmaker suit, worn once, 1 black crepe, 1 aqua, all size 12. A-36333.

ANTENNA—Finco antenna and rotor, \$40. H-37001.

GAR—1948 Plymouth Special Deluxe, 2-door, radio and heater. H-17095.

BOAT—18-ft. inboard utility boat, 90 hp. Will sell for less than a well equipped outboard. 1554 N. Jefferson St., Huntington, Ind.

SCREEN DOORS—32 x 80 in. and 36 x 85 in. A-59544.

STOVE—Apt. size and 36 in. gas stoves, like new, \$38 each. A-33645.

LAWN MOWER—Power lawn mower. A-75951.

DAVENPORT—Hi-Lo davenport bed, innerspring mattress, reasonable. H-79703.

RUG—Axminster rug, 8 1/4 x 10 1/2, good condition, \$5. H-20364.

BICYCLE—26-in. girl's bicycle, excellent condition, \$25. K-3903.

RUMMAGE—Private sale, some very good rummage. H-83843.

POWER MOWER—2 yrs. old, \$45. Work table, iron frame, wood top, 24 x 24, \$5. Chrome dinette set, extra large table. Floor and table lamps plus shades. Goffe table. H-9852.

LUGGAGE CARRIER—For top of auto, with canvas cover. Formica chrome breakfast set. Two-piece, mohair frieze, living room suite. H-46072.

BED—Almost new, single Hollywood bed. H-75182.

STOVE—Deluxe electric stove, Norge, \$35. Goffee table, smoking and magazine stand; window blinds, 6 standard, 1 large; four fence posts; heavy lumber. H-82012. 1121 Hamilton Ave.

CULTIVATOR—Garden cultivator; antique walnut fruit safe; bathnetette; Schick electric razor; very reasonable. E-5909.

OUTBOARD MOTOR—Champion, 3.5 hp., \$25. Lawn mower, 2 yrs. old, \$8. A-95971.

LIVING ROOM SUITE—End tables, lamps, \$50. H-02071.

STROLLER—Baby stroller, \$6. Good condition. H-91461.

GOTTAGE—Modern cottage, west side of Atwood Lake, 3 mi. west of Wolcottville, extra lot, No. 8. Will be at cottage Sat. and Sun., May 8 and 9.

SUMP PUMP—Practically new, \$40. 26-in. bicycle, good condition, \$10. A-99160.

RUG—9 x 12 rug with pad. Two throw rugs to match, \$35. H-60262.

### FOR RENT

APARTMENT—Three rooms. E-2330.

ROOMS—Private entrance, newly decorated and furnished, prefer girls, nice location, near Broadway, 916 Jackson St. E-1656.

APARTMENT—Furnished apartment, one room and kitchenette. Prefer middle-aged or elderly lady, \$10 week, 1307 Scott Ave. K-3764.

ROOM—Sleeping room with light housekeeping privileges, 333 N. Cornell Circle. 1 or 2 adults. H-0662.

COTTAGE—Very nice, modern, log cabin cottage at Big Lone Lake. Available second week of GE's vacation and July 10 to 17. H-0662.

APARTMENT—Unfurnished, lovely, 3-room, lower, carpeted, Venetian blinds, gas range, all utilities furnished, south, close to bus, \$16 wk. E-66783.

APARTMENTS—2-room and 3-room, northwest, suburban, modern, 10 minute drive from GE. H-1849.

HOME—Owner will share home to a reliable couple, pleasant surroundings, 5 rooms and bath, Catholic preferred. A-3724.

APARTMENTS—One apartment, upper 3 rooms, dinette, private bath, front porch, stove, refrigerator, heat, water furnished, residential district. Other apartment, upper 3 rooms, private bath, Murphy bed, heat and water furnished, newly decorated, close to GE. H-1533.

APARTMENT—Two-room furnished, private entrance, utilities furnished, close to transportation. H-20832.

### TRANSPORTATION

RIDE WANTED—From Highland Drive between Paulding and Tillman Road, west of U. S. 27 to Broadway, first shift. H-64050 or Ext. 356.

RIDE WANTED—Three mi. north of Poe on Muldon Rd. to Taylor St., second shift. 2 longs, 2 shorts on line 35 or Ext. 2635.

RIDERS WANTED—From Lisbon on Rd. 3 to Broadway or Taylor St., first shift. Ollie Ragan, Kendallville 1092 ring 4 evenings or Ext. 2429.

RIDE WANTED—From Garrett to Broadway, 8 to 4:36 p.m. Ext. 770 or Garrett 3663.

RIDERS WANTED—To form car pool from Waynedale to Broadway, 7 to 3:30 shift. See Munster, 3002 MacArthur, Apt. 4 or Ext. 2176.

### WANTED

LAWNS—To mow in vicinity of 2100 Courtland Ave., high school boy. A-36333.

CULTIVATOR—Garden cultivator, one-fourth hp., Capacitor motor. A-78163.

PIANO—Good, used, Spinet piano, reasonable. A-40321.

DOG HOUSE—For small dog, reasonably good condition. E-72371.

COTTAGE—Lake cottage. Have \$500 for down payment. E-66561.

SPRAYER—To spray fruit trees. Gilts. A-96443.

TYPEWRITER—Good condition, prefer Royal. E-63188.

SOFA—Sofa bed, green, rust, or brown. H-60671.

PIANO—Spinet piano in good condition. A-99713.

PUMP—Water, shallow-well pump. A-2716.

### THANK YOU

I want to thank all my friends and co-workers for the lovely gift they gave me at my retirement.—Samuel F. Houser.

We wish to thank our many friends for your expressions of kindness and sympathy at the death of our husband and father. The Robert N. Hoffman family.

"And now," said the sales manager, after distributing nylons at a sales meeting, "I think you will be interested to know that we have sent each of your wives a card announcing that these nylons have been sent to them."

"Wait a minute," shouted a voice from the rear, "I've given you the wrong address."

## RAconteur

### SECTION 114 TAYLOR ST.

by Luana Oehlaffen

Margaret Cowan and her daughter, Nancy, attended the Kentucky Derby in Louisville, Saturday. . . . Vern Daseler, who thrives on playing golf in the summer, keeps insisting that it is the weather, not his wife's housecleaning chores that keeps him from getting his first game in. . . . From what we heard, some of our boys really lived it up at Lake Barbee the other week-end. Paul Clendenen caught four bass with those five-cent night crawlers he used. The other fellows used free ones and didn't get any at all. We wonder if Hugh Neely uses a Better Homes and Gardens cook book. Hugh did all the cooking at the lake and the fellows all came back five pounds heavier. . . . We can't understand why Carl Reynolds doesn't appreciate the bouquets that are left on his desk by a secret admirer. . . . Stan Stocki spent last week-end in Chicago. . . . Mr. and Mrs. Eldon Bell traveled to Camp Carson, Colorado, to visit their son. . . . Happy birthday to Vern Daseler. . . . Welcome to Section 114 to Ronald Ross. We hope you will like it. . . . Irv Korte wants to know where that autograph is that Bob Duras promised him if Korte's team won the Roll-Off. . . . Walt Niemeyer used his old ball for luck Thursday night and rolled a 100. He changed balls. . . . Fred (Old Goat) Vogt and Walt (Old Man) Niemeyer are friends again. We know Mike Brayer will be happy to hear this. . . . Ed Hines is reported saving his money to journey to Texas to see the gal with the 17-room house and the oil wells. . . . May 30 will be a magic day for the Duke of Waynedale, as he is being married that day. Duke says the weeks are getting longer and longer. . . . The noon euchre games in the tool room have lost their fire. How about a skunk to get things started again? . . . We wish to welcome Dick Verhoeven, our new apprentice, to the tool room. Good-by and good luck to Gene Bair, who left us to go back to the Apprentice School. . . . Theron Kitchen passed another milestone in his life last week when his daughter was married. Kitch says everything "came off without a hitch" except he didn't get a cigar. . . . Bill Lavine is open for suggestions on how to build a house quick or pitch a tent. He sold his old house before he started building a new one, and now he has no place to live. That's putting the cart before the horse, isn't it,

Bill? . . . Johnny Holloway was all ready for church Easter Sunday when he discovered the T-shirt he had under his white shirt had YMCA written on it in big red letters. . . . Oscar Fleming forgot his apron Monday and had to borrow one from Rosie Koons. "My goodness," he looked sweet. . . . G'bye to Mildred Runkle who is going back on nights. . . . Art Bear, who has been repairing clocks for the last 10 years, has a problem. Who is the person who ordered an old-fashioned kitchen clock? Art can't remember and neither can the man who ordered it. . . . Bob Lauer has returned to work after an absence of three months. Glad to have you back, Bob.

## SLEUTHING in 4-6

by Al Happel

HAPPY BIRTHDAY to Shorty Poyser, May 7, and Georgia Garrett on May 12. Incidentally, did you know that Shorty Poyser had a little accident last week-end while hunting mushrooms in the woods? It was a rather painful excursion we think, but did you get any mushrooms? . . . STICKY MONEY? And what was E. M. Stanberry doing with that tube of glyptal? "He had his billfold out doing some repair work," he said, but we aren't sure. It could be he wanted to make certain that certain greenbacks didn't get away. . . . A VISITOR. We were happy to see Wilma Kirby Mitzenious again. Wilma lives in Denver, Colorado, but stopped in to say, "Hello," while visiting her folks in Indiana. . . . HELLO to our sick people, Shirley Doster and Lowell MacLaughlin. Hurry up and get well. . . . WEDDING BELLS rang last week for Alma Shenefield. She became Mrs. Alan G. Cox on April 24 in the Methodist Church of Angola, Ind. May you have many, many, many happy years of wedded bliss. We would also like to extend our best wishes and congratulations to Mr. and Mrs. Bruce A. Curley, who were married last week-end. . . . A LITTLE RICHEY. To be more exact, David Brent Richey, weight 7 lbs. 12 ozs. joined the family circle of Mr. and Mrs. Robert Richey. You will all remember Mrs. Richey as our Ruth Oetting Richey. Congratulations to the proud parents. . . . WELCOME to Darwin L. Seamons, new TE in Jim Walley's group. Darwin is married and is a 1953 graduate of Utah State Agricultural College, with a BSEE. His home town is Hyde Park, Utah. This is his fourth test. He likes basketball and baseball. . . . HAPPY BIRTHDAY to Ed Schulz on May 11. . . . WE ARE HAPPY to know that John McMillan is off test now and will work for Mr. C. J. Herman. . . . ONE MORE has joined the club. John McMillan has joined the Short Hair Cut Club. He really got his money's worth when he got his hair cut. He says that should last him all year or at least until winter time. . . . If anyone would like to learn something about golf, see Harold Dimke, Cliff Denney, or Skeets Lahman. They will teach golf for a slight fee. All three of them teach one person and split the money. Also, if anyone would like to take lessons in putting, please contact Wally Clayton. He was a well-known golfer in his day. Incidentally, please don't forget, you golfers who wish to take free lessons from Wally, don't do as he says, but do the opposite. We heard that Wally had a 20 ft. putt and missed it three times last Saturday. Is that right, Wally? Was it pressure, Wally? We always thought you were a pressure golfer.

"There now, you don't notice it so much since I let the air out of the other three"

**FWAGEE ANNUAL MEETING**—James F. Young, engineering surveys and studies consultant, Engineering Services Division, New York, was principal speaker at the annual meeting of the Fort Wayne Association of General Electric Engineers Thursday, April 29. He discusses his topic, "Engineering Planning," with members of the association.

## PICK-UPS from 26-3

by Maxine Jordan

Congratulations to Levi Carpenter, our test leader, on his 25th anniversary with General Electric Company. . . . Wedding bells rang last Saturday, April 24, for Georgia Laurent. Congratulations and best wishes, Mr. and Mrs. Robert Doyle. . . . We wish a speedy recovery to Irene Huey, who was released from the hospital recently, and also to Doreas Colbert, who is a patient at Lutheran Hospital. . . . Marie Vastano, a former co-worker, has a new baby daughter. Hearty congratulations to the proud parents. . . . The stacking section held a potluck in honor of Clarence Penick and Dorance Overmyer, who are leaving the floor. . . . Since Art Rall has worked on our floor a number of years you would think he knows his way about, but he

was seen walking down the aisle reading a compass. Later in the day he walked into a column. You guessed it, he didn't have the compass with him. . . . Wonder what Dorothy Fett was thinking about when she asked Whitey Lieberenz where he was when she saw him the other night? A little confusing, eh Dottie? . . . Virgil Buchanan should keep an eye on his grocery cart. He was seen filling his own as well as Lena Forker's cart. . . . That little pink card Louise Lengerich found on her windshield was not a free decoration. It cost her one dollar. . . . You need not ask what color Louise Lengerich painted her kitchen, just look at the spots on her neck and arms. . . . Nancy McCrea's son, Dick, is recovering from surgery in fine shape.

There's one advantage to being married: you can't make a fool of yourself without knowing it.

## California

(Continued from Page 1)

ing reservations. All payments must be completed by July 12 and no cancellations will be accepted after that date, Miss Brumhaugh stated.

The trip will leave Fort Wayne Saturday, July 24 and return Wednesday, Aug. 4. The vacationers will travel through Denver, Pueblo, and Canyon City to the Royal Gorge on Sunday, July 25. The train will take the group through the heart of the Colorado Rockies and make a stop at Reno, Nevada, before crossing into California.

Tuesday, July 27, the tour will arrive in San Francisco and stay at the Palace Hotel. While in that city they will see the Civic Center, Mission Dolores, Twin Peaks, Steinhart Aquarium, residential section, Ocean Beach, Seal Rocks and Cliff House, and Fisherman's Wharf. They will travel over Golden Gate Bridge to Sausalito through thickly wooded canyons to Muir Woods, where giant redwood trees over a thousand years old reach a height of over 300 feet.

The Southern Pacific railroad will take them to Los Angeles Thursday, July 29, where they will stay at the Biltmore Hotel. In the city of the Angels the tourists will see the picture studios, Echo Park, Angelus Temple, Griffith Park, San Fernando Valley, Walt Disney Studio, homes of movie stars and celebrities, as well as Hollywood Bowl. The group will visit a Ghost Town, where they will view many interesting relics of the California Mother Lode country and other replicas of the "True Gold Rush of Early California."

A never-to-be-forgotten trip to Old Mexico is on the agenda. They will cross San Diego Bay by ferry to Coronado and then down the famous Silver Strand to the Mexican border and across to colorful Tijuana, where they will have time for shopping and lunch. Monday, Aug. 2, the group will board the Santa Fe's El Capitan to return home.

All evenings on the trip will be open so that the tourists may select their own entertainment.

Arrangements have been made

**E&PCR SEMINAR**—Discussing the Employee and Plant Community Relations Program at their semi-annual seminar in Fort Wayne last week are three members of the program located here and Louis E. Newman, GE manager of Health and Safety, second from right. Mr. Newman, who was principal speaker at the three-day session, talks with (l-r): Jim Haan and Merrill Hall, both of Bldg. 12-2, and Jack Steel, right, Taylor St.

## 6-4 AIRLINERS

by Moe Satterthwaite

Ed Farrell says he doesn't want his name in the GE NEWS as he sees it too often in the police column. . . . Joan Armstrong claims that she hasn't time to read a newspaper since she came on days so Alma Volz keeps her up to date on Liberace. Joan did manage to get a rinkside seat for the concert. . . . The guys in 2 x 36 are so happy for Henry Platt since

for the group to have private coaches and private dining cars on the trip.

## Squares

(Continued from Page 1)

tials of the membership of that original group—General Electric Graduate Engineers—GE squared.

In 1944 the wives of members formed their GE Squares Wives Club as an auxiliary to the parent organization. They conduct their own programs in addition to taking part in joint activities with Squares members.

Functions of the club are selected to foster and promote the recreational, educational, and social activities of its members.

it's springtime. Now Henry can't complain how cold it is outside. . . . What a contrast! Bill Everhart is a strong Pinky Lee fan while Bill Garton is a Liberace fan. . . . That gal who came dragging herself to work was none other than Ivy Mills. She changed from nights to days last Tuesday. . . . Jackie Keller has done it again. When new fads are started you can bet Jackie will start them. She had her hair restyled and now has bangs. She looks enough like Ishkabibble to be his sister. Bob Pence and Jr. Zollinger combed their hair down in front and they looked like her brothers. . . . Brenda Sue Meyer has taken up residence with Mr. and Mrs. Herb Meyer. She arrived April 16. She won't take up much space, 6 lbs. 6 ozs. Congratulations. . . . Happy birthday to Alma Volz. Congratulations to Andy Anderson. He is now a grandpa. . . . Fritz Krotke is afraid to get his new fishing boat wet, so he rents another boat when he goes fishing. . . . Thelma Wyss doesn't come to town very often, so she always forgets to drop a nickel in the parking meter. I'll bet she remembers next time. . . . Don't forget the dance tomorrow night. . . . Bill Williams has left us for a new assignment in Bloomfield, N. J. . . . Happy birthday to Bud Harwood, Malcolm Hamilton, Alma Volz, Faye Patton, Roxie Miller, Jackie (Bangs) Keller, Pinkie Barnes, Louise Manns, and Marie DeVaux.

The picture at left is believed to be the first photograph of the Quarter Century Club taken August 10, 1916 near Bldg. 18. The QC Club was organized in 1914. Kneeling (l-r) are William Wurtle, Gus Keyser, George Betts, Clark Orr, Robert Harding, E. A. Barnes, William Berman, William Crichton, John Hall, and Fred Miller. In the second row are Eugene F. McLaughlin, Ed Wagoner, and Joseph Schwarzkopf. Standing (l-r) are Fred Keifhaver, Gus Rugge, Ferd Keyser, Sam Brausberger, William Thain, George Woods, Al Hadley, Charles Becker, William Martin, Jack Evans, C. S. Rehner, William Donald, Dick Muhlenbruck, Link Johnson, William N. Raidy, William Murphy, D. D. Meyers, William T. Brennan, William Schultz, Sam Richards, Sam Parker, Stewart Rehner, George Kaiser, and Jake Trautman.

FRIDAY, MAY 14, 1954

No. 19

## Memorial Day Service Slated By War Vets

The annual Memorial Day service conducted by the GE War Veterans Association will take place Friday, May 28, at the Broadway Plant.

Roy Brower, Bldg. 6-4, president, announced that the half-hour service will begin at 12 o'clock noon at the area by Bldg. 19.

### All Vets Take Part

All ex-Servicemen and women who have served in World War I, World War II, or since June 25, 1950 in Korean operations are invited to participate in the observance, the president stated. Any of these persons who are present or former employees and wish to take part in the ceremony are asked to contact Herbert Koch, Bldg. 2-2, Ext. 2768.

All those participating in the service will be asked to wear their uniforms if possible. "We hope to have a complete representation of all branches of the Service in uniform," the president said.

### Legion Honor Guard

The honor guard from American Legion Post 47 will again take part in the observance.

Members of the committee in charge of arrangements in addition to Mr. Brower and Mr. Koch are: Clayton Schultz, retired; Merritt Hartman, Taylor St.; Kenneth Berry, Bldg. 6-4; Carl Rehling, Bldg. 20-2, and Edward Moodie, Taylor St.

**SEEDS FOR Q-C GREEN THUMBS**—Don Brighton, Bldg. 4-4, and Wallace Beer, Bldg. 18-1, get ready to send gourd and pumpkin seeds to 550 retired Quarter Century Club members. A contest will be conducted at the annual outing in September to determine the best gardener among the group on the basis of their entries, which they will grow from the seeds.

## 150 GE Club Athletes to Get Awards at Tuesday Banquet

A total of 150 awards will be presented at the GE Club semi-annual athletic award banquet Tuesday, May 18 in the Club auditorium. Invitations were mailed this week to those eligible for awards, officers, and committee members.

The event will get under way at 6:30 p.m. with the serving

of dinner. Principal speaker will be Hilliard Gates, assistant manager and sports director of radio station WKJG and WKJG-TV.

Winning team members in Inter-department bowling, basketball, and volleyball; Owl industrial basketball, and industrial volleyball will receive awards from Bill Schible, president; Joe Kramer, bowling chairman, and Erv Huth, chairman of athletics.

Persons to be honored will receive major and minor awards which include jackets and wind-breakers with the GE Club insignia on them, belt buckles, and trophies.

### MEMORIAL DAY

All departments and sections of the company operating in Fort Wayne, including leased warehouses, in general, plan to close Monday, May 31, in observance of Memorial Day.

L. C. SWAGER, Manager  
Employee and Plant  
Community Relations.

## Retired Q-C'ers Plan Green Thumb Contest

Plans to give retired Quarter Century Club members an opportunity to display gardening talents took shape this week with the announcement of a "Green Thumb" contest.

In announcing the contest, club officers said that packets of gourd and pumpkin seeds were sent to the 550 retired members this week with a letter explaining the contest. To enter, those who receive the seeds should plant them and then take the gourds and pumpkins they grow to the 1954 annual outing in September.

At that time an exhibition and judging will take place. In the gourd classification, prizes will be awarded for the largest single variety entries and the most attractive group entry. In the pumpkin class, prizes will be presented for the largest pumpkin exhibited, based on weight.

Don Brighton, Bldg. 4-4, is chairman of the contest and is in charge of sending the seeds out. The letter sent with the seeds gives instructions on where, when, and how to plant them. Club officers established the "Order of the Green Thumb" within the club in setting up the contest. They invite retired Q-C members to join the "Order" and have fun.

## Decimal Minute Men Plan Monday Meeting With Guest Speaker

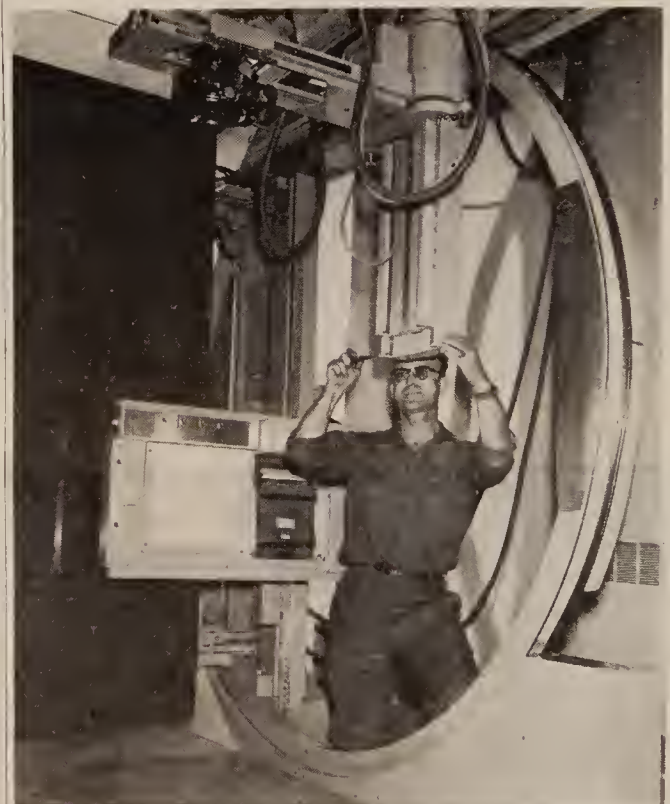

Members of the Decimal Minute Men will conduct a meeting Monday, May 17 at the Chamber of Commerce, Eldon E. Moodie, Bldg. 4-4, president, announced this week. The meeting will begin at 8 p.m.

Guest speaker at the session will be Irene Meyers, Bldg. 18-1. She will discuss the trip to Europe which the Elex Club sponsored last summer. Refreshments and an entertainment program will follow.

Vern Boyer, Bldg. 4-2, is in charge of entertainment for the meeting.

**BOWLING LEAGUE ORPHANS**—The GE Orphans League winners (l-r) are Betty Overman, Frances Oberholtzer, Millie Rietdorf, Carol Telschow, and Loretta Day. The girls called themselves "orphans" because they were unable to bowl in any of the organized leagues. They are still orphans as far as league pictures are concerned. For pictures of other league winners see pages 6 and 7 of this issue.

**GE X-RAY UNIT INSTALLED**—Working on installation of the new GE "swing-around" type of diagnostic X-ray unit at Parkview Memorial Hospital is Charles Gilbert, technician from the Indianapolis office of GE X-Ray Corp. The new unit is called the Imperial Table. (Story page 3.)

### Invisible Product

The good craftsman, who takes pride in the things he makes, is always turning out an invisible product in addition to the one you can see. This invisible yet priceless product is good will.

Everyone has read notices of businesses changing hands which mention a sales price for "building, tools, fixtures and good will." And often the good will is valued more highly than all of the physical assets put together.

Business good will has been defined in court as "The disposition on the part of a customer to return to the place that has treated him well." It isn't any wonder that keen-minded prospective investors count good will as perhaps the most valuable thing a company can own.

In any job you may have—on the production line, in the office, or on the sales force—you have the opportunity to create this vitally important product, good will.

### Cancer

Cancer is a body condition which fear, ignorance and superstition have kept for thousands of years in the dim shadows of Things Not Talked About.

Only recently have intelligent people been willing to talk about it in public, willing to face the facts squarely. Only within the past few years have they determined to do something about it—to protect themselves and their loved ones from needless suffering and premature death.

Cancer is a wild, uncontrolled growth of cells or tissues of the body. (Normal cells are controlled. They stop growing when they reach their maturity and have fulfilled their appointed tasks.) But for reasons yet undiscovered, cancer cells are free from this normal limitation. They continue to grow in a wild, disorganized way. They are lawless "Gangsters" and if not removed or controlled by one of the only three methods of curative treatment now known to medical science, they eventually commit suicide by bringing death to their host.

More and better trained diagnosticians, newer and more suitable equipment for detection and treatment, together with the advanced progress of medical science in cancer research are now responsible for saving thousands of lives each year that would have been lost only a few years ago. This is all very encouraging, but actually we should be saving the lives of 30 to 50 per cent more of these cancer victims, based on the findings of present cancer studies.

Medical research and modern facilities for cancer treatment cannot save the lives of persons who fail to realize their need for help before it is too late. That is why the Cancer Society presses its program of widespread cancer education. Trained workers in the field of cancer know there are three—**And Only Three**—known cures for cancer—but, does the average person know this? Trained workers know that most types of cancer can be cured if detected early and given the proper treatment—but, does the average person know this? Does he accept the old way of thinking, that if cancer DOES strike, there's nothing he can do about it anyway, or does he decide to fortify himself against such a time as cancer might strike, by gathering the true educational facts concerning cancer before it is too late?

Research points the way to positive cancer control, but until this control is accomplished, early detection and adequate treatment are the only weapons we have against this ruthless scourge of humanity. Meanwhile, education and service are the lifeguards which need your support NOW, if unnecessary cancer deaths are to be eliminated.

Service to the sick must continue. The unfortunate person who is ill needs and deserves the kindly services the Cancer Society has to offer. These services are no hit-or-miss methods of private charity. Bandages, dressings, drugs, hospital beds, wheel chairs, and dozens of other articles of necessity and convenience to the cancer patient are supplied by the local Cancer Society. Items of a permanent nature are used over and over, whereas if purchased by the family of the patient are quite expensive and of limited use.

Our local Cancer Society, 714 Fairfield Avenue, can furnish you with life-saving facts concerning cancer. Please call Eastbrook 4447 for information.

A former Bldg. 17-3 employee, Bobby J. Renfro, is stationed at Camp Le Jeune, N. C., where he is a U. S. Marine. He underwent recruit training at Parris Island, S. C. prior to moving to his present address which is:

The following employees have entered the Armed Forces: Richard G. Gerber, Danny Cartan, Charles W. Hathway, Leland L. Reich, Treva J. Smith, Harold D. Dillon, James L. Christle, Mondie Peggins, Jr., Clarence D. Shady, Frederick R. Meyer, Keith B. Guyot, Charles W. Breeden, Rodolfo D. Casiano, Jack D. Patten, and Fredrick A. Shoemaker.

Did you hear about the little moth who got discharged from the army and now he's back in civilian clothes?

### Primer on Communism: No. 4

## How Do Communists Try To Destroy Democracies?

Since their main objectives are destruction of law and representative government, they have a variety of methods. Included are creation of political and racial troubles, manipulation of trade unions and other mass organizations, formation of "front" organizations, undermining existing institutions, espionage and, finally, use of armed force.

Communists are pledged to "have no confidence in bourgeois laws." That means laws of democratic government such as the United States knows it. When law bans Communist activity, Communists are required to function illegally. This is set forth in black and white in the statutes of admission to international communism.

(Adapted from the "Primer on Communism," published by the Anti-Defamation League of B'nai B'rith.)

## GE ON RADIO AND TV

### TELEVISION

**"I MARRIED JOAN"—WKJG-TV.**  
7 p.m. Wednesday  
Starring Joan Davis  
**MEET MR. McNUTLEY—WKJG-TV**  
8 p.m. Friday  
Starring Ray Milland  
**GE THEATER—WKJG-TV.**  
8 p.m. Sunday  
**JANE FROMAN SHOW—WKJG-TV**  
6:30 p.m. Monday

### RADIO

**GATESWAY TO SPORTS—WKJG**  
6:15 p.m. Monday through Fri.  
day, featuring Hilliard Gates.  
**MEET MR. McNUTLEY—WANE**  
8 p.m. Thursday  
Starring Ray Milland in the  
General Electric Comedy Hour.  
**BING CROSBY—WANE**  
7 p.m. Sunday

**LAY THAT PISTOL DOWN!**—Alan Young doesn't want anything to do with bandits or guns, but he gets tangled up with both in the laugh-packed comedy, "Wild Luke's Boy," seen on "The General Electric Theater," Sunday from 8 to 8:30 p.m. over WKJG-TV. Also featured are Steve Conte as the bandit and Mary Young, both seen above.

**ALAN YOUNG STARS IN, "THE GENERAL ELECTRIC THEATER"**—Alan Young plays a timid young man who is forced to live up to the rough and ready reputation of his deceased father in the comedy, "Wild Luke's Boy," on "The General Electric Theater," Sunday, from 8 to 8:30 p.m. (CDT), over the WKJG-TV.

Shy Alan Parker, (Alan Young), arrives in Cattle Flats to visit his Aunt Molly. He finds that his old home town has been taken over by lawless gamblers and gunmen and is badly in need of some of the heroic leadership for which his father, Wild Luke, was famous.

Shortly after his arrival, Alan accidentally captures a bank robber. Against his wild protesta-

tions, the sheriff's badge is promptly pinned on his not-so-manly chest.

Soon Alan finds himself involved in a series of skirmishes with some of the hard-hitten gamblers who are running the town. He even comes through with distinction in the local rodeo. But the real test for the new sheriff is when he comes face to face with a notorious gunman and they engage in a unique and hilariously different kind of a gun duel, with Aunt Molly as a helpful bystander.

"Wild Luke's Boy" was directed by Al Green and produced by Stuart Reynolds for "The General Electric Theater." Next week at this time, The General Electric Company presents June Havoc in "Exit for Margo."

**JOAN DAVIS' PREDICTIONS ON FIRST 10 YEARS OF MARRIED LIFE END IN MAD CLIMAX ON "I MARRIED JOAN"**—It's wise to be cautious when predicting what your married life will be like ten years from your wedding day, as comedy star Joan Davis discovers on the Wednesday, May 19, telecast of "I Married Joan," titled "Predictions," over the NBC television network, at 7 p.m., CDT.

When Joan and Brad (Jim Backus) were married a decade ago they each wrote a list of predictions covering the first 10 years. In this telecast they both visit the first house they ever lived in together to find the list of predictions they had hidden there.

Brad is hurt when he finds that Joan had predicted she would be wearing mink and driving a big car, even though when she married Brad she had passed up a millionaire. To make Brad feel better, Joan has the millionaire, Roger Brook, come visit them. And to make it even more realistic, she has him arrive dressed as a penniless beggar.

The plot is progressing quite satisfactorily until a typical Joan Davis catastrophe ruins everything, ending in a mad climax.

P. J. Wolfson produces the "I Married Joan" series and John Rich is the director.

A kindly gentleman of advanced years encountered a four-year-old standing on the street corner in deep perplexity.

"I want to run away," confided the tot.

"Oh," said the gentleman understandingly, "why don't you?"

"Well," said the perplexed youngster, "I'm not allowed to cross the street."

# Johnnie Parsons to Use GE Two-Way Radio in 500-Mile Classic May 30

The General Electric Company has announced that it will install two-way radio on Johnnie Parsons' Belond Equa-Flow Exhaust Special, entered in this year's Indianapolis 500-mile race classic.

Communication between this mobile radio transmitting and receiving unit and another unit in the Belond pit is expected to bolster the car's performance from both a safety and competitive standpoint. A similar set-up was used in a recent stock car race at Daytona Beach, Fla., with satisfactory results.

The Belond car is expected to be the only Indianapolis entry using two-way radio. The equipment to be installed by General Electric was developed recently for industrial applications and is designed to withstand rough usage. It operates at frequencies above those of a standard broadcast (home entertainment) and is FM rather than AM. The FM operation eliminates interference from such sources as atmospheric conditions and automobile ignition.

For the most part, the radio equipment will eliminate the almost total loss of contact between driver and pit crew during progress of the race. This is especially important on large tracks such as

Indianapolis, where the car is completely out of its pit crew's sight for more than a minute per lap.

The present and most popular means of communication between driver and crew is a blackboard, containing messages written in chalk. Although successful to a degree, this system has its drawbacks. A driver is able to communicate with his crew only as he passes his pit; and then only if he is able to take his eyes from traffic to read the board. The message is often missed.

A radio, on the other hand, permits steady contact even though the car is out of sight. This way, a driver may inform his crew of his progress, tire wear, gas consumption, and other small but important details.

The crew, in turn, keeps the driver informed of his position, rival cars closing in, track conditions, and change of strategy. And, as a crowning factor, the driver

**FIRST TO REGISTER** for the Elex-sponsored trip to California when reservations opened this week were Elizabeth Wert (center) and Ruth Leimenstoll (right), both of Bldg. 17-3. Florence Hargan (left), Sect. 114, Taylor St., first vice president of Elex, signs the two girls up for the trip.

never need take his hands from the wheel, or his eyes from the track.

Actual installation of the unit will take place when the Speedway is opened for early practice. Parsons will be one of the first drivers to take the track in preparation for the May 31 race.

# Fred Holt Named General Manager At Morrison Ill.

H. A. MacKinnon, vice president of the General Electric Company has announced the appointment of Fred H. Holt of Schenectady, N. Y., as general manager of the Appliance Control Department at Morrison, Ill. The appointment was effective May 1, 1954.

Mr. Holt succeeds John C. Heiles, who has been transferred to Mr. MacKinnon's staff at Fort Wayne. Mr. Holt has been manager-marketing of GE's General Purpose Control Department at Schenectady since 1952.

A native of Springfield, Missouri, he was graduated from the Missouri School of Mines in 1935 and joined General Electric as a test engineer that same year.

# New Type GE X-Ray Unit Installed at Parkview

One of the new "swing-around" type of diagnostic X-ray units, which are manufactured by General Electric Company, has been installed at Parkview Memorial Hospital, Donald C. Carner, administrator, announced this week.

The new unit, called the Imperial Table, is based on entirely different principles of engineering design in that the table rotates through 180 degrees on a ring approximately eight feet in diameter instead of angulating on two pivot supports as conventional types do, Mr. Carner stated.

He said that its installation is particularly appropriate at this time because National Hospital Week is now being celebrated with emphasis on the behind-the-scenes activity in a hospital. He pointed out that the X-ray Department is one of the most important parts of the hospital.

This is the first installation of the new X-ray equipment in the State of Indiana. The nearest unit of this type at present is in Chicago.

Medical observers consider the new equipment a complete break with the conventional and they predict that it will eventually become accepted as standard by physicians, particularly radiologists, since it obsoletes previous designs.

Accompanying the X-ray unit is a heavy-duty footstrap supported by the footrest of the X-ray table, which for the first time allows the patient literally to "hang" upside down or at extreme head-down angles without various devices which interfere with fluoroscopy.

The new equipment permits increased fluoroscopic field coverage. Part of this results from use of a table that can be pulled out or pushed back toward the wall. Another aid is a device for making spot films during fluoroscopy in 18 different positions and areas.

An important advantage to the doctor in doing spinal studies, the table can be manipulated from one side to the other without stopping or slowing, unless desired.

# Two Organizations Elect New Officers

**FWAGEE OFFICERS**—Newly elected officers of the Fort Wayne Association of General Electric Engineers make plans for the 1953-54 year at a board meeting. They are (l-r): John W. Taylor, Bldg. 4-6, secretary; Louis E. Staak, Taylor St., vice president; John L. Oldenkamp, Bldg. 4-6, president, and George I. Duncan, Bldg. 26-2, treasurer.

**SQUARES' INNER CIRCLE**—1954-55 officers of the GE Squares Club who were announced this week at the annual meeting are (l-r): Robert Gallaher, Bldg. 28-2, secretary; Harold Fisher, Bldg. 26-2, treasurer; Don Reek, Bldg. 16-3, director; Robert Rescorla, Bldg. 18-3, president; J. Herbert Behm, Winter St., director for three-year term, and Howie Brust, Bldg. 31-2, vice president.

# GE DEATHS

## Catherine Wise Dies After 3-Month Illness

Catherine Wise, 72, died Monday, May 10 in St. Joseph Hospital where she had been a patient 14 weeks. Services were conducted yesterday in the Mungovan & Sons Mortuary and the Most Precious Blood Church. The Rev. S. J. Kramer, CPPS, officiated. Burial was in the Catholic Cemetery.

A Quarter Century Club member, Miss Wise came to General Electric in April, 1916 and was an assembler when she started. Later she did bench lathe work and was a leading operator in Bldg. 19-4. She retired March 27, 1942.

## Mayor Baals Served Company 21 Years

Mayor Harry W. Baals, 67, who died Sunday, May 9 at Parkview Memorial Hospital, worked at General Electric for 21 years before entering public office.

In 1901 Mayor Baals joined GE as a messenger when he was 15 years old. He continued to hold various jobs in the mailing and distribution department and was manager of the department when he left the company in March, 1922 to become acting postmaster of the Fort Wayne Post Office.

Services were conducted Wednesday, May 12 at the Trinity English Lutheran Church by Dr. Paul H. Krauss. Burial was in Lindenwood Cemetery.

Joseph R. Gerichs

Clifford K. Bowman

Philip J. De Prinzio

Richard E. Szink

John F. Reardon

# Five Men Get New Posts In the SIM Finance Section

Five Winter St. men have received appointments in the Small Integral Motor Finance Section, Martin L. Kresge, manager of finance, announced this week.

Joseph R. Gerichs has been appointed supervisor of audits, budgets, measurements, and procedures. Clifford K. Bowman has been named specialist of cost control. Philip J. De Prinzio has been appointed supervisor of payroll operation.

Richard E. Szink has been named supervisor of general accounting. John F. Reardon has been appointed supervisor of sales accounting.

## Joseph R. Gerichs

Mr. Gerichs entered the Business Training Program at Schenectady when he came to the company in September, 1948. He was in the Aeronautic and Ordnance Systems Division at that time. Two years later he became assistant to the manager of business training in that department. In January, 1952 he went on the traveling auditor's staff and was a member of that staff until his present appointment.

From 1944 until 1946 Mr. Gerichs served in the U. S. Navy Air Corps. He graduated from Indiana University in September, 1948 with a BS degree in business administration. He is a member of the Supervisors Club. The Gerichs and their two boys reside at 67 Billington Place.

## Clifford K. Bowman

In 1928 Mr. Bowman became a GE employee. He entered the Apprentice School the following year and graduated from the drafting course in 1933. In 1934 he went to Winter St. on electric testing and moved to Bldg. 4-6 in 1935 on tool engineering and operation planning in the Fractional Horsepower Motor Department.

Mr. Bowman began cost work in 1938 and was a cost analyst in subsequent years in general cost both at the Supercharger Plant and at Winter St. In 1948 he became a supervisor of cost in the Specialty Transformer and Ballast Department and later went on procedures in the same location. Last year he transferred to the Morrison Plant on special assignment and returned to Winter St. in June, 1953 on special assignment in finance. He was in this location prior to his appointment.

Mr. Bowman completed two General Electric courses in economics and one in mechanical engineering. He attended Indiana University Extension for three years when he took courses in business. He is a member of the Apprentice Alumni Association and National Association of Cost Accountants. Mr. and Mrs. Bowman and their daughter reside at 1524 Franklin Ave.

## Phillip J. De Prinzio

When he became a GE employee in 1943, Mr. De Prinzio went to the Bridgeport Plant in the Home Laundry and Equipment Department as a time clerk. Later he became a leader in the payroll section and in 1951 was named a supervisor in that section. In December last year he came to Winter St. where he worked in finance until his current appointment.

From 1941 until 1943 Mr. De Prinzio served in the U. S. Army Special Service. He is a member of the Supervisors Club and Bridgeport Musicians Association Local 63. The De Prinzios and their two sons live at 1702 Ollsdale Dr.

## Richard E. Szink

In 1934 Mr. Szink came to the company and was a stacker in a punch press section at Winter St. He became a stock accumulator in Motor and Generator in 1940. From 1942 until 1945 he served in the U. S. Army and was stationed in the European Theater during that period.

After his discharge from the Service in 1945, Mr. Szink returned to GE. He went into accounting at Winter St. where he did cost work. Later he went on special assignment at that location and in 1951 became supervisor of payroll. He was supervisor of accounting in the Air Conditioning Department from 1952 until 1953. At that time he was named procedures analyst and had this job until his present appointment.

Mr. Szink attended Chicago Technical College and Indiana University Extension for two years, majoring in business administration. He is a member of the Supervisors Club and National Association of Cost Accountants. The Szinks, who have three children, live at 306 Glencoe Ave.

## John F. Reardon

Mr. Reardon went on the Business Training Program at Lynn when he joined GE in 1950. He worked in accounting in the Small and Medium Motor Department at that time. In April last year he moved to the Small Integral Motor Department where he worked in accounting until his present appointment.

From Jan., 1943 until May, 1945 Mr. Reardon served in the U. S. Army and spent part of that period in the European Theater. He received his BS degree in business administration from the University of New Hampshire in June, 1950. He is a member of the National Association of Cost Accountants.

Mr. Reardon lives at 807 W. Berry St.

## Pensioners Parade

The large number of employees living in St. Petersburg, Fla., who are members of the Retired General Electric Employees Association, have announced their officers for the 1954-55 year. They are Alexander Cowan, Wayne Wedeman, and Mrs. Margaret Harris.

Members of the Association invite pensioners and those who will retire to become members of their group if they are planning to go to St. Petersburg. The organization meets the first and third Wednesday of every month from November to April. Its objective is "To promote social activities which will serve to perpetuate old and establish new friendships among its members."

## SLEUTHING in 4-6

by Al Happel

IS SUMMER TIME HERE AGAIN? At least that is what Dorothy Conner thinks. She was seen taking a swim in the drinking fountain last Wednesday. Was your swim nice, or were you just washing your face? If you need a lesson on how to drink out of a drinking fountain, please contact your kindergarten teacher, Dorothy. . . . THE SHORT HAIR

CLUB has three new members. They are Gil (Butch) Baker, Charley (Hardtop) Wurm, and Mary (Copy Cat) Smoak. Incidentally, did you notice how young Mary (Copy Cat) Smoak looks after her hair cut. . . . HAPPY BIRTHDAY to Georgia Garrett on the 12th of May and Walter Hahn on the 14th of May. . . . THAT GRIEVED LOOK on the faces of certain individuals is there because they were feeling proud to have some of their pet plants out early and when they weren't looking Jack (Frost) took a big bite out of the

nice tender specimens. . . . THAT NICE NEW MOTORCYCLE buzzing around on East Washington is pretty nifty. The pair riding it is Mr. and Mrs. Lindsey, (Mrs. Lindsey is known to us as Norma Miller.) . . . WE EXTEND our deepest sympathy to Georgia Garrett, as her mother passed away last Friday. . . . WELCOME BACK to Cecil Harrod, who has been absent for several weeks. . . . CONGRATULATIONS to Mr. and Mrs. Clovis Linkous, who are the proud parents of Alan, born April 27, weight, 8 lb. 3 oz.

CELEBRATES 45TH GE YEAR—Stephen A. Morrell (third from left) was the center of attention this month as he celebrated his 45th year with the General Electric Company. He first joined GE at the Edison Lamp Works in 1909 and transferred to Fort Wayne in 1924. At present he is a winder in Bldg. 19-2. Congratulating him are James C. Bartholomew, Kenneth D. Strong, Richard M. Hartigan, C. L. Anderson, and Leonard C. Michael.

**ELEX MOTHER'S PARTY**—Left to right are: Mrs. Princess Smith; Mable Miller, Sect. 113, Taylor St.; Mrs. Mary Schlotter; Clara Gidley, Sect. 417, Taylor St.; Joyce Brumbaugh, Winter St., president; Mrs. Catherine Metzler; Ruth Graft, Bldg. 8-2; Mrs. William

Manning; Delores Ralstin, Bldg. 19-5; Mrs. Rosie Berger; Jean Butler, Sect. 113, Taylor St.; Mrs. Ruth Jones, and Beulah Roe, Taylor St. cafeteria. All won prizes at the recent first shift Elex party honoring members' mothers.

## Many Mothers Earn Prizes At Elex Club's Annual Party

Approximately 700 first shift Elex members and their mothers attended the club's annual Mother-Daughter party Thursday, May 6, at the GE Club.

In addition to presenting a gift to each mother present, Elex honored the oldest mother attending and gave her a gift. She was Mrs. Mary Schlotter, 85 years old, mother of Clara Gidley, Sect. 417, Taylor St.

Others honored were the oldest grandmother, Mrs. Catherine Metzler, 88, grandmother of Ruth Graft, Bldg. 8-2; Mrs. Rosie Berger, mother of Jean Butler, Sect. 113, Taylor St., and Mrs. William Manning, mother of Delores Ralstin, Bldg. 19-5, youngest mothers.

The two guests who came the greatest distance for the annual event were Mrs. Princess Smith, of Kalamazoo, Mich., mother of Mable Miller, Sect. 113, Taylor St., and Mrs. Ruth Jones, of Battle Creek, Mich., mother of Beulah Roe, Taylor St. cafeteria.

### Information Clinic Answer Corrected

In last week's Information Clinic the following question was answered incorrectly:

#### QUESTION:

Will stock under the stock bonus plan be issued jointly the same as government bonds?

The correct answer is:

The stock will be issued in the name of the participating employee. When an employee receives his certificate he can, of course, have it reissued in joint ownership (not in co-owner form as the Savings Bonds are issued) but the certificates for one share of the \$5 par value stock of General Electric which will be issued next month to those participants who had 34/100 or more of a share of the old no par value stock representing a stock bonus on bonds purchased in 1948, will be issued in the participating employee's name alone.

### PICK-UPS from 26-3

by Maxine Jordan

The weather plays tricks on Frank Clibon. He had to rush out during lunch period to take some coal home. . . . We would like to know what the new words are that Lonnie Rockstroh's parakeet says. He must be Spanish. . . . Gladys McConnell treated the Sample Shop to a birthday cake last week. . . . If you are in a hurry, Louise Lengerich will do your dry cleaning while you wear it, so says Art Pequignot. . . . Anyone wanting to learn about betting on the Kentucky Derby for next year, just ask Erma Werling. She has it all figured out. . . . That beef pot pie was delicious, Mac, but not quite enough of it. . . . Wanted: Two extra loud-ringing alarm clocks, one for Bob Wiehe and one for Lonnie Rockstroh. . . . The winders wondered where Ray Loveless was the other day. It seems he got lost. . . . Jim McGill says there isn't any news from the office this week except the windows were finally washed to everyone's satisfaction. They can now see outside. . . . Vera Hoover was caught reading the news a day late. It can't be you're that busy. . . . Bright and early on Thursday morning, Shorty Pequignot was doing his good deed for the day. He was helping the winders fill their water bowls. . . . Did you know headaches are catching? Ask Ruth Freeland and Bob Wiehe. . . . Mac McCray's pet, Blue Bar, got back from Mattoon, Ill., safe and sound. . . . Bob Jackson is doing some practicing in housekeeping. He's now the sweeper for the west end. . . . We suggest installing traffic lights in the winding section to avoid head-on collisions. . . . Erma Werling was seen sitting on the vibrator at the home show. She says it works wonderfully.

### TOP FLOOR TOPICS

BLDG. 26-5

by Jack Lea

Here we are at ringside. Joe Louis's handlers have finished changing Joe's diapers and we're ready to go into the final round! That might have been the scene if you would believe what Joe Gomez says. Joe claimed he saw the Joe Louis-Jack Dempsey fight on TV last week over "Great Fights of the Century." . . . Watching TV is beginning to affect some people. Take Al Tyson for instance. Al claims he doesn't buy breakfast food anymore. Al says his TV comes in so clearly that his kids gather around for the "Wild Bill Hickock" Sugar Pops program and eat Sugar Pops right out of the screen. I was wondering why Al kept that snow shovel in the front room! . . . John Babb brought in some pic-

tures of a fishing trip, which netted him some fine-looking bass. John wasn't giving out any detailed instructions on how to get to his fishing spot. . . . I can't see the resemblance between John Hallien and Pinky Lee, but that's what they call John now.

### OVER OUR WAY

BLDG. 19-1

by Clara Volz

Helen Staley is recuperating at her home after a recent operation. The place isn't the same without you, kiddo, so hurry back. . . . George Grote has a snapshot of a couple of good looking gals on his desk. I might add that they happen to be his granddaughters. He's mighty proud of them, too, as you might know. . . . The latest rumor is that Clayton Barrick has No. 1 priority when the new parking area is available. (I got news for

you, kid.) . . . Jim Grogg planted two young apple trees and one pear tree this spring, and is taking orders for fall pickings. Did you mean fruit or leaves, Jim. . . . Ora Martin, who is all of 6 ft. and 200 and some odd pounds, didn't have the strength to open our little office door. So he politely knocked, causing George Santon to get up off of his chair, walk over to the door, and open it. Did you thank the man, Ora? . . . I'm a little late, Louie Tagmeyer, but thanks a lot for fixing my umbrella. Now, Maggie Perrey, you and I won't have such a wreck to carry when any of us get caught short some rainy day or night. . . . Try as you may, Andy Einsedel, you don't quite come up to Perry Como's brand of singing. Don't let me discourage you, though. As long as you're satisfied that's all that matters.

### WINTER STREET JOTTINGS

by Margie Hill

This week we're welcoming all the transfer newcomers in the factory to our Winter St. plant. Glad to have you with us. . . . If you see Andy Docos smoldering and burning, think nothing of it. It's just that he's thinking of that fabulous fourth hole out at the Elks Country Club. That was some round, huh Andy? . . . A happy birthday this week to Mary Berghoff on the 10th, H. H. Davenport on the 10th, Phil DePrinzio on the 14th, Monica Gnaou on the 18th, and L. R. Logan on the 15th. Hope you all have many more. . . . Welcome to Waunetah Brockmeyer. It's surely nice to have you back with us again. . . . Do you realize there are only 78 more days until vacation time? . . . We won't mention any names, but who was the guy who came to work one morning with his shop apron on and when he got on the bus the driver said, "Lady, your slip is showing." The whole bus vibrated with laughter and you should have seen his face. . . . Our sick list this week includes Dorothy Hart, Lois Facks, William Reed, and Wallace Growcock. . . . So long for a while to Lavon Nesbitt, who is expecting a little offspring.

**BILLBOARD BLOOPER**—Last month's billboard at the Broadway Plant got more than usual attention because the gentleman painting-up his house was violating a long-standing safety rule at GE—NEVER STAND ON THE TOP STEP OF A LADDER. After many calls from safety-conscious employees, the sign was changed as shown in the photograph.

CHAMPION OF CHAMPIONS are the Saturday Owls. Standing (l-r) are Harold Blauvelt, Tom Cowan, and Larry O'Shaughnessy; (kneeling l-r) Serge Schuster and Charlie Wilt.

PATROLS in the Masonic League are (l-r) R. Dale, R. Moorman, J. Ruhl, E. Meyer, and R. Hickman.

ROTORS in the Taylor St. 114 League are (l-r) E. Korte, E. Schlatterback, Fred Campbell, Louis Shattuck and W. Mackey.

# HERE ARE S

TEST team (l-r) are Roy Brimeyer, Harold Fletter, Clark Holmes, and Lloyd Pinkerton. Sam Baumgartner was absent when picture was taken.

REPRODUCTION in the Office League are (l-r) Paul Ohnesorge, George Owens, Ed Hagadorn, William Miller, and George France.

STATORS in the Hermetic League are (l-r) Clint Newman, Dick Grossnickle, Dick Fry, John Westerhausen, and Charlie Zolman.

# SEASON'S CHAMPION BOWLERS

TEAM NO. 1 in Ladies' Tuesday League are (l-r) V. Salmon, L. Hiner, D. Ramsey, R. Baker, and E. Clevenger.

OLD CROWN BEER TEAM in Ladies' Friday Night League are (l-r) Charlotte Stanford, E. Vandergrift, Tommie Williams, Virginia Mollett, and V. Bowman.

OHMS in the Transformer League are (l-r) Jack Lea, William Naas, George Duncan, Dick Gordon, and Glenn Bower.

KSP's in Specialty FHP League are (l-r) Henry Wiegmann, Edward Whipple, Glen Stapleton, Moe Satterthwaite, and Ray Hills.

KEGLERETTES in the Ladies' Monday Night League are (l-r) Isabelle Blackburn, Daisy Sherch, Paula Gerding, Ann Lee, and Helen Mossburg.

CENTRAL DAIRY bowlers (l-r) are Paul Johnson, Tom Snider, Tom Anderson, Joe Kummer, and Art Glass.

PARES in the Winter St. League are (standing l-r) John Quaintance and Walt Hutchins; (kneeling l-r) Dexter Marshall, Ken Berglund and Ted Briles.

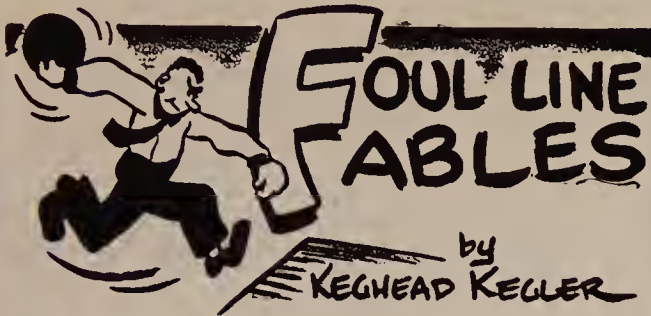

GENERAL SERVICE in the Taylor St. League are (standing l-r) Eddie Schrantz, Art Smethers, Rudy Wuttke; (kneeling l-r) are Bob Cuney and Bob Pion.

BROUWERS in the Interdivision League are (standing l-r) George Ludeman, Erv France, and Doyle Miller; (kneeling l-r) Frank Matthews and Andy Anderson.

The GE Fraternal League wound up the second half in the following order: Riverview, 35 and 16; West End Restaurant, 31½ and 19½; Teeple Truck Lines, 30½ and 20½; Peterson Elevator, 26 and 25; Elks, 24½ and 26½; Monroeville Lumber, 19½ and 31½; K. of C., 18 and 33; and GE Club, 18 and 33. Rolling 600 series were: Paul Briede, 624 (222-187-215); Guy Koos, 600 (223-167-210); and Gary Schultz, 625 (222-197-206). Double century scores were tallied by: P. Wilkinson, L. Ulman, E. Bultemeier, R. Mutschler, W. Petrie, R. Lord, A. Zelt, N. Steury, B. Custer, J. Beery, E. Faulkner, T. Pillars, J. Hobbs, R. Werling, and L. Hoffman.

#### GE Women's League

The final standing for the second half saw Last Frames in first place with 35 wins and 16 losses. Second were the Hi-Spots with 30½ and 20½. GE Office had 19 wins and 32 losses, while the Spares were the losers with a 17 and 34 record. Rolling 500 series were: E. Plasterer, 536; M. Miller, 500; and G. Reynolds, 525. Hi-scores were: A. Reynolds, 200 and 166; Kukulhan, 193; G. Reynolds, 170; Stultz, 160; and E. Plasterer, 160.

#### SPOT LIGHTS

##### BLDG. 4-2

by Estella Pettibone

Arnie Johnson is contact man for the Foreman's Association. He went to Sam Buckley to collect his dues. Sam started counting him six one-dollar bills, when he found he had only four. He replaced them in his billfold and gave Arnie a ten. Johnson handed him four dollars change. When Buckley attempted to put the change away he was minus his billfold. Arnie was sure that he did not have an extra billfold, but upon Sam's insistence he looked and sure enough! He returned it with a red face. When Sam opened it, it was empty. Arnie had picked it up, given Sam his own four ones for his ten, and then pocketed his billfold. Everything went quite well until Friday when Arnie went to the office to receive his pay check and borrowed Ed Sondag's pen to sign it. A short time later Herb Franke answered his telephone and Sondag was inquiring if Johnson had his pen. Upon finding the pen in his pocket, Arnie became quite concerned about himself and remarked to Mark Brindle that he was afraid he was getting that disease. Mark inquired which one, and Arnie couldn't name it but was sure there was a disease that causes people to take things that they don't even want. . . . John Wilson and Joe Crammer were skunked in a euchre game by Ed Sondag and Earl Gebert. John is still crying and says it is the first time he has ever been skunked and that it wouldn't have happened but for Joe being his partner. We will probably have Joe's version next week. . . . Arnie said he saw Mark eating a pork sandwich so big he had a notion to "ring" it as he was afraid it would start to root.

#### SHAFT SHAVINGS

##### BLDG. 19-3

by Blanche Cowell

We wish all the luck in the world to Hank Beushing, who left us last Friday to enjoy a life of retirement. Hank worked in the sheet metal section, west end. . . . A BIG MOVE: Paul and Mary Lou Gruber have moved into their new home. They certainly are a couple of proud kids. Best of luck to both of you. . . . Frank Kartholl, the "Groucho Marx" of the east end office, is the proud owner of a new power lawnmower. He tried to get one that he could sit on to cut the grass, but Eloise said, "No, the exercise would do him good." . . . Anyone looking for an expert trapper see Elmer Schoenlein. After Pete Kreieger and Pat Christle got their four-legged friends all trained to come out for dinner Elmer trapped them. His objective is a new fur coat. The count to date is 14 mice. . . . Anyone interested in taking judo lessons, contact Blanche Cowell. . . . From the looks of his haircut, I wonder if Leroy Cook came into contact with an Indian on the warpath? Or did you go to sleep in the barber chair, Cookie? . . . BETTER CHECK, BOYS: Floyd Mutton and some of the boys were discussing their

drivers' licenses. Floyd took his license out to show them. When looking at it closely he discovered it had lapsed. His birthday was in April. He will make a quick trip to the license bureau. . . . Elmer Minnick has found out he has been driving illegally. His birthday was also in April. Sorry we missed it, Elmer. So here it is. Happy birthday, dear Elmer. . . . Warm weather is on its way, we hope, but Ted Schlup seems to be having trouble with the mosquitoes, already. . . . The latest fashion at the west end is Herman Zuber's "Corky" hat. . . . Why did Russell Neireiter fold the paper up into a big blueprint drawing? Could it be because someone was looking at him? . . . What well-known character, who lives two blocks this side of Auburn, was playing hide-and-seek with a gray Chevrolet with a UA license plate? None other was it than Rudy "Sam Spade" Rastenburg. . . . Who was lost at the union party last Saturday night, Frank Enderle or his friends? . . . Anyone interested in buying some snake steaks see Frank Elder. It seems he was mowing his lawn with his power mower and ran over it. . . . If you hear "Curly" McCormick tell any tall tales about the size of the fish he catches, it is all legal because he has a license for just that.

#### 17-3 NEWSIES

by Wilhelmina Beeth

It is finally here. Tomorrow is the red letter day for our Liberate fans. . . . We have all heard of people being chased by a bull or a mad dog. Mary Nuckles is different. She was chased around the basement by an overloaded washing machine. . . . Louie Hoffman now answers to "I am the boss" on line four. We wish you luck in your new job. . . . We are getting a new look. The Kaiser winding machines are getting a fresh coat of paint. . . . Congratulations to Freddie Reinking on being with the company 25 years. . . . We light another candle on the cake and wish a happy birthday to Ann Kensill, Emma Snyder, Margaret Wolcott, and Olene Amburn. . . .

Mabel Clark spent last week-end in Cleveland. . . . Millie Reynolds was also an Ohio visitor. . . . For a good formula on window washing, contact Teresa Trout. . . . Ella Grimes is a new button poppin' grandma. . . . Glad to see Hazel Cox and Juanita Dusing ringing in their clock cards again. . . . If you think Hansel and Gretel had a lot of trouble when they were lost in the woods, you should hear Verda Deal's troubles when she went mushroom hunting in Cedar Canyon and got lost. . . . We wish a speedy recovery to Ruth Nahrwold, who is in the hospital. . . . We extend our sincere sympathy to Dorothy Johnson on the loss of her father-in-law.

Our second shift misses former foreman, Charles Prine, who is working days now, but we don't envy him getting up in the morning. . . . The girls who work on overloads want to congratulate Maria Heller on the new triplets. . . . Rebecca Fogwell must be enjoying her retirement. She went to New Haven, Conn. with Mabel Shinn and daughter, Phyllis. Phyllis is enrolling in Yale University to acquire her MA degree. . . . Vera Fletcher and Hazel Davis attended the Home Show Saturday afternoon and saw almost everything in the four hours they spent there. . . . Of course, Edna Parker and husband saw the show in Bluffton Sunday since it was a "Ma and Pa Kettle" show and they never pass those up. . . . The girls on overloads want to know who the good-looking fellow is they have been seeing Eva Hazelite with. . . . John Guethler bought a 1935 truck. Anyone wishing for some trucking service, see John. . . . Have you noticed Lora Schroeder's purse? It is growing bigger and heavier with those air mail letters from her fiancé in Oregon.

Home cooking is what every man would have if every woman were.

#### COUNT OFF SECTION 417 TAYLOR ST.

by Ruby Stoops

We welcome Dan Thorne in the stockroom. Alice Robinson, we welcome, on repair and return. . . . Bernie Warner will be missed by first trick girls as she is going back on second. . . . Ralph Keller was given a dinner and gift Friday from his co-workers. Ralph leaves us to go to Winter St. plant. Best of luck from us all. We welcome Charley Prine, who will take Ralph's place. . . . Happy birthday, Melinda Brandtmiller, and thanks for the good cake. . . . Pearl Eberly certainly surprised the girls Friday. She came in with a beautiful tulip corsage on and the girls thought she was pulling a fast one, retiring without telling them. They were mistaken for she just had some pretty flowers and wanted to show them off. . . . Ed Feidler, why don't you buy those girls each a coke instead of drinking Clarabelle Whitman's? . . . Mae LeBolt finds all kinds of excuses to stay home on beautiful days. This time it was a flat tire. Mae only lives two or three blocks from work! . . . Cristle Boyd spent Mother's Day at Van Wert, Ohio. . . . Laura Adams was seen Saturday evening gathering new ideas at the Home Show. . . . Congratulations to Herman Watters, who was presented last week with twin granddaughters. . . . We are very glad to have Homer Ray back with us.

#### STORMY WEATHER

##### BLDG. 17-4

by Bill Hurtt & Larry Reed

Until Andy Chrystler found out it was a gag, his stomach turned a flip flop when he discovered a lag screw, which to all appearances had been run through his tool chest at an angle, but had been sawed in two and glued in that position. The expression on his face was worth a million dollars. . . . It seems that our rotor washing machine operator, Joe Presbindowski, was caught buying some "kicker straps." As yet we don't know whether they will be used to protect his legs from his wife's kicks or whether they will be for shackling her energy. . . . We bid a fond farewell to Harold Knepp, our second trick test foreman, who has left to assume his duties at Winter St. All of our best wishes for your success go with you, Harold. . . . Our sick list includes Bill Meeks, who reports he is on the road to recovery; Mike Lowe, who we hope will soon be over his siege of illness; and Edna Ward, who has returned after a week of being held by old man flu. . . . Norma Haugh swears that on Wednesday after this he is going to tie a string on Nussel's finger in an attempt to improve his memory. And by the way, Clarence Nussel is finding that the cherry pie in question is beginning to cost him more money than he thought. Maybe it would be simpler to kick through with the pie and save a lot of wear and tear. . . . On Thursday, May 6, Ed Klomp was the guest of honor at a luncheon given in recognition of his 35 years of service and his birthday. He reciprocated by passing around candy to everyone. We add our congratulations and good wishes for continued health and success during his remaining years with us. . . . Quotation for the week: "Men are valued not for what they are but for what they seem to be."

EARLE WATERMAN RETIRES—Congratulating Earle Waterman (second from left) on his retirement from General Electric are (l-r) Walter T. McDougall, Emil Schurenberg, William Crouse, and William Bender. Mr. Waterman, who first came to GE in 1942, was an inspector in Bldg. 26-5 prior to retirement.

Tee Off

by Earl Stauffer

Oh happy day, here we go again! The war has started, the golf war, that is. The "cow pasture pool" is replacing the winter sports and the dreams of those bogeys, pars and birdies are becoming a reality.

The weatherman who smiled on the league play last year to the extent that there were no canceled games made up his mind that this is another year.

Two leagues were slated for action the first night, only one was brave or foolish enough to venture out.

Charlie Briggs, the manager of the early Monday league, summed it up this way: "This is the earliest the Monday afternoon league has started its schedule and we were the only ones foolish enough to play." The temperature was in the 30's, the wind was a definite factor and to add insult to injury it snowed before the round was completed. Twenty-three of 24 braved the elements to prove that you don't have to be nuts to play golf, but it helps.

Jack Steel playing for the Wire Mill entry carded a 42 to lead the scoring parade. Willie Adams was second with a 44. Ironically enough the two leaders were playing against one another. The Wire Mill team beat the last year's league winners, Leo Almandinger's Putters by nine points. Other results were as follows: High Balls, plus 8; Financials, minus 8; Divoteers, plus 7; Transformer, minus 7.

After a pow-wow Big Chief "Red" Braden called off the late Monday league and also the Tuesday evening affair.

Over in the Thursday morning Owl league where my ugly face is missing for the first time in eight years they had some close ones. Dave Mumma reports that

the lack of practice really showed up. Benny (Two League) Penkul led the parade with a card of 41. Old Pro Warren Wickliff was next with 42. Ozzie Bunch, Lloyd Grider and Paul Billman were tied at 43.

Floyd (Pappy) Garland bowed in as Owl league manager again after an absence of a few years. Close matches featured the opening day's play. The Hot Shots tripped the Pars by 4; last year's Owl champs, the Birdies, beat the Eagles by three; and the Aces and Bogeys played a standstill tie.

The Winter St. League found the weather cold but took off anyway. Team number one with Bill Irwin at the Helm posted a 15-point win over Dick Szink's quartet. Dick Hensler was the big gun with a 42 card. League Manager Stu Fisher's team No. 6 clobbered Jim Geiger's lads by 8. Jack Skevington's team No. 3 tromped on Vernon Foulks' boys by four.

Dick Hensler was low in the opening with a 42; Vern Foulks and Jim Steel were tied with 44's.

Monday and Tuesday Evening leagues canceled.

Ed Mosley Named Manager Of GE Club PONY Leaguers

T. E. (Ed) Mosley, Bldg. 26-4, will manage the GE Club sponsored PONY League team in the North League this year. A native of Little Rock, Ark., Mosley came to Fort Wayne in 1952.

The new manager played both hard and softball in Little Rock as first baseman and also as a pitcher. He was a member of a championship GE team in Johnson City, N. Y., while he was employed there. Last year, he coached the GE Club's PONY League entry.

Farold Schuman, Bldg. 26-3, will help coach the team. However, Mosley reports there are still vacancies on the coaching staff and anyone interested should contact him on Ext. 723.

The second session of try-outs will be held at Lawton Park Saturday. PONY Leaguers must be 13 or 14 years of age.

There are two leagues; one draws players from the north side of town, the other from the south. The GE Club team ended up last year's season in the No. 3 spot.

Ed Mosley

Eight Teams Set for Interdepartment Softball League Openers May 26

Action in the Interdepartment Softball League will begin May 26, Dexter Marshall, league manager, reported this week. In announcing organization plans for the league, the manager said that eight teams will compete in the 1954 season. All games will take place at McMillen Park Wednesday

evenings starting at 6 p.m. A schedule of practice games will take place May 19.

The season schedule has been set up to provide 14 weeks of play with no games slated during vacation shutdown. There will be two rounds of play.

The eight teams comprising the league are: Apprentice School, GE Vets, Apparatus Sales Trainees, Winter St., GE Squares, Manufacturing Training Program, Test Engineers, and Fort Wayne Laboratory.

Team managers and game schedule will be announced later, Marshall stated.

Glad to see you, Agnes, and come again soon. . . . Mardo Tobias celebrates 40 years with the company next Tuesday. Congratulations, Mardo. . . . Mary Nute, Jinny Reckeweg, and Betty Kummer all helped their bowling team celebrate the other night. They had a grand time. . . . Would you believe it that Harry Meyers is going to celebrate his 16th wedding anniversary on the 28th of May? . . . To you Liberace fans: His new car can be seen at Butler, Ind. . . . Viola Martin is on the sick list. Hurry and get well, Viola. . . . John Figley is as bad as Jack Benny. He says he has been 52 years old for the last several years. I guess we will have to take him down and look at his teeth! . . . We are sorry Jules Zumbrum left us. He didn't go far, just to Bldg. 6. Come see us sometime, Zumby. . . . Ed Hines and Sam Warren are going to draw straws to see who is going to be the chief telephone operator. . . . Dick Blutz spent the week-end in Chicago. . . . Chick Kortum started to paint his house last summer and finished all but the gables. Now we wonder if he started painting from the bottom up? . . . John Wetzel went to see his son, who is stationed in Maryland, and hasn't returned as yet. . . . Eva Warnment helped her husband celebrate his retirement last Friday. . . . We wonder if Vickie Heyer got lost in the snow drifts in Chicago? She didn't get to work Monday morning. . . . The explosion back of the office was Wilbur Stocks teetering on three legs of his chair as the fourth leg broke. . . . Glad to know that Joan Lindeman is at home following an appendectomy. . . . Mildred Carpenter, who has been a patient at the Lutheran Hospital, is now at her home on South Calhoun St.

Fort Wayne Beats Tiffin GE Keglers In Recent Event

Fort Wayne emerged victorious in the inter-plant bowling tournament conducted Saturday, May 8 between local GE keglers and Tiffin Plant bowlers. Five teams from each plant competed in the event.

The winning city was determined on the basis of most games won. Fort Wayne won 11 games while Tiffin men chalked up 4 wins.

Individual honors on the high three count went to Les Shroyer who came through with a 657 score. High single game went to Vic Rump with a 245 tally. These two men combined with Perry, Wilt, and Schoenlein as members of the Kinney Concessions team which took first place on the list of high team scores. They had 3134 and received \$25 in prize money. Rump and Shroyer won \$2.50 for their high counts.

Other teams from Fort Wayne leagues entered in the event were Brouwers, Dunmire's, Hermetic, and Taylor St. Other men hitting a 200 or better score in tourney play include F. Matthews, Dunmire, Garland, and Putman.

SICK LIST

The following employees have been reported on the sick list:

Joseph McGinnis, Clayton Raquet, Helen Staley, Ralph Klaren, Herman Kern, Joseph Dahman, John Winesburg, Beulah Smith, Anita J. Fitch, Charles Clawson, Golden Renner, Berdena Musser, Thelma Hill, Andrew Woods, Alfred Snawder, Vivian Eggleston, Matilda McClain, Philip Schroeder, Betty Sovine, Marie Schmidt, Charlene Smith, Thomas Cowan, Mary Henry, William Heit, Ralph McCain, Ralph McMurtrey, Ruth Nahrwald, Gerald Scott, Susie Wagoner, John Gutermuth, Betty Dulah, Marjorie Sloan, and Michael Lowe.

He who would climb a tree must grasp branches—not the blossoms.

LAST DAY AT GE—Willie Jones (left) looks over his retirement gifts on his last day at work. With him are Fred Craig, George Bartle, and Oscar Schelper. Mr. Jones came to GE in 1943 and was employed in Section 417 at Taylor St.

## "A BRIGHT FUTURE IS AHEAD OF YOU"

...if you have the foresight to enroll in the GE Insurance Plan, the GE Pension Plan, and the GE Savings and Stock Bonus Plan.

If sickness strikes, it won't be a financial calamity. You can look forward to your retirement years with the knowledge that a regular monthly pension check will be coming your way. Your savings safely invested in bonds together with your stock bonus will help you add to the financial security of your future.

Yes, your future will indeed be rosy and bright, for you have a program for security.

EMPLOYEE AND PLANT COMMUNITY RELATIONS

GENERAL  ELECTRIC

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 18-1.

**SLIDE**—Children's 10 or 13 ft. play slide; also 100 or 150 gal. fuel oil tank. E-71186.

**ACCORDION**—Beginner's. Must be reasonable and in good condition. H-24325.

## TOOL BITS BLDG. 19-4 and 5 by Howard Demsey

Vernon Burke found out he has to behave himself in his neighborhood, or else. It seems Mrs. Burke had left the house locked as she went shopping and when Vernon came home he had to open a window and climb in. He soon found out that was a poor way to enter because a neighbor had seen him climb in and, thinking it was a burglar, had called the police. After some fast explaining by Vern, the police were satisfied that he was the rightful occupant. . . . We were sorry to hear that John Lauer fell from a ladder and broke his leg last Saturday. John had just come back to work with us again. Take care of yourself, John. . . . We wish Art Wolfe well as he starts his new job with the Die Plant in the Perfect Building. . . . Also, good luck to Harold Lehman upon his appointment to a new position. Harold is now an instructor in the Apprentice School. . . . Otto Rodenbeck is a very thankful person after the experience his youngest son, Lowell, had over the week-end. Lowell was using his brother's speedboat on the river and there was a good breeze blowing. As he passed under a bridge which didn't give too much clearance even when the water was calm, the boat was raised by a wave and hit the bridge, flipping over, with Lowell underneath. Though knocked out for a short time he fortunately was wearing a life jacket and after coming to his senses he swam to a rowboat nearby. The boat had a hole knocked in the bottom and the motor needs an overhaul, but everyone is thankful that nothing more serious happened. It sounds like a good talking point for a campaign to get more life jackets on people around water. . . . Kenny Smith may help his wife mow the lawn now since he bought her a new power mower. . . . Paul Weaver's truck was a little hard to manage the other morning when his accelerator linkage came apart and he had only a two-speed engine—wide open and shut off. We're glad there weren't any serious consequences, Paul. . . . The neighbor's bull sure likes Clyde Spangler's farm. Clyde finally sent him home, but only after the bull ate his wheat and almost wrecked his barn. . . . Kurt Martin's daughter won a trip to Florida by plane for Kurt and the

whole family. While they are gone, Gene Denig is running a boarding kennel for Kurt's now famous dogs, Prince and King. . . . Carl Einsiedel may not be a good bowler but he is doing a lot of bragging about the 278 his niece bowled. She got a prize of a dollar for each point of that score. . . . Welcome to the following apprentices who started working in the department this week: Francis Harter, Raymond Watkins, Jack Becker, Al Scheimann, Arnold Korte, Jr., and Lawrence Shina-berry. . . . Congratulations to Dave Bartle, who was nominated as a candidate to the advisory board in Springfield Township in the recent primary. . . . Bob Benz wore a bow tie one day last week that mysteriously acquired polka dots during a brief period he wasn't wearing it. . . . Elwin Coolidge spent last week in Chicago on a vacation preview. . . . Bill Hunt and family visited Lansing, Michigan over the week-end. The machine design section extends a hearty welcome to Don Hill. Originally from New Haven, Don is back after a three-year stay in Detroit as a designer. . . . We're glad to see George Hauser back to work after his recent illness. . . . Milt Ray, Lowell Mason, Bard Zwayer, and Ed Stiles attended an ASME conference on cam design in Toledo, Monday night.

## APPRENTICE BROADCAST by Dave Jones

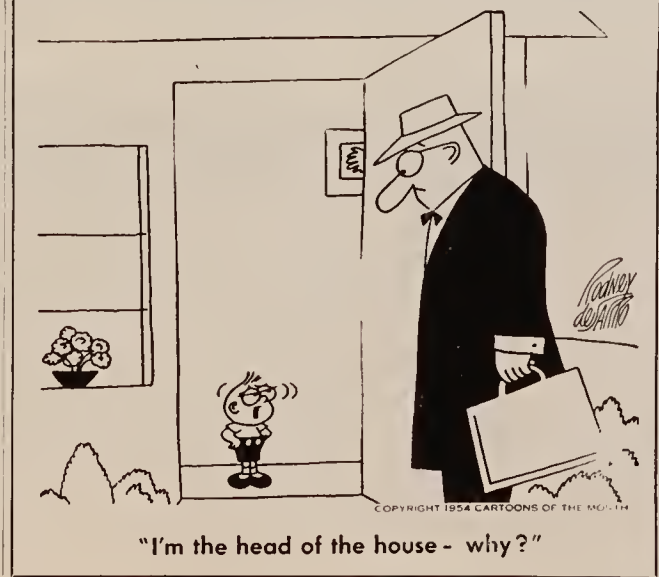

Our popular instructor in the lathe section, Harry Eckenbarger, departed for a planning job in the die plant last Friday. Harry carried his lunch as usual, but very willingly set it aside when he saw the wonderful potluck dinner that had been prepared for him. The meal consisted of numerous meat loaves, dishes of potato salad, baked beans, various other salads, ice cream and cake. The boys also presented Harry with a speed drill with some special bits and a buffing attachment for his home workshop. The office girl, by proxy, gave Harry a good-by kiss. . . . Dick Wagner was the very capable substitute, complete with rag mop wig, spring bonnet, short skirt, and lipstick. Mildred Ellis, Dick Bridge, Grayson Knight, and Dick Wagner planned the party and did a fine job. Everyone ate his fill and had a swell time. Special mention should also go to the mothers, wives, etc., for their part in preparing a very delicious dinner. Harold Redman contributed a very beautifully decorated cake with "Good Luck, Harry" written on top. That very fittingly expresses the wishes of the whole gang, Harry. . . . We have another new car owner in our midst. Joe Leitch is sporting a '53 Buick. . . . Jack Shultz is back to work after being off due to injuries received in an auto accident. Glad to have you back, Jack, and we're very thankful your injuries were not too severe. Jack's night life has not been seriously curtailed, since his girl is now furnishing transportation while his car is being repaired. . . . The softball season is officially under way now with the initial practice being held last Friday night. The turnout was rather good, considering the weather conditions and classes. Anyone interested in trying out for the team may contact me or watch the bulletin boards for future practice dates. . . . The welcome mat is out for Donald Meads and Gerald Carper. Don and Gerry started their training on the machinist toolmaker course last week.

## TRANSFORMER TATTLES BLDG. 26-4 by Dutch Norwalt

We wonder what Bill Fowler was doing last week when he was seen carrying a coal oil lantern toward the parking lot. Were you looking for daylight or Dick Goller's newly painted Dodge? . . . It is reported that Clarence Raney was once a barefooted ridge runner but it is not true that he once operated a still in southern Indiana. . . . Al Topp has a new way of taking a shower. He slipped off with his son's new Pontiac convertible, not knowing how to put the top up when it started to rain. . . . Paul Peterson carries a smug look around these days and all because the White Sox are riding high. Are they like the flowers that bloom in the spring, Paul? . . . Add to the list of Liberator's admirers: Joe Prairie and Helen Eger. . . . Since Louey Kernes (the woman's choice) has been transferred to Bldg. 26-4, it will be more convenient for him to take Thelma out to a frog leg dinner. . . . It is rumored that after the recent article on W. Pohler's Dort Speedster it may be necessary for the editor to increase his accident insurance. . . . Henry Miller will soon retire. It is reported that he will then work on the farm under his brother-in-law's management. . . . The girls in the Green Room wish Lena Ferguson many more happy birthdays. . . . It is reported that Gertrude Hughes set a new record for a red face after knocking a dish of Jello out of Novella's hand while having lunch at the cafeteria. . . . After her recent scare Doris Salge will no longer go to the stock room after material. What's the matter, Doris? Ghosts? . . . Walt Eker is the most interested employee in the division on safety. He went to the meeting an hour early and had the meeting all by himself. He was just leaving when the other safety members arrived. . . . Bob Enzy pilot light must be out again. He was absent (without leave) from work last Tuesday. If you wonder what all that commotion in W. Weimer's section is for, we'll tell you. They are trying to calculate the miles per hour flown by the swallows going back to Capistrano.

## DECATURITES by George Laurent

There comes a time in everyone's life when he can start to slow down and enjoy life. That time has come for Hilda Staley. She will be missed by all her co-workers. It is everyone's ambition to have as many nice things said about them as has been said about and to Hilda. We all wish Hilda many, many, happy days and hope you will visit us often. . . . Welcome, Rosemary, on days. Watch that bright sunlight; Rosemary Miller is the new leading operator for Leonard Myers. . . . Who is "Bobo" Huffman? . . . Two Decatur employees have distinguished themselves and received recognition from the Red Cross for their participation in the blood donor program. Jay Moser is a two-gallon club member and last week began contributing his third gallon. Dorothy Schnepf became a gallon club member with her contribution last week. Decaturites wish to extend congratulations to Jay and Dorothy for this great service to their fellow men. We are also proud that several other Decatur employees are active in the blood donor program.

COPYRIGHT 1954 CARTOONS OF THE MONTH

Erven C. Huth

## Erv Huth Takes Cost Sup'r Post In Spec. Motor

Erven C. Huth has been appointed supervisor of cost in salvage, stores, and plant services of the Specialty Component Motor Department, Donald D. Brayer, plant engineer, announced today.

In 1927 Mr. Huth joined the company and went to work in the stockroom. Later he went into cost work and then did ordering and cost and payroll. In 1938 he entered cost in general service and was doing this work in Specialty Component Motor at the time of his present appointment.

Mr. Huth is a member of the Quarter Century Club, Supervisors Club, and is athletic chairman of the GE Club. The Huths, who have one son, reside at 1913 Brown St.

## SMOKEHOUSE SAYINGS

BLDG. 22

by George Winans

So long to Leo Freed, who leaves us to join the sheet metal gang, Bldg. 19-3. . . . Charlie Castle got back safely from New York and he reports that the fashion for men there is black suits with white polka dots with pink shirts and ties. What were the ladies wearing, Charlie? . . . Congratulations to Harold (Fatso) Smith on his completion of 25 years with GE and hats off to the company for putting up with him all of these years. . . . Almost everyone has safety glasses now since the safety drive, but we wonder if a couple of the boys didn't get theirs switched. Waymon Morton can't see anything through his and Lester Bland can't tell a Chevy from a Pontiac. He tried to swipe Vouncey Becker's car off the parking lot the other night. . . . A big hand to Officer Tieman, who will be on duty at the Coliseum this week-end, where Liberace is giving his pop concert. Imagine trying to keep order in a building that size filled with screaming, clawing females! I notice here lately that Liberace has a doll sitting on the piano while he is playing. It reminds me of my younger days. Dolls used to sit on the piano while I was playing, too. I wonder what ever happened to that redhead.

## SPECIALTY MOTORS

Shipping—Receiving—Order Service

by Mabel Fisher

We welcome Howard Miller and Della Abel back to our midst. It's nice to have you back with us. . . . Fred Wheeler evidently became tangled with the lawn mower. His hair is really clipped. . . . Congratulations to Mr. Uncapher, his twenty-fifth wedding anniversary being today. . . . Our sympathy goes to Evelyn Kissinger, who mistook her finger for a stalk of asparagus. . . . Happy birthday to Doris Kennedy, Charles Strong, and Beverly Gehert. . . . A reception was held Friday, May 7, in honor of Tom Dent, who retired after 42 years' service at General Electric. Many of Tom's friends assembled to wish him well, and since he said he was going to spend his retirement in the shade of the old apple tree, we had a tree on his desk with apples tied on the branches. Tom was presented with a set of woodworking tools and binoculars. He will spend a portion of his time at his summer home at Lake George.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

My, what a short spring we had and even snow on Mother's Day! Cheer up, if we must have rain for seven Sundays after Easter we only have four more to go. . . . Kenny Wills put a dime into the candy machine and received a dime bar. Thinking the bar was a nickel one, he tried to force the machine to give him a nickel in change. . . . We want to extend our sympathy to Bernice Gasper, whose brother was killed. . . . Betty Nuckols, Mary Epperson, Marcella Koska, Annabelle Ungerer, Thelma Blue, Helen Murray, Alma Anderson, Eileen Case, and Jeanette Conrad have all joined us on days and Mildred Hendenlang has left us. . . . Ruth Bonham was pleasantly surprised with ice cream and cake for her birthday. . . . Phyllis Dos-

REACHES 35-YEAR MARK—Friends of Ed Klomp honored him with a dual celebration this month—his 35th anniversary with the company, May 6, and his birthday, May 9. Carl Hattendorf presents him with a gift on the occasion. Mr. Klomp is a foreman in Bldg. 17-4 at the present time. He joined GE as a machinist in 1919.

well has a brand new sparkler on that certain finger. The big day is June 26. . . . Marvin Van Skyock spent the week-end in his home town of Portland, visiting relatives and attending the alumni reunion at his alma mater. . . . The Taylor St. bowling gang want to thank Frank Beatty for the swell party he gave them. . . . Since Bob Boone's horse became too old to bring him in any extra money, Bob started selling cars. If you are in the market for a car, just see Bob and he'll treat you right. . . . You have heard a lot of stories about mushrooms and how many people find, but Dallas Patton tops them all. Pat claims he found a whole peck in less than an hour. Furthermore, he brought them home to prove his story. . . . Bob Bauer has a method of taking groceries in the house. When he came into the front room the sack broke, so Bob and his wife played pick-up for a while.

## 6-4 AIRLINERS

by Moe Satterthwaite

Fritz Krotke has informed us that his brother, John Krotke, who is a lyric tenor, will give a recital at St. Paul's School Auditorium at Barr and Madison Sts., May 16, 8 p.m. The program will include such well-known favorites as "Because," "Trees," and "Without a Song," plus a few Irish ballads as "A Little Bit of Heaven," "Mother Machree," and many others. The public is cordially invited. There will be no admission charge. Fritz would appreciate it if his co-workers in Bldg. 6-4 as well as the rest of the plant would support his brother's efforts in Sunday evening's entertainment. . . . Jane Crain went mushroom hunting last week-end. She must have thought they had ears as she took off her shoes so she could sneak up on them. . . . Bertha Seibold thought

her TV set was broken. She went a week without watching it and then she finally discovered she hadn't turned the "On" knob. . . . Junior Zollinger is sporting a new pair of shoes and by the size of them he got his money's worth. . . . Rose Deim wants it to be known that when she was a little girl in Ohio her neighbor was Frankie Baunholtz, who plays center field for the Chicago Cubs. Here is the proof. . . . Bernice Winters and Marty Sexton are taking Judo lessons. . . . Chris Darling uses her finger to check the heat of her solder. . . . Lillian Shaffer has started to get her school figure back again. She says all it takes is a little will power. . . . The sports banquet that will be held Tuesday will be well represented by Airliners, namely: Ruth Baker, Betty Clevenger, Dorothea Ramsey, George Lude-man, Andy Anderson, Walter Starke, Moe Moffett, Don Greenler, and yours truly. That's a bunch of champions to be working on the same floor. . . . "Little" Moe Satterthwaite has returned to the Marines after his recent boot leave. . . . Happy birthday to Ralph Obringer. . . . Congratulations to Mardo Tobias on his 40th anniversary with GE.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

No doubt our readers will recall the stories we published from time to time about Frank Kimble (now retired) and his famous "Black Beauty," that is his 1936 Buick road roller. This report we have received is hard to believe but nevertheless it is true. Frank finally broke down and disposed of his ancient struggle buggy, trading it in on a beautiful, new two-tone green Chevrolet Bel-air. We hear that they allowed him \$15 on "Black Beauty." The natives of Ligonier are going to be treated to a thrill this summer when Frank makes his annual pilgrimage to this northern Indiana community. No doubt but that some of the old-timers will be disappointed if not a little jealous. . . . Darrel Borne is now making plans to construct a new home. He has come to a decision on everything with the exception of the roof. He is undecided as to whether it should be of the conventional type or hip style. Our suggestion to you, Darrel, is to stick to the conventional as it would be very disappointing to have your new home resemble a glorified barn. . . . As we told you several weeks ago, Darrel Daniels was desirous of having his yard leveled off for free, but did offer free eats and drinks to all who applied. This fell flat and as a last resort he had to hire a man with a bulldozer to do the job. Now free groceries and drinks did not appeal to this guy so Darrel had to pony up the cash. . . . Some of the boys in the rotor section are of the opinion that the rear of Herschel Foreman's head resembles that of Liberace, but viewing it from the front his dome clearly resembles that of Art Brandenburg.

Boss: "Have you any letters of references?"

New employee: "Sure, read this."

Boss: "To whom it may concern: Bill Smith worked for us one week and we were satisfied."

"HOUSE OF WONDERS" show, which is staged by the Fort Wayne Laboratory, was presented for the last time this season in the city at Concordia High School last week. Marion Halleck, Bldg. 28-2, right, and Robert Drake, Bldg. 28-2, explain the "talking light" to Ralph Kern, Walter Lobitz, and Robert Lepper, students.

## Apprentice Alumni Plan Big Stag Event

A gigantic stag party for all graduates of the Apprentice School will be staged by the Apprentice Alumni Association Wednesday, June 2. The event which will honor Walter Wolf, supervisor of the Apprentice School for 24 years, will be held at 6 p.m. at the Rhythm Ranch on the Miller Rd. A smorgasbord dinner will be served.

Dick Gebert, general chairman for the affair, emphasized that all Apprentice graduates are urged to attend. It is not necessary to be a member of the Association. Any graduates who have not been contacted may make reservations through Marc Junk, Ext. 2701.

### Committee Members

Other committee members include Charlie Wilt and John Lare, house committee; John Leffers, entertainment; Marc Junk and Sam Lahrman, attendance; and C. H. Brandt, publicity.

Donations from each person attending the affair will be \$1.75 each. This may be given to contact men at the time reservations are made. The fee will include dinner and entertainment.

### 727 Graduates

There have been 727 graduates since the first apprentice class graduated in 1916.

## Company to Make Proposal Monday

General Electric will announce its economic proposals to be made available to most employees Monday.

The company has advised IUE-CIO, UE, and other unions where contracts are now open and negotiations are in progress that it will present such definite proposals as it plans to make in this year's negotiations Monday.

The company meetings with IUE and UE will take place separately in New York.

The company is meeting locally today with Lodge No. 70 IAM-AFL to discuss contract changes. Another meeting will be held with them Monday to present the company's economic proposals.

**PERFECT COMBO**—Warm weather, a pretty girl, and a convertible—what more could anyone want these fine days? "That the convertible's brakes, tires, and steering have all been checked for safety," says Sally Lepper, Bldg. 2-2, proving she's wise as well as pretty.

**MEMORIAL SHOVEL**—Acting Mayor Robert Meyers (left) and City Councilman John Robinson (right) visited General Electric this week to present a miniature nickel-plated shovel commemorating the ground-breaking for the Nickel Plate elevation to H. A. MacKinnon, vice president. Mr. MacKinnon accepted the memorial shovel on behalf of all General Electric employees interested in this civic improvement.

**RABBIT HABITAT**—Habits of rabbits are always amusing, but they brought a special chuckle to Winter St. employees last week when a rabbit's nest was found in front of the main entrance. The four young hares are thriving very well in the newly landscaped area.

WOULD YOU CARRY IT AROUND IF IT WEREN'T  
FASTENED ON?

## Recommended Reading

Starting today in your GE NEWS will be a series of four articles dealing with health. These articles will cover the overweight problem which is of concern to many of us.

Material contained in these articles was gathered from studies of hundreds of thousands of insured men and women and certainly should be of benefit to all who are faced with the overweight problem. Such subjects as "Controlling Weight", "What About Calories", "A Way To Weight Control" and "Low Calorie Diets" will be discussed.

This series is recommended reading to all GE employees, particularly those over 30 years of age. Remember, we do not inherit stoutness or slimness, we inherit bone structures. Excessive fat is usually caused by habit.

Let us all make it a point to follow these articles in the GE NEWS and learn from them. It will pay us extra dividends in a feeling of well being, longer life expectancy, and better appearance.

### Primer on Communism: No. 5

## How About Reds as Solons?

Elected representatives, including Communists, in every country generally must swear under oath to uphold that country's laws and government. But Communists know, as they swear falsely, they are bound as international communism has decreed in "The Communist Party and Parliamentarian."

"Each Communist representative must remember that he is not a 'legislator' who is bound to seek agreements with other legislators, but an agitator of the party, detailed into the enemy's camp in order to carry out the orders of the party there. The Communist member is answerable not to the wide mass of his constituents but to his own Communist party—whether legal or illegal."

(Adapted from the "Primer on Communism," published by the Anti-Defamation League of B'nai B'rith.)

## BLOOD DONORS

The following people donated blood during the week ending April 30. These employees are from the Specialty Transformer Dept. and Small Integral Motor Department:

Harold E. Cornish, Mary Hire, Jerome Jacobs, Carl Kuzeff, James M. Savio, Lloyd S. Stubbins, Arthur C. Swain, Lyle L. Tarlton, Don R. Batchelder, Arthur C. Garner, Wanda M. Grimm, Delbert E. Hartman, Dixon F. Hemphill, Richard J. Keyser, Keith D. King, Joseph P. Kraft, Sylvia M. Lazoff, John Lea, Melvin J. Keykauf, Henry H. Mason, B. P. Miracle, Lewis N. Moore, George B. Morgan, Shelbert Mosley, Jr., Robert R. Rietdorf, Robert F. Rowe, Beulah Shaffer, Robert G. Shoemaker, Donald L. Stearns, and F. Allen Tew.

Richard J. Keyser and Robert F. Rowe are one-gallon donors.

The following employees donated blood during the week ending April 23. These people are from the Hermetic and DC Motor and Generator Department:

Vance M. Burnau, Floyd E. Garland, Joseph Haas, Kenneth E. Hegel, Edmund S. Jones, Harold C. Kiel, Frank Ruesewald, Helen L. Miller, Arthur Braun, Vernon R. Castle, Earl M. Cheever, Robert W. Dent, William B. Gallmeyer, R. C. Haneline, Douglas C. Heckman, George F. Hinsch, George Jennings, R. J. Killian, Wilbur C. Kurtz, Sam Lahrman, Robert J. Lauer, Charles C. McClure, D. E. McLamore, Calvin W. Marhenke, Leonhard Michel, Harold A. Misegades, Joseph Orbin, B. J. Pearson, and Ralph E. Schroeder.

Joseph Haas is a one-gallon blood donor.

The following employees from the Specialty Component Motor Department donated blood during the week ending May 7:

A. R. Diehl, Thelma Kouder, Boyce Lambert, Sr., Robert M. McCague, Robert Markey, Yvonne Moore, Eugene M. Riley, Ray F. Allman, Carl A. Alter, Russell J. Carteaux, Ross M. Domer, Paul Dove, Robert K. Drake, Merthyn E. Evans, Donald W. Firks, Glenn France, Roger A. Fuller, Nelson W. Furthmiller, Nora Furthmiller, Raymond Gard, Margaret K. Geroff, Antonio Gonzalez, Henry Grepke, M. C. Hamilton, Jack Harrison, Orval Harrold, Eloise Hoehn, Donald J. Lauer, JoAnn Montgomery, Stephen Nagy, Leroy Ooley, Richard B. Parker, Morton G. Pugh, Leslie B. Rivers, Leland Shaw, and Braden H. Stevens.

## THE NIGHT WIND SECTION 417 TAYLOR ST. by Hazel Davis

We were sorry to hear that Arveda Neal and Mildred Brown are both hospitalized with operations. We wish both of you girls a speedy recovery. . . . Mr. and Mrs. Harley Springer wish to thank everyone for the lovely flowers Mrs. Springer received during her illness. . . . Edna Parker had her doghouse ready, also a name, but she didn't get the puppy. Any offers? She would like to have one. . . . Tracey and George Bartle spent Saturday at the time trials at Indianapolis. . . . Blanche Mulligan is sporting a brand new, blue Plymouth. The Bartels have a new Nash.

# Controlling Weight

How's your weight?

Perhaps you come close to what is considered normal for your bone structure and height.

Perhaps you don't know what your weight should be. Here are some tables prepared from studies of hundreds of thousands of insured men and women:

### DESIRABLE WEIGHTS FOR MEN OF AGES 25 AND OVER

HEIGHT (with shoes on)		SMALL FRAME	MEDIUM FRAME	LARGE FRAME
Feet	Inches			
5	2	116-125	124-133	131-142
5	3	119-128	127-136	133-144
5	4	122-132	130-140	137-149
5	5	126-136	134-144	141-153
5	6	129-139	137-147	145-157
5	7	133-143	141-151	149-162
5	8	136-147	145-156	153-166
5	9	140-151	149-160	157-170
5	10	144-155	153-164	161-175
5	11	148-159	157-168	165-180
6	0	152-164	161-173	169-185
6	1	157-169	166-178	174-190
6	2	163-175	171-184	179-196
6	3	168-180	176-189	184-202

### DESIRABLE WEIGHTS FOR WOMEN OF AGES 25 AND OVER

HEIGHT (with shoes on)		SMALL FRAME	MEDIUM FRAME	LARGE FRAME
Feet	Inches			
4	11	104-111	110-118	117-127
5	0	105-113	112-120	119-129
5	1	107-115	114-122	121-131
5	2	110-118	117-125	124-135
5	3	113-121	120-128	127-138
5	4	116-125	124-132	131-142
5	5	119-128	127-135	133-145

5	10	136-147	145-155	152-166
5	11	139-150		155-169

Let's examine what you may think are among the causes for overweight. First, many people think they are overweight because of a glandular disturbance. They think their bodies don't burn up the food they consume at the proper rate. This MAY be what causes your weight problem. But, this is true of very few people. If this is your problem, your doctor will tell you so. He will treat your glandular disturbance, and this may help to reduce your weight.

Some people think they inherit a tendency toward stoutness. The fact of the matter is we do inherit our bone structures, but probably not actual fatness or slimness.

As a matter of fact, most stout people admit that they just like to eat. So, let's examine the reasons why so many people overeat. Whatever the reasons, one of them probably isn't the actual need of the body for food.

Many of us overeat from habit. As we were growing up, we needed and consumed quantities of food. However, as we reached 30 and 40 our body's requirements became considerably less. We spent more time by the TV set than on the beach, but still we went on eating and eating. The result has been more and more excess weight.

Some of us just naturally select the wrong foods. We reach for cake or pie instead of fresh fruit. We nibble peanuts and potato chips between meals. For these fattening foods we could substitute plain tea, coffee, fat free milk, or fruit.

Some of us overeat for emotional reasons. We are bored and eating is pleasant. We feel lonely, stymied, or tense. Eating seems to give us a lift, but at what a price!

If we try to solve our emotional problems, rather than substitute eating, we may find ourselves streamlining our figures.

Some wise fellow said, "The best exercise for most of us after we pass the age of 30 is to push ourselves away from the dining room table." It's a lot easier to control our weight than to lose weight.

However, if your overweight problem seems to be more than overeating, by all means see your doctor. He'll help you to streamline yourself.

Herbert P. Vogel

John W. Braden

Robert D. Elder

## Small Integral Motor Announces Employee Relations Organization

The organization of the Small Integral Motor Department Employee Relations Section has been announced by Alan C. Lord, manager of the section.

Herbert P. Vogel has been appointed personnel practices specialist. John W. Braden has been named safety and suggestions specialist. Robert D. Elder has been appointed labor relations, training, and communications specialist.

In May, 1953, Mr. Vogel joined General Electric and was an employment interviewer at Winter St. until his present appointment. He graduated from Concordia College in 1936 and has received his AB and BD degrees from Concordia Theological Seminary, St. Louis. He received his AB degree with a major in law from Valparaiso University in 1947.

From 1942 until 1946 Mr. Vogel served in the U. S. Army as a chaplain and served in the same capacity in the U. S. Air Force from 1951 until 1953. He is a member of the GE Squares Club. He is a native of Humboldt, Kansas. Mr. and Mrs. Vogel and their two children reside at 4115 Indiana Hills Dr.

When he came to the company in 1927 Mr. Braden entered the Apprentice School. After graduation from the pattern maker course in 1930 he went into pattern making. In 1939 he became a tool-maker and later transferred to Taylor St. on that job. From 1951 until his present appointment he was a model maker in Bldg. 17-4.

Mr. Braden is a member of the Apprentice Alumni Association and Quarter Century Club. He is manager of the North American Van Lines Semi-Pro Baseball team, which won the 1950 World Semi-Pro Championship. He managed the GE Voltmen semi-pro baseball team in 1947, 1948, and 1949 when they won the national championship.

The Bradens, who have two children, reside at 926 Kinsmoor Ave.

At the time he joined the company in 1945 Mr. Elder went to the Kokomo Plant on time study work. The next year he transferred to Tiffin on the same work and in 1949 went into planning at Tiffin. He became supervisor of wage rate in Section 419 in 1951 and had this position until his present appointment.

Mr. Elder completed training in the Civil Service Aeronautical School in Dayton, Ohio. He was a member of the U. S. Air Force from 1942 until 1945. While in the

GUEST SPEAKER—Robert Paxton, executive vice president of the General Electric Company, chats with Arthur W. Bireley, Supervisors Club president, and Roy Paulson, president of the Foremen's Association, before addressing the combined groups at a dinner meeting last week in the GE Club.

## MTP Groups Reveal May Meeting Plans

May meetings have been scheduled by MTP members and the MTP Wives Club. MTP men will meet this evening at 7 p.m. at the Dutch Kitchen for a dinner and program.

Joseph Lesh, U. S. attorney, district of northern Indiana, will be the principal speaker. He will discuss "Crime Control in Northern Indiana."

Clair Otis, Bldg. 17-3, is chairman of the meeting. He is being

Service, he attended the St. Louis School of Aeronautics and served in the European Theater of operations. He is a member of the Supervisors Club and Decimal Minute Men.

assisted by Leonard Wholey, Bldg. 18-3. Refreshments and entertainment will follow the program.

Wednesday, May 26, the MTP Wives will convene at the home of Mrs. Doyal McLamore, 4871 Oliver St. at 8 p.m. Mrs. Martha Nash of the Ravens-Croft School of Beauty, will be the guest speaker. She will give advice on hair styling and make up. Mrs. Jack Vincent is assisting Mrs. McLamore with arrangements for the meeting. Refreshments will be served following the program.

## El-Par Board to Meet

The executive board of El-Par Chapter of Elex Club will conduct a board meeting Thursday, May 27, Mamie Allen, president, announced this week.

The meeting will take place at Miss Allen's home, 2625 Fox Ave. It will begin at 1 p.m.

# Power Cables Ignite; Start Fire in 17-4

A fire resulting in an estimated loss of \$3500 occurred Thursday, May 13, in a group of power cables in the north-east corner of Bldg. 17-4, Ernie M. Hanauer, GE fire chief, reported this week.

The automatic operation of one sprinkler head completely extinguished the fire which occurred about 5 a.m.

Chief Hanauer said that the fire was probably caused by vibration wearing the insulation from certain cables and causing a short circuit which ignited. He said that the AC and DC cables in the area are being separated into smaller groups and wrapped with asbestos tape to eliminate a recurrence

of the fire.

Last week firemen patrolled one-fourth of the Taylor St. Plant while the area was shut off without fire protection from the automatic sprinklers. This action was necessary when a water main outside the plant broke and was being repaired. It took 49 hours to complete repairs on the water main and full protection was back in force by Thursday, May 13.

## GE Vets Announce Program For Memorial Day Services

The order of events for the Memorial Day service to be conducted by the GE War Veterans Association Friday, May 28, has been announced by Herbert Koch, Bldg. 2-2, member of the committee in charge.

Beginning at 12 o'clock noon, the following half-hour program will be presented:

Post colors (all at attention), color guard from Post 47.

Open program, Roy Brower, president.

Welcome for GE veterans by L. C. Swager.

Invocation, Rabbi Frederic A. Doppelt.

Address, Father Joseph Crowley. Placing of three wreaths by three World War veterans.

Firing squad, Post 47.

Sound taps (during one-minute period of silence) by Robert Jellison, bugler; Theron Weaver, echo.

Benediction, Rev. Russell E. Palmer.

Retrieve colors, color guard.

Word of thanks for GE veterans, Mr. Swager.

All persons taking part in the

service are asked to be at the West Broadway gate at or before 11:30 a.m., Mr. Koch stated. He added that any veterans who would like to participate in the program by appearing in the uniform of their branch of the Armed Forces should contact Carl Rehling, Bldg. 20-2, Ext. 613.

## Bangert Elected President Of Purchasing Agents

Robert E. Bangert, Bldg. 4-6, was elected president of the Fort Wayne Association of Purchasing Agents at the group's annual dinner meeting Monday evening.

Mr. Bangert is a former secretary of the organization.

THE GE SQUARES WIVES CLUB presented a check to the Allen County Council of Parents and Teachers Scholarship Foundation last week as part of their philanthropic project. Making the award were Mrs. Stanley J. Antalis, chairman of the ways and means committee, left, and Mrs. Richard J. Kilian, center, president. Mrs. James C. Wire, secretary of the Scholarship Foundation, right, accepted the gift.

## George C. Wedel Appointed Hermetic Application Engineering Specialist

George C. Wedel has been appointed application engineering specialist in the Hermetic Motor Department, Robert J. Winner, manager of sales, announced this week.

In 1945 Mr. Wedel came to the company and was a design engineer in the Air Conditioning Department at Winter St. Later he was a product engineer.

George C. Wedel

After moving to Hermetic Motor in September, 1952, Mr. Wedel became a sales engineer and had this position until his present appointment.

From 1941 until 1945 Mr. Wedel served in the U. S. Navy and spent part of this time in the Pacific Theater of action. He is a graduate of the University of Wisconsin, receiving his BSME degree in 1941. He is a registered professional engineer in the State of Indiana and is a member of FWAGEE.

The Wedels and their two children reside at 4609 Euclid Ave.

## 6-4 AIRLINERS

by Moe Satterthwaite

Since Liberace has left town everyone can relax and get back to normal. It's going to be hard for Rose Deim though. She went to see him Saturday night and bought a general admission ticket. After a while she noticed some five dollar ringside seats that weren't taken. Rose sat with the elite for the rest of the show. After it was over she talked with Liberace. She asked him if he could speak Polish and he replied, "No," but said that his mother could. George was standing there too, but Rose forgot to look at him. Betty Clevenger and Dorothy Webber also attended the show with their husbands. . . . Freddie Sarrazin was really hurt last Friday because I mentioned Junior's new shoes and didn't mention his. I'm sorry, Freddie, but yours aren't as big as his. . . . Here is a picture of

After Cookies

Mike Keesler, son of Merle Keesler, on his way to the cookie jar. . . . Carl Metker almost won the roll-off in the mixed doubles bowling league, but he says the tenth frame splits beat him. . . . Tony Mandra did his good deed for the year. He stopped his car and let a pedestrian cross the street. . . . Pondo almost lost all of his hair to the barber last week. It's so short he is growing a mustache so you will notice it instead of his head. . . . Frank Serovia's son paid us a visit. He is home on leave from the Navy. . . . Elmer Harshman attended the 500-mile qualifications last Saturday and he has the tan to prove it. . . . Andy Anderson and George Ludeman rolled in a

## Electric Blankets On Sale at Store

An end-of-the-season sale on GE electric blankets opened at the Employee Store, Bldg. 8-1, this week, Ray Fischbach, manager, announced.

Single bed, single control blankets are available in a variety of colors at \$20 each. Double bed, single control blankets are \$21 each and may be purchased in a variety of colors.

The blankets are Class E, which means they have slight imperfections that do not affect their performance, Mr. Fischbach stated. The wiring in them and the controls are in good working order, he said.

## 2-2 TALES

by Belle Buchan

It is nice to have Audrey Hickernell back at her desk after her recent illness. . . . Agnes Godfry was a very surprised person the other night when she won a nice big cake. She promised to serve the cake with tea in the office, but as yet we haven't seen either the cake or the tea. . . . This week we said good-bye to Barbara Houser, who left to finish the layette she has been making for some time. Good luck, Barbara and Randy. . . . Last Sunday Eldon Roby celebrated his thirty-ninth birthday. (Oh, yeah). He must be related to Jack Benny, for he refused to treat because his birthday fell on Sunday. . . . The Birthday Club was entertained this week by Maxine Young. It was, in a way, a celebration for Maxine, as she is a new bride in her own new home. . . . Several of the girls in the office, also John Magley, are patiently waiting for their "Wonder Flowers" to bloom. They looked very pretty out on Broadway, but as I said, we are watching and waiting. . . . Warm weather just has to put in an appearance now that Jack Welch is wearing a classy new sport shirt. . . . John Magley was standing on the corner of the street bursting his buttons, because a crowd of women was smiling at him, or so he thought. Then he turned around and there was Liberace. What a let-down!

## Harley King Appointed Supervisor Of Hermetic Quality Engineering

The appointment of Harley L. King as supervisor of quality engineering in the Hermetic Motor Department was announced this week by George B. Howell, manager of Fort Wayne operations.

Joining the company's Schenectady Plant in May, 1946

Mr. King entered the Test Engineers Program. After completing the program in October, 1947 he went into planning and central wage rate and the following year entered planning and industry control.

In 1949 Mr. King joined the Advanced Methods Planning and Wage Rate Program. He became staff assistant to the manager of wage rates for the Apparatus Department in 1951 and later that year was named supervisor of planning in the Large Steam Turbine Department. Later he went on special assignment in that location and in the Specialty Control Department at Schenectady. In March this year he moved to Fort Wayne and entered Hermetic Motor manufacturing.

From 1943 until May, 1946 Mr. King served in the U. S. Air Force. He graduated from the University of Arizona with a

Harley L. King

BSME degree in 1943. He is a member of the Supervisors Club. The Kings have two children.

## DECATURITES

by George Laurent

Some people have all of their bad luck in one day. At least Frank Braun does. One day last week Frank mashed his finger. Then that evening he fell flat on his face over his own lawn mower, receiving a "very crushed pride." He stated he looked right away to see if anyone saw him. Then before the day was over he found that his favorite flower was broken off. His wife was not home and he had to get his own supper and I haven't heard if he burned it or not, but probably did. . . . Happy birthday to Eric McConnell, who celebrated May 14 by treating the girls. We hope you have many, many more happy birthdays, Eric. . . . If you see Phyllis Gerke putting a sign on her desk reading "Gerke En-

terprises," take heed. You see, Phyllis went into business for herself last week-end. Be on guard when she approaches you with her convincing sales talk. The fact is, she made 20 cents clear profit last Saturday in just a few minutes time. . . . Decatur employees consider safety as part of their job. That they are doing a GOOD job is proven by statistics which show that they have worked more than a year (last lost time accident 5-14-53) without a lost time accident. . . . GE Club has again entered a golf team in the Adams County golf league. Members of the team are John Baumann, Kenny Gaunt, Tom Haubold, Paul Hancher, Denny Dowell, Clarence Morgan, and George Laurent.

## Pensioners Parade

From the state of citrus fruit and palm trees, Carrie E. Menges writes that she has spent eight months in Florida and expects to return to Fort Wayne later this month.

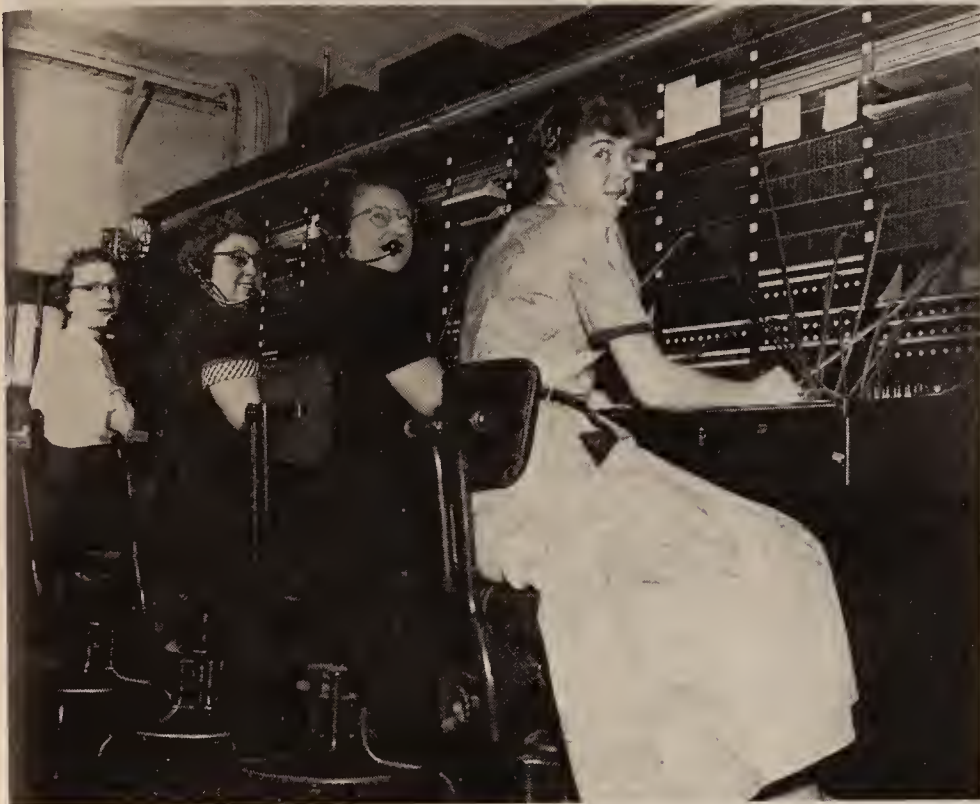

Carrie, who worked in Bldg. 6-4 prior to retiring, has a 27-foot trailer with a cabana built on the side of it and has made this her home in the past months in the sunshine. She is shown above with a cat who in her words, "wanted a home but not his picture taken." The snapshot was taken by her aunt, Mrs. Bessie Crick Nestel, who worked in Bldg. 4-4 here before retiring.

ON HIS 40TH—Forty years with GE was the occasion for honoring Mardo T. Tobias (second from right). Shown with him on his anniversary are (l-r) Frank T. Gamec, William Wickliffe, Herman Korte, and Carl Hattendorf. Mr. Tobias joined General Electric in 1914 and is a foreman of field winding and finishing in Bldg. 4-3 at present.

# Their Lines Are Always Busy

BEST KNOWN GE VOICES belong to the telephone operators who handle thousands of calls to General Electric daily. Left to right are Erma Cumming, Josephine Heller, Madalyn Fryer, and Inez Swangin.

## WINTER STREET JOTTINGS

by Margie Hill

This week we're welcoming the following transfers: Anna Fairbanks, Cleo Denton, Violet Henderson, Helen Buck, Helen Bergman, Ilo Johnson, Frances Funderburg, Helen Francis, Mary Barnes, DeWayne R. Hinman, Olden Thomas, Glenn Kaylor, Kenyon Settlemire, Maurice Humphery, Edna McGahen, Harriet Minch, Norma Kennerly, and Laotta Haverstick. . . . We are extending a welcome back to Waunetah Brockmyer from her illness and to the following guys back from the Armed Forces: Norris Comings, George Sowles, and Jack Ladig. To the office force we welcome Adeline Cutigni in Procedures, James Pounds in Drafting, Elmer Pion in Manufacturing, Harold Knepp in Manufacturing, and Frank Deyo in Procedures. . . .

**NEWS OF THE WEEK:** SIM office party. Yes, that's what the big talk was about all last week. In case you were anywhere on the first floor and it sounded as though the ceiling was going to fall in any minute, we hope you didn't think too much of this matter. You see, it was just the girls practicing their chorus routine up on second floor. We hope you won't judge the girls by the sounds they were making because they're really not horses. . . . The party was a splendid success and everyone had a great time. The feature of the evening was of course the Gay Ninety Bathing Revue Contest. The girls paraded in the latest Gay Ninety clad and to the comments about the girls and suits from Dix Hemphill who, we are adding, was slightly terrific as an M.C. The judges for the contest were T. L. Mayes, M. L. Kresge, J. H. Behm, and L. D. Fowler, who were quite in style with top hats, mustaches, and last

but by no means least, safety glasses. Being a contest, of course there was a queen and Alma Elliott was the lucky one, indeed. She was presented with a lovely crown from T. L. Mayes. . . . After the contest was over the rest of the evening was enjoyed by dancing to Herm Binkley's orchestra. Again we're thanking the committee for the dance and Dix Hemphill who really got the show on the road. A belated round of applause goes to Mrs. Phil DePrinzio, who was really responsible for the dance routine. She had a lot of confidence in us, didn't she? . . . We talked to Marc Koehn the other day and she wishes to extend her thanks to everyone who has remembered her with cheer notes, cards, and visits. Hurry back, Marc. We all miss you.

## Two Employees Attend Resources Conference

Ralph D. Hodges, Bldg. 28-2, and G. D. Doeden, Bldg. 26-2, attended the National Resources Conference at the University of Minnesota, May 3, through 14.

The conference was offered by the Industrial College of the Armed Forces in Washington and sponsored jointly by the Fifth Army, Ninth Naval District, Tenth Air Force, and University of Minnesota. Instruction and a study analysis of the broad aspects of world political, economic, and power patterns were presented.

Mr. Hodges is a lieutenant-colonel in the U. S. Army Reserve and Mr. Doeden is a lieutenant in the U. S. Naval Reserve.

Let's plug in for a minute to the most frequently heard General Electric voices. They belong to our telephone operators who man the four position switchboard in Bldg. 20-2. Seeing and hearing the girls on the job makes you wonder how they manage to keep any of the calls straight, let alone remain courteous and helpful.

Telephone operators are often called the heart of a company's public relations program. This is easily understood when you consider they handle more than 3,500 incoming calls daily and 7,000 long distance calls a month. These are in addition to about 3,000 calls a month over the leased wires.

The eight operators are: Erma Cumming, Mary Hopper, Madalyn Fryer, June Marshall, Josephine Heller, Helen Hlawek, Inez Swangin, and Virginia Hernandez.

### Fulltime Service

The first shift goes on duty at 6:30 a.m. and the second goes off duty at 11:48 p.m. That doesn't mean GE telephone service comes to a halt at 11:48, however. The last operator on duty transfers the board to the guard at the Bldg. 19 gate who doubles as telephone operator during the third shift.

These girls seem to know every plant extension at GE and rarely have to refer to their directories. One of their biggest problems is

trying to locate people when the outside party doesn't know where they work or what their extension is. If the call can't be transferred to the employment office, they often try to get a clue from the party calling.

One such caller with apparently no idea of the size of GE's operations said to the operator, "Just go into that door down there and he's the bald-headed man at the front desk."

On another occasion, one of the operators asked the party calling a GE employee if she knew what type of work the employee did. "I don't know anything about her," came the reply, "except that she gets her aprons ungodly dirty in the front."

### Expert Detectives

Despite such hit-or-miss descriptions, it is only rarely that parties can't be located. "I guess we're just lucky most of the time," one of the operators explains.

After they have said "General Electric" several thousand times a day to people in every state of the Union and sometimes foreign countries, they admit they often answer their home phones with the same greeting.

The operators don't handle any calls placed from the inside. That is, when you make an outside call from your plant phone, it never appears on the board. People frequently ask that these calls be transferred to other extensions which can't be done. Sometimes the operators may have trouble in explaining this to people.

But, they agree, nearly everyone is nice to work with and what is more, the operators like their jobs. "It's nice clean work," one of them commented, then added with a sigh, "but you can't ever put anything off until tomorrow!"

TIME OUT—June Marshall (left) and Mary Hopper are shown taking a few minutes rest from the busy boards. Operators, because of the strain of their work have periodic breaks during the day.

**HOLIDAY OPERATOR**—Guards at the Bldg. 19 gate take over the switchboard operations on the third shift, week-ends and holidays. Here Edward J. Parisot mans the board during a holiday lull.

## PICK-UPS from 26-3

by Maxine Jordan

If you saw anything strange about Virgil Buchanan's actions last week, it was just his new bifocals. . . . One day Ray Papenbrock couldn't remember Levi Carpenter's name so he called him "Red Eye." We might add that Levi had a red shirt on that day. . . . Larry Ehinger received a phone call from the Police Department, or so he thought. Larry was sure he hadn't parked by a fire plug. Everyone but Larry had a good laugh. . . . Margaret Pelkey had a happy birthday last Saturday. . . . Kermit Griffin celebrated his birthday April 14. The Sample Shop was treated to a nice big cake. . . . Mac McCray gives face adjustments. If interested, call at his office. . . . Arnold Wolf is getting to be a wonderful winder. He tried to wind a whole roll of tape into the coils. Sorry to tell you, Wolf, but it will cause the coils to be oversize. . . . The union stewards on the floor would like to thank everyone who donated to the Riley Hospital Research Fund. . . . Shorty Pequinot must be in his second childhood. He surely enjoys making a scooter out of his pushcart. . . . Frank Clifton has a new hobby. He is making aprons for the ladies. . . . Art Pequinot didn't care for the new paint job someone gave him on his car. He spent a lot of time and hard work trying to get it off. . . . Lena Forker wants proof when anyone wins check pool. . . . With all the rolls, cakes, and cookies Ruth Freeland eats, how does she think she can reduce? . . . Summer has arrived for sure. We see Art Pequinot carrying his lunch and cushion headed for the park.

## OVER OUR WAY

BLDG. 19-1

by Clara Volz

Dick Gettys has left Test to work at the Winter St. plant. We all will miss you, Dick. Hope you will like your new job and lots of good luck. . . . WHAT GOES HERE? As I stepped into the Paint Shop, what should I see but one Bob Kite rejuvenating one of the used scrub buckets. Is that to be used for home purposes, or are you just preparing for the future, Bob? . . . George Winans celebrated his birthday last week. He admits that he is a year older than Jack Benny. Says that life begins at 40, so he's going to start living. (What have you been doing all these years?) . . . The fellows in Bldg. 22 hunted up a crowbar, and proceeded to count off the years on poor George. They stopped eventually. Couldn't bear to see a man cry, I guess. . . . TWO FOR THE PRICE OF ONE: Art Braun and William Bushong met recently at a local barber shop. Now these two aren't what you would say over supplied with that stuff on top, so they tried to inveigle the barber into getting both jobs done for the price of one. Mr. Barberman just couldn't see it their way thought for some trumped-up reason or other so they had to pay full price. (Bet they demanded an extra slap of hair tonic.) . . . Clyde Enslen was looking for a stop watch to check a motor and not finding one at the moment said, "Guess I'll have to use my pulse." . . . I have an item to rectify from last week's column. The reason Ora Martin couldn't open our little office door was because there wasn't any knob on it. Sorry if I caused you any embarrassment, Ora.

**DAY TO REMEMBER**—Thomas R. Dent (center) retired this month after 42 years of service with the General Electric Company. On hand to congratulate him were (l-r) Henry Schwehn; Bob Dent, his son; Paul Buell, and Ed David. Mr. Dent was a freight checker when he came to the company in 1912. He was supervisor of receiving in Bldg. 6-1 prior to retirement.

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Congratulations to Mr. and Mrs. Gerald Johnson on their new arrival on May 5, weighing 8 lbs., 3 oz. Her name is Cheryl Lynnette. . . . Paul Loveless has been highly recommended for TV repairing, and from a very reliable source. On this particular job he fixed the picture to show such a sharp contrast that it now has to be adjusted a little out of focus so that the image will not cut the glass! . . . The next time Melvin Tulley has business uptown he will settle for a parking ticket rather than ride a bus. The last time he decided it would be convenient to take the bus, but when he got his head caught in the doors he made

his decision right then that he would rather pay the fine than lose his head. . . . The following story started when a sprinkler broke loose and Jose Butirrez was drenched and needed a change of clothing. To get home he borrowed Charlie Vernon's car, which was a green 1950 Chevy with New York license plates, parked in the office parking lot. Now Jose called Charlie twice to say he couldn't find the car so Charlie went out to help him, but Jose wasn't around. Charlie saw his car was still in the lot so he asked the guard at the West Gate if he had seen anyone, but the guard answered, "No", which puzzled Charlie greatly. Charlie then went to the East Gate to inquire and the guard said he had seen Jose but he left about 10 minutes before in a green car. This all happened at the noon hour, and another employee who was going

to dinner discovered his car was missing, but he was soon told all of the details. What Jose had done was to go to the wrong parking lot, get into a green 1950 Chevy with New York license plates, turn on the ignition, and head for home. It was just a case where Charlie's keys fitted both of the ignitions but the other key would not fit Charlie's ignition. Jose returned to work in dry clothing and was surprised to see a welcoming committee including the owner of the missing car, and to hear how he was a victim of circumstantial evidence.

A woman motorist was being examined for a driver's license.

"What is the white line in the middle of the road for?" asked the examiner.

"Bicycles," she replied, promptly.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

Oh, Liberace! You were wonderful! The big day finally arrived and was over too soon. The famous one gave a wonderful show for his fans. At least that's the opinion of Ruby Stucky, Luella Ternet, Tommy Williams, and Emily Rollins, who enjoyed the concert very much. . . . You were right, Kate Liberace did buy a car at Butler even if you didn't get to see it. . . . Happy birthday to Beverly Lothamer. . . . Ruby Chrysler has a brand new granddaughter named Debra Kay. . . . The die cast welcomes Gene Kelsey on Press Four and Clarence Lothamer from second trick on Press Six. . . . Louise Rhinehart is going to Holland to see the tulips this week-end. . . . We wish a speedy recovery for Mel Kessner, who is on the sick list. . . . Betty Neeley, Irene Drabent, Tilly Petry, Blanche Lattimore, and Chester Eastes have come on days and Wally Snyder has started second trick. . . . To see a real sight you should see John Dennis handle a broom. It makes him look like a real artist. . . . Darold Emrick went to Indianapolis Saturday to see the time trials at the Speedway. . . . Lillie Felt enjoyed the tulip festival at Holland over the week-end. . . . Maybe they should put bigger signs on the coke and milk machines. Eunice Stinebarger went after milk and came back with a coke. . . . Why does Art Smith call his machine the "money machine?" Is it because the machine produces money or is it his gravy machine?

## SLEUTHING in 4-6

by Al Happel

HELLO UNCLE SAMMY: So says our Kenny George, who leaves us today to join Uncle Sam's great army next Monday. Good luck and send us a letter some time. . . . SLIGHTLY PINK was Johnny Boeckel's face last Monday. What were you doing to collect that sunburn, playing golf? With Ye Olde Sol's promise of warm weather at last, suppose we'll be seeing a lot of red faces, eh? . . . HAPPY BIRTHDAY to Gil Baker and Bob Huffman on May 21 (that's today) and to Jack Cochran tomorrow, Saturday. . . . BASEBALL WAS MEANT for boys is the advice of Ruth Lowdermilk. She tried to be a good sport and play ball with her son, Mike, but it proved too strenuous for her and she had to remain home on Monday. Let that be a lesson to you, Ruth. . . . INFLATION IS HERE: So says Bob Mee when he bought Bob Humbert a coke last Monday. We understand that Bob Humbert put in his own nickel and received a coke. Then he asked Bob Mee for a dime for his coke. Bob Mee asked, "How much does the coke cost? What are you trying to do, (Crook Humbert), cheat your pal out of a nickel?" . . . MARY SMOAK is president of our Liberace Club, but Marian Leiter is the most honored member, now that she has been kissed on the cheek by the great man. To date she still isn't walking on the ground. . . . WE WANT TO WELCOME Bob Rekemeyer to the accounting section. . . . Double Trouble: It's twin boys for Mr. and Mrs. John Taylor. Donald and Ronald were born Tuesday at the Lutheran Hospital. . . . Sympathy to Mabel Waggoner, retired, who was injured in an automobile accident. Mabel is in the St. Joseph Hospital.

**TIME FOR LEISURE**—John Staley (center, kneeling with his sons) opens a tool box, gift of his friends at General Electric at his retirement celebration. Mr. Staley has been a GE employee since 1916 and was a stockkeeper in Bldg. 26-B when he left the company. Standing (l-r) are John Sowers, Glen Dunlap, Harley Volz, Russell Kryder, and Don Travis.

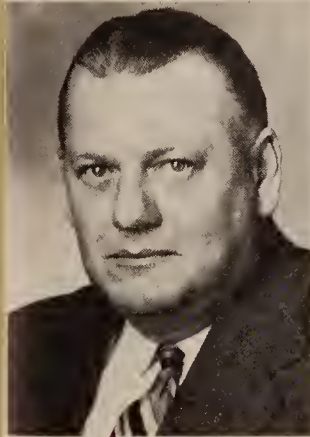

Mathias W. Smith

Mathias Smith Dies  
In Lutheran Hospital

A Quarter Century Club member, Mathias W. Smith, 63, died April 29 at the Lutheran Hospital. Burial was in Greenlawn Memorial Park.

A retired employee, Mr. Smith came to General Electric in September, 1911, and went to work in Bldg. 19-1. He remained in Motor and Generator and later became a toolmaker. He was a machinist in DC M&G when he retired July 1, 1947.

In addition to his wife, Pearl, survivors include three sons, Garland, Donald, and Kenneth, who works in Bldg. 19-5; four sisters, Mrs. Emma Merchberger, Mrs. Clara Hahn, Mrs. Fred Berkman, and Mrs. Mary Siebold; two brothers, John and Bernard, and three grandchildren.

Clayton J. Raquet

Rites Held Monday  
For Q-C Club Member

Services for Clayton J. Raquet, 50, were conducted Monday, May 17, at the Redeemer Lutheran Church by the Rev. Herbert Lindemann. Mr. Raquet died May 13 at the Hinsdale Hospital, Hinsdale, Ill. He had been on a leave of absence for illness since May 1.

In 1922 Mr. Raquet joined General Electric as a winder in Bldg. 19-2. Later he did set-up and bench lathe work and was a toolmaker. He was a surface grinder in Bldg. 19-4 prior to taking a leave of absence. He was a Quarter Century Club member.

In addition to his wife, Elma, two daughters, Sharon and Linda, survive.

Burial was in Lindenwood Cemetery.

TRANSFORMER  
TATTLES  
BLDG. 26-4

by Dutch Norwalt

Famous last words by Tom Freeman: "It's no use being a Dutchman if you can't be dumb." . . . Anyone wanting information on the new waistline styles for '55, see Ethel Shroyer. . . Donald Zumbrum takes all prizes for sleepwalking. Upon missing him one night last week, his wife found him asleep in the bathtub half full of water with his pajamas on. What did you have on your mind, Donald? . . . It's not unusual for Edna DeLeury to have trouble with telescopes on foggy mornings, but it's surprising the trouble she has with a domestic item, like unplugging a coffee pot. For further details, see Jim Voirol. . . It seems that the Transit Company now has some transportation competition. Harry Cranfill is now riding home from work on the St. Mary's Ferry Boat. . . Henry Muller entertained his many friends at a boiled beef supper celebrating his wedding anniversary. . . Some people throw away old rags and old paper but Eva Johnson is a little different. She washes her thermos bottle, throws away the cork, and stuffs paper in the bottle. How does paper work for a cork, Eva?

SPECIALTY MOTORS  
Shipping—Receiving—Order  
Service

by Mabel Fisher

Carol Symond's small son, Danny, has the mumps. We can surely sympathize with you, Danny. . . F. F. Brown is busily engaged in paper-hanging these days. If anyone has need for his help, he will be more than willing to advise you or do the work if you wish. . . Betty Swift is walking around on clouds these days. A certain young man is returning to the United States from Japan after an absence of a year and more. . . Most of us enjoyed Liberace, candelabra, and all, even Helen Brown. Viola Haiber brought her candelabra to Helen's desk, just so Helen wouldn't forget the pianist. . . Beverly Gehert treated the office to some lush chocolates this week, her birthday being Sunday. Liberace also celebrated the day. . . Mary Jane Wise has promised us a treat of home-made cookies any day now in honor of her birthday. In case you are wondering what kind, that is a secret. . . The big question in our minds is when will Ed David buy TV. He is next on the list. We hear he is weakening and it may be any day now. . . Happy birthday to Mary Jane Wise and A. W. Franklin.

SPOT LIGHTS  
BLDG. 4-2

by Estella Pettibone

Birthday greetings to Alma Johnson and Otto Miller. . . Oliver Tracy came back from vacation with a nice sun tan. He reports he has his garden all made. . . Cliff Dunton and Harry Anderson are ready for summer with crew cuts. . . Thanks to all of you for making Spot Lights an interesting column these past two years. We want to also thank the pensioners and the servicemen, who wrote letting us know they appreciated our efforts. As I am leaving this floor, this will be my last item. 'Bye now. Being your reporter has been an enjoyable experience.

THE NEW LOOK—The Winter St. cafeteria took on a new look this month with the installation of new equipment and serving facilities. It now offers a wide selection of food items for employees.

Newly Equipped Cafeteria  
Opens at Winter St. Plant

A newly equipped cafeteria offering a wide selection of food items has been opened at the Winter St. Plant, Alan C. Lord, manager of employee relations, announced this week.

Equipment for the kitchen and serving has been secured by the Small Integral Motor Department as well as tables and chairs which seat 128 persons at one time.

Food is prepared and served by the Nationwide Food Service. Herbert P. Vogel, specialist of personnel practices, is in charge of the cafeteria.

The new cafeteria is located on the first floor of the Winter St. building in back of the office section.

In order to accommodate Winter St. employees at the cafeteria more easily, a staggered lunch hour has been set up. First of the half-hour lunch periods begins at 11 a.m. and the last one starts at 12:18 p.m.

ECHOES from 19-2

by Fred McIntyre

Congratulations to Lamoine Hinshaw. He is the new proud pappy of a baby boy. . . Joe Maginnis has been confined to the Vets Hospital where he is under observation. . . Eileen Gault reports that her father, who retired recently, received as a present a new 21-inch TV set as a gift from his co-workers. . . Chauncy Fisher's wife, who has been confined to her home for quite some time due to illness, has returned to work at the Winter St. plant. . . Belated birthday greetings to Howard Berrier. . . After this when John Winstel bets cokes on the weather with Homer Hibler and Ray Wiese, he wants them paid off one at a time. He won two cokes from each of them recently and was surprised to find four cokes on his desk at one time. . . Ask Al Johnson how he likes Liberace. He was seen at the Coliseum Saturday night. . . Question of the Week: Will the lily bulbs sold by the hawker at the Wall St. gate two weeks ago bloom or was Barnum right? . . . Harry (The Colonel) Ehrsam has bought a new race horse.

RETIREES FROM COMPANY—Nolin Geyer (second from right) retired from the company this month. Offering him best wishes are (l-r) Glenn Keek, Robert Esterline, and Herman Melke. Mr. Geyer joined GE in 1926 as a punch press operator. He was a punch press set-up man in Bldg. 17-2 before retirement.

## TOOL BITS

Bldg. 19-4 and 5

by Howard Demsey

We extend our deepest sympathy to the family of Clayton Raquet, who died suddenly last week. . . . Mr. and Mrs. Perry Butts are the proud parents of a fine baby girl born last week. Maybe you have noticed Perry's eyes have been a little heavy the last few days and for a good reason, too. Perry has been acting as nurse to Mrs. and the baby and is doing a good job. He has trouble eating his own cooking, however, and hopes he won't have enough time to get used to it. Good luck and keep up the good work, Perry. . . . Donald Konow and Vernon Burk went to the barber shop for a fast crew haircut but the barber must have thought they said, "Crude haircut." . . . Margie Murchland, Louise Hegerfeld, and Virginia Simon had a good time visiting Niagara Falls last Saturday. . . . Don Alcott, Woody Mursh, Bob Picket, and Dan Baker were on hand at the Speedway in Indianapolis last Saturday for the time trials. We don't have any pictures from this year's races as yet but here is a picture of a trio from the shop who are on their way to paint the town during last year's time trials, and carrying their own paint at that. . . . It's corn-planting time

Painting Town

again so Clyde Spangler took his third week of vacation to plant his acreage. . . . We welcome Hershell Odier back to the check room after a four-week absence due to a gallstone operation. Hope you continue to get along all right, Hershell. . . . Also a hearty welcome back to Glenn Staight, who returned to the check room after spending two years in the Taylor St. check room. . . . The fish in Shriners Lake seem to grow by leaps and bounds, according to Walter Esterline. He fished Saturday and caught all six-inch fish but on Sunday they had grown to 12 inches. Walter is going back this week-end with a bushel basket and gaff-hook. . . . Since Clarence Meeks has trouble distinguishing between Paul Brinkroeger, Bud Dunlap, and Bob True-love, we wonder if some identification marks couldn't be applied to each so Clarence won't be confused again. . . . Julian Franke arrived at the ripe age of fifty-two and according to custom brought in a delicious cake for his co-workers in the check room. He placed the cake, which was in a roller skate box, on the shelf while he was hanging up his coat and glanced back just in time to see Lowell Welker making off with the box. Jule rescued the box without much trouble, not as much, Lowell says, if he would have known what the box contained. . . . We have a new grandpa in the grinding section. You can tell who it is by watching Wayne Chrysler with his new cane. . . . Liberace has nothing besides a few million bucks that Clarence Wiebke doesn't have now that Clarence has a new piano, complete with candelabrum. . . . Mr. and Mrs. John Roemer took

a ride into Michigan last Sunday to have dinner at the famous Schuler's Restaurant in Marshall. . . . On his way home from the lake last Sunday Maury Sordelet was following a truck when a thoughtless motorist crowded him off the road. Maury took after him to get his license number but before he caught up with him a state trooper passed him and stopped the fellow and Maury stopped, too. After the policeman had given the other driver a ticket he came back to Maury and asked him if he hadn't seen that yellow line back there when he passed that truck. Maury explained how he had been crowded off the road and said the only color he remembered seeing at that time was red. The trooper had to give him a ticket, also. It was just last week that Maury was giving the boys in his section a lecture on safe and sane driving habits. . . . Luther Shrock left for the apprentice school last week and was replaced by Dick Goshorn. . . . Between dieting and baseball practice Lowell Welker is slowly working off the fat of the land. . . . Ross Cohagen took a trip to Holland, Michigan, and brought back lots of pictures to take along to California to show when they start bragging about their flowers. . . . Practice Safety: Remember today's accident can spoil tomorrow's plans.

## DITTIES FROM DISTRIBUTION

by Ruth Sorg

It was good to see Dutch Wilson's smiling face again. He paid us a visit last week. . . . Belated birthday greeting to Pat Davis, who celebrated last week. . . . We would like to wish Edna Turnbaugh a happy birthday next Sunday. . . . Rosemary Ort returned to work this morning all smiles after a week's vacation just wandering around. . . . Among those people who spent the week-end traveling were Frances Miller and her husband who were in Indianapolis Saturday attending the time trials. . . . Evelyn Mayfield and friends were in Holland, Mich., to see the tulip festival last Saturday. . . . Norma Durnell spent Saturday in Holland. . . . Versatile Wayne Jones has now added another interesting experience to his already varied talent. He was requested to take the picture of the polio patient, Beth Ann, and Liberace appearing in the newspaper. Rumors are that he thought Liberace quite a fellow, but he didn't swoon as some of the women did.

## RACONTEUR

SECTION 114 TAYLOR ST.

by Luana Oehlaffen

Carl Hattendorf met Walter Holloway on the street the other day and reports Walter is coming along fine. We are all glad to hear it. . . . JoAnn Cole is back to work after being off for ten days. Welcome back. . . . The question of the week is: Does Art Bear have a passing gear in his Plymouth? . . . Our sympathy to Frances Acton, whose brother was killed in an automobile accident on May 2. . . . Happy birthday to Bernice Frick, who celebrated on May 11. . . . Blanche Mountz said if GE would put up a hitching rail, she would put her car up for the summer and ride a horse to work. . . . Welcome to Frank Boyd, our new trainee from Louisville, Ky., who is working with Mike Brayer. Frank is replacing Bob Kapke who left for the Air Force. . . . Margaret Cowan and daughter, Nancy, had a terrific time at the Derby. Among the celebrities they saw were Betty Grable, the McGuire Sisters, Bob Hope, and Irene Dunn. Margaret also attended several of the Derby parties and even picked the Derby winner. . . . Vern Daseiler finally got to take his golf clubs out of the mothballs last week-end. Vern boasts about his beautiful tulips that took his wife six months to talk him into planting. . . . Poor Lou Ann Beauchamp's father has to get up at 5:30 in the morning to answer his daughter's admirers phone calls. . . . Everyone seemed to have a good time at the Elex Mother and Daughter party. One of the talented participants in the program was our own Dorothy Baumgartner. . . . Eldon Bell returned from Colorado to inform us that it was very icy and snowy out in the scenic state. . . . Becky Lisle and family spent the week-end in Carmel, which is near Indianapolis. . . . It is revealed that "Old Reliable" Cliff Bieber has come to terms with the M. T. P. softball team. No salary details have been released, but informed sources are speculating it will be in the six figure column. . . . Fred Vogt received a little boat from the boys in Test and Inspection wishing him a bon voyage. . . . Art Bear's toy Manchester received a vigorous kick across his tail and immediately left for the kitchen. After thinking it over for a few minutes, the dog returned to little Tommy Dooden and crawled up on his lap. "Don't tell me that dog doesn't know what he's doing," said Art. . . . Lela Schladenhauf seems to have changed her luck when she came here. She won the check pool the first time she entered. . . . The

girls in the Switch Section wish Joe Monahan would do something about these new overalls. . . . Congratulations to Louis Barber, who celebrated his 30th year with General Electric on May 13. Louis works second trick. . . . Huntington, Indiana, will soon be a ghost town as Bill Lavine is moving to Fort Wayne. . . . Buck Sessler has started training to get in condition for the square dance. He is living on a diet of chocolate malts. . . . Vondy and Harry Diem went fishing last week. Vondy caught one undersized fish and Harry caught a cold. Judy Lehman says they should have used his technique to catch more little fish and his stretcher to make them longer. Diamond Lake just isn't producing this year—again. . . . Herb Lindenberg bowled last week on a lopsided alley. . . . Due to Mike Brayer's thoughtfulness, our desk looked beautiful last Friday. Thanks again for the lovely flowers, Mike. . . . Liberace was wonderful! We heard that Henry Carnall stood in line for four hours to get tickets and waited patiently after the show

to get his autograph. We also understand that Henry took a bus out to the Coliseum. . . . Ivan Osterman had lovely curls the other day. For details, see Becky Lisle. . . . Fred Vogt, who left for Germany Friday, May 14, was surprised with a small bon voyage party at noon. Everyone here in Section 114 wishes him the best of luck on his journey and hopes he will have a wonderful time. . . . Happy anniversary to Louise Lamboley and her husband, who were married 21 years on May 14. . . . Wilbur Woehler had a black eye last week and keeps insisting a chip of wood hit him in the eye. They must have pretty active wood in Huntington. . . . Happy birthday to Betty Doehrmann. . . . Loretta Runyon should be settled down in that new house at Cedar Shores by now. . . . Bill Lavine has finally started to live. They say life begins at 40, you know. The only trouble is that rheumatism does, too. So be careful, Bill. . . . A special note to Iffe Holmes: A hair in the head is worth two in the brush. . . . Muriel Etchison and Mary Maley are both new drivers. Louise Lamboley lives across the street from Mary and has heart failure every time Mary comes around in the car. . . . Bernice Frick's husband baked her a cake and gave her a clock radio for her birthday. All husbands please note. . . . Wilmur Kruekeberg is sporting a new brown suit. It looks pretty cool. . . . Ralph Fishback and Clarence Shanebeck are our latest TV purchasers. . . . We wonder what Hugh Neely hides in those little brown sacks that he keeps locked in his desk drawer. . . . We want to congratulate Freeman Bob Till on his fire fighting. Next time, Bob, don't go off without such an important part of your apparel. . . . We wonder why Carl Reynolds and Mel Warner are always whistling "Make Love to Me." Jo Stafford's record was such a good seller. . . . Welcome to Section 114 to Frank Boyd. Frank is replacing Bob Kapke, who left for the Air Force. . . . Congratulations to Iffe Holmes, who became a grandfather at 5:20, Sunday afternoon, May 16.

MARKS 30 YEARS—Francis Grim (left) marked his 30th General Electric anniversary April 29 and is shown being congratulated by one of his many friends, Nolan Guyer. Mr. Grim is a punch press set-up man in Bldg. 17-2 at present. He formerly worked in Bldg. 26-1.

HITS 30TH GE YEAR—Walter Kryder shows a gift he received on his 30th anniversary to (l-r) Frank Shidler, Vern Castle, Charles Rice, Bob Dent, George Howell, and Jess Hahn. Mr. Kryder, who started as a coil winder in Bldg. 19-2, is now advanced planning specialist in the Hermetic Motor Department.

THREE POSITIONS of rifle shooting are practiced by Herbert Scherer, Taylor St.; Robert L. Linden, Bldg. 31-2; and Ernie Allmandinger, Bldg. 19-3.

LOOKING OVER some recent awards are the groups of officers, Oral Emrick, Taylor St., president; Lester May, Bldg. 4-4, vice president, and Pat Patterson, Bldg. 31-2, secretary-treasurer.

# Rod and Gun Clubbers Score Bullseye for Fun with a Gun

Aiming at good sportsmanship, the GE Rod and Gun Club has scored a bullseye in furthering the knowledge and fun of its members for 24 years.

Begun in 1920 the organization has continued to fulfill its purpose which is to develop members' knowledge of safe handling and proper care of firearms, as well as improved marksmanship. In addition to learning these aspects of shooting, the men develop honesty,

good fellowship, self-reliance, self-discipline, and team play.

A very active group, the present membership meets at least once a week for practice sessions. They also compete with similar clubs in the city and area in contests.

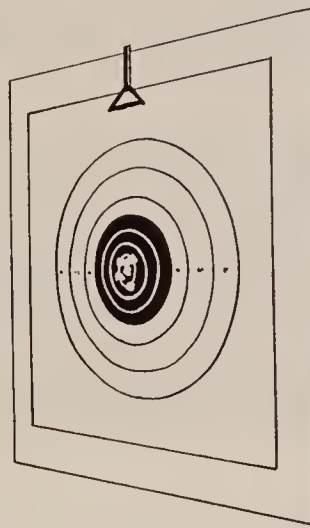

This year's officers are Oral Emrick, Section 417, Taylor St., president; Lester May, Bldg. 4-4, vice president; Pat Patterson, Bldg. 31-2, secretary-treasurer, and Herbert Scherer, Wire Mill, Taylor St., executive officer.

As a team, members have won many awards since the club was formed. The latest of these is the Bowser Trophy, won in April this year. The trophy has been in existence since 1918 and has been won by the GE lads many times. Competition for the award is among

industrial teams in the area.

As individuals, the members have achieved marksmanship that has brought many medals and trophies for both pistol and rifle shooting. Ray Atkinson, Bldg. 31-2, is the group's outstanding pistol shot. He has won local, state, and national honors for his steady hand and keen eye. Recently he shot a perfect score in a practice session with a new Ruger Mark 1 pistol the first time he used it—a difficult feat to accomplish. He was shooting slow fire at a 50-foot target.

The group uses the South Side High School range for much of its practicing, but is looking forward to taking to the outdoors and a new site at the edge of the city.

## SICK LIST

### Sick List

Mildred Brown, Mary Baker, Iris Hebble, Melvin Kestner, Arveda Neal, Adeline Muzzilo, Helen Holmes, Beulah Smith, Percy Lofton, Harold E. Garrett, L. Frantz, Anna Allman, John Winesburg, John Lauer, Alfred A. Aschliman, Mary Berger, Mary Hayes, Irene Henline, Joan Lindeman, Viola Martin, Doris Reek, and Barbara Toles.

### Dismissed from Hospital

Henry Dahman, Thomas Cowan, Mary Baker, Mildred Brown, Ralph McCain, Marvin Wicks, and William Heit.

DICK MILLER, BLDG. 19-1

## SHAFT SHAVINGS BLDG. 19-3

by Sherry Varner

Floyd Mutton went to the time trials in Indianapolis last Saturday, yet he had to come home and read the paper to see what happened. Was there too much activity, Floyd? . . . We wish a speedy recovery to Harry Woodward's wife, who is recovering from an operation. . . . Russel Neireiter is on vacation this week, but it really won't be a vacation. He is going to install a complete bathroom with shower, so he won't have to go to Washington, D. C. . . . Jerry Stanger enjoyed a day's visit to Chicago last Sunday. I hear he complains of the roof of his mouth being sunburned from watching the tall buildings. . . . Everett Harris has finally received his collie dog from Illinois. Now he isn't afraid to stay home nights by himself. . . . Congratulations to

Andy Weisbrod on his 30 years of service and to Elmer Wagner on his 38 years, also. . . . It seems that sometimes Hubert Risser has a difficult time standing still. . . . Don't keep us in the dark, Phil Burney. Tell us about the new musical instrument you are taking lessons on. . . . A few of the fellows are having a contest to see who can eat the loudest sandwiches. Clarence Hipp's bid is a Limburger cheese sandwich. Paul Lietsinn comes next with sardines, and then Bill Gallmeyer with his Swiss cheese and onion sandwich. How loud can you get, fellows? . . . "Curly" McCormick and Pat Christle also attended the time trials. . . . Joe Kramer is back to work after a week's vacation.

"A fool and his money are soon parted,"

I can see how that would be; But where their acquaintance started—

That's what puzzles me.

## Tee Off

by Earl Stauffer

Once again Mother Nature's elements played hob with the golf leagues. With the exception of the Owls, those lucky lads who can play all morning, most of the leagues had to hustle to keep from playing in the dark.

The second section of the Monday Evening League got under way and came up with three close matches. Dick Kent's Rough Riders tripped Herb Kock's Rovers by a 6-point margin, the largest of the evening. The Turf Toppers, led by Paul Hopkin, picked up 5 from Sol London's Dark Horses. Skeets Lahrman's crew, the Pros, squeaked by Gil Carl's Lost Balls by 3. "Skeets" came up with the best score, a 40.

The early Monday League was washed out by rain.

The Tuesday Evening League, minus its little butterball manager, Shortie Poyser, opened action with a pair of close ones and a real clobber job. The clobber of 18 points was administered by "Red" Braden's 19th Holers over Harold Fanning's Gas House Tigers. Braden, along with Bill Kayser, carded

43's; Pres Slack was one behind with a 44. The Rutledge 49'ers edged the Jack Jennings Divot Diggers by 3, and Bob Black's Optimists won by one from R. Thompson's Dubs.

No report came in from Winter St. or my old buddies, the Owls. Friday is the deadline on golf. Get after your manager or secretary if you want your results in print.

MONDAY EVENING		
Team		Points
Rough Riders	.....	Plus 6
Turf Toppers	.....	Plus 5
Pros	.....	Plus 3

Divot Diggers	.....	Minus 3
Gas House Tigers	.....	Minus 18

# Arthur Thieme, Donald Hoffman Get Posts In General Purpose Advanced Manufacturing

Two appointments in General Purpose Component Motor Advanced Manufacturing Development have been announced by Clarence A. Brenner, superintendent of manufacturing.

Arthur F. Thieme has been appointed supervisor of production tool manufacturing and Donald F. Hoffman has been named foreman of machines, die plant.

In March, 1923, Mr. Thieme joined General Electric and entered the Apprentice School. He graduated from the machinist-toolmaker course in 1927 and became an instructor in the Apprentice School. Later that year he went to Bldg. 26-5 as a toolmaker.

Moving into production work in 1933 Mr. Thieme became a foreman in the tool room, Bldg. 26-5 in 1939 and later had this capacity in the die plant. This was his location prior to his present appointment.

Mr. Thieme is a member of the Foremen's Association. The Thiemes, who have two children, reside at 1906 Crescent Ave.

When Mr. Hoffman came to the company in 1941 he was a messenger. Later he became a winder in Bldg. 4-4. The following year he entered and completed work in the specialist training school, which was a part of the Apprentice School.

In 1942 Mr. Hoffman went to Taylor St. where he was a lathe operator in the tool room. From February, 1943, until December, 1945, he served in the U. S. Army Air Force and was stationed in the European Theater part of that time.

Upon returning to GE in 1946 Mr. Hoffman entered the Apprentice School. After graduation from the machinist-toolmaker course in 1949 he became a planner in Bldg. 19-5 and had this position until his present job.

Mr. Hoffman is a member of the Apprentice Alumni Association and GE War Veterans Association. The Hoffmans and their two sons reside at 1128 Oakdale Dr.

Donald F. Hoffman

Arthur F. Thieme

Pfc. Charles J. Eldridge is in Korea, according to a recent letter from him. He says he receives the GE NEWS regularly and appreciates it. Charlie said he would like to hear from any of his friends and former co-workers at GE. He worked in Bldg. 17-2 on second shift prior to entering the Service.

His present address is:  
Pfc. Charles J. Eldridge  
RA 55359301  
"A" Btry, 176 A.F.A. Bn.  
c/o PM APO 20  
San Francisco, Calif.

From Alaska, Homer F. Vigneaux writes that he will be back in the States soon and out of the

Service. He said that he hopes to see his former co-workers here soon and has appreciated receiving the GE NEWS for the past two years. He worked in Bldg. 4-2 before entering the Service.

The following employees have entered the Armed Forces: Thomas P. Gilmore, Jr., Gayland C. Pohren, Galen M. Babb, Julio C. Miranda, and Dayton L. Leach.

## UNDER THE SAVINGS AND STOCK BONUS PLAN

Are your bonds correctly registered—should the name of the co-owner or beneficiary be changed?

Should your marital status change, you may wish to change the registration of your bonds. Change of registration forms or change of beneficiary forms may be procured from your payroll section.

BING CROSBY—WANE  
7 p.m. Sunday

WOWO TO AIR GOVERNMENT ECONOMY AWARDS — Former President Herbert Hoover, Secretary of the Treasury George M. Humphrey, and U. S. Senator Harry F. Byrd will speak at a Government Economy Rally to be sponsored by the Farm City Conference in New York Tuesday, May 25, at Town Hall from 7:30 to 9 p.m. (CDT).

Government Economy awards will be presented to the speakers by John Stuart, Honorary Chairman of the Farm City Conference and Board Chairman of the Quaker Oats Company. Part of the program will be broadcast coast-to-coast over Radio Station WOWO 8:35 to 9 p.m. Central Daylight Time.

The Farm City Conference is a non-partisan, public educational organization working on problems of common interest to urban and rural America. Among groups participating in it are: American Medical Association, Avco Manufacturing Corporation, Committee for Young Men in Government, Cooperative G.L.F. Exchange, Corn Products Refining Corporation, General Electric Company, International Harvester Company, Michigan Farm Bureau Federation, National Council Farmer Cooperatives, National Grange, Quaker Oats Company, Sears Roebuck and Company, Southern States Cooperative, Swift and Company. Bruce Gervan of Ithaca, New York is chairman.

it isn't until she is forced to choose between her new work and her old love of the theater, that she finds the meaning of real happiness.

"Exit for Margo" was produced and directed by Frank Wisbar with the original story by John Klempner and teleplay by Herbert Little, Jr., and David Victor. Others in the cast are Taylor Holmes, Raymond Largay, Tom Powers, Claire Carleton and Mae Clarke.

"EXIT FOR MARGO" IS GE THEATER PRESENTATION—Margo Kent (June Havoc) left talks with her daughter, Jan (Nancy Gates) during "Exit for Margo" a TV presentation by "The General Electric Theater" over CBS-TV Sunday.

THE GENERAL ELECTRIC THEATER—June Havoc stars in "Exit for Margo," the story of a one-time top actress who finds new happiness as a salesgirl, on "The General Electric Theater," Sunday, May 23, at 8 p.m., over WKJG-TV.

Margo Kent, (June Havoc) enjoyed great popularity as an actress when she and her husband were a team on Broadway. But after her husband's death, the jobs in show business became fewer and a great deal less desirable.

Margo's daughter, Jan, (Nancy Gates), has all the theatrical leanings of her parents, and her mother is convinced that the girl has great acting possibilities. But for herself, she feels her stage career is over and decides to get a job completely removed from show business.

She gets an appointment with Andrew Perry, (Victor Jory) vice-president of a large department store, and asks him for a job as a saleswoman. The job is a challenge which Margo meets willingly, but

TEMPERATURES RISE ON "I MARRIED JOAN"—Comedy star Joan Davis is enjoying a feeling of security because her TV husband, Brad (Jim Backus), doesn't live dangerously, when the bubble of peace bursts, in "Brad's Broken Foot," on the Wednesday, May 26, telecast of "I Married Joan," over NBC-TV, at 7 p.m., CDT.

This episode was one of the most successful of the comedy series when it was first presented July 8, 1953.

While Joan is congratulating herself on the easy-going inclinations of her husband, he is brought home on a stretcher with a broken foot. Brad had slipped on a banana peel thrown by Gertrude the Chimp from her cage while the judge was strolling through the park zoo.

Thereupon, Joan develops a fever, causing her to be sent to the hospital and bedded down in a room down the hall from Brad. Before Joan is through, even the nurses and doctors have temperatures.

RETIREMENT PRESENTATION—Rebecca Fogwell prepares to open a gift on her last day at work, while Harley Springer and a group of her co-workers watch. Mrs. Fogel joined GE in 1942 as an inspector in Bldg. 19-4. She was employed in Section 417 at Taylor St. before retiring.

FOR SALE

WANTED

FOR RENT

LOST & FOUND

AD-ILLETS

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 10-1.

**CLOSING DATE**  
Monday Noon, May 24, 1954

**SUIT**—Lady's gabardine suit, like new, size 20½, \$15. H-57448.

**KITTENS**—Four Angora kittens, 6 weeks old, are looking for a home. Two yellow and two gray, free. H-63481.

**RADIO**—GE console radio, good condition, plays good. A-59611.

**REFRIGERATOR**—1938 model, 6 cu. ft., \$36. E-3109.

**TWIN LAUNDRY TUBS**—Cheap. Call H-83954.

**RANGE**—Deluxe electric range with light, timer, and clock, 40-in., very reasonable. 2711 New Haven Ave.

**CAR**—1950 Bel-Air Chevrolet, 2-tone, Powerglide radio, heater, turn lights, white sidewall Premium tires, original owner, no trade, \$300. H-1103.

**FORMALS**—Maude nylon net over taffeta with stole, worn once, ideal for spring. Royal blue velvet strapless with matching, long-sleeved, fitted jacket, worn twice. Both size 10, good condition. Reasonable. E-65383.

**FREEZER**—1944 cu. ft., used 1 yr. Theodore G. Reed, Markle, Ind.

**PUMP**—One-third hp, M. W., shallow well jet pump. All parts new, including bearings in motor. Mrs. John Hughes, Jr., R. R. 14, Getz Road, Fort Wayne.

**JACK**—Hydraulic truck jack, 5-ton. Walker; 6.50 x 15 tire, nearly new, with tube. T-65235.

**FREEZER**—Amanna freezer, 12 ft. up-right, used 1 yr., excellent condition. \$250. Originally \$500, can be financed. E-36234.

**DINING ROOM SUITE**—Mahogany; table leaves and pads, 6 chairs; china cabinet; buffet; very good condition; reasonable. A-98094.

**SCREENS**—12 full size, 9 assorted sizes, 1 yr. old, \$2 each. E-2766.

**DINETTE**—Six-piece, maple dinette set, excellent condition, \$25. H-92263.

**FORMAL**—Pink, worn twice, like new, \$10. H-46934.

**TRAILER**—Boat trailer. See at 2718 Euclid St. H-37403.

**ACCORDION**—120 bass Scandali, 4 treble tones, 2 bass tones, excellent condition. \$250. H-40193.

**BEDROOM SUITE**—Three-piece, oak bedroom suite, reasonable. 1015 Hartzell St., New Haven, New Haven 5011.

**DRAWING BOARD**—Hamilton, 36 x 60 adjustable, commercial drawing board. Wooden locker, 60 x 72 x 30. A-86502.

**SWEEPER**—Brand new, Kirby sweeper, cost \$156. Must sacrifice, \$120. Will accept old sweeper as trade-in. A-39323.

**BED**—Hollywood bookcase bed with mattress, springs, chest, and night stand; less than 1 yr. old. Reasonable. \$100. H-90805.

**REFRIGERATOR**—Coldspot, 10 yrs. old, 9 cu. ft., good condition, \$45. A-49231.

**CAR**—Packard Victoria convertible, automatic windows, seat, aerial, top, excellent condition, with custom interior. 519 Colerick St. H-9673.

**REFRIGERATOR**—Coldspot, 6 cu. ft., \$35. 444 W. Beechold St.

**CAR**—1948 Olds, 78 Hydromatic, \$350. K-2120.

**FOR RENT**

**APARTMENT**—Upper, unfurnished, 3 rooms and bath, garage, stove and refrigerator, utilities furnished except lights, private entrance, 1010 Cottage Ave. preferred. 2919 Smith St. K-4711.

**APARTMENT**—Unfurnished, 4 rooms and private bath, utilities and automatic heat furnished. E. Washington on bus line. H-68694.

**APARTMENT**—Furnished, 2 rooms, private entrance, all utilities paid, adults. 2518 Reed St., after 6 p.m.

**TRANSPORTATION**

**RIDE WANTED**—To and from St. Joe, Ind., to Taylor St., 3:18 to 11:48 p.m. Robert Honaker, St. Joe 2861.

**RIDERS WANTED**—From Blue Lake or Busco to Broadway, 7 to 3:30 p.m. Chur. 4168 or Ext. 2259.

**WANTED**

**BIKE**—24 or 26 in. boy's bike. H-39806.

**APARTMENT**—4-room, lower, employed couple, by June 1. H-28225.

**SLIDE RULE**—Suitable for first year mechanical engineering course. E-56865.

**DOORS**—Two combination doors, 2 ft. 8 in. x 6 ft. 8 in. and 2 ft. 6 in. x 6 ft. 8 in. Several various sizes of window screens. H-9398.

**REPAIR WORK**—Electric lamp and electric beauty equipment repair work of all kinds. Also custom lamps built to order. E-4846.

**HOME**—Nice home for two college pupils, 3 mo. old, 3411 S. Broadway.

**MOTOR**—Outboard motor, 2.5 to 3 hp. Must be in good condition and reasonable. H-20809.

**MAN**—To move a 25 ft. house trailer 50 mi. to the lake, Sat. or Sun. A-99958.

**SAW**—Tilting arbor table saw, 8 in. H-60025.

**UNIFORMS**—Army officer's summer uniforms, size 42 regular, good condition. K-1884.

**BED**—Complete with mattress and springs or Hollywood bed, full size, A-46992.

**THANK YOU**

I want to thank all of my friends and co-workers for the gifts they gave me at my retirement.—Herman C. Roesener.

Have you ever noticed that when someone has an hour to kill he always spend it with someone who doesn't?

# THISA & THATA

## BLDG. 4-3 and 4

by Helen Engle

Don Mason must have packed his own lunch the other day. He was having the boys feel the weight of it, especially those that could lift it. Among the many other things inside were all the heavy pieces of two chickens. We feel sorry for the rest of the family of five left at home with the neck and back. . . . Russell Rose is the proud owner of a new stainless steel boat. . . . Clarence Rump was surprised when he saw himself on a television program. It seems they filmed some action at the races and he was one of the spectators who got his picture taken. . . . Fred Feber built a cottage in nine days. It is all done, even to having it painted. He didn't take time out for any fishing. . . . Don Mason's dog was in the hospital last week, but is home now and fully recovered. . . . Abe Richter couldn't try his luck at fishing Sunday at Rome City, no boats. . . . There is a new baby girl at the Darwin Stout's. The father came through with flying colors. . . . Harley Heckley says he has ways and means of acquiring so many clothes, all gifts from the living and the dead. . . . Fred Ginzel has a system of painting boats even if it is raining. He turns them over and crawls under and paints. The reason he was in such a hurry is that his wife, Irene, is a good fisher and he is getting hungry for some fish. . . . Grace Ober has fish on the table since Emily Nierman has been going to Palmer Lake. Was she really surprised when she saw how many there were for her! Emily told her there was enough for a meal, but she really had 35 nice big bluegill for her. . . . Martha Woodard is a patient at St. Joseph's Hospital. Hurry and get well, Martha. . . . Mary Sitko Bat-trick, a former co-worker, has another boy in her house. . . . Sorry to hear that Mildred Gaffer's mother is sick. . . . Peggy Bahde went to Indianapolis this week-end. . . . Did anyone go to the Liberace show? Aahh! Liberace! . . . The next time Malinda Bearman orders a pizza pie she'll order one piece, not a whole one. . . . Mr. and Mrs. Cecil Onion are the parents of a new baby girl. . . . Since Helen White's mother has been sick, Helen has taken up cooking. . . . We know it is spring. Did you all notice the bright-colored shirt that Harry, our elevator man, wore. . . . So sorry we said that Mildred Carpenter had gone home. We were misinformed, as she only moved to

another floor. From the last report she is feeling a little better. . . . Marcella Winicker, a recent bride, sliced her thumb instead of the bacon. Her husband sharpened the knife and she didn't know it. . . . We extend our sympathy to Virgil Dahman in the death of his father. . . . Babe Donahue was quite happy this week-end when she became a great aunt to twins, who weighed 15 lb. 5 oz., James and Jane. . . . Ruhy Chrysler became a grandmother for the first time last week, a sweet little girl, Debra Kay. She says it is just about the sweetest baby she has seen.

# 17-3 NEWSIES

by Wilhelmina Beeth

From all the talk of vacation plans, our floor will be well represented on the California trip of the Elex Club. . . . Little Miss Kathi Lee is issuing her calling cards from the Leland and Eloise Stetzel Beck home. The mama is a former co-worker. . . . The cafeteria was a little brighter last week. Eva Tucker was back with her big smile. . . . Vickie Clayton wanted to be sure to get off at noon last Saturday, so that she would have plenty of time to get out and see Liberace. . . . We are very happy to report that Clementine Dykes has left Irene Byron Hospital. She will finish her convalescence at her home. Keep up the good work, Clem. . . . Dave Bishop paid us a visit looking real sharp in Uncle Sam's uniform. . . . Geneva Farrell said she was going to a different kind of race. She attended the time trials at Indianapolis last week-end. . . . Frank Shidler was ready to get out a searching party for a lost farmer. . . . It's a happy birthday to Alberta Foulks, Orville Kaufman, and Don Bufink. . . . No one else was complaining about it being warm on the floor, so Peggy Clingenpeel decided maybe it was time to discard the longies. . . . Minnie Ley was very handy at giving first-aid when Paul Beaver injured a finger. . . . Marie Lantz always has her mind on her work. The other day she got on the bus and instead of asking for a transfer, she said to the conductor, "Cracked weld." That doesn't explain, however, why she wore her apron to bed, unless she wanted to be ready to pitch in the minute she got up. . . . One of the girls saw former co-worker, John Williams. He said to everyone, "Hello." . . . One of the girls working by the west windows thinks that our new parking lot should be called the Apricot Bowl.

# TALES from TAYLOR

## SECTION 113 TAYLOR ST.

by Harry Parker

Sometime during the past week-end Virgil Foland was observed moving his spacious lawn with a power mower. However, at the time we passed his place, Virgil was sitting on a chair close by the power job, while his wife was busy with a hand mower. On Monday morning following this observance Virgil did not report for work, reporting that he had stripped a gear in his differential and would be laid up for a few days. When he did show up, he looked as hale and hearty as usual. Our opinion of the whole thing is that he wanted to stay at home and oil the hand mower for his wife so she could finish the job. Virgil did say that it was just too much for him following along behind the power motor. . . . Brice "Cow Poke" Martin took a few days off last week, due to the fact that the stork is about due to pay its sixth visit to his home. The other evening Brice was observed in his back yard, scanning the skies with some high-powered binoculars, evidently looking for that overdue stork. As we go to press we have no report as to whether or not Mr. Stork landed safely. . . . It seems that George England enjoys pushing a truck loaded with heavy castings. The other day he had a stack of boxes loaded with finished machined castings. Being ready for some more, he asked his helper to bring in another load to be machined. Leaving his place of work for a few minutes said helper brought in the castings and removed the finished ones. Upon his return, George obtained a truck and proceeded to move the load to the drill presses. Returning to his machine he began looking around for the unmachined castings which he could not find. He then realized his mistake and had to truck them back to his work place.

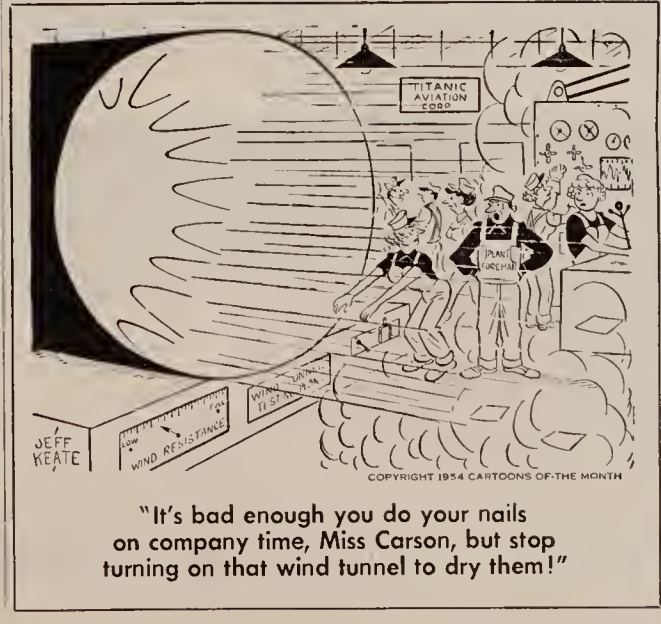

# SMOKEHOUSE SAYINGS

## BLDG. 22

by George Winans

So long and the best of luck to Pancho, who leaves us to take up spray painting in Bldg. 27. Pancho had a little trouble with the paint gun the first day. As he was explaining to his foreman, Steve, that the gun was clogged up, he pressed the trigger and sprayed both himself and Steve right in the kisser. . . . The 13th of this month being my birthday the gang surprised me with a gift of a penny and a box of dog biscuits. I enjoyed them very much, fellows, and they were just the right size to fit in the toaster. . . . Patricio Alberilla, our ever-alert inspector, got caught in his own trap. Pat had a trick pen that fired a dynamite cap whenever anyone removed the cap. After scaring several fellows he loaded it for the next victim and put it in his pocket. Later on when he had use for his pen, he got the trick pen by mistake and scared himself half to death. . . . Poor Bouncy Becker! After months of careful deliberation he finally bought a TV set and immediately we go on four days a week. Incidentally, that reminds me. Do you folks know what a TV set is? It's a box with a picture in the front, a speaker on the side, and an installment behind.

Business prophets tell what's going to happen. Profits tell what's happened.

"It's bad enough you do your nails on company time, Miss Carson, but stop turning on that wind tunnel to dry them!"

# There's No Need TO GO TO SEED

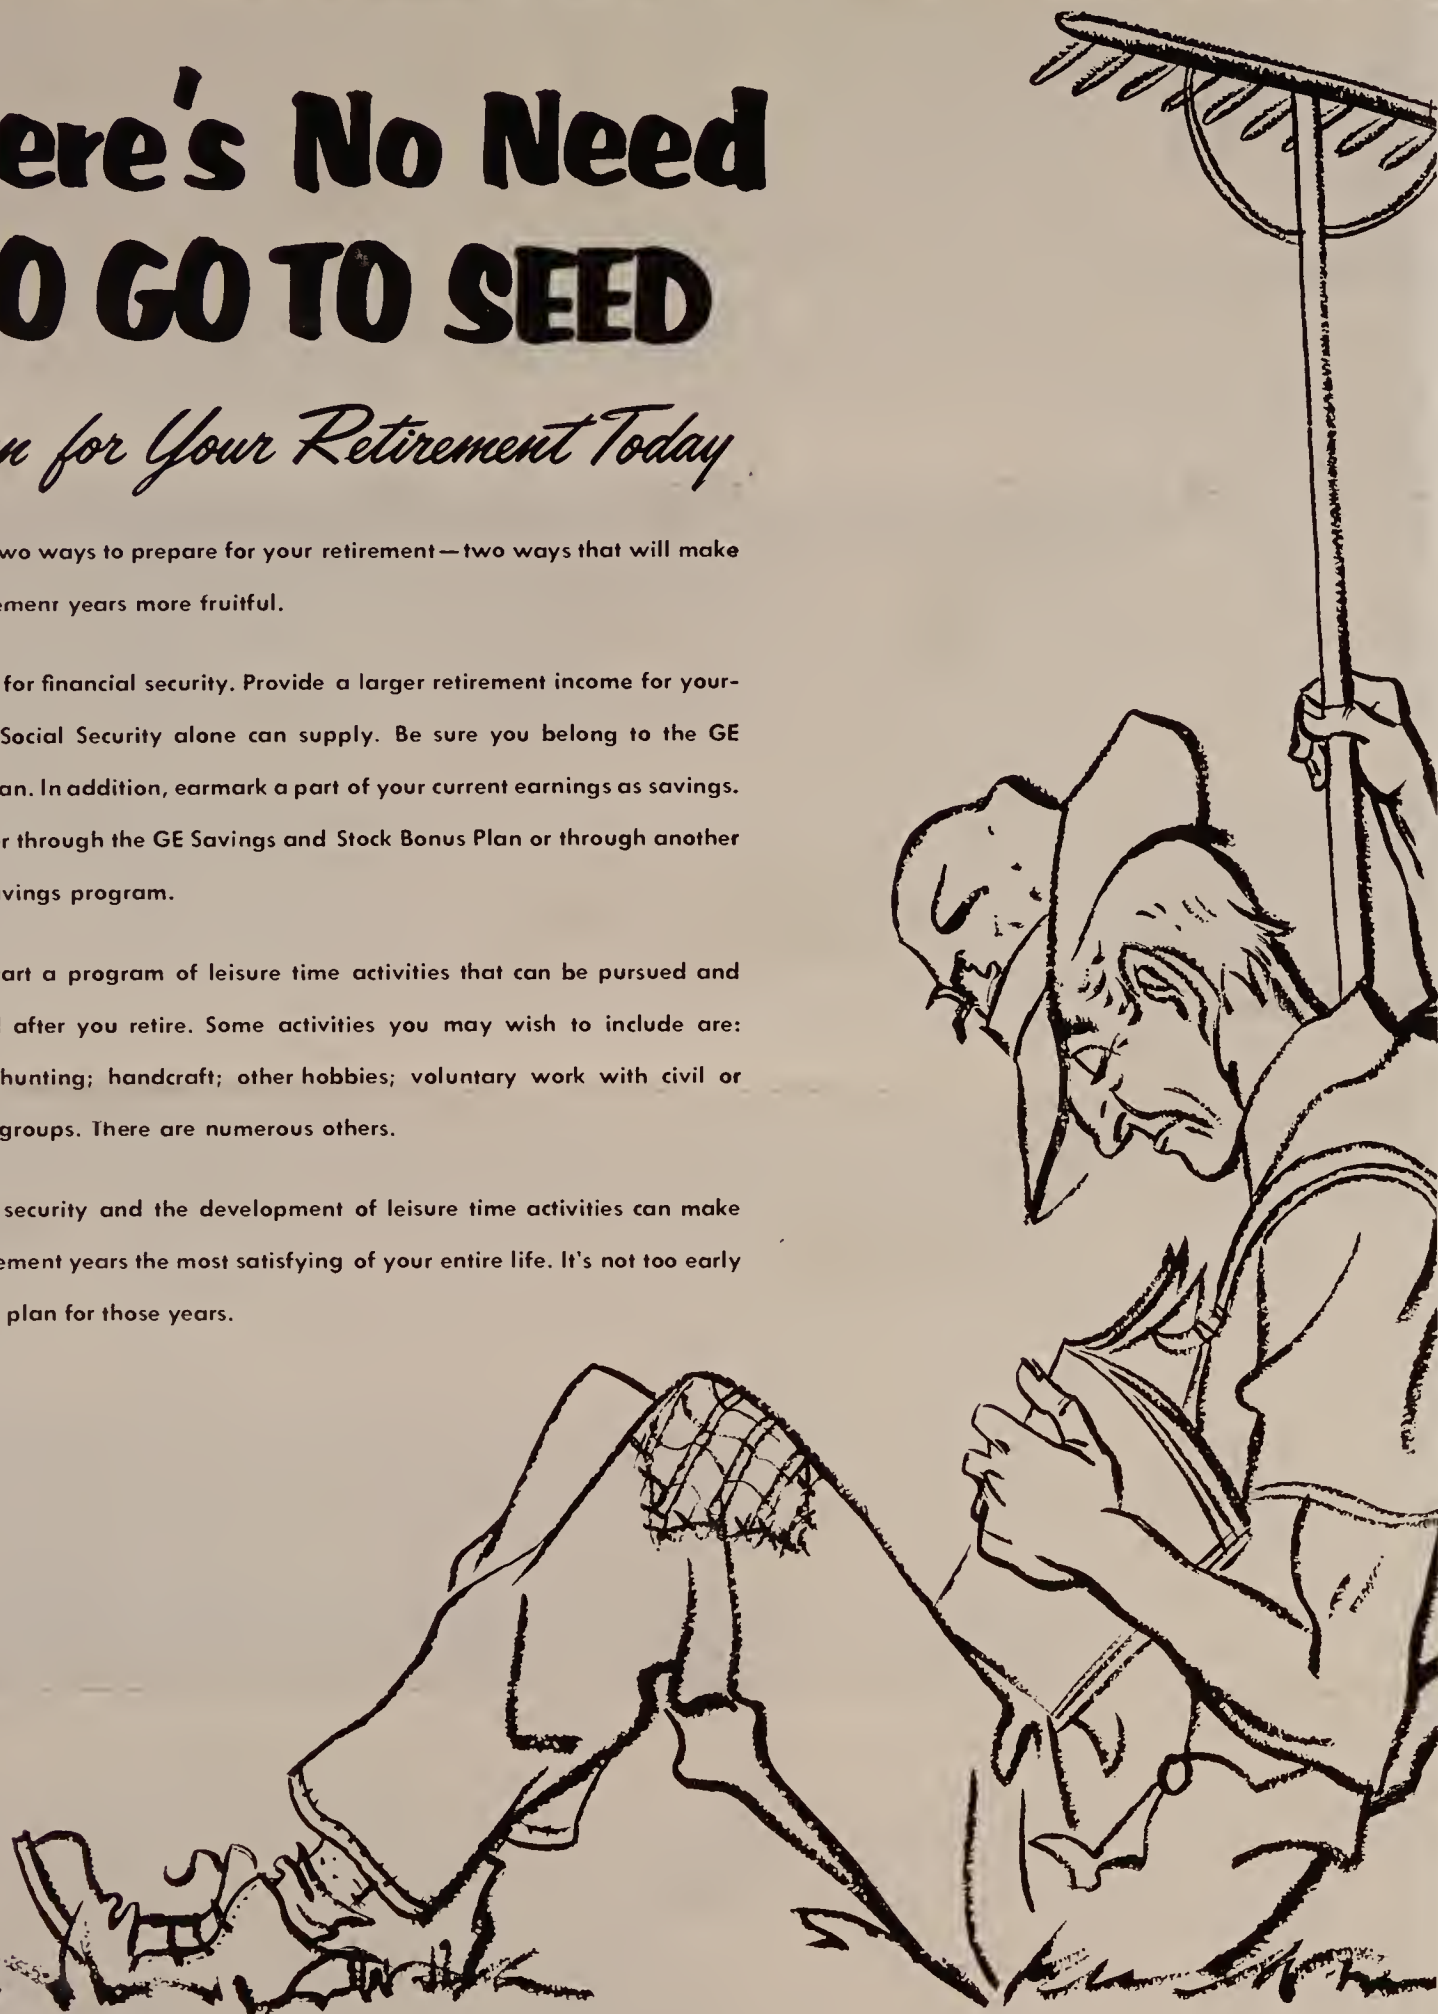

## *Plan for Your Retirement Today*

Here are two ways to prepare for your retirement—two ways that will make your retirement years more fruitful.

First, plan for financial security. Provide a larger retirement income for yourself than Social Security alone can supply. Be sure you belong to the GE Pension Plan. In addition, earmark a part of your current earnings as savings. Save either through the GE Savings and Stock Bonus Plan or through another private savings program.

Second, start a program of leisure time activities that can be pursued and expanded after you retire. Some activities you may wish to include are: reading; hunting; handcraft; other hobbies; voluntary work with civil or fraternal groups. There are numerous others.

Financial security and the development of leisure time activities can make your retirement years the most satisfying of your entire life. It's not too early to start to plan for those years.

## GE OFFERS IMPROVED WAGES, BENEFITS

### Memorial Day -- 1954

**IN MEMORY**—Three General Electric employees representing three branches of the services place a wreath in the Memorial Hall of the War Memorial Coliseum, in memory of all Americans who gave their lives for their country. They are Charles Kelso, Navy, and Robert Mee, Marine Corps, both of Bldg. 4-6, and Suzanne McKeefer, Bldg. 18-4, Army. The GE War Veterans Association will hold services at noon today at the Broadway Plant.

The General Electric Company this week announced a package proposal of improved wage and other benefits for employees. The proposal was made to IUE-CIO and UE at separate national negotiation meetings in New York Monday. The offer was presented the same day to Lodge No. 70 IAM-AFL in a meeting in Fort Wayne.

The major economic provisions offered, with extension of the union contract to Sept. 15, 1955 are:

1. A percentage general wage increase averaging slightly more than 5 cents per hour, with a minimum increase of 4 cents per hour. This increase is achieved by raising the present 12 per cent payroll "adder" to a new 15 per cent. The net increase on top of present pay is 2.68 per cent.

2. A liberalization of the holiday provisions, by providing that when any of the seven paid holidays listed in the Agreement falls on a Saturday, the holiday will be treated as falling on the preceding Friday. This applies to the coming Christmas and New Year holidays, which occur on Saturday this year.

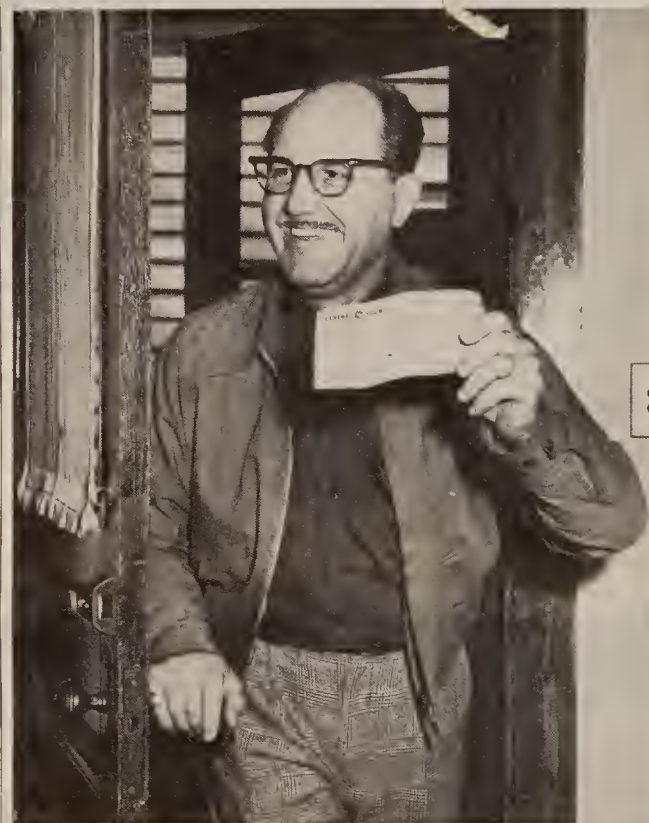

(Continued on Page 4)

### GE Pay Goes Up— Living Costs Down

The pay increase offered by the company this week coincided with another drop in living costs announced by the government over the week-end.

With this increase, GE pay increases since Korea add up to roughly 31 per cent—not counting the substantial increases in pensions, insurance, and other benefits.

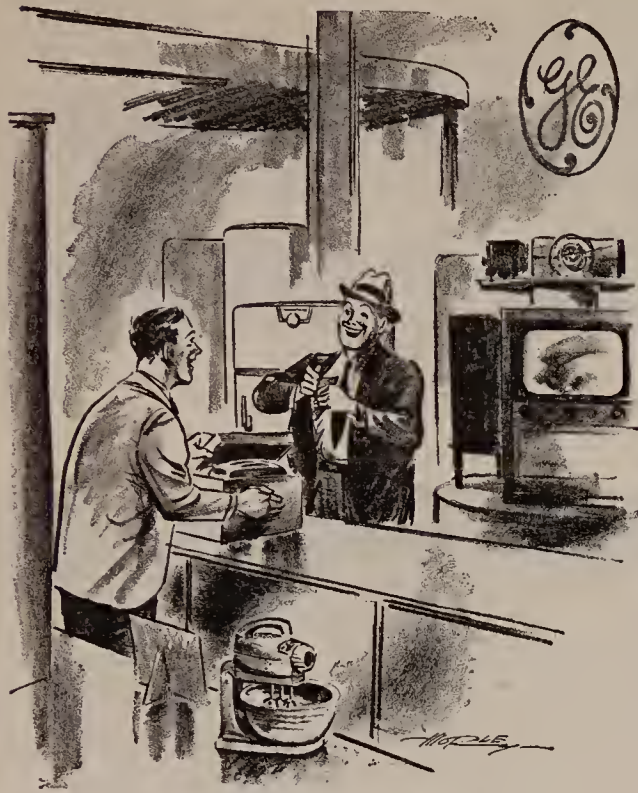

The cost of living, on the other hand, has dropped for three consecutive months to a level of 12.7 per cent above Korea.

**BRINGIN' HOME THE BACON**—Arthur Kurtz brings home the good news that he has just earned a \$455 suggestion award, to lead 170 other suggesters on the April list. Mr. Kurtz is employed in Section 417 at Taylor St.

## Suggesters Earn \$3,212 — Story.... Page 3

"I KNOW IT'S GOOD! WE MADE IT!"

## I Know It's Good

Fifty years have passed since Elbert Hubbard made his time-honored observation regarding the public relations responsibility every working man owes to his employer. But the simple thought voiced by Hubbard becomes more important each year, as more and more companies making a wider range of products go into the market in quest of King Customer's favor.

"If you work for a man, in heaven's name work for him! If he pays you wages that supply you your bread and butter . . . speak well of him, think well of him, stand by him and stand by the institution he represents."

Right now, all of us are seeing stiffer competition for the consumer dollar than we've seen since 1949. One of our competitors is giving away vacuum cleaners with the purchase of any major appliance. Others are introducing new products engineered for price, more than performance. Still others are greeting value-hungry customers with trade-in gimmicks, payment-plan concessions, and every lure that marketing men can devise.

Our own company, fortunately, has won the deep confidence of America's consumers to such a degree that quality is still the biggest bargain behind the GE monogram. Like "Sterling" on silver and "Steinway" on pianos, "General Electric" on electrical products has become one of the great hallmarks of all times. Millions of men and women, at this very moment, are buying what we've made because they know it's good.

With every GE sale meaning so much, in terms of job security, during the current readjustment to all out "civilian selling," wouldn't it be a good idea for all of us to follow the lead of these outsiders who are buying GE products right now?

We know these products are the world's best—because we made them ourselves. We know that the nearly 450,000 men and women who make up the GE family—as employees and share-owners—could add 4.5 million dollars to GE's all-out Spring sales drive with the purchase of a single \$10 item apiece.

The "Buy GE" activity could add up to an important bit of job security in itself, with more than 38 cents of each sales dollar going to GE employees as wages and benefits. More importantly, it would show our neighbors and friends that we have confidence in the products we make.

That's the best way in the world for any man to "speak well" of his employer and to "stand by the institution" we all represent.

## SICK LIST

The following employees have been reported on the sick list, dismissed from the hospital, and returned to work:

### Sick List

Herman Bertsch, Ethel Crittendon, Estella Brewer, Melrose Bryson, Raymond Mock, Harold Timme, Melvin Kestner, Edward Bowser, Mary Berger, Herman Brandt, Willie Craig, Ruby DePew, Ray Johnson, Ruth Nahrwald, Marcella Rodman, M. M. Felger, Ben A. Anker, Edna Mapes, Charles A. Rogers, Basil Stephans, Charles S. Fisher, Nellie Rice, Geraldine Bevins, J. George Mannisto, and Robert R. Reed.

### Dismissed From Hospital

Gerald Scott, Wilhelmina Domnique, Dorothy Hirschbiel, Arveda Neal, James Nicholas, Matilda McClain, Virginia Gordon, Benjamin Clouse, John Lauer, and M. M. Felger.

### Returned To Work

Henry Smith, Grace Lobdell, Royal Parisot, Elmer Aumann, Grace Bullard, Anita Fitch, Mildred Hall, Dorothy Weiler, Wilbert York, Claudia Twibell, Eva Webber, Alfred Snawder, Herbert G. Wise, Estella Brewer, Mary Hayes, William Schwise, Myron Lowe, Coleman Price, David Harrold, Maurice Cook, Shelton Hempstead, Margaret Fortman, Robert Keim, Elizabeth Rose, and Rose Richard.

## THE BIG WIND SECTION 417 TAYLOR ST.

by Rachel Mounsey

I wish to thank Ruhy Stucky for doing such a good job writing the column the last few weeks. . . . You'd think that anyone who is as fond of strawberries as Bernice Gephart would know the difference between poison ivy and a wild strawberry plant, wouldn't you? She doesn't, so maybe someone will send her a potted poison ivy plant for Decoration Day. . . . We wish Emma Vaughn and her bowling team luck while in New York this week end. Rachel Mounsey will leave Saturday noon for the same tourney. . . . We wish a very speedy recovery to Ed Bierely's son, Rickey, who is a pretty sick boy. . . . Sarah Pulver must be in a daze on Monday mornings as she gets her statos all mixed up. . . . Millie Snider was driving by a house the other day and thought she knew someone in the back yard, so she waved. When she passed on a little, she found out it was a scarecrow that she was waving at. . . . Now that Helen Kritzman is on nights Jenny Mathias can relax. She may not see her name in the News every week. Then again she might. . . . We wondered why Stan Dascoloff was looking for a saddle the other day. Stan wrecked his car and borrowed Carl Sorenson's jeep to go uptown in. Stan says you need a saddle if you are to ride in it safely. . . . Peg Ballinger found out when you are a grandma you can't get your work done as fast as you did in your teens. Peg worked all day Saturday and still didn't get finished. . . . If you want to have a little fun just ask Willie Taylor what part of the chicken he got. Group 110 brought in a chicken and Willie was a little slow in getting there.

An egotist is a person who is always me-deep in conversation.

## What About Calories?

A calorie is a unit of measure of the amount of energy which the body can get from food.

Normal daily diets consist of about 2200 calories. Growing children usually require more because they are more active.

As we grow older we sometimes tend to add weight even on a daily 2000 calorie diet. This usually happens when we become less active; when we spend more hours at home, fewer in active sports or even dancing.

People past 30 or 40 often have to restrict themselves to a daily calorie intake of between 1200 and 1500. They do this and still feel good—sometimes even better than before—and remain healthy. What's more they keep their figures.

Men usually require more calories than women even on a reducing diet. This is so because their frames are larger and generally they lead more active lives.

Here are some foods which are loaded with calories and therefore not included in the diets of those who wish to control their weight:

Cake	Gravy	Fatty Meat
Candy	Liquor	Fried Foods
Chocolate	Olives	Jelly & Jams
Coconut	Sirups	Nuts
Cookies	Sugar	Pastries
Cream	Sweetened Beverages	Puddings

One of the greatest problems in weight control is probably not the wrong selection of food, but what we add to the food.

For example, tea and coffee plain contain no calories. If we lace them, however, with a tablespoon of cream and two teaspoons of sugar, we add about 65 calories. A medium size potato contains about 100 calories. A tablespoon of butter adds 95 calories to the potato. Gravy adds still more. A fresh apple is about 100 calories, but if we bake it with sugar, the calorie count is doubled.

We can reduce this calorie intake by using less butter, cream or sugar. Or we can substitute sucaryl or saccharin, two artificial sweeteners without calories.

Alcoholic beverages are great calories adders, too. Just look at this:

8 oz. glass of beer	120 calories
1½ oz. gin	120 calories
1½ oz. rum	150 calories
1 oz. whiskey	100 calories
1 oz. port wine	53 calories
1 oz. sherry wine	38 calories
4 oz. red or white wine	89-95 calories

Imagine what happens if we mix 1½ oz. rum with 6 oz. of our favorite cola drink! That drink then equals 225 calories. This is about the same calorie count as two slices of turkey, one small lean ham steak, two slices of roast lamb or a quarter of a pound of beef.

In addition to adding calories, liquor also increases the appetite which may result in overeating.

These, of course, are the reasons liquor is restricted or excluded from reducing diets.

## Primer on Communism: No. 6

## How Did Reds Take China?

Poverty-stricken peasants' hunger for land gave Communists a foot in China's door. They fostered civil war between peasant and landowner. At the outset they fought as guerillas to wreck the economy, burning towns, blasting industries and wrecking communications. As they gained strength they put mass armies into the field, fought sustained campaigns with Russian backing, and conquered the republic.

Then they turned their thoughts beyond their borders. Their intervention saved North Koreans from defeat; their support of Indochinese Communist guerillas has bled French strength there and at home. China is also the springboard for other action in Asia and is regarded as the model of Communist strategy for colonial and semicolonial countries.

(Adapted from the "Primer on Communism," published by the Anti-Defamation League of B'nai B'rith.)

# 'Operation Alert' Slated for June 14 April Ideas Earn \$3212 In Awards

Plans for Fort Wayne to take part in the nation-wide "Operation Alert" civil defense test exercise Monday, June 14 have been announced by Col. Chester Lichtenberg, director of the Allen County Civil Defense Organization.

At General Electric there will be no interruption of working schedules, according to Robert Wylie, who is in charge of the civil defense system for the company. Some auxiliary police and sheriff's deputies, however, will take part in the operation. Air raid warning sirens are located on each of the three General Electric plants.

"Operation Alert" will cover continental United States and be extended to ten provinces of Canada, to Alaska, Hawaii, and Puerto Rico.

The purposes of the test exercises are to promote a) increased operational capability, b) testing of communications facilities, c) training in Civil Defense, and d) development of increased interest in Civil Defense.

It is hoped that the test will help determine what and where deficiencies exist in Fort Wayne's civil defense plans and any changes which may be required in the plan.

In the test, it will be assumed that hostilities are being opened by nearly simultaneous surprise attacks from the air on vital centers of the United States, Canada, Alaska, Hawaii, and Puerto Rico through the use of A-bombs.

Nicknames have been given the attack warnings: "Lemon Juice" will be the nickname for simulated "warning yellow;" "Apple Jack" will be used for simulated "warning red," and "Snow Man" will be used for "warning white."

"Lemon Juice" will mean that a simulated attack by hostile aircraft is probable; "Apple Jack" will mean that a simulated attack by hostile aircraft is imminent, and "Snow Man" will announce the all-clear.

The operation will assume that the A-bombs will be detonated about 2700 feet above ground where Lewis St. crosses Calhoun St. at 12:18 p.m. (CDT).

The total damage area will be assumed to include territory within a circle having a radius of .75 mile with its center where Lewis St. crosses South Calhoun. The

major damage area will be assumed to include the territory outside the circle of .75 mile and within a circle having a radius of 1.5 miles.

Ab Martin, general manager of the Hermetic Motor Department, and L. C. Swager, manager of employee and plant community relations, are industry representatives on the Civil Defense Council.

## Apprentice Alumni Announce Program For Stag Dinner

A skit, pantomime and novelty act will be featured entertainment at the Apprentice Alumni Association stag Wednesday, June 2, Carl H. Brandt, publicity chairman said today.

The party will begin at 6 p.m. at the Rhythm Ranch on the Miller Rd. A smorgasbord dinner will be served. Food and refreshments are being handled by Robert Burns and Charles Bracht, co-chairman of that committee.

All graduates of the Apprentice School are invited to attend the stag. Any graduates who have not been contacted may make reservations with Marc Junk, Ext. 2701.

The first graduates of the Apprentice Training System of the

**READY FOR OPERATION ALERT**—Air raid warning sirens on each of the three General Electric plants in Fort Wayne will help signal the simulated approach of enemy aircraft during the Civil Defense "Operation Alert" June 14. Shown installing a siren on Bldg. 4-6 are Kenneth Green, W. O. Lueke, Richard Miller, and Curney Smith. The contract for supplying the semi-automatic controls for the 20 sirens in the city was awarded the General Electric Company.

Fort Wayne plants completed the machinist course (then the only course offered) in 1917. The Apprentice Association was organized during that year and has been an active organization ever since.

## Effective Presentation Awards Presented At Spring Class Graduation Conference

William McNamara, Winter St., and Virgil W. Bullerman, Bldg. 26-3, took top honors in effective presentation at the spring class's graduation conference May 19.

Mr. McNamara was awarded first place in oral competition. The title of his talk was "Our Most Important National Resource." Mr. Bullerman received his award for the best written presentation for his paper entitled "Enemy Within."

**HANDY WITH WORDS**—William McNamara (right) receives congratulations from his Effective Presentation instructor, Arthur E. Rowe, for winning top honors in the spring class's graduation conference. Mr. McNamara, a Winter St. employee, spoke on "Our Most Important National Resources."

James G. Germanson, Bldg. 18-3, and M. L. Miller, Bldg. 28-2, took second and third place respectively in the oral presentations.

The completion of the 16-week course was celebrated at a dinner meeting in Howard Johnson's Restaurant. Richard Burns, Bldg. 19-5, was master of ceremonies for the evening.

Other committees were headed by R. M. Weber, Bldg. 4-6, hospitality; R. E. Ryan, Bldg. 4-6, entertainment; J. E. Hanna, Taylor St., arrangements; and E. G. Myers, Bldg. 4-6, program.

Judges for the competition were R. J. Keyser, chairman; Walter Sunier, Wallace E. Beer, and B. R. McClure. Robert Hodell served as secretary-timekeeper for the judges.

The course was instructed by Richard E. Gebert, C. B. Smith, William F. Brunner, Everett C. Smith, and Arthur E. Rowe.

Sixty-one members of the spring class completed the course, which is company-sponsored.

## Sheriff to Speak To Foremen's Club At June 9 Meeting

The Foremen's Association will open their club year Wednesday, June 9, with a party at the Southwest Conservation Club. Sheriff Harold Zeis will be the speaker.

The event will get under way at 7 p.m. and a lunch will be served.

All new members of the organization will be welcomed, Roy Paulson, president, said. Both old and new members will be contacted for reservations, which are due by June 4.

Arthur G. Kurtz led the suggestion list with a \$455 award. One hundred and seventy other suggesters shared in the idea money which totaled \$3212 during April.

Mr. Kurtz suggested that the windbat be attached to a separate shaft and that a coupling and adapter on the other end fit the shaft of the motor being tested. This fixture reduced the test time on dual speed motors and any others with a windbat test.

The top suggester is employed in Section 417 at Taylor St.

Paul I. Conrad, Bldg. 26-1, came in second with \$310 for a suggestion to utilize scrap material in the making of shunts.

Another Bldg. 26-1 employee, Glenn Robinett, earned a \$265 award for an idea for a pusher-type gauge for shears. His suggestion resulted in a labor savings.

A loss-reduction suggestion brought \$200 to Gertrude Hughes, of Bldg. 26-4. Her idea was to "turn count" coils before finishing, thus reducing losses.

Gladys Cleland, Bldg. 4-2, suggested a change in the procedure for shipping routine in her section and earned \$60.

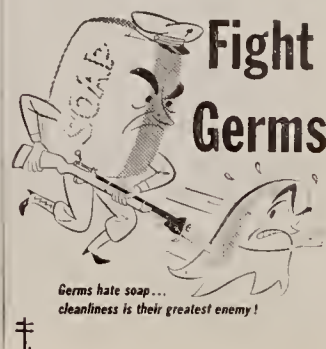

There were two \$55 awards during April. These went to Richard H. Koop, Bldg. 26-2, and jointly to Earl Souers and Vern Dafforn, both of Bldg. 4-5. Mr. Koop suggested using speed nuts on certain transformers, thus saving time. Mr. Souers and Mr. Dafforn suggested a change in the method of assembly a model to reduce assembly.

There were three \$50 suggestion awards paid during the month. These went to Herman Bertsch, of the Wire Mill; Dale J. Ferguson, Bldg. 17-3, and George Harmeyer, Bldg. 26-3.

Other awards were paid to the following employees:

Harold A. Prough, Bldg. 17-2, \$40; D. G. Baker, Bldg. 17-4, \$40; Raymond Klug, Bldg. 31-1, \$35; Charles Wheeler, Bldg. 6-1<sup>1</sup>/<sub>2</sub>, \$35; Carl D. Hower, Bldg. 20, \$35; Jerome Coffee, Decatur plant, \$25; James E. Burns, Bldg. 6-4, \$25; A. H. Vachon, Taylor St., \$25; Ed Brockhall, Taylor St., \$25; R. E. Bauer, Taylor St., \$25; and R. R. Doster, Taylor St., \$25.

There were 149 other employees who received awards of less than \$25 in amount.

## GE Offer

(Continued from Page 1)

3. Beginning next January 1, the full vacation allowance earned—instead of the present pro-rata amounts—will be guaranteed to qualified employees who are laid off, terminated, sick or absent for other reasons after December 31. Vacation pay will be computed so that the employee will get the benefit of his pay rate at the time of vacation or at the end of the preceding calendar year, whichever is higher.

The economic improvements will be put into effect for salaried and hourly-rated employees not in collective bargaining units June 1, with the obvious exception of im-

provement in the vacation plan. This will be applicable with the start of the next full vacation year on January 1.

The effective dates will be the same as above for IUE-CIO, UE, and other unions where appropriate, if agreement is reached by June 7.

Other contract improvements included in the package are:

### Holiday Pay—Continuous Operations

An employee on continuous operations who is scheduled to work on a holiday but fails to do so because of verified personal illness, death in the family, jury duty, or emergency illness at home will be paid for the holiday if he is otherwise eligible.

### Continuity of Service Credit

The maximum service credit for time lost due to compensable disability is to be changed from six months, as in the present practice, to one year.

### Upgrading and Promotions

New language was proposed to clarify the company's intent that, to the extent practical, first consideration for job openings and promotions will be given to present employees who have the necessary qualifications.

### Contract Duration

Current agreements would be extended to Sept. 15, 1955, which would coincide with the date when the pension and insurance agreements can be opened or terminated. Both types of contracts would thus

be open for discussion at the same time next year.

## Trouble With Teenager Joan Has Romance

Joan Davis, star of the "I Married Joan" comedy television series, learns the dangers of tampering with the normal progress of teenage doings in a repeat performance of "Bev's Boyfriend," one of the most popular of the past season's offerings, on Wednesday, June 2, at 7 p.m., CDT, over WKJG-TV.

Joan becomes involved in sister Beverly's romance with a teenage hot-rod enthusiast and winds up under his jalopy, covered with grease. She is still more embar-

rassed to find herself in a net of romantic intrigue when the lad falls in love with her instead of Beverly (Joan's daughter, Beverly Wills).

How Joan teaches the boy a lesson for falling in love with a "glamorous older woman of the world," and how her husband, Judge Bradley Stevens (Jim Backus), tries to teach Joan a few things about keeping out of the youngsters' affairs, makes for a series of highly amusing situations.

"Bev's Boyfriend" was originally seen December 2, 1953. P. J. Wolfson produces "I Married Joan." John Rich is the director.

He who laughs last probably wanted to tell the story himself.

## GE DEATHS

## Decatur, Taylor St. Listed On GE Safety Honor Roll

The Decatur and Taylor St. plants were listed on the safety honor roll by the Health and Safety Services Department this week, as General Electric employees completed the safest three month work period in their history during the first three months of 1954.

The record showed a 20 per cent improvement in the company's accident frequency rate over that recorded in 1953. The previous best record for a three-month period was earned in the third quarter of 1952, and the new figure just released show an improvement of 8 per cent over the previous low.

Seventy-five plants of the company, with a total of 32,000 employees, operated for the first quarter of 1954 without a disabling injury. In addition, 20 departments with 13,000 employees, located at multi-department plants, had a clear record. Thus, 45,000 employees worked for three months without any employee's sustaining an injury that was serious enough to cause him to lose a single day of work. This is equivalent to a plant of 500 employees working 22½ years with a perfect safety record.

For many years General Electric has maintained a good industrial safety record. In releasing the recent statistics, the Health and Safety Services Department expressed the belief that with the concerted effort that is being made throughout the company today, even further reductions in disabling injuries will be realized in the future. Today throughout the company this effort is directed toward:

- 1) Developing safe and healthful working conditions,

- 2) Including safety training in job training programs,
- 3) Encouraging employee participation in safety programs and employee safety suggestions, and
- 4) Enforcing safety rules.

## CBS to Air Utility Coffin Award Honor

Philip D. Reed, Chairman of the Board of the General Electric Company, will speak over the CBS Radio Network from Atlantic City June 2nd at 9:30 p.m. (CDT). Mr. Reed will present the Charles A. Coffin Award to one of five electric utility companies nominated for the honor.

The presentation will be made during the annual convention of the Edison Electric Institute. Walter H. Sammis, President of the Ohio Edison Company and President of the Institute will also speak.

This will be the 32nd year for the Coffin Award, which is presented to the electric utility company whose contributions to the development of electric light and power for the convenience of the public and the benefit of the industry are judged best during the preceding year.

The five companies nominated this year are American Gas & Electric Company, New York; The Cleveland Electric Illuminating Company, Cleveland; Connecticut Light and Power Company, Berlin, Conn.; Texas Electric Service Company, Fort Worth; and the Wisconsin Electric Power Company, Milwaukee.

## GE Fire Chief to Head Red Cross Disaster Service Rescue Committee

Ernest Hanauer, chief of the GE fire department, has been appointed chairman of the Rescue Committee of the Fort Wayne-Allen County Red Cross Chapter's Disaster Service. His appointment was announced by Ralph Ellenwood, head of Disaster Service.

Other committee chairmen, serving with Mr. Hanauer on a written plan for operations in case of a natural disaster in Fort Wayne are: Nurse vice-chairman, Frances K. Roush, R. N.; Medical Aid; Walter Kruse, M. D.; shelter, Clarence Anderson; food, Robert Cutter; clothing, Jack Golden; transportation, W. Don Foutz; communications, Ralph Johnson; registration and information, George Hacker; fund raising and public information, John G. Reiber, and central purchase and supply, George W. McKay.

These people are all volunteers, trained in the specific needs their committee requires and are thoroughly instructed by Red Cross in the proper procedures for operating in time of a flood, tornado, fire, etc. The basic needs of disaster-stricken people are medical, nursing and hospital care, food, shelter and clothing. These commit-

Ernest Hanauer

tee members know what to do, when to do it and how to do it to lessen the effects of the tragedy and its resulting confusion.

## Loretta Bloom Dies After Long Illness

Loretta Bloom, a former president of the Elx Club, died Sunday in the Sacred Heart Hospital at Garrett. She lived at 315 Edgerton Ave. in that city.

Miss Bloom worked for General Electric since 1929. At the time of her illness she was employed as a lead and cable maker in Bldg. 26-4. She had been ill for two years.

While at GE she was active in the GE Club, the Credit Union, and the Elx Club.

A solemn Requiem High Mass was held Wednesday at St. Joseph's Catholic Church in Garrett. Burial is in the Garrett Catholic Cemetery.

Survivors include her parents, Mr. and Mrs. Martin Bloom, of Garrett; three brothers, Lawrence Bloom, of Mansfield, Ohio, Edward Bloom, of Auburn; and John Bloom, of Fort Wayne.

## Q-C Club Member Dies In Lutheran Hospital

A three-month illness was fatal to Delphos A. Winter, 62, May 19. He died in the Lutheran Hospital, where he had been a patient for one day.

Mr. Winter first came to General Electric in 1919 as a painter, and was employed in Bldg. 6-4, when he left on leave of absence this year. He was a member of the Quarter Century Club.

Survivors are his widow, Pearl; a son, Herbert; a daughter, Mrs. Elmer Yordy; a stepson, Richard Sotorius; and a stepdaughter, Mrs. Arnold Barry, all of Fort Wayne; a sister, Mrs. Ossie Palmer, Coesse; a brother, Leslie Winter, of Fort Wayne, and nine grandchildren.

## Rites Held Tuesday For Dorothy Mills, 41

Dorothy C. Mills, 41, of 408 Nussbaum Ave., died at home shortly before midnight Friday. She had been ill since December of 1953.

Miss Mills came to General Electric in 1942 as a time clerk at Winter St. She was a general clerk in Bldg. 2-2, when she left because

ALL DOLLED UP—The Employee Store at Winter St. is now open for business in its new location next to the cafeteria. Joe Rowan is shown placing an order at the "short order" window, where employees may get service without entering the store. A new display case is shown at right.

## TALES from TAYLOR SECTION 113 TAYLOR ST.

by Harry Parker

Last week-end Buck Adams resumed construction activities on his new home at Lake Gilead. While working in the upper part of the house he slipped and fell, knocking half of the bark off of his "beezer!" This is certainly a bad start and we sincerely hope that no more accidents will be suffered by him this coming summer as we are desirous of having him finish the job without winding up in the cemetery. . . . Joe Turley is of the opinion that when it comes to counting, Kenny "J. Jack" Applegate is the best bum counter in the section. Joe reports that in checking Kenny's daily run-off of the machines invariably there is an over-run of from 10 to 27 on each item. . . . Harold "Popeye" Patterson pinned himself to the floor the other morning. In manipulating an electric truck somehow he managed to get one foot under a wheel. He could not move either himself or the truck, but after much yelling he did attract the attention of a co-worker, who rescued him. Popeye is happy to report that no damage was done as safety shoes saved the day.

## RACONTEUR SECTION 114 TAYLOR ST.

by Luana Oehlaffen

Si Alspaugh was seen down at the Time Trials last week-end. Si was also seen at several automobile dealers trying to get a good deal. It is reported that he will swap his Packard for a Chevy even-up. . . . Attention girls: Ed Hines is giving driving lessons to either married or single girls. However, if you are married, you must bring your husband along. . . . Walt Niemeyer would like to have Fred Vogt's address so he can send him a cablegram to come back and help him repair those motors. . . . Paul Fremion misses "The Old Goat." It seems he has no one to argue with now. . . . Ife Holmes' last inventory was exactly the same as the one for the week before. Now how do you suppose that happened? . . . SCOOP! Bob Till was locked in the Tool Room on May 20, 1954. Remember that date. . . . Welcome back to John Mann, who is back at work looking just fine. . . . What's the low-down on Katy Auker and that 25-pound catfish? . . . Who was seen at what Drive-In in what row? Ask Ed Hines. What movie was playing, Ed? I'll bet you don't even know. . . . Wednesday was moving day for Bill Lavine. He says he is going to eat fish this summer. . . . Anyone wishing to rent ladders please contact Fred Heinkle. . . . "Lucky" Dillon is still driving his "Lucky Mercury." . . . Adrian Libbing is taking orders for tool box stands. . . . Harry Diem insists it is Vondy's singing that scares the fish. . . . Anyone wishing to know what color Helen Platt painted her rooms only has to look at her arms. . . . Rosie Koons never knew there were so many steps in the world until she moved into her new apartment. . . . All we get from Hugh Neely and Mike Brayer when we ask them for news are jokes. . . . Margaret Cowan is among our new TV owners. . . . We keep trying to tell Frank Conley that it's later than he thinks. Those wedding bells are getting closer, Frank. . . . Gladys and Carl Reynolds entertained their sister and brother-in-law from Ohio last week. . . . Dorothy Money's mother is visiting her from Angola. . . . Louis Shattuck has been playing golf with

some of Section 114's better golfers. . . . Ivan Osterman's mother-in-law is visiting them from New Mexico. . . . Paul Clendenen is one of our more enthusiastic fishermen. Every week-end Paul goes to the lakes. . . . We would still like to know where Frank Boyd got that sunburn. . . . Mike Brayer is up for election to serve on the Irish Lake Cottagers' Association. . . . Marilyn and Bill Smith entertained 25 little children last Saturday. The occasion was their daughter Ann's second birthday. . . . Did you hear about the toothless termite who went into the cocktail lounge and asked, "Is the bar tender here?"

## SPECIALTY MOTORS Shipping—Receiving—Order Service

by Mabel Fisher

Paul Thomas took a nap during lunch hour and Ed David had a rough time trying to awaken him. Paul, our gentleman farmer, is used to being awakened by the crowing of his pet rooster. All Ed needs to do is to learn to crow. . . . Good Samaritan of the week: Harry Price, who shared his lunch, a glass of water, and 50 cents to a bewhiskered tramp sitting on the railroad track. . . . Happy birthday to Betty Swift, Frances Jaylor, Clifford Saylor, and Helen Brown. . . . Mary Jane Wise gave us some lovely cookies last week, all sugared in pink and blue. . . . Betty Swift and Sue Stewart gave a shower at the Colonial Tuesday evening for Faye Ann Christleib, who is being married soon. Those girls enjoying the evening were Beverly Gebert, Helen Eggeman, Sue Stewart, Betty Swift, Dorothy Porter, Helen Brown, Marlene Niccum, Mabel Fisher, Evelyn Tibbles, Dixie Hogg, Mabel Keppler, Della Abel, Betty Kemp, Ilene Richardson, Audrey Betley, and Faye Ann. Her gifts were lovely.

RECENT RETIREMENT—Herman Roesener shows the lawn mower he received as a retirement gift to his co-workers (l-r): Ronald Wilkerson, Ed Trabel, William Hite, John Madden, Raymond Trumbower, Merritt Hershberger, Robert Kinzie, and Kenny Van Meter. Mr. Roesener has been a GE employee since 1942. He was employed in Bldg. 10-1 when he retired.

CASH IN HAND—George Harmeyer shows R. L. Mann the award he received for suggesting the purchase of varnished glass cloth in large rolls and cutting them to size within the sub-section. Mr. Harmeyer is a production clerk in Bldg. 26-2.

## 17-3 NEWSIES by Wilhelmina Beeth

Enjoy the long week-end but take it easy. We want to see you Tuesday. . . . A new boss, wearing three-cornered pants, is at the Frank Beck home. Congratulations on your new boy. . . . If you've been over to the GE Club and have seen Charlie Wilt strutting around, it is because he is a proud new grandfather. Michael Charles is the newcomer's name. . . . Art and Dorothy Blume's interest was in Indianapolis over last week-end. The Elmhurst golf team won the right to compete in the State Golf Meet. . . . Lola McCague has a new granddaughter. The mama is Frances Hart, a former co-worker. . . . We light another candle on the cake and wish a happy birthday to Chester Hill and Bill Ort.

. . . Do you have some hauling to do and no trailer? Virgie Mayer has the answer. Equipment needed includes one car, one driver, one person to sit in the trunk of the car, one wheelbarrow, and one log-chain. Method: Hook log-chain around wheelbarrow handles. Have person sitting in trunk hold other end of chain. Pull wheelbarrow as driver slowly drives down the street. It works, too. . . . Marlyn Huhn, daughter of Helen Huhn, was recently elected President of the Fort Wayne Region of the National Federation of College Students. Marilyn is a sophomore at St. Francis College. . . . Florence Fett was on vacation last week. . . . Louise Hayes spent last week-end in Evansville. . . . Lorena Buuck is excited over her trip to Georgia to visit her brother in camp. She leaves today. . . . We are glad to see Dorothy Blume ringing in her clock card again. . . . June Baumgartner left us this week. She is spreading the welcome mat for Mr. Stork. . . . We wish a speedy recovery to Margaret Zumburn, who is on the sick list. . . . We extend our sympathy to Delbert Thomas in the loss of his father; also to Arla Bower in the loss of her grandfather; and to Virginia Herbst in the loss of her mother-in-law.

## DECATURITES by George Laurent

No, we don't have a new girl in the office. Shirley Fuelling just got a "poodle" cut; pretty neat I'd say. . . . Phyllis Gerke would like to make it known that her "new business" did not net her 20 cents clear profit, as it cost her 10 cents to get started in the business. . . . Ott Hoffman had a nice new bottle of perfume the other day, but upon close observation you could smell a rat. . . . Happy birthday to Mary Fennig and Jacob Hodle, who celebrated on the 27th. . . . If anyone has any odd jobs, "Cosey" Kleinknight will be glad to assist, if you hit his one free night a week. It seems that Chet, with his Little League and softball, hears some mention of being a baseball widow. . . . Two of the golfers to represent Decatur American Legion in the Annual Legion Golf Tourney are Kenny Gaunt and Johnny Baumann. We wish you lots of luck. . . . George Myers, reporting on his recent week end fishing trip, said they had plenty of bites, mosquitoes that is.

## PICK-UPS from 26-3 by Maxine Jordan

The stacking section held a pot-luck for Ed Lauer, who is transferring to the winding section as foreman. . . . We extend our deepest sympathies to Fred Leinker on the death of his grandmother. . . . Now that Willard Lenz has new castors on his desk chair, his insurance company can relax. . . . Charlie Adams was seen standing in line at the clock in Bldg. 26-4 to ring in. Since Charlie hasn't been transferred we wondered what was going on. When questioned he said, "And to think I walked up the stairs this morning." . . . Welcome back to our winding group, Wanda, but one thing, "Don't baby our machines by calling them 'honey' and 'dear.'" . . . Vera Hoover enjoyed her trip to Chicago but said she would rather live in Fort Wayne. . . . Lena Forker needs some new glasses. Do you know why? Her eyes are always bigger than her stomach when she goes out to lunch. . . . Here's hoping to see Sylvia Lazoff back on the job next week feeling fine and dandy.

## SLEUTHING in 4-6 by Al Happel

HAPPY BIRTHDAY TO Rita Alspaugh on May 29, and to Karl Feiertag, on May 31. . . . CONGRATULATIONS to Jean Stokke, who formerly worked for Mr. Jones. She is the mother of Robert Alan, born May 17, weighing nine pounds. . . . CHRIS FLANIGAN spent two days on the jury last week. Did you learn anything new, Chris? . . . HAPPY BIRTHDAY to H. P. Love on June 2. Speaking of birthdays, Jack Cochran was really pleased with the various sundries, which comprised a gift package from his co-workers. Could you possibly use one of those items, Jack? We know the Easter egg looked pretty, but we think it was strictly for the birdies. Also, will you use the lump of sugar and stick of gum? Those are wonderful friends of yours, Jack. . . . BONNIE LEPPER'S pink complexion last Monday was caused by a joy ride to the lake and a mild exposure to the sun. Bob Mee also had a pink complexion, but it was only on one arm. What did you wear on the other arm while tanning yourself, Bob. . . . FRIENDS OF MABEL WAGONER are welcome to visit her at St. Joseph's Hospital, where she will be confined for several weeks with a cast on her back as the result of a recent automobile accident. . . . It is indeed hard for Lois Schmidt to keep both feet on the ground these days. Her thoughts are all tied up with her coming June wedding. . . . BEST WISHES to Maggie Cox for a speedy recovery from her recent injury. . . . Does anyone have any nice hard boards, so we can make Val Rowan a nice hard bed? If you see him backing up to a wall he isn't going to push it over or scratch his back. He is just checking his posture. . . . My pal, Gil Baker, thought Charley Wurm was lonely in the Pajamas Top Club, so he joined the club last Monday with a bright green and white pajama top shirt. We are hoping that the club will grow, but you fellows in 4-6 are sissy, or so says Gil and Charley. . . . Please remember Memorial Day in the proper manner and do not do too much celebrating on the highways. It is to remember our dear departed ones, not to add to their number.

## WIRE RAVELINGS TAYLOR ST.

by Art Rasor

Congratulations to Mr. and Mrs. Robert Snyder on their new arrival on May 23, 1954, weighing 9 lbs., 1 oz. Her name is Lu Ann. . . . Merle Armstrong heard too many stories about mushroom hunting around here, so he drove to northern Michigan for the big ones. He not only came home with a bushel basket full, but a picture for proof of the story. . . . It's spring and open market for new cars. It's a new Chevy for Ray Kirk and new Buicks for Buckles and Herb Thompson, with the latter having his first flat tire after only 60 miles! . . . Since Dillo Patten bought his freezer, he carries half of a fried chicken for lunch. Not only that, but his lower chest has grown to a size 44. . . . Bill Zierolf hauled a load of peat moss for Johnny Powner, charged him two dollars, and took half the load for a joke. Powner doesn't know that the load cost only one dollar in the first place! . . . Herb Scherer thinks it's time to buy another bill cap, as the one you see him wearing is 29 years old. He has lost track of the age of the other one he has at home, but he does know that it is the older. . . . This is just a warning that you had better check any eggs you buy from Bill Rohe. They have either been left in the sun or an attempt has been made to hatch them, as any number in a dozen could be hard-boiled. . . . Ralph Remenschneider would like to have an honest answer on how to tell the age of a horse. The answers he has been getting don't seem to help the situation.

## APPRENTICE BROADCAST

by Dave Jones

With the date of Mr. Wolfe's retirement drawing nearer and nearer, the social council has been working very diligently for the farewell party in Walter's honor. The chairman for the affair has been named and from the initial reports we are very hopeful of giving Walter a send-off he will long remember and cherish. The party is open to all apprentices, instructors, and their wife or girl friend. There will be dancing for the couples and card-playing in an adjoining room for those who desire to come stag. So far we have a very high percentage of the fellows who are bringing their wife or girl friend (it is not advisable to bring both to the same party). We also have some very talented entertainers to perform. For refreshments we are going to have hot dogs, potato chips, and soft drinks. The date is Thursday, June 17. Let's all get on the wagon and help to make the party a big success. . . . Bob Barnes has moved over to take charge of the lathe section since Harry's departure. Harold Lehman is the new instructor in the mill section. Harold (Lem) is an apprentice graduate, having completed the course in August, 1943. Prior to his transfer here, Lem was working in Bldg. 19-4. We sincerely hope you enjoy your new position, Lem. . . . The GE Club Athletic Banquet was held on May 18 and the apprentice school was well represented. Everyone who attended enjoyed a fine steak dinner and a splendid after-dinner speech by Hilliard Gates. Warren Sloan was the big winner from the school, receiving a major award for volleyball and a minor award for basketball. Congratulations, Warren. . . . Congratulations

are in order for John Blair. John recently earned the grade of 108 on the mid-term test in Strength of Materials. That's correct, 108. Nice going, John. . . . Congratulations and best wishes to Mr. and Mrs. Richard Arnold, who were recently married. . . . Congratulations to Mr. and Mrs. Andy Chrystler on the arrival of a baby girl and also to Mr. and Mrs. Charles Spear, who have a new daughter.

## SMOKEHOUSE SAYINGS BLDG. 22

by George Winans

Kenny Evans met Liberace the Sunday after his concert and shook hands with him in the lobby of the Van Orman Hotel. Now our hero is going around the shop selling handshakes for 50 cents each. Which reminds me, if anyone has an extra autograph of Liberace I would like to get one for the little woman. I will gladly give 25 cents and a genuine Officer Tieman autograph for the maestro's moniker. . . . Mr. and Mrs. Oliver Miller celebrated their 35th wedding anniversary on the 17th of this month. Our congratulations to the both of them. . . . So long and good luck to Jess Bixler, who left the old Smokehouse to go to work in the air-conditioning section on Fairfield Ave. . . . Congratulations to Harold C. Smith, who saved a man's life after a bad accident the other week. When we say he's a big hero, we're not kidding. . . . Gerald (Red) Platt and Emery (Old Crow) Cramer were in the other day to visit us. We were glad to see you, boys. . . . Ernie Pfeiffer, our second trick dispatcher, is economizing now by mixing rubber bands with his pipe tobacco. Mm, that tantalizing aroma. . . . Pappy Wright and Henry Wells are on vacation this week. Henry is up at his cabin in Canada. Perhaps he'll bring us news of his little girl, Snowflower.

## COUNT OFF SECTION 417 TAYLOR ST.

by Ruby Stoops

We welcome Ollie Ragan back to group 17 x 54, also Annabelle Unger and Laura Grotian from Div. 13. . . . Group 17 x 54 isn't the same since Louise Sinn and Bernadine Warner were transferred to Broadway. We miss you girls. . . . Bertha Burnau was supposed to meet her husband at Sears Roebuck Friday evening. The store is so big that Bertha became lost. After walking from one end of the store to the other, it finally came to her at what entrance she was supposed to meet her husband. Next time we will see if we can't get guide service for you, Bertha. . . . Crystal Boyd spent the week end at Van Wert, Ohio. . . . Happy birthdays to Laura Adams and Florence Weimer of group 17 x 580. . . . Malida Bradtmiller spent Sunday fishing at Jimmerson Lake. She reports they had good luck, too. . . . We wish Nina Growcock's husband a speedy recovery. . . . We were all happy to see Max Turnbull last week. Max worked in the lead section. He has now joined the Navy, stationed at Bainbridge, Maryland. . . . Herb Richter spent the week end helping a friend with his cottage at Rome City. . . . Oral Emrick has added a few more medals to his collection, this time from Anderson, Ind.

## Three 30-Year Awards

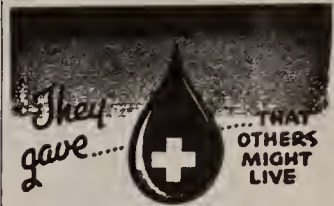

LETTER OF CONGRATULATIONS—Philip J. Schott (right) shows a letter of congratulations on his 30th GE anniversary to (l-r) Carl Steinbacher and Charles Foreman. Mr. Schott has been a truck driver since joining the company in 1924.

30 YEAR HONORS—James T. Keller (second from left) gets best wishes on his 30th General Electric anniversary from (l-r) H. A. Freeman, Levi C. Carpenter, and Harry Brattain. Mr. Keller has been employed in Specialty Transformer since he joined the company. At present he is a stockkeeper.

30 YEARS ON THE JOB—Ernest C. Brown (center) is congratulated on his 30th year with GE by Maurice Sordelet (left) and Clarence A. Brenner. Mr. Brown joined the company as an inspector in Bldg. 19-1. He is a welder in Bldg. 19-5 at present.

The following employees from the General Purpose Component Motor Department donated blood during the week ending May 14:

Edward Ellenburg, Ely Hardy, James E. Hoppel, Adrian F. Libbing, Aleda McWhirter, John Margerum, James S. Moore, Arthur T. Rose, Robert H. Gangwer, William K. Gregg, Ross E. Harter, Harold E. Hartman, Harold J. Hoffman, L. W. Jahnke, Frieda Kipfer, William M. Lipp, Paul E. Merkey, E. N. Miller, Albert H. Nebur, Thomas E. O'Connor, Luther M. Ogg, Clarence J. Schroeder, Elmer W. Sherbondy, and Ivan H. Voirol.

Adrian F. Libbing is a one-gallon blood donor.

## 6-4 AIRLINERS

by Moe Satterthwaite

Congratulations to Elsa Frede, who celebrated her 30th year with General Electric last Monday. . . . Marguerite Dasher was presented with her Quarter Century Club pin and welcomed into the organization. . . . Don Greenler represented the 6-3 office at the Athletic Banquet at the GE Club Tuesday night. . . . Welcome to Dan Tetlow, who is now the dispatcher, and to Ralph Taxtheimer, new stock man on 2540 frame. . . . We were confused Monday when we didn't see Andy Anderson at his usual place. When we did find him we didn't recognize him as he had got himself a "Pondo" haircut. The reason he did was that his wife told him he was scared. . . . Contrary to all the stories you may have heard, it was just a little brick that caused the taped-up ankle that Marcie G. has been limping around on. . . . Esther Fagan made the News-Sentinel by defending Liberace and we think that we should mention her in our column, too. You were right, Esther. We like him, too. Don't we, fellows? . . . Well, Wava "dood" it. She has joined the ranks of new car owners, and is now traveling in a new Ford. . . . We wish a speedy recovery to Mrs. Harold Dalman, who was operated on last Friday. . . . It's time to get our swimming suits out. I can hear the girls in 2 x 36 saying, "I wish I would have stayed on my diet." We hear that Dorothy Ramsey is going to start taking swimming lessons and her teacher is from the old school—Sink Or Swim. . . . Why are most of the guys in 2 x 36 giving up smoking, especially Hollis Mee? . . . Moe Moffiet didn't attend the sports banquet because he couldn't get his housework done in time. . . . Pondo spent last week end in Indianapolis, attending the preview of the 500-mile race. . . . Zirk Rogers was also speedminded. He said he took his hopped-up Plymouth and blowed the cinders out of it. Harold Stalder, Air Force inspector, says from now on when he wants to take a trip he will have Zirk push him as his Chevy won't go quite that fast. . . . Ed Glenwith went golfing and the only place he is sunburned is on his nose. . . . Our deepest sympathy goes to the Winter family on the recent death of our co-worker, Del Winter.

**BANQUET SPEAKER**—Hilliard Gates (right) local sportscaster on radio and TV, chats with (l-r) Bill Schible, GE Club president, Donald D. Brayer, club manager, and L. C. Swager, after his talk at the GE Club spring sports award banquet. Mr. Gates' nightly programs are sponsored by General Electric.

**AWARDS GALORE**—Three GE Club committee chairmen look over the array of awards presented to winning teams in golf, basketball, volleyball and bowling at the Awards Banquet last week. Left to right are Harold (Red) Braden, golf chairman; Erv Huth, athletic chairman, and Joe Kramer, bowling chairman.

## WINTER STREET JOTTINGS

by Margie Hill

Welcome this week to: Lillian Sharpton, Mary Tucker, Harold Mills, John Stamper, Lloyd Goodwin, Betsy Felger, Joe Miller, Dick Gettys, Floyd Thieme, Dorothy Lahrman, Bob Shoemaker, John Tuto, Lora Summers, Marceille Bandtel, Christine Darling, Paula Gevers, Fern Richerson, Betty Thompson, Alvilda Williams, Josephine Poyser, Sarah Wyatt, Doris Doehrmann, Rita Comings, Bob Smart, and Grace Bullard. . . . Dorothy Hart is back from illness. . . . Jim Glisson and Paul Books we are welcoming back from the Armed Forces. In the Office we're extending our welcome to Suzanne Foote, new in Engineering; Donald Poland, transfer from Danville, Ill., in Manufacturing; John Mosley, transfer from San Jose, in Production. We're saying good-bye for a while to Shirley Richards, who we hope will be back with us before too long.

We're lighting another candle on the birthday cake this week for Nancy Kelley in the Marketing Section who celebrated last Monday. Did you all see her pink cake with one candle on it? Real cute, Nancy, and we hope you have many more birthdays just like that one.

Here are pictures of the SIM Office party that was held May 14. Couple of dillies, huh? This one of the judges is really terrific, don't you think so? Notice the expression on their faces, that is if you can see around and behind the mustaches they are wearing.

The Judges

The judges were, in case you can't place them, J. H. Behm, L. D. Fowler, M. L. Kresge, and T. L. Mayes.

And of course we had to put a picture of the Gay Ninety dancing girls in. Get a load of those bathing suits. Did they really swim in those days? The girls are, left to right, Dorothy Dobler, Nancy Kelley, Alma Elliott (Queenie), Marianne Royse, Bev Goshorn, and yours truly, Margie Hill. A lot of fun was had that evening and we're all hoping for more get-togethers like that.

The Chorus Line

Marc Koehn is still on the mend and we're hoping to see her back real soon. . . . Thought you might be interested to know that Wallace Growcock is also on the mend and doing nicely at the LaGrange Hospital in LaGrange, Ind.

## Tee Off

by Earl Stauffer

Now that the weather man has started to cooperate the golf leagues are getting down to the business at hand.

Bill Kayser of the 19th Holers in Tuesday Office League turned in a nifty 38 card. Jack Steel of the Drivers in the Winter St. League carded a 39.

Stu Fisher's Winter St. report came in too late for the last print so they will get it late. Jack Steel is the bell sheep for Bill Irwin's league leading Drivers. Jack's neat 39 led the way to a 3-point win over Jack Skevington's Spoons. Hal Staley's 40 was to no avail for the losers. Vern Foulks, the ex-Owl, aided the winners with a 41. Ray Dumford's Brassies blasted their way into second place by beating Jim Geiger's Nihlicks by 11. The biggest gain was made by Dick Szink's Putters in a 22-point pasting of manager Fisher's Mashies.

The first section of the Monday leagues has produced the closest matches. Only 16 points separate the league leading Turf Toppers and the tail end Rovers. The Turf Toppers shoved the Rough Riders

out of first place and into third with a two-point win. The Pros moved up a notch to second by beating the Rovers by three. The Dark Horses and Lost Balls came out even. Paul Hopkin carded the low score, a 42 for the evening's firing.

Red Braden's 19th Holers are making a shambles of the Tuesday Evening League. They lead the second place Dubs by 16 points. The Optimists were the latest victims to feel the wrath of the power-laden club housers. Bill Kayser contributed a 38 toward the winner's cause. The Dubs traded places in league standings with the 49'ers by beating them nine points. Despite the cellar dweller win of three points by the Gas House Tigers over the Divot Diggers, they both

hold fifth and sixth spots.

They really play golf in Charlie Briggs' Monday afternoon gang. They play no matter what. Take Lyle Claphan, for instance. On the way out to the course Lyle had brake trouble on his car. Brake trouble plagued him on the nine also. He shot a 68, 16 strokes over his average. Also take Paul LeCoque who started out with four straight pars, three consecutive double hogeyes, a bogey, and topped it off with an eagle 3 on number 18, for a 41 card. We must mention two 37's by Willie Adams of the Putters and Jack Steel (I wonder if this is also the Winter St. Steel) of the Fire Mill.

Wire Mill, the league leader, and Transformer thumped their opponents, the High Balls and Divoteers, by 14 points. The Putters beat Financials by 10.

MONDAY AFTERNOON		
Team		Points
Wire Mill	.....	Plus 23
Transformer	.....	Plus 7
Putters	.....	Plus 1
High Balls	.....	Minus 4
Divoteers	.....	Minus 7

AD-  
ILETS

"Lost" and "Found" articles must be cleared through the Plant Protection Office, Bldg. 10-2, or the Plant receptionist, who will place the Ad-let and otherwise advertise the article.

No ad will be received over the telephone.

Only one ad per employee may be inserted. Each ad must be limited to 20 words and cannot be repeated. All articles mentioned must be personal property of the employee. Ads will not be accepted unless accompanied by the name, pay number, and division of the employee. No plant building or telephone number may appear in any ad except transportation ads, only the home telephone number or address.

Send all ads to GE NEWS office, Bldg. 10-1.

**CLOSING DATE**  
Monday Noon, May 31, 1954

**LOST AND FOUND**

FOUND—Green Wearever pen in Bldg. 27, west end.

FOUND—Eye glasses, silver rims.

**FOR SALE**

REFRIGERATOR—Monitor-top refrigerator, 7 cu. ft., good condition. H-58483.

JACK—Hydraulic truck jack, 6-ton. Walker, 6.50x15 tire, nearly new, with tube. A-65235.

SAW—Craftsman, 10-in., tilting arbor, beach saw. Three-fourths hp. motor and stand, like new; reasonable. A-36333.

GUN—Mossberg, 20 gauge, shotgun; 3 shot clip with variable choke; excellent condition; \$20. H-83062.

BOOKCASE—Open; electric hedge clipper, like new; glass top coffee table; small red stand and magazine racks on side; strip rug, 52 in. x 13 ft.; throw rugs, all colors. A-69921.

REFRIGERATOR—GE, 6 cu. ft., 1942; early American maple sofa; cabinet converter for hot water heating system. H-57429.

BASSINET—With pad, like new; playpen, off of floor; reasonable. H-50773.

REFRIGERATOR—GE, monitor top refrigerator, good condition. Ideal for cottage. Make me an offer. A-88185.

MUMS—Chrysanthemum potted plants; all colors, red, purple, yellow, white; 20 cents each. Will bloom this fall. A-16622.

BOAT—Inboard, 14 ft. boat. Can be seen at 1817 College St.

CONVERTER—All channel converter, never been used, \$12. Hollywood French fryer, \$10. H-92213.

WASHER—Maytag washer, good condition. Will sell or trade for extension ladder. A-75113.

FREEZER—Cooler, year old, like new, 1 1/2 cu. ft. freezer. K-1528.

VIOLETS—Potted African violets, 35, assorted colors. H-40211.

DAVENPORT—Good leather davenport, bed type; ideal for cottage. H-26855.

RING—Diamond Masonic ring. Will sell for less than half cost. H-4992.

TIRES—Two 6.40 x 15, excellent condition. H-26182.

BICYCLE—Girl's full-size bicycle, very good condition. 1312 Stophlet St. A-8492.

STOVE—Coleman gasoline camping stove; good condition. H-46131.

SINK—Kitchen sink, 42-in., complete with fixtures. Ideal for basement or cottage, reasonable. E-2378.

PIANO—Churubusco 4116.

BUGGY—Baby buggy and pad, \$5. A-16964.

CAR—1948 Kaiser, reasonable. H-60271.

HEATER—Arvin, hot water heater. True-tone radio, complete. Both in A-1 condition; reasonable. H-44535.

WINDOWS—Two with frame. Glass sizes, 28 x 36 1/2 with storm window, and 24 x 24. Left-hand drainboard sink. 2804 Addison St. E-65934.

RANGE—Apt. size, \$29; 2 baby beds; dressing table; trunk; GE iron; GE washer, \$5; Horton washer, \$10. H-66616.

BOAT—14 ft. plywood. E-72169.

HOUSE—Four rooms and bath on first floor, same on second; 3 rooms and bath in basement. New gas furnace, nice kitchens. Immediate possession. 1122 Hanna St.

TABLE—Dunlap dining room table and chairs; 2 dressers; fruit jars; cedar chest. H-35872.

WHEELBARROW—Wooden frame with metal bucket, \$5. H-76662.

STOVE—GE range, \$20. Good oven; excellent for cottage. K-2428.

MOWER—Sears Roebuck, reel-type mower. Raise handle to start for rotary blade, \$55. A-65410.

TRUCK—1941 International, one-half ton truck. Motor and body in A-1 shape. 5229 S. Webster St., after 3:30 p.m.

RING—Wedding ring; new, yellow gold, flatball mounting; 5 small diamonds; \$50. A-36692.

RUG—Hunter green rug, 10x19; dining room table. A-89332.

PIANO—Player piano, piano roll cabinet, 126 rolls, 1513 E. Creighton Ave. H-44032.

ORGAN—Pipe organ, condition no object. A-76164 after 7:30 p.m.

## THISA & THATA

### BLDG. 4-3 and 4

by Helen Engle

Someone read a sign under a window: Fire-Exit. Keep Open." She wondered if that meant to keep the window open? ... So glad to see Vera Fetro last week when she paid us a visit. ... Carl "Smurk" Kinsey spent last week-end up in Michigan. ... Welcome to Louise Sinn, Bernadine Warner, and Mary LeBeauf to the field section. ... Mardo Tobias went to Milwaukee to a wedding this past week-end. ... We extend our sympathy to Ray Soest in the death of his mother. ... Windy Boester says they are going to eat this next year since they won so much food at the Home Show. ... The only catch is that he had to buy a freezer to keep all the food in. ... Mary Nute was a happy girl the other day when she was a winner of a bowling trophy. She was high in a three-game series of the Tuesday afternoon league with a 554 series. ... Our sympathy to the Del Winter family. Del worked in our section not too long ago. ... Betty Dunne left us last week. It seems the stork is going to make a call at her home in the future and she is preparing for the call. ... Clarence Rump enjoyed the time trials at Indianapolis. ... Fred Feber knows they have some fish in his lake, as he saw some guy catching some just as he finished painting the seats of his boat and he couldn't go out himself. ... Paul Arnold wishes he could get in on the handouts that Harley Heckley gets. He wouldn't care if they were from the living or the dead, because he says he needs some clothes, as all his extra money is going for his new house. ... It doesn't always pay to go hunting for bargains. It seems that Hazel Niswonger received some money for her birthday and she went to Van Wert, thinking she could buy what she wanted and get it cheaper. Imagine how burned up she was when she discovered the articles she bought could have been gotten here for \$1.34 cheaper! ... Since Everett Lindeman has that new house, he doesn't have time for any fishing or golfing. All he gets done is digging in the yard. ... Eileen Brown has a new GE television set. ... Olga Kuzeff has another new niece and new GE television all at the same time. ... Even since Eleanor Gligor has a way to get to work without riding a bus, she just can't make it on time. Most mornings she eats her breakfast on the way to work. ... We

## TOOL BITS

### BLDG. 19-4 and 5

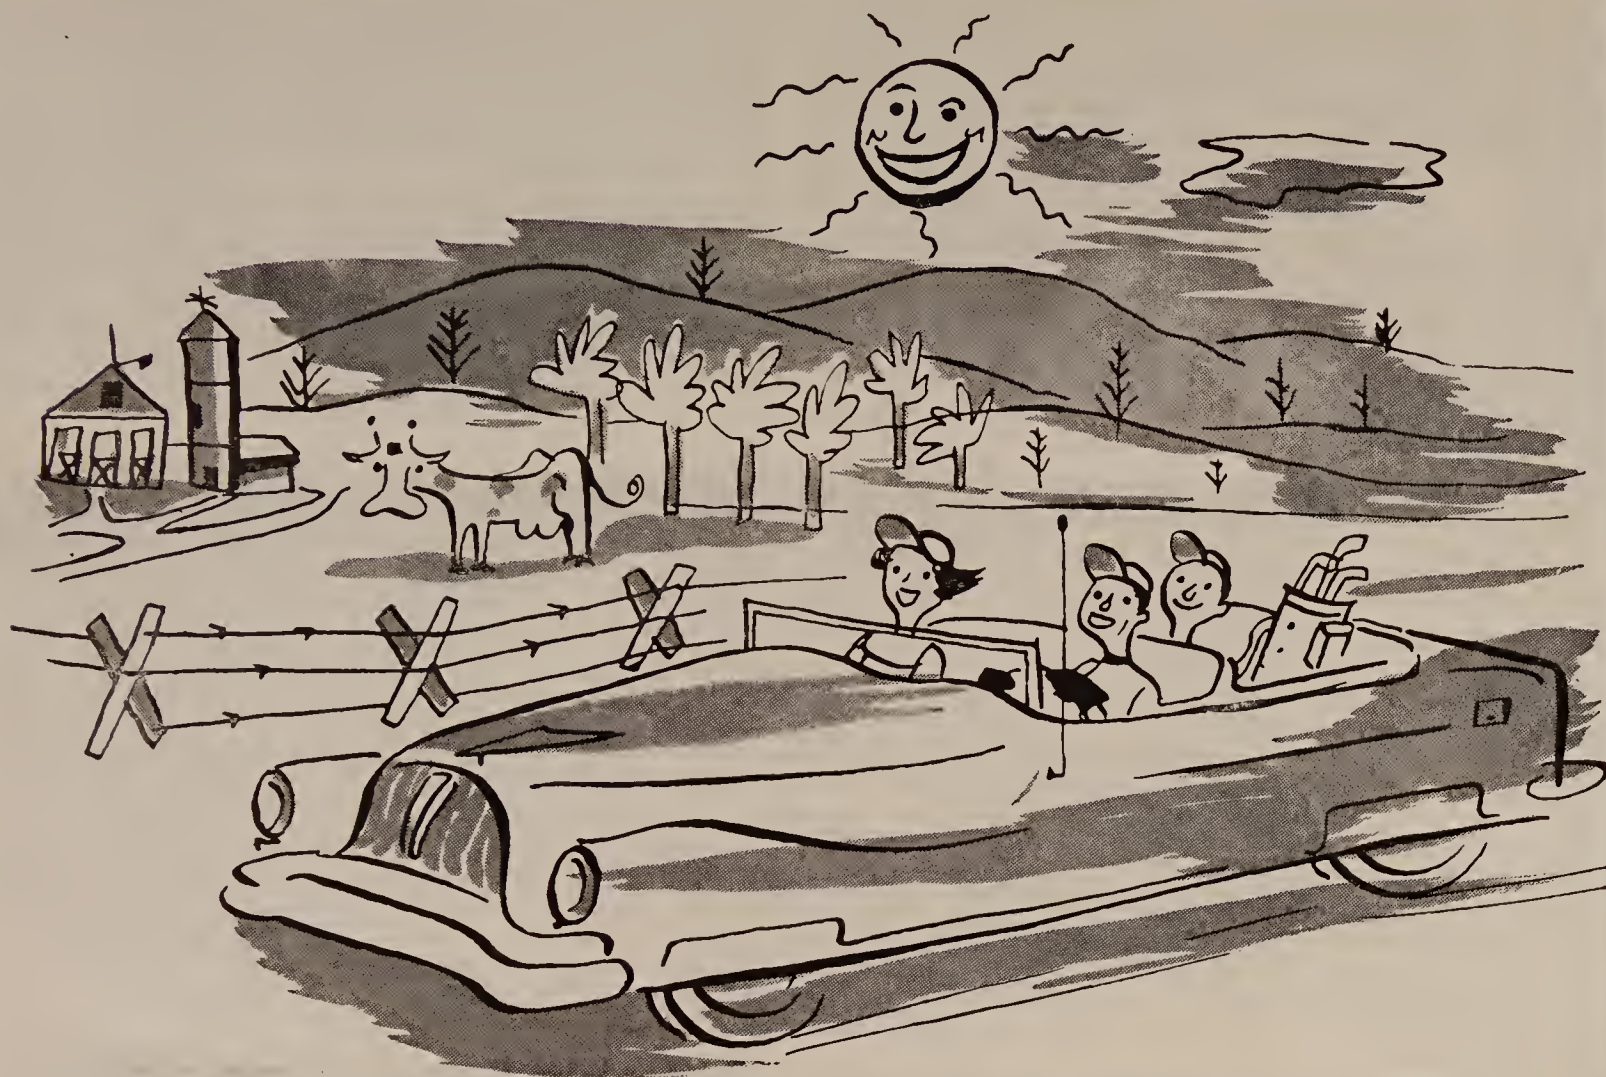

by Howard Demsey

Chet Reynolds and one of his fishing pals took off on a fishing trip, but only got halfway there when they ran out of gas. They put the outboard motor gas into the car but it still wouldn't start. A kind-hearted motorist finally gave them a push and they got into Coldwater, only to have to wait for the station to open to get their gas and fishing licenses. They finally got out on the lake and settled down to pulling in crappies and thought all their bad luck was over. That was when Chet hit the fish bad with an oar and fifteen crappies swam away with no one holding the bag. That didn't even discourage Chet and his friend and they still ended up with 45 fish, although they had to fish until 8 p.m. to do it. ... Better give John Snyder room on the highway, since he attended the time trials last Saturday and may think he's on the track himself. ... We welcome back to the department Kenneth Fosnaugh, who started to work in the planning section this week. ... Pete Carmoney says that everything comes to him who waits. He finally got his new Plymouth. ... Bill Trumbower cut down a tree and cut himself off from the outside world, when the tree fell on his telephone lines. ... Carl Schlenker hurriedly grabbed an apron and came to work last week, only to find he had brought a nurse's apron instead of a shop apron. Come now, Carl, you know you don't have enough patience to be a nurse. ... Dallas Smith discovered a nest of skunks in his garage recently and poked around at mama skunk with a stick to try to get them to seek lodging elsewhere. No, it didn't happen. This story has a happy ending. The skunks left the next day the way they had come, without a scent. ... The sequel to who stole the ding-dong is who stole Earl Lenz's work bench. It was gone when he came to work Monday. ... Roy Paulson likes to work in the garden at his Waldron Lake cottage, but he claims that for every furrow he makes on top of the ground the moles make three underneath. He gets lots of cooperation though from the neighbor's dogs, who come in and dig up the rest of the garden trying to catch the moles. ... Weighing-in ceremonies were held last week for three of the new apprentices. ... Carl Einsiedel and George Spittler told Woody Hursh that Wild Bill Cummings was racing this year at Indianapolis. Woody informed them that Wild Bill had been dead 10 years and they must have gotten their information from a ghost to ghost network. ... Congratulations to Charlie Shipman on his fine pitching performance with the North American Vans when he struck out twelve last Sunday. ... Mart Walsh claims he's all his farm work caught up since he's working nights. ... We all hope Elmer Sauerwein a speedy recovery from the flu. Also we're glad to see Elmer Auman back to work with a nice sun tan. ... Paul Brinkroeger was just two months late for St. Patrick's Day with his beautiful green shirt. ... Kurt Martin tells us the nearest he got to Florida on his vacation was to eat a Florida orange on Florida Avenue in Fort Wayne. H-m-m, these rumors. ... Wilbur Lane attended the James Smart school carnival and won a free haircut as a door prize. The barber is sure glad Wilbur won instead of some long-haired piano player. ... DRIVE SAFELY: Accidents never determine who's right—only who's left.

COPYRIGHT 1954 CARTOONS-OF-THE-MONTH

## THESE CAN BE YOUR BEST FRIENDS

### The Sun...

- Take it easy under the sun. Early in the morning and late in the afternoon are the best times to begin exposing your winter-protected skin to Old Sol.
- At first, exposure periods between the hours of 11 a. m. and 2 p. m. should be avoided. If this is not possible, cover up after 15 minutes.
- You can buy protective creams and lotions. Read directions carefully. Then, do as the manufacturer recommends.
- Respect that fireball in the sky. Remember, a little caution on your part will help to prevent a painful burn, blisters or lasting scars.

### Your Car...

- If you drive carefully and your car is mechanically okay, you will get to your destination safely. Before starting out, have your brakes, tires, steering checked.
- Regulate your car's speed to fit the driving conditions. Darkness, wet roads, fog or heavy traffic may mean cutting your speed, but it's better to arrive at your destination an hour later than not at all.
- Drive to the right and keep your distance behind the car ahead of you. Allow enough room so that you can come to a quick stop without heading for the ditch or plowing into the car ahead.
- Be sure to plan your trip in advance and allow yourself plenty of time.

**Enjoy Your Holiday... But Be Careful!**

No. 22

## QC CLUB PICKS NEW OUTING SITE

### Supervisors Set June 9 For Picnic

The annual picnic of the Supervisors Club will be staged Wednesday, June 9, at the Log Cabin, Wilbur K. Boltz, Bldg. 4-6, and Ed Brink, Bldg. 4-4, administrators of Group 4, announced this week.

Beginning at 5 p.m. the event is open to members only. There will be refreshments and games. A casting and sports demonstration will be presented by Bob Nulf. Various types of sporting equipment will be on display also.

A barbecued beef dinner will be served at 5:30 p.m. Reservations are due by noon Monday, June 7. They may be made with contact men.

The Log Cabin is located west of the city on Olladale Rd. To get to the location, take Spring St. and continue about one mile west of the overpass.

The picnic will conclude activities of the club for the summer, Arthur W. Bireley, president, stated. The next meeting will be in September when a smoker will be held. Succeeding meetings will include a Civic Theater party in October, a December meeting, and the annual meeting in January, 1955.

### GeCode Extends Deadline For Trip Reservations

The deadline for securing reservations for the Decatur GeCode Club sponsored trip to New York City during vacation shutdown has been extended, Dorothy Schnepf, president, reported this week. No final deadline has been set to register for the six-day excursion, the president said.

Those interested in making the vacation trip should make reservations with either Miss Schnepf or Dora Mae Fairchild, travel chairman. A down payment of \$10 is required in signing up. Total cost of the trip for members is \$52.50 per person and for non-members the price is \$54.50. These prices are based on accommodation.

(Continued on Page 4)

### Stage Is Set...

**QC OUTING SITE**—The outdoor theater at Franke Park will be the center of activities at this year's Quarter Century Club picnic. The theater has a seating capacity of 2,100. The park also has two large enclosed pavilions for indoor seating at the noon dinner.

### Franke Park To Be Scene Of Annual Picnic Sept. 11

Franke Park has been selected as the site of the 1954 Quarter Century Club outing Saturday, September 11, the club board of directors announced today. The board voted unanimously to stage this year's outing at the new location in view of its facilities for such an event.

The outdoor theater with a seating capacity of 2100 has a large covered stage and will be very appropriate for the afternoon program and entertainment. Two large enclosed pavilions have been reserved so that both indoor and outdoor seating accommodations will be available for the noon dinner.

Last year's attendance of 1350 at the outing at Municipal Beach indicated general approval of having the event near the city, the board stated. This and the facilities available at Franke Park made it a general choice of the board, members stated.

Chairmen of various events and activities for the outing will be announced later, Wallace E. Beer, president, stated.

One of the new events slated for this year's outing is the gourd and pumpkin contest. The contest is

open to all retired QC members. Seeds were sent the 550 retired members a few weeks ago along with a letter explaining the rules of the contest.

A general exhibition and judging of the entries will be conducted at the outing. Prizes will be awarded the gardeners who have the largest pumpkin, based upon weight and the best variety entry of gourds.

### Dinner Meeting June 9 at C of C Next Elex Event

First shift Elex Club members will have a smorgasbord dinner at the Chamber of Commerce Thursday, June 10, Voyer Brumbaugh, president, reported this week.

Due to the large number making reservations, dinner will be served at two times, the president said. All those who leave work at approximately 3:30 p.m. will attend the dinner at 5 p.m. Those who leave work at approximately 4:30 p.m. will attend the 7 p.m. dinner.

The Sentimental Four quartet will present a musical program at both dinners. The Chamber of Commerce is located at the corner of West Wayne and Ewing streets. The dinners will take place in the second floor dining room.

A total of 126 reservations for the Elex sponsored trip to California have been received thus far, the president reported this week. She has asked that all persons wishing to take the extra one-day trip to Catalina Island please state that they wish to do so when making their reservations. The price is \$5 extra for this trip and all reservations for it must be made before starting out on the trip. Those who do not go to Catalina will go to Tijuana, Mexico.

Reservations for the vacation shutdown trip are due by July 1. Final payments must be made by July 12. Price of the trip for members is \$224 and for non-members it is \$226.50.

## Six Area Employees' Children Receive GE Scholarships, Loans

Four children of Fort Wayne plant employees and one Decatur plant employee's son have received General Electric scholarships for the academic year 1954-55. The awards total \$500 each. Another Fort Wayne employee's son has received a GE loan award totaling \$250 for the 1954-55 academic year.

The scholarship recipients are: Shirley A. Dickison, daughter of Donald H. Dickison, Bldg. 4-2; Phyllis A. Greene, daughter of Mrs. Mildred Greene, Bldg. 4-4; James J. Lowe, son of Myron Jay Lowe, Bldg. 17-4; Jerry D. Pontius, son of Mrs. Vera Sowards, Winter St.; and William G. Tope, son of Russel L. Tope, Decatur. William C. Pomp, son of William J. Pomp, Bldg. 27, received the GE loan award.

A total of 70 scholarship awards were presented to GE employees and children of employees under the company's Educational Assistance Program. In addition to these, 24 GE loans of \$250 each were awarded, and 16 \$250 Gerard Swope Fund Loans at Union College, Schenectady, were made.

Announcement of the awards came today from the Employee Benefits Services Department and marks the 30th successive year that the awards have been given.

The scholarships were awarded to 38 boys and 32 girls for study at 51 different colleges.

#### Shirley A. Dickison

Shirley A. Dickison, 18, is completing her freshman year at Ball State Teachers College. Majoring in secondary education, Shirley plans to teach English and Spanish. She has a 2.5, or 92 scholastic average for her first year of studies. She conducts a 15 minute radio program on the campus station WBST and is a member of the Mike Club, an honorary radio organization. Other college activities include active membership in the Methodist Church Wesley Foundation, Foreign Language Club, English Discussion Club, Association of Women Students, and Association of Women's Residence Halls.

Shirley also received a \$500 GE

scholarship last year. She graduated from Garrett High School in June, 1953 and was co-salutatorian of her class. She was president of the student council and held other class offices. Also, she was active in high school and community organizations. Shirley resides at R. 1, Garrett.

#### Jerry D. Pontius

Also receiving his second GE scholarship is Jerry Pontius, 19. Jerry will complete his sophomore year at DePauw University this month. He was a member of the freshman honorary scholastic fraternity, Pi Eta Sigma. He is a member of the Boy Scout service honorary, men's student governing body, Chemistry Club, Jackson Club, and works on the school paper. He is a member of Delta Chi

### What is America?

WHAT is America? What is the U. S. A.?  
Well, it is purple mountains and fruited plains—  
But it's smoke stacks and railroad ties too  
It's air-coaches and ice cream sodas  
Be-bop and symphonies  
It's Christmas stockings and plus hotels  
Production lines and skyrocketes  
It's TV sets and antique shops  
Advertising signs and factory whistles  
You can put all that together—  
and add a million bags of fertilizer—  
a thousand juke boxes—a hundred Diesel locomotives—  
But the inventory isn't even started.

FOR America's also the country preacher's warm handclasp  
The quick come-back of the smart-looking stenographer  
It's the set jaw of the high school half-back  
The big laugh at the bowling alley  
The close harmony at a wiener roast  
It's the crackle of ham and eggs frying  
The smell of gasoline exhausts and popcorn—  
But America isn't just the sum substance of all things you see and hear and touch.

AMERICA is ideals—beliefs—feelings—  
The opportunity to work your way through college selling magazines  
To invent and sell a million new can-openers  
To get a job or quit one  
To open a hot dog stand or farm your land.  
It's the freedom to talk back to a cop or boo a politician  
To invest your money or hide it under the mattress  
To worship God in your own way  
To run your own life.  
But, you have to look AHEAD to see America  
For, most of all, America is a state of mind—a point of view—a love of moving on—beyond the next hill—the next filling station—the next frontier—  
Expanding—growing—living—beyond the horizon.

THAT'S AMERICA! THAT'S THE U. S. A.!

—Tom Wolff.

### Primer on Communism: No. 7

#### How Is Red Empire Ruled?

Russia uses five principal instruments to rule its satellites: (1) the Russian Army; (2) satellite Communist parties; (3) the Cominform international tool of the Kremlin; (4) the Russian diplomatic corps, and (5) Russian secret police which are at work far beyond Russia's borders.

A sixth method is the assignment of Soviet Russian personnel to serve in the governments of the satellite states. It is also possible for a satellite to "request" and be "granted" admission as a Russian state—a member of the Union of Socialist Soviet Republics (USSR).

(Adapted from the "Primer on Communism," published by the Anti-Defamation League of B'nai B'rith.)

### Pensioners Parade

Mr. and Mrs. George W. Baumgardner celebrated their 50th wedding anniversary recently in Windermere, Fla., where they have been for the past winter. They have returned to the Hoosier State since then and are residing at R. R. 1, Bryant, Ind. now. George retired Sept. 1, 1950 from Bldg. 20-1 with 21 years of service. They are shown in the back yard of their Florida home with an anniversary cake presented them for the occasion.

Attention Quarter Century Pensioners! Have you planted your gourd and pumpkin seeds for the QC contest? Club officers have heard from many pensioners who have planted the seeds and are looking forward to exhibiting their entries at the big outing in September. A special exhibition will be set up and judges will proclaim the winning pumpkins and gourds. To the best "green thumb" gardeners will go prizes.

### THE NIGHT WIND SECTION 417 TAYLOR ST.

by Hazel Davis

Welcome to the lead section, Barbara Nix and Mary Carnos. . . Margaret Kenyon spent Decoration Day at Chapman Lake with friends. . . Mabel Altimus spent the week-end at her cottage at Rome City. Mabel believes in being prepared. She still has the snow tires on her car. She says you never can tell about the weather. . . We are glad to see Eva Weber back at work and looking so well. . . Arleen Helberg attended a ball game in Chicago over the holiday. . . Mary Brown visited in West Virginia. . . We are glad to hear that Irma Smith's husband is improving. . . We are glad to see Keith Steele back from the Marines. . . Gertrude Dreichard and family spent Decoration Day fishing in Michigan. . . Marjorie Furthmiller enjoyed the races at Indianapolis with her husband, who is home on a 15-day leave from the Army. . . Lillian Bradtmiller and family went to Anderson to visit relatives over the holiday. . . Angela Spieth and family fished at Crooked Lake. . . Faye Christie, like many others, was busy cleaning house. . . Stan Converse joined the Isaac Waltons on Memorial Day. . . Helen K. and husband spent the holiday working on their new home. . . Adlena Randolph and family planted their garden on the holiday. . . Virgil Parker is going to Minnesota to visit his wife's folks and bring his wife home. Then he can shave again.

Girls come in two types—those who will take you for what you are, and those who will take you for what you have.
